Securities registered pursuant to section 12(g) of the Act:
None
(Title of Class)

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Exchange Act. Yes No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15 (d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the Registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No ___

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes___ No___

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of Registrant's knowledge, in definitive proxy of information statements incorporated by reference as Part III of this Form 10-K or any amendment to this Form 10-K.

Edgar Filing: UNICO AMERICAN CORP - Form 10-K

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, or a non-accelerated filer. See definition of “accelerator filer and large accelerator in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer

Accelerated filer

Non-accelerated filer

Smaller reporting company

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

The aggregate market value of registrant’s voting and non-voting common equity held by non-affiliates as of June 30, 2009, the last business day of Registrant’s most recently completed second fiscal quarter was \$20,836,787.

Indicate the number of shares outstanding of each of the issuer’s classes of common stock, as of the latest practicable date.

Class	Outstanding at March 25, 2010
Common Stock, \$0 Par value per share	5,306,204

Portions of the definitive proxy statement that Registrant intends to file pursuant to Regulation 14(A) by a date no later than 120 days after December 31, 2009, to be used in connection with the annual meeting of shareholders, are incorporated herein by reference into Part III hereof. If such definitive proxy statement is not filed in the 120-day period, the information called for by Part III will be filed as an amendment to this Form 10-K not later than the end of the 120-day period.

PART I

Item 1. Business.

Unico American Corporation is an insurance holding company that underwrites property and casualty insurance through its insurance company subsidiary; provides property, casualty, and health insurance through its agency subsidiaries; and provides insurance premium financing and membership association services through its other subsidiaries. Unico American Corporation is referred to herein as the "Company" or "Unico" and such references include both the corporation and its subsidiaries, all of which are wholly owned, unless otherwise indicated. Unico was incorporated under the laws of Nevada in 1969.

Descriptions of the Company's operations in the following paragraphs are categorized between the Company's major segment - insurance company operation, and all other revenues from insurance operations. The insurance company operation is conducted through Crusader Insurance Company (Crusader), Unico's property and casualty insurance company. Insurance company revenues and other revenues from insurance operations for the years ended December 31, 2009, December 31, 2008, and December 31, 2007, are as follows:

	Year ended December 31					
	2009		2008		2007	
	Total Revenues	Percent of Total Company Revenues	Total Revenues	Percent of Total Company Revenues	Total Revenues	Percent of Total Company Revenues
Insurance company revenues	\$35,936,552	86.3 %	\$40,527,988	86.7 %	\$44,137,213	87.6 %
Other revenues from insurance operations

INSURANCE COMPANY OPERATION

General

The insurance company operation is conducted through Crusader. Crusader is a multiple line property and casualty insurance company that began transacting business on January 1, 1985. Since 2004, all Crusader business has been written in the state of California. During the year ended December 31, 2009, approximately 98% of Crusader's business was commercial multiple peril policies. Commercial multiple peril policies provide a combination of property and liability coverage for businesses. Commercial property coverage insures against loss or damage to buildings, inventory and equipment from natural disasters, including hurricanes, windstorms, hail, water, explosions, severe winter weather, and other events such as theft and vandalism, fires, storms, and financial loss due to business interruption resulting from covered property damage. However, Crusader does not write earthquake coverage. Commercial liability coverages insure against third party liability from accidents occurring on the insured's premises or arising out of its operation. In addition to commercial multiple peril policies, Crusader also writes separate policies to insure commercial property and commercial liability risks on a mono-line basis. As of December 31, 2009, Crusader was licensed as an admitted insurance carrier in the states of Arizona, California, Nevada, Oregon, and Washington.

The insurance marketplace continues to be intensely competitive as more insurers are competing for the same customers. Many of Crusader's competitors price their insurance at rates that the Company believes are inadequate to support an underwriting profit. While Crusader attempts to meet such competition with competitive prices, its emphasis is on service, promotion, and distribution. Crusader believes that rate adequacy is more important than premium growth and that underwriting profit (net earned premium less losses and loss adjustment expenses and policy acquisition costs) is its primary goal. Nonetheless, Crusader believes that it can grow its sales and profitability by continuing to focus upon three key areas of its operations: (1) product development, (2) improved service to retail brokers, and (3) appointment of captive and independent retail agents. During 2009, Crusader continued to introduce product changes such as rates, eligibility guidelines, rules and coverage forms. Improved service is primarily focused upon transacting business through the internet, as well as providing more options to make the agents' and brokers' time more efficiently spent with Crusader (i.e., as opposed to spending time with Crusader's competitors). As of December 31, 2009, Crusader had appointed sixteen retail agents. Presently, it is expected that each such retail agent should be able to reach an annual sales volume of approximately one to two million dollars of Crusader's products within three to five years of their appointment by Crusader. However, Crusader does not intend to substantially increase its number of retail agents appointed until such time as the Company implements a new policy administration system. The Company is in the final stages of selecting an outside vendor to provide it with a state of the art policy administration software system. The Company estimates implementation of the new software system to take approximately one to one and one-half years from the date the vendor is selected.

All of Crusader's business is produced by Unifax Insurance Systems, Inc. (Unifax), its sister corporation. Unifax has substantial experience with these classes of business. The commissions paid by Crusader to Unifax are eliminated as intercompany transactions and are not reflected in the previous table. Crusader is licensed in property and casualty and disability lines of insurance by the California Department of Insurance.

Reinsurance

A reinsurance transaction occurs when an insurance company transfers (cedes) a portion of its exposure on policies written by it to a reinsurer that assumes that risk for a premium (ceded premium). Reinsurance does not legally discharge the Company from primary liability under its policies. If the reinsurer fails to meet its obligations, the Company must nonetheless pay its policy obligations.

Crusader's primary excess of loss reinsurance agreements since January 1, 1998, are as follows:

Loss Year(s)	Reinsurer(s)	A.M. Best Rating	Retention	Annual Aggregate Deductible
2005 – 2009	Platinum Underwriters Reinsurance, Inc. & Hannover Ruckversicherungs AG	A A	\$300,000	\$500,000
2004	Platinum Underwriters Reinsurance, Inc. & Hannover Ruckversicherungs AG	A A	\$250,000	\$500,000
2003	Platinum Underwriters Reinsurance, Inc. & Hannover Ruckversicherungs AG & QBE Reinsurance Corporation	A A A	\$250,000	\$500,000
2002	Partner Reinsurance Company of the U.S.	A+	\$250,000	\$675,000

Edgar Filing: UNICO AMERICAN CORP - Form 10-K

2000 - 2001	Partner Reinsurance Company of the U.S.	A+	\$250,000	\$500,000
1998 - 1999	General Reinsurance Corporation	A++	\$250,000	\$750,000

Prior to January 1, 1998, National Reinsurance Corporation (acquired by General Reinsurance Corporation in 1996) charged a provisional rate on exposures up to \$500,000 that was subject to adjustment and was based on the amount of losses ceded, limited by a maximum percentage that could be charged. That provisionally rated treaty was cancelled on a runoff basis and replaced by a flat rated treaty on January 1, 1998.

In 2009 and 2008 Crusader retained a participation in its excess of loss reinsurance treaties of 20% in its 1st layer (\$700,000 in excess of \$300,000), 15% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 0% in its property and casualty clash treaty. In 2007 Crusader retained a participation in its excess of loss reinsurance treaties of 15% in its 1st layer (\$700,000 in excess of \$300,000), 15% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 15% in its property clash treaty. In 2006 and 2005 Crusader retained a participation in its excess of loss reinsurance treaties of 10% in its 1st layer (\$700,000 in excess of \$300,000), 10% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property and casualty clash treaties. In 2004 Crusader retained a participation in its excess of loss reinsurance treaties of 10% in its 1st layer (\$750,000 in excess of \$250,000), 10% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property and casualty clash treaties. In 2003 Crusader retained a participation in its excess of loss reinsurance treaties of 5% in its 1st layer (\$750,000 in excess of \$250,000), 10% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property and casualty clash treaties.

The 2007 through 2009 excess of loss treaties do not provide for a contingent commission. Crusader's 2006 1st layer primary excess of loss treaty provides for a contingent commission equal to 20% of the net profit, if any, accruing to the reinsurer. The first accounting period for the contingent commission covers the period from January 1, 2006, through December 31, 2006. The 2005 excess of loss treaties do not provide for a contingent commission. Crusader's 2004 and 2003 1st layer primary excess of loss treaties provide for a contingent commission to the Company equal to 45% of the net profit, if any, accruing to the reinsurer. The first accounting period for the contingent commission covers the period from January 1, 2003, through December 31, 2004. For each accounting period as described above, the Company will calculate and report to the reinsurers its net profit (excluding incurred but not reported losses), if any, within 90 days after 36 months following the end of the first accounting period, and within 90 days after the end of each 12-month period thereafter until all losses subject to the agreement have been finally settled. Any contingent commission received is subject to return based on future development of ceded losses and loss adjustment expenses. As of December 31, 2009, the Company has received a total net contingent commission of \$3,108,324 for the years subject to contingent commission. Of this amount, the Company has recognized \$1,686,380 of contingent commission income, of which \$766,651 was recognized in the year ended December 31, 2009. The remaining balance of the net payments received of \$1,421,944 is currently unearned and included in "Accrued Expenses and Other Liabilities" in the consolidated balance sheets. The unearned contingent commission may be subsequently earned or returned to the reinsurer depending on the future development of the ceded IBNR for the years subject to contingent commission.

Crusader also has catastrophe reinsurance from various highly rated California authorized and unauthorized reinsurance companies. These reinsurance agreements help protect Crusader against liabilities in excess of certain retentions, including major or catastrophic losses that may occur from any one or more of the property and/or casualty risks which Crusader insures. The Company has no reinsurance recoverable balances in dispute.

The Company evaluates each of its ceded reinsurance contracts at their inception to determine if there is sufficient risk transfer to allow the contract to be accounted for as reinsurance under current accounting literature. As of December 31, 2009, all such ceded contracts are accounted for as risk transfer reinsurance.

The aggregate amount of earned premium ceded to the reinsurers was \$9,276,407 for the year ended December 31, 2009, \$8,771,069 for the year ended December 31, 2008, and \$11,532,308 for the year ended December 31, 2007.

On most of the premium that Crusader cedes to the reinsurer, the reinsurer pays a commission to Crusader that includes a reimbursement of the cost of acquiring the portion of the premium that is ceded. Crusader does not currently assume any reinsurance. The Company intends to continue obtaining reinsurance although the availability and cost may vary from time to time. The unpaid losses ceded to the reinsurer are recorded as an asset on the balance sheet.

Unpaid Losses and Loss Adjustment Expenses

Crusader maintains reserves for losses and loss adjustment expenses with respect to both reported and unreported losses. When a claim for loss is reported to the Company, a reserve is established for the expected cost to settle the claim, including estimates of any related legal expense and other costs associated with resolving the claim. These reserves are called “case based” reserves. In addition, the Company also sets up reserves at the end of each reporting period for losses that have occurred but have not yet been reported to the Company. These incurred but not reported losses are referred to as “IBNR” reserves.

Crusader establishes reserves for reported losses based on historical experience, upon case-by-case evaluation of facts surrounding each known loss, and the related policy provisions. The amount of reserves for unreported losses is estimated by analysis of historical and statistical information. The ultimate liability of Crusader may be greater or less than estimated reserves. Reserves are monitored and adjusted when appropriate and are reflected in the statement of operations in the period of adjustment. Reserves for losses and loss adjustment expenses are estimated to cover the future amounts needed to pay claims and related expenses with respect to insured events that have occurred.

The process of establishing loss and loss adjustment expense reserves involves significant judgment. The following table shows the development of the unpaid losses and loss adjustment expenses for fiscal years 1999 through 2009. The top line of the table shows the estimated liability for unpaid losses and loss adjustment expenses, net of reinsurance, recorded at the balance sheet date for each of the indicated years. This liability represents the estimated amount of losses and loss adjustment expenses for losses arising in the current and prior years that are unpaid at the balance sheet date. The table shows the reestimated amount of the previously recorded liability based on experience as of the end of each succeeding year. The estimate may change as more information becomes known. The Company believes that its loss and loss adjustment expense reserves are properly stated. When subsequent loss and loss adjustment expense development justifies changes in reserving practices, the Company responds accordingly.

The following table reflects redundancies and deficiencies in Crusader's net loss and loss adjustment expense reserves. The net reserves for the 2002 through 2008 periods reflect a cumulative redundancy. The gross reserves also reflect a cumulative redundancy deficiency for the 2002 through 2008 periods. See discussion of losses and loss adjustment expenses in Item 7 - "Management's Discussion and Analysis - Results of Operations - Insurance Company Operation."

When evaluating the information in the following table, it should be noted that each amount includes the effects of all changes in amounts of prior periods; therefore, the cumulative redundancy or deficiency represents the aggregate change in the estimates over all prior years. Conditions and trends that have affected development of liability in the past may not necessarily occur in the future. Accordingly, it may not be appropriate to extrapolate future deficiencies or redundancies based on this table.

Net Premium Written to Policyholders' Surplus Ratio

The following table shows, for the periods indicated, Crusader's statutory ratios of net premium written to statutory policyholders' surplus. Since each property and casualty insurance company has different capital needs, an "acceptable" ratio of net premium written to policyholders' surplus for one company may be inapplicable to another. While there is no statutory requirement applicable to Crusader that establishes a permissible net premium to surplus ratio, guidelines established by the National Association of Insurance Commissioners (NAIC) provide that such ratio should generally be no greater than 3 to 1.

Statutory:	Twelve months ended December 31				
	2009	2008	2007	2006	2005
Net premium written	\$29,635,898	\$31,175,204	\$33,412,745	\$38,166,864	\$46,030,707
Policyholders' surplus	\$62,553,813	\$64,736,230	\$57,862,334	\$50,023,768	\$36,586,441
Ratio	0.5 to 1	0.5 to 1	0.6 to 1	0.8 to 1	1.3 to 1

Crusader's results are reported in accordance with U.S. generally accepted accounting principles (GAAP). These results differ from its financial results reported in accordance with Statutory Accounting Principles (SAP) as prescribed or permitted by insurance regulatory authorities. Crusader is required to file financial statements with insurance regulatory authorities prepared on a SAP basis.

SAP differs in certain respects from GAAP. The more significant of these differences that apply to Crusader are:

- Under GAAP, policy acquisition costs such as commissions, premium taxes and other variable costs incurred in connection with writing new and renewal business are capitalized and amortized on a pro rata basis over the period in which the related premiums are earned, rather than expensed as incurred as required by SAP.
 - Certain assets included in balance sheets under GAAP are designated as "non-admitted assets" and are charged directly against statutory surplus under SAP. Non-admitted assets include primarily premium receivables that are outstanding over 90 days, federal deferred tax assets in excess of statutory limitations, furniture, equipment, leasehold improvements, and prepaid expenses.
- Under GAAP, amounts related to ceded reinsurance are shown gross as prepaid reinsurance premiums and reinsurance recoverable, rather than netted against unearned premium reserves and loss and loss adjustment expense reserves, respectively, as required by SAP.
- Under GAAP, fixed maturity securities that are classified as available-for-sale are reported at estimated fair values, rather than at amortized cost or the lower of amortized cost or market, depending on the specific type of security as required by SAP.
 - The differing treatment of income and expense items results in a corresponding difference in federal income tax expense. Under GAAP reporting, changes in deferred income taxes are reflected as an item of income tax benefit or expense. As required by SAP, federal income taxes are recorded as income tax benefit or expense when payable and deferred taxes, subject to limitations, are recognized but only to the extent that they do not exceed a specified percentage of statutory surplus. Changes in deferred taxes are recorded directly to statutory surplus.

Regulation

The insurance company operation is subject to regulation by the California Department of Insurance (the insurance department) and by the department of insurance of other states in which Crusader is licensed. The insurance department has broad regulatory, supervisory, and administrative powers. These powers relate primarily to the

standards of solvency which must be met and maintained; the licensing of insurers and their agents; the nature and limitation of insurers' investments; the prior approval of rates, rules and forms; the issuance of securities by insurers; periodic financial and market conduct examinations of the affairs of insurers; the annual and other reports required to be filed on the financial condition and results of operations of such insurers or for other purposes; and the establishment of reserves required to be maintained for unearned premiums, losses, and other purposes. The regulations and supervision by the insurance department are designed principally for the benefit of policyholders and not for the insurance company shareholders. The insurance department's Market Conduct Division is responsible for conducting periodic examinations of companies to ensure compliance with California Insurance Code and California Code of Regulations with respect to rating, underwriting and claims handling practices. The most recent Market Conduct Examination of Crusader covered rating and underwriting practices in California during the period from December 15, 2005, through April 10, 2006. No significant issues were reported as a result of that examination. The insurance department also conducts periodic financial examinations of Crusader. During 2009, the insurance department completed a financial examination of Crusader's December 31, 2005, through December 31, 2008, statutory financial statements. A final report on the examination was issued by the insurance department on October 22, 2009. No significant issues were reported as a result of that examination.

In December 1993, the NAIC adopted a Risk-Based Capital (RBC) Model Law for property and casualty companies. The RBC Model Law is intended to provide standards for calculating a variable regulatory capital requirement related to a company's current operations and its risk exposures (asset risk, underwriting risk, credit risk and off-balance sheet risk). These standards are intended to serve as a diagnostic solvency tool for regulators that establishes uniform capital levels and specific authority levels for regulatory intervention when an insurer falls below minimum capital levels. The RBC Model Law specifies four distinct action levels at which a regulator can intervene with increasing degrees of authority over a domestic insurer if its RBC is equal to or less than 200% of its computed authorized control level RBC. A company's RBC is required to be disclosed in its statutory annual statement. The RBC is not intended to be used as a rating or ranking tool nor is it to be used in premium rate making or approval. Crusader's adjusted capital at December 31, 2009, was 793% of authorized control level risk-based capital.

The following table sets forth the different levels of risk-based capital that may trigger regulatory involvement and the corresponding actions that may result.

LEVEL	TRIGGER	CORRECTIVE ACTION
Company Action Level	Adjusted Capital less than 200% of Authorized Control Level	The insurer must submit a comprehensive plan to the insurance commissioner.
Regulatory Action Level	Adjusted Capital less than 150% of Authorized Control Level	In addition to above, insurer is subject to examination, analysis, and specific corrective action.
Authorized Control Level	Adjusted Capital less than 100% of Authorized Control Level	In addition to both of the above, insurance commissioner may place insurer under regulatory control.
Mandatory Control Level	Adjusted Capital less than 70% of Authorized Control Level	Insurer must be placed under regulatory control.

Insurance Regulatory Information System (IRIS) was developed by a committee of state insurance regulators primarily to assist state insurance departments in executing their statutory mandate to oversee the financial condition of insurance companies. IRIS helps those companies that merit highest priority in the allocation of the regulators' resources on the basis of 13 financial ratios that are calculated annually. The analytical phase is a review of annual statements and the financial ratios. The ratios and trends are valuable in pointing to companies likely to experience financial difficulties but are not themselves indicative of adverse financial condition. The ratio and benchmark comparisons are mechanically produced and are not intended to replace the state insurance departments' own in-depth financial analysis or on-site examinations.

An unusual range of ratio results has been established from studies of the ratios of companies that have become insolvent or have experienced financial difficulties. In the analytical phase, companies that receive four or more financial ratio values outside the usual range are analyzed in order to identify those companies that appear to require immediate regulatory action. Subsequently, a more comprehensive review of the ratio results and an insurer's annual statement is performed to confirm that an insurer's situation calls for increased or close regulatory attention. In 2009, the Company was not outside the usual values on any of the thirteen IRIS ratio tests.

The California Insurance Guarantee Association (CIGA) was created to provide for payment of claims for which insolvent insurers of most casualty lines are liable but which cannot be paid out of such insurers' assets. The Company is subject to assessment by CIGA for its pro-rata share of such claims based on premiums written in the particular line in the year preceding the assessment by insurers writing that line of insurance in California. Such assessments are based upon estimates of losses to be incurred in liquidating an insolvent insurer. Under the current California Insurance Code, in a particular year, the Company cannot be assessed an amount greater than 2% of its premiums written in the preceding year. Assessments are recouped through a mandated surcharge to policyholders the year after the assessment. No assessment was made by CIGA for the 2009, 2008, or the 2007 calendar years.

Holding Company Act

Crusader is subject to regulation by the insurance department pursuant to the provisions of the California Insurance Holding Company System Regulatory Act (the "Holding Company Act"). Pursuant to the Holding Company Act, the insurance department may examine the affairs of Crusader at any time. Certain transactions defined to be of an "extraordinary" type may not be effected without the prior approval of the insurance department. Such transactions include, but are not limited to, sales, purchases, exchanges, loans and extensions of credit, and investments made within the immediately preceding 12 months involving the lesser of 3% of admitted assets or 25% of policyholders' surplus as of the preceding December 31. An extraordinary transaction also includes a dividend which, together with other dividends or distributions made within the preceding twelve months, exceeds the greater of 10% of the insurance company's policyholders' surplus as of the preceding December 31 or the insurance company's net income for the preceding calendar year. An insurance company is also required to notify the insurance department of any dividend after declaration, but prior to payment.

The Holding Company Act also provides that the acquisition or change of "control" of a California domiciled insurance company or of any person who controls such an insurance company cannot be consummated without the prior approval of the insurance commissioner. In general, a presumption of "control" arises from the ownership of voting securities and securities that are convertible into voting securities, which in the aggregate constitute 10% or more of the voting securities of a California insurance company or a person who controls a California insurance company, such as Crusader. A person seeking to acquire "control," directly or indirectly, of the Company must generally file with the insurance commissioner an application for change of control containing certain information required by statute and published regulations and provide a copy of the application to the Company. The Holding Company Act also effectively restricts the Company from consummating certain reorganizations or mergers without prior regulatory approval. The Company is in compliance with the Holding Company Act.

Rating

Insurance companies are rated to provide both industry participants and insurance consumers with meaningful information on specific insurance companies. Higher ratings generally indicate financial stability and a strong ability to pay claims. These ratings are based upon factors relevant to policyholders and are not directed toward protection of investors. Such ratings are neither a rating of securities nor a recommendation to buy, hold or sell any security and may be revised or withdrawn at any time. Ratings focus primarily on the following factors: capital resources, financial strength, demonstrated management expertise in the insurance business, credit analysis, systems development, market segment position and growth opportunities, marketing, sales conduct practices, investment operations, minimum policyholders' surplus requirements and capital sufficiency to meet projected growth, as well as access to such traditional capital as may be necessary to continue to meet standards for capital adequacy.

The claims-paying abilities of insurers are rated to provide both insurance consumers and industry participants with comparative information on specific insurance companies. Claims-paying ratings are important for the marketing of certain insurance products. A higher rating generally indicates greater financial strength and a stronger ability to pay claims.

Effective January 27, 2009, A.M. Best Company upgraded Crusader's financial strength rating to A- (Excellent) from B++ (Good), and revised Crusader's rating outlook to "stable" from "positive." In addition, Crusader's Issuer Credit Rating was upgraded to a- (Excellent) from bbb+ (Good). These ratings were reaffirmed by A.M. Best as of January 18, 2010.

Terrorism Risk Insurance Act of 2002

On November 26, 2002, the Terrorism Risk Insurance Act of 2002 (The Act) was signed by President Bush. On December 22, 2005, the United States' government extended The Act, which was set to expire on December 31, 2005, for two more years. On December 26, 2007, the United States government extended The Act again through December 31, 2014. The Act establishes a program within the Department of the Treasury in which the federal government will share the risk of loss from acts of terrorism with the insurance industry. Federal participation will be triggered when the Secretary of the Treasury, in concurrence with the Secretary of State and the Attorney General of the United States, certifies an act to be an act of terrorism. No act shall be certified as an act of terrorism unless the terrorist act results in aggregate losses in excess of \$5 million.

Under The Act, the federal government will pay 85% of covered terrorism losses exceeding the statutorily established deductible. All property and casualty insurance companies are required to participate in the program to the extent that they must make available property and casualty insurance coverage for terrorism that does not differ materially from the terms, amounts, and other coverage limitations applicable to losses arising from events other than acts of terrorism.

The Company does not write policies on properties considered a target of terrorist activities such as airports, large hotels, large office structures, amusement parks, landmark defined structures, or other large scale public facilities. In addition, there is not a high concentration of policies in any one area where increased exposure to terrorist threats exist. Consequently, the Company believes its exposure relating to acts of terrorism is low. In 2009, Crusader received \$114,758 in terrorism coverage premium from approximately 7% of its policyholders. Crusader's 2009 terrorism deductible was \$8,544,153. Crusader's 2010 terrorism deductible is \$8,010,176.

OTHER INSURANCE OPERATIONS

General Agency Operations

Unifax primarily sells and services commercial multiple peril business insurance policies for Crusader in California.

Bedford Insurance Services, Inc., (Bedford) sells and services daily automobile rental policies in most states for a non-affiliated insurer.

As general agents, these subsidiaries market, rate, underwrite, inspect and issue policies, bill and collect insurance premiums, and maintain accounting and statistical data. Unifax is the exclusive general agent for Crusader. Bedford is a non-exclusive general agent for non-affiliated insurance companies. The Company's marketing is conducted through advertising to independent insurance agents and brokers. For its services, the general agent receives a commission (based on the premium written) from the insurance company and, in some cases, a policy fee from the customer. These subsidiaries all hold licenses issued by the California Department of Insurance and other states where applicable.

Insurance Premium Finance Operation

The Company's subsidiary, American Acceptance Corporation (AAC), is a licensed insurance premium finance company that provides insurance purchasers with the ability to pay their insurance premiums on an installment basis. The premium finance company pays the insurance premium to the insurance company in return for a premium finance note from the insured. These notes are paid off by the insured in nine monthly installments and are secured by the unearned premiums held by the insurance company. AAC provides premium financing solely for Crusader policies that are produced by Unifax in California.

Association Operation

The Company's subsidiary, Insurance Club, Inc., dba AAQHC, An Administrator (AAQHC) (formally American Association of Quality Health Care), is a membership association and a third party administrator. AAQHC provides various consumer benefits to its members, including participation in group medical and dental insurance policies that it negotiates. AAQHC also provides services as a third party administrator and is licensed by the California Department of Insurance. For these services, AAQHC receives membership and fee income from its members.

Health Insurance Operation

The Company's subsidiary, American Insurance Brokers, Inc. (AIB), markets health insurance in California through non-affiliated insurance companies for individuals and groups. The services provided consist of marketing, billing and collection, accounting, and customer service. For these services AIB receives commissions from insurance companies. Most of the business is produced through independent insurance agents and brokers. AIB holds licenses issued by the California Department of Insurance.

INVESTMENTS

The Company's investment guidelines on equity securities limit investments in equity securities to an aggregate maximum of \$2,000,000. The Company's investment guidelines on fixed maturities limit those investments to high-grade obligations with a maximum term of eight years. The maximum investment authorized in any one issuer is \$2,000,000. This dollar limitation excludes bond premiums paid in excess of par value and U.S. government or U.S. government guaranteed issues. Investments in municipal securities are primarily pre-refunded and secured by U.S. treasury securities. The short-term investments are either U.S. government obligations, FDIC insured, or are in an institution with a Moody's rating of P2 and/or a Standard & Poor's rating of A1. All of the Company's fixed maturity investment securities are rated, readily marketable, and could be liquidated without any materially adverse financial impact.

COMPETITION

General

The property and casualty insurance industry is highly competitive in the areas of price, coverage, and service. It is highly cyclical, characterized by periods of high premium rates and shortages of underwriting capacity followed by periods of severe price competition and excess capacity.

The profitability of insurers is affected by many factors including rate and coverage competition, the frequency of claims and their average cost, natural disasters, state regulations, interest rates, crime rates, general business conditions, and court decisions redefining and expanding the extent of coverage and granting higher compensation awards. One of the challenging and unique features of the property and casualty business is the fact that since premiums are collected before losses are paid, its products are normally priced before its costs are known.

Insurance Company and General Agency Operations (Property and Casualty)

The Company's property and casualty insurance business continues to experience a competitive marketplace. There are many substantial competitors who have larger resources, operate in more states, and insure coverages in more lines and in higher limits than the Company. In addition, Crusader competes not only with other insurance companies but also with other general agencies. Many of those general agencies offer more products than the Company. The principal method of competition is price. While the Company attempts to meet such competition with competitive prices, its emphasis is on service, promotion, and distribution. Additional information regarding competition in the insurance marketplace is discussed in Item 7 - "Management's Discussion and Analysis of Financial Condition and Results of Operations - Results of Operations."

Insurance Premium Financing Operation

The insurance premium financing operation currently finances policies written only through its sister company, Unifax. Consequently, AAC's growth is primarily dependent on the growth of Crusader and Unifax business. In addition, the competitive pricing, the quality of its service, and the ease and convenience of financing with AAC have made its profitability possible.

Health Insurance Operation

Competition in the health insurance business is intense. In 2009 and 2008 approximately 76% and 82% of the Company's health insurance income derived from the CIGNA HealthCare medical and dental plan programs, respectively. CIGNA's plans consist of small group medical and dental policies and individual dental

policies. Currently, all new CIGNA small group medical insurance policies are written through AIB and all CIGNA small group medical insurance policyholders are members of AAQHC. In November 2008, AIB entered into a General Agent Contract with Blue Shield of California who will pay AIB override commissions for all business submitted to it. In September 2009, CIGNA substantially reduced the medical plans offered to small group employers in the state of California from nineteen plans to four. All new employer groups and existing employer groups on their anniversary date will have the option to choose from the four available plans. AIB will be assisting its CIGNA policyholders in obtaining new coverage in one of the four CIGNA plans or with other contracted carriers. This reduction in CIGNA medical plans offered to small group employers in the state of California resulted in a decrease in AIB commission income and AAQHC fee income. AAQHC will continue to underwrite and administer the remaining four CIGNA medical plans and CIGNA dental plans for individuals and small group employers.

EMPLOYEES

As of March 5, 2010, the Company employed 102 persons at its facility located in Woodland Hills, California. The Company has no collective bargaining agreements and believes its relations with its employees are excellent.

Item 1A. Risk Factors.

The Company is subject to numerous risks and uncertainties, the outcome of which may impact future results of operations and financial condition. These risks are as follows:

Changes in general economic conditions may have an adverse effect on the Company's revenues and profitability.

The Company's revenues and profitability may be impacted by national and local economic conditions, particularly in the state of California. Unfavorable changes in economic conditions such as recessions, increased levels of unemployment and inflation may reduce the Company's revenue through policy cancellations, modifications or non-renewals. The recent turmoil in the economy and the disruption in the financial markets may impair the ability of customers to pay premiums as they become due, reduce the amount of coverage that customers may seek and may limit the amount of premiums the Company may charge for insurance. The Company is not able to predict the duration and severity of the current disruption in the financial markets and adverse economic conditions, both nationally and in the state of California.

Loss and loss adjustment expense reserves are based on estimates and may not be sufficient to cover future losses.

Loss and loss adjustment expense reserves represent an estimate of amounts needed to pay and administer claims with respect to insured events that have occurred, including events that have occurred but have not yet been reported to the Company. There is a high level of uncertainty inherent in the evaluation of the required losses and loss adjustment expense reserves for the Company. The long-tailed nature of liability claims and the volatility of jury awards exacerbate that uncertainty. The Company sets loss and loss adjustment expense reserves at each balance sheet date based upon management's best estimate of the ultimate payments that it anticipates will be made to settle all losses incurred and related loss adjustment expenses incurred as of that date for both reported and unreported losses. The ultimate cost of claims is dependent upon future events, the outcomes of which are affected by many factors. Company claim reserving procedures and settlement philosophy, current and perceived social and economic inflation, current and future court rulings and jury attitudes, improvements in medical technology, and many other economic, scientific, legal, political, and social factors all can have significant effects on the ultimate costs of claims. Changes in Company operations and management philosophy also may cause actual developments to vary from the past. Since the emergence and disposition of claims are subject to uncertainties, the net amounts that will ultimately be paid to settle claims may vary significantly from the estimated amounts provided for in the accompanying consolidated financial statements. Any adjustments to reserves are reflected in the operating results of the periods in which they are made.

The Company's success depends on its ability to accurately underwrite risks and to charge adequate premiums to policyholders.

The Company's financial condition, liquidity and results of operations largely depend on the Company's ability to underwrite and set premiums accurately for the risks it faces. Premium rate adequacy is necessary to generate sufficient premium to offset losses, loss adjustment expenses, underwriting expenses, and to earn a profit. In order to price its products accurately, the Company must collect and properly analyze a substantial volume of data; develop, test and apply appropriate rating formulas; closely monitor and timely recognize changes in trends; and project both severity and frequency of losses with reasonable accuracy. The Company's ability to undertake these efforts

successfully is subject to a number of risks and uncertainties, including, without limitation:

- Availability of sufficient reliable data.
- Incorrect or incomplete analysis of available data.
- Uncertainties inherent in estimates and assumptions.
- Selection and application of appropriate rating formulae or other pricing methodologies.
- Adoption of successful pricing strategies.
- Prediction of policyholder retention (e.g., policy life expectancy).
- Unanticipated court decisions, legislation or regulatory action.
- Ongoing changes in the Company's claim settlement practices.
- Unexpected inflation.
- Social changes, particularly those affecting litigation inclinations.

Such risks may result in the Company's pricing being based on outdated, inadequate, or inaccurate data, or inappropriate analyses, assumptions, or methodologies, and may cause the Company to estimate incorrectly future changes in the frequency or severity of claims. As a result, the Company could under price risks, which would negatively affect the Company's margins, or it could overprice risks, which could reduce the Company's volume and competitiveness. In either event, the Company's operating results, financial condition, and cash flow could be materially adversely affected.

Inability to obtain reinsurance or to collect ceded losses and loss adjustment expenses could adversely affect the Company's ability to write new policies.

The availability, amount and cost of reinsurance depend on market conditions and may vary significantly. Any decrease in the amount of the Company's reinsurance will increase the risk of loss and could materially adversely affect its business and financial condition. Ceded reinsurance does not discharge the Company's direct obligations under the policies it writes. The Company remains liable to its policyholders even if the Company is unable to make recoveries that it believes it is entitled to under the reinsurance contracts. Losses may not be recovered from the reinsurers until claims are paid.

The insurance business is subject to extensive regulation and legislative changes, which may impact the manner in which the company operates its business.

The insurance business is subject to extensive regulation by the California Department of Insurance. The California Department of Insurance has broad regulatory powers implemented to protect policyholders, not stockholders or other investors. These powers include, among other things, the ability to:

- Place limitations on the Company's investments and dividends.
- Place limitations on the Company's ability to transact business with its affiliates.
- Establish standards of solvency including minimum reserves and capital surplus requirements.
- Prescribe the form and content of, and to examine, the Company's financial statements.

Federal legislation currently does not directly impact the property and casualty business, but the business can be indirectly affected by changes in federal regulations. In addition, the U.S. Congress and other federal agencies from time to time consider whether federal regulation of U. S. insurers is necessary. The Company is unable to predict whether such laws will be enacted and how and to what extent this could affect our business.

This extensive regulation may affect the cost or demand for the Company's products and may limit the ability to obtain rate increases or to take other actions that the Company might desire to do in order to increase its profitability.

A downgrade in the financial strength rating of the insurance company could reduce the amount of business it may be able to write.

Rating agencies rate insurance companies based on financial strength as an indication of an ability to pay claims. The financial strength rating of A.M. Best is subject to periodic review using, among other things, proprietary capital adequacy models, and is subject to revision or withdrawal at any time. Insurance financial strength ratings are directed toward the concerns of policyholders and insurance agents, and are not intended for the protection of investors. Any downgrade in the Company's A.M. Best rating could cause a reduction in the number of policies it writes and could have a material adverse effect on the Company's results of operations and financial position. Effective January 27, 2009, A.M. Best Company upgraded Crusader's financial strength rating to A-

(Excellent) from B++ (Good), and revised Crusader's rating outlook to "stable" from "positive." In addition, Crusader's Issuer Credit Rating was upgraded to a- (Excellent) from bbb+ (Good). These ratings were reaffirmed by A.M Best as of January 18, 2010.

Intense competition could adversely affect the ability to sell policies at premium rates the Company deems adequate.

The Company faces significant competition which, at times, is intense. If the Company is unable to compete effectively, its business and financial condition could be materially adversely affected. Competition in the property and casualty marketplace is based on many factors including premiums charged, services provided, financial strength ratings assigned by independent rating agencies, speed of claims payments, reputation, perceived financial strength, and general experience. The Company competes with regional and national insurance companies. Some competitors have greater financial, marketing, and management resources than the Company. Intense competitive pressure on prices can result from the actions of even a single large competitor. The Company uses its own proprietary premium rates to determine the price it charges for its property and casualty policies.

The Company's earnings may be affected by changes in interest rates.

Investment income is an important component of the Company's revenues and net income. The ability to achieve investment objectives is affected by factors that are beyond the Company's control. Interest rates are highly sensitive to many factors, including governmental monetary policies and domestic and international economic and political conditions. Any significant decline in investment income as a result of falling interest rates or general market conditions would have an adverse effect on net income and, as a result, on the Company's stockholders' equity and policyholders' surplus.

The outlook of the Company's investment income is dependent on the future direction of interest rates and the amount of cash flows from operations that are available for investment. The fair values of fixed maturity investments that are "available-for-sale" fluctuate with changes in interest rates and cause fluctuations in the stockholders' equity.

The Company's geographic concentration ties its performance to the business, economic, and regulatory conditions in California.

The Company's insurance business is concentrated in California (100% of gross written premium in 2007 through 2009). Accordingly, unfavorable business, economic or regulatory conditions in the state of California could negatively impact the Company's performance. In addition, California is exposed to severe natural perils, such as earthquakes and fires, along with the possibility of terrorist acts. Accordingly, the Company could suffer losses as a result of catastrophic events.

The Company relies on independent insurance agents and brokers.

The failure or inability of independent insurance agents and brokers to market the Company's insurance programs successfully could have a material adverse effect on its business, financial condition and results of operations. Independent brokers are not obligated to promote the Company's insurance programs and may sell competitors' insurance programs. The Company's business largely depends on the marketing efforts of independent brokers and on the Company's ability to offer insurance programs and services that meet the requirements of those brokers' customers.

Litigation may have an adverse effect on the Company's business.

The insurance industry is the target of class action lawsuits and other types of litigation, some of which involve claims for substantial and/or indeterminate amounts and the outcomes of which are unpredictable. This litigation can be based on a variety of issues including insurance and claim settlement practices. Although the Company has not been the target of any specific class action lawsuits, it is possible that a suit of this type could have a negative impact on the Company's business.

The Company relies on its information technology systems to manage many aspects of its business and any failure of these systems to function properly or any interruption in their operation could result in a material adverse effect on the Company's business, financial condition and results of operations.

The Company depends on the accuracy, reliability, and proper functioning of its information technology systems. The Company relies on these information technology systems to effectively manage many aspects of its business, including underwriting, policy acquisition, claims processing and handling, accounting, reserving and actuarial processes and policies, and maintaining its policyholder data. The failure of hardware or software that supports the Company's information technology systems or the loss of data contained in the systems could disrupt its business and could result in decreased premiums, increased overhead costs, and inaccurate reporting, all of which could have a

material adverse effect on the Company's business, financial condition, and results of operations. In addition, despite system redundancy, the implementation of security measures and the existence of a disaster recovery plan for the Company's information technology systems, these systems are vulnerable to damage or interruption from events such as:

- Earthquake, fire, flood and other natural disasters.
- Terrorist attacks and attacks by computer viruses or hackers.
- Power loss.
- Unauthorized access.
- Computer systems or data network failure.

It is possible that a system failure, accident, or security breach could result in a material disruption to the Company's business. In addition, substantial costs may be incurred to remedy the damages caused by these disruptions. To the extent that a critical system fails or is not properly implemented and the failure cannot be corrected in a timely manner, the Company may experience disruptions to the business that could have a material adverse effect on the Company's results of operations.

The Company's disclosure controls and procedures may not prevent or detect all acts of fraud.

The Company's disclosure controls and procedures are designed to reasonably ensure that information required to be disclosed in reports filed or submitted under the Securities Exchange Act is accumulated and communicated to management and is recorded, processed, summarized, and reported within the time periods specified in the SEC's rules and forms. The Company's management believes that any disclosure controls and procedures or internal controls and procedures, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations in all control systems, they cannot provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been prevented or detected. These inherent limitations include the realities that judgments in decision making can be faulty and that breakdowns can occur because of a simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by an unauthorized override of the controls. The design of any system of controls also is based in part upon certain assumptions about the likelihood of future events, and the Company cannot ensure that any design will succeed in achieving its stated goals under all potential future conditions. Accordingly, because of the inherent limitations in a cost effective control system, misstatements due to error or fraud may occur and may not be detected.

Failure to maintain an effective system of internal control over financial reporting may have an adverse effect on the Company's stock price.

Section 404 of the Sarbanes-Oxley Act of 2002 and the related rules and regulations promulgated by the SEC require the Company to include in its Form 10-K a report by its management regarding the effectiveness of the Company's internal control over financial reporting. The report includes, among other things, an assessment of the effectiveness of the Company's internal control over financial reporting as of the end of its fiscal year, including a statement as to whether or not the Company's internal control over financial reporting is effective. This assessment must include disclosure of any material weaknesses in the Company's internal control over financial reporting identified by management. Areas of the Company's internal control over financial reporting may require improvement from time to time. If management is unable to assert that the Company's internal control over financial reporting is effective now or in any future period, investors may lose confidence in the accuracy and completeness of the Company's financial reports, which could have an adverse effect on its stock price.

The ability of the Company to attract, develop and retain talented employees, managers, and executives, and to maintain appropriate staffing levels, is critical to the Company's success.

The Company must hire and train new employees and retain current employees to handle its operations. The failure of the Company to successfully hire and retain a sufficient number of skilled employees could result in the Company having to slow the growth of its business. In addition, the failure to adequately staff its claims department could result in decreased quality of the Company's claims operations. The Company's success also depends heavily upon the continued contributions of its executive officers, both individually and as a group. The Company's future performance will be substantially dependent on its ability to retain and motivate its management team. The loss of the services of any of the Company's executive officers could prevent the Company from successfully implementing its business strategy, which could have a materially adverse effect on the Company's business, financial condition, and results of operations.

Item 1B. Unresolved Staff Comments.

None.

15

Item 2. Properties.

The Company presently occupies approximately 46,000 square feet of an office building located at 23251 Mulholland Drive, Woodland Hills, California, under a master lease expiring March 31, 2012. Erwin Cheldin, the Company's former president and a current director and principal stockholder, is the owner of the building. The Company signed an extension to the lease with a 4% increase in rent effective April 1, 2007. The lease provides for an annual gross rent of \$1,066,990 from April 1, 2007, through March 31, 2012. In addition, the lease extension provides for two, five-year options with a rent increase of 5% for each option period. The Company believes that at the inception of the lease agreement and at each subsequent extension, the terms of the lease were at least as favorable to the Company as could have been obtained from non-affiliated third parties. The Company utilizes for its own operations approximately 100% of the space it leases.

Item 3. Legal Proceedings.

The Company, by virtue of the nature of the business conducted by it, becomes involved in numerous legal proceedings in which it may be named as either plaintiff or defendant. Incidental actions are sometimes brought by customers or others that relate to disputes concerning the issuance or non-issuance of individual insurance policies or other matters. In addition, the Company resorts to legal proceedings from time to time in order to enforce collection of premiums, commissions, or fees for the services rendered to customers or to their agents. These routine items of litigation do not materially affect the Company's operations and are handled on a routine basis through its counsel.

Item 4. Reserved.

PART II

Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities.

The Company's common stock is traded on the NASDAQ Global Market under the symbol "UNAM." The high and low sales prices (by quarter) during the last two comparable twelve-month periods are as follows:

Quarter Ended	High Price	Low Price
March 31, 2008	\$10.34	\$8.80
June 30, 2008	\$10.42	\$8.57
September 30, 2008	\$9.29	\$7.63
December 31, 2008	\$9.03	\$6.63
March 31, 2009	\$8.85	\$6.59
June 30, 2009	\$8.22	\$7.32
September 30, 2009	\$10.33	\$7.50
December 31, 2009	\$10.32	\$8.04

As of December 31, 2009, the approximate number of shareholders of record of the Company's common stock was 350. In addition, the Company estimates beneficial owners of the Company's common stock held in the name of nominees to be approximately 460. Total shareholders are estimated to be approximately 810.

On March 23, 2009, the Board of Directors declared a cash dividend of \$0.18 per common share payable on May 1, 2009, to shareholders of record on April 10, 2009. In addition, on December 7, 2009, the Board of Directors declared an additional cash dividend of \$0.18 per common share payable on December 29, 2009, to shareholders of record on December 17, 2009. Declaration of future cash dividends will be subject to the Company's profitability and its cash requirements. Because the Company is a holding company and operates through its subsidiaries, its cash flow and, consequently, its ability to pay dividends are dependent upon the earnings and cash requirements of its subsidiaries and the distribution of those earnings to the Company. Also, the ability of Crusader to pay dividends to the Company is subject to certain regulatory restrictions under the Holding Company Act (see Item 1 – "Business - Insurance Company Operation - Holding Company Act"). Presently, without prior regulatory approval, Crusader may pay a dividend in any twelve (12) month period to its parent equal to the greater of (a) 10% of Crusader's statutory policyholders' surplus or (b) Crusader's statutory net income for the preceding calendar year. Based on Crusader's statutory net income for the year ended December 31, 2009, the maximum dividend that could be made by Crusader to Unico without prior regulatory approval in 2010 is \$6,255,381.

The following table sets forth certain information with respect to purchases of common stock of the Company during the quarter ended December 31, 2009, by the Company.

Period	Total Number of Shares Purchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part Of Publicly Announced Plans or Programs(1)	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs(1)
October 1, 2009 through October 31, 2009	200	\$9.96	200	370,295
November 1, 2009 through November 30, 2009	40,368	\$9.32	40,368	329,927
December 1, 2009 through December 31, 2009	82,571	\$9.28	82,571	247,356
Total	123,139	\$9.30	123,139	247,356

- (1) On December 19, 2008, the Board of Directors authorized a stock repurchase program to acquire from time to time up to an aggregate of 500,000 shares of the Company's common stock. This program has no expiration date and may be terminated by the Board of Directors at any time. During the year ended December 31, 2009, the Company repurchased under this program and previously adopted programs an aggregate of 268,111 shares of the Company's common stock at a cost of \$2,447,948 of which \$131,756 was allocated to capital and \$2,316,192 was allocated to retained earnings. As of December 31, 2009, the Company had remaining authority under the 2008 program to repurchase up to an aggregate of 247,356 shares of its common stock. The 2008 program is currently the only program under which there is remaining authority to repurchase shares of the Company's common stock. The Company has or will retire all stock repurchased.

Performance Graph

The following graph compares the cumulative total shareholder return on the Company's Common Stock with the cumulative total return of equity securities traded on the National Association of Securities Dealers Automated Quotation System (NASDAQ) and a peer group consisting of all NASDAQ property and casualty companies. The comparison assumes \$100.00 was invested on December 31, 2003, in the Company's Common Stock and in each of the comparison groups, and assumes reinvestment of dividends. It should be noted that this graph represents historical stock price performance and is not necessarily indicative of any future stock price performance.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations
Overview

General

Unico American Corporation is an insurance holding company that underwrites property and casualty insurance through its insurance company subsidiary; provides property, casualty, health and life insurance through its agency subsidiaries; insurance premium financing; and membership association services.

The Company's net income was \$2,927,375 in 2009, \$5,283,016 in 2008, and \$6,712,444 in 2007.

This overview discusses some of the relevant factors that management considers in evaluating the Company's performance, prospects and risks. It is not all inclusive and is meant to be read in conjunction with the entirety of the management discussion and analysis, the Company's financial statements and notes thereto, and all other items contained within the report on this Annual Report on Form 10-K.

Revenue and Income Generation

The Company receives its revenue primarily from earned premium derived from the insurance company operations, commission and fee income generated from the insurance agency operations, finance charges and fee income from the premium finance operations, and investment income from cash generated primarily from the insurance company operation. The insurance company operation generates approximately 86% of the Company's total revenue. The Company's remaining operations constitute a variety of specialty insurance services, each with unique characteristics and individually not material to consolidated revenues.

Insurance Company Operation

The property and casualty insurance industry is highly competitive and includes many insurers, ranging from large companies offering a wide variety of products worldwide to smaller, specialized companies in a single state or region offering only a single product. Many of the Company's existing or potential competitors have considerably greater financial and other resources, have a higher rating assigned by independent rating organizations such as A.M. Best Company, have greater experience in the insurance industry and offer a broader line of insurance products than the Company. As of December 31, 2009, Crusader was licensed as an admitted insurance carrier in the states of Arizona, California, Nevada, Oregon, and Washington. Since 2004, all of Crusader's business was written in the state of California. During the year ended December 31, 2009, 98% of Crusader's business was commercial multi peril policies. Effective January 27, 2009, A.M. Best Company upgraded Crusader's financial strength rating to A- (Excellent) from B++ (Good), and revised Crusader's rating outlook to "stable" from "positive." In addition, Crusader's Issuer Credit Rating was upgraded to a- (Excellent) from bbb+ (Good). These ratings were reaffirmed by A.M. Best as of January 18, 2010.

A primary challenge of the property and casualty insurance company operation is contending with the fact that the Company sells its products before the ultimate costs are actually known. That is, when pricing its products, the Company must forecast the ultimate claim and loss adjustment costs. In addition, factors such as changes in regulations and legal environment, among other things, can all impact the accuracy of such costs.

The property and casualty insurance industry is characterized by periods of soft market conditions, in which premium rates are stable or falling and insurance is readily available, and by periods of hard market conditions, in which premium rates rise, coverage may be more difficult to find, and insurers' profits increase. The Company believes that the California property and casualty insurance market continues to be a "soft market." The Company cannot determine

how long the existing market conditions will continue nor in which direction they might change. Despite the increased competition in the property and casualty marketplace, the Company believes that rate adequacy is more important than premium growth and that underwriting profit (net earned premium less losses and loss adjustment expenses and policy acquisition costs) is its primary goal. Nonetheless, Crusader believes that it can grow its sales and profitability by continuing to focus upon three key areas of its operations: (1) product development, (2) improved service to retail brokers, and (3) appointment of captive and independent retail agents.

Crusader's underwriting profit (before income taxes) is as follows:

	Year ended December 31		
	2009	2008	2007
Net premium earned	\$30,774,471	\$33,949,695	\$37,129,665
Less:			
Losses and loss adjustment expenses	19,545,761	20,592,730	22,182,237
Policy acquisition costs	7,612,716	8,261,324	8,465,047
Total	27,158,477	28,854,054	30,647,284
Underwriting profit (before income taxes)	\$3,615,994	\$5,095,641	\$6,482,381

The following table provides an analysis of the losses and loss adjustment expenses:

	Year ended December 31		
	2009	2008	2007
Losses and loss adjustment expenses			
Current accident year	23,501,314	24,149,531	26,300,338
Favorable development of all prior accident years	3,955,553	3,556,801	4,118,101
Total losses and loss adjustment expenses	\$19,545,761	\$20,592,730	\$22,182,237

Losses and loss adjustment expenses were 64% of net premium earned for the year ended December 31, 2009, compared to 61% of net premium earned for the year ended December 31, 2008, and compared to 60% of net premium earned for the year ended December 31, 2007.

Other Operations

The Company's other operations generate commissions, fees, and finance charges from various insurance products. The events that have the most significant economic impact are as follows:

Unifax primarily sells and services insurance policies for Crusader. The commissions paid by Crusader to Unifax are eliminated as intercompany transactions and are not reflected as income in the financial statements. Policy fee income for the twelve months ended December 31, 2009, decreased 6% as compared to the prior year. The decrease in policy fee income is a result of a decrease in the number of policies issued during the twelve months ended December 31, 2009, as compared to 2008.

AIB sells and services health insurance policies for individual/family and small business groups and receives commissions based on the premiums that it writes. Commission income decreased 8% for the year ended December 31, 2009, as compared to 2008. The decrease is primarily due to a decrease in sales of small group medical insurance offered through CIGNA HealthCare. All CIGNA small group medical insurance policyholders are members of AAQHC. In September 2009, CIGNA substantially reduced the medical plans offered to small group employers in the state of California from nineteen plans to four. All new employer groups and existing employer groups on their anniversary date will have the option to choose from the four available plans. AIB will be assisting its CIGNA policyholders in obtaining new coverage in one of the four CIGNA plans or with other contracted carriers. This reduction in CIGNA medical plans offered to Small Group Employers in the state of California resulted in a decrease in AIB commission income and AAQHC fee income. AAQHC will continue to underwrite and administer the remaining four CIGNA medical plans and CIGNA dental plans for individuals and small group employers.

AAQHC provides various consumer benefits to its members, including participation in group health care insurance policies. For these services, AAQHC receives membership and fee income from its members. Membership and fee income decreased 13% in the year ended December 31, 2009, compared to 2008. The decrease is a result of a decrease in the number of members.

AAC provides premium financing for Crusader policies that are produced by Unifax in California. Finance charges and fees earned by AAC during 2009 decreased 20% as compared to 2008. The decrease is primarily a result of a 11% decrease in the number of loans issued in 2009 compared to 2008. The average premium financed by AAC was \$2,309 in 2009, \$2,653 in 2008 and \$2,769 in 2007.

The daily automobile rental insurance program is produced by Bedford Insurance Services, Inc. Bedford receives a commission from a non-affiliated insurance company based on premium written. Commission in the daily automobile rental insurance program decreased 1% as compared to 2008.

Investments and Liquidity

The Company generates revenue from its investment portfolio, which consisted of approximately \$137.6 million (at amortized cost) as of December 31, 2009, and \$145.0 million (at amortized cost) as of December 31, 2008. Investment income for the twelve months ended December 31, 2009, decreased \$1.6 million (27%) as compared to the twelve months ended December 31, 2008. The decrease in investment income was primarily due to a decrease in the Company's annualized yield on average invested assets to 3.1% in 2009 from 4.0% in 2008. The decrease in the annualized yield on average invested assets is a result of lower yields in the marketplace on both new and reinvested assets. Due to the current interest rate and financial market environment, management believes it is prudent to purchase fixed maturity investments with maturities of five years or less and with minimal credit risk.

As of December 31, 2009, the weighted average maturity of the Company's fixed maturity investments was 1.7 years compared to 2.1 years and 2.0 years as of December 31, 2008, and December 31, 2007, respectively.

Liquidity and Capital Resources

Due to the nature of the Company's business (insurance and insurance services) and whereas Company growth does not normally require material reinvestments of profits into property or equipment, the cash flow generated from operations usually results in improved liquidity for the Company. Because the Company is a holding company and operates through its subsidiaries, its cash flow is dependent upon the earnings of its subsidiaries and the distributions of those earnings to the Company.

Cash flow used by operations in the year ended December 31, 2009, was \$2,663,559, as compared to \$1,675,603 in the year ended December 31, 2008 and to \$113,640 in the year ended December 31, 2007. In 2009 and 2008 the Company primarily utilized the proceeds from the maturity or sale of its fixed maturity investments to purchase new fixed maturity investments.

The most significant liquidity risk faced by the Company is adverse development of the insurance company's loss and loss adjustment expense reserves. Based on the Company's current loss and loss expense reserves and expected current and future payments, the Company believes that there are no current liquidity issues. However, no assurance can be given that the Company's estimate of ultimate loss and loss adjustment expense reserves will be sufficient.

Crusader generates a significant amount of cash as a result of its holdings of unearned premium reserves, its reserves for loss payments, and its capital and surplus. Crusader's loss and loss adjustment expense payments are the most significant cash flow requirement of the Company. These payments are continually monitored and projected to ensure that the Company has the liquidity to cover these payments without the need to liquidate its investments. Cash and investments (at amortized cost) of the Company at December 31, 2009, were \$137,717,039 compared to \$145,070,097 at December 31, 2008. Crusader's cash and investments at December 31, 2009 and December 31, 2008, were 98% of the total cash and investments held by the Company.

The Company's investments are as follows:

	December 31, 2009		December 31, 2008		December 31, 2007	
	Amount	%	Amount	%	Amount	%
Fixed maturities (at amortized cost)						
Certificates of deposit	\$21,034,997	16	\$400,000	-	\$400,000	-
U.S. treasury securities	103,361,652	81	124,526,227	92	130,211,428	93
Industrial and miscellaneous (taxable)	4,044,046	3	10,614,127	8	9,365,735	7
State and municipal (tax exempt)	-	-	-	-	15,045	-
Total fixed maturity investments	128,440,695	100	135,540,354	100	139,992,208	100
Short-term cash investments (at cost)						
Certificates of deposit	3,245,000	35	200,000	2	200,000	3
Commercial paper	-	-	-	-	3,887,322	53
Bank money market accounts	3,348,973	37	3,312,140	35	444,781	6
U.S. government money market fund	2,562,100	28	5,585,395	59	2,425,807	33
Short-term U.S. treasury bills	-	-	399,953	4	393,768	5
Bank savings accounts	1,759	-	4,545	-	4,481	-
Total short-term cash investments	9,157,832	100	9,502,033	100	7,356,159	100
Total investments	\$137,598,527		\$145,042,387		\$147,348,367	

The Company is required to classify its investment securities into one of three categories: held-to-maturity, available-for-sale, or trading securities. Although all of the Company's investment in fixed maturity securities are classified as available-for-sale and the Company may sell investment securities from time to time in response to economic and market conditions, its investment guidelines place primary emphasis on buying and holding high-quality investments to maturity.

The Company's investment guidelines on equity securities limit investments in equity securities to an aggregate maximum of \$2,000,000. The Company's investment guidelines on fixed maturities limit those investments to high-grade obligations with a maximum term of eight years. The maximum investment authorized in any one issuer is \$2,000,000. This dollar limitation excludes bond premiums paid in excess of par value and U.S. government or U.S. government guaranteed issues. When the Company invests in fixed maturity municipal securities, preference is given to issues that are pre-refunded and secured by U.S. treasury securities. The short-term investments are either U.S. government obligations, FDIC insured, or are in an institution with a Moody's rating of P2 and/or a Standard & Poor's rating of A1. All of the Company's fixed maturity investment securities are rated, readily marketable, and could be liquidated without any materially adverse financial impact.

The investment marketplace in general, and in certain asset classes specifically, has been impacted by volatility as a result of uncertainty in the credit markets that began in 2007 and continued throughout 2009. The Company's fixed maturity investment portfolio as of December 31, 2009, consisted of 81% U.S. treasury securities, 16% certificates of deposit and 3% highly rated industrial and miscellaneous taxable issues bonds. As of December 31, 2009, the Company's industrial and miscellaneous taxable bonds were all rated "A" or better by Standard & Poors.

Crusader's statutory capital and surplus as of December 31, 2009, was \$62,553,813, a decrease of \$2,182,417 (3%) from December 31, 2008. Crusader's statutory capital and surplus as of December 31, 2008, was \$64,736,230, an increase of \$6,873,896 (12%) from December 31, 2007. In the year ending December 31, 2009, Crusader issued cash dividends of \$7,000,000 to Unico, its parent and sole shareholder. These dividends were primarily used to fund the cash dividends paid by Unico to its shareholders, to repurchase and retire shares of Unico common stock and for general corporate purposes. No dividends were declared or paid by Crusader to Unico in 2008 or 2007. Based on Crusader's statutory net income for the year ended December 31, 2009, the maximum dividend that could be made by Crusader to Unico without prior regulatory approval in 2010 is \$6,255,381.

On March 23, 2009, the Board of Directors declared a cash dividend of \$0.18 per common share payable on May 1, 2009, to shareholders of record on April 10, 2009. In addition, on December 7, 2009, the Board of Directors declared a cash dividend of \$0.18 per common share payable on December 29, 2009, to shareholders of record on December 17, 2009. Declaration of future cash dividends will be subject to the Company's profitability and its cash requirements.

On December 19, 2008, the Board of Directors authorized a stock repurchase program to acquire from time to time up to an aggregate of 500,000 shares of the Company's common stock. This program has no expiration date and may be terminated by the Board of Directors at any time. During the year ended December 31, 2009, the Company repurchased under this program and previously adopted programs an aggregate of 268,111 shares of the Company's common stock at a cost of \$2,447,948 of which \$131,756 was allocated to capital and \$2,316,192 was allocated to retained earnings. During the twelve months ended December 31, 2008, the Company repurchased under the previously adopted programs an aggregate of 51,092 shares of the Company's common stock at a cost of \$416,583 of which \$25,108 was allocated to capital and \$391,475 was allocated to retained earnings. As of December 31, 2009, the Company had remaining authority under the 2008 program to repurchase up to an aggregate of 247,356 shares of its common stock. The 2008 program is the only program under which there is remaining authority to repurchase shares of the Company's common stock. The Company has or will retire all stock repurchased.

Although material capital expenditures may also be funded through borrowings, the Company believes that its cash and short-term investments at year end, net of statutory deposits of \$700,000, and California insurance company statutory dividend restrictions applicable to Crusader plus the cash to be generated from operations, should be sufficient to meet its operating requirements during the next twelve months without the necessity of borrowing funds. There were no trust restrictions on cash and short-term investments at December 31, 2009.

As a California insurance company, Crusader is obligated to pay a premium tax on gross premiums written in all states that Crusader is admitted. Premium taxes are deferred and amortized as the related premiums are earned. The premium tax is in lieu of state franchise taxes and is not included in the provision for state taxes.

The Company has certain obligations to make future payments under contracts and credit-related financial instruments and commitments. At December 31, 2009, certain long-term aggregate contractual obligations and credit-related commitments are summarized as follows:

Contractual Obligations	Total	Within 1 Year	1-3 Years	3-5 Years	After 5 years
Building lease	\$2,400,727	\$1,066,990	\$1,333,737	-	-
Loss and loss adjustment expense reserves*	71,585,408	22,621,216	30,066,393	\$10,616,980	\$8,280,819
Total	\$73,986,135	\$23,688,206	\$31,400,130	\$10,616,980	\$8,280,819

*Unlike many other forms of contractual obligations, loss and loss adjustment expense reserves do not have definitive due dates and the ultimate payment dates are subject to a number of variables and uncertainties. As a result, the total loss and loss adjustment expense reserve payments to be made by period, as shown above, are estimates.

Results of Operations

General

The Company had net income of \$2,927,375 for the year ended December 31, 2009, compared to net income of \$5,283,016 for the year ended December 31, 2008, and net income of \$6,712,444 for the year ended December 31, 2007. Total revenue for the year ended December 31, 2009, was \$41,617,106 compared to \$46,769,444 for the year ended December 31, 2008, and \$50,372,895 for the year ended December 31, 2007.

For the year ended December 31, 2009, the Company had income before taxes of \$4,163,978 compared to income before taxes of \$7,984,466 in the year ended December 31, 2008, a decrease of \$3,820,488 (48%) in income before taxes. The decrease in income before taxes was primarily due to a decrease of \$1,479,647 in the underwriting profit (net earned premium less losses and loss adjustment expenses and policy acquisition costs), and a decrease of \$1,564,265 in investment income.

For the year ended December 31, 2008, the Company had income before taxes of \$7,984,466 compared to income before taxes of \$10,073,153 in the year ended December 31, 2007, a decrease of \$2,088,687 (21%) in income before taxes. The decrease in income before taxes was primarily due to a decrease of \$1,386,740 in the underwriting profit (net earned premium less losses and loss adjustment expenses and policy acquisition costs), and a decrease of \$956,385 in investment income (excluding realized investment gain).

The effect of inflation on the net income of the Company during the years ended December 31, 2009, 2008, and 2007 was not significant.

The Company derives revenue from various sources as discussed below:

Insurance Company Operation

Premium and loss information of Crusader are as follows:

	Year ended December 31		
	2009	2008	2007
Gross written premium	\$38,900,176	\$39,940,270	\$44,970,399
Net written premium (net of reinsurance ceded)	\$29,635,898	\$31,175,204	\$33,412,745
Earned premium before reinsurance ceded	\$40,050,878	\$42,720,764	\$48,661,973
Earned premium (net of reinsurance ceded)	\$30,774,471	\$33,949,695	\$37,129,665
Losses and loss adjustment expenses	\$19,545,761	\$20,592,730	\$22,182,237
Gross unpaid losses and loss adjustment expenses	\$71,585,408	\$78,654,590	\$94,730,711
Net unpaid losses and loss adjustment expenses	\$55,409,545	\$58,839,017	\$66,305,287

Crusader's primary line of business is commercial multi peril policies. This line of business represented approximately 98% of Crusader's total written premium for the years ended December 31, 2009 and 2008, and 96% for the year ended December 31, 2007.

As of December 31, 2009, Crusader was licensed as an admitted insurance company in the states of Arizona, California, Nevada, Oregon, and Washington and is approved as a non-admitted surplus lines writer in other states.

Premiums

For the year ended December 31, 2009, gross written premium decreased by \$1,040,094 (3%) over 2008. For the year ended December 31, 2008, gross written premium decreased by \$5,030,129 (11%) over 2007. The decrease in written premium in both 2009 and 2008 reflected heightened competition and management's continued emphasis on rate adequacy and underwriting discipline. The Company cannot determine how long the existing market condition will continue, nor in which direction it might change.

The insurance marketplace continues to be intensely competitive as more insurers are competing for the same customers. Many of Crusader's competitors price their insurance at rates that the Company believes are inadequate to support an underwriting profit. While Crusader attempts to meet such competition with competitive prices, its emphasis is on service, promotion, and distribution. Crusader believes that rate adequacy is more important than premium growth and that underwriting profit (net earned premium less losses and loss adjustment expenses and policy acquisition costs) is its primary goal. Nonetheless, Crusader believes that it can grow its sales and profitability by continuing to focus upon three key areas of its operations: (1) product development, (2) improved service to retail brokers, and (3) appointment of captive and independent retail agents. During 2009, Crusader continued to introduce product changes such as to its rates, eligibility guidelines, rules and coverage forms. Improved service is primarily focused upon transacting business through the internet, as well as providing more options to make the agents' and brokers' time more efficiently spent with Crusader (i.e., as opposed to spending time with Crusader's competitors). As of December 31, 2009, Crusader had appointed sixteen retail agents. Presently, it is expected that each such retail agent should be able to reach an annual sales volume of approximately one to two million dollars of Crusader's products within three to five years of their appointment by Crusader. However, Crusader does not intend to

substantially increase its number of retail agents appointed until such time as the Company implements a new policy administration system. The Company is in the final stages of selecting an outside vendor to provide it with a state of the art policy administration software system. The Company estimates implementation of the new software system to take approximately one to one and one-half years from the date the vendor is selected.

The Company writes annual policies and, therefore, earns written premium daily over the one-year policy term.

In the year ended December 31, 2009, premium earned before reinsurance decreased \$2,669,886 (6%) to \$40,050,878 compared to \$42,720,764 in the year ended December 31, 2008. In the year ended December 31, 2008, premium earned before reinsurance decreased \$5,941,209 (12%) to \$42,720,764 compared to \$48,661,973 for the year ended December 31, 2007. The decrease in earned premium before reinsurance in both 2009 and 2008 is a direct result of the decrease in written premium in 2009 and 2008, respectively.

Earned ceded premium for the 12 months ended December 31, 2009, increased \$505,338 (6%) to \$9,276,407 compared to \$8,771,069 for the 12 months ended December 31, 2008. Earned ceded premium for the 12 months ended December 31, 2008, decreased \$2,761,239 (24%) to \$8,771,069 compared to \$11,532,308 for the 12 months ended December 31, 2007. Earned ceded premiums as a percentage of direct earned premiums were 23% in 2009, 21% in 2008, and 24% for 2007.

The Company evaluates each of its ceded reinsurance contracts at its inception to determine if there is a sufficient risk transfer to allow the contract to be accounted for as reinsurance under current accounting literature. As of December 31, 2009, all such ceded contracts are accounted for as risk transfer reinsurance. The earned premium ceded consists of both premium ceded under the Company's current reinsurance contracts and premium ceded to the Company's provisionally rated reinsurance contracts.

In 2009 and 2008 Crusader retained a participation in its excess of loss reinsurance treaties of 20% in its 1st layer (\$700,000 in excess of \$300,000), 15% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 0% in its property and casualty clash treaty. In 2007 Crusader retained a participation in its excess of loss reinsurance treaties of 15% in its 1st layer (\$700,000 in excess of \$300,000), 15% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 15% in its property clash treaty. In 2006 and 2005 Crusader retained a participation in its excess of loss reinsurance treaties of 10% in its 1st layer (\$700,000 in excess of \$300,000), 10% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property and casualty clash treaties. In 2004 Crusader retained a participation in its excess of loss reinsurance treaties of 10% in its 1st layer (\$750,000 in excess of \$250,000), 10% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property and casualty clash treaties. In 2003 Crusader retained a participation in its excess of loss reinsurance treaties of 5% in its 1st layer (\$750,000 in excess of \$250,000), 10% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property and casualty clash treaties.

The 2007 through 2009 excess of loss treaties do not provide for a contingent commission. Crusader's 2006 1st layer primary excess of loss treaty provides for a contingent commission equal to 20% of the net profit, if any, accruing to the reinsurer. The first accounting period for the contingent commission covers the period from January 1, 2006, through December 31, 2006. The 2005 excess of loss treaties do not provide for a contingent commission. Crusader's 2004 and 2003 1st layer primary excess of loss treaties provide for a contingent commission to the Company equal to 45% of the net profit, if any, accruing to the reinsurer. The first accounting period for the contingent commission covers the period from January 1, 2003, through December 31, 2004. For each accounting period as described above, the Company will calculate and report to the reinsurers its net profit (excluding incurred but not reported losses), if any, within 90 days after 36 months following the end of the first accounting period, and within 90 days after the end of each 12-month period thereafter until all losses subject to the agreement have been finally settled. Any contingent commission received is subject to return based on future development of ceded losses and loss adjustment expenses. As of December 31, 2009, the Company has received a total net contingent commission of \$3,108,324 for the years subject to contingent commission. Of this amount, the Company has recognized \$1,686,380 of contingent commission income, of which \$766,651 was recognized in the year ended December 31, 2009. The remaining balance of the net payments received of \$1,421,944 is currently unearned and included in "Accrued Expenses and Other Liabilities" in the consolidated balance sheets. The unearned contingent commission may be subsequently earned or returned to the reinsurer depending on the future development of the ceded IBNR for the years subject to contingent commission.

Crusader's direct earned premium, earned ceded premium, and ceding commission are as follows:

	Year ended December 31					
	2009		2008		2007	
Direct earned premium	\$40,050,878		\$42,720,764		\$48,661,973	
Earned ceded premium						
Excluding provisionally rated ceded premium	9,284,534		8,850,878		11,560,877	
Provisionally rated ceded premium	(8,127)		(79,809)		(28,569)	
Total earned ceded premium	9,276,407		8,771,069		11,532,308	
Ceding commission	2,768,518		2,642,665		3,547,595	
Earned ceded premium, net of ceding commission	\$6,507,889		\$6,128,404		\$7,984,713	
Ratios to direct earned premium						
Direct ceded premium	23	%	21	%	24	%
Earned ceded premium, net of ceding commission	16	%	14	%	16	%

Losses and Loss Adjustment Expenses

Losses and loss adjustment expenses and loss ratio are as follows:

	Year ended December 31					
	2009		2008		2007	
Net earned premium	\$30,774,471		\$33,949,695		\$37,129,665	
Net losses and loss adjustment expenses						
Provision for insured events of current year	23,501,314		24,149,531		26,300,338	
(Decrease) in provision for events of prior years	(3,955,553)		(3,556,801)		(4,118,101)	
Total net losses and loss adjustment expenses	\$19,545,761		\$20,592,730		\$22,182,237	
Loss ratio	63.5	%	60.7	%	59.7	%

Expected losses and loss adjustment expenses are determined based on earned premiums. The portion of the premium dollar expected to pay claims costs is referred to as the expected loss and loss adjustment expense ratio. The Company's emerging loss and loss adjustment expense ratios for each accident year are reviewed in detail at the end of each quarter as part of the reserve diagnostics testing.

The combined ratio is the sum of (1) the net ratio of losses and loss adjustment expenses incurred (including a provision for incurred-but-not-reported losses "IBNR") to net premiums earned (loss ratio) and (2) the ratio of policy acquisition costs to net premiums earned (expense ratio). The following table shows the loss ratios, expense ratios, and combined ratios of Crusader as derived from data prepared in accordance with GAAP.

	Year ended December 31					
	2009		2008		2007	
Loss ratio	63.5	%	60.7	%	59.7	%
Expense ratio	24.7	%	24.3	%	22.8	%

Combined ratio	88.2	%	85.0	%	82.5	%
----------------	------	---	------	---	------	---

As indicated in the above table, the loss ratio for the year ended December 31, 2009, increased to 63.5% from 60.7% in 2008 and 59.7% in 2007. The slight increase in the 2009 loss ratio was primarily due to an increase in the provision for insured events of the current year as a percent of net earned premium. For the year ended December 31, 2009, the provision for insured events of the current year as a percent of net earned premium was 76% as compared to 71% for the years ended December 31, 2008 and 2007, respectively. The Company's net losses and loss adjustment expenses for the calendar year ended December 31, 2009, were \$19,545,761. Generally, if the combined ratio is below 100%, an insurance company has an underwriting profit; if it is above 100%, a company has an underwriting loss.

The favorable (adverse) development by accident year is as follows:

Accident Year	Year ended December 31, 2009		Year ended December 31, 2008		Year ended December 31, 2007	
	Favorable (Adverse) Development	% of Total	Favorable (Adverse) Development	% of Total	Favorable (Adverse) Development	% of Total
Prior to 2001	\$685,267	17 %	\$1,409,873	40 %	\$(782,496)	(19)%
2001	197,729	5 %	228,157	6 %	394,667	10 %
2002	(635,022)	(16)%	(219,217)	(6)%	495,521	12 %
2003	264,402	7 %	106,459	3 %	1,121,647	27 %
2004	485,456	12 %	896,422	25 %	792,070	19 %
2005	1,308,662	33 %	730,534	21 %	1,202,580	29 %
2006	1,839,987	47 %	1,670,003	47 %	894,112	22 %
2007	(918,334)	(23)%	(1,265,430)	(36)%	-	-
2008	727,406	18 %	-	-	-	-
Total prior accident years	\$3,955,553	100 %	\$3,556,801	100 %	\$4,118,101	100 %

As reflected in the above table, the amount of favorable development recognized during the year ended December 31, 2009, increased \$398,752 (11%) to \$3,955,553 from \$3,556,801 in 2008. The amount of favorable development recognized during the year ended December 31, 2008, decreased \$561,300 (14%) to \$3,556,801 from \$4,118,101 in 2007. The favorable development in the above table is not necessarily indicative of the results that may be expected in future periods.

Any reduction in losses and loss adjustment expenses from redundancies in the Company's December 31, 2009, reserves over actual future payments, and/or any additional losses and loss adjustment expenses from actual future payments that exceed the Company's reserves, will be recognized in the consolidated statements of operations of future accounting periods. The Company's current expected loss and loss adjustment expense ratio assumption closely approximates the Company's historical average loss and loss adjustment expense ratio. The difference between the Company's current expected loss and loss adjustment expense ratio assumption and the actual loss and loss adjustment expense ratio for a given accident year will ultimately result in a dollar change (either higher or lower) that is a multiple of the earned premium for that year. The actual loss and loss adjustment expense ratio has been within five percentage points of the current expected loss and loss adjustment expense ratio in three of the Company's twenty-five years. Since the Company's net earned premium in 2009 was \$30,774,471, a difference between the accident year 2009 actual and current expected loss and loss adjustment expense ratios of only five percentage points will ultimately impact losses and loss adjustment expenses by \$1,538,724. The actual loss and loss adjustment expense ratio has been within ten percentage points of the current expected loss and loss adjustment expense ratio in eleven of the Company's twenty-five years. A difference of ten percentage points on accident year 2009 will ultimately impact losses and loss adjustment expenses by \$3,077,447. The actual loss and loss adjustment expense ratio has been within twenty percentage points of the current expected loss and loss adjustment expense ratio in eighteen of the Company's twenty-five years. A twenty percentage point difference between the accident year 2009 actual and the current expected loss and loss adjustment expense ratios will ultimately impact losses and loss adjustment expenses by \$6,154,894. In addition, accident years 2008 and prior are also still developing. Future development on those years might either offset or add to any future development that emerges on accident year 2009.

Reserves for Losses and Loss Adjustment Expenses

The Company's liability for unpaid loss and loss adjustment expense reserves consists of case reserves and reserves for incurred but not reported (IBNR) claims. Case reserves are established by claims personnel based on a review of the facts known at the time the claim is reported and are subsequently revised as more information about a claim becomes known. IBNR is computed using various actuarial methods and techniques and includes (1) reserves for losses and loss adjustment expenses on claims that have occurred but for which claims have not yet been reported to the Company, and (2) a provision for expected future development on case reserves for information not currently known.

The Company's loss and loss adjustment expense reserves are as follows:

	Year ended December 31		
	2009	2008	2007
Direct reserves			
Case reserves	\$18,072,709	\$18,720,695	\$26,129,055
IBNR reserves	53,512,699	59,933,895	68,601,656
Total direct reserves	\$71,585,408	\$78,654,590	\$94,730,711
Reserves net of reinsurance			
Case reserves	\$16,231,563	\$17,365,877	\$21,450,234
IBNR reserves	39,177,982	41,473,140	44,855,053
Total net reserves	\$55,409,545	\$58,839,017	\$66,305,287

Reserves for losses and loss adjustment expenses before reinsurance for each of Crusader's lines of business were as follows:

Line of Business	Year ended December 31								
	2009			2008			2007		
CMP	\$67,584,155	94.4	%	\$73,339,513	93.2	%	\$90,126,649	95.1	%
Other Liability	3,929,320	5.5	%	5,271,612	6.7	%	4,524,684	4.8	%
Other	71,933	0.1	%	43,465	0.1	%	79,378	0.1	%
Total	\$71,585,408	100.0	%	\$78,654,590	100.0	%	\$94,730,711	100.0	%

The Company's consolidated financial statements include estimated reserves for both reported and unreported claims of the insurance company operation. The Company sets these reserves at each quarterly balance sheet date based upon management's best estimate of the ultimate payments that it anticipates will be made to settle all losses and loss adjustment expenses incurred as of that date, for both reported and unreported claims.

Analysis of the roll forward of reserves for losses and loss adjustment expenses

The following table provides an analysis of the roll forward of Crusader's losses and loss adjustment expenses, including a reconciliation of the ending balance sheet liability for the periods indicated:

	Year ended December 31		
	2009	2008	2007
Reserve for unpaid losses and loss adjustment expenses at beginning of year – net of reinsurance	\$58,839,017	\$66,305,287	\$70,076,430
Incurred losses and loss adjustment expenses			
Provision for insured events of current year	23,501,314	24,149,531	26,300,338
Decrease in provision for events of prior years	(3,955,553)	(3,556,801)	(4,118,101)
Total losses and loss adjustment expenses	19,545,761	20,592,730	22,182,237
Payments			
Losses and loss adjustment expenses attributable to insured events of the current year	5,852,107	7,803,644	7,816,422
Losses and loss adjustment expenses attributable to insured events of prior years	17,123,126	20,255,356	18,136,958
Total payments	22,975,233	28,059,000	25,953,380
Reserve for unpaid losses and loss adjustment expenses at end of year – net of reinsurance	55,409,545	58,839,017	66,305,287
Reinsurance recoverable on unpaid losses and loss adjustment expenses at end of year	16,175,863	19,815,573	28,425,424
Reserve for unpaid losses and loss adjustment expenses at end of year per balance sheet, gross of reinsurance *	\$71,585,408	\$78,654,590	\$94,730,711

*In accordance with ASC 944 reinsurance recoverable on unpaid losses and loss adjustment expenses are reported for GAAP as assets rather than netted against the corresponding liability for such items on the consolidated balance sheet.

The Company's net loss and loss adjustment expense reserve was \$55,409,545 as of December 31, 2009. Since underwriting profit is a significant part of income, a small percentage change in reserve estimates may result in a substantial effect on future reported earnings. Such changes might result from a variety of factors, including claims costs emerging in a different pattern than the average historical development patterns. Considering the continuum of possible development patterns, none of which is necessarily more or less likely than the next, one must consider the varying probabilities that the development pattern is off in varying degrees. If future development ultimately ends up being five percent different than the Company's 2009 net reserve, approximately \$2.8 million would be reflected in future periods as an increase or decrease in the provision for events of prior years and would be recognized in the Company's Consolidated Statements of Operations in future periods. A variance of five percent of net loss and loss adjustment expense reserve is not an unlikely scenario. If future development ultimately ends up being ten percent different than the Company's 2009 net reserve, approximately \$5.5 million would be reflected in future periods as an increase or decrease in the provision for events of prior years and would be recognized in the Company's Consolidated Statements of Operations in future periods. A variance of ten percent of net loss and loss adjustment expense reserve is not an unlikely scenario. Differences of more than ten percent are also possible, though not quite as likely as differences of ten percent or less.

Other Insurance Operations

Health Insurance Program

Commission income from the health insurance sales is as follows:

	Year ended December 31		
	2009	2008	2007
Commission income	\$2,526,772	\$2,754,293	\$2,320,161

AIB markets health insurance in California through non-affiliated insurance companies for individuals and groups. For these services, AIB receives commission based on the premiums that it writes. Commission income for the year ended December 31, 2009, decreased \$227,521 (8%) compared to the year ended December 31, 2008. Commission income for the year ended December 31, 2008, increased \$434,132 (19%), compared to the year ended December 31, 2007. The current year decrease is primarily due to the fact that beginning in September 2009, CIGNA substantially reduced the medical plans offered to small group employers in the state of California, from nineteen plans to four. All new employer groups and existing employer groups on their anniversary date will have the option to choose from the four available plans. AIB is assisting its CIGNA policyholders in obtaining new coverage in one of the four CIGNA plans or with other contracted carriers. This reduction in CIGNA medical plans offered to small group employers in the state of California may result in a decrease in AIB commission income and AAQHC fee income. AAQHC will continue to underwrite and administer the remaining four CIGNA medical plans and CIGNA dental plans for individuals and small group employers.

Association Operation

Membership and fee income from the association program of AAQHC is as follows:

	Year ended December 31		
	2009	2008	2007
Membership and fee income	\$261,980	\$300,214	\$309,712

Membership and fee income for the year ended December 31, 2009, decreased \$38,234 (13%) compared to the year ended December 31, 2008. The decrease is primarily related to the fact that beginning in September 2009, CIGNA substantially reduced the medical plans offered to small group employers in the state of California from nineteen plans to four as previously noted in the health insurance program commission income discussion above. Membership and fee income for the year ended December 31, 2008, decreased \$9,498 (3%) compared to the year ended December 31, 2007.

Policy Fee Income

Unifax sells and services insurance policies for Crusader. The policy fee charged to the policyholder by Unifax is recognized as income in the consolidated financial statements. Unifax's policy fee income is as follows:

	Year ended December 31		
	2009	2008	2007
Policy fee income	\$2,109,681	\$2,239,306	\$2,482,006
Policies issued	11,901	12,539	13,536

Policy fee income for the year ended December 31, 2009, decreased \$129,625 (6%) as compared to the year ended December 31, 2008. The 6% decrease in policy fee income is primarily a result of a 638 (5%) decrease in the number of policies issued during 2009 as compared to 2008.

Policy fee income for the year ended December 31, 2008, decreased \$242,700 (10%) as compared to the year ended December 31, 2007. The 10% decrease in policy fee income is primarily a result of a 997 (7%) decrease in the number of policies issued during 2008 as compared to 2007.

Daily Automobile Rental Insurance Program

The daily automobile rental insurance program is produced by Bedford for a non-affiliated insurance company.

Commission income from the daily automobile rental insurance program is as follows:

	Year ended December 31		
	2009	2008	2007
Rental program commission	\$336,315	\$345,350	\$344,120
Contingent commission	65,514	58,593	46,539
Total commission income	\$401,829	\$403,943	\$390,659

The daily automobile rental insurance program commission income for the year ended December 31, 2009, decreased \$2,114 (1%) compared to the year ended December 31, 2008. For the year ended December 31, 2008, commission income increased \$13,284 (3%) compared to the year ended December 31, 2007. The daily automobile rental insurance program commission income excluding contingent commission decreased \$9,035 (3%) to \$336,315 in 2009 from \$345,350 in 2008. The daily automobile rental insurance program commission income excluding contingent commission increased \$1,230 (0%) to \$345,350 in 2008 from \$344,120 in 2007. Premium written in 2009 decreased 2% compared to premium written in 2008. Premium written in 2008 and 2007 were comparable. The daily automobile rental insurance program is still impacted by the intense price competition in the marketplace during the periods covered by this report. The Company cannot determine how long the existing market conditions will continue, nor in which direction they might change. To avoid underwriting losses for the non-affiliated insurance company that it represents, Bedford continues to produce business only at rates that it believes to be adequate.

Other Commission and Fee Income

Other commission and fee income are as follows:

	Year ended December 31		
	2009	2008	2007
Earthquake program commission income	\$493	\$8,175	\$13,018
Miscellaneous commission and fee income	294	140	77
Total other commission and fee income	\$787	\$8,315	\$13,095

Unifax began producing commercial earthquake insurance policies in California for non-affiliated insurance companies in 1999. Unifax receives a commission from these insurance companies based on premium written. Effective February 1, 2009, this program was terminated. Commission income on the earthquake program for the year ended December 31, 2009, decreased \$7,682 (94%) compared to 2008 due to the termination of the program effective February 1, 2009. Commission income on the earthquake program for the year ended December 31, 2008, decreased \$4,703 (36%) compared to 2007.

The commissions paid by Crusader to Unifax are eliminated as intercompany transactions and are not reflected in commission income or commission expense.

Premium Finance Program

Premium finance charges and late fees earned from financing policies are as follows:

	Year ended December 31		
	2009	2008	2007
Premium finance charges and fees earned	\$369,285	\$460,422	\$553,997
New loans	2,244	2,523	2,835

AAC provides premium financing for Crusader policies produced by Unifax in California. The growth of this program is dependent and directly related to the growth of Crusader's written premium and AAC's ability to market its competitive rates and service. Premium finance charges and fees earned decreased \$91,137 (20%) in the year ended December 31, 2009, compared to 2008 primarily due to the fact that there were 279 (11%) fewer loans issued in the current year. Premium finance charges and fees earned decreased \$93,575 (17%) in the year ended December 31, 2008, compared to 2007 primarily due to the fact that there were 312 (11%) fewer loans issued in the current year. The average premium financed by AAC was \$2,309 in 2009, \$2,653 in 2008 and \$2,769 in 2007. During 2009, 32% of all Unifax policies were financed and 59% of those policies were financed by AAC. During 2008, 28% of all Unifax policies were financed and 81% of those policies were financed by AAC. During 2007, 28% of all Unifax policies were financed and 72% of those policies were financed by AAC.

Investment Income and Net Realized Gains

Investment income and net realized gains are as follows:

	Year ended December 31		
	2009	2008	2007

Edgar Filing: UNICO AMERICAN CORP - Form 10-K

Average invested assets* – at amortized cost	\$ 141,320,457	\$ 146,195,377	\$ 147,330,351
Interest income			
Insurance company operations	\$4,325,123	\$5,829,304	\$6,695,121
Other operations	1,350	61,434	152,002
Realized gains	-	6,306	-
Total investment income and realized gains	\$4,326,473	\$5,897,044	\$6,847,123
Yield on average invested assets	3.06	% 4.03	% 4.65 %

* The average is based on the beginning and ending balance of the amortized cost of the invested assets for each respective year.

In the year ended December 31, 2009, the Company's average invested assets (at amortized value) decreased \$4,874,920 (3%) compared to the year ended December 31, 2008. In the year ended December 31, 2009, investment income earned, excluding realized gains, decreased \$1,564,265 (27%) compared to the year ended December 31, 2008. The yield on average invested assets decreased to 3.06% in 2009 from 4.03% in 2008. The decrease in the yield on average invested assets is primarily the result of a decrease in the average return on new and reinvested assets in the Company's investment portfolio. Due to the current interest rate environment, management believes it is prudent to purchase fixed maturity investments with maturities of five years or less and with minimal credit risk. Thus, the weighted average maturity of the Company's fixed maturity investments as of December 31, 2009, was 1.7 years compared to 2.1 years as of December 31, 2008. The Company's invested assets (at amortized value) as of December 31, 2009, were \$137,598,527 as compared to \$145,042,387 as of December 31, 2008.

In the year ended December 31, 2008, the Company's average invested assets (at amortized value) decreased \$1,134,974 (1%) compared to the year ended December 31, 2007. In the year ended December 31, 2008, investment income earned, excluding realized gains, decreased \$956,385 (14%) compared to the year ended December 31, 2007. The yield on average invested assets decreased to 4.03% in 2008 from 4.65% in 2007. The decrease in the yield on average invested assets is primarily the result of a decrease in the average return on new and reinvested assets in the Company's investment portfolio. Due to the interest rate environment, management believed it was prudent to purchase fixed maturity investments with maturities of five years or less and with minimal credit risk. Thus, the weighted average maturity of the Company's fixed maturity investments as of December 31, 2008, was 2.1 years compared to 2.0 years as of December 31, 2007. The Company's invested assets (at amortized value) as of December 31, 2008, were \$145,042,387 as compared to \$147,348,367 as of December 31, 2007.

The par value, amortized cost, estimated market value and weighted average yield of fixed maturity investments at December 31, 2009, by contractual maturity are as follows. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without penalties.

Maturities by Calendar Year	Par Value	Amortized Cost	Fair Value	Weighted Average Yield	
December 31, 2010	\$37,548,999	\$37,586,646	\$37,991,469	2.44	%
December 31, 2011	43,288,998	43,338,357	43,858,295	1.96	%
December 31, 2012	38,447,000	38,422,200	41,242,938	4.40	%
December 31, 2013	9,100,000	9,093,492	9,502,781	3.26	%
Total	\$128,384,997	\$128,440,695	\$132,595,483	2.92	%

The following table sets forth the composition of the investment portfolio of the Company at the dates indicated:

Type of Security	(Amounts in Thousands)					
	As of December 31					
	2009		2008		2007	
Amortized Cost	Fair Value	Amortized Cost	Fair Value	Amortized Cost	Fair Value	
Certificates of deposit	\$21,035	\$21,035	\$400	\$400	\$400	\$400
U.S. treasury securities	103,362	107,419	124,526	131,939	130,211	133,014
Industrial and miscellaneous taxable bonds	4,044	4,141	10,614	10,633	9,366	9,467

Edgar Filing: UNICO AMERICAN CORP - Form 10-K

State and municipal tax-exempt bonds	-	-	-	-	15	15
Total fixed maturity investments	128,441	132,595	135,540	142,972	139,992	142,896
Short-term cash investments	9,158	9,158	9,502	9,502	7,356	7,356
Total investments	\$137,599	\$141,753	\$145,042	\$152,474	\$147,348	\$150,252

At December 31, 2009, the Company had no fixed maturity investments with a gross unrealized loss. The following table summarizes for all fixed maturities in an unrealized loss position at December 31, 2008 and the aggregate fair value and gross unrealized loss by length of time those fixed maturities had been continuously in an unrealized loss.

Year ended December 31, 2008	Amortized		Gross
	Cost	Fair Value	Unrealized Loss
0-6 months	\$5,590,110	\$5,524,385	\$65,725
7-12 months	-	-	-
Over 12 months	-	-	-
Total	\$5,590,110	\$5,524,385	\$65,725

No securities were sold at a loss during 2009 or 2008.

At December 31, 2008, the fixed maturity investments with a gross unrealized loss for continuous periods of 0 to 6 months consisted of three investment grade industrial securities.

The Company monitors its investments closely. If an unrealized loss is determined to be other-than-temporary, it is written off as a realized loss through the Consolidated Statements of Operations. The Company's methodology of assessing other-than-temporary impairments is based on security-specific analysis as of the balance sheet date and considers various factors including the length of time to maturity and the extent to which the fair value has been less than the cost, the financial condition and the near-term prospects of the issuer, and whether the debtor is current on its contractually obligated interest and principal payments. The Company does not have the intent to sell its fixed maturity investments and is not likely that the Company would be required to sell any of its fixed maturity investments prior to recovery of its amortized costs. The Company did not sell any fixed maturity investments in the year ended December 31, 2009. The Company sold one fixed maturity investment in the year ended December 31, 2008, with net realized gain in the amount of \$6,306.

Operating Expenses

Policy Acquisition Costs are as follows:

	Year ended December 31		
	2009	2008	2007
Policy acquisition costs	\$7,612,716	\$8,261,324	\$8,465,047
Ratio to net earned premium (GAAP ratio)	25	% 24	% 23

Policy acquisition costs consist of commissions, premium taxes, inspection fees, and certain other underwriting costs that are directly related to and vary with the production of Crusader insurance policies. These costs include both Crusader expenses and allocated expenses of other Unico subsidiaries. On certain reinsurance treaties, Crusader receives a ceding commission from its reinsurer that represents a reimbursement of the acquisition costs related to the premium ceded. No ceding commission is received on facultative, catastrophe, or provisionally rated ceded premium. Policy acquisition costs, net of ceding commission, are deferred and amortized as the related premiums are earned. No significant change in the ratio of policy acquisition cost to net earned premium were noted in the years ended December 31, 2009, 2008 and 2007.

Salaries and Employee Benefits are as follows:

	Year ended December 31		
	2009	2008	2007
Total salaries and employee benefits incurred	\$9,133,929	\$9,625,571	\$9,785,770
Less: charged to losses and loss adjustment expenses	(1,414,259)	(1,418,031)	(1,409,391)
Less: capitalized to policy acquisition costs	(2,519,543)	(2,576,512)	(2,666,816)
Net amount charged to operating expenses	\$5,200,127	\$5,631,028	\$5,709,563

Total salaries and employee benefits incurred for the year ended December 31, 2009, decreased \$491,642 (5%) compared to the year ended December 31, 2008. The decrease in total salaries and employee benefits incurred is primarily a result of a decrease in the number of employees as compared to the prior period, the retirement of the former chief executive of the Company on April 1, 2009, offset by increases in general salaries and employee benefits costs.

Total salaries and employee benefits incurred for the year ended December 31, 2008, decreased \$160,199 (2%) compared to the year ended December 31, 2007. The decrease in total salaries and employee benefits incurred is primarily a result of a decrease in the number of employees as compared to the prior year offset by increases in general salaries and employee benefits costs.

Commissions to Agents/Brokers are as follows:

	Year ended December 31		
	2009	2008	2007
Commission to agents/brokers	\$1,089,787	\$1,279,821	\$1,002,771

Commissions to agents/brokers (not including commissions on Crusader policies that are reflected in policy acquisition costs) are generally related to gross commission income from the health insurance program, the daily automobile rental insurance program, and the earthquake program. Commissions to agents and brokers decreased \$190,034 (15%) for the year ended December 31, 2009, as compared to the year ended December 31, 2008. The decrease is primarily due to the decrease in written premium in the health insurance program and the decrease in commission income from that program. Commissions to agents and brokers increased \$277,050 (28%) for the year ended December 31, 2008, as compared to the year ended December 31, 2007. The increase is primarily due to the increase in written premium in the health insurance program and the increase in commission income from that program.

Other Operating Expenses are as follows:

	Year ended December 31		
	2009	2008	2007
Other operating expenses	\$4,004,737	\$3,020,075	\$2,940,124

Other operating expenses generally do not change significantly with changes in production. This is true for both increases and decreases in production. Other operating expenses increased \$984,662 (33%) for the year ended December 31, 2009, compared to the year ended December 31, 2008. The increase in other operating expenses is primarily due to an increase in the Company's bad debt expense, legal fees and the fees charged by the California Department of Insurance for performing its required tri-annual examination of the Company's insurance subsidiary. The Company's bad debt expense increased \$649,358 for the twelve months ended December 31, 2009, as compared to the prior year, and legal fees increased \$199,856 as compared to the prior year, primarily due to a single agent's failure to remit premiums due Unifax. See "Note 5, Premiums, Commissions and Notes Receivable, Net".

Other operating expenses increased \$79,951 (3%) for the year ended December 31, 2008, compared to the year ended December 31, 2007.

Income Taxes

Income tax expense for the year ended December 31, 2009, was \$1,236,603 compared to an income tax expense of \$2,701,450 for the year ended December 31, 2008. The effective combined income tax rates for 2009 and 2008 were 30% and 34%, respectively. The decrease in the effective tax rate in 2009 was primarily due to tax adjustments, recorded in the 3 months ended December 31, 2009, related to prior periods which reduced the Company's income tax expense in the current year by \$97,161. The adjustment was the result of recognition of the tax effect of certain

deferred items for state income tax purposes. The pre-tax income decreased \$3,820,488 (48%) for the year ended December 31, 2009, compared to the year ended December 31, 2008, which resulted in a decreased income tax expense in 2009.

Income tax expense for the year ended December 31, 2008, was \$2,701,450 compared to an income tax expense of \$3,360,709 for the year ended December 31, 2007. The effective combined income tax rates for 2008 and 2007 were 34% and 33%, respectively. The pre-tax income decreased \$2,088,687 (21%) for the year ended December 31, 2008, compared to the year ended December 31, 2007, which resulted in a decreased income tax expense in 2008.

Recently Issued Accounting Standards

Accounting Guidance Adopted

In April 2009, the Financial Accounting Standards Board (“FASB”) issued guidance on “Recognition and Presentation of Other-Than-Temporary Impairments.” This guidance requires entities to separate an other-than-temporary impairment of a debt security into two components when there are credit related losses associated with the impaired debt security for which management asserts that it does not have the intent to sell the security and it is more likely than not that it will not be required to sell the security before recovery of its cost basis. The amount of the other-than-temporary impairment related to a credit loss is recognized in earnings and the amount of the other-than-temporary impairment related to other factors is recorded in other comprehensive income (loss). This guidance was effective for periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The adoption of this guidance did not materially impact the Company’s consolidated financial condition or results of operations.

In April 2009, the FASB issued guidance on “Determining Fair Value When Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions that are Not Orderly.” Under this guidance, if an entity determines that there has been a significant decrease in the volume and level of activity for the asset or the liability in relation to the normal market activity for the asset or liability (or similar assets or liabilities), then transactions or quoted prices may not accurately reflect fair value. In addition, if there is evidence that the transaction for the asset or liability is not orderly, the entity shall place little, if any, weight on that transaction price as an indicator of fair value. This guidance is effective for periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The adoption of this guidance did not materially impact the Company’s consolidated financial condition or results of operations.

In April 2009, the FASB issued guidance on “Interim Disclosures About Fair Value of Financial Instruments.” This guidance requires disclosures about fair value of financial instruments in interim and annual financial statements which is effective for periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The Company adopted this guidance for the interim reporting period ended June 30, 2009 and has included required disclosures in the Notes to Consolidated Financial Statements.

In August 2009, the FASB issued new guidance on “Fair Value Measurements and Disclosures - Measuring Liabilities at Fair Value.” The new guidance provides clarification that in certain circumstances in which a quoted price in an active market for the identical liability is not available, a company is required to measure fair value using one or more of the following valuation techniques: the quoted price of the identical liability when traded as an asset, the quoted prices for similar liabilities or similar liabilities when traded as assets, and/or another valuation technique that is consistent with the principles of fair value measurements. The new guidance clarifies that a company is not required to include an adjustment for restrictions that prevent the transfer of the liability and if an adjustment is applied to the quoted price used in a valuation technique, the result is a Level 2 or 3 fair value measurement. The new guidance is effective for interim and annual periods beginning after August 27, 2009. The provisions of the new guidance did not materially impact the Company’s consolidated financial condition or results of operations.

In June 2009, the FASB issued guidance on “Accounting for Transfers of Financial Assets” that requires enhanced disclosures about transfers of financial assets and a company’s continuing involvement in transferred assets. This guidance is effective for financial statements issued for fiscal years beginning after November 15, 2009. The adoption of this guidance did not materially impact the Company’s consolidated financial condition or results of operations.

In June 2009, the FASB issued guidance which (1) replaces the quantitative-based risks and rewards calculation for determining whether an enterprise is the primary beneficiary in a variable interest entity with an approach that is primarily qualitative, (2) requires ongoing assessments of whether an enterprise is the primary beneficiary of a variable interest entity, and (3) requires additional disclosures about an enterprise’s involvement in variable interest

entities. This guidance is effective for financial statements issued for fiscal years beginning after November 15, 2009. The adoption of this guidance did not materially impact the Company's consolidated financial condition or results of operation.

In June 2009, the FASB issued a new standard related to accounting standards codification and the hierarchy of generally accepted accounting principles. The new standard establishes the FASB Accounting Standards Codification™ as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Company adopted the new standard which became effective for the interim reporting period ended September 30, 2009. The adoption of the new standard did not have a material impact on the Company's consolidated financial statements.

There have been no other accounting standards issued during 2009 that are expected to have a material impact on the Company's consolidated financial statements.

Significant Accounting Policies

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. While every effort is made to ensure the integrity of such estimates, actual results could differ.

Management believes the Company's current critical accounting policies comprise the following:

Losses and Loss Adjustment Expenses

The preparation of the Company's consolidated financial statements requires judgments and estimates. The most significant is the estimate of loss reserves. Management makes its best estimate of the liability for unpaid claims costs as of the end of each fiscal quarter. Due to the inherent uncertainties in estimating the Company's unpaid claims costs, actual loss and loss adjustment expense payments may vary, perhaps significantly, from any estimate made prior to the settling of all claims. Variability is inherent in establishing loss and loss adjustment expense reserves, especially for a small insurer like the Company. For any given line of insurance, accident year, or other group of claims, there is a continuum of possible reserve estimates, each having its own unique degree of propriety or reasonableness. Due to the complexity and nature of the insurance claims process, there are potentially an infinite number of reasonably likely scenarios. The Company does not specifically identify reasonably likely scenarios other than utilizing management's best estimate. In addition to applying the various standard methods to the data, an extensive series of diagnostic tests are applied to the resultant reserve estimates to determine management's best estimate of the unpaid claims liability. Among the statistics reviewed for each accident year are loss and loss adjustment expense development patterns, frequencies (expected claim counts), severities (average cost per claim), loss and loss adjustment expense ratios to premium, and loss adjustment expense ratios to loss. When there is clear evidence that the actual claims costs emerged are different than expected for any prior accident year, the claims cost estimates for that year are revised accordingly.

Some lines of insurance are commonly referred to as "long-tail" lines because of the extended time required before claims are ultimately settled. Lines of insurance in which claims are settled relatively quickly are called "short-tail" lines. It is generally more difficult to estimate loss reserves for long-tail lines because of the long period of time that elapses between the occurrence of a claim and its final disposition and the difficulty of estimating the settlement value of the claim. The Company's short-tail lines consist of its property coverages and its long-tail lines consist of its liability coverages. However, compared to other long-tail liability lines that are not underwritten by the Company, such as workers' compensation, professional liability, umbrella liability, and medical malpractice, the Company's liability claims tend to be settled relatively quicker.

The Company underwrites four statutory annual statement lines of business: (1) commercial multi peril, (2) liability other than automobile and products, (3) fire, and (4) allied lines. Commercial multi peril policies comprised 98% of the Company's 2009 and 2008 premium volume, respectively, and 96% of the Company's 2007 premium volume. Commercial multi peril policies include both property and liability coverages. For all of the Company's coverages and lines of business, the Company's actuarial loss and loss adjustment expense reserving methods require assumptions that can be grouped into two key categories: (1) expected losses and loss adjustment expenses required by the expected loss ratio and Bornhuetter-Ferguson methods, and (2) expected development patterns required by the loss development and Bornhuetter-Ferguson methods.

The Company also segregates most of its business into smaller homogeneous categories primarily for management's internal detailed business review and analysis. These homogeneous categories used by the Company include various combinations and special groupings of its lines of business, programs types, states, and coverages. Some categories exclude certain items and/or others include certain items. Not all categories are defined in the same way. This analysis includes the tracking of historical claims costs and development patterns separately for each of these uniquely designed categories. Generally, neither the liability development patterns nor the property development patterns vary significantly by category.

The accurate establishment of loss and loss adjustment expense reserves is a difficult process as there are many factors that can ultimately affect the final settlement of a claim and, therefore, the reserve that is needed. Estimates are based on a variety of industry data and on the Company's current and historical accident year claims data, including but not limited to reported claim counts, open claim counts, closed claim counts, closed claim counts with payments, paid losses, paid loss adjustment expenses, case loss reserves, case loss adjustment expense reserves, earned premiums and policy exposures, salvage and subrogation, and unallocated loss adjustment expenses paid. Many other factors, including changes in reinsurance, changes in pricing, changes in policy forms and coverage, changes in underwriting and risk selection, legislative changes, results of litigation and inflation are also taken into account.

At the end of each fiscal quarter, the Company's reserves are re-evaluated for each accident year (i.e., for all claims incurred within each year) by a committee consisting of the Company's president and the Company's chief financial officer. It is also reviewed by an independent consulting actuary. The Company uses the loss ratio method to estimate ultimate claims costs for the current accident year. The current accident year IBNR reserves are initially determined by multiplying earned premiums for the year by the expected loss and loss adjustment expense ratio, then subtracting the current accident year's cumulative incurred (paid plus case reserves) to date. This method is subject to adjustment based upon actual results incurred during the reporting period. This initial IBNR reserve is adjusted as subsequent development of that accident year takes place.

The Company also applies several additional standard actuarial methods to the historical claims costs data to estimate its unpaid claims liability for each accident year. The additional standard methods include loss development methods and Bornhuetter-Ferguson methods, both of which can be applied to paid losses and loss adjustment expenses (claims costs), reported incurred (paid plus case reserve) claims costs, and/or claim counts. These methodologies do not vary by tail length; however, certain parameters do vary. In particular, loss development factors for short-tail property claims are different than for long-tail liability claims.

Development patterns generally do not tend to change materially over time. Generally, the Company has very little property claim development subsequent to the end of an accident year. Although liability claims may take ten or more years to fully develop, most of the development occurs in the first five to six years subsequent to the end of the accident year. However, liability claims are substantially developed by two years subsequent to the end of the accident year. Other than the change in the expected loss and loss adjustment expense ratio assumption discussed above, the Company's reserving methodology assumptions have not changed in the years presented. The only significant effect on the Company's financial statements has resulted from estimated costs being adjusted as actual costs emerge.

The Company's actuarially based loss and loss adjustment expense reserve methodology does not include an implicit or explicit provision for uncertainty. Insurance claims costs are inherently uncertain. There is not a precise means of quantifying a provision for uncertainty when determining an appropriate liability for unpaid claims costs. Rather, the potential for claims costs being less than estimated and the potential for claims costs being more than estimated are considered when selecting the parameters to be used in the application of the actuarial methods and when testing the estimates for reasonableness. Management believes that its recorded loss and loss adjustment expense reserves make reasonable provision for its liability for unpaid claims costs.

The information that management uses to arrive at its best reserve estimate comes from many sources within the Company, including its accounting, legal, claims, and underwriting departments. Informed managerial judgment is applied throughout the reserving process. In addition, time can be a critical part of reserving determinations since the longer the span between the incidence of a loss and the payment or settlement of the claim, the more variable the ultimate settlement amount can be. Accordingly, short-tail claims, such as property damage claims, tend to be more reasonably predictable than long-tail liability claims. The liability for unpaid losses and loss adjustment expenses is based upon the accumulation of individual case estimates for losses reported prior to the close of the accounting period plus estimates based on experience and industry data for development of case estimates and for unreported losses and loss adjustment expenses. Since the emergence and disposition of claims are subject to uncertainties, the net amounts that will ultimately be paid to settle claims may vary significantly from the estimated amounts provided for in the accompanying consolidated financial statements. Any adjustments to reserves are reflected in the operating results of the periods in which they are made. Management believes that the aggregate reserves for losses and loss adjustment expenses are reasonable and adequate to cover the cost of claims, both reported and unreported.

The Company must estimate its ultimate losses and loss adjustment expenses using a very small claim population size. At the beginning of 2008, the Company had 657 open claim files. During 2009, 1,086 new claim files were opened and 1,121 claim files were closed, leaving 622 open claim files at the end of 2009. Due to the small size of the Company and the related small population of claims, the Company's losses and loss adjustment expenses for any accident year can vary significantly from the initial expectations. Due to the small number of claims, changes in claim frequency and/or severity can materially affect the Company's reserve estimate. The potential variability from management's best estimate cannot be measured from any meaningful statistical basis due to the numerous uncertainties in the claims reserving process and the small population of claims.

At each quarterly review, actual claims costs that emerge are compared with the claims costs that were expected to emerge during that development period. Sometimes the previous claims costs estimates prove to have been too high; sometimes they prove to have been too low. In the case of the Company, the estimates proved to be too high in each of the past three years. The favorable development in 2007 through 2009 underscores the inherent uncertainty in insurance claims costs, especially for a very small insurer.

	Calendar year ended December 31		
	2009	2008	2007
Net reserves for unpaid losses and loss adjustment expenses at beginning of year	\$58,839,017	\$66,305,287	\$70,076,430
Net (decrease) in provision for events of prior years	\$(3,955,553)	\$(3,556,801)	\$(4,118,101)
Percent of development to beginning reserves	(6.7 %)	(5.4 %)	(5.9 %)

The differences between actual and expected claims costs are typically not due to one specific factor but to a combination of many factors such as the period of time between the initial occurrence and the final settlement of the claim, current and perceived social and economic inflation, and many other economic, legal, political, and social factors. Because of these and other factors, actual loss and loss adjustment expense payments should be expected to vary, perhaps significantly, from any estimate made prior to the settling of all claims. Any adjustments to reserves are reflected in the operating results of the periods in which they are made. Management believes that the aggregate reserves for losses and loss adjustment expenses are reasonable and adequate to cover the cost of claims, both reported and unreported.

Reinsurance

The Company's recoverable from reinsurers represents an estimate of the amount of future loss and loss adjustment expense payments that will be recoverable from the Company's reinsurers. These estimates are based upon estimates of the ultimate losses and loss adjustment expenses that the Company expects to incur and the portion of those losses that are expected to be allocable to reinsurers based upon the terms of the reinsurance agreements. Given the uncertainty of the ultimate amounts of losses and loss adjustment expenses, the estimates may vary significantly from the eventual outcome. The Company's estimate of the amounts recoverable from reinsurers is regularly reviewed and updated by management as new data becomes available. The Company's assessment of the collectibility of the recorded amounts recoverable from reinsurers is based primarily upon public financial statements and rating agency data. Any adjustments necessary are reflected in the current operations. The Company evaluates each of its ceded reinsurance contracts at their inception to determine if there is sufficient risk transfer to allow the contract to be accounted for as reinsurance under current accounting literature. At December 31, 2009, all such ceded contracts are accounted for as risk transfer reinsurance.

The following tables provide the effect of reinsurance on the Company's financial statements:

The effect of ceded reinsurance on financial position is as follows:

	Year ended December 31		
	2009	2008	2007
Ceded losses and loss adjustment expenses incurred on excess of loss treaties*			
Ceded paid losses and loss adjustment expenses	\$3,315,589	\$7,268,387	\$3,287,750
Change in ceded case loss reserves	486,328	(3,324,003)	1,659,134
Change in ceded IBNR reserves	(4,126,038)	(5,285,848)	3,246,603
Total ceded losses and loss adjustment expenses incurred	\$(324,121)	\$(1,341,464)	\$8,193,487
Ceded loss and loss adjustment expense recoverable on excess of loss treaties			
Ceded case loss and loss adjustment expense reserves recoverable	\$1,841,146	\$1,354,818	\$4,678,821
Ceded IBNR reserves recoverable	14,334,717	18,460,755	23,746,603
Total ceded loss and loss adjustment expense reserves recoverable	\$16,175,863	\$19,815,573	\$28,425,424

*There were no catastrophe losses incurred during the period covered by this table.

The effect of ceded reinsurance on results of operations is as follows:

	Year ended December 31		
	2009	2008	2007
Direct earned premium	\$40,050,878	\$42,720,764	\$48,661,973
Earned ceded premium			
Excluding provisionally rated ceded premium	9,284,534	8,850,878	11,560,877
Provisionally rated ceded premium	(8,127)	(79,809)	(28,569)
Total earned ceded premium	9,276,407	8,771,069	11,532,308
Ceding commission	2,768,518	2,642,665	3,547,595
Earned ceded premium, net of ceding commission	\$6,507,889	\$6,128,404	\$7,984,713
Ratios to direct earned premium			
Direct ceded premium	23	% 21	% 24
Earned ceded premium, net of ceding commission	16	% 14	% 16

The effect of ceded reinsurance on cash flow is as follows:

	Year ended December 31		
	2009	2008	2007
Changes in reinsurance recoverable from statements of cash flows	\$3,301,130	\$8,813,303	\$(4,955,568)

The Company's reinsurance strategy is to reduce volatility in its expected loss and loss adjustment expense results by protecting the Company against liabilities in excess of certain retentions, including major or catastrophic losses that may occur from any one or more of the property and/or casualty risks which it insures. On an annual basis, or sooner if warranted, the Company evaluates whether any changes to its retention, participation, or retained limits are necessary.

The Company currently only writes business in the state of California. The types of businesses and the coverage limits written by the Company are not considered difficult lines for obtaining reinsurance. In addition, because the major catastrophe exposure is primarily from riots and fire following earthquakes, the Company does not anticipate significant limitations on its ability to cede future losses on a basis consistent with its historical results.

Investments

The Company's fixed maturity investments are classified as available-for-sale and are stated at fair value. Although all of the Company's investments are classified as available-for-sale and the Company may sell investment securities from time to time in response to economic and market conditions, its investment guidelines place primary emphasis on buying and holding high-quality investments to maturity. Short-term investments are carried at cost, which approximates fair value. The unrealized gains or losses from fixed maturities are reported as "accumulated other comprehensive income (loss)," which is a separate component of stockholders' equity, net of any deferred tax effect. When a decline in the value of a fixed maturity is considered other-than-temporary, a loss is recognized in the Consolidated Statements of Operations. Realized gains and losses are included in the Consolidated Statements of Operations based on the specific identification method.

Related Party Transactions

The Company presently occupies approximately 46,000 square feet of an office building located at 23251 Mulholland Drive, Woodland Hills, California, under a master lease expiring March 31, 2012. Erwin Cheldin, the Company's former president and current director, and principal stockholder, is the owner of the building. The Company signed an extension to the lease with a 4% increase in rent effective April 1, 2007. The lease provides for an annual gross rent of \$1,066,990 from April 1, 2007, through March 31, 2012. In addition, the lease extension provides for two, five-year options with a rent increase of 5% for each option period. The Company believes that at the inception of the lease agreement and at each subsequent extension, the terms of the lease were at least as favorable to the Company as could have been obtained from non-affiliated third parties. The Company utilizes for its own operations approximately 100% of the space it leases.

Forward Looking Statements

Certain statements contained herein, including the sections entitled "Business," "Legal Proceedings" and "Management's Discussion and Analysis of Financial Condition and Results of Operations," that are not historical facts are forward looking. These statements, which may be identified by forward looking words or phrases such as "anticipate," "appear," "believe," "estimate," "expect," "intend," "may," "plan," "should," and "would" involve risks and uncertainties, many of which are beyond the control of the Company. Such risks and uncertainties could cause actual results to differ materially from these forward looking statements. Factors which could cause actual results to differ materially include those described under Item 1 – "Business - Competition" and Item 1A – "Risk Factors"; premium rate adequacy relating to competition or regulation; actual versus estimated claim experience; the outcome of rate change filings with regulatory authorities; acceptance by insureds of rate changes; adequacy of rate changes; changes in Crusader's A.M. Best rating; regulatory changes or developments; the outcome of regulatory proceedings; unforeseen calamities; general market conditions; and the Company's ability to introduce new profitable products.

Item 7A. Quantitative and Qualitative Disclosures About Market Risk.

The Company's consolidated balance sheet includes a substantial amount of invested assets whose fair values are subject to various market risk exposures including interest rate risk and equity price risk.

The Company's invested assets at December 31, 2009 and 2008, consisted of the following:

	2009	2008
Fixed maturity bonds (at amortized cost)	\$ 107,405,698	\$ 135,140,354
Short-term cash investments (at cost)	9,157,832	9,502,033
Certificates of deposit - over 1 year (at cost)	21,034,997	400,000
Total invested assets	\$ 137,598,527	\$ 145,042,387

The Company's interest rate risk is primarily in its fixed maturity bond portfolio. As market interest rates decrease, the value of the portfolio increases with the opposite holding true in rising interest rate environments. In addition, the longer the maturity, the more sensitive the asset is to market interest rate fluctuations. The Company limits this risk by investing in securities with maturities no greater than eight years. In addition, although fixed maturity bonds are classified as available-for-sale, the Company's investment guidelines place primary emphasis on buying and holding high-quality bonds to maturity. Because fixed maturity bonds are primarily held to maturity, the change in the market value of these bonds resulting from interest rate movements is unrealized and no gains or losses are recognized in the Consolidated Statements of Operations. As of December 31, 2009, the Company's unrealized gains (net of unrealized losses) before income taxes on its fixed maturity bond portfolio were \$4,154,788 compared to unrealized gains (net of unrealized losses) before income taxes of \$7,431,626 as of December 31, 2008. Given a hypothetical parallel increase of 100 basis points in interest rates, the fair value of the fixed maturity bond portfolio as of December 31, 2009, would decrease by approximately \$1,917,395. This decrease would not be reflected in the statements of operations except to the extent that the securities were sold or the decrease was deemed to be other-than-temporary.

The Company's short-term investments and certificates of deposit have only minimal interest rate risk.

Item 8. Financial Statements and Supplementary Data.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders

Unico American Corporation:

We have audited the accompanying consolidated balance sheets of Unico American Corporation and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2009. These consolidated financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of Unico American Corporation and subsidiaries as of December 31, 2009 and 2008, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2009, in conformity with U.S. generally accepted accounting principles.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Nature of Business

Unico American Corporation is an insurance holding company that underwrites property and casualty insurance through its insurance company subsidiary; provides property, casualty, and health insurance through its agency subsidiaries; and provides insurance premium financing and membership association services through its other subsidiaries. Unico American Corporation is referred to herein as the "Company" or "Unico" and such references include both the corporation and its subsidiaries, all of which are wholly owned, unless otherwise indicated. Unico was incorporated under the laws of Nevada in 1969.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of Unico American Corporation and its subsidiaries. All significant intercompany accounts and transactions have been eliminated in consolidation.

Basis of Presentation

The consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles (GAAP). As described in Note 13, the Company's insurance subsidiary also files financial statements with regulatory agencies prepared on a statutory basis of accounting that differs from GAAP.

Accounting Standards Codification

In June 2009, the FASB issued a new standard related to accounting standards codification and the hierarchy of generally accepted accounting principles. The new standard establishes the FASB Accounting Standards Codification™ as the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities in the preparation of financial statements in conformity with GAAP. Rules and interpretive releases of the Securities and Exchange Commission under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. The Company adopted the new standard which became effective for the interim reporting period ended September 30, 2009. The adoption of the new standard did not have a material impact on the Company's consolidated financial statements.

Use of Estimates in the Preparation of the Financial Statements

The preparation of financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect its reported amounts of assets and liabilities and its disclosure of any contingent assets and liabilities at the date of its financial statements, as well as its reported amounts of revenues and expenses during the reporting period. The most significant assumptions in the preparation of these consolidated financial statements relate to losses and loss adjustment expenses. While every effort is made to ensure the integrity of such estimates, actual results may differ.

Fair Value of Financial Instruments

The Company has used the following methods and assumptions in estimating its fair value disclosures:

- Fixed Maturities:

1. Investment Securities excluding Long Term Certificates of Deposit - Fair values are obtained from a national quotation service.
 2. Long-Term Certificates of Deposit - The carrying amounts reported in the balance sheet for these instruments approximate their fair values.
- Cash and Short-Term Investments - The carrying amounts reported in the balance sheet for these instruments approximate their fair values.
 - Premiums and Notes Receivable - The carrying amounts reported in the balance sheet for these instruments approximate their fair values.

Fair Value Measurements

ASC 820, "Fair Value Measurements and Disclosures," was adopted by the Company as of January 1, 2008. The accounting standard establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). Financial assets and financial liabilities recorded on the consolidated balance sheets at fair value are categorized based on the reliability of inputs to the valuation techniques as follows:

Level 1 - Financial assets and financial liabilities whose values are based on unadjusted quoted prices in active markets for identical assets.

Level 2 - Financial assets and financial liabilities whose values are based on quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in non-active markets; or valuation models whose inputs are observable, directly or indirectly, for substantially the full term of the asset or liability.

Level 3 - Financial assets and financial liabilities whose values are based on prices or valuation techniques that require inputs that are both unobservable and significant to the overall fair value measurement. These inputs reflect the Company's estimates of the assumptions that market participants would use in valuing the financial assets and financial liabilities.

The hierarchy gives the highest priority to Level 1 inputs and the lowest priority to Level 3 inputs. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, the level in the fair value hierarchy within which the fair value measurement in its entirety falls has been determined based on the lowest level input that is significant to the fair value measurement in its entirety. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment and considers factors specific to the asset or liability.

The Company's fixed maturity investments are all classified within Level 1 of the fair value hierarchy because they are valued using quoted market prices, broker or dealer quotations, or alternative pricing sources in active markets for identical assets with reasonable levels of price transparency. Fair value measurements are not adjusted for transaction costs.

All of the Company's fixed maturity investments are classified as available-for-sale and are stated at fair value. Although all of the Company's investments are classified as available-for-sale and the Company may sell investment securities from time to time in response to economic and market conditions, its investment guidelines place primary emphasis on buying and holding high-quality investments to maturity. Short-term investments are carried at cost, which approximates fair value. The unrealized gains or losses from fixed maturities are reported as "accumulated other comprehensive income," which is a separate component of stockholders' equity, net of any deferred tax effect. For fixed maturity investments that the Company does not intend to sell or for which it is more likely than not that the Company would not be required to sell before an anticipated recovery in value, the Company separates the credit loss component of the impairment, if any, from the amount related to all other factors and reports the credit loss component in net realized investment gains (losses). There was no credit loss component for any of the periods presented in the accompanying consolidated statement of operations. The impairment related to all other factors is reported in "accumulated other comprehensive income." Realized gains and losses, if any, are included in the Consolidated Statements of Operations based on the specific identification method.

The Company had unrealized investment gains, net of deferred taxes of \$2,742,160 as of December 31, 2009, and unrealized investment gains, net of deferred taxes of \$4,904,873 as of December 31, 2008.

Property and Equipment

Property and equipment are stated at cost less accumulated depreciation. Depreciation is computed using straight line methods over three to seven years.

Accounting for Uncertainty in Income Taxes

The provision for federal income taxes is computed on the basis of income as reported for financial reporting purposes. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes, and are measured using the enacted tax rates and laws expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Income tax expense provisions increase or decrease in the same period in which a change in tax rates is enacted.

ASC 740, which became effective January 1, 2007, prescribes a recognition threshold and measurement attribute for the financial statement recognition and measurement of a tax position taken or expected to be taken in a tax return. It also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure, and transition. Since adoption of ASC 740 and as of December 31, 2009, the Company had no unrecognized tax benefits and no additional liabilities or reduction in deferred tax asset. In addition, the Company had not accrued interest and penalties related to unrecognized tax benefits. However, if interest and penalties would need to be accrued related to unrecognized tax benefits, such amounts would be recognized as a component of federal income tax expense.

The Company and its subsidiaries file federal and state income tax returns. Management does not believe that the ultimate outcome of any future examinations of open tax years will have a material impact on the Company's results of operations. The Company is subject to examination by U.S. federal income tax authorities for years 2007 through 2009 and California state income tax authorities for years 2005 through 2009.

Earnings Per Share

Basic earnings per share exclude the impact of common share equivalents and are based upon the weighted average common shares outstanding. Diluted earnings per share utilize the average market price per share when applying the treasury stock method in determining common share dilution. When dilutive, outstanding stock options are treated as common share equivalents for purposes of computing diluted earnings per share and represent the difference between basic and diluted weighted average shares outstanding. In loss periods, options are excluded from the calculation of diluted earnings per share, as the inclusion of such options would have an anti-dilutive effect.

Revenue Recognition

a. General Agency Operations

Commissions due the Company are recognized as income on the effective date of the insurance policies. Policy fee income is recognized on a pro-rata basis over the terms of the policies.

b. Insurance Company Operations

Premiums are earned on a pro-rata basis over the terms of the policies. Premiums applicable to the unexpired terms of policies in force are recorded as unearned premiums. The Company earns a commission on policies that are ceded to its reinsurers. This commission is considered earned on a pro-rata basis over the terms of the policies.

c. Insurance Premium Financing Operations

Premium finance interest is charged to policyholders who choose to finance insurance premiums. Interest is charged at rates that vary with the amount of premium financed. Premium finance interest is recognized using a method that

approximates the interest (actuarial) method.

Losses and Loss Adjustment Expenses

The liability for unpaid losses and loss adjustment expenses is based upon the accumulation of individual case estimates for losses reported prior to the close of the accounting period plus estimates based on experience and industry data for development of case estimates and for incurred but unreported losses and loss adjustment expenses.

There is a high level of uncertainty inherent in the evaluation of the required loss and loss adjustment expense reserves for the Company. The long-tailed nature of liability claims and the volatility of jury awards exacerbate that uncertainty. The Company records loss and loss adjustment expense reserves at each balance sheet date based upon management's best estimate of the ultimate payments that it anticipates will be made to settle all losses incurred and related expenses incurred as of that date for both reported and unreported losses. The ultimate cost of claims is dependent upon future events, the outcomes of which are affected by many factors. Company claim reserving procedures and settlement philosophy, current and perceived social and economic inflation, current and future court rulings and jury attitudes, improvements in medical technology, and many other economic, scientific, legal, political, and social factors all can have significant effects on the ultimate costs of claims. Changes in Company operations and management philosophy also may cause actual developments to vary from the past. Since the emergence and disposition of claims are subject to uncertainties, the net amounts that will ultimately be paid to settle claims may vary significantly from the estimated amounts provided for in the accompanying consolidated financial statements. Any adjustments to reserves are reflected in the operating results of the periods in which they are made. Management believes that the aggregate reserves for losses and loss adjustment expenses are reasonable and adequate to cover the cost of claims, both reported and unreported.

Restricted Funds

Restricted funds are as follows:

	Year ended December 31	
	2009	2008
Premium trust funds (1)	\$-	\$236,104
Assigned to state agencies (2)	700,000	700,000
Total restricted funds	\$700,000	\$936,104

(1) As required by law, the Company segregates from its operating accounts the premiums collected from insureds which are payable to insurance companies into separate trust accounts. These amounts are included in cash and short-term investments. In 2009, the Company's receivables from insurance policies exceeded its premiums payable to insurance companies; therefore, there were no trust restrictions on cash and short-term investments.

(2) Included in fixed maturity investments are statutory deposits assigned to and held by the California State Treasurer and the Insurance Commissioner of the State of Nevada. These deposits are required for writing certain lines of business in California and for admission in states other than California.

Deferred Policy Acquisition Costs

Policy acquisition costs consist of costs associated with the production of insurance policies such as commissions, premium taxes, and certain other underwriting expenses that vary with and are primarily related to the acquisition of new and renewal insurance policies. Policy acquisition costs are deferred and amortized as the related premiums are earned and are limited to their estimated realizable value based on the related unearned premiums plus investment income less anticipated losses and loss adjustment expenses. Ceding commission applicable to the unexpired terms of policies in force is recorded as unearned ceding commission, which is included in deferred policy acquisition costs.

Reinsurance

The Company cedes reinsurance to provide greater diversification of business allowing management to control exposure to potential losses arising from large risks by reinsuring certain levels of risk in various areas of exposure, to reduce the loss that may arise from catastrophes, and to provide additional capacity for growth. Prepaid reinsurance premiums and reinsurance receivables are reported as assets and represent ceded unearned premiums and reinsurance recoverable on both paid and unpaid losses, respectively. Amounts recoverable from reinsurers are estimated in a manner consistent with the claim liability associated with the reinsured policies. The Company evaluates each of its ceded reinsurance contracts at its inception to determine if there is sufficient risk transfer to allow the contract to be accounted for as reinsurance under current accounting literature. As of December 31, 2009, all such ceded contracts are accounted for as risk transfer reinsurance.

The Company evaluates and monitors the financial condition of its reinsurers and factors such as collection periods, disputes, applicable coverage defenses and other factors to assess the need for any allowance against reinsurance recoverables. No such allowance was considered necessary at December 31, 2009 or 2008.

Segment Reporting

ASC 280 establishes standards for the way information about operating segments are reported in financial statements. The Company has identified its insurance company operation as its primary reporting segment. Revenues from this segment comprised 86% of consolidated revenues for the year ended December 31, 2009, 87% of

consolidated revenues for the year ended December 31, 2008, and 88% for the year ended December 31, 2007. The Company's remaining operations constitute a variety of specialty insurance services, each with unique characteristics and individually insignificant to consolidated revenues.

The insurance company operation is conducted through the Company's wholly owned subsidiary Crusader Insurance Company (Crusader), which as of December 31, 2009, was licensed as an admitted insurance carrier in the states of Arizona, California, Nevada, Oregon, and Washington. Crusader is a multi-line property and casualty insurance company, which began transacting business on January 1, 1985. For the year ended December 31, 2009, 98% of Crusader's business was commercial multi peril (CMP) insurance policies. CMP policies provide a combination of property and liability coverage for businesses. Commercial property coverages insure against loss or damage to buildings, inventory and equipment from natural disasters, including hurricanes, windstorms, hail, water, explosions, severe winter weather, and other events such as theft and vandalism, fires and storms and financial loss due to business interruption resulting from covered property damage. However, Crusader does not write earthquake coverage. Commercial liability coverages insure against third party liability from accidents occurring on the insured's premises or arising out of its operations, such as injuries sustained from products sold or the operation of the insured premises. In addition to commercial multi peril policies, Crusader also writes separate policies to insure commercial property and commercial liability risks on a mono-line basis.

Revenues, income before income taxes and assets by segment are as follows:

	Year ended December 31		
	2009	2008	2007
Revenues			
Insurance company operation	\$35,936,552	\$40,527,988	\$44,137,213
Other insurance operations	16,345,676	17,315,124	18,673,945
Intersegment eliminations (1)	(10,665,122)	(11,073,668)	(12,438,263)
Total other insurance operations	5,680,554	6,241,456	6,235,682
Total revenues	\$41,617,106	\$46,769,444	\$50,372,895
Income before income taxes			
Insurance company operation	\$7,176,928	\$10,369,791	\$11,865,603
Other insurance operations	(3,012,950)	(2,385,325)	(1,792,450)
Total income before income taxes	\$4,163,978	\$7,984,466	\$10,073,153
Assets			
Insurance company operation	\$157,271,019	\$171,700,199	
Intersegment eliminations (2)	(824,887)	(1,658,771)	
Total insurance company operation	156,446,132	170,041,428	
Other insurance operations	13,662,520	14,561,548	
Total assets	\$170,108,652	\$184,602,976	

(1) Intersegment revenue eliminations reflect commissions paid by Crusader to Unifax.

(2) Intersegment asset eliminations reflect the elimination of Crusader receivables and Unifax payables.

Concentration of Risks

In 2009 and 2008, 100% of Crusader's gross premium written was derived from California. In 2009 approximately 76% of the \$2,526,772 commission and fee income from the Company's health insurance program was from CIGNA

HealthCare medical and dental plan programs. In 2008, approximately 82% of the \$2,754,293 commission and fee income from the Company's health insurance program was from CIGNA HealthCare medical and dental plan programs.

At December 31, 2009, the Company's reinsurance recoverable on paid and unpaid losses and loss adjustment expenses of \$16,629,177 was as follows:

Name of Reinsurer	A.M. Best Rating	Amount Recoverable
Platinum Underwriters Reinsurance, Inc.	A	\$9,403,507
Hannover Ruckversicherungs AG	A	4,705,472
Partners Reinsurance Company of the U.S.	A +	1,883,738
General Reinsurance Corporation	A ++	297,463
QBE Reinsurance Corporation	A	338,997
Total		\$16,629,177

Stock-Based Compensation

Effective January 1, 2006, the Company adopted ASC 718, "Compensation – Stock Compensation Topic" using the modified prospective transition method. Under this transition method, share-based compensation expense for 2006 includes compensation expense for all share-based compensation awards granted prior to, but not yet vested as of January 1, 2006, based on the estimated grant-date fair value. Share-based compensation expense for all share-based payment awards granted or modified on or after January 1, 2006, is based on the grant-date fair value estimated in accordance with the provisions of this accounting standard.

Recently Issued Accounting Standards

Accounting Guidance Adopted

In April 2009, the Financial Accounting Standards Board (FASB) issued guidance on "Recognition and Presentation of Other-Than-Temporary Impairments." This guidance requires entities to separate an other-than-temporary impairment of a debt security into two components when there are credit related losses associated with the impaired debt security and management asserts that it does not have the intent to sell the security and it is more likely than not that it will not be required to sell the security before recovery of its cost basis. The amount of the other-than-temporary impairment related to a credit loss is recognized in earnings and the amount of the other-than-temporary impairment related to other factors is recorded in other comprehensive income (loss). This guidance was effective for periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The adoption of this guidance did not materially impact the Company's consolidated financial condition or results of operations.

In April 2009, the FASB issued guidance on "Determining Fair Value When Volume and Level of Activity for the Asset or Liability Have Significantly Decreased and Identifying Transactions that are Not Orderly." Under this guidance, if an entity determines that there has been a significant decrease in the volume and level of activity for the asset or the liability in relation to the normal market activity for the asset or liability (or similar assets or liabilities), then transactions or quoted prices may not accurately reflect fair value. In addition, if there is evidence that the transaction for the asset or liability is not orderly, the entity shall place little, if any, weight on that transaction price as an indicator of fair value. This guidance is effective for periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15, 2009. The adoption of this guidance did not materially impact the Company's consolidated financial condition or results of operations.

In April 2009, the FASB issued guidance on "Interim Disclosures About Fair Value of Financial Instruments." This guidance requires disclosures about fair value of financial instruments in interim and annual financial statements and is effective for periods ending after June 15, 2009, with early adoption permitted for periods ending after March 15,

2009. The Company adopted this guidance for the interim reporting period ended June 30, 2009.

In August 2009, the FASB issued new guidance on “Fair Value Measurements and Disclosures - Measuring Liabilities at Fair Value.” The new guidance provides clarification that in certain circumstances in which a quoted price in an active market for the identical liability is not available, a company is required to measure fair value using one or more of the following valuation techniques: the quoted price of the identical liability when traded as an asset, the quoted prices for similar liabilities or similar liabilities when traded as assets, and/or another valuation technique that is consistent with the principles of fair value measurements. The new guidance clarifies that a company is not required to include an adjustment for restrictions that prevent the transfer of the liability and if an adjustment is applied to the quoted price used in a valuation technique, the result is a Level 2 or 3 fair value measurement. The new guidance is effective for interim and annual periods beginning after August 27, 2009. The provisions of the new guidance did not materially impact the Company’s consolidated financial condition or results of operations.

In June 2009, the FASB issued guidance on “Accounting for Transfers of Financial Assets” that requires enhanced disclosures about transfers of financial assets and a company’s continuing involvement in transferred assets. This guidance is effective for financial statements issued for fiscal years beginning after November 15, 2009. The adoption of this guidance did not materially impact the Company’s consolidated financial condition or results of operations.

In June 2009, the FASB issued guidance which (1) replaces the quantitative-based risks and rewards calculation for determining whether an enterprise is the primary beneficiary in a variable interest entity with an approach that is primarily qualitative, (2) requires ongoing assessments of whether an enterprise is the primary beneficiary of a variable interest entity, and (3) requires additional disclosures about an enterprise’s involvement in variable interest entities. This guidance is effective for financial statements issued for fiscal years beginning after November 15, 2009. The adoption of this guidance did not materially impact the Company’s consolidated financial condition or results of operations.

There have been no other accounting standards issued during 2009 that are expected to have a material impact on the Company’s consolidated financial statements.

NOTE 2 – ADVANCE PREMIUM AND PREMIUM DEPOSITS

The insurance company operation records a liability for advance premium that represents the written premium on policies that have been submitted to the Company and are bound, billed, and recorded prior to their effective date of coverage. These advance premiums are not included in written premium or in the liability for unearned premium.

Some of the Company’s health and life programs require payments of premium prior to the effective date of coverage; and, accordingly, invoices are sent out as early as two months prior to the coverage effective date. Insurance premiums received for coverage months effective after the balance sheet date are recorded as advance premiums. The Company received deposits to guarantee the payment of premiums for past coverage months on its daily automobile rental program. These deposits are required when information such as gross receipts or number of rental cars is required to compute the actual premium due but is not available until after the coverage month.

NOTE 3 - INVESTMENTS

The amortized cost and estimated fair values of investments in fixed maturities by categories are as follows:

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Estimated Fair Value
December 31, 2009				
Available for sale:				
Fixed maturities				
Certificates of deposit	\$21,034,997	-	-	\$21,034,997
U.S. treasury securities	103,361,652	\$4,057,614	-	107,419,266
Industrial and miscellaneous taxable bonds	4,044,046	97,174	-	4,141,220
Total fixed maturities	\$128,440,695	\$4,154,788	-	\$132,595,483
December 31, 2008				
Available for sale:				
Fixed maturities				
Certificates of deposit	\$400,000	-	-	\$400,000
U.S. treasury securities	124,526,227	\$7,412,273	-	131,938,500
Industrial and miscellaneous taxable bonds	10,614,127	85,078	\$65,725	10,633,480

Total fixed maturities	\$ 135,540,354	\$ 7,497,351	\$ 65,725	\$ 142,971,980
------------------------	----------------	--------------	-----------	----------------

A summary of the unrealized appreciation (depreciation) on investments carried at fair value and the applicable deferred federal income taxes are shown below:

	Year ended December 31	
	2009	2008
Gross unrealized appreciation of fixed maturities	\$4,154,788	\$7,497,351
Gross unrealized (depreciation) of fixed maturities	-	(65,725)
Net unrealized appreciation (depreciation) on investments	4,154,788	7,431,626
Deferred federal tax (expense)	(1,412,628)	(2,526,753)
Net unrealized appreciation, net of deferred income taxes	\$2,742,160	\$4,904,873

The amortized cost and estimated fair value of fixed maturity investments at December 31, 2009, by contractual maturity are as follows. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without penalties.

	Amortized Cost	Estimated Fair Value
Due in one year or less	\$37,586,646	\$37,991,469
Due after one year through five years	90,854,049	94,604,014
Due after five years through ten years	-	-
Total fixed maturities	\$128,440,695	\$132,595,483

At December 31, 2009, the Company had no fixed maturity investments with a gross unrealized loss. The following table summarizes for all fixed maturities in an unrealized loss position at December 31, 2008 the aggregate fair value and gross unrealized loss by length of time those fixed maturities have been continuously in an unrealized loss.

Year Ended	Amortized		Gross
	Cost	Fair Value	Unrealized Loss
December 31 2008			
0-6 months	\$5,590,110	\$5,524,385	\$65,725
7-12 months	-	-	-
Over 12 months	-	-	-
Total	\$5,590,110	\$5,524,385	\$65,725

No securities were sold at a loss during 2009 or 2008.

At December 31, 2008, the fixed maturity investments with a gross unrealized loss for continuous periods of 0 to 6 months consisted of three investment grade industrial securities.

The Company monitors its investments closely. If an unrealized loss is determined to be other-than-temporary, it is written off as a realized loss through the Consolidated Statements of Operations. The Company's methodology of assessing other-than-temporary impairments is based on security-specific analysis as of the balance sheet date and considers various factors including the length of time to maturity and the extent to which the fair value has been less than the cost, the financial condition and the near-term prospects of the issuer, and whether the debtor is current on its contractually obligated interest and principal payments. The Company does not have the intent to sell its fixed maturity investments and is not likely that the Company would be required to sell any of its fixed maturity investments prior to recovery of its amortized costs. The Company did not sell any fixed maturity investments in the

year ended December 31, 2009. The Company sold one fixed maturity investment in the year ended December 31, 2008, with net realized gain in the amount of \$6,306.

Short-term investments have an initial maturity of one year or less and consist of the following:

	Year ended December 31	
	2009	2008
U.S. government money market fund	\$2,562,100	\$5,585,395
Short-term U.S. treasury bills	-	399,953
Bank money market accounts	3,348,973	3,312,140
Certificates of deposit	3,245,000	200,000
Bank savings accounts	1,759	4,545
Total short-term investments	\$9,157,832	\$9,502,033

The Company manages its own investment portfolio. A summary of net investment and related income is as follows:

	Year ended December 31		
	2009	2008	2007
Fixed maturities	\$4,264,304	\$5,730,182	\$6,448,349
Realized gains on fixed maturities	-	6,306	-
Short-term investments	62,169	160,556	398,774
Total investment income	\$4,326,473	\$5,897,044	\$6,847,123

NOTE 4 - PROPERTY AND EQUIPMENT (NET OF ACCUMULATED DEPRECIATION)

Property and equipment consist of the following:

	Year ended December 31	
	2009	2008
Furniture, fixtures, computer, and office equipment	\$2,178,578	\$2,142,902
Accumulated depreciation	1,957,323	1,783,349
Net property and equipment	\$221,255	\$359,553

Depreciation is computed using straight line methods over three to seven years.

NOTE 5 - PREMIUMS, COMMISSIONS AND NOTES RECEIVABLE, NET

Premiums, commissions and notes receivable, net, are as follows:

	Year ended December 31	
	2009	2008
Premiums and commission receivable	\$3,105,579	\$2,278,608
Premium finance notes receivable	1,916,496	2,407,568
Total premiums and notes receivable	5,022,075	4,686,176
Less allowance for doubtful accounts	(657,328)	5,397
Net premiums and notes receivable	\$4,364,747	\$4,680,779

Premiums and notes receivable are substantially secured by unearned premiums and funds held as security for performance.

One of the Company's agents that was recently appointed to help the Company get its Trucking Program started failed to pay the net premium and policy fees due Unifax, the exclusive general agent for Crusader. The agent was initially late in paying its February 2009 production that was due to Unifax on April 15, 2009. In May 2009, as a result of the agent's failure to timely pay its balance due to Unifax, the Company terminated its agency agreement and assumed ownership and control of that agent's policy expirations written with the Company. The agent has not paid any subsequent premium to Unifax. The Company subsequently commenced legal proceedings against the agent and the agent's guarantors for recovery of the balance due and any related recovery costs incurred. All related recovery costs have been expensed as incurred. As of December 31, 2009, the agent's balance due to Unifax was \$1,484,039. Based on the limited information presently available, the Company increased the bad debt reserve established by approximately \$150,000 in the fourth quarter of 2009. Thus, the bad debt reserve for this agent as of December 31, 2009, is \$654,885, which represents approximately 44% of the current balance due to Unifax. The Company's bad debt reserve is subject to change as more information becomes available.

Bad debt expense for the year ended December 31, 2009, 2008 and 2007, was \$655,797, \$6,439 and \$15,253, respectively. Premium finance notes receivable represent the balance due to the Company's premium finance subsidiary from policyholders who elected to finance their premiums over the policy term. These notes are net of unearned finance charges.

NOTE 6 - UNPAID LOSSES AND LOSS ADJUSTMENT EXPENSES

The Company's loss and loss adjustment expense reserves are as follows:

	Year ended December 31	
	2009	2008
Direct reserves		
Case reserves	\$18,072,709	\$18,720,695
IBNR reserves	53,512,699	59,933,895
Total direct reserves	\$71,585,408	\$78,654,590
Reserves net of reinsurance		
Case reserves	\$16,231,563	\$17,365,877
IBNR reserves	39,177,982	41,473,140
Total net reserves	\$55,409,545	\$58,839,017

Reserves for losses and loss adjustment expenses before reinsurance for each of Crusader's lines of business were as follows:

Line of Business	Year ended December 31					
	2009			2008		
CMP	\$67,584,155	94.4	%	\$73,339,513	93.2	%
Other Liability	3,929,320	5.5	%	5,271,612	6.7	%
Other	71,933	0.1	%	43,465	0.1	%
Total	\$71,585,408	100.0	%	\$78,654,590	100.0	%

The Company's consolidated financial statements include estimated reserves for unpaid losses and related loss adjustment expenses of the insurance company operation. The Company sets loss and loss adjustment expense reserves at each balance sheet date based upon management's best estimate of the ultimate payments that it anticipates will be made to settle all losses incurred and all related loss adjustment expenses incurred as of that date for both

reported and unreported claims.

The following table provides an analysis of the roll forward of Crusader's losses and loss adjustment expenses, including a reconciliation of the ending balance sheet liability for the periods indicated:

	Year ended December 31		
	2009	2008	2007
Reserve for unpaid losses and loss adjustment expenses			
At beginning of year – net of reinsurance	\$58,839,017	\$66,305,287	\$70,076,430
Incurred losses and loss adjustment expenses			
Provision for insured events of current year	23,501,314	24,149,531	26,300,338
Decrease in provision for events of prior years	(3,955,553)	(3,556,801)	(4,118,101)
Total losses and loss adjustment expenses	19,545,761	20,592,730	22,182,237
Payments			
Losses and loss adjustment expenses attributable to insured events of the current year	5,852,107	7,803,644	7,816,422
Losses and loss adjustment expenses attributable to insured events of prior years	17,123,126	20,255,356	18,136,958
Total payments	22,975,233	28,059,000	25,953,380
Reserve for unpaid losses and loss adjustment expenses at end of year – net of reinsurance	55,409,545	58,839,017	66,305,287
Reinsurance recoverable on unpaid losses and loss adjustment expenses at end of year	16,175,863	19,815,573	28,425,424
Reserve for unpaid losses and loss adjustment expenses at end of year per balance sheet, gross of reinsurance *	\$71,585,408	\$78,654,590	\$94,730,711

* In accordance with ASC 944, reinsurance recoverable on unpaid losses and loss adjustment expenses are reported for GAAP as assets rather than netted against the corresponding liability for such items on the consolidated balance sheet.

The Company's net loss and loss adjustment expense reserve was \$55,409,545 as of December 31, 2009. Since underwriting profit is a significant part of income, a small percentage change in reserve estimates may result in a substantial effect on future reported earnings. Such changes might result from a variety of factors, including claims costs emerging in a different pattern than the average historical development patterns. Considering the continuum of possible development patterns, none of which is necessarily more or less likely than the next, one must consider the varying probabilities that the development pattern is off in varying degrees. If future development ultimately ends up being five percent different than the Company's 2009 net reserve, approximately \$2.8 million would be reflected in future periods as an increase or decrease in the provision for events of prior years and would be recognized in the Company's consolidated statement of operations in future periods. A variance of five percent of net loss and loss adjustment expense reserve is not an unlikely scenario. If future development ultimately ends up being ten percent different than the Company's 2009 net reserve, approximately \$5.5 million would be reflected in future periods as an increase or decrease in the provision for events of prior years and would be recognized in the Company's consolidated statement of operations in future periods. A variance of ten percent of net loss and loss adjustment expense reserve is not an unlikely scenario. Differences of more than ten percent are also possible, though not quite as likely as differences of ten percent or less.

NOTE 7 - DEFERRED POLICY ACQUISITION COSTS

The following table provides an analysis of the roll forward of Crusader's deferred policy acquisition costs:

	Year ended December 31		
	2009	2008	2007
Deferred policy acquisition costs at beginning of year	\$5,219,892	\$5,722,847	\$6,430,265
Policy acquisition costs incurred during year	7,348,460	7,758,369	7,757,629
Policy acquisition costs amortized during year	(7,612,716)	(8,261,324)	(8,465,047)
Deferred policy acquisition costs at end of year	\$4,955,636	\$5,219,892	\$5,722,847

Deferred policy acquisition costs consist of commissions (net of ceding commission), premium taxes, inspection fees, and certain other underwriting costs, which are related to and vary with the production of Crusader policies. Policy acquisition costs are deferred and amortized as the related premiums are earned. Deferred acquisition costs are reviewed to determine if they are recoverable from future income, including investment income.

NOTE 8 - LEASE COMMITMENT TO RELATED PARTY

The lease commitment provides for the following minimum annual rental commitments:

Year ending	
December 31, 2010	\$1,066,990
December 31, 2011	1,066,990
December 31, 2012 (through March 31, 2012)	266,747
Total minimum payments	\$3,467,717

The Company presently occupies approximately 46,000 square feet of an office building located at 23251 Mulholland Drive, Woodland Hills, California, under a master lease expiring March 31, 2012. Erwin Cheldin, the Company's former president and a current director and principal stockholder, is the owner of the building. The Company signed an extension to the lease with a 4% increase in rent effective April 1, 2007. The lease provides for an annual gross rent of \$1,066,990 from April 1, 2007, through March 31, 2012. In addition, the lease extension provides for two, five-year options with a rent increase of 5% for each option period. The Company believes that at the inception of the lease agreement and at each subsequent extension, the terms of the lease were at least as favorable to the Company as could have been obtained from non-affiliated third parties. The Company utilizes for its own operations approximately 100% of the space it leases. The total rent expense under this lease agreement was \$1,066,990 for the years ended December 31, 2009 and 2008, and \$1,056,730 for the year ended December 31, 2007.

NOTE 9 - ACCRUED EXPENSES AND OTHER LIABILITIES

Accrued expenses and other liabilities consist of the following:

	Year ended December 31	
	2009	2008
Premium payable	\$1,534,219	\$1,547,471
Unearned contingent commission on reinsurance treaty	1,421,944	2,500,211
Unearned policy fee income	1,021,148	1,067,973
Profit sharing plan contributions	651,750	680,171
Accrued salaries	445,062	447,820
Commission payable	119,759	131,656
Other	168,555	106,466
Total accrued expenses and other liabilities	\$5,362,437	\$6,481,768

NOTE 10 - COMMITMENT AND CONTINGENCIES

The Company, by virtue of the nature of the business conducted by it, becomes involved in numerous legal proceedings as either plaintiff or defendant. The Company is also required to resort to legal proceedings from time to time in order to enforce collection of premiums, commissions, or fees for the services rendered to customers or to their agents. These routine items of litigation do not materially affect the Company and are handled on a routine basis by

the Company through its general counsel.

Likewise, the Company is sometimes named as a cross-defendant in litigation, which is principally directed against an insurer who was issued a policy of insurance directly or indirectly through the Company. Incidental actions are sometimes brought by customers or others, which relate to disputes concerning the issuance or non-issuance of individual policies. These items are also handled on a routine basis by the Company's general counsel, and they do not materially affect the operations of the Company. Management is confident that the ultimate outcome of pending litigation should not have an adverse effect on the Company's consolidated results of operations or financial position.

NOTE 11 - REINSURANCE

A reinsurance transaction occurs when an insurance company transfers (cedes) a portion of its exposure on policies written to a reinsurer that assumes that risk for a premium (ceded premium). Reinsurance does not legally discharge the Company from primary liability under its policies. If the reinsurer fails to meet its obligations, the Company must nonetheless pay its policy obligations.

Crusader's primary excess of loss reinsurance agreements since January 1, 1998, are as follows:

Loss Year(s)	Reinsurer(s)	A.M. Best Rating	Retention	Annual Aggregate Deductible
2005 – 2009	Platinum Underwriters Reinsurance, Inc. & Hannover Ruckversicherungs AG	A A	\$300,000	\$500,000
2004	Platinum Underwriters Reinsurance, Inc. & Hannover Ruckversicherungs AG	A A	\$250,000	\$500,000
2003	Platinum Underwriters Reinsurance, Inc. & Hannover Ruckversicherungs AG & QBE Reinsurance Corporation	A A A	\$250,000	\$500,000
2002	Partner Reinsurance Company of the U.S.	A+	\$250,000	\$675,000
2000 - 2001	Partner Reinsurance Company of the U.S.	A+	\$250,000	\$500,000
1998 - 1999	General Reinsurance Corporation	A++	\$250,000	\$750,000

Prior to January 1, 1998, National Reinsurance Corporation (acquired by General Reinsurance Corporation in 1996) charged a provisional rate on exposures up to \$500,000 that was subject to adjustment and was based on the amount of losses ceded, limited by a maximum percentage that could be charged. That provisionally rated treaty was cancelled on a runoff basis and replaced by a flat rated treaty on January 1, 1998.

In 2009 and 2008 Crusader retained a participation in its excess of loss reinsurance treaties of 20% in its 1st layer (\$700,000 in excess of \$300,000), 15% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 0% in its property and casualty clash treaty. In 2007 Crusader retained a participation in its excess of loss reinsurance treaties of 15% in its 1st layer (\$700,000 in excess of \$300,000), 15% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 15% in its property clash treaty. In 2006 and 2005 Crusader retained a participation in its excess of loss reinsurance treaties of 10% in its 1st layer (\$700,000 in excess of \$300,000), 10% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property and casualty clash treaties. In 2004 Crusader retained a participation in its excess of loss reinsurance treaties of 10% in its 1st layer (\$750,000 in excess of \$250,000), 10% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property and casualty clash treaties. In 2003 Crusader retained a participation in its excess of loss reinsurance treaties of 5% in its 1st layer (\$750,000 in excess of \$250,000), 10% in its 2nd layer (\$1,000,000 in excess of \$1,000,000), and 30% in its property and casualty clash treaties.

The 2007 through 2009 excess of loss treaties do not provide for a contingent commission. Crusader's 2006 1st layer primary excess of loss treaty provides for a contingent commission equal to 20% of the net profit, if any, accruing to the reinsurer. The first accounting period for the contingent commission covers the period from January 1, 2006,

through December 31, 2006. The 2005 excess of loss treaties do not provide for a contingent commission. Crusader's 2004 and 2003 1st layer primary excess of loss treaties provide for a contingent commission to the Company equal to 45% of the net profit, if any, accruing to the reinsurer. The first accounting period for the contingent commission covers the period from January 1, 2003, through December 31, 2004. For each accounting period as described above, the Company will calculate and report to the reinsurers its net profit (excluding incurred but not reported losses), if any, within 90 days after 36 months following the end of the first accounting period, and within 90 days after the end of each 12-month period thereafter until all losses subject to the agreement have been finally settled. Any contingent commission received is subject to return based on future development of ceded losses and loss adjustment expenses. As of December 31, 2009, the Company has received a total net contingent commission of \$3,108,324 for the years subject to contingent commission. Of this amount, the Company has recognized \$1,686,380 of contingent commission income, of which \$766,651 was recognized in the year ended December 31, 2009. The remaining balance of the net payments received of \$1,421,944 is currently unearned and included in "Accrued Expenses and Other Liabilities" in the consolidated balance sheets. The unearned contingent commission maybe subsequently earned or returned to the reinsurer depending on the future development of the ceded IBNR for the years subject to contingent commission.

Crusader also has catastrophe reinsurance from various highly rated California authorized and unauthorized reinsurance companies. These reinsurance agreements help protect Crusader against liabilities in excess of certain retentions, including major or catastrophic losses that may occur from any one or more of the property and/or casualty risks which Crusader insures. The Company has no reinsurance recoverable balances in dispute.

The Company evaluates each of its ceded reinsurance contracts at its inception to determine if there is a sufficient risk transfer to allow the contract to be accounted for as reinsurance under current accounting literature. As of December 31, 2009, all such ceded contracts are accounted for as risk transfer reinsurance.

On most of the premium that Crusader cedes to the reinsurer, the reinsurer pays a commission to Crusader that includes a reimbursement of the cost of acquiring the portion of the premium that is ceded. Crusader does not currently assume any reinsurance. The Company intends to continue obtaining reinsurance although the availability and cost may vary from time to time. The unpaid losses ceded to the reinsurer are recorded as an asset on the balance sheet.

The effect of reinsurance on premiums written, premiums earned, and incurred losses is as follows:

	Year ended December 31		
	2009	2008	2007
Premiums written:			
Direct business	\$38,900,176	\$39,940,270	\$44,970,399
Reinsurance assumed	-	-	-
Reinsurance ceded	(9,264,278)	(8,765,066)	(11,557,654)
Net premiums written	\$29,635,898	\$31,175,204	\$33,412,745
Premiums earned:			
Direct business	\$40,050,878	\$42,720,764	\$48,661,973
Reinsurance assumed	-	-	-
Reinsurance ceded	(9,276,407)	(8,771,069)	(11,532,308)
Net premiums earned	\$30,774,471	\$33,949,695	\$37,129,665
Incurred losses and loss adjustment expenses:			
Direct	\$19,221,640	\$19,251,266	\$30,375,724
Assumed	-	-	-
Ceded	324,121	1,341,464	(8,193,487)
Net incurred losses and loss adjustment expenses	\$19,545,761	\$20,592,730	\$22,182,237

Earned reinsurance ceded premium as a percentage of direct earned premium was 23% in 2009, 21% in 2008 and 24% in 2007.

NOTE 12 - RETIREMENT PLANS

Profit Sharing Plan

During the fiscal year ended March 31, 1986, the Company adopted the Unico American Corporation Profit Sharing Plan. Company employees who are at least 21 years of age and have been employed by the Company for at least two years are participants in this plan. Pursuant to the terms of this plan, the Company annually contributes to the account of each participant an amount equal to a percentage of the participant's eligible compensation as determined by the

Board of Directors. Participants must be employed by the Company on the last day of the plan year to be eligible for contribution. Participants are entitled to receive distribution of benefits under this plan upon retirement, termination of employment, death, or disability.

Money Purchase Plan

During the year ended December 31, 1999, the Company adopted the Unico American Corporation Money Purchase Plan. This plan covers the present executive officers of the Company. Pursuant to the terms of this plan, the Company annually contributes to the account of each participant an amount equal to a percentage of the participant's eligible compensation as determined by the Board of Directors. However, amounts contributed to the Unico American Corporation Profit Sharing Plan will be considered first in determining the actual amount available under the Internal Revenue Service maximum contribution limits. Participants must be employed by the Company on the last day of the plan year to be eligible for contribution. Participants are entitled to receive distribution of benefits under this plan upon retirement, termination of employment, death, or disability.

Retirement plan expenses were as follows:

Year ended December 31, 2009	\$876,208
Year ended December 31, 2008	\$852,305
Year ended December 31, 2007	\$901,742

NOTE 13 - STATUTORY CAPITAL AND SURPLUS

Crusader is required to file an annual statement with insurance regulatory authorities prepared on an accounting basis prescribed or permitted by such authorities (statutory). Statutory accounting practices differ in certain respects from GAAP. The more significant of these differences for statutory accounting are (a) premium income is taken into earnings over the periods covered by the policies, whereas the related acquisition and commission costs are expensed when incurred; (b) fixed maturity securities are reported at amortized cost, or the lower of amortized cost or fair value, depending on the quality of the security as specified by the NAIC; c) non-admitted assets are charged directly against surplus; (d) loss reserves and unearned premium reserves are stated net of reinsurance; and (e) federal income taxes are recorded when payable and deferred taxes, subject to limitations, are recognized but only to the extent that they do not exceed a specified percentage of statutory surplus; changes in deferred taxes are recorded directly to surplus as regards policyholders. Additionally, the cash flow presentation is not consistent with U.S. generally accepted accounting principles and reconciliation from net income to cash provided by operations is not presented. Comprehensive income is not presented under statutory accounting.

Crusader Insurance Company statutory capital and surplus are as follows:

As of December 31, 2009	\$62,553,813
As of December 31, 2008	\$64,736,230

Crusader Insurance Company statutory net income is as follows:

Year ended December 31, 2009	\$4,942,935
Year ended December 31, 2008	\$7,067,715
Year ended December 31, 2007	\$8,194,562

The California Department of Insurance (the insurance department) conducts periodic financial examinations of Crusader. The Insurance Department has completed a financial examination of Crusader's December 31, 2008, statutory financial statements. A final report on the examination was issued by the Insurance Department on October 22, 2009. No significant issues were reported in the final report.

The Company believes that Crusader's statutory capital and surplus are sufficient to support the insurance premiums written based on guidelines established by the NAIC.

Crusader is restricted in the amount of dividends it may pay to its parent in any twelve month period without prior approval of the Insurance Department of Insurance. Presently, without prior approval, Crusader may pay a dividend in any twelve month period to its parent equal to the greater of (a) 10% of Crusader's statutory policyholders' surplus or (b) Crusader's statutory net income for the preceding calendar year. Based on Crusader's statutory net income for the year ended December 31, 2009, the maximum dividend that could be made by Crusader to Unico without prior regulatory approval in 2010 is \$6,255,381. In the year ended December 31, 2009, Crusader paid to Unico cash dividends in the amount of \$7,000,000. There were no dividends paid by Crusader to Unico in 2008 and 2007.

In December 1993, the National Association of Insurance Commissioners (NAIC) adopted a Risk-Based Capital (RBC) Model Law for property and casualty companies. The RBC Model Law is intended to provide standards for calculating a variable regulatory capital requirement related to a company's current operations and its risk exposures (asset risk, underwriting risk, credit risk, and off-balance sheet risk). These standards are intended to serve as a diagnostic solvency tool for regulators that establishes uniform capital levels and specific authority levels for regulatory intervention when an insurer falls below minimum capital levels. The RBC Model Law specifies four distinct action levels at which a regulator can intervene with increasing degrees of authority over a domestic insurer if its RBC is equal to or less than 200% of its computed authorized control level RBC. A company's RBC is required to be disclosed in its statutory annual statement. The RBC is not intended to be used as a rating or ranking tool nor is it to be used in premium rate making or approval. Crusader's adjusted capital at December 31, 2009, was 793% of authorized control level risk-based capital.

Insurance Regulatory Information System (IRIS) was developed by a committee of state insurance regulators primarily to assist state insurance departments in executing their statutory mandate to oversee the financial condition of insurance companies. IRIS helps those companies that merit highest priority in the allocation of the regulators' resources on the basis of 13 financial ratios that are calculated annually. The analytical phase is a review of annual statements and the financial ratios. The ratios and trends are valuable in pointing to companies likely to experience financial difficulties but are not themselves indicative of adverse financial condition. The ratio and benchmark comparisons are mechanically produced and are not intended to replace the state insurance department's own in-depth financial analysis or on-site examinations.

An unusual range of ratio results has been established from studies of the ratios of companies that have become insolvent or have experienced financial difficulties. In the analytical phase, companies that receive four or more financial ratio values outside the usual range are analyzed in order to identify those companies that appear to require immediate regulatory action. Subsequently, a more comprehensive review of the ratio results and the insurer's annual statement is performed to confirm that an insurer's situation calls for increased or close regulatory attention. In 2009, the Company was not outside the usual values on any of the thirteen IRIS ratio tests.

NOTE 14 - STOCK PLANS

On December 30, 2005, the Company accelerated the vesting of all of its outstanding stock-based compensation awards granted under the Company's 1999 Omnibus Stock Plan. All accelerated options were "in the money." The number of shares covered by the options accelerated totaled 67,500 of which 37,500 were originally scheduled to vest on January 1, 2006, and 30,000 were originally scheduled to vest on January 1, 2007. The Company accelerated vesting of the options in order to minimize the compensation costs associated with the adoption of ASC 718. All accelerated options were granted to long-term management employees who were not expected to leave the Company prior to the originally scheduled vesting date. The estimated compensation cost which would have been excluded from future periods as a result of the acceleration of the vesting of the options was approximately \$89,100. There were no options granted during 2009, 2008 and 2007 and there were no unvested options as of January 1, 2006. No compensation expenses were recorded for the years ended December 31, 2009, December 31, 2008 and December 31, 2007.

The Company's 1999 Omnibus Stock Plan that covered 500,000 shares of the Company's common stock (subject to adjustment in the case of stock splits, reverse stock splits, stock dividends, etc.) was approved by shareholders on June 4, 1999. This plan terminated in accordance with its terms in March 2009. All then outstanding options continued in full force in accordance with the agreements under which those options were issued. On August 26, 1999, the Company granted 135,000 incentive stock options, of which 30,000 options had been exercised, 45,000 had been terminated and the remaining 60,000 options expired on August 26, 2009.

On December 18, 2002, the Company granted 182,000 incentive stock options under the Company's 1999 Omnibus Stock Plan. As of December 31, 2009, there were 64,650 of those options outstanding and exercisable, 114,850 options had been exercised, and 2,500 options had been terminated. These options expire 10 years from the date of the grant.

The changes in the number of common shares under option are summarized as follows:

	Options	Weighted Average Exercise Price
Outstanding at December 31, 2006	172,250	\$6.407
Options granted	-	-
Options exercised	(42,600)	6.331
Options terminated	(5,000)	9.250
Outstanding at December 31, 2007	124,650	6.065
Options granted	-	-
Options exercised	-	-
Options terminated	-	-
Outstanding at December 31, 2008	124,650	6.065
Options granted	-	-
Options exercised	-	-
Options terminated	-	-
Options Expired	60,000	9.250
Outstanding at December 31, 2009	64,650	\$3.110

Aggregate intrinsic value of outstanding and currently exercisable options at December 31, 2009, was \$464,834.

The following table summarizes information regarding the stock options outstanding at December 31, 2009:

Exercise Price	Number of Options Outstanding	Weighted Average Contractual Life (Years)	Weighted Average Exercise Price of Outstanding Options	Number of Options Exercisable	Weighted Average Exercise Price of Exercisable Options
\$3.11	64,650	2.96	\$ 3.11	64,650	\$ 3.11

NOTE 15 - TAXES ON INCOME

The provision for taxes on income consists of the following:

	Year ended December 31		
	2009	2008	2007
Current provision:			
Federal	\$ 1,541,835	\$ 2,750,054	\$ 3,221,567
State	8,920	9,040	8,701
Total federal and state	1,550,755	2,759,094	3,230,268
Deferred	(314,152)	(57,644)	130,441
Provision for taxes	\$ 1,236,603	\$ 2,701,450	\$ 3,360,709

The income tax provision reflected in the consolidated statements of operations is different than the expected federal income tax on income as shown in the following table:

	Year ended December 31		
	2009	2008	2007
Computed income tax expense	\$ 1,415,753	\$ 2,714,718	\$ 3,424,872
Tax effect of:			
State tax, net of federal tax benefit	(297,887)	(40,524)	(40,339)
Tax exempt income	-	(132)	(265)
Other	118,737	27,388	(23,559)
Income tax per financial statements	\$ 1,236,603	\$ 2,701,450	\$ 3,360,709

In the quarter ended December 31, 2009, the Company recorded a tax adjustment to correct for an error that originated in a prior period. The cumulative effect of the adjustment as of December 31, 2009, was a reduction to income tax expense and an increase to 2009 net income of approximately \$97,000, and was the result of recognition of the tax effect of certain deferred items for state income tax purposes. Had this adjustment been made at the beginning of the earliest period presented in the accompanying consolidated financial statements, 2008 and 2007 income tax expense would have increased by approximately \$23,000 and \$36,000, respectively. The impacts on 2008 total stockholders' equity as of December 31, 2008, 2007 and 2006 would have been an increase of \$106,000, \$129,000 and \$165,000, respectively. The Company made an assessment of the materiality of this item on the Company's historical financial statements in accordance with SAB No. 99, "Materiality," and concluded that the error was immaterial to all periods.

The deferred tax income or expense related to the unrealized gains on securities classified as available-for-sale in the current period was \$1,114,125 deferred tax income for the year ended December 31, 2009, \$1,539,643 deferred tax expense for the year ended December 31, 2008 and \$1,098,422 deferred tax expense for the year ended December 31, 2007.

The components of the net federal income tax asset included in the financial statements as required by the assets and liability method are as follows:

	Year ended December 31	
	2009	2008
Deferred tax assets		
Discount on loss reserves	\$1,893,993	\$2,000,939
Unearned premiums	1,299,276	1,382,477
Unearned commission income	455,943	-
Unearned policy fee income	437,460	363,111
State income tax deductible in future periods	269,672	228,879
Bad debt reserve	281,599	2,312
Other	127,566	132,343
Total deferred tax assets	\$4,765,509	\$4,110,061
Deferred tax liabilities		
Deferred acquisition costs	\$2,083,915	\$1,774,763
Unrealized gain on investments	1,412,628	2,526,753
State tax on undistributed insurance company earnings	490,226	515,692
Tax depreciation in excess of book depreciation	71,751	86,592
Other	73,798	1,349
Total deferred tax liabilities	\$4,132,318	\$4,905,149
Net deferred tax assets (liabilities)	\$633,191	\$(795,088)

Although realization is not assured, management believes it is more likely than not that all of the deferred tax assets will be realized. The amount of the deferred tax assets considered realizable could be reduced in the near term if estimates of future taxable income during the carryforward period are reduced.

The Company and its wholly owned subsidiaries file consolidated federal and state income tax returns. Pursuant to the tax allocation agreement, Crusader Insurance Company and American Acceptance Corporation are allocated taxes or tax credits in the case of losses, at current corporate rates based on their own taxable income or loss. The Company files income tax returns under U.S. federal and various state jurisdictions. The Company is subject to examination by U.S. federal income tax authorities for years 2007 through 2009 and California state income tax authorities for years 2005 through 2009. There are no ongoing examinations of income tax returns by federal or state tax authorities.

As a California insurance company, Crusader is obligated to pay a premium tax on gross premiums written in all states that Crusader is admitted. Premium taxes are deferred and amortized as the related gross premiums are earned. The premium tax is in lieu of state franchise taxes and is not included in the provision for state taxes.

NOTE 16 – REPURCHASE OF COMMON STOCK - EFFECT ON STOCKHOLDERS' EQUITY

On December 19, 2008, the Board of Directors authorized a stock repurchase program to acquire from time to time up to an aggregate of 500,000 shares of the Company's common stock. This program has no expiration date and may be

terminated by the Board of Directors at any time. During the year ended December 31, 2009, the Company repurchased under this program and previously adopted programs an aggregate of 268,111 shares of the Company's common stock at a cost of \$2,447,948 of which \$131,756 was allocated to capital and \$2,316,192 was allocated to retained earnings. During the twelve months ended December 31, 2008, the Company repurchased under the previously adopted programs an aggregate of 51,092 shares of the Company's common stock at a cost of \$416,583 of which \$25,108 was allocated to capital and \$391,475 was allocated to retained earnings. As of December 31, 2009, the Company had remaining authority under the 2008 program to repurchase up to an aggregate of 247,356 shares of its common stock. The 2008 program is the only program under which there is remaining authority to repurchase shares of the Company's common stock. The Company has or will retire all stock repurchased.

NOTE 17 - EARNINGS PER SHARE

A reconciliation of the numerator and denominator used in the basic and diluted earnings per share calculation is presented below:

	Year ended December 31		
	2009	2008	2007
Basic Earnings Per Share			
Net income numerator	\$2,927,375	\$5,283,016	\$6,712,444
Weighted average shares outstanding denominator	5,507,371	5,614,730	5,614,025
Per share amount	\$0.53	\$0.94	\$1.20
Diluted Earnings Per Share			
Net income numerator	\$2,927,375	\$5,283,016	\$6,712,444
Weighted average shares outstanding	5,507,371	5,614,730	5,614,025
Effect of diluted securities	40,628	41,280	67,868
Diluted shares outstanding denominator	5,547,999	5,656,010	5,681,893
Per share amount	\$0.53	\$0.93	\$1.18

NOTE 18 - SELECTED QUARTERLY FINANCIAL DATA (UNAUDITED)

Summarized unaudited quarterly financial data for each of the calendar years 2009 and 2008 is as follows.

	Comparable Period by Quarter Ended			
	March 31	June 30	September 30	December 31
Calendar Year 2009				
Total revenues	\$10,588,427	\$10,653,244	\$10,304,412	\$10,071,023
Income before taxes	\$1,547,579	\$996,058	\$898,953	\$721,388
Net income (1)	\$1,029,244	\$684,066	\$617,680	\$596,385
Earnings per share: Basic	\$0.18	\$0.12	\$0.11	\$0.11
Diluted	\$0.18	\$0.12	\$0.11	\$0.11
Calendar Year 2008				
Total revenues	\$12,268,120	\$11,822,394	\$11,529,132	\$11,149,798
Income before taxes	\$1,446,301	\$1,166,186	\$2,192,290	\$3,179,689
Net income (1)	\$959,990	\$780,960	\$1,445,340	\$2,096,726
Earnings per share: Basic	\$0.17	\$0.14	\$0.26	\$0.38
Diluted	\$0.17	\$0.14	\$0.26	\$0.37

(1) As discussed in Note 15, in the quarter ended December 31, 2009, the Company recorded a tax adjustment to correct for an error that originated in a prior period. This tax adjustment increased fourth quarter 2009 net income by \$97,000 and basic and diluted earnings per share by \$.02. Had this adjustment been made at the beginning of the earliest period presented in the table above, the impact on net income and earnings per share for all periods other than fourth quarter 2009 would have been 1% or less and less than \$.01 per share. The Company made an assessment of the materiality of this item on the Company's historical financial statements in accordance with SAB No. 99, "Materiality," and APB No. 28, and concluded that the error was immaterial to all periods.

Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure.

None

67

Item 9A(T). Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

The Company maintains disclosure controls and procedures designed to ensure that information required to be disclosed in the Company's reports filed under the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission rules and forms, and that such information is accumulated and communicated to the Company's management, including its Chief Executive Officer and Chief Financial Officer, as appropriate, to allow for timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognizes that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives; and, therefore, management was required to apply its judgment in evaluating the cost benefit relationship of possible controls and procedures.

As required by Securities and Exchange Commission Rules, the Company carried out an evaluation, under the supervision and with the participation of the Company's management, including the Company's Chief Executive Officer and the Company's Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based on the foregoing, the Company's Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective at the reasonable assurance level.

Changes in Internal Control over Financial Reporting

There has been no change in the Company's internal control over financial reporting during the Company's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. The Company's process for evaluating controls and procedures is continuous and encompasses constant improvement of the design and effectiveness of established controls and procedures and the remediation of any deficiencies that may be identified during this process.

Management's Report on Internal Control over Financial Reporting

The management of the Company is responsible for establishing and maintaining adequate internal control over financial reporting. The Company's internal control system was designed to provide reasonable assurance to the Company's management and Board of Directors regarding the preparation and fair presentation of published financial statements.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective can provide only reasonable assurance with respect to financial statement preparation and presentation.

The Company's management assessed the effectiveness of the Company's internal control over financial reporting as of December 31, 2009. In making this assessment, it used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in "Internal Control - Integrated Framework." Based upon its assessment, the Company's management believes that as of December 31, 2009, the Company's internal control over financial reporting is effective based on these criteria. This annual report does not include an attestation report of the Company's registered public accounting firm regarding internal control over financial reporting. Management's report was not subject to attestation by the Company's registered public accounting firm pursuant to temporary rules of the Securities and Exchange Commission that permit the Company to provide only management's report in this annual

report.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Board of Directors and Stockholders
Unico American Corporation:

Under date of March 30, 2010, we reported on the consolidated balance sheets of Unico American Corporation and subsidiaries as of December 31, 2009 and 2008, and the related consolidated statements of operations, comprehensive income, changes in stockholders' equity, and cash flows for each of the years in the three-year period ended December 31, 2009, as contained in the annual report on Form 10K for the year 2009. In connection with our audits of the aforementioned consolidated financial statements, we also audited the related financial statement schedules as listed under Item 15(a)2. These financial statement schedules are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statement schedules based on our audits.

In our opinion, such financial statement schedules, when considered in relation to the basic consolidated financial statements taken as a whole, present fairly, in all material respects, the information set forth therein.
