ITEM 1. DESCRIPTION OF BUSINESS

We were incorporated in Delaware on March 31, 1999 as Bullet Environmental Systems, Inc. and on May 25, 2000 we changed our name to Liquidpure Corp. On February 14, 2002 we changed our name to Coventure International Inc. Our original business plan involved the manufacturing and marketing of potable and waste-water treatment systems to various commercial, agricultural, and industrial markets. We never sold any water treatment systems and on October 1, 2001 the agreement under which this plan of business originated was terminated.

We plan provide consulting services to small and medium sized businesses in North America through a network of regionally licensed operators. Our consulting services will be designed to improve a client's profitability through strategic analysis, planning, consulting and ongoing evaluation. Our core services will attempt to identify inefficiencies and trouble spots in a business before they cause significant problems.

We have tested the Coventure Analysis methodologies on a mid-sized firm located in Calgary, Alberta. The results proved that the methodology for assessing business dysfunction was sound, however management is refining the process of presenting the results to the client. Our website, WWW.COVENTURE.COM became active in May 2002.

Products or Services

We plan to provide the following products and services to our clients. We will be able to provide these services once we raise $100,000 in capital. Of this amount, the $50,000 will be used to hire and train the analysts and consultants which will provide these services to future clients and $50,000 will be used to market our products, services, and licensing program. We do not know when we will obtain the $100,000 in capital. Our initial focus will be on the development of Canadian and American markets.

We anticipate pricing our products and services at rates which are comparable to those charged by consulting firms serving small and mid-sized businesses and which are located in the same area as the client.

Diagnostic Assessment

Our Business Analysts will be trained to conduct an exhaustive Diagnostic Study. The Diagnostic Study will reveal the unique conditions, concerns and procedures that each individual business possesses as well as local economic conditions and domestic factors that impact a business in the client's area of operation. Upon completion of the Diagnostic Study, the Analyst will provide a confidential review and report of the findings, with recommendations.

Our Diagnostic Study reviews the following areas of a client's business:

- Current and historical financial records, statements and reports
- Strategic and Operating Plans/Budgeting Policies
- The Organization Structure
- Policies and Procedures - Employee Manuals
- Internal Reporting Systems and Document Flows
- Employee Moral and Attitudes
- Management - Employee Communication
- Employee and Management Compensation
- Management Goals and Philosophy
- Fixed and Variable Cost Analysis
- Receivable and payable policies and performance
- Breakeven Assessments
- Pricing Strategies
- Sales and Marketing
- Supply Chain Management and Costs
- Inventory Controls and Performance
- Productivity and Employee Training
- Quality Controls and Customer Satisfaction
- Administration and Management Systems and Integration

Consulting Services

Following the completion of the Diagnostic Study, the information in the Diagnostic Study will be evaluated and a consulting program will be prepared to address those factors necessary for the client to achieve optimal levels of profitability.

If requested by a client, we will periodically evaluate the client's business, changing economic factors, and the client's progress in implementing our recommendations.

Licensing

Unlike most competing firms that target small businesses on a nation-wide basis, we plan to secure regional representation through licensing exclusive territories to third parties.

Licensee candidates will be chosen for their past experience, personality, education and passion for the small business sector. The amount paid to us as a licensing fee will provide the licensee with all of the appropriate training for their regional staff, promotional and diagnostic materials, regional advertising, the initiation of a telemarketing program, some equipment, software and most legal costs. All revenues generated by the regional licensee will be billed through us and an average commission of 15% will be paid to the licensee. All telephone, regional travel, entertainment and overhead costs in a territory will be the responsibility of the licensee.

A licensee will be formally reviewed each quarter. Annual and quarterly targets will be established prior to each new fiscal period. A manager will be assigned to assist and guide the licensee and his operatives in securing their targets. Upon two consecutive quarterly targets being not met, the licensee will receive a warning that his territory is in jeopardy of being revoked. If attempts to remedy the licensee's territory have proved unsuccessful the territory will be reassigned and the licensee will lose their licensing fee. A non-competition agreement will keep licensees from consulting in the regional market for a period of one year.

We plan to license the following Canadian markets in 2003: Edmonton, Kelowna and Vancouver. As of October 24, 2003 we have not licensed any of these markets.

Other Services

If the results of our Diagnostic Study reveal a need for legal, accounting, tax, or related professional services, we will refer the small business owner to firms which specialize in providing these services to small and mid-sized businesses.

Competition

The leaders in the small and medium business consulting market include George S. May International and International Business Analysts. Both are located in Chicago, Illinois and are represented through-out North America. These large competitors are not regionally represented and are priced higher than the accounting services that most of the target market works with. In each territory we will also compete with numerous local and regional firms which provide business consulting services. We believe our competitive advantage will be our focus on only small and mid-sized businesses. By focusing on small and mid-sized businesses, we expect that our analysts and consultants will be more familiar with the unique range of issues facing companies of this size. As of October 24, 2003 we were not competing in the consulting industry and we will not be able to compete until we raise a minimum of $100,000 in capital and begin operations.

Offices and Employees

We do not have any full-time employees. We have one part-time employee, John Hromyk, who is our sole officer and director. Mr. Hromyk is involved in other full-time business activities and acts as an officer on a part-time basis as needed. Hiring of other management, staff and consultants will occur incrementally as funds become available and the need arises. We have no collective bargaining agreements or employment agreements in existence.

ITEM 2. DESCRIPTION OF PROPERTY

We have no material assets and, as such, we do not own any real or personal property. We rent office space located at 404 First Street West, Unit 3, Cochrane, Alberta T4C 1A5. We lease this space at a cost of $836 per month until August 31, 2006. We are also responsible for our proportionate share of operating costs, which as of October 24, 2003 were $222 per month. We believe this space is sufficient at this time.

ITEM 3. LEGAL PROCEEDINGS.

We are not involved in any pending or threatened legal proceeding.

ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS.

No matters were submitted during the fiscal year covered by this report to a vote of our security holders, through the solicitation of proxies or otherwise.

ITEM 5. MARKET FOR THE COMPANY'S COMMON EQUITY AND RELATED STOCKHOLDER MATTERS

As of October 24, 2003, we had 7,022,200 outstanding shares of common stock and forty-seven shareholders of record. We do not have any outstanding options, warrants or other arrangements providing for the issuance of additional shares of our capital stock.

Although our common stock is listed for trading on the OTC Bulletin Board under the symbol "CVNI", as of October 24, 2003 there had been no trades in our common stock.

Holders of our common stock are entitled to receive such dividends as may be declared by our Board of Directors. The Board of Directors is not obligated to declare a dividend. No dividends have ever been declared and we do not anticipate or intend upon paying dividends for the foreseeable future.

Our Articles of Incorporation authorize our Board of Directors to issue up to 5,000,000 shares of Preferred Stock. The provisions in the Articles of Incorporation relating to the Preferred Stock allow our directors to issue Preferred Stock with multiple votes per share and dividend rights which would have priority over any dividends paid with respect to the holders of our common stock. The issuance of Preferred Stock with these rights may make the removal of management difficult even if the removal would be considered beneficial to shareholders generally, and will have the effect of limiting shareholder participation in certain transactions such as mergers or tender offers if these transactions are not favored by our management.

Trades of our common stock are subject to Rule 15g-9 of the Securities and Exchange Commission, which imposes certain requirements on broker/dealers who sell securities subject to the rule to persons other than established customers and accredited investors. For transactions covered by the rule, brokers/dealers must make a special suitability determination for purchasers of the securities and receive the purchaser's written agreement to the transaction prior to sale. The Securities and Exchange Commission also has rules that regulate broker/dealer practices in connection with transactions in "penny stocks". Penny stocks generally are equity securities with a price of less than $5.00 (other than securities registered on certain national securities exchanges or quoted on the NASDAQ system, provided that current price and volume information with respect to transactions in that security is provided by the exchange or system). The penny stock rules require a broker/ dealer, prior to a transaction in a penny stock not otherwise exempt from the rules, to deliver a standardized risk disclosure document prepared by the Commission that provides information about penny stocks and the nature and level of risks in the penny stock market. The broker/dealer also must provide the customer with current bid and offer quotations for the penny stock, the compensation of the broker/dealer and its salesperson in the transaction, and monthly account statements showing the market value of each penny stock held in the customer's account. The bid and offer quotations, and the broker/dealer and salesperson compensation information, must be given to the customer orally or in writing prior to effecting the transaction and must be given to the customer in writing before or with the customer's confirmation. These disclosure requirements may have the effect of reducing the level of trading activity in the secondary market for our common stock.

ITEM 6. MANAGEMENT'S DISCUSSION AND ANALYSIS OR PLAN OF OPERATIONS

Our plan of business encompasses the following steps.

- Raise capital of $250,000 through the sale of equity securities prior to October 31, 2004.
- Refine, market and expand our business plan and begin our licensing program
- Hire and train an outside sales force, analysts and consultants

Although we have made initial progress in implementing our business, we will face considerable risks in each step of our business plan. Our website, WWW.COVENTURE.COM became active in May 2002.

Year ended July 31, 2001: Activity during the year ended July 31, 2001 was confined to the development of a business plan and securing an Internet website.

Year ended July 31, 2002: During the year ended July 31, 2002 our operations used $46,694 in cash. Operating capital was provided by a loan of $10,000 from John Hromyk, our President, the sale of the 80,000 shares of our common stock for $20,000 to Jacquie Hromyk, the wife of Mr. Hromyk, and the sale of shares of our common stock for $17,500 to an unrelated third party.

Year ended July 31, 2003: During this fiscal year our operations used $59,444 in cash. Operating capital was provided by the sale of 256,000 shares of our common stock for $64,000 ($0.25 per share). Subsequent to July 31, 2003 we sold 48,000 shares of our common stock for $12,000 ($0.25 per share).

We will be able to begin providing consulting services once we raise $100,000 in capital. Of this amount, $50,000 will be used to hire and train the analysts and consultants which will provide these services to future clients and $50,000 will be used to market our products, services, and licensing program. We do not know when we will obtain the $100,000 in capital.

Consolidated Financial Statements

REPORT OF INDEPENDENT AUDITOR

To the Stockholders of
Coventure International Inc.
(formerly Liquidpure Corp.)

We have audited the accompanying consolidated balance sheets of Coventure International Inc. (a development stage enterprise) as of July 31, 2003 and 2002 and the related consolidated statements of operations, stockholders' equity (deficit) and cash flows for the years ended July 31, 2003 and 2002 and for each of the periods from March 31, 1999 (date of incorporation) to July 31, 2003 and 2002. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform an audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Coventure International Inc. at July 31, 2003 and 2002, and the results of its operations and its cash flows for the years ended July 31, 2003 and July 31, 2002 and for each of the periods from March 31, 1999 (date of incorporation) to July 31, 2003 and 2002, in conformity with accounting principles generally accepted in the United States.

The accompanying consolidated financial statements have been prepared assuming that the Company will continue as a going concern. As discussed in Note 1 to the financial statements, the Company is in the development stage, has no established source of revenue and is dependent on its ability to raise capital from stockholders or other sources to sustain operations. These factors, along with other matters as set forth in Note 1, raise doubt that the Company will be able to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

1. FORMATION AND BUSINESS OF THE COMPANY

Coventure International Inc. (the "Company") was incorporated in Delaware, U.S.A. on March 31, 1999 as Bullet Environmental Systems, Inc. and changed its name on May 25, 2000 to Liquidpure Corp. On February 14, 2002, the Company changed its name to Coventure International Inc.

The Company is a development stage enterprise engaged in the business of providing management consulting products and services through an eventual network of regionally licensed operators in North America. The Company's services will include strategic analysis, planning, consulting and coaching. To date the Company has not commenced significant operational activities.

These financial statements include the accounts of the Company and its wholly-owned subsidiary Coventure Canada Inc. (the "Subsidiary"). The Subsidiary was incorporated in the Province of Alberta, Canada on February 5, 2002.

Going concern
The accompanying financial statements have been presented assuming the Company will continue as a going concern. At July 31, 2003, the Company had accumulated $146,039 in losses and had no material revenue producing operations. At the date of this report, the Company's ability to continue as a going concern is dependent upon its ability to raise additional capital, achieve profitable operations or merge with a revenue-producing venture partner.

2. SIGNIFICANT ACCOUNTING POLICIES

Revenue Recognition
The Company recognizes revenue in accordance with applicable accounting regulations. Accordingly, revenues from services are recognized when all significant contractual obligations have been satisfied and collection is reasonably assured.

Use of estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions

that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

2. SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Income taxes
The Company uses the liability method of accounting for income taxes. Under this method, deferred tax assets and liabilities are determined based on the difference between financial statement and tax bases of assets and liabilities and are measured using the enacted tax rates and laws that are expected to be in effect when the differences are expected to reverse. Deferred tax assets are reduced by a valuation allowance in respect of amounts considered by management to be less likely than not of realization in future periods.

Foreign currency translation
Unless otherwise stated, all amounts are in United States dollars. The functional currency of the Company and its Subsidiary is the Canadian dollar. Hence, all asset and liability amounts denominated in Canadian dollars have been translated using the exchange rate as at July 31, 2002 and all expenses have been translated using the average exchange rate for each month. The rates used were as follows:

(equivalent Cdn $ per U.S. $)

	2003	2002
July 31 rate	.7118	.6318

Depreciation
Depreciation of property, plant and equipment is provided for on the straight-line basis over the estimated useful life of the assets, estimated to be four years. One-half the normal rate is taken in the year of acquisition.

Holders of the common stock are entitled to one vote per share and share equally in any dividends declared and distributions on liquidation.
