Table of Contents

CHOICE HOTELS INTERNATIONAL, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (UNAUDITED)

1. Company Information and Significant Accounting Policies

The accompanying unaudited consolidated financial statements of Choice Hotels International, Inc. and subsidiaries (together the "Company") have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission ("SEC"). These unaudited consolidated financial statements include all adjustments that are necessary, in the opinion of management, to fairly present our financial position and results of operations. Except as otherwise disclosed, all adjustments are of a normal recurring nature.

Certain information and footnote disclosures normally included in financial statements presented in accordance with accounting principles generally accepted in the United States of America ("GAAP") have been omitted. The year-end balance sheet information was derived from audited financial statements, but does not include all disclosures required by GAAP. The Company believes the disclosures made are adequate to make the information presented not misleading.

The consolidated financial statements should be read in conjunction with the consolidated financial statements for the year ended December 31, 2011 and notes thereto included in the Company's Form 10-K, filed with the SEC on February 29, 2012 (the "10-K"). Interim results are not necessarily indicative of the entire year results because of seasonal variations. All inter-company transactions and balances between Choice Hotels International, Inc. and its subsidiaries have been eliminated in consolidation.

The preparation of consolidated financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Certain amounts in the prior year's financial statements have been reclassified to conform to the current year presentation with no effect on previously reported net income, cash flows or shareholders' deficit.

Cash and Cash Equivalents

The Company considers all highly liquid investments purchased with a maturity of three months or less at the date of purchase to be cash equivalents. As of March 31, 2012 and December 31, 2011, \$3.2 million and \$4.4 million respectively, of book overdrafts representing outstanding checks in excess of funds on deposit are included in accounts payable in the accompanying consolidated balance sheets.

The Company maintains cash balances in domestic banks, which at times, may exceed the limits of amounts insured by the Federal Deposit Insurance Corporation. In addition, the Company also maintains cash balances in international banks which do not provide deposit insurance.

Recently Adopted Accounting Guidance

The Company adopted Accounting Standards Update ("ASU") No. 2011-08, "Intangibles - Goodwill and Other (Topic 350): Testing Goodwill for Impairment" ("ASU No. 2011-08") in the first quarter of 2012. The guidance, which was issued in September 2011, reduces the complexity and costs by allowing an entity the option to make a qualitative evaluation about the likelihood of goodwill impairment to determine whether it should calculate the fair value of a reporting unit. The amendment improves previous guidance by expanding upon the examples of events and circumstances that an entity should consider between annual impairment tests in determining whether it is more likely than not that the fair value of a reporting unit is less than its carrying amount. Furthermore, the amendment improves the examples of events and circumstances that an entity having a reporting unit with a zero or negative carrying amount should consider in determining whether to measure an impairment loss, if any, under the second step of the goodwill impairment test. The Company performs its annual goodwill impairment test in the fourth quarter and does not expect the adoption of this ASU to significantly impact its consolidated financial statements.

The Company adopted ASU No. 2011-05 "Comprehensive Income (Topic 220): Presentation of Comprehensive Income" ("ASU No. 2011-05") in the first quarter of 2012. ASU No. 2011-05, which was issued in June 2011, amends existing guidance by allowing only two options for presenting the components of net income and other comprehensive income: (1) in a single continuous financial statement, statement of comprehensive income or (2) in two separate but

consecutive financial statements, consisting of an income statement followed by a separate statement of other comprehensive income.

Table of Contents

Additionally, the Company adopted ASU No. 2011-12, "Deferral of the Effective Date for Amendments to the Presentation of Reclassifications of Items Out of Accumulated Other Comprehensive Income in Accounting Standards Update No. 2011-05" ("ASU 2011-12"), which was issued in December 2011. ASU 2011-12 defers until further notice ASU No. 2011-05's requirement that items that are reclassified from other comprehensive income to net income be presented on the face of the financial statements. ASU No. 2011-05 required retrospective application. The Company has elected to present other comprehensive income in a separate statement following the consolidated statements of income.

The Company adopted ASU No. 2011-04 "Fair Value Measurement (Topic 820): Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRSs" ("ASU No. 2011-04") in the first quarter of 2012. ASU No. 2011-04 generally provides a uniform framework for fair value measurements and related disclosures between U.S. GAAP and International Financial Reporting Standards ("IFRS"). Additional disclosure requirements in the update include: (1) for Level 3 fair value measurements, quantitative information about unobservable inputs used, a description of the valuation processes used by the entity, and a qualitative discussion about the sensitivity of the measurements to changes in the unobservable inputs; (2) for an entity's use of a non-financial asset that is different from the asset's highest and best use, the reason for the difference; (3) for financial instruments not measured at fair value but for which disclosure of fair value is required, the fair value hierarchy level in which the fair value measurements were determined; and (4) the disclosure of all transfers between Level 1 and Level 2 of the fair value hierarchy. The adoption of this update did not have a material impact on our financial statements.

2. Other Current Assets

Other current assets consist of the following:

	March 31, 2012	December 31, 2011
	(In thousands)	
Land held for sale	\$10,158	\$10,141
Prepaid expenses	9,607	8,202
Notes receivable (See Note 3)	6,384	3,104
Other current assets	2,486	1,186
Total	\$28,635	\$22,633

Land held for sale represents the Company's purchase of various parcels of real estate as part of its program to incent franchise development in strategic markets for certain brands. The Company has acquired this real estate with the intent to resell it to third-party developers for the construction of hotels operated under the Company's brands. The real estate is accounted for as assets held for sale and therefore is carried at the lower of its carrying value or its estimated fair value (based on comparable sales), less estimated costs to sell.

3. Notes Receivable and Allowance for Losses

The Company segregates its notes receivable for the purposes of evaluating allowances for credit losses between two categories: Mezzanine and Other Notes Receivable and Forgivable Notes Receivable. The Company utilizes the level of security it has in the various notes receivable as its primary credit quality indicator (i.e. senior, subordinated or unsecured) when determining the appropriate allowances for uncollectible loans within these categories.

Table of Contents

The following table shows the composition of our notes receivable balances:

Credit Quality Indicator	March 31, 2012 (\$ in thousands)			December 31, 2011 (\$ in thousands)		
	Forgivable Notes Receivable	Mezzanine & Other Notes Receivable	Total	Forgivable Notes Receivable	Mezzanine & Other Notes Receivable	Total
Senior	\$—	\$11,089	\$11,089	\$—	\$7,900	\$7,900
Subordinated	—	14,003	14,003	—	13,992	13,992
Unsecured	7,700	—	7,700	7,948	—	7,948
Total notes receivable	7,700	25,092	32,792	7,948	21,892	29,840
Allowance for losses on non-impaired loans	785	92	877	795	225	1,020
Allowance for losses on receivables specifically evaluated for impairment	—	8,315	8,315	—	8,208	8,208
Total loan reserves	785	8,407	9,192	795	8,433	9,228
Net carrying value	\$6,915	\$16,685	\$23,600	\$7,153	\$13,459	\$20,612
Current portion, net	\$137	\$6,247	\$6,384	\$102	\$3,002	\$3,104
Long-term portion, net	6,778	10,438	17,216	7,051	10,457	17,508
Total	\$6,915	\$16,685	\$23,600	\$7,153	\$13,459	\$20,612

The Company classifies notes receivable due within one year as other current assets and notes receivable with a maturity greater than one year as other assets in the Company's consolidated balance sheets.

The following table summarizes the activity related to the Company's Forgivable Notes Receivable and Mezzanine and & Other Notes Receivable allowance for losses from December 31, 2011 through March 31, 2012:

	Forgivable Notes Receivable (In thousands)	Mezzanine & Other Notes Receivable
Balance, December 31, 2011	\$795	\$8,433
Provisions	52	—
Recoveries	(16)	(26)
Write-offs	(56)	—
Other ⁽¹⁾	10	—
Balance, March 31, 2012	\$785	\$8,407

(1) Consists of default rate assumption changes
Forgivable Notes Receivable

As of March 31, 2012 and December 31, 2011, the unamortized balance of the Company's forgivable notes receivable totaled \$7.7 million and \$7.9 million, respectively. The Company recorded an allowance for credit losses on these forgivable notes receivable of \$0.8 million at both March 31, 2012 and December 31, 2011, respectively. At March 31, 2012 and December 31, 2011, the Company did not have any forgivable unsecured notes that were past due. Amortization expense included in the accompanying consolidated statements of income related to the notes was \$0.6 million and \$0.5 million for the three months ended March 31, 2012 and 2011, respectively.

Table of Contents

Mezzanine and Other Notes Receivable

The Company has determined that approximately \$12.6 million and \$11.2 million of its mezzanine and other notes receivable were impaired at March 31, 2012 and December 31, 2011, respectively. The Company has recorded allowance for credit losses on these impaired loans at March 31, 2012 and December 31, 2011 totaling \$8.4 million and \$8.2 million resulting in a carrying value of impaired loans of \$4.3 million and \$3.0 million, respectively for which we had no related allowance for credit losses. The Company recognized approximately \$31 thousand of interest income on impaired loans during the three months ended March 31, 2012 on the cash basis. The Company did not recognize any interest on an accrual or cash basis on its impaired loans during the three months ended March 31, 2011. The Company had provided loan reserves on non-impaired loans totaling \$0.1 million and \$0.2 million at March 31, 2012 and December 31, 2011, respectively.

Past due balances of mezzanine and other notes receivable by credit quality indicators are as follows:

	30-89 days Past Due (\$ in thousands)	> 90 days Past Due	Total Past Due	Current	Total Receivables
As of March 31, 2012					
Senior	\$—	\$—	\$—	\$11,089	\$11,089
Subordinated	162	9,748	9,910	4,093	14,003
	\$162	\$9,748	\$9,910	\$15,182	\$25,092
As of December 31, 2011					
Senior	\$—	\$—	\$—	\$7,900	\$7,900
Subordinated	—	9,773	9,773	4,219	13,992
	\$—	\$9,773	\$9,773	\$12,119	\$21,892

Loans Acquired with Deteriorated Credit Quality

On December 2, 2011, the Company acquired an \$11.5 million mortgage, held on a franchisee hotel asset, from a financial institution for \$7.9 million. At both March 31, 2012 and December 31, 2011, the carrying amount of this loan, which is reported under senior mezzanine and other notes receivables, was \$7.9 million and there was no allowance for uncollectable amounts. The Company's accretable yield at acquisition was \$1.8 million or 7.36% and a reconciliation of the accretable yield for the three months ended March 31, 2012 is as follows:

	Accretable Yield (\$ in thousands)
Balance, December 31, 2011	\$1,793
Additions	—
Accretion	(145)
Disposals	—
Reclassifications from nonaccretable yield	—
Balance, March 31, 2012	\$1,648

4. Receivable – Marketing and Reservation Fees

The marketing fees receivable from cumulative marketing expenses incurred in excess of cumulative marketing fees earned at March 31, 2012 and December 31, 2011 was \$23.1 million and \$18.5 million, respectively. As of March 31, 2012 and December 31, 2011, the reservation fees receivable related to cumulative reservation expenses incurred in excess of cumulative reservation fees earned was \$40.6 million and \$35.5 million, respectively. Depreciation and amortization expense attributable to marketing and reservation activities for the three months ended March 31, 2012 and 2011 was \$3.5 million and \$3.2 million, respectively. Interest expense attributable to marketing and reservation activities was \$1.2 million and \$1.0 million for the three months ended March 31, 2012 and 2011, respectively.

The Company evaluates the receivable for marketing and reservation costs in excess of cumulative marketing and reservation system revenues earned on a periodic basis for collectibility. The Company will record an allowance when, based on current information and events, it is probable that it will be unable to collect all amounts due for marketing and reservation activities according to the contractual terms of the franchise agreements. The receivables are considered to be uncollectible if the

Table of Contents

expected net, undiscounted cash flows from marketing and reservation activities are less than the carrying amount of the asset. Based on the Company's analysis of projected net cash flows from marketing and reservation activities for all periods presented, the Company concluded that the receivable for marketing and reservation activities was fully collectible and as a result no allowance for possible losses was recorded.

5. Other Assets

Other assets consist of the following:

	March 31, 2012	December 31, 2011
	(In thousands)	
Notes receivable (see Note 3)	\$17,216	\$17,508
Equity method investments	6,898	4,338
Deferred financing fees	3,173	3,351
Land held for sale	1,300	1,300
Other	2,586	2,787
Total	\$31,173	\$29,284

During the first quarter of 2011, the Company determined that one parcel of land no longer met the criteria to be classified as a current asset held for sale. As a result, the Company reclassified this land to other long-term assets on the Company's consolidated balance sheets at the lower of its carrying amount or fair value. The Company determined that the carrying amount of the land exceeded its estimated fair value by approximately \$1.8 million based on comparable sales. As a result, in the first quarter of 2011, the Company reduced the carrying amount of the land to its estimated fair value and recognized a \$1.8 million loss in other gains and losses in the consolidated statements of income.

Description	Fair Value Measurements Using (\$ in millions)				
	March 31, 2012	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total Gains (Losses)
Land held for sale	\$ 1.3	\$ —	\$ 1.3	\$ —	\$(1.8)

6. Deferred Revenue

Total debt	\$258,459	\$252,705
Less current portion	679	673
Total long-term debt	\$257,780	\$252,032
On February 24, 2011, the Company entered into a new \$300 million senior unsecured revolving credit agreement (the “Revolver”) with Wells Fargo Bank, National Association, as administrative agent and a syndicate of lenders. Simultaneously with the closing of the Revolver, the \$350 million unsecured revolving credit agreement dated as of June 2006 (the “Old Revolver”) was terminated. The Revolver provides for a \$300 million unsecured revolving credit facility with a final maturity date on February 24, 2016. Up to \$30 million of borrowings under the Revolver may be used for letters of credit and up to \$20 million of borrowings under the Revolver may be used for swing-line loans. The Revolver is unconditionally guaranteed, jointly and severally, on a senior unsecured basis by all of the Company's subsidiaries that currently guaranty the obligations under the Company's Indenture governing the terms of its 5.70% senior notes due 2020.		
The Company may at any time prior to the final maturity date increase the amount of the Revolver by up to an additional \$150 million to the extent that any one or more lenders commit to being a lender for the additional amount and certain other customary conditions are met.		
The Company may elect to have borrowings under the Revolver bear interest at (i) a base rate plus a margin ranging from 5 to 80 basis points based on the Company's credit rating or (ii) LIBOR plus a margin ranging from 105 to 180 basis points based on the Company's credit rating. In addition, the Revolver requires the Company to pay a quarterly facility fee on the full amount of the commitments under the Revolver (regardless of usage) ranging from 20 to 45 basis points based upon the credit rating of the Company.		
The Revolver requires that the Company and its restricted subsidiaries comply with various covenants, including with respect to restrictions on liens, incurring indebtedness, making investments and effecting mergers and/or asset sales. In addition, the Revolver imposes financial maintenance covenants requiring the Company to maintain a total leverage ratio of not more than 3.5 to 1.0 and an interest coverage ratio of at least 3.5 to 1.0. The Revolver includes customary events of default, the occurrence of which, following any applicable cure period, would permit the lenders to, among other things, declare the principal, accrued interest and other obligations of the Company under the Revolver to be immediately due and payable. At March 31, 2012 the Company was in compliance with all covenants under the Revolver.		
The proceeds of the Revolver are used for general corporate purposes, including working capital, debt repayment, stock repurchases, dividends, investments and other permitted uses. At March 31, 2012, the Company had \$5.9 million outstanding under the Revolver.		
On August 25, 2010, the Company completed a \$250 million senior unsecured note offering (“the Senior Notes”) at a discount of \$0.6 million, bearing a coupon of 5.7% with an effective rate of 6.19%. The Senior Notes will mature on August 28, 2020, with interest on the Senior Notes to be paid semi-annually on February 28 th and August 28 th . The Company used the net proceeds from the offering, after deducting underwriting discounts and other offering expenses, to repay outstanding borrowings under the Old Revolver and other general corporate purposes. The Company's Senior Notes are guaranteed jointly, severally, fully and unconditionally, subject to certain customary limitations by eight 100%-owned domestic subsidiaries.		

8. Pension Plan

The Company sponsors an unfunded non-qualified defined benefit plan ("SERP") for certain senior executives. No assets are held with respect to the SERP; therefore benefits are funded as paid to participants. For each of the three months ended March 31, 2012 and 2011, the Company recorded \$0.2 million and \$0.1 million, respectively, in expenses related to the SERP which are included in selling general and administrative ("SG&A") expense in the accompanying consolidated statements of

Table of Contents

income.

On December 26, 2011, the Company's board of directors approved the termination of the SERP effective immediately. The Company will effectuate the termination of the SERP through the payment of lump sum distributions to all SERP participants based upon the actuarial equivalent commuted lump sum value of the full accrued benefit earned by each such participant, using the actuarial and other assumptions that have not yet been determined. The Company expects to complete the settlement of the plan benefits prior to December 31, 2012. Based on the assumptions chosen to calculate the lump sum value of distributions, the actual settlement of the SERP liability may differ from the Company's current estimate of the projected benefit obligation which totals \$11.9 million resulting in a settlement gain or loss in 2012.

The following table presents the components of net periodic benefit costs for the three months ended March 31, 2012 and 2011:

(In thousands)	Three Months Ended	
	March 31, 2012	2011
Components of net periodic pension cost:		
Interest cost	\$132	\$135
Amortization of actuarial loss	32	—
Net periodic pension cost	\$164	\$135

Table of Contents

The 2012 net periodic pension costs are expected to be approximately \$0.7 million. The components of projected pension costs for the year ended December 31, 2012 are as follows:

(in thousands)

Components of net periodic pension cost:

Interest cost	\$526
Amortization of actuarial loss	128
Net periodic pension cost	\$654

The following is a reconciliation of the changes in the projected benefit obligation for the three months ended March 31, 2012:

Projected benefit obligation, December 31, 2011	\$11,896
Interest cost	132
Benefit payments	(111)
Projected benefit obligations, March 31, 2012	\$11,917

The amounts in accumulated other comprehensive income (loss) that have not yet been recognized as components of net periodic benefit costs at March 31, 2012 are as follows:

(in thousands)

Transition asset (obligation)	\$—
Prior service cost	—
Accumulated loss	(2,343)
Total	\$(2,343)

9. Non-Qualified Retirement, Savings and Investment Plans

The Company sponsors two non-qualified retirement savings and investment plans for certain employees and senior executives. Employee and Company contributions are maintained in separate irrevocable trusts. Legally, the assets of the trusts remain those of the Company; however, access to the trusts' assets is severely restricted. The trusts' cannot be revoked by the Company or an acquirer, but the assets are subject to the claims of the Company's general creditors. The participants do not have the right to assign or transfer contractual rights in the trusts.

In 2002, the Company adopted the Choice Hotels International, Inc. Executive Deferred Compensation Plan ("EDCP") which became effective January 1, 2003. Under the EDCP, certain executive officers may defer a portion of their salary into an irrevocable trust. Prior to January 1, 2010, participants could elect an investment return of either the annual yield of the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points, or a return based on a selection of available diversified investment options. Effective January 1, 2010, the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points is no longer an investment option for salary deferrals made on compensation earned after December 31, 2009. The Company recorded current and long-term deferred compensation liabilities of \$15.6 million and \$17.2 million, as of March 31, 2012 and December 31, 2011, respectively, related to these deferrals and credited investment returns. Compensation expense is recorded in SG&A expense on the Company's consolidated statements of income based on the change in the deferred compensation obligation related to earnings credited to participants as well as changes in the fair value of diversified investments. Compensation expense recorded in SG&A for the three months ended March 31, 2012 and 2011 was \$0.4 million and \$0.3 million respectively.

The Company has invested the employee salary deferrals in diversified long-term investments which are intended to provide investment returns that partially offset the earnings credited to the participants. The diversified investments held in the trusts totaled \$7.4 million and \$14.2 million as of March 31, 2012 and December 31, 2011, respectively, and are recorded at their fair value, based on quoted market prices. At March 31, 2012, the Company expects \$5.2 million of the assets held in the trust to be distributed during the year ended December 31, 2012 to participants. These investments are considered trading securities and therefore the changes in the fair value of the diversified assets is

included in other gains and losses in the accompanying statements of income. The Company recorded investment gains during the three months ended March 31, 2012 and 2011 of approximately \$1.1 million and \$0.4 million, respectively.

Table of Contents

In 1997, the Company adopted the Choice Hotels International, Inc. Non-Qualified Retirement Savings and Investment Plan ("Non-Qualified Plan"). The Non-Qualified Plan allows certain employees who do not participate in the EDCP to defer a portion of their salary and invest these amounts in a selection of available diversified investment options. As of March 31, 2012 and December 31, 2011, the Company had recorded a deferred compensation liability of \$11.3 million and \$10.4 million, respectively related to these deferrals. Compensation expense is recorded in SG&A expense on the Company's consolidated statements of income based on the change in the deferred compensation obligation related to earnings credited to participants as well as changes in the fair value of diversified investments. The net increase in compensation expense recorded in SG&A for the three months ended March 31, 2012 and 2011 was \$0.9 million and \$0.3 million respectively.

The diversified investments held in the trusts were \$10.5 million and \$9.5 million as of March 31, 2012 and December 31, 2011, respectively, and are recorded at their fair value, based on quoted market prices. These investments are considered trading securities and therefore the changes in the fair value of the diversified assets is included in other gains and losses in the accompanying statements of income. The Company recorded investment gains during the three months ended March 31, 2012 and 2011 of approximately \$0.9 million and \$0.3 million, respectively. In addition, the Non-Qualified Plan held shares of the Company's common stock with a market value of \$0.9 million at both March 31, 2012 and December 31, 2011, respectively, which are recorded as a component of shareholders' deficit.

10. Fair Value Measurements

The Company estimates the fair value of its financial instruments utilizing a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value. The following summarizes the three levels of inputs, as well as the assets that the Company values using those levels of inputs.

Level 1: Quoted prices in active markets for identical assets and liabilities. The Company's Level 1 assets consist of marketable securities (primarily mutual funds) held in the Company's EDCP and Non-Qualified Plan deferred compensation plans.

Level 2: Observable inputs, other than quoted prices in active markets for identical assets and liabilities, such as quoted prices for similar assets and liabilities; quoted prices in markets that are not active; or other inputs that are observable. The Company's Level 2 assets consist of money market funds held in the Company's EDCP and Non-Qualified Plan deferred compensation plans and those recorded in cash and cash equivalents.

Level 3: Unobservable inputs, supported by little or no market data available, where the reporting entity is required to develop its own assumptions to determine the fair value of the instrument. The Company does not currently have any assets whose fair value was determined using Level 3 inputs.

As of March 31, 2012 and December 31, 2011, the Company had the following assets measured at fair value on a recurring basis:

	Fair Value Measurements at Reporting Date Using			
	Total	Level 1	Level 2	Level 3
Assets (in thousands)				
As of March 31, 2012				
Money market funds, included in cash and cash equivalents	\$20,001	\$—	\$20,001	\$—
Mutual funds ⁽¹⁾	11,599	11,599	—	—
Money market funds ⁽¹⁾	6,267	—	6,267	—
	\$37,867	\$11,599	\$26,268	\$—
As of December 31, 2011				
Money market funds, included in cash and cash equivalents	\$20,001	\$—	\$20,001	\$—
Mutual funds ⁽¹⁾	21,534	21,534	—	—

Money market funds ⁽¹⁾	2,238	—	2,238	—
	\$43,773	\$21,534	\$22,239	\$—

(1) Included in Investments, employee benefit plans fair value on the consolidated balance sheets. During the three months ended March 31, 2012, the Company sold approximately \$11.8 million of mutual funds (Level 1 assets) held in the employee benefit plan trusts. Approximately \$8.4 million of these assets were distributed from the

Table of Contents

irrevocable trust with the remaining \$3.4 million transferred to money market funds (Level 2 assets). The Company's policy is to recognize transfers in and transfers out of the three levels of the fair value hierarchy as of the end of each quarterly reporting period.

Other Financial Instruments

The Company believes that the fair value of its current assets and current liabilities approximate their reported carrying amounts due to the short-term nature of these items. In addition, the interest rates of the Company's Revolver adjust frequently based on current market rates; accordingly its carrying amount approximates fair value.

We estimated the fair value of notes receivable which approximate their carrying value, utilizing an analysis of future cash flows and credit worthiness for similar types of arrangements. Based upon the availability of market data, we have classified these notes receivables as Level 3 inputs. The primary sensitivity in these calculations is based on the selection of appropriate interest and discount rates. For further information on the notes receivables see Note 3.

The Company estimates the fair value of its senior notes using quoted market prices, which are directly observable Level 1 inputs. At March 31, 2012 and December 31, 2011, the senior notes had an approximate fair value of \$261.7 million and \$267.7 million, respectively.

Fair values estimated are made at a specific point in time, are subjective in nature and involve uncertainties and matters of significant judgment. Settlement of such fair value amounts may not be possible and may not be a prudent management decision.

11. Income Taxes

The effective income tax rate for the quarter was 33.9% compared to 28.2% for the three months ended March 31, 2012 and 2011, respectively. The effective income tax rate for the first quarter 2011 reflects a nonrecurring adjustment of \$1.4 million to our current federal taxes payable.

12. Share-Based Compensation and Capital Stock**Stock Options**

The Company granted 0.2 million and 0.2 million options to certain employees of the Company at a fair value of \$1.6 million and \$2.1 million for the three months ended March 31, 2012 and 2011, respectively. The stock options granted by the Company had an exercise price equal to the market price of the Company's common stock on the date of grant. The fair value of the options granted was estimated on the grant date using the Black-Scholes option-pricing model with the following weighted average assumptions:

	2012 Grants	2011 Grants	
Risk-free interest rate	0.78	% 2.10	%
Expected volatility	40.15	% 39.51	%
Expected life of stock option	4.4 years	4.4 years	
Dividend yield	2.08	% 1.79	%
Requisite service period	4 years	4 years	
Contractual life	7 years	7 years	
Weighted average fair value of options granted	\$9.98	\$12.42	

The expected life of the options and volatility are based on historical data and are not necessarily indicative of exercise patterns or actual volatility that may occur. Historical volatility is calculated based on a period that corresponds to the expected life of the stock option. The dividend yield and the risk-free rate of return are calculated on the grant date based on the then current dividend rate and the risk-free rate of return for the period corresponding to the expected life of the stock option. Compensation expense related to the fair value of these awards is recognized

straight-line over the requisite service period based on those awards that ultimately vest.

The aggregate intrinsic value of the stock options outstanding and exercisable at March 31, 2012 was \$8.2 million and \$6.2

Table of Contents

million, respectively. The total intrinsic value of options exercised during the three months ended March 31, 2012 and 2011 was approximately \$0.4 million and \$1.7 million, respectively.

The Company received approximately \$0.4 million and \$2.2 million in proceeds from the exercise of 0.02 million and 0.1 million employee stock options during the three month periods ended March 31, 2012 and 2011, respectively.

Table of Contents

Restricted Stock

The following table is a summary of activity related to restricted stock grants:

	Three Months Ended March 31,	
	2012	2011
Restricted share grants	238,019	180,645
Weighted average grant date fair value per share	\$35.70	\$41.25
Aggregate grant date fair value (\$000)	\$8,497	\$7,452
Restricted shares forfeited	4,328	5,806
Vesting service period of shares granted	36 - 68 months	36 - 48 months
Grant date fair value of shares vested (\$000)	\$5,013	\$4,831

Compensation expense related to the fair value of these awards is recognized straight-line over the requisite service period based on those restricted stock grants that ultimately vest. The fair value of grants is measured by the market price of the Company's stock on the date of grant. Restricted stock awards generally vest ratably over the service period beginning with the first anniversary of the grant date. Awards granted to retirement eligible board of directors are recognized over the shorter of the requisite service period or the length of time until retirement since the terms of the grant provide that the awards will vest upon retirement.

Performance Vested Restricted Stock Units

The Company has granted performance vested restricted stock units ("PVRSU") to certain employees. The fair value is measured by the market price of the Company's common stock on the date of the grant. The vesting of these stock awards is contingent upon the Company achieving performance targets at the end of specified performance periods and the employees' continued employment. The performance conditions affect the number of shares that will ultimately vest. The range of possible stock-based award vesting is generally between 0% and 200% of the initial target. If a minimum of 50% of the performance target is not attained then no awards will vest under the terms of the various PVRSU agreements. Compensation expense related to these awards is recognized over the requisite service period based on the Company's estimate of the achievement of the various performance targets. The Company has currently estimated that between 0% and 130% of the various award targets will be achieved. Compensation expense is recognized ratably over the requisite service period only on those PVRSUs that ultimately vest.

The following table is a summary of activity related to PVRSU grants:

	Three Months Ended March 31,	
	2012	2011
Performance vested restricted stock units granted at target	38,476	25,036
Weighted average grant date fair value per share	\$35.60	\$41.25
Aggregate grant date fair value (\$000)	\$1,370	\$1,033
Stock units forfeited	—	39,070
Requisite service period	3 years	3 years

During the three months ended March 31, 2012, no PVRSU grants vested. During the three months ended March 31, 2011, PVRSU grants totaling 39,070 units were forfeited since the Company did not achieve the minimum performance conditions contained in the stock awards.

Table of Contents

A summary of stock-based award activity as of March 31, 2012 and changes during the three months ended are presented below:

	Stock Options			Restricted Stock		Performance Vested Restricted Stock Units	
	Options	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Shares	Weighted Average Grant Date Fair Value	Shares	Weighted Average Grant Date Fair Value
Outstanding at January 1, 2012	1,573,726	\$33.30		565,627	\$34.43	109,769	\$35.57
Granted	160,408	35.60		238,019	35.70	38,476	35.60
Exercised/Vested	(20,216)	19.25		(149,708)	33.49	—	—
Forfeited/Expired	(3,161)	37.46		(4,328)	36.28	—	—
Outstanding at March 31, 2012	1,710,757	\$33.68	4.6 years	649,610	\$35.10	148,245	\$35.58
Options exercisable at March 31, 2012	1,163,843	\$33.30	3.8 years				

The components of the Company's pretax stock-based compensation expense and associated income tax benefits are as follows for the three months ended March 31, 2012 and 2011:

	Three Months Ended March 31,	
(in millions)	2012	2011
Stock options	\$0.6	\$0.6
Restricted stock	2.0	1.7
Performance vested restricted stock units	0.2	0.1
Total	\$2.8	\$2.4
Income tax benefits	\$1.0	\$0.9
Dividends		

On February 20, 2012, the Company's board of directors declared a cash dividend of \$0.185 per share (or approximately \$10.7 million in the aggregate), which was paid on April 16, 2012 to shareholders of record as of April 2, 2012.

On February 21, 2011, the Company's board of directors declared a cash dividend of \$0.185 per share (or approximately \$11.0 million in the aggregate), which was paid on April 15, 2011 to shareholders of record as of April 1, 2011.

Share Repurchases and Redemptions

During the three months ended March 31, 2012, the Company purchased 0.3 million shares of common stock under the share repurchase program at a total cost of \$12.9 million. No shares of common stock were purchased by the Company under the share repurchase program during the three months ended March 31, 2011.

During the three months ended March 31, 2012, the Company redeemed 55,162 shares of common stock at a total cost of approximately \$2.0 million from employees to satisfy statutory minimum tax requirements from the vesting of restricted stock grants. During the three months ended March 31, 2011, the Company redeemed 55,295 shares of common stock at a total cost of approximately \$2.2 million from employees to satisfy statutory minimum tax requirements from the vesting of restricted stock grants. These redemptions were outside the share repurchase program initiated in June 1998.

Table of Contents

13. Earnings Per Share

The computation of basic and diluted earnings per common share is as follows:

(In thousands, except per share amounts)	Three Months Ended	
	March 31,	
	2012	2011
Computation of Basic Earnings Per Share:		
Net income	\$ 19,997	\$ 15,730
Income allocated to participating securities	(204) (156
Net income available to common shareholders	\$ 19,793	\$ 15,574
Weighted average common shares outstanding – basic	57,622	59,081
Basic earnings per share	\$0.34	\$0.26
Computation of Diluted Earnings Per Share:		
Net income	\$ 19,997	\$ 15,730
Income allocated to participating securities	(204) (156
Net income available to common shareholders	\$ 19,793	\$ 15,574
Weighted average common shares outstanding – basic	57,622	59,081
Diluted effect of stock options and PVRsUs	100	151
Weighted average shares outstanding-diluted	57,722	59,232
Diluted earnings per share	\$0.34	\$0.26

The Company's unvested restricted shares contain rights to receive non-forfeitable dividends, and thus are participating securities requiring the two-class method of computing earnings per share ("EPS"). The calculation of EPS for common stock shown above excludes the income attributable to the unvested restricted share awards from the numerator and excludes the dilutive impact of those awards from the denominator.

At March 31, 2012 and 2011, the Company had 1.7 million and 1.8 million outstanding stock options, respectively. Stock options are included in the diluted earnings per share calculation using the treasury stock method and average market prices during the period, unless the stock options would be anti-dilutive. For both the three month periods ended March 31, 2012 and March 31, 2011, the Company excluded 0.4 million of anti-dilutive stock options from the diluted earnings per share calculation.

PVRsUs are also included in the diluted earnings per share calculation assuming the performance conditions have been met at the reporting date. However, at March 31, 2012 and 2011, PVRsUs totaling 148,245 and 113,878, respectively were excluded from the computation since the performance conditions had not been met.

Table of Contents

14. Condensed Consolidating Financial Statements

Effective August 2010, the Company's Senior Notes are guaranteed jointly, severally, fully and unconditionally, subject to certain customary limitations, by eight 100%-owned domestic subsidiaries. There are no legal or regulatory restrictions on the payment of dividends to Choice Hotels International, Inc. from subsidiaries that do not guarantee the Senior Notes. As a result of the guarantee arrangements, the following condensed consolidating financial statements are presented. Investments in subsidiaries are accounted for under the equity method of accounting.

Table of Contents**15. Reportable Segment Information**

The Company has a single reportable segment encompassing its franchising business. Revenues from the franchising business include royalty fees, initial franchise and relicensing fees, marketing and reservation system fees, procurement services revenue and other revenue. The Company is obligated under its franchise agreements to provide marketing and reservation services appropriate for the operation of its systems. These services do not represent separate reportable segments as their operations are directly related to the Company's franchising business. The revenues received from franchisees that are used to pay for part of the Company's ongoing operations are included in franchising revenues and are offset by the related expenses paid for marketing and reservation activities to calculate franchising operating income. Corporate and other revenue consists of hotel operations. Except as described in Note 4, the Company does not allocate interest income, interest expense or income taxes to its franchising segment.

The following table presents the financial information for the Company's franchising segment:

(In thousands)	Three Months Ended March 31, 2012			Three Months Ended March 31, 2011		
	Franchising	Corporate & Other	Consolidated	Franchising	Corporate & Other	Consolidated
Revenues	\$128,191	\$978	\$129,169	\$114,417	\$864	\$115,281
Operating income (loss)	\$44,352	\$(13,287)	\$31,065	\$36,077	\$(10,398)	\$25,679
Income (loss) before income taxes	\$44,297	\$(14,064)	\$30,233	\$34,611	\$(12,688)	\$21,923

16. Commitments and Contingencies

The Company is a defendant in a number of lawsuits arising in the ordinary course of business. In the opinion of management and the Company's legal counsel, the ultimate outcome of any such lawsuit individually or collectively will not have a material adverse effect on the Company's business, financial position, results of operations or cash flows.

During 2011, the Company filed suit in United States District Court against a franchisee for breach of contract, trademark infringement, fraudulent inducement and negligent misrepresentation. The franchisee filed an arbitration action against the Company alleging wrongful termination of its franchise agreements. The parties agreed to litigate all claims in an arbitration action which was settled on April 4, 2012. The settlement of the arbitration action did not have a material impact on the Company's financial statements.

The Company has the following commitments outstanding:

The Company occasionally provides financing in the form of forgivable promissory notes or cash incentives to franchisees for property improvements, hotel development efforts and other purposes. At March 31, 2012, the Company had commitments to extend an additional \$6.7 million for these purposes provided certain conditions are met by its franchisees, of which \$2.8 million is expected to be advanced in the next twelve months.

The Company has entered into a joint venture agreement whereby it has committed, subject to the satisfaction of certain contingencies, to make an initial capital contribution of \$3.0 million for a 25.5% ownership interest. The Company expects to fund this commitment within the next three years.

The Company has a \$1.0 million loan commitment, provided certain conditions are met by the borrower, related to the construction of a hotel under one of the Company's brands. The commitment is expected to be funded in the next twelve months.

The Company has invested \$2.6 million in a joint venture and has a commitment to invest an additional \$2.6 million which is expected to be funded completely in 2012.

On July 11, 2011, Choice Hotels International Services Corp., a wholly-owned subsidiary of the Company, as tenant, and F.P. Rockville II Limited Partnership (the "Landlord"), as landlord, executed an Office Lease (the "Lease") for office space to which the Company intends to relocate its corporate headquarters. The obligations of the tenant under the Lease have been guaranteed by the Company. The relocation is expected to occur upon construction of an office

building, completion of other improvements to the property and building, and satisfaction of other conditions and contingencies set forth in the Lease, including significant conditions related to the scope and timing of the construction, development and permitting of the office

Table of Contents

building.

The target commencement date for the Lease, which is the date on which the Company will take occupancy of its leased premises for purposes of commencing an interior fit-out of the premises, is December 1, 2012. The target rent commencement date for the Lease, which is the date on which the Company will begin to make rental payments to the Landlord under the Lease, is June 1, 2013. The Lease runs for an initial term of 10 years from the rent commencement date. The leased premises will consist of approximately 138,000 square feet of office space in a to-be constructed office building located in Rockville, Maryland (the "Building"). The Company has an option to extend the Lease beyond the initial term for up to 15 years at then-current fair market rent.

As part of the consideration to the Company for execution of the Lease, the Landlord agreed to provide the Company, during the Lease term, a cash flow participation and preference in the cash flow of the Landlord ("Cash Flow Participation"). The Cash Flow Participation is equal to the greater of: (1) \$1.58 times the total rentable square feet of the initial Leased Premises along with any creditable square footage, each determined one-time only as of the Rent Commencement Date, per lease year ("Fixed Payment Amount"), or (2) seven percent (7%) of the annual distributable cash flow (as defined in the Lease) including excess proceeds of sale or refinancing, provided, however, in the event the distributable cash flow is less than the Fixed Payment Amount in any lease year, such shortfall shall accrue and earn interest at six percent (6%) compounded annually to be paid out from the next available cash flow. The Cash Flow Participation shall be payable in arrears not later than July 31 (beginning July 31, 2014) for the preceding Lease year. The Cash Flow Participation shall continue during the Lease and any extension options unless the Landlord no longer owns the Building, the Company is in default under the Lease or the Company no longer leases at least four floors of the building for office use.

No rent is due under the Lease until the rent commencement date, which is currently targeted to occur on or about June 1, 2013. Thereafter, the annual rent is established at a specific minimum amount and is re-set to a new minimum amount each year. Subject to one or more applicable adjustments set forth in the Lease, the Company's minimum annual rent amount, without set-off, deduction for improvement allowances or abatement of any kind, during the initial term ranges from approximately \$5.5 million during the initial year to approximately \$7.6 million during the final year. During the initial 10-year term of the Lease, the minimum expected rent payments by the Company are expected to be approximately \$67.6 million. In addition, beginning on or about the first anniversary of the rent commencement date, the Company is obligated to pay its proportionate share of increases in the cost of operating, managing and maintaining the Building.

In the ordinary course of business, the Company enters into numerous agreements that contain standard indemnities whereby the Company indemnifies another party for breaches of representations and warranties. Such indemnifications are granted under various agreements, including those governing (i) purchases or sales of assets or businesses, (ii) leases of real estate, (iii) licensing of trademarks, (iv) access to credit facilities, (v) issuances of debt or equity securities, and (vi) certain operating agreements. The indemnifications issued are for the benefit of the (i) buyers in sale agreements and sellers in purchase agreements, (ii) landlords in lease contracts, (iii) franchisees in licensing agreements, (iv) financial institutions in credit facility arrangements, (v) underwriters in debt or equity security issuances and (vi) parties under certain operating agreements. In addition, these parties are also generally indemnified against any third party claim resulting from the transaction that is contemplated in the underlying agreement. While some of these indemnities extend only for the duration of the underlying agreement, many survive the expiration of the term of the agreement or extend into perpetuity (unless subject to a legal statute of limitations). There are no specific limitations on the maximum potential amount of future payments that the Company could be required to make under these indemnities, nor is the Company able to develop an estimate of the maximum potential amount of future payments to be made under these indemnifications as the triggering events are not subject to predictability. With respect to certain of the aforementioned indemnities, such as indemnifications of landlords against third party claims for the use of real estate property leased by the Company, the Company maintains insurance coverage that mitigates potential liability.

17. Termination Charges

During the three months ended March 31, 2012, the Company recorded a \$0.1 million charge in SG&A and marketing and reservation expenses related to salary and continuation benefits provided to employees separating from service with the Company. At March 31, 2012, the Company had approximately \$43 thousand of these salary and benefits continuation payments remaining to be remitted. During the three months ended March 31, 2012, the Company remitted an additional \$2.8 million of termination benefits related to employee termination charges recorded in prior periods and had approximately \$2.7 million of these benefits remaining to be paid. At March 31, 2012 and December 31, 2011, total termination benefits of approximately \$2.7 million and \$5.4 million remained payable and were included in current and non-current liabilities in the Company's consolidated financial statements. The Company expects \$2.4 million of these benefits to be paid in the next twelve months.

18. Subsequent Events

Table of Contents

Subsequent to March 31, 2012 through May 9, 2012, the Company repurchased an additional 0.2 million shares of its common stock at a total cost of \$7.0 million under its share repurchase program.

On April 30, 2012, the Company's board of directors declared a quarterly cash dividend of \$0.185 per share of common stock. The dividend is payable on July 16, 2012 to shareholders of record as of July 2, 2012. Based on the Company's share count at March 31, 2012, total dividends to be paid are expected to be approximately \$10.7 million. In April 2012, the Company and an unrelated third party entered into an agreement to purchase a Cambria Suites hotel in Maple Grove, MN for a total price of \$7.2 million. The Company and the unrelated third party are entering into a joint venture, which will own this property. The Company expects to contribute approximately \$3.7 million to the joint venture for a 50% ownership stake. The Company expects to account for this venture under the equity method of accounting.

Table of Contents

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following Management's Discussion and Analysis ("MD&A") is intended to help the reader understand Choice Hotels International, Inc. and subsidiaries (together the "Company"). MD&A is provided as a supplement to-and should be read in conjunction with-our consolidated financial statements and the accompanying notes.

Overview

We are a hotel franchisor with franchise agreements representing 6,174 hotels open and 471 hotels under construction, awaiting conversion or approved for development as of March 31, 2012, with 496,368 rooms and 38,210 rooms, respectively, in 49 states, the District of Columbia and over 40 countries and territories outside the United States. Our brand names include Comfort Inn®, Comfort Suites®, Quality®, Clarion®, Ascend Collection®, Sleep Inn®, Econo Lodge®, Rodeway Inn®, MainStay Suites®, Suburban Extended Stay Hotel®, and Cambria Suites® (collectively, the "Choice brands").

The Company's domestic operations are conducted solely through direct franchising relationships while its international franchise operations are conducted through a combination of direct franchising and master franchising relationships. Master franchising relationships are governed by master franchising agreements which generally provide the master franchisee with the right to use our brands in a specific geographic region, usually for a fee. Our business philosophy has been to conduct direct franchising in those international markets where both franchising is an accepted business model and we believe our brands can achieve significant distribution. We elect to enter into master franchise agreements in those markets where direct franchising is currently not a prevalent or viable business model. When entering into master franchising relationships, we strive to select partners that have professional hotel and asset management capabilities together with the financial capacity to invest in building the Choice brands in their respective markets. Master franchising relationships typically provide lower revenues to the Company as the master franchisees are responsible for managing certain necessary services (such as training, quality assurance, reservations and marketing) to support the franchised hotels in the master franchise area and therefore retain a larger percentage of the hotel franchise fees to cover their expenses. In certain circumstances, the Company has and may continue to make equity investments in our master franchisees.

As a result of our use of master franchising relationships and international market conditions, total revenues from international franchising operations comprised 9% of our total revenues for the three months ended March 31, 2012, while representing approximately 19% of hotels open at March 31, 2012. Therefore, our description of the franchise system is primarily focused on the domestic operations.

Our Company generates revenues, income and cash flows primarily from initial, relicensing and continuing royalty fees attributable to our franchise agreements. Revenues are also generated from qualified vendor arrangements, hotel operations and other sources. The hotel industry is seasonal in nature. For most hotels, demand is lower in December through March than during the remainder of the year. Our principal source of revenues is franchise fees based on the gross room revenues of our franchised properties. The Company's franchise fee revenues and operating income reflect the industry's seasonality and historically have been lower in the first quarter than in the second, third or fourth quarters.

With a focus on hotel franchising instead of ownership, we benefit from the economies of scale inherent in the franchising business. The fee and cost structure of our business provides opportunities to improve operating results by increasing the number of franchised hotel rooms and effective royalty rates of our franchise contracts resulting in increased initial fee and relicensing revenue, ongoing royalty fees and procurement services revenues. In addition, our operating results can also be improved through our company-wide efforts related to improving property level performance. The Company currently estimates that based on its current domestic portfolio of hotels under franchise that a 1% change in revenue per available room ("RevPAR") or rooms under franchise would increase or decrease annual domestic royalty revenues by approximately \$2.3 million and a 1 basis point change in the Company's effective royalty rate would increase or decrease annual domestic royalties by approximately \$0.5 million. In addition to these revenues, we also collect marketing and reservation system fees to support centralized marketing and reservation activities for the franchise system. As a lodging franchisor, the Company currently has relatively low

capital expenditure requirements.

The principal factors that affect the Company's results are: the number and relative mix of franchised hotel rooms in the various hotel lodging price categories; growth in the number of hotel rooms under franchise; occupancy and room rates achieved by the hotels under franchise; the effective royalty rate achieved; the level of franchise sales and relicensing activity; and our ability to manage costs. The number of rooms at franchised properties and occupancy and room rates at those properties significantly affect the Company's results because our fees are based upon room revenues at franchised hotels. The key industry standard for measuring hotel-operating performance is RevPAR, which is calculated by multiplying the percentage of occupied rooms by the average daily room rate realized. Our variable overhead costs associated with franchise system growth of our established

Table of Contents

brands have historically been less than incremental royalty fees generated from new franchises. Accordingly, continued growth of our franchise business should enable us to realize benefits from the operating leverage in place and improve operating results.

We are required by our franchise agreements to use the marketing and reservation system fees we collect for system-wide marketing and reservation activities. These expenditures, which include advertising costs and costs to maintain our central reservations system, help to enhance awareness and increase consumer preference for our brands. Greater awareness and preference promotes long-term growth in business delivery to our franchisees, which ultimately increases franchise fees earned by the Company.

Our Company articulates its mission as a commitment to our franchisees' profitability by providing our franchisees with hotel franchises that strive to generate the highest return on investment of any hotel franchise. We have developed an operating system dedicated to our franchisees' success that focuses on delivering guests to our franchised hotels and reducing costs for our hotel owners.

We believe that executing our strategic priorities creates value for our shareholders. Our Company focuses on two key value drivers:

Profitable Growth. Our success is dependent on improving the performance of our hotels, increasing our system size by selling additional hotel franchises, effective royalty rate improvement and maintaining a disciplined cost structure. We attempt to improve our franchisees' revenues and overall profitability by providing a variety of products and services designed to increase business delivery to and/or reduce operating and development costs for our franchisees. These products and services include national marketing campaigns, a central reservation system, property and yield management systems, quality assurance standards and qualified vendor relationships. We believe that healthy brands, which deliver a compelling return on investment for franchisees, will enable us to sell additional hotel franchises and raise royalty rates. We have established multiple brands that meet the needs of many types of guests, and can be developed at various price points and applied to both new and existing hotels. This ensures that we have brands suitable for creating growth in a variety of market conditions. Improving the performance of the hotels under franchise, growing the system through additional franchise sales and improving franchise agreement pricing while maintaining a disciplined cost structure are the keys to profitable growth.

Maximizing Financial Returns and Creating Value for Shareholders. Our capital allocation decisions, including capital structure and uses of capital, are intended to maximize our return on invested capital and create value for our shareholders. We believe our strong and predictable cash flows create a strong financial position that provides us a competitive advantage. Currently, our business does not require significant capital to operate and grow. Therefore, we can maintain a capital structure that generates high financial returns and use our excess cash flow to increase returns to our shareholders.

Historically, we have returned value to our shareholders in two primary ways: share repurchases and dividends. In 1998, we instituted a share repurchase program which has generated substantial value for our shareholders. During the three months ended March 31, 2012, the Company repurchased approximately 0.3 million shares of its common stock under the share repurchase program at an average price of \$36.81 for a total cost of \$12.9 million. Since the program's inception through March 31, 2012, we have repurchased 45.1 million shares (including 33.0 million prior to the two-for-one stock split effected in October 2005) of common stock at a total cost of \$1.1 billion. Considering the effect of the two-for-one stock split, the Company has repurchased 78.1 million shares at an average price of \$13.83 per share. We currently believe that our cash flows from operations will support our ability to complete the current board of directors repurchase authorization of approximately 1.6 million shares remaining as of March 31, 2012. Subsequent to March 31, 2012 through May 9, 2012, the Company purchased an additional 0.2 million shares of its common stock under the share repurchase program at an average price of \$37.39 for a total cost of \$7.0 million. Upon completion of the current authorization, our board of directors will evaluate the advisability of additional share repurchases.

During the three months ended March 31, 2012, we paid cash dividends totaling approximately \$10.7 million and we presently expect to continue to pay dividends in the future, subject to future business performance, economic conditions, changes in income tax regulations and other factors. Based on our present dividend rate and outstanding share count, aggregate annual dividends for 2012 would be approximately \$42.8 million.

Our board of directors previously authorized us to enter into programs which permit us to offer investment, financing and guaranty support to qualified franchisees as well as to acquire and resell real estate to incent franchise development for certain brands in strategic markets. Recent market conditions have resulted in an increase in opportunities to incentivize development under these programs and as a result over the next several years, we expect to deploy capital opportunistically pursuant to these programs to promote growth of our emerging brands. The amount and timing of the investment in these programs will be dependent on market and other conditions. Our current expectation is that our annual investment in these programs will range from \$20 million to \$40 million. Notwithstanding these programs, the Company expects to continue to return value to its

Table of Contents

shareholders through a combination of share repurchases and dividends, subject to business performance, economic conditions, changes in income tax regulations and other factors.

We believe these value drivers, when properly implemented, will enhance our profitability, maximize our financial returns and continue to generate value for our shareholders. The ultimate measure of our success will be reflected in the items below.

Results of Operation: Royalty fees, operating income, net income and diluted earnings per share (“EPS”) represent key measurements of these value drivers. In the three months ended March 31, 2012, royalty fees revenue totaled \$47.9 million, a 9% increase from the same period in 2011. Operating income totaled \$31.1 million for the three months ended March 31, 2012, a \$5.4 million or 21% increase from the same period in 2011. Net income increased 27% from the same period of the prior year to \$20.0 million. Diluted earnings per share for the quarter ended March 31, 2012 were \$0.34 compared to \$0.26 for the three months ended March 31, 2011. These measurements will continue to be a key management focus in 2012 and beyond.

Refer to MD&A heading “Operations Review” for additional analysis of our results.

Liquidity and Capital Resources: Historically, the Company has generated significant cash flows from operations.

Since our business does not currently require significant reinvestment of capital, we typically utilize cash in ways that management believes provide the greatest returns to our shareholders, which include share repurchases and dividends.

We believe the Company's cash flow from operations and available financing capacity is sufficient to meet the expected future operating, investing, and financing needs of the business.

Refer to MD&A heading “Liquidity and Capital Resources” for additional analysis.

Operations Review

Comparison of Operating Results for the Three-Month Periods Ended March 31, 2012 and 2011

The Company recorded net income of \$20.0 million for the three month period ended March 31, 2012, a 27% increase from the \$15.7 million for the quarter ended March 31, 2011. The increase in net income for the three months ended March 31, 2012 is primarily attributable to the \$5.4 million or 21% increase in operating income and a \$2.9 million decline in other income and expenses, net, partially offset by an increase in the effective income tax rate. The decline in other income and expenses, net is primarily due to a \$2.0 million increase in fair value of the investments held in the Company's non-qualified benefit plans compared to a \$0.8 million increase in the fair value of these investments in the prior year period. In addition, other income and expenses, net for the three months ended March 31, 2011 included a \$1.8 million loss on assets held for sale.

Table of Contents

Summarized financial results for the three months ended March 31, 2012 and 2011 are as follows:

(in thousands, except per share amounts)	2012	2011
REVENUES:		
Royalty fees	\$47,853	\$43,794
Initial franchise and relicensing fees	2,528	2,721
Procurement services	3,315	3,261
Marketing and reservation	70,929	62,967
Hotel operations	978	864
Other	3,566	1,674
Total revenues	129,169	115,281
OPERATING EXPENSES:		
Selling, general and administrative	24,349	23,847
Depreciation and amortization	2,017	1,955
Marketing and reservation	70,929	62,967
Hotel operations	809	833
Total operating expenses	98,104	89,602
Operating income	31,065	25,679

Interest expense	3,117	3,224
Interest income	(337)	(210)
Other (gains) and losses	(2,003)	1,043
Equity in net (income) loss of affiliates	55	(301)
Total other expenses, net	832	3,756
Income before income taxes	30,233	21,923
Income taxes	10,236	6,193
Net income	\$19,997	\$15,730
Diluted earnings per share	\$0.34	\$0.26

The Company utilizes certain measures such as adjusted net income, adjusted diluted EPS and franchising revenues which do not conform to generally accepted accounting principles in the United States ("GAAP") when analyzing and discussing its results with the investment community. This information should not be considered as an alternative to any measure of performance as promulgated under GAAP, such as net income, diluted EPS and total revenues. The Company's calculation of these measures may be different from the calculations used by other companies and therefore comparability may be limited. We have included below a reconciliation of these measures to the comparable GAAP measures as well as our reason for reporting these non-GAAP measures.

Franchising Revenues: The Company utilizes franchising revenues which exclude marketing and reservation system revenues and hotel operations rather than total revenues when analyzing the performance of the business. Marketing and reservation activities are excluded from revenues since the Company is required by its franchise agreements to use these fees collected for marketing and reservation activities; as such, no income or loss to the Company is generated. Cumulative marketing and reservation system fees not expended are recorded as a payable on the Company's financial statements and are carried over to the next fiscal year and expended in accordance with the franchise agreements. Cumulative marketing and reservation expenditures in excess of fees collected for marketing and reservation activities are recorded as a receivable on the Company's financial statements. Hotel operations are excluded since they do not reflect the most accurate measure of the Company's core franchising business. This non-GAAP measure is a commonly used measure of performance in our industry and facilitates comparisons between the Company and its competitors.

Table of Contents

Calculation of Franchising Revenues

	Three Months Ended March 31, (\$ amounts in thousands)	
	2012	2011
Franchising Revenues:		
Total Revenues	\$ 129,169	\$ 115,281
Adjustments:		
Marketing and reservation system revenues	(70,929)	(62,967)
Hotel operations	(978)	(864)
Franchising Revenues	\$ 57,262	\$ 51,450

Adjusted Net Income and Adjusted Diluted EPS: We also use adjusted net income and adjusted diluted EPS for the three months ended March 31, 2011 which exclude a \$1.8 million loss on assets held for sale resulting from the Company's reduction of the carrying amount of a parcel of land held for sale to its estimated fair value. The Company utilizes these non-GAAP measures to enable investors to perform meaningful comparisons of past, present and future operating results and as a means to emphasize the results of on-going operations.

Calculation of Adjusted Net Income and Adjusted Diluted EPS

	Three Months Ended March 31, (In thousands, except per share amounts)	
	2012	2011
Net Income	\$ 19,997	\$ 15,730
Adjustments, net of tax:		
Loss on land held for sale	—	1,111
Adjusted Net Income	\$ 19,997	\$ 16,841
Weighted average shares outstanding – diluted	58,317	59,825
Diluted EPS	\$ 0.34	\$ 0.26
Adjustments:		
Loss on land held for sale	—	0.02
Adjusted Diluted EPS	\$ 0.34	\$ 0.28

The Company recorded adjusted net income of \$20.0 million for the three months ended March 31, 2012; a \$3.2 million increase compared to an adjusted net income of \$16.8 million for the three months ended March 31, 2011. The increase in adjusted net income for the three months ended March 31, 2012 is primarily due to a \$5.4 million or 21% increase in operating income and a \$1.2 million increase in investment gains due to an \$2.0 million increase in the fair value of investments held in the Company's non-qualified benefit plans during the three months ended March 31, 2012 compared to a \$0.8 million increase in fair value of these investments in the prior year period. These increases were partially offset in an increase in the effective tax rate from 28.2% during the three months ended March 31, 2011 to 33.9% in the same period of the current year. Operating income increased \$5.4 million as the Company's franchising revenues for the three months ended March 31, 2012 increased \$5.8 million or 11% from the same period of the prior year and SG&A expenses increased only \$0.5 million or 2%.

Franchising Revenues: Franchising revenues were \$57.3 million for the three months ended March 31, 2012 compared to \$51.5 million for the three months ended March 31, 2011, an increase of 11%. The increase in franchising revenues is primarily due to a 9% increase in royalty revenues and a \$1.9 million increase in other income.

Domestic royalty fees for the three months ended March 31, 2012 increased \$3.6 million to \$42.3 million from \$38.7 million in the three months ended March 31, 2011, an increase of 9%. The increase in royalties is attributable to a combination of factors including an 8.6% increase in RevPAR and a 0.6% increase in the number of domestic

franchised hotel rooms partially offset by a decline in the effective royalty rate of the domestic hotel system from 4.35% to 4.34%. System-wide RevPAR increased due to a combination of a 2.5% increase in average daily rates and a 250 basis point increase in occupancy.

Table of Contents

A summary of the Company's domestic franchised hotels operating information is as follows:

	For the Three Months Ended March 31, 2012*			For the Three Months Ended March 31, 2011*			Change					
	Average Daily Rate	Occupancy	RevPAR	Average Daily Rate	Occupancy	RevPAR	Average Daily Rate	Occupancy	RevPAR

Sleep	394	28,564	397	28,895	(3)	(331)	(0.8))%	(1.1))%
Quality	1,054	91,942	1,015	88,967	39	2,975	3.8	%	3.3	%
Clarion	188	27,550	192	28,259	(4)	(709)	(2.1))%	(2.5))%
Econo Lodge	797	49,254	779	48,245	18	1,009	2.3	%	2.1	%
Rodeway	396	22,183	381	20,940	15	1,243	3.9	%	5.9	%
MainStay	39	3,024	38	2,943	1	81	2.6	%	2.8	%
Suburban	61	7,191	63	7,543	(2)	(352)	(3.2))%	(4.7))%
Ascend Collection	53	4,671	42	3,259	11	1,412	26.2	%	43.3	%
Cambria Suites	19	2,215	20	2,328	(1)	(113)	(5.0))%	(4.9))%
Total Domestic Franchises	5,006	392,877	4,970	390,407	36	2,470	0.7	%	0.6	%

International royalties increased by \$0.4 million or 9% from \$5.1 million in the first quarter of 2011 to \$5.5 million for the same period of 2012 primarily due to global RevPAR increases and an increase in the number of rooms in the international system.

International available rooms increased 1.1% to 103,491 as of March 31, 2012 from 102,326 as of March 31, 2011.

The total number of international hotels increased 0.9% from 1,158 as of March 31, 2011 to 1,168 as of March 31,

2012.

As of March 31, 2012, the Company had 388 franchised hotels with 31,190 rooms under construction, awaiting conversion or approved for development in its domestic system as compared to 508 hotels and 41,475 rooms at March 31, 2011. The number

35

Table of Contents

of new construction franchised hotels in the Company's domestic pipeline declined 29% to 250 at March 31, 2012 from 352 at March 31, 2011. The number of conversion franchised hotels in the Company's domestic pipeline declined by 18 units or 12% from March 31, 2011 to 138 hotels at March 31, 2012. The domestic system hotels under construction, awaiting conversion or approved for development declined 29% from the prior year primarily due to the decline in the number of new construction hotels which have been negatively impacted by the limited availability of hotel construction financing. As a result, the ability of existing projects to obtain financing and commence construction has been significantly impacted and has resulted in the termination of franchise agreements related to hotels that have not yet opened. The Company had an additional 83 franchised hotels with 7,020 rooms under construction, awaiting conversion or approved for development in its international system as of March 31, 2012 compared to 98 hotels and 8,433 rooms at March 31, 2011. While the Company's hotel pipeline provides a strong platform for growth, a hotel in the pipeline does not always result in an open and operating hotel due to various factors.

A summary of the domestic franchised hotels under construction, awaiting conversion or approved for development at March 31, 2012 and 2011 by brand is as follows:

	March 31, 2012			March 31, 2011			Variance					
	Units			Units			Conversion		New Construction		Total	
	Conversion	New Construction	Total	Conversion	New Construction	Total	Units	%	Units	%	Units	%

Domestic hotels open and operating increased by 5 hotels during the three months ended March 31, 2012 compared to an net decline of 23 domestic hotels open and operating during the three months ended March 31, 2011. Gross domestic franchise additions declined from 42 for the three months ended March 31, 2011 to 39 for the same period of 2012. New construction hotels represented 5 of the gross domestic additions during three months ended March 31, 2012 compared to 4 hotels in the same period of the prior year. Gross domestic additions for conversion hotels during the three months ended March 31, 2012 declined by 4 to 34 hotels from 38 hotels in the same period of the prior year. The Company expects the number of new franchise units that will open during 2012 to decline from 256 in 2011 to approximately 240 hotels as openings will continue to be impacted by the restrictive lending environment, retention efforts implemented by other hotel brand companies and increased competition for existing hotels seeking a new brand affiliation.

Net domestic franchise terminations declined from 65 in the three months ended March 31, 2011 to 34 for the three months ended March 31, 2012. The decline in net domestic franchise terminations primarily reflects increased retention efforts implemented by the Company to reduce the number of terminations as overall industry supply growth continues to be lower than historical levels.

New domestic franchise agreements executed in the three months ended March 31, 2012 totaled 64 representing 4,658 rooms compared to 56 agreements representing 5,158 rooms executed in the first quarter of 2011. During the first quarter of 2012, 7 of the executed agreements were for new construction hotel franchises representing 443 rooms compared to 6 contracts representing 572 rooms for the three months ended March 31, 2011. Conversion hotel executed franchise agreements totaled 57 representing 4,215 rooms for the three months ended March 31, 2012 compared to 50 agreements representing 4,586 rooms for the same period a year ago. Domestic initial fee revenue, included in the initial franchise and relicensing fees caption above, generated from executed franchise agreements declined \$0.8 million to \$1.4 million for the three months ended March 31, 2012 from \$2.2 million for the three months ended March 31, 2011. Initial fee revenue declined despite a 14% increase in the

Table of Contents

number of executed new franchise agreements primarily due to the recognition of deferred revenue during 2011 related to franchise agreements containing developer incentives that were executed in prior years. Revenues associated with agreements including incentives are deferred and recognized when the incentive criteria are met or the agreement is terminated, whichever comes first.

A summary of executed domestic franchise agreements by brand for the three months ended March 31, 2012 and 2011 is as follows:

	Three Months Ended March 31, 2012			Three Months Ended March 31, 2011			% Change					
	New Construction	Conversion	Total	New Construction	Conversion	Total	New Construction	Conversion	Total			
Comfort Inn	1	8	9	2	7	9	(50)%	14	%	0	%
Comfort Suites	1	2	3	—	2	2	NM	0	%	50	%	
Sleep	3	—	3	2	—	2	50	%	NM	50	%	
Quality	—	27	27	—	24	24	NM	13	%	13	%	
Clarion	—	2	2	—	5	5	NM	(60)%	(60)%	
Econo Lodge	—	4	4	—	6	6	NM	(33)%	(33)%	
Rodeway	—	12	12	—	5	5	NM	140	%	140	%	
MainStay	—	—	—	1	—	1	(100)%	NM	(100)%	
Suburban	—	—	—	—	—	—	NM	NM	NM			
Ascend Collection	1	2	3	—	1	1	NM	100	%	200	%	
Cambria Suites	1	—	1	1	—	1	0	%	NM	0	%	
Total Domestic System	7	57	64	6	50	56	17	%	14	%	14	%

Relicensing fees include fees charged to the new owners of a franchised property whenever an ownership change occurs and the property remains in the franchise system as well as fees required to renew expiring franchise contracts. Domestic relicensing and renewal contracts increased 250% from 14 in the first quarter of 2011 to 49 for the three months ended March 31, 2012. As a result of the increase in contracts, domestic relicensing revenues increased \$0.5 million from \$0.5 million for the three months ended March 31, 2011 to \$1.0 million for the three months ended March 31, 2012.

Other income increased \$1.9 million from \$1.7 million for the three months ended March 31, 2011 to \$3.6 million for the same period of the current year primarily due to an increase in liquidated damage collections related to the early termination of franchise agreements.

Selling, General and Administrative Expenses: The cost to operate the franchising business is reflected in selling, general and administrative expenses ("SG&A") on the consolidated statements of income. SG&A expenses were \$24.3 million for the three months ended March 31, 2012, an increase of \$0.5 million or 2% from the three months ended March 31, 2011. SG&A for the three months ended March 31, 2012 included approximately \$1.5 million related to a litigation settlement with a former franchisee as well as a \$0.7 million increase in compensation expense recognized on deferred compensation arrangements as described in more detail in Other Income and Expenses, Net. Excluding these items, SG&A expenses declined approximately \$1.7 million due to measures implemented by the Company in the fourth quarter of 2011 to increase its productivity and streamline services.

Marketing and Reservations: The Company's franchise agreements require the payment of franchise fees, which include marketing and reservation system fees. The fees, which are primarily based on a percentage of the franchisees' gross room revenues, are used exclusively by the Company for expenses associated with providing franchise services such as central reservation systems, national marketing and media advertising. The Company is contractually obligated to expend the marketing and reservation system fees it collects from franchisees in accordance with the franchise agreements; as such, no income or loss to the Company is generated.

Total marketing and reservation system fees were \$70.9 million and \$63.0 million for the three months ended March 31, 2012 and 2011, respectively. Depreciation and amortization attributable to marketing and reservation

activities was \$3.5 million and \$3.2 million for the three month periods ended March 31, 2012 and 2011, respectively. Interest expense attributable to marketing and reservation activities was approximately \$1.2 million and \$1.0 million for the three month periods ended March 31, 2012 and 2011, respectively.

Table of Contents

As of March 31, 2012 and December 31, 2011, the Company's balance sheet includes a receivable of \$63.7 million and \$54.0 million, respectively from cumulative marketing and reservation expenses incurred in excess of cumulative marketing and reservations system fee revenues earned. These receivables are recorded as an asset in the financial statements as the Company has the contractual authority to require that the franchisees in the system at any given point repay the Company for any deficits related to marketing and reservation activities. The Company's current franchisees are legally obligated to pay any assessment the Company imposes on its franchisees to obtain reimbursement of such deficit regardless of whether those constituents continue to generate gross room revenue and whether or not they joined the system following the deficit's occurrence. The Company has no present intention to accelerate repayment of the deficit from current franchisees. Conversely, cumulative marketing and reservation system fees not expended are recorded as a payable in the financial statements and are carried over to the next fiscal year and expended in accordance with the franchise agreements.

Our ability to recover these receivables may be adversely impacted by certain factors, including, among others, declines in the ability of our franchisees to generate revenues at properties they franchise from us, lower than expected franchise system growth of certain brands and/or lower than expected international franchise system growth. An extended period of occupancy or room rate declines or a decline in the number of hotel rooms in our franchise system could result in the generation of insufficient funds to recover marketing and reservation advances as well as meet the ongoing marketing and reservation needs of the overall system.

Other Income and Expenses, Net: Other income and expenses, net, declined from an expense of \$3.8 million during the three months ended March 31, 2011 to an expense of \$0.8 million for the three months ended March 31, 2012 primarily due to the following items:

Other gains and losses, net increased from a loss of \$1.0 million for the three months ended March 31, 2011 to a gain of \$2.0 million for the three months ended March 31, 2012 primarily due to fluctuations in the fair value of investments held in the Company's non-qualified employee benefit plans as well as a \$1.8 million loss on assets held for sale recorded during the three months ended March 31, 2011 resulting from the Company's reduction of the carrying amount of a parcel of land held for sale to its estimated fair value.

As discussed in the accompanying critical accounting policies, the Company sponsors two non-qualified retirement and savings plans: the Non-Qualified Plan and the EDCP plan. The fair value of the Non-Qualified Plan investments increased by \$0.9 million during the three months ended March 31, 2012 compared to a gain of \$0.3 million during the three months ended March 31, 2011. The fair value of the Company's investments held in the EDCP plan increased by \$1.1 million during the three months ended March 31, 2012 compared to an increase in fair value of \$0.4 million during the same period of the prior year.

The Company accounts for the EDCP Plan and Non-Qualified Plan in accordance with accounting for deferred compensation arrangements when investments are held in a rabbi trust and invested. Therefore, the Company also recognizes compensation expense or benefits in SG&A related to changes in the fair value of investments held in the Non-Qualified Plan and a portion of the investments held in the EDCP Plan, excluding investments in the Company's stock. As a result, during the three months ended March 31, 2012, the Company's SG&A expense was increased by \$1.0 million due to the change in the fair value of these investments. For the three months ended March 31, 2011, the Company's SG&A expense was increased by \$0.4 million due to the change in the fair value of these investments. Income taxes. The effective income tax rate was 33.9% compared with 28.2% for the three months ended March 31, 2012 and 2011, respectively.

The effective income tax rate for the three months ended March 31, 2012 was lower than the U.S. federal statutory rate of 35% primarily due to the impact of foreign operations, partially offset by state income taxes. The effective income tax rate for the three months ended March 31, 2011 was lower than the U.S. federal statutory rate of 35% primarily due to a \$1.4 million nonrecurring adjustment to our current federal taxes payable which reduced the effective tax rate as well as the impact of foreign operations.

Net income: Net income for the three months ended March 31, 2012 increased by 27% to \$20.0 million from \$15.7 million in the same period of the prior year. Net income increased \$3.2 million or 19% from the adjusted net income of \$16.8 million, as adjusted for certain items described above, for the three months ended March 31, 2011.

Diluted EPS: Diluted EPS increased 31% to \$0.34 for the three months ended March 31, 2012 from \$0.26 for the same period of the prior year. Diluted EPS for the three months ended March 31, 2012 increased \$0.06 from the adjusted diluted EPS, which excludes certain items described above, for the three months ended March 31, 2011 which totaled \$0.28. The increase in diluted EPS primarily reflects the items discussed above as well as repurchases of the Company's common stock.

Table of Contents

Liquidity and Capital Resources

Operating Activities

During the three months ended March 31, 2012, net cash provided by operating activities totaled \$4.4 million compared to net cash used by operating activities of \$5.2 million during the three months ended March 31, 2011. The increase in cash flows from operating activities primarily reflects improvements in operating income partially offset by the timing of working capital items.

Net cash advanced for marketing and reservation activities totaled \$6.2 million and \$9.0 million during the three months ended March 31, 2012 and 2011, respectively. Cash advances during the three months ended March 31, 2012 related primarily to planned advertising and promotional cost spending in excess of fees collected and investments in information technology initiatives. Based on the current economic conditions, the Company expects marketing and reservation activities to provide cash flows from operations ranging between \$4 million and \$8 million in 2012.

Investing Activities

Cash utilized for investing activities totaled \$1.5 million and \$5.6 million for the three months ended March 31, 2012 and 2011, respectively. The decline in cash utilized for investing activities was primarily due to proceeds from the sale of investments held in trust related to the Company's deferred compensation plans. The proceeds were utilized to reimburse the Company for participant distributions made on behalf of the trust in prior years. These proceeds were partially offset by an increase in capital expenditures, an increase in net financing provided to franchisees and equity method investments entered into during the three months ended March 31, 2012. During the three months ended March 31, 2012 and 2011, capital expenditures totaled \$3.1 million and \$1.8 million, respectively. Capital expenditures for 2012 primarily include upgrades of system-wide property and yield management systems, upgrades to information systems infrastructure and the purchase of computer software and equipment.

The Company occasionally provides financing to franchisees for property improvements, hotel development efforts and other purposes. During the three months ended March 31, 2012 and 2011, the Company advanced \$3.7 million and \$1.5 million, respectively, for these purposes. At March 31, 2012, the Company had commitments to extend an additional \$6.4 million for these purposes provided certain conditions are met by its franchisees, of which \$2.7 million is expected to be advanced in the next twelve months.

Financing Activities

Financing cash flows relate primarily to the Company's borrowings, treasury stock purchases and dividends.

Debt

On February 24, 2011, the Company entered into a new \$300 million senior unsecured revolving credit agreement (the "Revolver") with Wells Fargo Bank, National Association, as administrative agent and a syndicate of lenders.

Simultaneously with the closing of the Revolver, the \$350 million unsecured revolving credit agreement dated as of June 2006 (the "Old Revolver") was terminated. The Revolver provides for a \$300 million unsecured revolving credit facility with a final maturity date on February 24, 2016. Up to \$30 million of borrowings under the Revolver may be used for letters of credit and up to \$20 million of borrowings under the Revolver may be used for swing-line loans.

The Revolver is unconditionally guaranteed, jointly and severally, on a senior unsecured basis by all of the Company's subsidiaries that currently guarantee the obligations under the Company's Indenture governing the terms of its 5.70% senior notes due 2020.

The Company may at any time prior to the final maturity date increase the amount of the Revolver by up to an additional \$150 million to the extent that any one or more lenders commit to being a lender for the additional amount and certain other customary conditions are met.

The Company may elect to have borrowings under the Revolver bear interest at (i) a base rate plus a margin ranging from 5 to 80 basis points based on the Company's credit rating or (ii) LIBOR plus a margin ranging from 105 to 180 basis points based on the Company's credit rating. In addition, the Revolver requires the Company to pay a quarterly facility fee on the full amount of the commitments under the Revolver (regardless of usage) ranging from 20 to 45 basis points based upon the credit rating of the Company.

The Revolver requires that the Company and its restricted subsidiaries comply with various covenants, including with respect to restrictions on liens, incurring indebtedness, making investments and effecting mergers and/or asset sales.

In addition, the Revolver imposes financial maintenance covenants requiring the Company to maintain a total leverage

ratio of not more than

39

Table of Contents

3.5 to 1.0 and interest coverage ratio of at least 3.5 to 1.0. At March 31, 2012, the Company maintained a total leverage ratio of approximately 1.3x and an interest ratio coverage of approximately 11.8x. At March 31, 2012, the Company was in compliance with all covenants under the Revolver.

The proceeds of the Revolver are used for general corporate purposes, including working capital, debt repayment, stock repurchases, dividends, investments and other permitted uses. As of March 31, 2012, the Company had \$5.9 million outstanding under the Revolver.

On August 25, 2010, the Company completed a \$250 million senior unsecured note offering ("the Senior Notes") at a discount of \$0.6 million, bearing a coupon of 5.7% with an effective rate of 6.19%. The Senior Notes will mature on August 28, 2020, with interest on the Senior Notes to be paid semi-annually on February 28th and August 28th. The Company used the net proceeds from the offering, after deducting underwriting discounts and other offering expenses, to repay outstanding borrowings under the Old Revolver and other general corporate purposes. The Company's Senior Notes are guaranteed jointly, severally, fully and unconditionally, subject to certain customary limitations, by eight 100%-owned domestic subsidiaries.

The Company may redeem the Senior Notes at its option at a redemption price equal to the greater of (a) 100% of the principal amount of the notes to be redeemed and (b) the sum of the present values of the remaining scheduled principal and interest payments from the redemption date to the date of maturity discounted to the redemption date on a semi-annual basis at the Treasury rate, plus 45 basis points.

Dividends

The Company currently maintains the payment of a quarterly dividend on its common shares outstanding, however, the declaration of future dividends are subject to the discretion of our board of directors. During the three months ended March 31, 2012, the Company declared and paid cash dividends at a quarterly rate of \$0.185 per share. The Company's quarterly dividend rate declared during the three months ended March 31, 2012 has remained unchanged from the previous quarterly declarations. During the three months ended March 31, 2012 and 2011, the Company paid cash dividends totaling \$10.7 million and \$11.0 million, respectively. We expect that cash dividends will continue to be paid in the future, subject to future business performance, economic conditions, changes in tax regulations and other matters. Based on our present dividend rate and outstanding share count, aggregate annual dividends for 2012 would be approximately \$42.8 million.

Share Repurchases

During the three months ended March 31, 2012, the Company repurchased 0.3 million shares of its common stock under the share repurchase program at a total cost of \$12.9 million for an average price of \$36.81 per share. Since the program's inception through March 31, 2012, we have repurchased 45.1 million shares (including 33.0 million prior to the two-for-one stock split effected in October 2005) of common stock at a total cost of \$1.1 billion. Considering the effect of the two-for-one stock split, the Company has repurchased 78.1 million shares at an average price of \$13.83 per share through March 31, 2012. At March 31, 2012 the Company had approximately 1.6 million shares remaining under the current stock repurchase authorization. Subsequent to March 31, 2012 through May 9, 2011, the Company repurchased an additional 0.2 million shares of its common stock under the share repurchase program at a total cost of \$7.0 million for an average price of \$37.39 per share. Upon completion of the current authorization, our board of directors will evaluate the advisability of additional share repurchases.

Other items

Our board of directors previously authorized us to enter into programs which permit us to offer financing, investment and guaranty support to qualified franchisees as well as to acquire and resell real estate to incent franchise development for certain brands in strategic markets. Recent market conditions have resulted in an increase in opportunities to incentivize development under these programs. Over the next several years, we expect to continue to deploy capital opportunistically pursuant to these programs to promote growth of our emerging brands. The amount and timing of the investment in these programs will be dependent on market and other conditions. Our current expectation is that our annual investment in these programs will range from \$20 million to \$40 million.

Notwithstanding these programs, the Company expects to continue to return value to its shareholders through a combination of share repurchases and dividends, subject to market and other conditions.

Approximately \$85.8 million of the Company's cash and cash equivalents at March 31, 2012 pertains to undistributed earnings of the Company's consolidated foreign subsidiaries. Since the Company's intent is for such earnings to be reinvested by the foreign subsidiaries, the Company has not provided additional United States income taxes on these amounts. While the Company has no intention to utilize these cash and cash equivalents in its domestic operations, any change to this policy would result in the Company incurring additional United States income taxes on any amounts utilized domestically.

During the three months ended March 31, 2012, the Company recorded one-time employee termination charges totaling \$0.1 million in SG&A and marketing and reservation expenses. These charges related to salary and benefits continuation payments

Table of Contents

for employees separating from service with the Company. At March 31, 2012, the Company had approximately \$43 thousand of these salary and benefits continuation payments remaining to be remitted. During the three months ended March 31, 2012, the Company remitted an additional \$2.8 million of termination benefits related to employee termination charges recorded in prior periods and had approximately \$2.7 million of these benefits remaining to be paid. At March 31, 2012, total termination benefits of approximately \$2.7 million remained to be paid and the Company expects \$2.4 million of these benefits to be paid in the next twelve months. In addition, the Company expects to satisfy approximately \$19.2 million of deferred compensation and retirement plan obligations during the next twelve months.

The Company believes that cash flows from operations and available financing capacity are adequate to meet the expected future operating, investing and financing needs of the business.

Critical Accounting Policies

Our accounting policies comply with principles generally accepted in the United States. We have described below those policies that we believe are critical or require the use of complex judgment or significant estimates in their application. Additional discussion of these policies is included in Note 1 to our consolidated financial statements as of and for the year ended December 31, 2011 included in our Annual Report on Form 10-K.

Revenue Recognition.

We recognize continuing franchise fees, including royalty, marketing and reservations system fees, when earned and receivable from our franchisees. Franchise fees are typically based on a percentage of gross room revenues of each franchisee. Our estimate of the allowance for uncollectible royalty fees is charged to SG&A expense and our estimate of the allowance for uncollectible marketing and reservation fees is charged to marketing and reservation expenses. Initial franchise and relicensing fees are recognized, in most instances, in the period the related franchise agreement is executed because the initial franchise and relicensing fees are non-refundable and the Company is not required to provide initial services to the franchisee prior to hotel opening. We defer the initial franchise and relicensing fee revenue related to franchise agreements which include incentives until the incentive criteria are met or the agreement is terminated, whichever occurs first.

The Company may also enter into master development agreements (“MDAs”) with developers that grant limited exclusive development rights and preferential franchise agreement terms for one-time, non-refundable fees. When these fees are not contingent upon the number of agreements executed under the MDA, the Company recognizes the up-front fees over the MDA's contractual life. Fees that are contingent upon the execution of franchise agreements under the MDA are recognized upon execution of the franchise agreement.

The Company recognizes procurement services revenues from qualified vendors when the services are performed or the product delivered, evidence of an arrangement exists, the fee is fixed and determinable and collectibility is probable. We defer the recognition of procurement services revenues related to certain upfront fees and recognize them over a period corresponding to the Company's estimate of the life of the arrangement.

Marketing and Reservation Revenues and Expenses.

The Company's franchise agreements require the payment of certain marketing and reservation system fees, which are used exclusively by the Company for expenses associated with providing franchise services such as national marketing, media advertising, central reservation systems and technology services. The Company is contractually obligated to expend the marketing and reservation system fees it collects from franchisees in accordance with the franchise agreements; as such, no income or loss to the Company is generated. In accordance with our contracts, we include in marketing and reservation expenses an allocation of costs for certain activities, such as human resources, facilities, legal, accounting, etc., required to carry out marketing and reservation activities.

The Company records marketing and reservation system revenues and expenses on a gross basis since the Company is the primary obligor in the arrangement, maintains the credit risk, establishes the price and nature of the marketing or reservation services and retains discretion in supplier selection. In addition, net advances to and repayments from the franchise system for marketing and reservation activities are presented as cash flows from operating activities.

Marketing and reservation system fees not expended in the current year are carried over to the next fiscal year and expended in accordance with the franchise agreements. Shortfall amounts are similarly recovered in subsequent years.

Cumulative excess or shortfall amounts from the operation of these programs are recorded as a marketing and reservation system fee payable or receivable. Under the terms of the franchise agreements, the Company may advance capital as necessary for marketing and reservation activities and recover such advances through future fees. Our current assessment is that the credit risk associated with the marketing and reservation system fees receivable is mitigated due to our contractual right to recover these amounts

Table of Contents

from a large geographically dispersed group of franchisees. However, our ability to recover these receivables may be adversely impacted by certain factors, including, among others, declines in the ability of our franchisees to generate revenues at properties they franchise from us, lower than expected franchise system growth of certain brands and/or lower than expected international franchise system growth. An extended period of occupancy or room rate declines or a decline in the number of hotel rooms in our franchise system could result in the generation of insufficient funds to recover marketing and reservation advances as well as meet the ongoing marketing and reservation needs of the overall system.

The Company evaluates the receivable for marketing and reservation costs in excess of cumulative marketing and reservation system fees earned on a periodic basis for collectibility. The Company will record an allowance when, based on current information and events, it is probable that we will be unable to collect all amounts due for marketing and reservation activities according to the contractual terms of the franchise agreements. The receivables are considered to be uncollectible if the expected net, undiscounted cash flows from marketing and reservation activities are less than the carrying amount of the asset.

Choice Privileges is our frequent guest incentive marketing program. Choice Privileges enables members to earn points based on their spending levels with our franchisees and, to a lesser degree, through participation in affiliated partners' programs, such as those offered by credit card companies. The points, which we accumulate and track on the members' behalf, may be redeemed for free accommodations or other benefits.

We provide Choice Privileges as a marketing program to franchised hotels and collect a percentage of program members' room revenue from franchises to operate the program. Revenues are deferred in an amount equal to the estimated fair value of the future redemption obligation. A third-party actuary estimates the eventual redemption rates and point values using various actuarial methods. These judgmental factors determine the required liability attributable to outstanding points. Upon redemption of points, the Company recognizes the previously deferred revenue as well as the corresponding expense relating to the cost of the awards redeemed. Revenues in excess of the estimated future redemption obligation are recognized when earned to reimburse the Company for costs incurred to operate the program, including administrative costs, marketing, promotion and performing member services. Costs to operate the program, excluding estimated redemption values, are expensed when incurred.

Valuation of Intangibles and Long-Lived Assets

The Company evaluates the potential impairment of property and equipment and other long-lived assets, including franchise rights and other definite-lived intangibles, on an annual basis or whenever an event or other circumstances indicates that we may not be able to recover the carrying value of the asset. Recoverability is measured based on net, undiscounted expected cash flows. Assets are considered to be impaired if the net, undiscounted expected cash flows are less than the carrying amount of the assets. Impairment charges are recorded based upon the difference between the carrying value and the fair value of the asset. Significant management judgment is involved in developing these projections, and they include inherent uncertainties. If different projections are used in the current period, the balances for non-current assets could be materially impacted. Furthermore, if management uses different projections or if different conditions occur in future periods, future-operating results could be materially impacted.

The Company evaluates the impairment of goodwill and trademarks with indefinite lives on an annual basis, or during the year if an event or other circumstance indicate that we may not be able to recover the carrying amount of the asset. In evaluating these assets for impairment, the Company first assesses qualitative factors to determine whether it is more likely than not that the fair value of the reporting unit is less than its carrying amount. If we conclude that it is not more likely than not that the fair value of the reporting unit is less than its carrying value, then no further testing is required. If the conclusion is that it is more likely than not that the fair value of a reporting unit is less than its carrying value, then a two-step impairment test is performed. Since the Company has one reporting unit, the fair value of the Company's net assets is used to determine if goodwill may be impaired. Indefinite life trademarks are considered to be impaired if the net, undiscounted expected cash flows associated with the trademark are less than their carrying amount.

Loan Loss Reserves

The Company segregates its notes receivable for the purposes of evaluating allowances for credit losses between two categories: Mezzanine and Other Notes Receivable and Forgivable Notes Receivable. The Company utilizes the level

of security it has in the various notes receivable as its primary credit quality indicator (i.e. senior, subordinated or unsecured) when determining the appropriate allowances for uncollectible loans within these categories.

Mezzanine, and Other Notes Receivables

The Company has provided financing to franchisees in support of the development of properties in strategic markets. The Company expects the owners to repay the loans in accordance with the loan agreements, or earlier as the hotels mature and capital markets permit. The Company estimates the collectibility and records an allowance for loss on its mezzanine and other

Table of Contents

notes receivable when recording the receivables in the Company's financial statements. These estimates are updated quarterly based on available information.

The Company considers a loan to be impaired when, based on current information and events, it is probable that a creditor will be unable to collect all amounts due according to the contractual terms of the loan agreement. All amounts due according to the contractual terms means that both the contractual interest payments and the contractual principal payments of a loan will be collected as scheduled in the loan agreement. The Company measures loan impairment based on the present value of expected future cash flows discounted at the loan's original effective interest rate or the estimated fair value of the collateral. For impaired loans, the Company establishes a specific impairment reserve for the difference between the recorded investment in the loan and the present value of the expected future cash flows or the estimated fair value of the collateral. The Company applies its loan impairment policy individually to all mezzanine and other notes receivable in the portfolio and does not aggregate loans for the purpose of applying such policy. For impaired loans, the Company recognizes interest income on a cash basis. If it is likely that a loan will not be collected based on financial or other business indicators it is the Company's policy to charge off these loans to SG&A expenses in the accompanying consolidated statements of income in the quarter when it is deemed uncollectible. Recoveries of impaired loans are recorded as a reduction of SG&A expenses in the quarter received. The Company assesses the collectibility of its senior notes receivable by comparing the market value of the underlying assets to the carrying value of the outstanding notes. In addition, the Company evaluates the property's operating performance, the borrower's compliance with the terms of the loan and franchise agreements, and all related personal guarantees that have been provided by the borrower. For subordinated or unsecured receivables, the Company assesses the property's operating performance, the subordinated equity available to the Company, the borrower's compliance with the terms of loan and franchise agreements, and the related personal guarantees that have been provided by the borrower.

The Company considers loans to be past due and in default when payments are not made when due. Although the Company considers loans to be in default if payments are not received on the due date, the Company does not suspend the accrual of interest until those payments are more than 30 days past due. The Company applies payments received for loans on non-accrual status first to interest and then principal. The Company does not resume interest accrual until all delinquent payments are received.

Forgivable Notes Receivable

In certain instances, the Company may provide financing to franchisees for property improvements and other purposes in the form of forgivable promissory notes which bear interest at market rates. Under these promissory notes, the franchisee promises to repay the principal sum together with interest upon maturity unless certain conditions are met throughout the term of the promissory note. The principal sum and related interest are forgiven ratably over the term of the promissory note if the franchisee remains in the system in good standing. If during the term of the promissory note, the franchisee exits our franchise system or is not operating their franchise in accordance with our quality or credit standards, the Company may declare a default under the promissory note and commence collection efforts with respect to the full amount of the then-current outstanding principal and interest.

In accordance with the terms of the promissory notes, the initial principal sum and related interest are ratably reduced over the term of the loan on each anniversary date until the outstanding amounts are reduced to zero as long as the franchisee remains within the franchise system and operates in accordance with our quality and brand standards. As a result, the amounts recorded as an asset on the Company's consolidated balance sheet are also ratably reduced since the amounts forgiven no longer represent probable future economic benefits to the Company. The Company records the reduction of its recorded assets through amortization expense on its consolidated statements of income.

The Company fully reserves all defaulted notes in addition to recording a reserve on the estimated uncollectible portion of the remaining notes. For those notes not in default, the Company calculates an allowance for losses and determines the ultimate collectibility on these forgivable notes based on the historical default rates for those unsecured notes that are not forgiven but are required to be repaid. The Company records bad debt expense in SG&A expenses in the accompanying consolidated statements of income in the quarter when the note is deemed uncollectible.

Stock Compensation.

The Company's policy is to recognize compensation cost related to share-based payment transactions in the financial statements based on the fair value of the equity or liability instruments issued. Compensation expense related to the fair value of share-based awards is recognized over the requisite service period based on an estimate of those awards that will ultimately vest. The Company estimates the share-based compensation expense for awards that will ultimately vest upon inception of the grant and adjusts the estimate of share-based compensation for those awards with performance and/or service requirements that will not be satisfied so that compensation cost is recognized only for awards that ultimately vest.

Table of Contents

Income Taxes.

Income taxes are recorded using the asset and liability method of accounting for income taxes. Deferred income taxes reflect the net tax effect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. A valuation allowance is provided for deferred tax assets if it is more likely than not such assets will be unrealized. Deferred U.S. income taxes have not been recorded for temporary differences related to investments in certain foreign subsidiaries and corporate affiliates. The temporary differences consist primarily of undistributed earnings that are considered permanently reinvested in operations outside the U.S. If management's intentions change in the future, deferred taxes may need to be provided.

With respect to uncertain income tax positions, a tax liability is recorded in full when management determines that the position does not meet the more likely than not threshold of being sustained on examination. A tax liability may also be recognized for a position that meets the more likely than not threshold, based upon management's assessment of the position's probable settlement value. The Company records interest and penalties on unrecognized tax benefits in the provision for income taxes.

Pension, Profit Sharing and Incentive Plans

The Company sponsors two non-qualified retirement savings and investment plans for certain employees and senior executives. Employee and Company contributions are maintained in separate irrevocable trusts. Legally, the assets of the trusts remain those of the Company; however, access to the trusts' assets is severely restricted. The trusts' cannot be revoked by the Company or an acquirer, but the assets are subject to the claims of the Company's general creditors. The participants do not have the right to assign or transfer contractual rights in the trusts.

In 2002, the Company adopted the Choice Hotels International, Inc. Executive Deferred Compensation Plan ("EDCP") which became effective January 1, 2003. Under the EDCP, certain executive officers may defer a portion of their salary into an irrevocable trust. Prior to January 1, 2010, participants could elect an investment return of either the annual yield of the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points, or a return based on a selection of available diversified investment options. Effective January 1, 2010, the Moody's Average Corporate Bond Rate Yield Index plus 300 basis points is no longer an investment option for salary deferrals made on compensation earned after December 31, 2009. The Company recorded current and long-term deferred compensation liabilities of \$15.6 million and \$17.2 million, as of March 31, 2012 and December 31, 2011, respectively, related to these deferrals and credited investment returns. Compensation expense is recorded in SG&A expense on the Company's consolidated statements of income based on the change in the deferred compensation obligation related to earnings credited to participants as well as changes in the fair value of diversified investments. Compensation expense recorded in SG&A for the three months ended March 31, 2012 and 2011 was \$0.4 million and \$0.3 million respectively.

The Company has invested the employee salary deferrals in diversified long-term investments which are intended to provide investment returns that partially offset the earnings credited to the participants. The diversified investments held in the trusts totaled \$7.4 million and \$14.2 million as of March 31, 2012 and December 31, 2011, respectively, and are recorded at their fair value, based on quoted market prices. At March 31, 2012, the Company expects \$5.2 million of the assets held in the trust to be distributed during the year ended December 31, 2012 to participants. These investments are considered trading securities and therefore the changes in the fair value of the diversified assets is included in other gains and losses in the accompanying statements of income. The Company recorded investment gains during the three months ended March 31, 2012 and 2011 of approximately \$1.1 million and \$0.4 million, respectively.

In 1997, the Company adopted the Choice Hotels International, Inc. Non-Qualified Retirement Savings and Investment Plan ("Non-Qualified Plan"). The Non-Qualified Plan allows certain employees who do not participate in the EDCP to defer a portion of their salary and invest these amounts in a selection of available diversified investment options. As of March 31, 2012 and December 31, 2011, the Company had recorded a deferred compensation liability of \$11.3 million and \$10.4 million, respectively related to these deferrals. Compensation expense is recorded in SG&A expense on the Company's consolidated statements of income based on the change in the deferred compensation obligation related to earnings credited to participants as well as changes in the fair value of diversified investments. The net increase in compensation expense recorded in SG&A for the three months ended March 31, 2012 and 2011 was \$0.9 million and \$0.3 million respectively.

The diversified investments held in the trusts were \$10.5 million and \$9.5 million as of March 31, 2012 and December 31, 2011, respectively, and are recorded at their fair value, based on quoted market prices. These investments are considered trading securities and therefore the changes in the fair value of the diversified assets is included in other gains and losses in the accompanying statements of income. The Company recorded investment gains during the three months ended March 31, 2012 and 2011 of approximately \$0.9 million and \$0.3 million, respectively. In addition, the Non-Qualified Plan held shares of the Company's common stock with a market value of \$0.9 million at both March 31, 2012 and December 31, 2011, respectively, which are recorded as a component of shareholders' deficit.

New Accounting Standards

See Footnote No. 1 "Recently Adopted Accounting Guidance" of the Notes to our Financial Statements for information related to our adoption of new accounting standards in 2012 and for information on our anticipated adoption of recently issued accounting standards.

FORWARD-LOOKING STATEMENTS

Certain matters discussed in this press release constitute forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Generally, our use of words such as "expect," "estimate," "believe," "anticipate," "will," "forecast," "plan," "project," "assume" or similar words of futurity identify such forward-looking statements. These forward-looking statements are based on management's current beliefs, assumptions and expectations regarding future events, which in turn are based on information currently available to management. Such statements may relate to projections of the Company's revenue, earnings and other financial and operational measures, Company debt levels, payment of stock dividends, and future operations, among other matters. We caution you not to place undue reliance on any such forward-looking statements. Forward-looking statements do not guarantee future performance and involve known and unknown risks, uncertainties and other factors.

Several factors could cause actual results, performance or achievements of the Company to differ materially from those expressed in or contemplated by the forward-looking statements. Such risks include, but are not limited to, changes to general, domestic and foreign economic conditions; operating risks common in the lodging and franchising industries; changes to the desirability of our brands as viewed by hotel operators and customers; changes to the terms or termination of our contracts with franchisees; our ability to keep pace with improvements in technology utilized for reservations systems and other operating systems; fluctuations in the supply and demand for hotels rooms; and our ability to manage effectively our indebtedness. These and other risk factors are discussed in detail in the Risk Factors section of the Company's Form 10-K for the year ended December 31, 2011, filed with the Securities and Exchange Commission on February 29, 2012. We undertake no obligation to publicly update or revise any forward-looking statement, whether as a result of new information, future events or otherwise.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company is exposed to market risk from changes in interest rates and the impact of fluctuations in foreign currencies on the Company's foreign investments and operations. The Company manages its exposure to these market risks through the monitoring of its available financing alternatives including in certain circumstances the use of derivative financial instruments. We are also subject to risk from changes in debt and equity prices from our non-qualified retirement savings plan investments in debt securities and common stock, which have a carrying value of \$17.9 million and \$23.8 million at March 31, 2012 and December 31, 2011, respectively which we account for as trading securities. The Company will continue to monitor the exposure in these areas and make the appropriate adjustments as market conditions dictate.

At March 31, 2012, the Company had \$5.9 million outstanding under its variable interest rate debt instrument at a weighted average effective interest rate of 1.7%. A hypothetical change of 10% in the Company's effective interest rate from March 31, 2012 levels would increase or decrease interest expense by approximately ten thousand dollars. The Company expects to refinance its fixed and variable long-term debt obligations prior to their scheduled maturities. The Company does not presently have any derivative financial instruments.

ITEM 4. CONTROLS AND PROCEDURES

The Company has a disclosure review committee whose membership includes the Chief Executive Officer ("CEO") and Chief Financial Officer ("CFO"), among others. The CEO and CFO consider the disclosure review committee's procedures in performing their evaluations of the Company's disclosure controls and procedures (as such term is defined in Rule 13a-15(e) under the Securities Exchange Act of 1934) and in assessing the accuracy and completeness

of the Company's disclosures.

An evaluation was performed under the supervision and with the participation of the Company's CEO and CFO of the effectiveness of the design and operation of the Company's disclosure controls and procedures. Based on that evaluation, the Company's management, including the CEO and CFO, concluded that the Company's disclosure controls and procedures were effective as of March 31, 2012.

Table of Contents

There has been no change in the Company's internal controls over financial reporting that occurred during the quarter ended March 31, 2012, that materially affected, or is reasonably likely to materially affect the Company's internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

The Company is not a party to any litigation other than routine litigation incidental to its business. The Company's management does not expect that the outcome of any of its currently ongoing legal proceedings, individually or collectively, will have a material adverse effect on the Company's financial condition, results of operations or cash flow.

In 2011, the Company filed suit in United States District Court against a franchisee for breach of contract, trademark infringement, fraudulent inducement and negligent misrepresentation. The franchisee filed an arbitration action against the Company alleging wrongful termination of its franchise agreements. The parties agreed to litigate all claims in an arbitration action which was settled on April 4, 2012. The settlement of the arbitration action did not have a material impact on the Company's financial statements.

ITEM 1A. RISK FACTORS

In addition to the other information set forth in this report, you should carefully consider the factors discussed in Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2011, which could materially affect our business, financial condition or future results. The risks described in our Annual Report on Form 10-K are not the only risks facing our Company. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Issuer Purchases of Equity Securities

The following table sets forth purchases and redemptions of Choice Hotels International, Inc. common stock made by the Company during the three months ended March 31, 2012:

Month Ending	Total Number of Shares Purchased or Redeemed	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ^{(1),(2)}	Maximum Number of Shares that may yet be Purchased Under the Plans or Programs, End of Period
January 31, 2012	90,978	\$36.42	90,978	1,865,584
February 28, 2012	161,241	36.29	110,077	1,755,507
March 31, 2012	152,302	37.35	148,304	1,607,203
Total	404,521	\$36.72	349,359	1,607,203

(1) The Company's share repurchase program was initially approved by the board of directors on June 25, 1998. The program has no fixed dollar amount or expiration date.

During the three months ended March 31, 2012, the Company redeemed 55,162 shares of common stock from (2)employees to satisfy minimum tax-withholding requirements related to the vesting of restricted stock grants. These redemptions were not part of the board repurchase authorization.
