**GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2001**

1. BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements of Global Med Technologies, Inc. and Subsidiary (the Company or Global Med) have been prepared by management in accordance with generally accepted accounting principles for interim financial information and with the regulations of the Securities and Exchange Commission. Accordingly, they do not include all information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of only normal recurring adjustments) considered necessary for a fair presentation of their financial position at June 30, 2001 and the results of their operations for the three and six months ended June 30, 2001 and 2000 have been included.

In November 2000, eBanker USA.com, Inc. (eBanker) and Global Med entered into a series of transactions that resulted in Global Med becoming a consolidated subsidiary of eBanker and eVision USA.Com, Inc. (eVision) which is a Regulation S-K reporting company. (See Note 2). Accordingly, Global Med is filing under Regulation S-K instead of Regulation S-B.

While management believes the disclosures presented are adequate to prevent misleading information, it is suggested that the accompanying unaudited consolidated financial statements be read in conjunction with the audited consolidated financial statements and the notes thereto contained in the Company s Annual Report on Form 10-KSB for the year ended December 31, 2000, as filed with the Securities and Exchange Commission. The interim results of operations for the three and six months ended June 30, 2001 are not necessarily indicative of the results that may be expected for any other interim period of 2001 or for the year ending December 31, 2001.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Company s management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. Global Med provides information management software products and services to the health care industry and operates in two business segments. (See Note 6.)

Basic net loss per common share excludes dilution and is computed by dividing net loss by the weighted-average number of common shares outstanding during the periods presented. Diluted net loss per common share reflects the potential dilution of securities that could participate in the earnings unless their effect is antidilutive. Stock options, warrants outstanding and their equivalents are included in diluted computations through the treasury stock method unless they are antidilutive. Convertible securities are included in diluted computations through the if converted method unless they are antidilutive. Common share equivalents are excluded from the computation, as their effect would be antidilutive. For the three months ended June 30, 2001 and 2000 approximately 6.1 million and 16.6 million equivalent dilutive securities

(primarily convertible debt, common stock options, and warrants), respectively, have been excluded from the weighted-average number of common shares outstanding for the diluted net loss per share computations as they are antidilutive. For the six months ended June 30, 2001 and 2000 approximately 6.3 million and 15.9 million equivalent dilutive securities (primarily convertible debt, common stock options, and warrants), respectively, have been excluded from the weighted-average number of common shares outstanding for the diluted net loss per share computations as they are antidilutive.

GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2001 (continued)

The Company's net loss for the six months ended June 30, 2001 is \$1.789 million. Cash flow used by operating activities totaled \$454 thousand and the Company has an accumulated deficit of \$38.238 million.

Management anticipates that the cash and accounts receivable balances, recurring revenues, proceeds from the sales of common stock, and any future financing activities will be used to fund the Company's anticipated research and development costs, sales and marketing efforts during the remainder of 2001 and for general working capital purposes. The Company continues to pursue financing alternatives through the issuance of additional equity or debt.

In June 1998, the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 133, Accounting for Derivative Instruments and Hedging Activities. SFAS No. 133 requires companies to adopt its provisions for all fiscal quarters of all fiscal years beginning after June 15, 2000 (as deferred by DFAS No. 137). The Company adopted SFAS No. 133, as amended, on January 1, 2001. Historically, the Company has not entered into derivatives contracts to hedge existing risks, and derivatives held for speculative purposes consist of warrants held. The adoption of SFAS No. 133 did not have a material effect on the financial position or results of operations.

In July 2001 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets. These standards become effective for fiscal years beginning after December 15, 2001. Beginning in the first quarter of fiscal 2002, goodwill will no longer be amortized but will be subject to annual impairment tests. All other intangible assets will continue to be amortized over their estimated useful lives. The new rules also require business combinations initiated after June 30, 2001 to be accounted for using the purchase method of accounting and goodwill acquired after June 30, 2001 will not be amortized. The Company had no Goodwill at June 30, 2001, and the adoption of SFAS 141 and 142 are not expected to have a material impact on the Company's financial position or results of operations.

Certain prior period amounts have been reclassified to conform with the current period presentation.

2. RELATED PARTIES

In November 2000, eBanker and Global Med entered into a series of transactions that resulted in Global Med becoming a consolidated subsidiary of eBanker and eVision. Global Med is financed primarily through lending arrangements provided by eBanker as discussed further in Note 3. eBanker is a consolidated subsidiary of eVision. eVision is majority owned by Online Credit International Ltd. (Online International) and its subsidiary Online Credit Limited (Online Credit). Online Credit, eVision and eBanker all are shareholders of Global Med. Additionally, eBanker and eVision each hold warrants to acquire an additional 1 million shares of Global Med's common stock with an exercise price of \$0.25 per share.

During the six months ended June 30, 2001 and 2000, eVision provided the Company with various accounting services for which the Company incurred \$75 thousand and \$25 thousand in general and administrative expenses, respectively. During the six months ended June 30, 2001 and 2000, the Company incurred \$224 thousand and \$295 thousand, respectively, in interest charges from eBanker. As of June 30, 2001 and December 31, 2000, the Company had accrued liabilities consisting of interest and accounting services expense in the amounts of \$63 thousand and \$116 thousand, respectively. These amounts are included in accrued expenses and accounts payable in the accompanying balance sheet.

GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2001 (continued)

During the six months ended June 30, 2001, the Company issued a \$50 thousand note receivable to a not-for-profit corporation controlled by a director of the Company. This amount is included in other assets.

3. FINANCING AGREEMENTS, RELATED PARTY

In November 2000, eBanker agreed to exercise warrants to purchase 8 million shares of common stock of Global Med at \$0.25 per share in exchange for canceling \$2 million of its notes receivable from Global Med. The remaining \$3.4 million outstanding under the various financing agreements and accrued interest of \$429 thousand were combined into one agreement and the due date was extended to July 1, 2001. Global Med agreed to pay interest of 12% per annum on a semi-annual basis, with the first interest payment due May 19, 2001. The 8 million shares of common stock were issued on February 28, 2001 and were considered outstanding as of November 19, 2000. In consideration for the extension of the remaining principal and interest, eBanker received a fee of 5% payable in 197,600 shares of common stock of Global Med. If the principal and interest are not paid in full by July 1, 2001, the due date of the principal and interest will automatically be extended to July 1, 2003. Additionally, Global Med will issue eBanker warrants to acquire up to 10,168,430 shares of Global Med common stock with an exercise price of \$0.50 per share. The actual number of warrants to be issued will be determined based upon the amount of principal outstanding at July 1, 2001. Additionally, upon the occurrence of certain events related to a certain contract Global Med is negotiating, Global Med will have the right, in its discretion, to put its shares of common stock worth up to \$1.5 million to eBanker at \$0.50 per share in the form of exchanging debt for common stock. The outstanding loan balance is convertible into the common stock of Global Med at eBanker's option at a rate of \$1.00 per share. The default conversion rate under this extension is \$1.00 per share. As consideration for this provision, eBanker was issued 500,000 restricted shares of Global Med common stock. As a result of these transactions, eBanker obtained control of Global Med and Global Med was reflected in eVision's consolidated financial statements as a consolidated subsidiary of eBanker effective November 19, 2000.

On March 22, 2001, Global Med and eBanker entered into an interest payment option agreement that provides that Global Med may have the option, with five days prior written notice, to elect and pay to eBanker, before July 1, 2001, Global Med's entire interest payment calculated for the life of loan agreement dated November 19, 2000, in the form of 1,746,688 shares of Global Med common stock (calculated at \$0.6875 per share, which was the prevailing market price on March 22, 2001). In the event that Global Med pays down any principal on the loan prior to July 1, 2003, eBanker will return a number of shares determined by calculating the pro-rata interest avoided due to early repayment of principal divided by \$0.6875 per share. eBanker will make this calculation on July 1, 2001, July 1, 2002 and July 1, 2003.

On June 20, 2001, the company elected to exercise the interest payment option. As a result, eBanker will be issued 1,746,688 shares of the Company's common stock as payment for the interest expense on the Company's outstanding loan balance with eBanker of \$3.829 million through the loan's maturity date of July 1, 2003. The 1,746,688 shares have not been issued, but are considered outstanding as of June 20, 2001, the date the interest option was exercised. The company has recorded \$910 thousand in a contra-equity account associated with the issuance of these shares as of June 30, 2001. In addition, \$278 thousand in accrued interest related to the eBanker loan was eliminated from the company's accrued expenses balance as of June 30, 2001, as a result of this transaction.

**GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2001 (continued)**

4. PEOPLEMED.COM, INC.

During 1999, Global Med formed a subsidiary, PeopleMed.com, Inc., (PeopleMed) a Colorado corporation, which is approximately 83% owned by the Company, to develop a software application designed to give HMO providers and other third party payers access to clinical information for chronic disease patients. This application allows doctors and other medical employees access to a patient's history. The remaining 17% of PeopleMed is owned by third parties and certain officers and directors of Global Med and PeopleMed. There is no minority interest reflected in the June 30, 2001 or December 31, 2000 balance sheets because PeopleMed had a stockholders' deficit at those dates.

5. STOCKHOLDERS' EQUITY

Stock Compensation

In 2000, the Company authorized the issuance of 35,000 shares to an officer of the Company. Of the 35,000 authorized shares, 7,000 had been issued as of June 30, 2001. The remaining shares will be issued at a rate of 7,000 per year as they are earned. The market value of the shares that had been issued was \$9,000, based on quoted market prices. During the six months ended June 30, 2001, the Company recognized approximately \$10,000 in compensation expense in the statements of operations related to the vesting of these shares.

On July 1, 2001, the Company authorized the issuance of 300,000 common shares to a director of the Company for the performance of certain consulting services performed. The market value of the shares to be issued was \$225 thousand on the date of authorization, based on quoted market prices. During the three months ended June 30, 2001, the Company recognized approximately \$225 thousand in compensation expense in the statements of operations related to the authorized issuance of these shares. These shares have not been included in the common shares outstanding as of June 30, 2001. A liability for \$225 thousand associated with the issuance of these shares is included in accrued liabilities as of June 30, 2001.

Global Med is currently pursuing alternative financing arrangements. The Company has entered into various agreements with third parties to either sell or contemplate the sale of unregistered securities of the Company. The securities generally either have been or will be offered for sale pursuant to the exemption from registration contained in Sections 4(2) of the United States Securities Act of 1933, as amended (the Act), and Rule 506 of Regulation D under the Act, and are offered only to accredited investors. No registration statement is intended to be filed with the United States Securities and Exchange Commission or with any other state securities commission.

**GLOBAL MED TECHNOLOGIES, INC. AND SUBSIDIARY
NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
JUNE 30, 2001 (continued)**

6. BUSINESS SEGMENT INFORMATION

The Company classifies its products into two core business segments: the Wyndgate Division (Wyndgate) and PeopleMed. Wyndgate develops, markets and supports blood tracking systems to assist community blood centers, hospitals, plasma centers and outpatient clinics in the U.S. in complying with the quality and safety standards of the FDA for the collection, transfusion, and management of blood and blood products. PeopleMed offers chronic disease management as an Application Service Provider (ASP). PeopleMed's systems use the Internet to coordinate sources and users of a patient's clinical information, including laboratory, pharmacy, primary and specialty care providers, claims, and medical records. Prior to the quarter ended March 31, 2001, the operations of PeopleMed were insignificant and, consequently, comparative information is not presented. The following presents segment information for the Company for the six months ended June 30, 2001 (in thousands):

7. SUBSEQUENT EVENT

On July 1, 2001, eBanker received the right to be issued 10,168,430 warrants for the purchase of the Company's common stock at \$0.50 per share. The warrants will be issued in accordance with the terms of the November 19, 2000 Financing Agreement between the Company and eBanker. The number of warrants to be issued was calculated based on the outstanding principal balance on the Company's loan with eBanker as of July 1, 2001. The warrants expire on July 1, 2011. In accordance with the terms of the November 2000 financing agreement between the Company and eBanker, the Company is obligated to maintain current registration on the shares, underlying the warrants, for resale under the Securities Act of 1933 (1933 Act). Using the Black-Scholes model for estimating the fair value of the warrants to purchase 10,168,430 shares of the Company's common stock, the Company calculated that there would be \$7.626 million in deferred financing costs associated with the issuance of these warrants as of July 1, 2001. The Company used the following assumptions in calculating the anticipated value of the warrants eBanker has a right to be issued: risk-free rate of 5.65%, expected life of 10 years, a dividend yield of 0%; and volatility of 284%. It is anticipated that the value assigned to the warrants will be amortized straight-line over the remaining term of the loan, two years. The Company is currently in negotiations with eBanker to amend the part of the November 19, 2000 Financing Agreement related to the issuance of the 10,168,430 common stock warrants. The Company's objective is to obtain terms more favorable than those that presently exist. There can be no assurance that Global Med will be able to obtain terms more favorable or that Global Med will not have to issue the maximum number of warrants to eBanker.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

Global Med Technologies, Inc. and subsidiary (the Company or Global Med), designs, develops, markets and supports information management software products for blood banks, hospitals, centralized transfusion centers and other healthcare related facilities. Revenues for the Company's Wyndgate division are derived from the licensing of software, the provision of consulting and other value-added support services. Revenues for PeopleMed are derived, generally, from providing ASP services. The Company operates in two segments.

The following discussion of the Company's results of operations and of its liquidity and capital resources is derived from and should be read in conjunction with the unaudited financial statements and the related notes herein.

RESULTS OF OPERATIONS

THREE MONTHS ENDED JUNE 30, 2001 COMPARED TO THREE MONTHS ENDED JUNE 30, 2000

Revenues. Revenues are comprised primarily of license fees, maintenance and usage fees, and implementation and consulting services revenues.

Revenues for the three months ended June 30, 2001 increased by \$472 thousand or 44.6% when compared with the same three month period in 2000. The increase for the three months ended June 30, 2001 was due to an increase in maintenance revenue of \$36 thousand, an increase in software license fee revenues of \$259 thousand, an increase in revenues for PeopleMed of approximately \$104 thousand, and an increase in implementation and consulting services revenue of \$73 thousand when compared with the same period for 2000.

Cost of revenue. Cost of revenue as a percentage of total revenues was 43.4% and 42.5% for the three months ended June 30, 2001 and 2000, respectively. This increase in costs was primarily a result of increased revenues derived from engineering contracts, which typically have lower margins than revenues from software license fees or maintenance.

Gross profit. Gross profit as a percentage of total revenue was 56.6% and 57.5% for the three months ended June 30, 2001 and 2000, respectively. This decrease in gross profit was primarily a result of the increased revenues derived from revenues of the lower margin consulting services.

General and administrative. General and administrative expenses increased \$56 thousand or 6.4%, for the three months ended June 30, 2001 compared to the same three months in 2000. The Company incurred approximately \$229 thousand in expenses for the three months ended June 30, 2001 associated with compensation relative to one director who also provides consulting services to the Company versus approximately \$141 thousand in the prior comparable prior period. Investor relations expense decreased by \$47 thousand during the current period when compared to the comparable period in 2000.

Sales and marketing. Sales and marketing expenses increased \$69 thousand or 17.8%, for the three months ended June 30, 2001 compared to the same three months in 2000. The increase in sales and marketing expense for the three months ended June 30, 2001 is primarily due to an increase in commissions expense of \$47 thousand, and increase in salaries of \$24 thousand when compared with the prior comparable period. These increases were offset by a reduction in tradeshows expense of \$16 thousand.

Research and development. Research and development expenses decreased \$102 thousand or 72.3%, for the three months ended June 30, 2001 compared to the same three months in 2000. The decrease in R&D is primarily due to a decrease in consulting expenses of \$129 thousand for the quarter ended June 30, 2001 when compared to the comparable prior period in 2000. The consulting expenses in the prior year incurred during the three months ended June 30, 2000 were primarily associated with the initial development of the Company's PeopleMed.com software platform. These increased expenses were offset by reduced levels of capitalization during the quarter ended June 30, 2001, when compared with the comparable prior period in 2000.

Loss from operations before other income (expense). The Company's loss from operations during the three months ended June 30, 2001 of \$559 thousand is \$235 thousand less than the loss for the same three months in 2000 of \$794 thousand. The decreased loss for the three months ended June 30, 2001 was primarily attributable to the increase in revenues.

Interest expense. Interest expense decreased \$56 thousand or 32.6 % for the three months ended June 30, 2001 compared to the same three months in 2000. This decrease was due to the decrease in outstanding amounts under the related party financing agreements.

Financing costs. Financing costs decreased \$1.04 million for the three month period ended June 30, 2001 when compared with the same period for 2000. The decrease was due to the fact that during the quarter ended June 30, 2000, the company issued stock to eVision at a discount to the market of \$940 thousand. The remaining decrease is due to lower deferred financing costs associated with the debt arrangements in existence during the quarter ended June 30, 2001 versus the comparable quarter in 2000.

Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-Q

Net loss. The Company's net loss for the three months ended June 30, 2001 and 2000 was \$768 thousand and \$2.097 million, respectively. The difference of \$1.329 million relates primarily to increased revenues and reduced financing costs for the period ended June 30, 2001, when compared to the comparable period in 2000.

SIX MONTHS ENDED JUNE 30, 2001 COMPARED TO SIX MONTHS ENDED JUNE 30, 2000

Revenues. Revenues are comprised primarily of license fees, maintenance and usage fees, and implementation and consulting services revenues.

Revenues for the six months ended June 30, 2001 increased by \$792 thousand or 39.6% when compared with the same six month period in 2000. This increase was due primarily to an increase in maintenance revenues of \$119 thousand, an increase in software license fee revenues of \$375 thousand, an increase in revenues for PeopleMed of approximately \$205 thousand, and an increase in consulting services revenues of approximately \$93 thousand when compared with the same period for 2000.

Cost of revenue. Cost of revenue as a percentage of total revenues was 42.4% and 48.5% for the six months ended June 30, 2001 and 2000, respectively. This cost decrease was primarily a result of increased revenues derived from sales of software product licenses which are typically priced at higher profit margins than revenues from consulting and implementation related services. In addition, the profit margins on the Company's usage fees for PeopleMed typically are higher than those from consulting or implementation-related services and PeopleMed revenues increased by \$205 thousand.

Gross profit. Gross profit increased \$578 thousand to \$1.606 million for the six months ended June 30, 2001 and 2000, respectively. The increase in gross profit was due primarily to an increase in software license fees and PeopleMed revenues.

General and administrative. General and administrative expenses increased \$256 thousand or 17.4%, for the six months ended June 30, 2001 compared to the same six months in 2000. The increase in costs was primarily due to the increase in amortization expense associated with common shares issued to service providers and other expenses discussed below. The Company recognized additional amortization expense of approximately \$123 thousand related to these shares for the six months ended June 30, 2001, when compared to the comparable period during 2000. In addition, expenses associated with legal services increased \$51 thousand mainly due to the costs associated with the special shareholder's meeting and expenses related to fund raising. The Company also incurred increased compensation relative to one director who also provides consulting services to the Company. The increase in these types of expenses was \$95 thousand during the six months ended June 30, 2001 compared to the comparable period in 2000. The remaining \$13 thousand offset to these increases is comprised of numerous expense accounts.

Sales and marketing. Sales and marketing expenses increased \$379 thousand or 61.7%, for the six months ended June 30, 2001 compared to the same six months in 2000. This increase in sales and marketing expenses was primarily due to the increased sales and marketing efforts related to SAFETRACE TX and PeopleMed during the six months ended June 30, 2001.

Research and development. Research and development expenses increased \$123 thousand, for the six months ended June 30, 2001 compared to \$141 thousand for the same six months in 2000. The increase in research and development expenses was primarily due to reduced levels of capitalization of software development costs for the six months ended June 30, 2001 when compared with the comparable period in 2000. In addition, the Company has incurred additional costs with respect to the further development of SAFETRACE® for which the majority of these costs were not deemed to be capitalizable.

Loss from operations before other income (expense). The Company's loss from operations during the six months ended June 30, 2001 of \$1.376 million is \$180 thousand more than the loss for the same six months in 2000 of \$1.196 million. The increased loss experienced during the six months ended June 30, 2001 was primarily attributable to the increase in operating expenses due to the increased costs associated with PeopleMed, increased sales and marketing activities and increased research and development.

Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-Q

Interest expense. Interest expense decreased \$83 thousand or 26.1% for the six months ended June 30, 2001 compared to the same six months in 2000. This decrease was due to lower outstanding amounts under the financing agreements, related party.

Financing costs. Financing costs decreased \$1.062 million for the six month period ended June 30, 2001 when compared with the same period for 2000. The decrease was due to the Company issuing stock to eVision at a discount to the market of \$940 thousand during the six months ended June 30, 2000. The remaining decrease is due to lower deferred financing costs associated with the arrangements in existence during the six months ended June 30, 2001 versus the comparable period in 2000.

Net loss. The Company's net loss for the six months ended June 30, 2001 and 2000 was \$1.789 million and \$2.761 million, respectively. The difference of \$972 thousand relates primarily to decreased financing costs.

LIQUIDITY AND CAPITAL RESOURCES

The Company had cash and cash equivalents of \$521 thousand as of June 30, 2001 compared to \$1.21 million at December 31, 2000, none of which was restricted.

The Company had a net working capital deficit of \$1.905 million as of June 30, 2001 and \$1.025 million at December 31, 2000. The primary reason for the increase in the working capital deficit is the decrease in cash associated with the Company's use of cash to fund operations and the increase in accrued expenses.

The Company used \$454 thousand in net cash for operating activities during the six months ended June 30, 2001. The cash used during the six months ended June 30, 2001 consisted primarily of the net loss of \$1.789 million, net of non-cash changes of \$1.094 million and changes in operating assets and liabilities of \$241 thousand.

Net cash used in investing activities was \$168 thousand during the six months ended June 30, 2001 compared to \$360 thousand during the same period of 2000. The Company invested \$116 thousand and \$347 thousand in capitalized software development during the six months ended June 30, 2001 and 2000, respectively.

Net cash used in financing activities was \$67 thousand during the six months ended June 30, 2001, compared to net cash provided by financing activities of \$1.548 million during the six months ended June 30, 2000. The amounts for June 30, 2000 primarily include proceeds from the financing agreements.

In November 2000, eBanker agreed to exercise warrants to purchase 8 million shares of common stock of Global Med at \$0.25 per share in exchange for canceling \$2 million of its notes receivable from Global Med. The remaining \$3.4 million outstanding under the various financing agreements and accrued interest of \$428,700 were combined into one agreement and the due date was extended to July 1, 2001. Global Med agreed to pay interest of 12% per annum on a semi-annual basis, with the first interest payment due May 19, 2001. The 8 million shares of common stock were issued on February 28, 2001 and are considered outstanding as of November 19, 2000. In consideration for the extension of the remaining principal and interest, eBanker received a fee of 5% payable in 197,600 shares of common stock of Global Med. If the principal and interest are not paid in full by July 1, 2001, the due date of the principal will automatically be extended to July 1, 2003. Additionally, Global Med will issue eBanker warrants to acquire up to 10,168,430 shares of Global Med common stock with an exercise price of \$0.50 per share. The actual number of warrants to be issued will be determined based upon the amount of principal outstanding at July 1, 2001. Additionally, upon the occurrence of certain events related to a certain contract Global Med is negotiating, Global Med will have the right, in its discretion, to put its shares of common stock worth up to \$1.5 million to eBanker at \$0.50 per share in the form of exchanging debt for common stock. The outstanding loan balance is convertible into the common stock of Global Med at eBanker's option at a rate of \$1.00 per share. The default conversion rate under this extension is \$1.00 per share. As consideration for this provision, eBanker was issued 500,000 restricted shares of Global Med common stock. As a result of these transactions, eBanker obtained control of Global Med and Global Med was reflected in eVision's consolidated financial statements as a consolidated subsidiary of eBanker effective November 19, 2000.

Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-Q

On March 22, 2001, Global Med and eBanker entered into an interest payment option agreement that provides that Global Med may have the option, with five days prior written notice, to elect and pay to eBanker, before July 1, 2001, Global Med's entire interest payment calculated for the life of loan agreement dated November 19, 2000, in the form of 1,746,688 shares of Global Med common stock (calculated at \$0.6875 per share, which was the prevailing market price on March 22, 2001). In the event that Global Med pays down any principal on the loan prior to July 1, 2003, eBanker will return a number of shares determined by calculating the pro-rata interest avoided due to early repayment of principal divided by \$0.6875 per share. eBanker will make this calculation on July 1, 2001, July 1, 2002 and July 1, 2003.

On June 20, 2001 the Company elected to exercise the interest payment option. As a result, the Company will issue eBanker 1,746,688 shares of the Company's common stock as payment for the interest expense on the company's outstanding loan balance with eBanker of \$3.829 million through the loan's maturity date of July 1, 2003. The 1,746,688 shares have not been issued, but are considered outstanding as of June 20, 2001, the date the interest option was exercised. The Company has recorded \$910 thousand in a contra-equity account associated with the issuance of these shares and \$278 thousand in accrued interest related to the eBanker loan was eliminated from the company's accrued expenses balance.

18

On July 1, 2001, eBanker received the right to be issued 10,168,430 warrants for the purchase of the Company's common stock at \$0.50 per share. The warrants will be issued in accordance with the terms of the November 19, 2000 Financing Agreement between the Company and eBanker. The number of warrants to be issued was calculated based on the outstanding principal balance on the Company's loan with eBanker as of July 1, 2001. The warrants expire on July 1, 2011. In accordance with the terms of the November 2000 financing agreement between the Company and eBanker, the Company is obligated to maintain current registration on the shares, underlying the warrants, for resale under the Securities Act of 1933 (1933 Act). Using the Black-Scholes model for estimating the fair value of the warrants to purchase 10,168,430 shares of the Company's common stock, the Company calculated that there would be \$7.626 million in deferred financing costs associated with the issuance of these warrants as of July 1, 2001. The Company used the following assumptions in calculating the anticipated value of the warrants: eBanker has a right to be issued: risk-free rate of 5.65%, expected life of 10 years, a dividend yield of 0%; and volatility of 284%. It is anticipated that the value assigned to the warrants will be amortized straight-line over the remaining term of the loan, two years. The Company is currently in negotiations with eBanker to amend the part of the November 19, 2000 Financing Agreement related to the issuance of the 10,168,430 common stock warrants. The Company's objective is to obtain terms more favorable than those that presently exist. There can be no assurance that Global Med will be able to obtain terms more favorable or that Global Med will not have to issue the maximum number of warrants to eBanker.

In view of the Company's current cash position, financing activities, and projected cash flow, management believes the Company has the financial resources, or can obtain the financial resources, to maintain its planned level of operations for the next twelve months, although the Company anticipates that it may continue to incur operating losses, negative cash flows and capital expenditures during that period.

Global Med is currently pursuing alternative financing arrangements. The Company has entered into various agreements with third parties to either sell or contemplate the sale of unregistered securities of the Company. The securities generally either have been or will be offered for sale pursuant to the exemption from registration contained in Sections 4(2) of the United States Securities Act of 1933, as amended (the Act), and Rule 506 of Regulation D under the Act, and are offered only to accredited investors. No registration statement is intended to be filed with the United States Securities and Exchange Commission or with any other state securities commission.

RECENT ACCOUNTING PRONOUNCEMENTS

In July 2001 the Financial Accounting Standards Board issued Statement of Financial Accounting Standards (SFAS) No. 141, Business Combinations, and SFAS No. 142, Goodwill and Other Intangible Assets. These standards become effective for fiscal years beginning after December 15, 2001. Beginning in the first quarter of fiscal 2002, goodwill will no longer be amortized but will be subject to annual impairment tests. All other intangible assets will continue to be amortized over their estimated useful lives. The new rules also require business combinations initiated after June 30, 2001 to be accounted for using the purchase method of accounting and goodwill acquired after June 30, 2001 will not be amortized. The Company had no Goodwill at June 30, 2001, and the adoption of SFAS 141 and 142 are not expected to have a material impact on the Company's financial position or results of operations.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

Market risk as it relates to Global Med generally represents the risk of loss that may result from the potential change in the value of a financial instrument as a result of fluctuations in interest rates. Global Med is exposed to interest rate risk in its convertible notes payable. Interest rate risk results when the market rate of the debt instruments decreases for convertible notes payable. All of the Company's outstanding debt is with eBanker, a subsidiary of Global Med's parent Company. The Company attempts to reduce interest rate risk by negotiating terms on its debt with eBanker that are consistent with current market rates. As a result of Global Med's relationship with its parent companies and subsidiaries, the terms of the financing agreement may not be indicative of those that would have resulted if Global Med were unaffiliated with these entities.

PART II OTHER INFORMATION**Item 1. Legal Proceedings**

The Company is not a party to any legal proceedings which management believes to be material, and there are no such proceedings which are known to be contemplated. The foregoing notwithstanding, on September 8, 2000, a law suit was filed in the United States District Court for the Southern District of New York, Case No. 00 CIV. 6769, against certain shareholders and directors of the Company, including, eVision, eBanker, American Fronteer Financial Corporation (AFFC), Fai H. Chan, Tony T.W. Chan, Robert Trapp, Kwok Jen Fong, Jeffrey M. Busch, Gary L. Cook and other officers and directors of these entities for alleged misrepresentations and/or omissions of material facts in private offering memoranda, communications with shareholders, and in eVision's Annual Report on Form 10-K, in violation of Sections 10(b) and Rule 10b-5 of the Securities and Exchange Act of 1934. Among other items, the plaintiffs were seeking compensatory damages of no less than \$70 million. On March 19, 2001, the United States District Court dismissed the lawsuit in response to a Motion to Dismiss filed by the defendants on December 7, 2000. On July 12, 2001, the plaintiffs filed an appeal of the dismissal. The defendants intend to vigorously defend the appeal, if filed.

Item 2. Changes in Securities

None.

Item 4. Submission of matters to a vote of security holders

A Special Meeting of stockholders (Special Meeting) was held on April 16, 2001. The following proposals were also adopted at the Annual Meeting by the votes indicated:

Proposal	For	Against	Abstain
1. To approve and authorize the Company's Board of Directors to amend the Articles of Incorporation to increase the authorized shares of the Company to 100,000,000, of which 90,000,000 are to be Common Stock, \$.01 par value, and 10,000,000 are to be Preferred Stock, \$.01 par value.	17,525,264	762,039	13,398
2. To approve the 2001 Stock Option Plan with a maximum aggregate number of shares reserved for issuance thereunder of 15,000,000 shares of Common Stock and a term of ten years.	12,988,269	790,496	13,400

Edgar Filing: GLOBAL MED TECHNOLOGIES INC - Form 10-Q

3.	To approve the Amended and Restated 1997 Employee Stock Compensation Plan, increasing the maximum aggregate number of shares reserved for issuance thereunder to 1,000,000 shares of Common Stock.	13,045,759	733,916	12,490
----	--	------------	---------	--------

20

Proposal	For	Against	Abstain	
4.	To ratify the selection of Deloitte and Touche LLP as independent auditors of the Company for the year ended December 31, 2000.	18,269,609	19,044	12,048

Item 6. Exhibits and Reports on Form 8-K

- a) List of exhibits
None
- b) Reports on Form 8-K

A Current Report on Form 8-K dated May 31, 2001 was filed to report the dismissal of Deloitte & Touche LLP as the independent accountants for the Company and the appointment of Ehrhardt Keefe Steiner & Hottman PC as its independent accountants effective June 6, 2001.
