DXP Enterprises, Inc. (the “Company”) concluded that the value of inventory acquired in connection with the acquisition of Precision Industries, Inc. (“Precision”), on September 10, 2007 was overstated because significant amounts of the inventory acquired were obsolete, old and/or slow moving. On March 9, 2010, the Company promptly filed a Form 8-K indicating goodwill was understated and inventory was overstated in previously issued balance sheets. The Company has not had sufficient time to complete all procedures and evaluations of the Precision inventories and the related accounting treatment. The Company is currently in discussions with the staff of the Securities and Exchange Commission regarding the appropriate accounting treatment for the Precision inventory issue. The Company currently expects to file its Annual Report on Form 10-K for the year ended December 31, 2009 on or before March 31, 2010.

The Company expects to recognize a charge of approximately \$14 million in the fourth quarter of 2009 to reduce the value of inventory acquired in connection with the acquisition of Precision as discussed in Part III, or restate previously issued financial statements to reflect the reduced value of Precision inventory. In addition, the Company

expects to recognize impairment of goodwill and other intangibles of approximately \$53 million during the fourth quarter of 2009, due to declines in our projected cash flows for the income approach, or approximately \$67 million if we restate previously issued financial statements to reflect the reduced value of Precision inventory. For the nine months ended September 30, 2009, sales and net income for the Company declined 18% and 57%, respectively, from results for the same period in 2008.
