LETTER TO SHAREHOLDERS

February 1, 2006

DEAR SHAREHOLDER:

For the year ended December 31, 2005, the net asset value (NAV) of The Chile Fund, Inc. (the "Fund") increased by 12.91%, vs. an increase of 20.90% for the Morgan Stanley Capital International Chile Index.(1) These figures are after adjusting for two dividend payments, which in the period had a unusually large impact on the NAV. On September 16, 2005, the Fund paid a dividend of US\$1.26 per share to shareholders, and on January 6, 2006, the Fund paid a dividend of US\$3.08 per share. This dividend went ex-dividend on December 19, 2005. This means that over the course of 2005, the Fund paid dividends totaling approximately 28% of the total size of the Fund at the start of the period.

The market price of the Fund's shares rose 26.16% during the year, closing at US\$17.65. As a result, the Fund's shares went from a 10.8% discount to NAV to a 24.6% premium to NAV.

THE CHILEAN ECONOMY CONTINUES TO PERFORM WELL

The Chilean economy continues to go from strength to strength in many respects, even after many years of impressive performance. 2005 was no exception. Economic activity surprised to the upside throughout the year, driven not just by the strength of commodity prices, but more importantly by domestic demand. We believe that economic growth will probably finish the year in excess of 6%. Unemployment fell to 6.9%, the lowest level since 1997. Retail sales were robust, as was credit growth. Foreign trade was strong, boosted by the price of copper, which reached all time highs. The country's trade surplus was US\$9.24 billion at the end of the year, above the US\$9.02 billion surplus in 2004. Behind this number is impressive growth not only in exports but also imports. The government continued to run a tight ship fiscally, running a budget surplus equivalent to 4.8% of GDP.

Edgar Filing: CHILE FUND INC - Form N-CSR

The only cause for mild concern in our mind has been inflation, which began to pick up in late 2004. Chile's Central Bank started a tightening cycle in September 2004, and has raised interest rates very gradually since then from a low of 1.75% to 4.25% as of December 31, 2005. Headline inflation has fallen to 4.0%, at the top of its target range, although core inflation remains subdued. The Central Bank continues to describe monetary conditions as expansive, so we expect that the tightening cycle is not over, even though we do not expect significant further increases.

The currency has been buoyed by strong trade flows. The Chilean Peso finished the year at Ch\$512 to the US Dollar, 7.8% stronger in nominal terms than the rate at the end of 2004. A significant portion of the Fund's returns in 2005, therefore, came from currency appreciation.

We start 2006 with a new Government in power. Michelle Bachelet, a Socialist representing the ruling CONCERTACION coalition of Centrist and Left wing parties, won a fourth consecutive election victory for the CONCERTACION on January 15, 2006. Market consensus is that the new government represents continuity with an outgoing administration which was highly regarded, both internally and externally. We are more cautious and believe that we might see the new President pushing a more aggressive Socialist agenda. We are particularly concerned about plans to reform the Pension Fund system in Chile. We were encouraged however by her choice of Cabinet, in particular by the choice of the well known Harvard economist, Andres Velasco, as the new Minister of Finance.

1

EQUITY MARKET CONDITIONS SUPPORTIVE

The global environment was broadly favorable for emerging markets. Ample liquidity conditions as a result of low global interest rates, robust global growth and high investor appetite for higher-return and higher-risk assets drove outperformance versus developed markets for the year as a whole, notwithstanding a mid-period downturn. Ironically, this meant that, in a regional context, Chile underperformed the higher beta markets such as Brazil and Argentina.

Unlike other stock markets in Latin America, the size of Chile's domestic capital markets means that the equity market is relatively indifferent to foreign portfolio flows. Foreign investor interest in Chile is modest. 2005 was an unusual year in that, for the first time in many years, the main driver was domestic retail flows rather than flows from the pension fund administrators, who for much of the year were bumping up against their statutory maximums for exposure to equities. This led to excellent liquidity conditions for most of the year, as well as a continuation of equity capital markets activity. This changed in the third quarter of the year, when an increase in the rate of CPI inflation was the trigger for outflows from the mutual fund system. This led to a relatively weak fourth quarter.

PORTFOLIO

In terms of the portfolio, this was a difficult market environment for the Fund in relative terms. This was a year when, on balance, the most liquid companies with the largest market capitalization outperformed less liquid companies. The diversification requirements imposed on the Fund by the United States Internal Revenue Code limit the Fund's overall exposure to the companies with the largest market capitalization and force us to be underweight companies with the largest representation in the benchmark indices. This has hurt returns.

Sector allocation was marginally positive to relative performance. Our

Edgar Filing: CHILE FUND INC - Form N-CSR

overweight in Consumer Discretionary and our underweight in Industrials and Telecommunications Services paid off. On the negative side, our overweight in Consumer Staples and underweight in Utilities detracted from returns.

At the stock level, our positions in Comercial Siglo XXI (2.4% of the Fund as of December 31, 2005), which owns a department store (La Polar), Empresa Nacional de Electricidad (17.5%) and non-benchmark Laboratorios Andromaco (0.5%) contributed strongly. Our underweight in Lan Airlines (1.4%) and Madeco also contributed. On the negative side our overweight in Compania Cervecerias Unidas (4.5%) and our underweight in Enersis (4.3%) hurt returns.

OUTLOOK

Looking ahead, our views on Chile and its stock market remains generally positive. The economy made significant progress in 2005, and we think it has the potential to generate similar growth in 2006, driven primarily by continuing strong domestic consumption.

The risks we believe are mostly external: in particular, commodity prices which have already remained stronger for longer than many had predicted, will be key. As an export driven economy, Chile is sensitive to global growth and as a Pacific-facing country, trade with Asia and the emerging China also remains important.

The main internal risk is political, we believe. The market is likely to be sensitive to any signs of directional change from the new Government and, in particular, any reforms that might threaten the stability of domestic capital markets.

Ironically, equity valuations, which in the case of Chile have seldom been placed on the positive side of the ledger, are now looking quite attractive. For the first time in many years, Chilean equities, based on certain measures and within

2

certain sectors, are looking cheaper than comparable companies in Mexico. We expect foreign investment flows to be more of a factor in 2006 than they were in 2005.

For our part, we will continue to look for reasonably valued companies we think can deliver consistent earnings growth. We believe that in 2006, companies that trade at cheaper valuations are likely to be more highly prized than they were in 2005. From a sector perspective, we continue to be overweight in consumer areas such as beverages and specific retail stocks, as we think the consumer could be a key driver of Chile's economy over the next several years.

Respectfully,

THE CHILE FUND, INC.

NOTES TO FINANCIAL STATEMENTS

NOTE A. ORGANIZATION

The Chile Fund, Inc. (the "Fund") was incorporated in Maryland on January 30, 1989 and commenced investment operations on September 27, 1989. The Fund is registered under the Investment Company Act of 1940, as amended, as a closed-end, non-diversified management investment company.

NOTE B. SIGNIFICANT ACCOUNTING POLICIES

USE OF ESTIMATES: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

SECURITY VALUATION: The net asset value of the Fund is determined daily as of the close of regular trading on the New York Stock Exchange, Inc. (the "Exchange") on each day the Exchange is open for business. The Fund's equity investments are valued at market value, which is generally determined using the closing price on the exchange or market on which the security is primarily traded at the time of valuation (the "Valuation Time"). If no sales are reported, equity investments are generally valued at the most recent bid quotation as of the Valuation Time or at the lowest ask quotation in the case of a short sale of securities. Debt securities with a remaining maturity greater than 60 days are valued in accordance with the price supplied by a pricing service, which may use a matrix, formula or other objective method that takes into consideration market indices, yield curves and other specific adjustments. Debt obligations that will mature in 60 days or less are valued on the basis of amortized cost, which approximates market value, unless it is determined that this method would not represent fair value. Investments in mutual funds are valued at the mutual fund's closing net asset value per share on the day of valuation.

Securities and other assets for which market quotations are not readily available, or whose values have been materially affected by events occurring before the Fund's Valuation Time, but after the close of the securities' primary market, are valued at fair value as determined in good faith by, or under the direction of, the Board of Directors under procedures established by the Board of Directors. The Fund may utilize a service provided by an independent third party which has been approved by the Board of Directors to fair value certain securities. At December 31, 2005, the Fund held 2.60% of its net assets in a security valued at fair value as determined in good faith under procedures established by the Board of Directors with an aggregate cost of \$4,296,118 and fair value of \$3,732,146. The Fund's estimate of fair value assumes a willing buyer and a willing seller neither acting under a compulsion to buy or sell. Although this security may be resold in privately negotiated transactions, the prices realized on such sales could differ from the price originally paid by the Fund or the current carrying value, and the difference could be material.

SHORT-TERM INVESTMENT: The Fund sweeps available cash into a short-term time deposit available through Brown Brothers Harriman & Co., the Fund's custodian.

Edgar Filing: CHILE FUND INC - Form N-CSR

The short-term time deposit is a variable rate account classified as a short-term investment.

INVESTMENT TRANSACTIONS AND INVESTMENT INCOME: Investment transactions are accounted for on a trade date basis. The cost of investments sold is determined by use of the specific identification method for both financial reporting and U.S. income tax purposes. Interest income is accrued as earned; dividend income is recorded on the ex-dividend date.

TAXES: No provision is made for U.S. income or excise taxes as it is the Fund's intention to continue to qualify

12

as a regulated investment company and to make the requisite distributions to its shareholders sufficient to relieve it from all or substantially all U.S. income and excise taxes.

The Fund accrues foreign taxes on realized gains and repatriation taxes in an amount equal to what the Fund would owe if the securities were sold and the proceeds repatriated on the valuation date as a liability and reduction of realized/unrealized gains. Taxes on foreign income are recorded when the related income is recorded. For the year ended December 31, 2005, the Fund incurred \$425,159 of such expense.

FOREIGN CURRENCY TRANSLATIONS: The books and records of the Fund are maintained in U.S. dollars. Foreign currency amounts are translated into U.S. dollars on the following basis:

- (I) market value of investment securities, assets and liabilities at the valuation date rate of exchange; and
- (II) purchases and sales of investment securities, income and expenses at the relevant rates of exchange prevailing on the respective dates of such transactions.

The Fund does not isolate that portion of gains and losses on investments in equity securities which is due to changes in the foreign exchange rates from that which is due to changes in market prices of equity securities. Accordingly, realized and unrealized foreign currency gains and losses with respect to such securities are included in the reported net realized and unrealized gains and losses on investment transactions balances.

The Fund reports certain foreign currency related transactions and foreign taxes withheld on security transactions as components of realized gains for financial reporting purposes, whereas such foreign currency related transactions are treated as ordinary income for U.S. income tax purposes.

Net unrealized currency gains or losses from valuing foreign currency denominated assets and liabilities at period end exchange rates are reflected as a component of net unrealized appreciation/depreciation in value of investments, and translation of other assets and liabilities denominated in foreign currencies.

Net realized foreign exchange gains or losses represent foreign exchange gains and losses from transactions in foreign currencies and forward foreign currency contracts, exchange gains or losses realized between the trade date and settlement date on security transactions, and the difference between the amounts of interest and dividends recorded on the Fund's books and the U.S. dollar equivalent of the amounts actually received.

Edgar Filing: CHILE FUND INC - Form N-CSR

DISTRIBUTIONS OF INCOME AND GAINS: The Fund distributes at least annually to shareholders substantially all of its net investment income and net realized short-term capital gains, if any. The Fund determines annually whether to distribute any net realized long-term capital gains in excess of net realized short-term capital losses, including capital loss carryovers, if any. An additional distribution may be made to the extent necessary to avoid the payment of a 4% U.S. federal excise tax. Dividends and distributions to shareholders are recorded by the Fund on the ex-dividend date.

The character of distributions made during the year from net investment income or net realized gains may differ from their ultimate characterization for U.S. income tax purposes due to U.S. generally accepted accounting principles/tax differences in the character of income and expense recognition.

OTHER: The Fund invests in securities of foreign countries and governments which involve certain risks in addition to those inherent in domestic investments. Such risks generally include, among others, currency risk (fluctuations in currency exchange rates), information risk (key information may be inaccurate

13

or unavailable) and political risk (expropriation, nationalization or the imposition of capital or currency controls or punitive taxes). Other risks of investing in foreign securities include liquidity and valuation risks.

Securities denominated in currencies other than U.S. dollars are subject to changes in value due to fluctuations in exchange rates.

The Chilean securities markets are substantially smaller, less liquid and more volatile than the major securities markets in the United States. Consequently, acquisition and disposition of securities by the Fund may be inhibited. A significant proportion of the aggregate market value of equity securities listed on the Santiago Exchange are held by a small number of investors and are not publicly traded. This may limit the number of shares available for acquisition or disposition by the Fund.

Investments in Chile may involve certain considerations and risks not typically associated with investments in the United States, including the possibility of future political and economic developments and the level of Chilean governmental supervision and regulation of its securities markets.

The Fund, subject to local investment limitations, may invest up to 20% of its assets (at the time of commitment) in illiquid equity securities, including securities of private equity funds (whether in corporate or partnership form) that invest primarily in the emerging markets. When investing through another investment fund, the Fund will bear its proportionate share of the expenses incurred by that fund, including management fees. Such securities are expected to be illiquid, which may involve a high degree of business and financial risk and may result in substantial losses. Because of the current absence of any liquid trading market for these investments, the Fund may take longer to liquidate these positions than would be the case for publicly traded securities. Although these securities may be resold in privately negotiated transactions, the prices realized on such sales could be substantially less than those originally paid by the Fund or the current carrying values and these difference could be material. Further, companies whose securities are not publicly traded may not be subject to the disclosure and other investor protection requirements applicable to companies whose securities are publicly traded.

Edgar Filing: CHILE FUND INC - Form N-CSR

14

For the year ended December 31, 2005, Celfin earned approximately \$140,000 in brokerage commissions from portfolio transactions executed on behalf of the Fund.

Bear Stearns Funds Management Inc. ("BSFM") serves as the Fund's U.S. administrator. The Fund pays BSFM a monthly fee that is calculated weekly based on the Fund's average weekly net assets. For the year ended December 31, 2005, BSFM earned \$112,116 for administrative services.

Celfin Capital S.A. Administradora de Fondos de Capital Extranjero ("AFCE") serves as the Fund's Chilean administrator. For its services, AFCE is paid a fee, out of the advisory fee payable to Credit Suisse, that is calculated weekly and paid quarterly at an annual rate of 0.05% of the Fund's average weekly market value or net assets (whichever is lower). In addition, AFCE receives a supplemental administration fee, an annual reimbursement of out-of-pocket expenses and an accounting fee. For the year ended December 31, 2005, the administration fees, supplemental administration fees and accounting fees amounted to \$78,615, \$79,581 and \$5,997, respectively.

The Independent Directors receive fifty percent (50%) of their annual retainer in the form of shares purchased by the Fund's transfer agent in the open market. Directors as a group own less than 1% of the Fund's outstanding shares.

NOTE D. CAPITAL STOCK

The authorized capital stock of the Fund is 100,000,000 shares of common stock, \$0.001 par value. Of the 10,139,926 shares outstanding at December 31, 2005, Credit Suisse owned 14,615 shares.

NOTE E. INVESTMENT IN SECURITIES

NOTE F. CREDIT FACILITY

The Fund, together with other funds/portfolios advised by Credit Suisse

Edgar Filing: CHILE FUND INC - Form N-CSR

(collectively, the "Participating Funds"), participates in a \$75 million committed, unsecured, line of credit facility ("Credit Facility") with Deutsche Bank, A.G. as administrative agent and syndication agent and State Street Bank and Trust Company as operations agent for temporary or emergency purposes. Under the terms of the Credit Facility, the Participating Funds pay an aggregate commitment fee at a rate of 0.10% per annum on the average unused amount of the Credit Facility, which is allocated among the Participating Funds in such manner as is determined by the governing Boards of the Participating Funds. In addition, the Participating Funds pay interest on borrowings at the Federal Funds rate plus 0.50%. During the year ended December 31, 2005, the Fund had no borrowings under the Credit Facility.

15

NOTE G. FEDERAL INCOME TAXES

Income and capital gain distributions are determined in accordance with federal income tax regulations, which may differ from GAAP. These differences are primarily due to differing treatments of foreign currency transactions, losses deferred due to wash sales, and Post-October losses (as defined below).

The tax character of dividends and distributions paid during the years ended December 31 for the Fund were as follows:

ORDINARY INCOME		LONG-TERM CAPITAL GAINS	
2005	2004	2005	2004
\$ 6,895,150	\$ 4,765,765	\$ 37,112,129	\$ 17,846,270

Under current tax law, certain capital losses realized after October 31 within a taxable year may be deferred and treated as occurring on the first day of the following tax year ("Post-October losses"). For the tax year ended December 31, 2005, the Fund incurred and elected to defer net realized foreign currency losses of \$18,104.

The tax basis of components of distributable earnings differ from the amounts reflected in the Statement of Assets and Liabilities by temporary book/tax differences. These differences are primarily due to losses deferred on wash sales and deferred Post-October losses.

At December 31, 2005, the components of distributable earnings on a tax basis for the Fund were as follows:

Undistributed ordinary income	\$ 1,788,740
Accumulated net realized gain	865,270
Unrealized appreciation	59,918,903

Total distributable earnings	\$ 62,572,913
	=====

At December 31, 2005, the identified cost for federal income tax purposes, as well as the gross unrealized appreciation from investments for those securities having an excess of value over cost, gross unrealized depreciation from

Edgar Filing: CHILE FUND INC - Form N-CSR

investments for those securities having an excess of cost over value and the net unrealized appreciation from investments were \$111,560,444, \$62,168,599, \$(2,166,453) and \$60,002,146, respectively.

At December 31, 2005, the Fund reclassified \$371,020 to accumulated net realized gain on investments and foreign currency related transactions from undistributed net investment income. Net assets were not affected by this reclassification.

NOTE H. CONTINGENCIES

In the normal course of business, the Fund may provide general indemnifications pursuant to certain contracts and organizational documents. The Fund's maximum exposure under these arrangements is dependent on future claims that may be made against the Fund and, therefore, cannot be estimated; however, based on experience, the risk of loss from such claims is considered remote.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Board of Directors and Shareholders
of The Chile Fund, Inc.:

In our opinion, the accompanying statement of assets and liabilities, including the schedule of investments, and the related statements of operations, of changes in net assets and the financial highlights present fairly, in all material respects, the financial position of The Chile Fund, Inc. (the "Fund") at December 31, 2005, the results of its operations for the year then ended, the changes in its net assets for each of the two years in the period then ended, and the financial highlights for each of the ten years in the period then ended, in conformity with accounting principles generally accepted in the United States of America. These financial statements and financial highlights (hereafter referred to as "financial statements") are the responsibility of the Fund's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these financial statements in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits, which included confirmation of securities at December 31, 2005 by correspondence with the custodian and issuers, provide a reasonable basis for our opinion.

TAX INFORMATION (UNAUDITED)

The Fund is required by Subchapter M of the Internal Revenue Code of 1986, as amended, to advise its shareholders within 60 days of the Fund's year end (December 31, 2005) as to the U.S. federal tax status of dividends and distributions received by the Fund's shareholders in respect of such year. Of the \$4.34 per share distribution paid in respect of such year, \$0.68 per share was derived from net investment income and \$3.66 per share was derived from net realized long-term capital gains. The Fund has met the requirements to pass through all ordinary income as qualified dividends as noted on Box 1B on Form 1099-DIV. Please note that to utilize the lower tax rate for qualifying dividend income, shareholders must have held their shares in the Fund for at least 61 days during the 121 day period beginning 60 days before the ex-dividend date. There were no distributions which qualified for the dividend received deduction available to corporate shareholders.

The Fund does not intend to make an election under Section 853 to pass through foreign taxes paid by the Fund to its shareholders. This information is given to meet certain requirements of the Internal Revenue Code of 1986, as amended. Shareholders should refer to their Form 1099-DIV to determine the amount includable on their respective tax returns for 2005.

Notification for calendar year 2005 was mailed in January 2006. The notification along with Form 1099-DIV reflects the amount to be used by calendar year taxpayers on their U.S. federal income tax returns.

Foreign shareholders will generally be subject to U.S. withholding tax on the amount of the actual ordinary dividends paid by the Fund. They will generally not be entitled to foreign tax credit or deduction for the withholding taxes paid by the Fund.

In general, distributions received by tax-exempt recipients (e.g., IRAs and Keoghs) need not be reported as taxable income for U.S. federal income tax purposes. However, some retirement trusts (e.g., corporate, Keogh and 403(b)(7) plans) may need this information for their annual information reporting.

Shareholders are advised to consult their own tax advisers with respect to the

Edgar Filing: CHILE FUND INC - Form N-CSR

tax consequences of their investment in the Fund.

DESCRIPTION OF INVESTLINK(SM) PROGRAM (UNAUDITED)

The InvestLink(SM) Program is sponsored and administered by Computershare Trust Company, N.A., ("Computershare"), not by The Chile Fund, Inc. (the "Fund"). Computershare will act as program administrator (the "Program Administrator") of the InvestLink(SM) Program (the "Program"). The purpose of the Program is to provide existing shareholders with a simple and convenient way to invest additional funds and reinvest dividends in shares of the Fund's common stock ("Shares") at prevailing prices, with reduced brokerage commissions and fees.

In order to participate in the Program, you must be a registered holder of at least one Share of stock of the Fund. Purchases of Shares with funds from a participant's cash payment or automatic account deduction will begin on the next day on which funds are invested. All cash payments must be drawn on a U.S. bank and payable in U.S. dollars. Checks must be made payable to Computershare. If a participant selects the dividend reinvestment option, automatic investment of dividends generally will begin with the next dividend payable after the Program Administrator receives his enrollment form. Once in the Program, a person will remain a participant until he terminates his participation or sells all Shares held in his Program account, or his account is terminated by the Program Administrator. A participant may change his investment options at any time by requesting a new enrollment form and returning it to the Program Administrator.

A participant will be assessed certain charges in connection with his participation in the Program. All optional cash deposit investments will be subject to a service charge. Sales processed through the Program will have a service fee deducted from the net proceeds, after brokerage commissions. In addition to the transaction charges outlined above, participants will be assessed per share processing fees (which include brokerage commissions.) Participants will not be charged any fee for reinvesting dividends.

The number of Shares to be purchased for a participant depends on the amount of his dividends, cash payments or bank account or payroll deductions, less applicable fees and commissions, and the purchase price of the Shares. The investment date for cash payments is the 25th day of each month (or the next trading day if the 25th is not a trading day). The investment date for dividend reinvestment is the dividend payment date. The Program Administrator uses dividends and funds of participants to purchase Shares of the Fund in the open market. Such purchases will be made by participating brokers as agent for the participants using normal cash settlement practices. All Shares purchased through the Program will be allocated to participants as of the settlement date, which is usually three business days from the purchase date. In all cases, transaction processing will occur within 30 days of the receipt of funds, except where temporary curtailment or suspension of purchases is necessary to comply with applicable provisions of the Federal Securities laws or when unusual market conditions make prudent investment impracticable. In the event the Program Administrator is unable to purchase Shares within 30 days of the receipt of funds, such funds will be returned to the participants.

The average price of all Shares purchased by the Program Administrator with all funds received during the time period from two business days preceding any investment date up to the second business day preceding the next investment date shall be the price per share allocable to a participant in connection with the Shares purchased for his account with his funds or dividends received by the Program Administrator during such time period. The average price of all Shares sold by the Program Administrator pursuant to sell orders received during such time period shall be the price per share allocable to a participant in

Edgar Filing: CHILE FUND INC - Form N-CSR

connection with the Shares sold for his account pursuant to his sell orders received by the Program Administrator during such time period. All sale requests having an

20

anticipated market value of \$100,000.00 or more are expected to be submitted in written form. In addition, all sale requests received by the Program Administrator within thirty (30) days of an address change are expected to be submitted in written form.

Computershare, as Program Administrator, administers the Program for participants, keeps records, sends statements of account to participants and performs other duties relating to the Program. Each participant in the Program will receive a statement of his account following each purchase of Shares. The statements will also show the amount of dividends credited to such participant's account (if applicable), as well as the fees paid by the participant. In addition, each participant will receive copies of the Fund's annual and semi-annual reports to shareholders, proxy statements and, if applicable, dividend income information for tax reporting purposes.

If the Fund is paying dividends on the Shares, a participant will receive dividends through the Program for all Shares held on the dividend record date on the basis of full and fractional Shares held in his account, and for all other Shares of the Fund registered in his name. The Program Administrator will send checks to the participants for the amounts of their dividends that are not to be automatically reinvested at no cost to the participants.

Shares of the Fund purchased under the Program will be registered in the name of the accounts of the respective participants. Unless requested, the Fund will not issue to participants certificates for Shares of the Fund purchased under the Program. The Program Administrator will hold the Shares in book-entry form until a Program participant chooses to withdraw his Shares or terminate his participation in the Program. The number of Shares purchased for a participant's account under the Program will be shown on his statement of account. This feature protects against loss, theft or destruction of stock certificates.

A participant may withdraw all or a portion of the Shares from his Program account by notifying the Program Administrator. After receipt of a participant's request, the Program Administrator will issue to such participant certificates for the whole Shares of the Fund so withdrawn or, if requested by the participant, sell the Shares for him and send him the proceeds, less applicable brokerage commissions, fees, and transfer taxes, if any. If a participant withdraws all full and fractional Shares in his Program account, his participation in the Program will be terminated by the Program Administrator. In no case will certificates for fractional Shares be issued. The Program Administrator will convert any fractional Shares held by a participant at the time of his withdrawal to cash.

Participation in any rights offering, dividend distribution or stock split will be based upon both the Shares of the Fund registered in participants' names and the Shares (including fractional Shares) credited to participants' Program accounts. Any stock dividend or Shares resulting from stock splits with respect to Shares of the Fund, both full and fractional, which participants hold in their Program accounts and with respect to all Shares registered in their names will be automatically credited to their accounts.

All Shares of the Fund (including any fractional share) credited to his account under the Program will be voted as the participant directs. The participants will be sent the proxy materials for the annual meetings of shareholders. When a participant returns an executed proxy, all of such Shares will be voted as

Edgar Filing: CHILE FUND INC - Form N-CSR

indicated. A participant may also elect to vote his Shares in person at the Shareholders' meeting.

21

A participant will receive tax information annually for his personal records and to help him prepare his U.S. federal income tax return. The automatic reinvestment of dividends does not relieve him of any income tax which may be payable on dividends. For further information as to tax consequences of participation in the Program, participants should consult with their own tax advisors.

The Program Administrator in administering the Program will not be liable for any act done in good faith or for any good faith omission to act. However, the Program Administrator will be liable for loss or damage due to error caused by its negligence, bad faith or willful misconduct. Shares held in custody by the Program Administrator are not subject to protection under the Securities Investors Protection Act of 1970.

The participant should recognize that neither the Fund nor the Program Administrator can provide any assurance of a profit or protection against loss on any Shares purchased under the Program. A participant's investment in Shares held in his Program account is no different than his investment in directly held Shares in this regard. The participant bears the risk of loss and the benefits of gain from market price changes with respect to all of his Shares. Neither the Fund nor the Program Administrator can guarantee that Shares purchased under the Program will, at any particular time, be worth more or less than their purchase price. Each participant must make an independent investment decision based on his own judgment and research.

While the Program Administrator hopes to continue the Program indefinitely, the Program Administrator reserves the right to suspend or terminate the Program at any time. It also reserves the right to make modifications to the Program. Participants will be notified of any such suspension, termination or modification in accordance with the terms and conditions of the Program. The Program Administrator also reserves the right to terminate any participant's participation in the Program at any time. Any question of interpretation arising under the Program will be determined in good faith by the Program Administrator and any such good faith determination will be final.

Any interested shareholder may participate in the Program. All other cash payments or bank account deductions must be at least \$100.00, up to a maximum of \$100,000.00 annually. An interested shareholder may join the Program by reading the Program description, completing and signing the enrollment form and returning it to the Program Administrator. The enrollment form and information relating to the Program (including the terms and conditions) may be obtained by calling the Program Administrator at one of the following telephone numbers: (800) 730-6001 (U.S. and Canada) or (781) 575-3100 (outside U.S. and Canada). All correspondence regarding the Program should be directed to: Computershare Trust Company, N.A., InvestLink(SM) Program, P.O. Box 43010, Providence, RI 02940-3010.

InvestLink is a service mark of Computershare Trust Company, N.A.

ANNUAL CERTIFICATIONS (UNAUDITED)

The Fund's Chief Executive Officer has filed an annual certification with the NYSE that, as of the date of the certification, he was unaware of any violation by the Fund of the NYSE's corporate governance listing standards. The Fund's Chief Executive Officer and Chief Financial Officer have also filed certifications with the SEC as part of the Fund's Form N-CSR filings that cover certain public disclosure documents of the Fund, including its annual and semi-annual reports to stockholders.

ADVISORY AGREEMENT APPROVAL DISCLOSURE (UNAUDITED)

BOARD CONSIDERATION AND RE-APPROVAL OF INVESTMENT ADVISORY AGREEMENT

Section 15(c) of the Investment Company Act of 1940 (the "1940 Act") contemplates that the Board of Directors (the "Board") of The Chile Fund, Inc. (the "Fund"), including a majority of the Directors who have no direct or indirect interest in the investment advisory and sub-advisory agreements and are not "interested persons" of the Fund, as defined in the 1940 Act (the "Independent Directors"), are required to annually review and re-approve the terms of the Fund's existing investment advisory and sub-advisory agreements and approve any newly proposed terms therein. In this regard, the Board reviewed and re-approved, during the most recent six months covered by this report: (i) an investment advisory agreement with Credit Suisse Asset Management, LLC ("Credit Suisse") for the Fund, and (ii) a sub-advisory agreement with CELFIN CAPITAL Servicios Financieros S.A. ("CELFIN" or the "Sub-Adviser") for the Fund. The investment advisory agreement with Credit Suisse and the investment sub-advisory agreement with CELFIN are collectively referred to as the "Advisory Agreements."

More specifically, at a meeting held on November 16-17, 2005, the Board, including the Independent Directors advised by their independent legal counsel, considered the factors and reached the conclusions described below relating to the selection of Credit Suisse and the Sub-Adviser and the re-approval of the Advisory Agreements.

NATURE, EXTENT AND QUALITY OF SERVICES

The Board received and considered various data and information regarding the nature, extent and quality of services provided to the Fund by Credit Suisse and the Sub-Adviser under the Advisory Agreements. The most recent investment adviser registration forms ("Forms ADV") for Credit Suisse and the Sub-Adviser were provided to the Board, as were responses of Credit Suisse and the Sub-Adviser to a detailed series of requests submitted by the Independent Directors' independent legal counsel on behalf of such Directors. The Board reviewed and analyzed these materials, which included, among other things, information about the background and experience of the senior management and the expertise of, and amount of attention devoted to the Fund by, investment personnel of Credit Suisse and the Sub-Adviser. In this regard, the Board specifically reviewed the qualifications, backgrounds and responsibilities of the individuals primarily responsible for day-to-day portfolio management services for the Fund.

In addition, the Board received and reviewed information on Securities and Exchange Commission ("SEC") and other regulatory inquiries and examinations relating to the Fund, Credit Suisse and the Sub-Adviser. The Board considered

Edgar Filing: CHILE FUND INC - Form N-CSR

the investment and legal compliance programs of each of these entities, including their implementation of enhanced compliance policies and procedures in response to SEC rule changes and other regulatory initiatives. The Board also considered the Fund's Chief Compliance Officer's report and recommendations.

The Board evaluated the ability of Credit Suisse and the Sub-Adviser, including their respective resources, reputations and other attributes, to attract and retain highly qualified investment professionals, including research, advisory, and supervisory personnel. In this regard, the Board considered information regarding Credit Suisse's compensation program for its personnel involved in the management of the Fund, including incentive and retirement plans.

27

Based on the above factors, together with those referenced below, the Board concluded that it was generally satisfied with the nature, extent and quality of the investment advisory services provided to the Fund by Credit Suisse and the Sub-Adviser.

FUND PERFORMANCE AND EXPENSES

The Board considered the performance results of the Fund over a number of years and since the inception of the Fund, as well as for recent periods. It also considered these results in comparison to the Fund's benchmark index, the MSCI Chile Index. Additionally, the Board compared the Fund's performance to that of another Chile fund. The Board noted that the Fund underperformed its benchmark index in recent periods. The Board also noted that, although the Fund had underperformed the other Chile fund in some periods, it had outperformed it in recent periods. The Board considered, however, that diversification requirements forced the Fund to be significantly underweighted in the largest and most liquid companies in Chile relative to the MSCI Chile Index. Additionally, the Board noted that Chilean pension fund shareholders have expressed their satisfaction with the composition of the Fund.

The Board received and considered statistical information regarding the Fund's total expense ratio and its various components, including management fees, non-management fees, fee waivers/caps and/or expense reimbursements and actual total expenses of the Fund (including and excluding investment-related expenses and taxes). It also considered comparisons of these fees to those of a group of funds that was determined to be the most similar to the Fund (the "Peer Group") and of a broader universe of relevant funds (the "Universe"). Lipper Inc. ("Lipper"), an independent provider of investment company data, determined the Peer Group and Universe for the Fund and provided the comparative data. The Board was provided with a description of the methodology used by Lipper to select the closed-end mutual funds in the Fund's Peer Group and Universe. The Board observed that the Fund's total expense ratio was higher than the median overall expense ratio of the Fund's Peer Group and Universe. The Board also noted that the non-management expenses of the Fund were lower than the Fund's Peer Group's median non-management expenses.

Based on the above-referenced considerations and other factors, the Board concluded that the overall performance and expense results supported the re-approval of the Advisory Agreements for the Fund.

INVESTMENT ADVISORY AND SUB-ADVISORY FEE RATES

The Board reviewed and considered the proposed contractual investment advisory fee rate (the "Advisory Agreement Rate") payable by the Fund to Credit Suisse for investment advisory services. The Board also reviewed and considered the proposed contractual investment sub-advisory fee rate (the "Sub-Advisory Agreement Rate") payable by Credit Suisse to the Sub-Adviser for investment

Edgar Filing: CHILE FUND INC - Form N-CSR

sub-advisory services. The Board noted that Credit Suisse had voluntary fee waivers in effect to base its current investment advisory fee upon the lower of the average weekly stock price or its average weekly net assets.

Additionally, the Board received and considered information comparing the Advisory Agreement Rate (both on a stand-alone basis and on a combined basis with the Fund's administration fee rates) with those of the other funds in its Peer Group. The Board noted that the combined rates of investment advisory and administration fees for the

28

Fund were not appreciably higher than the median rates of its Peer Group. The Board also noted that the Fund's administrator is not affiliated with Credit Suisse and that the Fund's administration agreement and corresponding fees were negotiated at arms-length. The Board concluded that the Advisory Agreement Rate for the Fund was not appreciably higher than the median rates of the Fund's Peer Group. The Board concluded that these and other factors supported the Advisory Agreement Rate and approved the Advisory Agreement for the Fund.

The Board also reviewed the Sub-Advisory Agreement Rate charged by CELFIN, which serves as Sub-Adviser to the Fund. The Board concluded that the Sub-Advisory Agreement Rate was fair and equitable, based on its consideration of the factors described above.

PROFITABILITY

The Board received and considered an estimated profitability analysis of Credit Suisse based on the Advisory Agreement Rate, as well as on other relationships between the Fund and Credit Suisse and its affiliates. The Board concluded that, in light of the costs of providing investment management and other services to the Fund, the profits and other ancillary benefits that Credit Suisse and its affiliates received with regard to providing these services to the Fund were not unreasonable.

The Board also received and considered an income statement related to the Fund from the Sub-Adviser. The Board observed the costs of providing portfolio management and other services to the Fund. The Board also noted that the sub-advisory fees are paid to CELFIN by Credit Suisse and not directly by the Fund, and that the Board separately determined that the Advisory Agreement Rate for the Fund was fair and equitable. Based on these factors, the Board concluded that the profits and other ancillary benefits that CELFIN and its affiliates received with regard to providing these services to the Fund were not unreasonable.

ECONOMIES OF SCALE

The Board received and considered information regarding whether there have been economies of scale with respect to the management of the Fund, whether the Fund has appropriately benefited from any economies of scale, and whether there is potential for realization of any further economies of scale. The Board concluded that any actual or potential economies of scale are, or will be, shared fairly with Fund shareholders, including most particularly through Advisory Agreement Rate breakpoints.

INFORMATION ABOUT SERVICES TO OTHER CLIENTS

The Board received and considered information about the nature and extent of services and fee rates offered by Credit Suisse to other clients, including other registered investment companies and institutional investors and investment companies to which Credit Suisse serves as an unaffiliated sub-adviser. The

Edgar Filing: CHILE FUND INC - Form N-CSR

Board also received and considered information about the nature and extent of services offered by the Sub-Adviser to other clients. The Board concluded that the Advisory Agreement Rate and Sub-Advisory Agreement Rate were reasonable, considering factors such as the nature and extent of services provided and comparison with rates offered to other clients.

29

Where Credit Suisse's rates offered to its other clients were appreciably lower, the Board considered that Credit Suisse's voluntary fee waivers would potentially decrease the Advisory Agreement Rate. The Board concluded, based on information provided by Credit Suisse, that the costs associated with managing and operating a registered, closed-end, country fund, compared with other clients or other funds, provided a justification for the higher fee rates charged to the Fund.

OTHER BENEFITS TO CREDIT SUISSE

The Board received and considered information regarding potential "fall-out" or ancillary benefits received by Credit Suisse and its affiliates as a result of their relationship with the Fund. Such benefits could include, among others, benefits directly attributable to the relationship of Credit Suisse with the Fund (such as soft-dollar credits) and benefits potentially derived from an increase in the business of Credit Suisse as a result of its relationship with the Fund (such as the ability to market to shareholders other financial products offered by Credit Suisse and its affiliates).

OTHER FACTORS AND BROADER REVIEW

As discussed above, the Board reviews detailed materials received from Credit Suisse and the Sub-Adviser annually as part of the re-approval process under Section 15(c) of the 1940 Act. The Board also reviews and assesses the quality of the services that the Fund receives throughout the year. In this regard, the Board reviews reports of Credit Suisse and the Sub-Adviser at least in each of its quarterly meetings, which include, among other things, a detailed portfolio review and detailed fund performance reports, and confers with the chief investment officer and managers of the Fund at various times throughout the year.

After considering the above-described factors and based on the deliberations and its evaluation of the information provided to it, the Board concluded that re-approval of the Advisory Agreements for the Fund was in the best interest of the Fund and its shareholders. Accordingly, the Board unanimously re-approved the Advisory Agreements.

Potential Conflicts of Interest

It is possible that conflicts of interest may arise in connection with the portfolio managers' management of the Portfolio's investments on the one hand and the investments of other accounts on the other. For example, the portfolio managers may have conflicts of interest in allocating management time, resources and investment opportunities among the Portfolio and other accounts they advise. In addition due to differences in the investment strategies or restrictions between the Portfolio and the other accounts, the portfolio managers may take action with respect to another account that differs from the action taken with respect to the Portfolio. Credit Suisse has adopted policies and procedures that are designed to minimize the effects of these conflicts.

If Credit Suisse believes that the purchase or sale of a security is in the best interest of more than one client, it may (but is not obligated to) aggregate the orders to be sold or purchased to seek favorable execution or lower brokerage commissions, to the extent permitted by applicable laws

and regulations. Credit Suisse may aggregate orders if all participating client accounts benefit equally (i.e., all receive an average price of the aggregated orders). In the event Credit Suisse aggregates an order for participating accounts, the method of allocation will generally be determined prior to the trade execution. Although no specific method of allocation of transactions (as well as expenses incurred in the transactions) is expected to be used, allocations will be designed to ensure that over time all clients receive fair treatment consistent with Credit Suisse's fiduciary duty to its clients (including its duty to seek to obtain best execution of client trades). The accounts aggregated may include registered and unregistered investment companies managed by Credit Suisse's affiliates and accounts in which Credit Suisse's officers, directors, agents, employees or affiliates own interests. Applicant may not be able to aggregate securities transactions for clients who direct the use of a particular broker-dealer, and the client also may not benefit from any improved execution or lower commissions that may be available for such transactions.

Compensation

Matthew Hickman is compensated for his services by Credit Suisse. His compensation consists of a fixed base salary and a discretionary bonus that is not tied by formula to the performance of any fund or account. The factors taken into account in determining his bonus include the Fund's performance, assets held in the Fund and other accounts managed by the portfolio managers, business growth, team work, management, corporate citizenship, etc. A

Edgar Filing: CHILE FUND INC - Form N-CSR

portion of the bonus may be paid in phantom shares of Credit Suisse Group stock as deferred compensation. Like all employees of Credit Suisse, these portfolio managers participate in Credit Suisse's profit sharing and 401(k) plans.
