NET SAVINGS LINK, INC.
Notes to the Unaudited Financial Statements

1. Nature of Operations and Continuance of Business

The unaudited interim financial statements included herein have been prepared by Net Savings Link, Inc. ("NSL" or the "Company") in accordance with accounting principles generally accepted in the United States of America and the rules of the Securities and Exchange Commission. We suggest that these interim financial statements be read in conjunction with the audited financial statements and notes thereto included in our Form 10-K for the year ended November 30, 2014, as filed with the SEC. We believe that all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein and that the disclosures made are adequate to make the information not misleading. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the financial statements which would substantially duplicate the disclosure contained in the audited financial statements for the most recent fiscal year as reported in Form 10-K have been omitted.

2. Going Concern

NSL's financial statements are prepared using Generally Accepted Accounting Principles applicable to a going concern that contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, NSL has generated minimal revenue and accumulated significant losses since inception. As of May 31, 2015, company has accumulated deficit of $1,916,118 and a working capital deficit of $599,033. All of these items raise substantial doubt about its ability to continue as a going concern. Management's plans with respect to alleviating the adverse financial conditions that caused management to express substantial doubt about the NSL's ability to continue as a going concern are as follows:

In order to fund the start-up of operations during the year ended November 30, 2014, NSL entered into several financing transactions and continues to try to raise funds in 2015. The continuation of NSL as a going concern is dependent upon its ability to generating profitable operations that produce positive cash flows. If NSL is not successful, it may be forced to raise additional debt or equity financing.

There can be no assurance that NSL will be able to achieve its business plans, raise any more required capital or secure the financing necessary to achieve its current operating plan. The ability of NSL to continue as a going concern is dependent upon its ability to successfully accomplish the plan described in the preceding paragraph and eventually attain profitable operations. The accompanying financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

3. Related Party Transactions

As of May 31, 2015 and November 30, 2014, the Company owed $75,603 and $67,808, respectively, to the President and CEO of the Company for back due wages.

During March 2015, the company issued 3,500,000 shares of Series A Preferred Stock to its President and CEO in exchange for $67,000 in back due wages and $2,000 in a short-term note. The stock was valued at the higher of the market price of the common stock on the date of issue or the value of the wages and short-term note amount, recognizing additional compensation expense of $631,000.

4. Convertible Promissory Notes Payable

During the six months ended May 31, 2015, the holder of four Convertible Promissory Notes elected to convert a total of $69,540 in principal and $3,072 in interest into 1,406,160,000 shares of the Company's common stock at an average conversion price of $0.0005 per share.

During December 2014, NSL issued an Unsecured Convertible Promissory Note for $104,000 (the "December 2014 Convertible Promissory Note"). The December 2014 Convertible Promissory Note is unsecured, due approximately nine months from the date of issuance, accrues interest at 8% per annum and is convertible into shares of NSL's common stock at any time at the option of the holder. The December 2014 Convertible Promissory Note is convertible at a discount from market of 55% of the average of the three lowest bid prices during the fifteen trading days prior to the conversion date.

Table of Contents

5. Derivative Liabilities

NSL analyzed the conversion options embedded in the Convertible Promissory Notes for derivative accounting consideration under ASC 815, Derivatives and Hedging, and determined that the instruments embedded in the above referenced convertible promissory notes should be classified as liabilities and recorded at fair value due to their being no explicit limit to the number of shares to be delivered upon settlement of the conversion options. Additionally, the above referenced convertible promissory notes contain dilutive issuance clauses. Under these clauses, based on future issuances of NSL's common stock or other convertible instruments, the conversion price of the above referenced convertible promissory notes can be adjusted downward. Because the number of shares to be issued upon settlement of the above referenced convertible promissory notes cannot be determined under this instrument, NSL cannot determine whether it will have sufficient authorized shares at a given date to settle any other future share instruments.

During the six months ended May 31, 2015, three Convertible Promissory Notes became convertible into shares of the Company's common stock. The fair value of the conversion options was determined to be $304,772 using a Black-Scholes option-pricing model. Upon the date the Convertible Promissory Notes became convertible, $122,000 was recorded as debt discount and $182,772 was recorded as day one loss on derivative liability.

During the six months ended May 31, 2015, $69,540 in principal amounts of Convertible Promissory Notes were converted into common stock (see Notes 4 and 6), $230,419 in related derivative liability was extinguished through a charge to paid-in capital and $165,335 was recorded as a net loss on mark-to-market of the conversion options and warrants.

The following table summarizes the derivative liabilities included in the balance sheet at May 31, 2015:

Derivative liabilities November 30, 2014	$390,020
Addition of new derivative	304,772
Reclassification of derivative liability to additional paid-in capital due to promissory note conversions	(230,419)
Gains on change in fair value	(165,355)
Balance at May 31, 201	$299,018

The following table summarizes the loss on derivative liabilities included in the income statement for the six months ended May 31, 2015:

Excess of fair value of conversion option derivative liabilities over the related notes payable	$(182,772)
Gain on change in fair value	165,355
Gain on derivative liabilities	$17,417

NSL valued its derivatives liabilities using the Black-Scholes option-pricing model. Assumptions used during the six months ended May 31, 2015 include (1) risk-free interest rates between 0.01% to 1.52%, (2) lives of between 0 and 4.8 years, (3) expected volatility of between 455% to 925%, (4) zero expected dividends, (5) conversion prices as set forth in the related instruments, and (6) the common stock price of the underlying share on the valuation dates.

6. Stockholders' Equity

Common Stock

During the six months ended May 31, 2015, the Company issued 1,406,160,000 shares of common stock for $69,540 of convertible debt and $3,072 of accrued interest, or $0.0005 per share.

<u>Preferred Stock</u>

During April 2015, the Company authorized the designation of 25,000,000 shares of Series B Convertible Preferred Stock. Each share of Series B Convertible Preferred Stock will have one vote per share and are convertible into one share of common stock at the option of the holder.

Table of Contents

During March 2015, the company issued 3,500,000 shares of Series A Preferred Stock to its President and CEO in exchange for $67,000 in back due wages and $2,000 in a short-term note. The stock was valued at the higher of the market price of the common stock on the date of issue or the value of the wages and short-term note amount, recognizing additional compensation expense of $631,000.

7. Financial Instruments

ASC 820, Fair Value Measurements (ASC 820) and ASC 825, Financial Instruments (ASC 825), requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. It establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. It prioritizes the inputs into three levels that may be used to measure fair value:

Level 1 - Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2 - Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3 - Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

NSL's financial instruments consist principally of cash, accounts payable, and accrued liabilities. Pursuant to ASC 820 and 825, the fair value of cash is determined based on "Level 1" inputs, which consist of quoted prices in active markets for identical assets. The recorded values of all other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

The following table sets forth by level with the fair value hierarchy the Company's financial assets and liabilities measured at fair value on May 31, 2015:

	Level 1	Level 2	Level 3	Total
Assets				
None	$ -	$ -	$-	$-
Liabilities				
Derivative financial instruments	$ -	$ -	$299,018	$299,018

The following table sets forth by level with the fair value hierarchy the Company's financial assets and liabilities measured at fair value on November 30, 2014:

	Level 1	Level 2	Level 3	Total
Assets				
None	$ -	$ -	$-	$-
Liabilities				

Derivative financial instruments	$ -	$ -	$390,020	$390,020

8. Subsequent Events

During July 2015, the Company completed its acquisition of 510 restricted common shares, or 51% of the total 1,000 outstanding common shares of PyroTree, Inc. (PYRO).

Going Concern

We have not attained profitable operations and are dependent upon obtaining financing to pursue any extensive acquisitions and activities. For these reasons, our auditors stated in their report on our audited financial statements that they have substantial doubt that we will be able to continue as a going concern without further financing.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Future Financings

We will continue to rely on equity sales of our common shares in order to continue to fund our business operations. Issuances of additional shares will result in dilution to existing stockholders. There is no assurance that we will achieve any additional sales of the equity securities or arrange for debt or other financing to fund planned acquisitions and exploration activities.

Employment Agreement

On April 5, 2015, we entered into an employment agreement with David M. Pecoraro ("Pecoraro") employing Pecoraro as Vice President of Operations. Pecoraro was to be paid a salary of $79,000.00 per year plus compensation for overtime hours. The employment agreement was subsequently terminated and no compensation was paid.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.

ITEM 4. CONTROLS AND PROCEDURES.

Under the supervision and with the participation of our management, including the Principal Executive Officer and Principal Financial Officer, we have evaluated the effectiveness of our disclosure controls and procedures as required by Exchange Act Rule 13a-15(b) as of the end of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer have concluded that these disclosure controls and procedures are not effective because procedures were not in place to provide for timely, complete, accurate reporting of events. The foregoing was a result of our president's lack of experience with his reporting and disclosure obligations, lack of proper segregation of duties due to limited personnel, and a lack of formal review process that includes multiple levels of review, resulting in audit adjustments related to the derivative liability account, accounting of the Company's convertible debt instruments and conversions and bad debt. Our president is committed to educating himself through the seminars and consulting with attorneys to become fully knowledgeable with his obligations. In addition, currently there are no written policies or procedures that clearly define the roles in the disclosure and reporting process.

There were no changes in our internal control over financial reporting during the quarter ended May 31, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1A. RISK FACTORS.

We are a smaller reporting company as defined by Rule 12b-2 of the Securities Exchange Act of 1934 and are not required to provide the information under this item.
