The following information supplements and updates the information contained in the Prospectus Supplement:

**Common stock offered by us:** 21,000,000 shares (excluding the underwriter's option to purchase up to 3,150,000 additional shares to cover over-allotments). After the offering, we will have 58,375,726 shares of our common stock issued and outstanding (excluding the over-allotment option).

**Public offering price per share:** The shares are being offered at \$3.00. This represents a price per share below the closing price of \$4.42 on November 30, 2007, indicated in the Prospectus Supplement.

**Indication of Interest from Certain Existing Stockholders:** Kingdom Holdings Inc., or Kingdom, a company owned primarily by relatives of Evangelos J. Pistiolis, our President and Chief Executive Officer, and Sovereign Holdings Inc., or Sovereign, a company wholly-owned by Mr. Pistiolis, each have indicated an interest in purchasing up to 835,000 shares of common stock in this offering at the public offering price of \$3.00 per share. Because indications of interest are not binding agreements or commitments to purchase, these stockholders may elect not to purchase any shares of common stock in this offering. If Kingdom and Sovereign each purchase 835,000 shares in this offering, they will own 5.48% and 4.39% of our outstanding common stock, respectively.

(2)

Does not include the effect of the change in accounting policy that we intend to make beginning with the fourth quarter of 2007. Specifically, we have historically accounted for drydocking costs that qualified as "Planned Major Maintenance Activities" ("PMMA") using the deferral method. Nevertheless, we believe the direct expense method is preferable as it eliminates the significant amount of time and subjectivity involved to determine which costs and activities related to drydocking qualify as PMMA under the deferral method.

Beginning with the fourth quarter of 2007 we intend to change our accounting policy for PMMA from the deferral method, under which we amortized drydocking costs over the estimated period of benefit between drydockings, to the direct expense method, under which we will expense all drydocking costs as incurred. We will reflect this change as a change in accounting principle from an accepted accounting principle to a preferable accounting principle in accordance with Statement of Financial Accounting Standards No. 154, *Accounting Changes and Error Corrections*.

The effect of this change in accounting policy would be a decrease in our retained earnings by \$36.7 million.
