Item 2.02. Results of Operations and Financial Condition.

On October 17, 2011, AGL Resources Inc. (the “Company”) issued a press release announcing that its third quarter 2011 earnings results are expected to be in the range of \$(0.07) to \$(0.01) per diluted share. These results are principally due to lower contributions from the Wholesale Services segment driven by a number of factors including: lower natural gas price spreads; lower volatility in the natural gas wholesale market; and the effect of new pipeline constraints and a lack of available pipeline transportation capacity. As a result, the company expects full-year 2011 earnings to be in the range of \$2.90 to \$3.00 per diluted share, compared to its previously announced guidance of \$3.10 to \$3.20 per diluted share. A copy of the press release is attached hereto as Exhibit 99.1 and incorporated by reference herein.

The information in the preceding paragraph, as well as Exhibit 99.1 referenced therein, shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, nor incorporated by reference in any filing under the Securities Act of 1933, as amended, unless AGL Resources Inc. expressly so incorporates such information by reference.

Item 9.01. Financial Statements and Exhibits.
