Item 2.01. Completion of Acquisition or Disposition of Assets.

On July 10, 2007, the registrant completed the acquisition of all of the assets of Augusta Auto Auction, Inc. which conducted its business under the name Augusta Auto Auction and previously Hilltop Auto Auction. The registrant issued 500,000 shares of its Common Stock and a warrant to purchase 50,000 shares of Common Stock for the assets. The warrant has a term of five years and an exercise price of \$1.00. In addition, the registrant issued to two individuals a warrant to purchase 75,000 shares of Common Stock upon the same terms in consideration of entering into a non-compete agreement.

The registrant's business is set forth in Item 1. Business. of the registrant's annual report on Form 10-KSB for the year ended December 31, 2006.

History of Augusta Auto Auction

Augusta Auto Auction, Inc. (the "Auction") is an automotive auction located in North Augusta, South Carolina, part of the Augusta, Georgia, metropolitan area, and is located three miles from the center of that city. The auction was originally formed and operated for many years in its present location as Hilltop Auto Auction. In 2002 the group from which the registrant purchased the auction formed Augusta Auto Auction, Inc. after acquiring it from the owners of Hilltop Auto Auction.

Acacia Automotive formed a new South Carolina corporate subsidiary in July of 2007 which acquired the assets of Augusta Auto Auction. The new corporation is named Acacia Augusta Vehicle Auction, Inc. d/b/a Augusta Auto Auction, Inc.

Business of the Auction

The Auction sells whole car and salvage vehicles for automotive dealers and commercial concerns. It also has the contract to sell vehicles and equipment for the U.S. Marshals Service in the South Carolina area, primarily offering confiscated vehicles and other units for them. Dealers and other qualified buyers attend the weekly auctions and bid on offered units. The highest bidder owns the vehicle, subject to any limiting reserve prices established by the owner/seller of the unit(s). In most cases, the buyers and sellers of the units pick up and deliver them to the Auction property, but the Auction does provide some transport services, generally for a fee.

The Auction generates revenues from fees for its services, including buyer fees, seller fees, transportation fees, title fees, draft and floor plan fees, reconditioning fees, and more. Augusta Auto Auction relies upon the efforts of its management for sales and marketing, but anticipates adding additional personnel in the future to increase the scope of those operations.

The Auction markets its activities through its employees.

Competition

There are at least eleven auto auctions in operation in Georgia, and there are another six or more in South Carolina. Comparatively Florida has at least 26 automotive auctions.

The two largest whole-car national automobile auction companies, Mannheim Auto Auctions and ADESA, have a total of three auctions in Georgia, all near Atlanta, Georgia. While ADESA does not have an auction in South Carolina, Mannheim has one auction in Darlington, South Carolina. A smaller auction company, Auction Broadcasting Corporation, also has an auction near Atlanta, Georgia but none in South Carolina.

In addition to those auction companies' operations, there are several other

Edgar Filing: ACACIA AUTOMOTIVE INC - Form 8-K

independent auto auctions, some specializing in sales of damaged or "salvage" units and perhaps one or more mobile auctions that will host on-site auctions at dealerships.

1

Employees

The Auction employs eight full time and 17 part time people. The registrant plan to increase the number of employees, both part time and full time, as it expands its operations.

Governmental Regulation

The Company, as with most companies operating vehicle auctions, is subject to various permits and licenses. These include vehicle dealer licenses, auctioneer licenses, business permits and licenses, sales tax permits, and others. The registrant has obtained all permits necessary to function under the current South Carolina regulations.

Management's Discussion and Analysis or Plan of Operation.

Information regarding registrant's Discussion and Analysis or Plan of Operation is set forth in Item 6. Discussion and Analysis or Plan of Operation. of the registrant's Annual Report on Form 10-KSB for the year ended December 31, 2006.

The acquisition of Augusta Auto Auction, Inc. is the first acquisition by the registrant in its plan to acquire several automobile auctions. The registrant closed a private placement of securities on June 25, 2007 in which the registrant raised \$1,025,000 cash. The registrant does not believe that this amount is sufficient for its operations and additional acquisitions for the next twelve months and plans to raise additional capital over that period.

Augusta Auto Auction.

Net loss of the Augusta auction decreased to approximately \$14,000 in calendar year 2006 compared to a net loss of approximately \$130,151 in the prior year. With operating expenses being essentially unchanged between the two years (\$691,985 in 2006 compared to \$696,366 in 2005) the decrease in the loss is attributable to increased net fees earned. Net fees earned increased approximately \$110,000 or 20% from 2005 to 2006, the increase coming from larger volume of sales through the auction and resultant buy/sell fees attached thereto.

The Auction's net income increased almost \$50,000 in the six month period ended June 30, 2007 to \$61,513 from \$12,465 in the same period in 2006. Revenues in the 2007 period were up approximately 20% to \$454,385 compared to \$377,508 in the earlier period with most of the 2007 revenue growth coming in the first quarter of this year, being \$236,375 compared to \$180,366 in the first quarter of 2006. While cost of fees earned increased to \$56,022 in the 2007 six month period from \$32,384 in the same period of 2006, an increase of approximately 73%, other operating expenses were, nonetheless, flat.

Description of Property

The registrant has entered into a twelve month lease on the location where the Augusta Auto Auction has operated for several years. The lease term can be extended and currently has a monthly lease rate of \$2,700. The facility consists of approximately five acres and houses two administrative buildings and a two-lane auction arena. The compound is fenced, and the registrant has recently

Edgar Filing: ACACIA AUTOMOTIVE INC - Form 8-K

installed an electrified security fence system as well as security systems in its building and arena. In addition to the main auction facility, the registrant also leases property which is used for additional customer parking and allows for parking of approximately 200 customer vehicles on sale days. This property is located directly across the street from the main facility and is leased on a month-to-month basis for \$100 per week.

Information regarding registrant's other property is set forth in Item 2. Description of Property on Form 10-KSB for the year ended December 31, 2006.

AUGUSTA AUTO AUCTION, INC. NOTES TO FINANCIAL STATEMENTS

NOTE 1 - NATURE OF BUSINESS AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

NATURE OF BUSINESS - The Company operates an auto auction in the Augusta, Georgia area from a leased facility located in North Augusta, South Carolina.

CASH AND CASH EQUIVALENTS - For the purpose of the statement of cash flows, the Company considers all short-term investment instruments purchased with a maturity of three months or less to be cash equivalents.

DEPRECIATION - Depreciation of property and equipment is based upon the estimated useful lives of the assets and is computed principally by the double declining method. Estimated useful lives are 15 years for leasehold improvements, 5-7 years for office equipment, 7-15 years for shop equipment, and 5-10 years for company vehicles.

Maintenance and repairs of property and equipment are charged to operations and major improvements are capitalized. It is the Company's policy to capitalize all items with an estimated useful life extending beyond one year.

INCOME TAXES - The Company has elected to be taxed under the provisions of Subchapter S of the Internal Revenue Code. Under those provisions the stockholder is liable for individual federal and state income taxes on the Company's taxable income. Therefore no provision or liability for federal income taxes has been included in the financial statements.

ACCOUNTS RECEIVABLE - Accounts receivable are reported at the amount management expects to collect from outstanding balances. Differences between the amount due and the amount management expects to collect are reported in the results of operations of the year in which those differences are determined, with an offsetting entry to a valuation allowance for trade accounts receivable. Balances that are still outstanding after management has used reasonable collection efforts are written off through a charge to the valuation allowance and a credit to trade accounts receivable.

USE OF ESTIMATES - Management uses estimates and assumptions in preparing financial statements. These estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses.

REVENUE RECOGNITION - Revenues are derived from collection of fees for a variety of services provided to customers including buyer fees, seller fees, storage fees, transport fees and others. The Company does not inventory or hold title to the vehicles that are bought or sold through the auction process.

ADVERTISING - The Company expenses advertising costs as they are incurred. Advertising expense was \$16,075 and \$12,847 for the periods ending December 31, 2006 and 2005, respectively.

NOTE 2 - SIGNIFICANT ASSUMPTIONS

VALUATION OF ASSETS AND LIABILITIES ASSUMED - The values of assets and liabilities assumed as part of the above purchase were valued at estimated fair market value on the date of acquisition, July 10, 2007. These values were provided by management based on their experience and knowledge of the automotive industry.

VALUATION OF STOCK - As part of the above business combination, the Seller received shares of the Buyer's common stock. The value of the Buyer's common stock was calculated using an average stock price based on the stock price ten days of volume before, and nine days of volume after the actual date of purchase, July 10, 2007.

VALUATION OF STOCK WARRANTS - As part of the above business combination, stock warrants of the Buyer were issued to the Seller. The value of these warrants was calculated using the modified Black-Scholes-Merton model. The volatility used in this calculation was based on an average volatility of the Buyer's common stock price and that of several competitors. Assumptions used in the calculation included the following:

Estimated volatility		46.59%
Expected life (years)		2.5
Expected dividend yield		0.00%
Risk-free rate of return		5.00%
