About the Annual Meeting

Who is soliciting my vote?

The Board of Directors (the Board) of Ennis Business Forms, Inc. (the Company) is soliciting your vote at the 2004 Annual Meeting of the Company's shareholders.

What am I voting on?

You are voting on:

- .. The election of three directors (see page 6);
- .. The approval of our 2004 Long-Term Incentive Plan (see pages 22-30);
- .. The proposal to amend the Company's Articles of Incorporation to change the Company name to Ennis, Inc. (see page 30); and
- .. Any other business properly coming before the meeting.

How does the Board recommend that I vote my shares?

Unless you give other instructions on your proxy card, the persons named as proxy holders on the proxy card will vote in accordance with the recommendations of the Board. The Board's recommendation can be found with the description of each item in this proxy statement. In summary, the Board recommends a vote:

- .. FOR the Director's proposal to elect nominated Directors;
- .. FOR the Director's proposal to approve our 2004 Long-Term Incentive Plan; and
- .. FOR the Director's proposal to amend the Company's Articles of Incorporation to change the Company's name to Ennis, Inc.

Who is entitled to vote?

You may vote if you were the record owner of the Company's common stock as of the close of business on April 15, 2004. Each share of common stock is entitled to one vote. As of April 15, 2004, we had 16,393,157 shares of common stock outstanding and entitled to vote.

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

How many votes must be present to hold the meeting?

Your shares are counted as present at the Annual Meeting if you attend the meeting and vote in person or if you properly return a proxy by mail. In order for us to hold our meeting, holders of a majority of our outstanding shares of common stock as of April 15, 2004 must be present in person or by proxy at the meeting. This is referred to as a quorum. Abstentions and broker non-votes will be counted for purposes of establishing a quorum at the meeting.

What is a broker non-vote?

If a broker does not have discretion to vote shares held in street name on a particular proposal and does not receive instructions from the beneficial owner on how to vote those shares, the broker may return the proxy card without voting on that proposal. This is known as a broker non-vote. Broker non-votes will have no effect on the vote for the election of directors. With regard to the proposal to approve our 2004 Long-Term Incentive Plan and the amendment to the Articles of Incorporation to change of the name of the Company, broker non-votes will not be counted as votes for these matters.

2

How many votes are needed to approve each of the proposals?

The nominees for election as directors at the Annual Meeting who receive the highest number of "FOR" votes will be elected as directors, provided a quorum is present. This is called plurality voting. Unless you indicate otherwise on your proxy card, the persons named as your proxies will vote your shares FOR all the nominees for director named in this proxy statement.

With respect to the election of directors, shareholders have cumulative voting rights, which means that each shareholder entitled to vote (a) has the number of votes equal to the number of shares held by such shareholder multiplied by the number of directors to be elected and (b) may cast all such votes for one nominee or distribute such shareholder's votes among the nominees as the shareholder chooses. The right to cumulate votes may not be exercised until a shareholder has given written notice of the shareholder's intention to vote cumulatively to the corporate secretary on or before the day preceding the election. If any shareholder gives such written notice, then all shareholders entitled to vote may cumulate their votes. Upon such written notice, the persons named in the accompanying form of proxy may cumulate their votes if additional persons are nominated at the Annual Meeting for the election of directors. As a result, the Board also is soliciting discretionary authority to cumulate votes.

In addition, under the rules of the New York Stock Exchange, the holders of more than 50% of our outstanding common stock must vote on the approval of our 2004 Long-Term Incentive Plan in order for it to be approved. In addition, under Texas law, the holders of more than 66 2/3% of our outstanding common stock are required to vote to approve an amendment to the Articles of Incorporation to change the Company's name to Ennis, Inc.

How do I vote?

You can vote either in person at the meeting or by proxy without attending the meeting.

To vote by proxy, you must fill out the enclosed proxy card, date and sign it, and return it in the enclosed postage-paid envelope.

If you hold your Company stock in a brokerage account (that is, in "street

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

name"), your ability to vote by telephone or over the Internet depends on your broker's voting process. Please follow the directions on your proxy card or voter instruction form carefully.

Even if you plan to attend the meeting, we encourage you to vote your shares by proxy. If you plan to vote in person at the Annual Meeting, and you hold your Company stock in street name, you must obtain a proxy from your broker and bring that proxy to the meeting.

How do I vote if I hold my stock through Ennis' employee benefit plans?

If you hold your stock through the Company's employee benefit plans, you will receive a proxy card with instructions to vote which are the same as any other shareholder.

Can I change my vote?

Yes. You can change or revoke your vote at any time before the polls close at the Annual Meeting. You can do this by:

- .. Signing another proxy card with a later date and returning it to us prior to the meeting,
- .. Sending our Corporate Secretary a written document revoking your earlier proxy,
- .. Voting again at the meeting.

3

Who counts the votes?

We have hired Computershare Investor Services, our transfer agent, to count the votes represented by proxies cast by ballot. Employees of Computershare Investor Services and the Company will act as Inspectors of Election.

Will my shares be voted if I don't provide my proxy and don't attend the Annual Meeting?

If you do not provide a proxy or vote your shares held in your name, your shares will not be voted.

If you hold your shares in street name, your broker may be able to vote your shares for certain "routine" matters even if you do not provide the broker with voting instructions. The election of directors for 2004 is considered a routine matter. For matters not considered "routine," if you do not give your broker instructions on how to vote your shares, the broker may return the proxy card without voting on that proposal. This is a broker non-vote. The approval of our 2004 Long-Term Incentive Plan and our name change are not considered routine matters.

If you hold your shares through one of the Company's employee benefit plans and do not vote your shares, your shares (along with all other shares in the plan for which votes are not cast) will be voted pro rata by the trustee in accordance with the votes directed by other participants in the plan who elect to act as a fiduciary entitled to direct the trustee of the applicable plan on how to vote the shares.

How are votes counted?

In the election of directors, you may vote "FOR" all of the nominees or your

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

vote may be "WITHHELD" with respect to one or more of the nominees. Votes that are withheld will be counted for purposes of determining the presence or absence of a quorum but will have no other effect on the election of directors. For any other proposal, you may vote "FOR," "AGAINST," or "ABSTAIN." If you "ABSTAIN," it has the same effect as a vote "AGAINST."

What if I return my proxy but don't vote for some of the matters listed on my proxy card?

If you return a signed proxy card without indicating your vote, your shares will be voted FOR the nominee directors listed on the card, FOR the approval of the 2004 Long-Term Incentive Plan and FOR the proposed name change.

Could other matters be decided at the Annual Meeting?

We are not aware of any other matters that will be considered at the Annual Meeting. If any other matters arise at the Annual Meeting, the persons named in your proxies will vote in accordance with their best judgment.

Who can attend the meeting? The Annual Meeting is open to all holders of Company common stock. Each shareholder is permitted to bring one guest.

Do I need a ticket to attend the Annual Meeting?

No.

How can I access the Company's proxy materials and annual report electronically?

This proxy statement and the 2004 annual report are available on our website at www.Ennis.com.

Corporate Governance Matters and Communications with the Board

8

The Nominating and Corporate Governance Committee and our Board have undertaken a comprehensive review of the Company's governance structure in light of the Sarbanes-Oxley Act of 2002 and new rules adopted by the Securities and Exchange Commission ("SEC") and the New York Stock Exchange ("NYSE"). In January 2004, the Board approved Corporate Governance Guidelines for the Company, which document many pre-existing policies and practices of the Company and also address issues responsive to the Sarbanes-Oxley Act and the new SEC and NYSE rules. The Corporate Governance Guidelines, posted on the Company's website under the "Corporate Governance" caption, address the following matters, among others: director qualifications, director responsibilities, Board Committees, director access to officers, employees and independent advisors, director compensation, Board performance evaluations, director orientation and continuing education, CEO evaluation and succession planning. The Corporate Governance Guidelines also contain categorical standards, which are consistent with the standards set forth in the NYSE listing standards, to assist the Board in determining the independence of the Company's directors. The Board has determined that each non-employee director meets the standards regarding independence set forth in the Corporate Governance Guidelines of the NYSE and in compliance with NYSE rules and has no material relationship with the Company. A copy of our categorical standards is attached to this proxy statement as Appendix A.

Our Corporate Governance Guidelines provide that non-employee directors will meet in executive session at each meeting. The Chairmen of the Committees preside at these meetings on a rotating basis. Each committee chair is responsible for setting the agenda for executive sessions of non-management directors and presiding at such meetings when they preside at such meeting.

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

The Board of Directors maintains a process for shareholders and interested parties to communicate with the Board. Shareholders may e-mail, call or write to the Board, as more fully described on the Company's website under the "Corporate Governance" caption. Communications addressed to individual Board members and clearly marked as shareholder communications will be forwarded by the Corporate Secretary unopened to the individual addresses. Any communications addressed to the Board and clearly marked as shareholder communications will be forwarded by the Corporate Secretary unopened to Jim Taylor, Chairman of the Nominating and Corporate Governance Committee.

Recognizing that director attendance at the Company's Annual Meeting can provide the Company's shareholders with an opportunity to communicate with Board members about issues affecting the Company, the Company actively encourages its directors to attend the Annual Meeting of Shareholders. In 2003, eight of the Company's directors attended the Annual Meeting.

Code of Business Conduct and Ethics

The Company has adopted a Code of Business Conduct and Ethics for Directors and Employees designed to help Directors and employees resolve ethical issues in an increasingly complex global business environment. Our Code of Business Conduct and Ethics applies to all Directors and employees, including the Chief Executive Officer, the Chief Financial Officer, and all Senior Financial Officers. Our Code of Business Conduct and Ethics covers topics including, but not limited to, conflicts of interest, insider trading, competition and fair dealing, discrimination and harassment, confidentiality, payments to government personnel, anti-boycott laws, U.S. embargos and sanctions, compliance procedures and employee complaint procedures. Our Code of Business Conduct and Ethics is posted on our website under the "Corporate Governance" caption and is attached as Exhibit G.

Nominating Processes of the Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee (the "Committee") is comprised of four non-employee directors all of whom are independent under NYSE listing standards and our Corporate Governance Guidelines. The Committee identifies, investigates and recommends to the Board director candidates with the goal of creating balance of knowledge, experience and diversity. Generally, the Committee identifies candidates through the personal, business and organizational contacts of the directors and management. Potential directors should possess the highest personal and professional ethics, integrity

9

and values, and be committed to representing the long-term interests of the Company's shareholders. In addition to reviewing a candidate's background and accomplishments, candidates for director nominees are reviewed in the context of the current composition of the Board and the evolving needs of the Company's businesses. It is the Board's policy that at all times at least a substantial majority of its members meets the standards of independence promulgated by the NYSE and the SEC and as set forth in the Company's Corporate Governance Guidelines, and that all members reflect a range of talents, ages, skills, diversity, and expertise, particularly in the areas of accounting and finance, management, domestic and international markets and leadership sufficient to provide sound and prudent guidance with respect to the Company's operations and interests. The Company also requires that its Board members be able to dedicate the time and resources sufficient to ensure the diligent performance of their duties on the Company's behalf, including attending all Board and applicable committee meetings.

The Company's Governance procedures permit shareholders to nominate directors

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

for election at an annual shareholders meeting under certain conditions. To nominate a director using this process, the shareholder must follow procedures set forth in the Company's Governance Guidelines. The notice to the Secretary should include the following:

- . The nominee's name, age and business and residence address;
- . The nominee's principal occupation or employment;
- . The class and number of shares of the Company, if any, owned by the nominee;
- . The name and address of the shareholder as they appear on the Company's books;
- . The class and number of shares of Company stock owned by the shareholder as of the record date for the annual meeting (if this date has been announced) and as of the date of the notice;
- . A representation that the shareholder intends to appear in person or by proxy at the meeting to nominate the candidate specified in the notice;
- . A description of all arrangements or understandings between the shareholder and the nominee; and
- . Any other information regarding the nominee or shareholder that would be required to be included in a proxy statement relating to the election of directors.

The Committee will consider director candidates recommended by shareholders. If a shareholder wishes to recommend a director for nomination by the Committee, he or she should follow the same procedures set forth above for nominations to be made directly by the shareholder. In addition, the shareholder should provide such other information as it may deem relevant to the Committee's evaluation. Candidates recommended by the Company's shareholders are evaluated on the same basis as candidates recommended by the Company's directors, CEO, other executive officers, third party search firms or other sources.

Audit Committee Report

The Audit Committee of the Board of Ennis Business Forms, Inc. (the "Audit Committee") is responsible for providing independent, objective oversight for the Company's financial reporting functions and internal control systems. The Audit Committee is currently composed of four non-employee directors. The Board has determined that the members of the Audit Committee satisfy the requirements of the New York Stock Exchange as to independence, financial literacy and expertise. The Board has determined that at least one member, James B. Gardner, is an audit committee financial expert as defined by the SEC. The responsibilities of the Audit Committee are as set forth in the written charter adopted by the Company's Board and last amended on January 13, 2004. A copy of the amended charter is attached to this proxy statement as Appendix B. One of the Audit Committee's primary responsibilities is to assist the Board in its oversight of the integrity of the Company's financial statements. The following report summarizes certain of the Committee's activities in this regard during the year 2004.

Review with Management. The Audit Committee has reviewed and discussed with management the Company's audited consolidated financial statements for the year ended February 29, 2004.

Executive Compensation

Executive Compensation and Stock Option Committee Report to Shareholders on Executive Compensation

The Executive Compensation and Stock Option Committee of the Board of the Company ("Compensation Committee") is charged with administering the Company's executive compensation programs. The Compensation Committee is composed solely of independent, outside directors who qualify as non-employee directors under Rule 16b-3 of the Securities Exchange Act of 1934 and as outside directors under section 162(m) of the Internal Revenue Code.

The Compensation Committee of the Board of the Company, which is composed entirely of the three non-employee independent directors listed below, has furnished the following report on executive compensation. The Compensation Committee's report documents the components of the Company's executive officer compensation programs and describes the compensation philosophy on which 2004 compensation determinations were made by the Compensation Committee with respect to the executive officers of the Company, including the Chief Executive Officer and the three other executive officers that are named in the compensation tables who are currently employed by the Company (the "Named Executives"). The Compensation Committee, prior to implementation, submits its recommendations to the Board with respect to the compensation of the executive officers.

The Compensation Committee met four times in fiscal 2004 with all members of the Committee attending. Mr. Ken Pritchett was appointed Chairman of the Compensation Committee at the beginning of 2004. The Compensation Committee is responsible for administering the following plans and programs:

- . 1998 Option and Restricted Stock Plan
- . 2004 Long-Term Incentive Plan submitted to shareholders for approval
- . Management Short-Term Incentive Plan
- . Deferred Compensation Plan
- . Supplemental Executive Retirement Program

COMPENSATION PHILOSOPHY

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

The Compensation Committee reviews the executive compensation program of the Company annually and it is the philosophy of the Company that executive compensation is directly linked to continuous

11

improvements in corporate performance. Specifically, the Compensation Committee has adopted the following objectives as guidelines for compensation decisions:

- .. Provide a competitive total executive compensation package that enables the Company to attract and retain key executives and maintain a competitive position in the executive marketplace with employers of comparable size and in similar lines of business.
- .. Enhance the compensation potential of executives by integrating pay programs with the Company's annual and long-term business objectives and strategy, and focus executives on the fulfillment of these objectives.
- .. Provide variable compensation opportunities that are linked with the performance of the Company, emphasizing net earnings, return on capital and revenue growth.

CASH COMPENSATION

Cash compensation includes base salary and the Company's annual incentive plan awards. Executive officers' salaries are reviewed and approved annually by the Compensation Committee. The base salary of each of the Company's executive officers is determined by an evaluation of the responsibilities of that position and by comparison to the range of salaries paid in the competitive market in which the Company competes for comparable executive ability and experience. Factors that determine the salary for each executive officer include level of experience and job performance. Job performance is judged on both a subjective and objective basis, the latter measured against objectives agreed upon at the outset of the year.

The performance of the Chief Executive Officer is reviewed annually by the Compensation Committee. The Compensation Committee and the Chief Executive Officer review annually the performance of the other Named Executive Officers and in the case of the other executive officers, the Compensation Committee takes into account the Company's operating and financial results for that year, the contribution of each executive officer to such results, the achievement of goals established for each such executive officer at the beginning of each year, and competitive salary levels for persons in those positions in the markets in which the Company competes. To assist in its deliberations, the Compensation Committee accesses comparable salary and incentive compensation information for a number of representative companies in the industry for comparison purposes. Following its review of the performance of the Company's Named Executive officers, the Compensation Committee reports its recommendations for salary increases and incentive awards, if any, to the Board. In 2004, executive officers salaries were increased in those instances where promotions occurred, or when comparative data indicated the salary was below market value and performance warranted such an increase, and the Compensation Committee approved incentive compensation awards for all of the Named Executives. The Compensation Committee believed the recommended salary increases and incentive awards for Named Executives were warranted, are properly aligned to the Board's compensation philosophy, and consistent with the performance of such executives during fiscal year 2004 based on the Compensation Committee's evaluation of each individual's overall contribution to accomplishing the Company's fiscal year 2004 corporate goals and of each individual's achievement of individual goals during the year.

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

STOCK OPTIONS

The Compensation Committee believes that it is essential to align the interests of the Company executives and other management personnel responsible for the growth of the Company with the interests of the Company's stockholders. The Compensation Committee believes the long-term alignment of its executives to shareholders is best accomplished through the provision of stock option grants or restricted stock grants. During fiscal 2004 there were no options available for grant to officers under the 1998 Option and Restricted Stock Plan. The Compensation Committee has also recommended, and the Board has approved for submission to shareholders at this Annual Meeting, the restatement of the 1998 Option and Restricted Stock Plan as the 2004 Long-Term Incentive Plan. This Plan will assure the Company's executive officers

12

and other key employees are appropriately motivated and rewarded based on the long-term financial progress of the Company and that sufficient shares are available to accomplish this purpose.

The Compensation Committee determines the eligible employees, the timing of option and award grants, the number of shares granted, vesting schedules, option prices and duration and other terms of the stock options and stock awards. None of the Named Executive officers named in the Summary Compensation Table were granted stock options or other awards under the 1998 Option and Restricted Stock Plan in the fiscal year ended February 29, 2004 and all previous stock awards under the 1998 Option and Restricted Stock Plan are disclosed in the Stock Option Table, and Summary Compensation Table.

The 1998 Option and Restricted Stock Plan provides that options may be granted either as incentive stock options or as non-qualified stock options. Options may be granted for varying periods of from one to ten years. Options generally do not become exercisable until two years from the date of grant. Thereafter, the right to exercise options vests either: (a) in accordance with a schedule established at the time of grant, generally at a rate of 25% per year, cumulative to the extent not exercised in prior periods; or (b) on a schedule determined by achievement of specific performance factors. The exercise price for incentive stock options must be at least 100% of the last sale price on the exchange on which the stock is trading on the date of grant.

The 2004 Long-Term Incentive Plan, if approved by shareholders, will allocate another 500,000 shares of stock to be available to management and non-employee directors in the form of options (either incentive stock options or non-qualified stock options), restricted stock, stock appreciation rights, restricted units, phantom stock options and other incentive awards. As in the 1998 Option and Restricted Stock Plan, the Compensation Committee generally will determine eligible employees, the timing of option and award grants, the number of shares granted, vesting schedules, option prices and duration and other terms of the stock options and other awards.

COMPENSATION OF CEO

In determining the compensation of Mr. Keith Walters, the Chairman and Chief Executive Officer, the Compensation Committee reviewed the Company's operating and financial results for fiscal year, evaluated his individual performance and contribution to those results, and considered the compensation range for other chief executive officers of companies in the industry. Based on that review and assessment, the Compensation Committee recommended and the Company's Board ratified that his base annual salary was adjusted to \$600,000. A performance bonus of \$432,930 was approved for Mr. Walters based on predetermined

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

performance criteria on revenue growth, return on capital employed and net income for the fiscal year ended February 2004.

SUPPLEMENTAL RETIREMENT CONTRIBUTIONS

The Compensation Committee also recommended to the Board, and the Board so approved, the creation of a Supplemental Executive Retirement Program ("Program") for executive officers. The Program provides for discretionary contributions, recommended by the Compensation Committee and approved by the Board, to the Company's Deferred Compensation Plan for the benefit of the executive officers of the Company. The initial contribution recommended by the Compensation Committee and approved by the Board was 5% of base compensation for each of the Named Executives. The Program is a non-qualified defined contribution plan and annual contributions and percentage calculations are at the discretion of the Board.

SUMMARY

As demonstrated in each of the plans above, compensation in all its forms is linked directly to objective performance criteria of the Company, business units where applicable, and the individual executive's performance. By doing so, the Compensation Committee has created an environment that encourages long-term decisions that will benefit the Company, its shareholders, customers, and employees and at the same time allows the executives, managers, and key contributors within the Company to share in the success of those decisions and actions. Furthermore, the Compensation Committee believes that the total compensation program for executive officers of the Company will be competitive with the compensation programs provided by other corporations with which the Company competes.

The Compensation Committee believes the actions taken regarding executive compensation were appropriate in view of individual and corporate performance.

Other Programs

The Company also provides its executives and other employees with health and welfare benefit plans, including medical, dental, and life insurance; with pension and compensation deferral programs; and with perquisites and other benefits which are competitive with market practices.

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

All of the members of the Compensation Committee are non-employee directors of the Company and are not former officers of the Company. During fiscal year 2003, no executive officer of the Company served as a member of the Board of Directors or on the compensation committee of a corporation where one of whose executive officers served on the Executive Compensation and Stock Option Committee or on the Board.

Internal Revenue Code Section 162(m)

The Compensation Committee has taken action, where possible and considered appropriate, to preserve the deductibility of compensation paid to the Company's and its subsidiaries' respective executive officers.

The Company generally will be entitled to take tax deductions relating to compensation that is performance-based, which may include cash incentives, stock options, restricted stock, restricted stock units, and other performance-based awards.

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

The Company's Compensation Committee will continue to review the Company's executive compensation practices to determine if elements of executive compensation qualify as "performance-based compensation" under the Internal Revenue Code and will seek to preserve tax deductions for executive compensation to the extent consistent with the Compensation Committee's determination of compensation arrangements necessary and appropriate to foster achievement of Company's business goals.

(1) The Company has a noncontributory retirement plan that covers substantially all of the employees of the Company and certain of its subsidiaries. The plan provides for retirement benefits on a formula based on the average pay of the highest five consecutive compensation years during active employment, integration of certain Social Security benefits, length of service and a normal retirement age of sixty-five. All forms of remuneration, including overtime, shift differentials and bonuses, are covered by the plan. However, due to restrictions imposed by the Internal Revenue Code, effective January 1, 2002, the maximum annual compensation covered by the plan is limited to \$205,000. Future years' maximum can be increased for inflation (for 2004, the maximum is \$205,000). Prior to this date, the maximum annual compensation covered by the plan was limited to \$150,000 (indexed for inflation). The tables above sets forth approximate annual retirement benefits that would be received under the plan, computed on the basis of the specified average annual earnings and years of service. The table presents annual benefit amounts for remuneration above the current dollar maximum since (a) the dollar maximum can increase with inflation.

The number of full years of continuous service in the plan as of February 29, 2004 for Mr. Walters, Graham and Cathey were 7, 6, and 35, respectively. Mr. Overstreet is not covered by the plan and Mr. Magill is not currently eligible for coverage.

This graph shows Company's cumulative total shareholder return over the five-year period from February 28, 2000, to February 29, 2004. Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers, and persons who own more than 10% of a registered class of the Company's equity securities, to file reports of ownership and changes in ownership of the Company's common stock with the SEC and the NYSE, and to furnish the Company with copies of the forms they file. To the Company's knowledge, based solely on a review of the copies of such reports furnished to it and written representations of our officers and directors, during the year ended February 29, 2004, all Section 16(a) reports applicable to its officers and directors were filed on a timely basis, except for Mr. Price. In March 2004, Mr. Price filed information on a Form 5 reporting a transaction whereby his wife and sister-in-law had jointly inherited 10,000 shares of common stock of the Company.

Employment Agreements

What are the terms of employment agreements with our executive officers?

The Company has entered into employment agreements with Mr. Walters and Mr. Graham dated May 1, 2003 and Mr. Magill dated October 7, 2003. Each is an executive officer of the Company. The agreements provide for base salaries of \$600,000, \$200,000 and \$175,000 annually for Mr. Walters, Mr. Graham and Mr. Magill, respectively. These base salaries may be increased during the terms of the contracts. The agreements provide that for a continuing three-year employment period plus two 1-year extensions. Each of such employment agreements provides that if the officer terminates his employment for good reason or during the two-year period following a change of control of the Company, the Company will (a) make a lump sum payment to him of salary earned through the date of termination, (b) make a lump sum severance payment to him of the amount determined by multiplying his base amount times a multiple per his agreement, (c) accelerate vesting of all long-term incentives, to include but not limited to stock options, restricted stock, any other long-term incentive grants, and (d) continue to provide certain welfare plan and other benefits for a period of one year or as long as such plan or benefits allow or until the executive is employed under the benefit plans of another company.

For purposes of the employment agreements, "good reason" includes (i) a change in the officer's position, authority, duties or responsibilities, (ii) changes in the office or location at which he is based without his consent (such consent not to be unreasonably withheld), (iii) certain breaches of the agreement and (iv) a reduction in base annual salary.

How much were the independent auditors paid for 2004 and 2003?

The Audit Committee has adopted a pre-approval policy that provides guidelines for the audit, audit-related, tax and other non-audit services that may be provided by Ernst & Young to the Company. The policy (a) identifies the guiding principles that must be considered by the Audit Committee in approving services to ensure that Ernst & Young's independence is not impaired; (b) describes the audit, audit-related, tax and other services that may be provided and the non-audit services that are prohibited; and (c) sets forth pre-approval requirements for all permitted services. Under the policy, all services to be provided by Ernst & Young must be pre-approved by the Audit Committee. The Audit Committee has delegated to the Chair and one other member of the Committee the authority to approve permitted services. Such approval must be reported to the entire Committee at the next scheduled meeting.

Proposal to Approve the 2004 Long-Term Incentive Plan.

What am I voting on?

We are asking you to approve our 2004 Long-Term Incentive Plan (the "Plan"), as set forth in Appendix C to this proxy statement. The Plan will only become effective upon approval by shareholders. The Plan was unanimously approved by our Board on January 13, 2004, and will, among other things, allow the issuance of up to 500,000 shares of common stock for compensation to our employees and non-employee directors. The Plan is an amendment and restatement of our existing 1998 Option and Restricted Stock Plan. Additionally, shares currently subject to awards under the Plan or the 1998 Option and Restricted Stock Plan may become available from time to time for awards under the Plan to the extent that such shares are not actually delivered (whether due to forfeiture, withholding for taxes or any other reason), or to the extent previously issued shares are used to pay the exercise price or cover withholding obligations or are similarly reacquired by the Company.

The 500,000 shares available for issuance under the Plan would represent approximately 3.0 percent of the Company's outstanding shares as of February 29, 2004. This level of dilution is comparable to that of our peer group of companies and is consistent with the Board's preference for conservative compensation practices. The primary objectives of the Plan are:

- . To attract and retain the services of employees and non-employee directors; and

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

- . To further our interests and our shareholders' interests by providing incentives in the form of stock-based awards to such persons.

22

In accordance with these objectives, the Plan is designed to enable our employees and non-employee directors to acquire or increase their ownership of our common stock. The Plan is designed to compensate employees and non-employee directors for the creation of shareholder value. The Plan is also designed with the intent of placing more of executive compensation at risk and in the longer term. The Plan provides variable long-term compensation to employees and non-employee directors that is consistent with the philosophy adopted by the Compensation Committee as set out in its Report on Executive Compensation set forth on pages 11 through 14 of this proxy statement. This philosophy is based on the fundamental principles of pay for performance and external competitiveness, and the Board sees this Proposal 2 as a means of further aligning the goals of our employees and non-employee directors with those of the Company's shareholders.

While all of our employees and non-employee directors would be eligible to participate in the Plan, it is expected that most awards under the Plan would be made to our key employees, typically senior officers, managers, and technical and professional personnel. As of April 15, 2004, approximately 42 persons were eligible to participate in the 1998 Option and Restricted Stock Plan and 42 employees were participating. No awards have been made under the restated Plan. As of February 29, 2004, the following options and restricted stock awards were outstanding under the 1998 Option and Restricted Stock Plan:

- . Options to purchase approximately 699,175 shares of our common stock at a weighted average price of \$9.23, of which approximately 444,175 shares were subject to vested options; and
- . No restricted stock awards have been granted.

The following table sets forth plan benefits awarded by the Compensation Committee under the 1998 Option and Restricted Stock Plan during the last fiscal year to (i) the named executive officers, (ii) all current executive officers as a group, (iii) all current directors who are not executive officers as a group and (iv) all employees, excluding all executive officers.

Our Board believes that amending and restating the 1998 Option and Restricted Stock Plan is the desirable way of adding additional shares and broadening the scope of awards available to attract and retain quality talent. Our Board believes that stock incentive plans like the Plan achieve their objectives and that to continue to carry out the objectives for the next several years, it is

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

necessary to have an increase in the number of shares of common stock available for issuance that is greater than the remaining number of shares reserved for issuance under the 1998 Option and Restricted Stock Plan.

23

Summary of Our 2004 Long-Term Incentive Plan

Purpose. The purposes of the Plan are to assist the Company and its subsidiaries in attracting and retaining able persons to become employees and to provide motivation to employees to put forth maximum efforts toward the success of the Company and its subsidiaries by providing incentives to those persons through the ownership and performance of common stock of the Company. An additional purpose is to provide a means through which the Company may attract able persons to become non-employee directors of the Company and to provide those individuals with incentive and reward opportunities.

Effectiveness and Term. The Plan will be effective June 17, 2004, the date of the 2004 annual meeting of shareholders of the Company, provided it is approved at the meeting. The Plan is unlimited in duration, but incentive stock options may not be granted on or after the 10th anniversary of the effective date.

Administration. For grants to employees, the Plan is administered by the Compensation Committee or another committee designated by the Board. Compensation Committee members must be "outside directors" under Section 162(m) of the Internal Revenue Code and "non-employee directors" under Rule 16b-3 of the Securities Exchange Act of 1934. For grants to outside directors, the Board administers the Plan. The Compensation Committee may delegate some or all of its powers to the Chief Executive Officer (or another executive officer) of the Company. But, the Compensation Committee may not delegate its power related to the grant of an award to any person who is subject to the rules of Section 162(m) of the Internal Revenue Code or Section 16 of the Securities Exchange Act of 1934.

Among the powers granted to the Compensation Committee are the authority to interpret the Plan, establish rules and regulations for its operation, select eligible persons to receive awards and determine the form, amount, and other terms and conditions of the awards. The Compensation Committee also has the authority to accelerate the exercise, vesting or payment of an award when it would be in the best interests of the Company and grant awards in replacement of awards previously granted under the Plan, the 1998 Option and Restricted Stock Plan or any other employee benefit plan of the Company. The decisions of the Board or the Compensation Committee and their actions in administering the Plan are conclusive and binding on all participants, their estates, beneficiaries and legal representatives.

The Plan provides for indemnification of the Compensation Committee members for personal liability incurred related any action, interpretation, or determination made in good faith with respect to the Plan and awards made under the Plan.

Shares Subject to the Plan. The maximum number of shares of common stock available for the grant of awards under the Plan is limited to (i) 500,000 shares plus (ii) any authorized shares of common stock available for issuance under the 1998 Option and Restricted Stock Plan on the effective date, plus (iii) any shares of common stock that become available under the Plan due to cancellation, forfeiture, payment of exercise price or withholding, etc. The maximum number of shares of Common Stock for which Options and SARs (stock appreciation rights) may be granted under the Plan to any one participant during a calendar year is 50,000.

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

The Compensation Committee has full discretion to determine the manner in which shares of common stock available for grant of awards are counted. In the absence of Compensation Committee action, the Plan sets forth certain rules for this purpose. For example, the grant of options and restricted stock under the Plan reduces the number of shares available for grant of awards. Likewise, the grant of restricted units, phantom options or other incentive award that are payable either in common stock or in cash or common stock reduces the number of shares available for grant. The grant of SARs as well as restricted units, phantom options and other incentive awards payable only in cash does not affect the number of shares available for grant. In addition, shares of common stock related to awards that may be paid or settled in common stock that terminate by expiration, termination or cancellation without the issuance of shares will again be available for grant under the Plan. In addition, if shares of common stock are delivered or withheld to pay the exercise price of an award or to pay withholding taxes payable upon

24

exercise, vesting or payment of an award, the number of shares available for grant of awards will be increased by the number of shares delivered or withheld as payment of the exercise price or withholding taxes.

If there is subdivision or a consolidation of the common stock or the payment of a stock dividend on the common stock, the number of shares and price of common stock related to outstanding awards will be proportionately adjusted. If the Company recapitalizes or changes its capital structure, rather than the number of shares of common stock covered by an award, the participant will be entitled to receive the number and class of shares of stock or other securities that the participant would have been entitled to receive if, immediately before the recapitalization, he or she had held the number of shares of common stock subject to the award. In the event of changes in the outstanding common stock because of recapitalization, reorganization, merger, consolidation, combination, separation (including a spin-off or other distribution of stock or property), exchange or other relevant change in capitalization, outstanding awards are subject to adjustment by the Compensation Committee at its discretion as to the number, price and kind of shares or other consideration subject to the awards. These changes may result in the aggregate number of shares available for grant of awards under the Plan being equitably adjusted by the Compensation Committee.

Eligibility. Employees and non-employee directors of the Company and its subsidiary corporations are eligible to receive awards. No employee or outside director may receive an award unless the Compensation Committee or the Board selects him or her.

Awards. The Plan provides for grant of nonqualified stock options, incentive stock options, phantom options, restricted stock, restricted units, SARs (stock appreciation rights), and other incentive awards.

Options. An option is the right to purchase a share of the Company's common stock at a specified price. Options may be granted for restricted or nonrestricted common stock. Options may be granted to employees and non-employee directors. Options may be incentive stock options (which may receive special tax treatment), nonqualified stock options, or a combination of both. Incentive stock options may be granted only to employees. The exercise price of an option is payable either in cash or a cash equivalent or, with the Compensation Committee's consent, by tendering one or more previously acquired nonforfeitable, unrestricted shares of Company common stock meeting certain conditions. Broker assisted cashless exercises are permitted with the Compensation Committee's consent. Options generally expire 10

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

years from the date of grant. Unless otherwise provided in the option agreement, options terminate within a certain period of time following a participant's termination of employment or service by reason of death or disability (1 year), cause (immediate termination regardless of vesting status), or other reasons (3 months). The price at which a share of common stock may be purchased upon exercise of an option shall be determined by the Compensation Committee, but such exercise price may not be less than 85% (in the case of nonqualified stock options) or 100% (in the case of incentive stock options) of the closing price of the common stock on the NYSE on the date of grant. As of April 28, 2004, the closing price of the common stock on the NYSE was \$15.80.

Phantom Options. A phantom option is a fictional option. Phantom options do not carry dividend rights, rights upon liquidation, or any other rights of common stock. Phantom options may be granted to employees and non-employee directors. Upon exercise, each fictional share subject to a phantom option entitles the participant to receive the excess of the fair market value as of the date of exercise over the strike price, payable in cash or a whole number of shares of common stock as determined by the Compensation Committee. Upon a participant's termination of employment or service other than for cause, the vested portion of the phantom option is deemed exercised and the unvested portion is forfeited. If the participant is terminated for cause, all phantom options are forfeited regardless of the vested status. The strike price of a phantom option shall be determined by the Compensation Committee, but the strike price may not be less than 100% of the closing price of the common stock on the NYSE on the date of grant.

Restricted Stock. Restricted stock is common stock, which is subject to restrictions (generally vesting periods) determined by the Compensation Committee. Restricted stock

25

constitutes issued and outstanding shares of the Company's common stock. Restricted stock may be granted to employees and non-employee directors. A participant who receives restricted stock generally has the right to receive dividends during the restriction period, to vote the restricted stock, and to enjoy all other stockholder rights. Generally, a participant is not required to make payment for restricted stock awarded under the Plan. Upon expiration of the restriction period, the participant is entitled to receive shares of the Company's common stock not subject to restriction.

Restricted Units. Restricted units represent a fictional share of common stock granted to a participant pursuant to the Plan, which may be subject to restrictions determined by the Compensation Committee. Restricted units may be granted to employees and non-employee directors. Upon the lapse of restrictions, the participant is entitled to receive one share of common stock or an amount of cash equal to the fair market value of one share of common stock. An award of restricted units may include a tandem DER grant. A "DER" (or dividend equivalent right) is a contingent right, granted in tandem with a restricted unit that gives the participant the right to receive an amount in cash equal to the cash distributions made with respect to a share of common stock during the period the restricted unit is outstanding. Generally, upon a participant's termination of employment or service for any reason prior to the lapse of restrictions, the participant will forfeit any restricted units.

SARs. SARs or stock appreciation rights entitle the participant

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

to receive the increase in value of a share of common stock over a period of time. SARs may be granted to employees and non-employee directors. SARs may be granted in conjunction with an option either (i) at the time of the initial option grant or (ii) with respect to a nonqualified stock option, at any time after the initial option grant while the nonqualified stock option is still outstanding. Upon exercise of a SAR, the participant is entitled to receive cash equal to the excess of the aggregate fair market value of the shares of common stock with respect to which the SAR is then being exercised over the aggregate purchase price of those shares. SARs are exercisable (i) only at such time and only to the extent the related option is exercisable, (ii) only when the fair market value of the shares subject to the related option exceeds the purchase price of the shares as provided in the related option, and (iii) only upon surrender of the related option or any portion for which SARs are being exercised. Upon exercise of a SAR, the related option is deemed terminated to the extent the SAR is exercised.

Other Incentive Awards. An other incentive award is an award (payable in cash, common stock or a combination) that may be granted to employees and outside directors, the Compensation Committee determines the terms of any other incentive awards.

Change in Control. Immediately prior to a change in control (as defined in the Plan), all awards vest and become payable or exercisable in full. The Compensation Committee has discretion regarding the treatment (as defined in the Plan) of options, phantom options, and SARs not exercised upon a change of control.

Transferability. Awards are not subject to execution, attachment or similar process. No award of incentive stock options or restricted stock during its restriction period may be sold, transferred, pledged, exchanged, hypothecated, or disposed of, other than by will or applicable laws of descent and distribution. An award agreement may provide that all other awards may be transferred to a permitted transferee.

Amendment & Termination. The Board may suspend, terminate, amend, or modify the Plan at any time. Certain amendments require shareholder approval. The Board may amend the terms of any outstanding award granted pursuant to the Plan, but no amendment may adversely affect the participant's rights under an outstanding award without the participant's consent.

United States Federal Income Tax Consequences. The following summary is based upon an analysis of the Internal Revenue Code (the "Code"), as currently in effect, and existing laws, judicial decisions, administrative rulings, regulations and proposed regulations, all of which are subject to change.

26

Incentive Stock Options. This tax discussion assumes that incentive stock options will be exercised for the stock that is not subject to restrictions. No income will be recognized by an optionee for federal income tax purposes upon the exercise of an incentive stock option. The basis of shares transferred to an optionee upon exercise of an incentive stock option is the price paid for the shares. If the optionee holds the shares for at least one year after the transfer of the shares to the optionee and two years after the grant of the option, the optionee will recognize capital gain or loss upon sale of the shares received upon exercise equal to the difference between the amount realized on the sale and the basis of the stock. Generally, if the shares are not held for that period, the optionee will recognize ordinary income upon disposition in an amount equal to the excess of the fair market value of the shares on the date of exercise over the amount paid for the shares, or if less

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

(and if the disposition is a transaction in which loss, if any, will be recognized), the gain on disposition. Any additional gain realized by the optionee upon the disposition will be a capital gain. The excess of the fair market value of shares received upon the exercise of an incentive stock option over the option price for the shares is an item of adjustment for the optionee for purposes of the alternative minimum tax. Therefore, although no income is recognized upon exercise of an incentive stock option, an optionee may be subject to alternative minimum tax as a result of the exercise.

If an optionee uses already owned shares of common stock to pay the exercise price for shares under an incentive stock option, the resulting tax consequences will depend upon whether the already owned shares of common stock are "statutory option stock," and, if so, whether the statutory option stock has been held by the optionee for the applicable holding period referred to in Section 424(c)(3)(A) of the Code. In general, "statutory option stock" (as defined in Section 424(c)(3)(B) of the Code) is any stock acquired through the exercise of an incentive stock option or an option granted pursuant to an employee stock purchase plan, but not stock acquired through the exercise of a nonqualified stock option. If the stock is statutory option stock with respect to which the applicable holding period has been satisfied, no income will be recognized by the optionee upon the transfer of the stock in payment of the exercise price of an incentive stock option. If the stock is not statutory option stock, no income will be recognized by the optionee upon the transfer of the stock. If the stock used to pay the exercise price of an incentive stock option is statutory option stock with respect to which the applicable holding period has not been satisfied, the transfer of the stock will be a disqualifying disposition described in Section 421(b) of the Code which will result in the recognition of ordinary income by the optionee in an amount equal to the excess of the fair market value of the statutory option stock at the time the incentive stock option covering the stock was exercised over the amount paid for the stock. Under the present provisions of the Code, it is not clear whether all shares received upon the exercise of an incentive stock option with already-owned shares will be statutory option stock or how the optionee's basis will be allocated among the shares.

Nonqualified Stock Options. This tax discussion assumes that options will be exercised for stock that is not subject to restrictions. No income will be recognized by an optionee for federal income tax purposes upon the grant of a nonqualified stock option. Upon exercise of a nonqualified stock option, the optionee will recognize ordinary income in an amount equal to the excess of the fair market value of the shares on the date of exercise over the amount paid for the shares. Income recognized upon the exercise of a nonqualified stock option will be considered compensation subject to withholding at the time the income is recognized, and, therefore, the optionee's employer must make the necessary arrangements with the optionee to ensure that the amount of the tax required to be withheld is available for payment. Nonqualified stock options are designed to provide the Company with a deduction equal to the amount of ordinary income recognized by the optionee at the time of the recognition by the optionee, subject to the deduction limitations described below.

The basis of shares transferred to an optionee pursuant to exercise of a nonqualified stock option is the price paid for the shares plus an amount equal to any income recognized by the optionee as a result of the exercise of the option. If an optionee thereafter sells shares acquired upon exercise of a nonqualified stock option, any amount realized over the basis of the shares will constitute capital gain to the optionee for federal income tax purposes.

If an optionee uses already owned shares of common stock to pay the exercise price for shares under a nonqualified stock option, the number of shares received pursuant to the nonqualified stock option which is equal to the number of shares delivered in payment of the exercise price will

be considered received in a nontaxable exchange, and the fair market value of the remaining shares received by the optionee upon the exercise will be taxable to the optionee as ordinary income. If the already owned shares of common stock are not "statutory option stock" or are statutory option stock with respect to which the applicable holding period referred to in Section 424(c)(3)(A) of the Code has been satisfied, the shares received pursuant to the exercise of the nonqualified stock option will not be statutory option stock and the optionee's basis in the number of shares received in exchange for the shares delivered in payment of the exercise price will be equal to the basis of the shares delivered in payment. The basis of the remaining shares received upon the exercise will be equal to the fair market value of the shares. However, if the already owned shares of common stock are statutory option stock with respect to which the applicable holding period has not been satisfied, it is not presently clear whether the exercise will be considered a disqualifying disposition of the statutory option stock, whether the shares received upon the exercise will be statutory option stock or how the optionee's basis will be allocated among the shares received.

Phantom Options. There will be no federal income tax consequences to either the participant or the Company upon the grant of phantom options. Generally, a participant will recognize ordinary income subject to withholding upon exercise and receipt of payment pursuant to phantom options in an amount equal to the fair market value of the common stock and the aggregate amount of cash received. Subject to the deduction limitations described below, The Company generally will be entitled to a corresponding tax deduction equal to the amount includible in the participant's income.

Restricted Stock. If the restrictions on an award of shares of restricted stock are of a nature that the shares are both subject to a substantial risk of forfeiture and are not freely transferable within the meaning of Section 83 of the Code, the participant will not recognize income for federal income tax purposes at the time of the award unless the participant affirmatively elects to include the fair market value of the shares of restricted stock on the date of the award, less any amount paid for the shares, in gross income for the year of the award pursuant to Section 83(b) of the Code. In the absence of this election, the participant will be required to include in income for federal income tax purposes in the year in which occurs the date the shares either become freely transferable or are no longer subject to a substantial risk of forfeiture within the meaning of Section 83 of the Code, the fair market value of the shares of restricted stock on the date, less any amount paid for the shares. The Company will be entitled to a deduction at the time of income recognition to the participant in an amount equal to the amount the participant is required to include in income with respect to the shares, subject to the deduction limitations described below. If a Section 83(b) election is made within 30 days after the date the restricted stock is received, the participant will recognize ordinary income at the time of the receipt of the restricted stock and the Company will be entitled to a corresponding deduction equal to the fair market value (determined without regard to applicable restrictions other than nonlapse restrictions) of the shares at the time less the amount paid, if any, by the participant for the restricted stock. If a Section 83(b) election is made, no additional income will be recognized by the participant upon the lapse of restrictions on the restricted stock, but, if the restricted stock is subsequently forfeited, the participant may not deduct the income that was recognized pursuant to the Section 83(b) election at the time of the receipt of the restricted stock.

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

Dividends paid to a participant holding restricted stock before the expiration of the restriction period will be additional compensation taxable as ordinary income to the participant, unless the participant made an election under Section 83(b). Subject to the deduction limitations described below, the Company generally will be entitled to a corresponding tax deduction equal to the dividends includible in the participant's income as compensation. If the participant has made a Section 83(b) election, the dividends will be dividend income, rather than additional compensation, to the participant.

If the restrictions on an award of restricted stock are not of a nature that the shares are both subject to a substantial risk of forfeiture and not freely transferable, within the meaning of Section 83 of the Code, the participant will recognize ordinary income for federal income tax purposes at the time of the award in an amount equal to the fair market value of the shares of restricted stock on the date of the award, less any amount paid therefor. The Company will be entitled to a deduction at that time in an amount equal to the

28

amount the participant is required to include in income with respect to the shares, subject to the deduction limitations described below.

Restricted Units. There will be no federal income tax consequences to either the participant or the Company upon the grant of restricted units. Generally, the participant will recognize ordinary income subject to withholding upon lapse of restrictions or achievement of performance goals pursuant to the restricted units in an amount equal to the fair market value of the common stock and the aggregate amount of cash the participant receives or is entitled to receive on such date. Subject to the deduction limitations described below, the Company generally will be entitled to a corresponding tax deduction equal to the amount includible in the participant's income.

There will be no federal income tax consequences to either the participant or the Company upon the grant of DERs. Generally, a participant will recognize ordinary income subject to withholding upon the earlier of lapse of restrictions or achievement of performance goals pursuant to restricted units related to the DERs in an amount equal to the amount of cash the participant receives or is entitled to receive on such date. Subject to the deduction limitations described below, the Company generally will be entitled to a corresponding tax deduction equal to the amount includable in the participant's income.

SARs. There will be no federal income tax consequences to either the participant or the Company upon the grant of SARs. Generally, the participant will recognize ordinary income subject to withholding upon the receipt of payment pursuant to SARs in an amount equal to the aggregate amount of cash received. Subject to the deduction limitations described below, the Company generally will be entitled to a corresponding tax deduction equal to the amount includible in the participant's income.

Limitations on the Company's Compensation Deduction. Section 162(m) of the Code limits the deduction which the Company may take for otherwise deductible compensation payable to certain executive officers of the Company to the extent that compensation paid to the officers for the year exceeds \$1 million, unless the compensation is performance-based, is approved by the Company's stockholders and meets certain other criteria. Compensation attributable to an option or SAR is deemed to satisfy the requirements for performance-based compensation if (1) the grant or award is made by the Compensation Committee; (2) the plan under which the option or SAR is granted states the maximum number of shares with respect to which options or SARs may be granted during a specified period to any employee; and (3) under the terms of

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

the option or SAR, the amount of compensation the employee could receive is based solely on an increase in the value of the stock after the date of the grant or award. The Plan has been designed to enable awards of options and SARs granted by the Compensation Committee to qualify as performance-based compensation for purposes of Section 162(m) of the Code. Other awards are subject to the Code Section 162(m) deduction limitation unless the award is structured in a manner that satisfies the performance-based compensation exception to Section 162(m) of the Code.

In addition, Section 280G of the Code limits the deduction which the Company may take for otherwise deductible compensation payable to certain individuals if the compensation constitutes an "excess parachute payment." Very generally, excess parachute payments arise from certain payments made to disqualified individuals which are in the nature of compensation and are contingent on certain changes in ownership or control of the Company. Disqualified individuals for this purpose include certain employees and independent contractors who are officers, stockholders or highly-compensated individuals. Accelerated vesting or payment of awards under the Plan upon a change in ownership or control of the Company could result in excess parachute payments. In addition to the deduction limitation applicable to the Company, a disqualified individual receiving an excess parachute payment is subject to a 20 percent excise tax on the amount thereof.

29

Effect of Other Laws. The above summary relates to U.S. federal income tax consequences only and applies to U.S. citizens and foreign persons who are U.S. residents for U.S. federal income tax purposes. The U.S. federal income tax consequences associated with the issuance of common stock to nonresident aliens depends upon a number of factors, including whether such issuance is considered to be U.S. source income and whether the provisions of any treaty are applicable. The acquisition, ownership or disposition of shares of common stock may also have tax consequences under various state, local and foreign laws. The Plan is not subject to the Employee Retirement Income Security Act of 1974, as amended.

Categorical Standards

Director Independence

As required by the listing standards of the New York Stock Exchange, a majority of the members of the Board must be independent. A director is independent if the Board determines that he or she has no material relationship with the Company (either directly or as a partner, shareholder or officer of an organization that has a relationship with the Company), and such director is not otherwise automatically deemed to be not independent by applicable NYSE listing standards. The Board has determined that any director meeting the following categorical standards shall automatically be deemed not to have any material relationship with the Company, and shall be independent:

- . A director who has not received, and whose immediate family members have not received, for the past three years, more than \$100,000 per year in direct compensation from the Company. Director and committee fees, pension or other forms of deferred compensation for prior service (provided such compensation is not contingent in any way on continued service), and compensation received by an immediate family member for service as a non-executive employee of the Company are not considered in making this determination;
- . A director who is not, and for the past three years has not been, an employee of the Company and who does not have an immediate family member who is, or for the past three years has been, an executive officer of the Company;
- . Until November 4, 2004, a director who is not, and has not for the past year been, an employee of the Company;
- . A director who is not, and has not for the past three years been, affiliated with or employed by a present or former internal or external auditor of the Company, and who has no immediate family members who are, or have during the last three years been affiliated with or employed in a professional capacity by, a present or former internal or external auditor of the Company;
- . A director who is not, and for the past three years has not been, employed as an executive officer of another company where any of the Company's present executives serve on that company's compensation committee and who has no immediate family members who have been employed as an executive officer for such company during the past three years;
- . A director who has no personal service contract with the Company, any subsidiary or affiliate of the Company or any member of senior

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

management;

- . A director who is not, and in the previous three years has not been, an employee or executive officer of a company that makes payments to, or receives payments from, the Company for property or services in an amount which, in any single fiscal year, exceeds the greater of \$1 million, or 2% of such other company's consolidated gross revenues;

An immediate family member shall include the director's spouse, parents, children, siblings, in-laws and anyone who resides in the director's home.

The Nominating and Corporate Governance Committee is responsible for assessing compliance with these standards on an annual basis. Any director who does not meet these standards will be referred to the Board, and the Board will review the relationship or transaction that prevents such director from meeting these standards and make a determination of whether such relationship or transaction is a material relationship with the Company.

4.2 Adjustments for Recapitalizations and Reorganizations.

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

(a) The shares with respect to which Awards may be granted under the Plan are shares of Common Stock as presently constituted, but if, and whenever, prior to the expiration or satisfaction of an Award theretofore granted, Ennis shall effect a subdivision or consolidation of shares of Common Stock or the payment of a stock dividend on Common Stock in the form of Ennis Common Stock without receipt of consideration by Ennis, the number of shares of Common Stock with respect to which such Award may thereafter be exercised or satisfied, as applicable, (i) in the event of an increase in the number of outstanding shares, shall be proportionately increased, and the exercise price per share shall be proportionately reduced, and (ii) in the event of a reduction in the number of outstanding shares, shall be proportionately reduced, and the exercise price per share shall be proportionately increased.

(b) If Ennis recapitalizes or otherwise changes its capital structure, thereafter upon any exercise or satisfaction, as applicable, of an Award theretofore granted the Participant shall be entitled to (or entitled to purchase, if applicable) under such Award, in lieu of the number of shares of Common Stock then covered by such Award, the number and class of shares of stock or other securities to which the Participant would have been entitled pursuant to the terms of the recapitalization if, immediately prior to such recapitalization, the Participant had been the holder of record of the number of shares of Common Stock then covered by such Award.

(c) In the event of changes in the outstanding Common Stock by reason of a reorganization, merger, consolidation, combination, separation (including a spin-off or other distribution of stock or property), exchange, or other relevant change in capitalization occurring after the date of grant of any Award and not otherwise provided for by this Section 4.2, any outstanding Awards and any Award Agreements evidencing such Awards shall be subject to

39

adjustment by the Committee in its absolute discretion as to the number, price and kind of shares or other consideration subject to, and other terms of, such Awards to reflect such changes in the outstanding Common Stock.

(d) In the event of any changes in the outstanding Common Stock provided for in this Section 4.2, the aggregate number of shares available for grant of Awards under the Plan may be equitably adjusted by the Committee, whose determination shall be conclusive.

4.3 Adjustments for Awards. The Committee shall have full discretion to determine the manner in which shares of Common Stock available for grant of Awards under the Plan are counted. Without limiting the discretion of the Committee under this Section 4.3, unless otherwise determined by the Committee, the following rules shall apply for the purpose of determining the number of shares of Common Stock available for grant of Awards under the Plan:

(a) Options and Restricted Stock. The grant of Options and Restricted Stock shall reduce the number of shares available for grant of Awards under the Plan by the number of shares subject to such Award.

(b) SARs, Phantom Options and Restricted Units. The grant of SARs shall not affect the number of shares available for grant of Awards under the Plan. The grant of Phantom Options or Restricted Units that may be paid or settled only for cash shall not affect the number of

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

shares available for grant of Awards under the Plan. The grant of Phantom Options or Restricted Units that may be paid or settled (i) only in Common Stock or (ii) in either cash or Common Stock shall reduce the number of shares available for grant of Awards under the Plan by the number of shares subject to such an Award.

(c) Other Incentive Awards. The grant of an Other Incentive Award in the form of Common Stock or that may be paid or settled only in Common Stock shall reduce the number of shares available for grant of Awards under the Plan by the number of shares subject to such Award. The grant of an Other Incentive Award that may be paid or settled only for cash shall not affect the number of shares available for grant of Awards under the Plan. The grant of an Other Incentive Award that may be paid or settled in either Common Stock or cash shall reduce the number of shares available for grant of Awards under the Plan by the number of shares subject to such Award.

(d) Termination. If any Award referred to in paragraphs (a), (b) and (c) above (other than an Award that may be paid or settled only for cash) is canceled or forfeited, or terminates, expires or lapses, for any reason (other than the termination of a Related Option (as defined in Section 11.1) upon exercise of its corresponding SARs), the shares then subject to such Award shall again be available for grant of Awards under the Plan.

(e) Payment of Exercise Price and Withholding Taxes. If previously acquired shares of Common Stock are used to pay the exercise price of an Award, the number of shares available for grant of Awards under the Plan (other than Incentive Stock Options) shall be increased by the number of shares delivered as payment of such exercise price. If previously acquired shares of Common Stock are used to pay withholding taxes payable upon exercise, vesting or payment of an Award, or shares of Common Stock that would be acquired upon exercise, vesting or payment of an Award are withheld to pay withholding taxes payable upon exercise, vesting or payment of such Award, the number of shares available for grant of Awards under the Plan (other than Incentive Stock Options) shall be increased by the number of shares delivered or withheld as payment of such withholding taxes.

(f) Fractional Shares. If any such adjustment would result in a fractional security being (i) available under the Plan, such fractional security shall be disregarded or (ii) subject to an Award, Ennis shall pay the holder of such Award, in connection with the first vesting, exercise or settlement of such Award in whole or in part occurring after such adjustment, an amount in cash

40

determined by multiplying (x) the fraction of such security (rounded to the nearest hundredth) by (y) the excess, if any, of the Fair Market Value on the vesting, exercise or settlement date over the exercise price, if any, of such Award.

back to the board as a whole on the topics and issues discussed at this meeting. It is possible that the presiding chair could

- . Make recommendations to the full Board regarding the structure of Board meetings
- . Recommend matters for consideration by the full Board
- . Place additional items on the future board agenda's in collaboration with the Chief Executive Officer
- . Recommend additional appropriate materials to be provided to the directors
- . Recommend tasks to the appropriate committees
- . With the help of the Nominating and Corporate Governance Committee, oversee the annual evaluation of the Board and its committees.

III. Director Access to Management and Independent Advisors: All directors are able to directly contact members of management, including, in the case of the Audit Committee, direct access to the head of internal audit. Broad management participation is encouraged in presentations to the Board, and executive management frequently meet with Board members on an individual basis. The Board and its Committees are empowered to hire at Company expense their own financial, legal and other experts to assist them in addressing matters of importance to the Corporation.

IV. Non-Employee Director Compensation: The amount and type of compensation for the Company's non-employee directors will now be recommended by the Nominating and Corporate Governance Committee, which develops its recommendation from a review of practices at similarly situated companies and the Company's peer group based upon recent proxy statements. The recommendation would be made and approved by the Board. Currently each non-employee director of the Company receives an annual grant of 5,000 shares of stock options and 10,000 stock option shares when they join the Board. In addition, non-employee directors received a retainer fee of \$18,000 and \$2,000 for each meeting attended. Each Committee Chair receives an annual committee chair retainer of \$6,000 and non-employee directors receive \$1,500 for each committee meeting attended.

47

V. Director Orientation and Continuing Education: Directors are provided extensive material regarding Ennis upon their initial election to the Board, including a binder containing information regarding Ennis and its policies and various administrative and legal matters. Other orientation procedures include meetings with senior executives of the Company in its major business units. Board meetings are occasionally held outside the corporate office to permit directors to visit operating locations of Ennis subsidiaries.

VI. Evaluation of the Board and its Committees: The Nominating and Corporate Governance Committee is establishing an annual evaluation of the effectiveness of the Board and each Committee, and oversees the composition, organization (including its Committee structure, membership and leadership) practices of the Board.

VII. Management Compensation, Evaluation and Succession: The Board provides annual goals for the Chief Executive Officer and the Compensation Committee evaluates the CEO's performance, including his or her success in achieving these goals, in setting compensation. The Board recognizes that the selection of the

Edgar Filing: ENNIS BUSINESS FORMS INC - Form PRE 14A

CEO and the oversight of succession planning are among the most important duties of the Board. The Compensation Committee evaluates the form and amount of compensation of Ennis's senior management, and provides a report thereon annually in the proxy statement.

VIII. Board Committees: There are three standing committees of the Board, to wit: the Compensation Committee, the Audit Committee, and the Nominating and Corporate Governance Committee. Other committees can be created at the discretion of the Board, including ad hoc committees established for specific concerns or issues confronting the Board. The Board appoints the Committee members and Committee Chairs after some consultation among the retiring chair, the Chairman and other members of the Board. The consultations generally address the skill-sets needed, desire to serve on a particular committee, and ability to commit the necessary time for a particular committee as a means of placing the appropriate directors in their respective committees. The committee members and committee chairs are appointed in the first directors meeting following the annual meeting of shareholders.

IX. Evaluation of Corporate Governance Guidelines: Annually, the Nominating and Corporate Governance Committee reviews these Guidelines and recommends changes to the Board if appropriate.

X. Stockholder Ratification of Independent Auditors: At the Annual Meeting each year, the holders of the Company's Common Stock will be given the opportunity to vote on whether to ratify the selection of independent auditors for the following fiscal year.
