**Remarks:**

A limited partnership holding 500,000 shares of the issuer has pledged such shares in connection with the aggregate amount of \$289,000. The loan was funded in three separate advances at 85% of the date of the respective advance. The respective per-share loan amounts were \$0.6214 (with respect to the advance made on 11/10/2004), \$0.5695 (with respect to the advance made on 11/17/2004), and \$0.5588 (with respect to the advance made on 11/27/2004). The non-recourse loan includes a "cap" feature pursuant to which the limited partner will pay the market value of the pledged shares at maturity of the loan if the market value exceeds the applicable per-share amount set forth in Column 2 above, in each case multiplied by the respective number of shares pledged with respect to the advance. If the market value of the pledged shares at maturity of the loan exceeds the applicable per-share amount, then the limited partnership will either (i) pay to the lender the difference (the "Cap Amount") between the market value of all such shares at maturity and the Capped Portfolio Price, or (ii) purchase such shares at the Capped Portfolio Price and have no further obligation. Upon maturity of the loan, the partnership may exercise any of the following options: (i) pay off the loan balance, any Cap Amount, and receive back the pledged shares, (ii) sell the pledged shares to the lender at the Capped Portfolio Price at the lender's discretion, and receive cash proceeds net of principal and accrued interest, (iii) not renew the loan and forfeit pledged shares to the lender with no further liability, or (iv) renew the loan.
