CARVER BANCORP, INC. AND SUBSIDIARIES Notes to Consolidated Financial Statements (Unaudited) NOTE 1. ORGANIZATION

#### Nature of operations

Carver Bancorp, Inc. (on a stand-alone basis, the "Company" or "Registrant"), was incorporated in May 1996 and its principal wholly owned subsidiary is Carver Federal Savings Bank (the "Bank" or "Carver Federal"). Carver Federal's wholly owned subsidiaries are CFSB Realty Corp., Carver Community Development Corporation ("CCDC") and CFSB Credit Corp., which is currently inactive. The Bank has a majority-owned interest in Carver Asset Corporation, a real estate investment trust formed in February 2004.

"Carver," the "Company," "we," "us" or "our" refers to the Company along with its consolidated subsidiaries. The Bank was chartered in 1948 and began operations in 1949 as Carver Federal Savings and Loan Association, a federally-chartered mutual savings and loan association. The Bank converted to a federal savings bank in 1986. On October 24, 1994, the Bank converted from a mutual holding company structure to stock form and issued 2,314,375 shares of its common stock, par value 0.01 per share. On October 17, 1996, the Bank completed its reorganization into a holding company structure (the "Reorganization") and became a wholly owned subsidiary of the Company.

In September 2003, the Company formed Carver Statutory Trust I (the "Trust") for the sole purpose of issuing trust preferred securities and investing the proceeds in an equivalent amount of floating rate junior subordinated debentures of the Company. In accordance with Accounting Standards Codification ("ASC") 810, "Consolidations," Carver Statutory Trust I is unconsolidated for financial reporting purposes.

Carver Federal's principal business consists of attracting deposit accounts through its branches and investing those funds in mortgage loans and other investments permitted by federal savings banks. The Bank has ten branches located throughout the City of New York that primarily serve the communities in which they operate.

On February 7, 2011, Carver Federal Savings Bank and Carver Bancorp, Inc. consented to enter into Cease and Desist Orders (the "Bank Order" and the "Company Order," respectively, and together the "Orders") with the Office of Thrift Supervision ("OTS"). The OTS issued these Orders based upon its findings that the Company was operating with an inadequate level of capital for the volume, type and quality of assets held by the Company, that it was operating with an excessive level of adversely classified assets, and earnings inadequate to augment its capital. Effective July 21, 2011, supervisory authority for the Company Order passed to the Board of Governors of the Federal Reserve System and supervisory authority for the Bank Order passed to the Office of the Comptroller of the Currency ("OCC"). No assurances can be given that the Bank and the Company will continue to comply with all provisions of the Orders. Failure to comply with these provisions could result in further regulatory actions to be taken by the regulators.

On June 29, 2011, the Company raised \$55 million of capital by issuing 55,000 shares of mandatorily convertible non-voting participating preferred stock, Series C (the "Series C preferred stock"). The issuance resulted in a \$51.4 million increase in equity after considering the effect of various expenses associated with the capital raise. The capital raise enabled the Company to make a capital injection of \$37 million in the Bank on June 30, 2011. In December 2011, another \$7 million capital injection was made in the Bank. The remainder of the net capital raised is retained by the Company for future strategic purposes or to downstream into the Bank, if necessary. No assurances can be given that the amount of capital raised is sufficient to absorb the expected losses in the Bank's loan portfolio. Should the losses be greater than expected, additional capital may be necessary in the future.

On October 25, 2011, Carver's stockholders voted to approve a 1-for-15 reverse stock split. A separate vote of approval was given to convert the Series C preferred stock to non-cumulative non-voting participating preferred stock, Series D ("the Series D preferred stock") and to common stock and to exchange the U.S. Treasury's ("Treasury")

Community Development Capital Initiative ("CDCI") Series B preferred stock for common stock.

On October 27, 2011, the 1-for-15 reverse stock split was effected, which reduced the number of outstanding shares of common stock from 2,492,415 to 166,161.

On October 28, 2011, the Treasury exchanged the CDCI Series B preferred stock for 2,321,286 shares of Carver common stock and the Series C preferred stock converted into 1,208,039 shares of Carver common stock and 45,118 shares of Series D preferred stock.

6

On November 3, 2014, the OCC notified the Bank that the OCC had determined that the Bank had satisfied all of the requirements of the Bank Order and directed that the Bank Order be terminated. In addition, the OCC notified the Bank that the OCC had determined that the Bank was no longer in "troubled condition" and was relieved of all prior conditions imposed on the Bank by the OTS as a result of its troubled condition designation. The Company Order has not been terminated.

### Revisions

Carver Federal had a non-contributory defined benefit pension plan covering all who were participants prior to curtailment of the plan during the fiscal year ended March 31, 2001. The benefits were based on each employee's term of service through the date of curtailment. Carver Federal's policy was to fund the plan with contributions which equal the maximum amount deductible for federal income tax purposes. The plan was terminated in December 2013 and the Company initially recorded a pension cost of \$432 thousand in the third quarter of fiscal 2014. Subsequently, the Company determined that there was an error in the pension cost initially recorded. As a result, the Company recorded an additional charge of \$716 thousand and adjusted its third quarter results reported in the Form 10-K for the year ended March 31, 2014. The Company also reclassified \$716 thousand from accumulated deficit to accumulated other comprehensive loss in its fiscal year 2014 statement of changes in equity to correct the Company's accounting for benefit plans upon adoption and implementation of ASC 715-30 in the March 31, 2014 Form 10-K. Management determined that financial statements were not materially misstated as a result of these adjustments and, as such, concluded it was appropriate to adjust for these items in the March 31, 2014 Form 10-K rather than restating the December 31, 2013 Form 10-Q. These adjustments are reflected in the results disclosed in this Form 10-Q.

## NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of consolidated financial statement presentation

The consolidated financial statements include the accounts of the Company, the Bank and the Bank's wholly owned or majority-owned subsidiaries, Carver Asset Corporation, CFSB Realty Corp., CCDC, and CFSB Credit Corp. All significant intercompany accounts and transactions have been eliminated in consolidation.

The consolidated financial statements have been prepared in conformity with U.S. generally accepted accounting principles ("GAAP") for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine month periods ended December 31, 2014 are not necessarily indicative of the results that may be expected for the year ended March 31, 2015. The consolidated balance sheet at December 31, 2014 has been derived from the unaudited consolidated financial statements at that date but does not include all of the information and footnotes required by GAAP for complete financial statements. In preparing the consolidated financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the consolidated statement of financial condition and revenues and expenses for the period then ended. These unaudited consolidated financial statements should be read in conjunction with the Annual Report on Form 10-K for the year ended March 31, 2014. Amounts subject to significant estimates and assumptions are items such as the allowance for loan losses, valuation of real estate owned, realization of deferred tax assets, and the fair value of financial instruments. While management uses available information to recognize losses on loans, future additions to the allowance for loan losses or future writedowns of real estate owned may be necessary based on changes in economic conditions in the areas where Carver Federal has extended mortgages and other credit instruments. Actual results could differ significantly from those assumptions. Current market conditions increase the risk and complexity of the judgments in these estimates.

In addition, the OCC, Carver Federal's regulator, as an integral part of its examination process, periodically reviews Carver Federal's allowance for loan losses and, if applicable, real estate owned valuations. The OCC may require Carver Federal to recognize additions to the allowance for loan losses or additional writedowns of real estate owned based on their judgments about information available to them at the time of their examination.

In addition, no assurances can be given that the Company will continue to comply with all provisions of the Order. Failure to comply with these provisions could result in further regulatory actions to be taken by the regulators.

#### NOTE 3. EARNINGS PER COMMON SHARE

The following table reconciles the earnings available to common shareholders (numerator) and the weighted average common stock outstanding (denominator) for both basic and diluted earnings per share for the following periods:

|  | Three Mor<br>December | nths Ended 31, | Nine Mont<br>December |           |
|--|-----------------------|----------------|-----------------------|-----------|
| \$ in thousands except per share data                                      | 2014                  | 2013           | 2014                  | 2013      |
| Earnings per common share  |                       |                |                       |           |
| Net income (loss) available to common shareholders of Carver Bancorp, Inc. | \$111                 | \$(823)        | 491                   | (69)      |
| Weighted average common shares outstanding                                 | 3,696,420             | 3,696,225      | 3,696,338             | 3,696,123 |
| Basic earnings (loss) per common share                                     | \$0.03                | \$(0.22)       | \$0.13                | \$(0.02)  |
| Diluted earnings (loss) per common share                                   | 0.03                  | (0.22)         | 0.13                  | (0.02)    |

#### NOTE 4. COMMON STOCK DIVIDENDS

As previously disclosed in a Form 8-K filed with the SEC on October 29, 2010, the Company's Board of Directors announced that, based on highly uncertain economic conditions and the desire to preserve capital, Carver suspended payment of the quarterly cash dividend on its common stock. In accordance with the Order, the Company is also prohibited from paying any dividends without prior regulatory approval, and, as such, suspended the regularly quarterly cash dividend payments on the Company's CDCI Series B preferred stock to the Treasury. On October 18, 2011, Carver received approval from the Federal Reserve Bank to pay all outstanding dividend payments (which included \$192 thousand accrued during the six month period ended September 30, 2011) on the Company's Series B preferred stock issued under the TARP CPP. There are no assurances that the payments of dividends on the common stock will resume.

Debenture interest payments which had previously been deferred in March 2011 and June 2011 on the Carver Statutory Trust I trust preferred securities ("TruPS") were brought current in September 2011. The Company is prohibited from making future payments without prior approval. The expense continues to be accrued and the payments remain on deferral status.

On October 28, 2011, the Treasury exchanged the CDCI Series B preferred stock for 2,321,286 shares of Carver common stock and the Series C preferred stock converted into 1,208,039 shares of Carver common stock and 45,118 shares of Series D preferred stock. Series C stock was previously reported as mezzanine equity, and upon conversion to common and Series D preferred stock is now reported as equity attributable to Carver Bancorp, Inc. The holders of the Series D Preferred Stock are entitled to receive dividends, on an as-converted basis, simultaneously to the payment of any dividends on the common stock.

#### NOTE 5. OTHER COMPREHENSIVE INCOME (LOSS)

The following tables set forth changes in each component of accumulated other comprehensive loss, net of tax for the nine months ended December 31, 2014 and 2013:

|  |                |   | Other              |                   |

#### NOTE 6. INVESTMENT SECURITIES

The Bank utilizes mortgage-backed and other investment securities in its asset/liability management strategy. In making investment decisions, the Bank considers, among other things, its yield and interest rate objectives, its interest rate and credit risk position, and its liquidity and cash flow.

Generally, the investment policy of the Bank is to invest funds among categories of investments and maturities based upon the Bank's asset/liability management policies, investment quality, loan and deposit volume and collateral requirements, liquidity needs and performance objectives. ASC Subtopic 320-10-25 requires that securities be classified into three categories: trading, held-to-maturity, and available-for-sale. At December 31, 2014, \$100.4 million, or 89.1%, of the Bank's mortgage-backed and other investment securities were classified as available-for-sale, and the remaining \$12.3 million, or 10.9%, were classified as held-to-maturity. The Bank had no securities classified as trading at December 31, 2014 and March 31, 2014.

The following table sets forth the amortized cost and estimated fair value of securities available-for-sale and held-to-maturity at December 31, 2014:

|   | Amortized | Gross Unrea | lized    |             |
|---|-----------|-------------|----------|-------------|
| \$ in thousands                                   | Cost      | Gains       | Losses   | Fair-Value  |

The following table sets forth the unrealized losses and fair value of securities in an unrealized loss position at March 31, 2014 for less than 12 months and 12 months or longer:

A total of 31 securities had an unrealized loss at December 31, 2014 compared to 35 at March 31, 2014. The majority of the securities in an unrealized loss position were U.S. Government Agency securities and mortgage-backed securities, representing 68.9% and 31.1%, respectively, of total available-for-sale securities in an unrealized loss position at December 31, 2014. There were fifteen mortgage-backed securities and eight U.S. Government Agency securities in an unrealized loss position that had an unrealized loss for more than 12 months at December 31, 2014. Given the high credit quality of the securities which are backed by the U.S. government's guarantees, the risk of credit loss is minimal. Management believes that these unrealized losses are a direct result of the current rate environment and has the ability and intent to hold the securities until maturity or the valuation recovers.

The amount of an other-than-temporary impairment when there are credit and non-credit losses on a debt security which management does not intend to sell, and for which it is more likely than not that the Company will not be required to sell the security prior to the recovery of the non-credit impairment, the portion of the total impairment that is attributable to the credit loss would be recognized in earnings. The remaining difference between the debt security's amortized cost basis and its fair value would be included in other comprehensive income (loss). At December 31, 2014, the Bank does not have any securities that are classified as having other-than-temporary impairment in its investment portfolio.

The following is a summary of the carrying value (amortized cost) and fair value of securities at December 31, 2014, by remaining period to contractual maturity (ignoring earlier call dates, if any). Actual maturities may differ from contractual maturities because certain security issuers have the right to call or prepay their obligations. The table below does not consider the effects of possible prepayments or unscheduled repayments.

| Amortized Cost | Fair Value  | Weighted<br>Average Yield  |   |  |
|----------------|---|--|---|--|
|                |   |  |   |  |

#### NOTE 7. LOANS RECEIVABLE AND ALLOWANCE FOR LOAN AND LEASE LOSSES

The loans receivable portfolio is segmented into one-to-four family, multifamily mortgage, commercial real estate, construction, business (including Small Business Administration loans), and consumer loans.

11

The allowance for loan and lease loss ("ALLL") reflects management's judgment in the evaluation of probable loan losses inherent in the portfolio at the balance sheet date. Management uses a disciplined process and methodology to calculate the ALLL each quarter. To determine the total ALLL, management estimates the reserves needed for each segment of the loan portfolio, including loans analyzed individually and loans analyzed on a pooled basis.

From time to time, events or economic factors may affect the loan portfolio, causing management to provide additional amounts or release balances from the ALLL. The ALLL is sensitive to risk ratings assigned to individually evaluated loans and economic assumptions and delinquency trends. Individual loan risk ratings are evaluated based on the specific facts related to that loan. Additions to the ALLL are made by charges to the provision for loan losses. Credit exposures deemed to be uncollectible are charged against the ALLL, while recoveries of previously charged off amounts are credited to the ALLL.

The following is a summary of loans receivable, net of allowance for loan losses, and loans held-for-sale at December 31, 2014 and March 31, 2014:

|  | December 31, 2014 |         |   | March 31, 2014 |         |   |

Nine months ended December 31, 2013

The following is a summary of nonaccrual loans at December 31, 2014 and March 31, 2014. \$ in thousands December 31, 2014 March 31, 2014 Gross loans receivable: One-to-four family \$3,089 \$2,301 Multifamily 2,240 1.053 Commercial real estate 2,850 7.024 993 **Business** 1,550 Consumer 7 1 Total nonaccrual loans \$8,549 \$12,559

Nonaccrual loans decreased \$4.0 million, or 31.9%, to \$8.5 million at December 31, 2014 from \$12.6 million at March 31, 2014.

Non-performing loans at December 31, 2014, were comprised of \$4.8 million of loans 90 days or more past due and non-accruing, and included \$3.7 million of loans classified as a troubled debt restructuring which had either not consistently performed in accordance with their modified terms or were not performing in accordance with their modified terms for at least six months.

Non-performing loans at March 31, 2014, were comprised of \$9.0 million of loans 90 days or more past due and non-accruing, and included \$3.0 million of loans classified as a troubled debt restructuring which had either not consistently performed in accordance with their modified terms or were not performing in accordance with their modified terms for at least six months.

At December 31, 2014, other non-performing assets totaled \$6.5 million which consisted of other real estate owned and held-for-sale loans. At December 31, 2014, other real estate owned valued at \$3.9 million comprised of nine foreclosed properties, compared to \$1.4 million comprised of eight properties at March 31, 2014. At December 31, 2014, held-for-sale loans totaled \$2.6 million, compared to \$5.0 million at March 31, 2014.

The Bank utilizes an internal loan classification system as a means of reporting problem loans within its loan categories. Loans may be classified as "Pass," "Special Mention," "Substandard," "Doubtful," and "Loss." Loans rated Pass have demonstrated satisfactory asset quality, earning history, liquidity, and other adequate margins of creditor protection. They represent a moderate

credit risk and some degree of financial stability. Loans are considered collectible in full, but perhaps require greater than average amount of loan officer attention. Borrowers are capable of absorbing normal setbacks without failure. Loans rated Special Mention have potential weaknesses that deserve management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the asset or in the Bank's credit position at some future date. Loans rated Substandard are inadequately protected by the current sound worth and paying capacity of the obligor or of the collateral pledged, if any. Assets so classified must have a well-defined weaknesse, or weaknesses, that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the Bank will sustain some loss if the deficiencies are not corrected. Loans rated Doubtful have all the weaknesses inherent in those classified Substandard with the added characteristic that the weaknesses present make collection or liquidation in full, based on currently existing facts, conditions and values, highly questionable and improbable. Loans classified as Loss are those considered uncollectible with insignificant value and are charged off immediately to the allowance for loan losses.

One-to-four family residential loans and consumer and other loans are rated non-performing if they are delinquent in payments ninety or more days, a troubled debt restructuring with less than six months contractual performance or past maturity. All other one-to-four family residential loans and consumer and other loans are performing loans.

As of December 31, 2014, the risk category by class of loans is as follows:

| \$ in thousands  | Multifamily | Commercial<br>Real Estate | Construction          | Business    |
