2011 PROXY STATEMENT

General Information

The board of directors (the "Board") of Clean Energy Fuels Corp., a Delaware corporation (the "Company"), is providing these proxy materials to you in connection with the solicitation of proxies for use at our 2011 annual meeting of stockholders (the "Annual Meeting"). The Annual Meeting will be held at The Island Hotel at 690 Newport Center Drive, Newport Beach, California, 92660, on Wednesday, May 25, 2011, at 9:00 a.m. (Pacific Time) or at any adjournment or postponement thereof, for the purposes stated herein. This proxy statement (the "Proxy Statement") summarizes the information that you will need to know to vote in an informed manner.

Pursuant to rules adopted by the Securities and Exchange Commission (the "SEC"), we have elected to provide access to our proxy materials over the Internet. Accordingly, we are sending a Notice of Internet Availability of Proxy Materials (the "Notice") to the Company's stockholders of record and beneficial owners. All stockholders will have the ability to access the proxy materials on the website referred to in the Notice or request to receive a printed set of the proxy materials. Instructions on how to access the proxy materials over the Internet or to request a printed copy may be found in the Notice. In addition, stockholders may request to receive proxy materials in printed form by mail or electronically by e-mail on an ongoing basis. We encourage you to take advantage of the availability of the proxy materials on the Internet in order to help reduce the environmental impact of the Annual Meeting. The Company's proxy materials are available at the following website: www.proxyvote.com.

Voting Rights and Outstanding Shares

We will mail the Notice on or about April 15, 2011, to all stockholders of record that are entitled to vote. Only stockholders that owned our common stock at the close of business on March 28, 2011, the date which has been fixed by the Board as the record date, are entitled to vote at the Annual Meeting. On the record date, 70,259,142 shares of our common stock were outstanding.

Each share of our common stock that you own entitles you to one vote on all matters to be voted upon at the meeting. The proxy card indicates the number of shares of our common stock that you own. We will have a quorum to conduct the business of the Annual Meeting if holders of a majority of the shares of our common stock are present in person or represented by proxy. Abstentions and broker non-votes, discussed below, will be counted as present for purposes of determining whether a quorum is present at the meeting. Generally, broker non-votes occur when shares held by a broker, bank, or other nominee in "street name" for a beneficial owner are not voted with respect to a particular proposal because the broker, bank, or other nominee (1) has not received voting instructions from the beneficial owner and (2) lacks discretionary voting power to vote those shares with respect to that particular proposal.

A broker is entitled to vote shares held for a beneficial owner on "routine" matters, such as the ratification of the appointment of KPMG LLP as our independent registered public accounting firm (Proposal 2), without instructions from the beneficial owner of those shares. On the other hand, absent instructions from the beneficial owner of such shares, a broker is not entitled to vote shares held for a beneficial owner on certain "non-routine" matters, such as the election of directors (Proposal 1), the proposal to approve, on an advisory, non-binding basis, the compensation of our named executive

officers, as disclosed in this proxy statement in accordance with the SEC's rules (Proposal 3), the advisory, non-binding recommendation as to the frequency with which stockholders will vote on executive compensation (every year, every two years or every three years) (Proposal 4), the amendment to our 2006 Plan (Proposal 5) and the amendment to the Warrant (Proposal 6).

If you hold your shares in street name, it is critical that you cast your vote if you want it to count in the election of directors (Proposal 1), the proposal to approve on an advisory, non-binding basis, the compensation of our named executive officers (Proposal 3), the advisory, non-binding recommendation as to the frequency with which stockholders will vote on executive compensation (Proposal 4), the amendment to our 2006 Plan (Proposal 5) or the amendment to the Warrant (Proposal 6). With respect to the election of directors, we note that in the recent past, if you held your shares in street name and you did not indicate how you wanted your shares voted in the election of directors, your broker was allowed to vote those shares on your behalf in the election of directors as they felt appropriate. Regulatory changes, which apply to proxy voting for stockholder meetings held on or after January 1, 2010, took away the ability of your broker to vote your uninstructed shares in the election of directors on a discretionary basis. Thus, if you hold your shares in street name and you do not instruct your broker how to vote in the election of directors, the broker will not vote your shares in the director election.

Broker non-votes are counted for purposes of determining whether or not a quorum exists for the transaction of business, but will not be counted for purposes of determining the number of shares represented and voted with respect to an individual proposal. Thus, if you do not give your broker specific voting instructions, your shares will not be voted on these "non-routine" matters and will not be counted in determining the number of shares necessary for approval.

Directors will be elected by a plurality of votes cast by shares present in person or represented by proxy at the meeting. Abstentions and broker non-votes, if any, will have no impact on the election of directors. The proposals to ratify the appointment of KPMG LLP as our independent registered public accounting firm, to approve on an advisory, non-binding basis, the compensation of our named executive officers, to approve the amendment to our 2006 Plan and to approve the amendment to the Warrant must be approved by the affirmative vote of a majority of the votes cast for each respective proposal by shares present in person or represented by proxy at the meeting. Accordingly, an abstention or broker non-vote, if any, will have no impact on the outcome of the votes for these proposals. The advisory, non-binding recommendation as to the frequency with which stockholders will vote on executive compensation (every year, every two years or every three years) will be determined by a plurality of the votes cast on the proposal by shares present in person or represented by proxy at the meeting, such that the frequency that receives the highest number of votes will be deemed the choice of the stockholders. Abstentions and broker non-votes, if any, will have no impact on the outcome of this proposal.

Attending the Annual Meeting

All stockholders that owned our common stock at the close of business on March 28, 2011, the record date, or their duly appointed proxies, may attend the Annual Meeting. Registration will begin at 8:30 a.m. (PT), and seating will begin immediately thereafter. If you attend, please note that you may be asked to present valid picture identification, such as a driver's license or passport. Please also note that if you hold your shares in "street name" (that is, through a broker or other nominee), you will need to bring a copy of a brokerage statement reflecting your stock ownership as of the record date and check in at the registration desk at the Annual Meeting.

Voting Shares Registered in Your Name

If you are a stockholder of record, you may vote in one of four ways:

You may vote in person at the Annual Meeting. We will provide a ballot when you arrive.

If you request printed copies of the proxy materials by mail, you may vote by proxy by filling out the proxy card and sending it back in the envelope provided.

You may vote by telephone by calling the toll free number found on the proxy card.

You may vote by proxy via the Internet at the website <http://www.proxyvote.com> by following the instructions provided in the Notice.

Votes submitted by telephone or via the Internet must be received by 11:59 p.m. (PT) on Tuesday, May 24, 2011. Submitting your proxy by telephone or via the Internet will not affect your right to vote in person should you decide to attend the Annual Meeting.

Voting Shares Registered in the Name of a Broker, Bank or Other Nominee

Most beneficial owners whose stock is held in street name will receive instructions for voting their shares from their broker, bank or other nominee.

If you wish to vote in person at the Annual Meeting and your stock is held in street name, then you must obtain a legal proxy issued in your name from the broker, bank or other nominee that holds your shares of record.

Tabulation of Votes

The inspector of elections will tabulate the votes. The shares of our common stock represented by proxy will be voted in accordance with the instructions given on the proxy so long as the proxy is properly executed and received by us prior to the close of voting at the Annual Meeting or any adjournment or postponement thereof (or in the case of proxies submitted by telephone or via the Internet, by the deadline specified above). If no instruction is given on a proxy that is properly executed and received by us, then the proxy will be voted "for" the nominees for director; "for" the proposal to ratify the appointment of KPMG LLP as our independent registered public accounting firm; "for" the approval of the compensation of our named executive officers, as disclosed in this proxy statement in accordance with the SEC's compensation disclosure rules; "for" the option of once every two years as the frequency with which stockholders will vote, on an advisory, non-binding basis, on executive compensation; "for" the approval of the amendment to our 2006 Plan; and "for" the approval of the amendment to the Warrant. In addition, the individuals that we have designated as proxies for the meeting will have discretionary authority to vote for or against any other stockholder matter presented at the meeting.

Revocability of Proxies

As a stockholder of record, once you have submitted your proxy by mail, telephone or Internet, you may revoke it at any time before it is voted at the meeting. You may revoke your proxy in any one of three ways:

You may grant another proxy marked with a later date (which automatically revokes the earlier proxy) using any of the methods described above (and until the applicable deadline for each method);

You may notify our Corporate Secretary in writing that you wish to revoke your proxy before it is voted at the Annual Meeting; or

You may vote in person at the Annual Meeting.

Adjourned or Postponed Annual Meeting

In the event that the Annual Meeting is adjourned or postponed, your proxy will still be effective and will be voted at the rescheduled Annual Meeting. You will still be able to change or revoke your proxy until it is voted.

Solicitation

This solicitation is made by our Board and we will bear the entire cost of soliciting proxies. We have retained Broadridge Financial Solutions, Inc. to assist in obtaining proxies by mail, facsimile or e-mail from registered stockholders, brokers, bank nominees and other institutions for the Annual Meeting. The estimated cost for this service is approximately \$83,500. We will also bear the costs of preparation, assembly, printing and mailing of any printed proxy statements requested by stockholders, the proxy card and any additional information furnished to stockholders. We will provide copies of solicitation materials to banks, brokerage houses, fiduciaries and custodians holding in their names shares of our common stock that are beneficially owned by others for forwarding to the beneficial owners that have requested printed materials. We may reimburse persons representing beneficial owners of common stock for their costs of forwarding solicitation materials to the beneficial owners. Solicitations will be made primarily through the Notice and the solicitation materials made available via the Internet, via e-mail or in print to those who request copies, but may be supplemented by telephone, telegram, facsimile or personal solicitation by our directors, executive officers or employees. No additional compensation will be paid to these individuals for these services. In addition, we may engage a proxy solicitation firm to assist us in soliciting proxies. We may pay additional compensation to Broadridge Financial Solutions, Inc. or other proxy solicitation firms to assist us in soliciting proxies.

Results of the Annual Meeting

Preliminary results will be announced at the Annual Meeting. Final results also will be published in a current report on Form 8-K to be filed with the SEC within four business days after the Annual Meeting. If the official results are not available at that time, we will provide preliminary voting results in the Form 8-K and will provide the final results in an amendment to the Form 8-K as soon as they become available.

Stockholder Proposals for 2012 Annual Meeting

Requirements for Stockholder Proposals to be Considered for Inclusion in Our Proxy Materials. Stockholder proposals submitted pursuant to Rule 14a-8 under the Securities Exchange Act of 1934, as amended (the "Exchange Act") and intended to be presented at our 2012 annual meeting of stockholders must be received by us not later than December 17, 2011, in order to be considered for inclusion in our proxy materials for that meeting.

Requirements for Stockholder Proposals to be Brought Before an Annual Meeting. Our bylaws provide that, for stockholder nominations to the Board or other proposals to be considered at an annual meeting outside the processes of Rule 14a-8, the stockholder must have given timely notice of the proposal or nomination in writing to the Company. To be timely for the 2012 annual meeting, a stockholder's notice must be delivered to or mailed and received by our Corporate Secretary at our principal executive offices between February 25, 2012 and March 26, 2012. A stockholder's notice to the Company must set forth, as to each matter the stockholder proposes to bring before the annual meeting, the information required by our bylaws. We will not entertain any proposals or nominations at the Annual Meeting that do not meet the requirements set forth in our bylaws. If the stockholder does not also comply with the requirements of Rule 14a-4(c)(2) under the Exchange Act, we may exercise

discretionary voting authority under proxies that we solicit to vote in accordance with our best judgment on any such stockholder proposal or nomination.

Separate Copy of Annual Report or Proxy Materials

We have adopted a procedure called "householding," which the SEC has approved. Under this procedure, we are delivering a single copy of the Notice and, if requested, this Proxy Statement and our annual report to stockholders for the year ended December 31, 2010 (the "Annual Report") to multiple stockholders who share the same address unless we have received contrary instructions from one or more of the stockholders. This procedure reduces the Company's printing costs, mailing costs and fees. Stockholders who participate in householding will continue to be able to access and receive separate proxy cards. Upon written or oral request, we will deliver promptly a separate copy of the Notice and, if applicable, this Proxy Statement and the Annual Report to any stockholder at a shared address to which we delivered a single copy of these documents. To receive a separate copy of the Notice and, if applicable, this Proxy Statement or Annual Report, write to Investor Relations at Clean Energy Fuels Corp., 3020 Old Ranch Parkway, Suite 400, Seal Beach, CA 90740 or call 562-493-7215. Stockholders who share an address and receive multiple copies of our Annual Report and proxy materials may also request to receive a single copy following the instructions above.

SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT

The following table shows the amount of common stock beneficially owned on March 28, 2011 (unless otherwise indicated) by holders of more than 5% of the outstanding shares of any class of our voting securities, other than with respect to Mr. Boone Pickens (one of our founders and a member of our Board) whose ownership is included in the second table below.

We have determined beneficial ownership in accordance with the rules of the SEC. Except as indicated by the footnotes below, we believe, based on the information furnished to us, that the persons and entities named in the two tables below have sole voting and investment power with respect to all shares of common stock shown as beneficially owned by them, subject to applicable community property laws.

Applicable percentage ownership is based on 70,259,142 shares of common stock outstanding on March 28, 2011. In computing the number of shares of common stock beneficially owned by a person and the percentage ownership of that person, we deemed as outstanding shares of common stock subject to options or warrants held by that person that are currently exercisable or exercisable within 60 days of March 28, 2011. We did not deem these shares outstanding, however, for the purpose of computing the percentage ownership of any other person.

PROPOSAL NO. 1**ELECTION OF DIRECTORS**

Our Board, acting pursuant to our bylaws, has determined that the number of directors constituting the full Board shall be seven at the present time. The Board has, upon recommendation of our nominating and corporate governance committee, nominated Andrew J. Littlefair, Warren I. Mitchell, John S. Herrington, James C. Miller III, Boone Pickens, Kenneth M. Socha and Vincent C. Taormina for reelection as members of the Board.

Each of the nominees is currently a director of our Company. Each newly elected director will serve a one-year term until the next annual meeting of stockholders or until his successor is duly qualified and elected. During the course of a term, the Board may appoint a new director to fill any vacant spot, including a vacancy caused by an increase in the size of the Board. The new director will complete the term of the director he or she replaced. Each person nominated for election has agreed to serve if elected, and we have no reason to believe that any nominee will be unable to serve. However, if any nominee cannot serve, then your proxy will be voted for another nominee proposed by the Board, or if no nominee is proposed by the Board, a vacancy will occur.

We, as a matter of policy, encourage our directors to attend meetings of stockholders and in 2010 all seven directors attended our Annual Meeting. There are no family relationships between any nominees or executive officers of our Company, and there are no arrangements or understandings between any nominee and any other person pursuant to which such nominee was or is selected as a director or nominee.

If our stockholders vote against the ratification of KPMG LLP, our Board will reconsider whether to retain the firm. Even if our stockholders ratify the appointment, our Board may choose to appoint a different independent registered public accounting firm at any time during the year if our Board determines that such a change would be in the best interests of our Company and our stockholders.

All services provided by KPMG LLP during fiscal years 2009 and 2010 were pre-approved by the audit committee. PROPOSAL NO. 3

ADVISORY, NON-BINDING VOTE ON EXECUTIVE COMPENSATION

The recently enacted Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010, or the Dodd-Frank Act, enables our stockholders to vote to approve, on an advisory, non-binding basis, the compensation of our named executive officers as disclosed in this Proxy Statement in accordance with the SEC's compensation disclosure rules.

As described in detail under the heading "Compensation Discussion and Analysis," our executive compensation programs are designed to align the interests of our named executive officers with the interests of our stockholders, to encourage retention and reward individual responsibility and productivity, and to achieve the Company's corporate objectives without promoting excessive or unnecessary risk-taking. Under these programs, our named executive officers' compensation is based on the performance of the individual and of the Company, the seniority of the individual, the level of responsibility associated with the position, the individual's long-term commitment to the Company, the scarcity of individuals with similar skills and the Company's business judgment. Please read the "Compensation Discussion and Analysis" beginning on page 27 for additional details about our executive compensation programs.

We are asking our stockholders to indicate their support for our named executive officer compensation as described in this Proxy Statement. We believe that the compensation of our named executive officers is appropriate and serves to both incentivize and retain our highly skilled executive leadership team. Retaining and motivating our key executives is crucial to our success. This proposal, commonly known as a "say-on-pay" proposal, gives our stockholders the opportunity to indicate whether they approve of our named executive officers' compensation. This vote is not intended to address any specific element of compensation, but rather relates to the overall compensation of our named executive officers and the philosophy, policies and practices described in this Proxy Statement in accordance with the SEC's compensation disclosure rules. Accordingly, we will ask our stockholders to vote "FOR" the following resolution at the Annual Meeting:

"RESOLVED, that the Company's stockholders approve, on an advisory basis, the compensation of the named executive officers, as disclosed in the Company's Proxy Statement for the 2011 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission, including the Compensation Discussion and Analysis, the Summary Compensation Table and the other related tables and disclosure."

The say-on-pay vote is advisory, and therefore not binding on the Company, the compensation committee or our Board. Our Board and our compensation committee value the opinions of our stockholders and to the extent there is any significant vote against the named executive officer compensation as disclosed in this Proxy Statement, we will consider our stockholders' concerns and the compensation committee will evaluate whether any actions are necessary to address those concerns.

Required Vote and Board Recommendation

The proposal to approve, on an advisory, non-binding basis, the compensation of our named executive officers, as disclosed in this Proxy Statement in accordance with the SEC's compensation disclosure rules, requires the affirmative vote of the majority of the votes cast on this proposal by shares present in person or represented by proxy at the Annual Meeting. Accordingly, abstentions and broker non-votes, if any, will have no impact on the outcome of the vote for this proposal.

**OUR BOARD RECOMMENDS A VOTE "FOR" THE APPROVAL OF THE COMPENSATION OF
OUR NAMED EXECUTIVE OFFICERS, AS DISCLOSED IN THIS PROXY STATEMENT
PURSUANT TO THE COMPENSATION DISCLOSURE RULES OF THE SEC.**

PROPOSAL NO. 4

**ADVISORY, NON-BINDING VOTE ON THE FREQUENCY OF
AN ADVISORY VOTE ON EXECUTIVE COMPENSATION**

Section 14A to the Exchange Act requires that we provide our stockholders with an opportunity to vote, on an advisory, non-binding basis, for their preference as to how frequently we should seek an advisory, non-binding vote on the compensation of our named executive officers as disclosed in accordance with the SEC's compensation disclosure rules. By voting on this proposal, stockholders may indicate whether they would prefer that we conduct an advisory vote on executive compensation once every one, two, or three years. Stockholders may also abstain from casting a vote on this proposal.

After careful consideration of this proposal, the Board has determined that an advisory vote on executive compensation that occurs every two years is the most appropriate alternative for the Company, and therefore our Board recommends that you vote for a two year interval for the advisory vote on executive compensation.

In formulating its recommendation, our Board considered that a two year interval for the advisory vote on executive compensation would provide the most effective timeframe because it allows our Board and compensation committee sufficient time to engage in discussions regarding our executive compensation philosophy and programs following each such vote and to respond with any changes to the compensation of our named executive officers in response to the results of a stockholder advisory vote. In addition, our named executive officers are incentivized for the achievement of specific long term and strategic goals and the realization of increased stockholder value. Accordingly, we believe that a vote every two years will provide our stockholders with additional time to evaluate the effectiveness of our executive compensation philosophy, policies and practices, in the context of our long-term business results for the corresponding period, while avoiding over emphasis on short term variations in compensation and business results. An advisory vote occurring once every two years will also permit our stockholders to observe and evaluate the impact of any changes to our executive compensation policies and practices that have occurred since the last advisory vote, including changes made in response to the outcome of a prior advisory vote on executive compensation.

You may cast your vote on your preferred voting frequency by choosing the option of every one year, every two years, every three years or abstain from voting when you vote in response to the resolution set forth below.

"RESOLVED, that the stockholders determine, on an advisory basis, whether the preferred frequency of an advisory vote on the executive compensation of the Company's named executive officers as set forth in the Company's proxy statement should be every one year, every two years, or every three years."

The option of one year, two years or three years that receives the highest number of votes cast by stockholders will be the frequency for the advisory vote on executive compensation that has been selected by stockholders. This vote is advisory, and therefore not binding on the Company, the compensation committee or our Board in any way, and the Board may decide that it is in the best interests of our stockholders and the Company to hold an advisory vote on executive compensation more or less frequently than the option approved by our stockholders. However, we look forward to hearing from our stockholders as to their preferences on the frequency of an advisory vote on executive compensation.

Required Vote and Board Recommendation

The advisory, non-binding recommendation as to the frequency with which stockholders will vote on executive compensation (every year, every two years or every three years) will be determined by a plurality of the votes cast on this proposal by shares present in person or represented by proxy at the Annual Meeting. Accordingly, abstentions and broker non-votes, if any, will have no impact on the outcome of the vote for this proposal.

**OUR BOARD RECOMMENDS A VOTE FOR "EVERY TWO YEARS" AS THE FREQUENCY FOR
FUTURE ADVISORY VOTES ON EXECUTIVE COMPENSATION.**

PROPOSAL NO. 5

APPROVAL OF AMENDED AND RESTATED 2006 EQUITY INCENTIVE PLAN

We are seeking stockholder approval of an amendment to our Amended and Restated 2006 Equity Incentive Plan (the "2006 Plan") to increase the maximum number of shares of common stock that may be issued under the 2006 Plan by 3,000,000 to an aggregate maximum of 15,890,500 shares. The Board adopted a resolution to approve the amendment to the 2006 Plan, subject to approval by the Company's stockholders, on April 4, 2011.

As of December 31, 2010, a total of 10,408,551 shares were outstanding under the 2006 Plan and a total of 21,555 shares remained available under the plan. Pursuant to the terms of the 2006 Plan, on January 1, 2011, the shares authorized for issuance under the 2006 Plan increased by 1,000,000 shares, and from January 1, 2011 to April 1, 2011, we issued 571,000 options to our employees and directors.

The Board believes that the proposed increase to the maximum aggregate number of shares that may be issued under the 2006 Plan is in the best interests the Company, consistent with our compensation strategy and essential to our continued success. We rely significantly on equity incentives to attract, motivate and retain executive officers and engineering, marketing, sales and other personnel necessary to successfully sell our products, design and build our natural gas fueling infrastructure and manage our business. Equity awards are a particularly important component of our compensation mix because they align the interests of our employees with those of our stockholders and allow us to conserve cash for other uses. Increasing the maximum aggregate number of shares that may be issued under the 2006 Plan will enable us to provide retention incentives to existing personnel and to be flexible and opportunistic in hiring additional personnel that can contribute to the successful development of our business. As of March 28, 2011, there were only 692,540 shares available for issuance under the 2006 Plan, which substantially limits our ability to offer equity incentives to existing employees or potential new hires.

New Plan Benefits

No awards relating to the additional shares of common stock, as contained in the proposed amendment, will be granted pursuant to the 2006 Plan until such amendment is approved by our stockholders. In addition, awards under the 2006 Plan are subject to the discretion of our compensation committee. Therefore, it is not possible to determine the benefits that will be received in the future by participants in the 2006 Plan as a result of the adoption of the proposed amendment or the benefits that would have been received by such participants if the proposed increase to the maximum aggregate number of shares that may be issued under the 2006 Plan had been in effect in the year ended December 31, 2010.

General Description of our Proposed 2006 Plan

A general description of our 2006 Plan is set forth below in the Section entitled "Stock Incentive Plans: 2006 Equity Incentive Plan" and is qualified in its entirety by the terms of our proposed amendment to the 2006 Plan, a copy of which is attached to this Proxy Statement as Appendix A and is incorporated herein by reference.

Required Vote and Board Recommendation

Approval of this Proposal No. 5 requires the affirmative vote of a majority of the votes cast on this proposal by shares present in person or represented by proxy at the Annual Meeting. Accordingly, abstentions and broker non-votes, if any, will have no impact on the outcome of the vote for this proposal.

**OUR BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" APPROVAL OF THE
AMENDMENT TO THE COMPANY'S 2006 PLAN**

PROPOSAL NO. 6

APPROVAL OF AMENDMENT TO WARRANT

We are seeking stockholder approval of an amendment to a warrant previously issued to Mr. Boone Pickens to purchase 15,000,000 shares of our common stock at \$10.00 per share (the "Warrant"). The purpose of the Warrant amendment is to incentivize Mr. Pickens to exercise a portion of the Warrant prior to December 28, 2011, the current expiration date of the Warrant (the "Exercise Period"). The Board adopted a resolution to approve the amendment to the Warrant, subject to approval by the Company's stockholders, on April 4, 2011. A copy of the proposed Warrant, as amended, is attached to this Proxy Statement as Appendix B and is incorporated herein by reference.

In December 2006, the Warrant was issued to Mr. Pickens, one of our founders, a member of our Board and the Company's largest stockholder, in exchange for the cancellation of all amounts owed to him by the Company under a revolving line of credit entered into in 2006, which we used for margin deposits related to futures contracts. Also in exchange for issuance of the Warrant, Mr. Pickens assumed all of our then-outstanding liabilities related to certain futures contracts. Under the proposed amendment to the Warrant, if Mr. Pickens exercises a portion of the Warrant prior to the expiration date of the Exercise Period, the Company will extend the Exercise Period of the Warrant for an identical number of shares for a length of time whereby the non-cash financial gain that the Company recognizes due to the early exercise becomes identical to the non-cash financial charge the Company recognizes with respect to such extension (the non-cash financial gain and the non-cash financial charge will be calculated in accordance with U.S. generally accepted accounting principles).

If this proposal is approved, Section 1 of the Warrant will be amended to read as follows:

"1. *Exercise; Issuance of Certificates; Payment for Shares.* This Warrant may be exercised by Holder, as a whole or in part, and on one or more occasions, by written notice to the Company at any time within the Exercise Period and by payment to the Company by wire transfer (in accordance with the wire transfer instructions) of the aggregate Warrant Price for the number of Shares designated by Holder (but not more than the number of Shares for which this Warrant then remains subject and unexercised). As an inducement to Holder to exercise a portion of the Warrant prior to the expiration date of the Exercise Period (an "Early Exercise"), the Company hereby agrees that in the event of an Early Exercise, the Company will extend the Exercise Period of the Warrant for an identical number of Shares that are purchased pursuant to the Early Exercise for a duration of time determined in accordance with this Section 1. The length of the extension of the Exercise Period will be determined as follows: the Company will determine the non-cash financial gain that the Company will recognize due to the Early Exercise (the "Early Exercise Gain") and extend the Exercise Period of the Warrant for the same number of shares purchased pursuant to the Early Exercise so that the non financial charge the Company recognizes with respect to such extension (the "Extension Charge") is of identical value to the Early Exercise Gain. For example, in the event that Holder exercises the Warrant with respect to five million (5,000,000) shares on June 28, 2011 and the Company recognizes a \$2.5 million Early Exercise Gain with respect to the Early Exercise, the Company will extend the Exercise Period of the Warrant with respect to five million (5,000,000) Shares by a number of days that results in an Extension Charge of \$2.5 million, determined as of the date of the Early Exercise."

The Board believes that it is in the best interest of the Company and our stockholders to incentivize Mr. Pickens to exercise the Warrant by amending the Warrant pursuant to this Proposal 6. An exercise of a portion of the Warrant would provide the Company with cash proceeds to fund its planned capital expenditures and fund potential corporate strategic alternatives prior to the December 28, 2011 expiration date of the Warrant.

By its terms, the Warrant may be amended only by an instrument in writing signed by the Company and Mr. Pickens. In addition, approval of the amendment by the Company's stockholders is

required pursuant to NASDAQ Marketplace Rule 5635(c), which requires stockholder approval for any material amendment to an existing arrangement pursuant to which stock may be acquired by officers, directors, employees or consultants. This includes any sale or issuance of securities to an officer, director, employee or consultant at a discount to the market value, as such issuance is considered a form of "equity compensation." To the extent that the proposed amendment to the Warrant could be considered a form of equity compensation, the Company is seeking stockholder approval pursuant to NASDAQ Marketplace Rule 5635(c).

The amendment will not change the estimated value of the Warrant. Please read the sections of this Proxy Statement entitled "Security Ownership of Certain Beneficial Owners and Management," "Compensation of Directors and Executive Officers," and "Certain Relationships and Related Party Transactions" for additional information on Mr. Pickens' interests in and relationship with the Company.

Required Vote and Board Recommendation

Approval of this Proposal No. 6 requires the affirmative vote of a majority of the votes cast by shares present in person or represented by proxy on this proposal at the Annual Meeting. Accordingly, abstentions and broker non-votes, if any, will have no impact on the outcome of the vote for this proposal.

**OUR BOARD OF DIRECTORS RECOMMENDS A VOTE "FOR" APPROVAL OF THE
AMENDMENT TO THE WARRANT**

CORPORATE GOVERNANCE

Director Independence

Our Board has determined that Messrs. Mitchell, Herrington, Miller, Socha and Taormina meet the independence requirements under NASDAQ Marketplace Rule 5605(a)(2). Messrs. Littlefair and Pickens do not meet the independence requirements under NASDAQ Marketplace Rule 5605(a)(2) for the following reasons: (1) Mr. Littlefair is our President and Chief Executive Officer; and (2) Mr. Pickens was a party to material transactions, relationships and arrangements with our Company described in "Certain Relationships and Related Party Transactions" below.

In the course of determining whether Messrs. Mitchell, Herrington, Miller, Socha and Taormina were independent under NASDAQ Marketplace Rule 5605(a)(2), the Board considered the following transactions, relationships and arrangements not required to be disclosed in "Certain Relationships and Related Party Transactions":

With respect to Mr. Mitchell, the Board considered that Mr. Mitchell is an investor in certain funds controlled by Mr. Pickens and serves as the General Partner of a real estate investment vehicle in which Mr. Littlefair and Mr. Pickens are investors.

With respect to Messrs. Herrington and Miller, the Board considered that each of Messrs. Herrington and Miller served with Mr. Littlefair in the Reagan Administration. The Board also considered that Mr. Herrington is an investor in certain funds controlled by Mr. Pickens.

With respect to Mr. Socha, the Board considered his role as a former director of Vehicle Production Group LLC, a company in which Perseus, L.L.C. is the largest investor and in which we have invested approximately \$12.0 million through April 1, 2011. We may also do business with Vehicle Production Group LLC in the future with respect to its development and sales of a CNG vehicle. Mr. Socha resigned from the board of Vehicle Production Group LLC effective March 23, 2010. Mr. Socha is also a Senior Managing Director of Perseus, L.L.C.

With respect to Mr. Taormina, the Board considered his business relationships, including his consulting arrangement with Republic Services, a customer of our Company.

Board Structure

The Board has determined that our current structure of separating the roles of Chief Executive Officer and Chairman of the Board is in the best interests of the Company and our stockholders. Mr. Mitchell has served as Chairman of the Board since May 2005 and Mr. Littlefair has been the Chief Executive Officer of the Company since June 2001. As Chairman of the Board, Mr. Mitchell focuses on organizing Board activities to enable the Board to effectively provide guidance to and oversight and accountability of management. The Chairman of the Board, among other things, creates and maintains an effective working relationship with the Chief Executive Officer and other members of management and with the other members of the Board, provides the Chief Executive Officer ongoing direction as to Board needs, interests and opinions, and assures that the Board agenda is appropriately directed toward significant matters of the Company. Separating the roles of Chairman and Chief Executive Officer allows Mr. Littlefair, as Chief Executive Officer, to focus on carrying out the day to day direction and long term strategic goals of the Company.

The functions of the Board are carried out by the full Board and, when delegated, by the Board Committees. Each director is a full and equal participant in the major strategic and policy decisions of our Company.

Board Committees

We have an audit committee, compensation committee, nominating and corporate governance committee and derivative committee. Our Board also creates committees from time to time to approve financing transactions or other significant corporate transactions. The Board's Role in Risk Oversight

The Board and each of the Board committees regularly discuss risks confronting our business in the context of their respective review and approval of corporate financial risk management, corporate strategy, acquisitions, compensation, derivative transactions, corporate governance and financing transactions. When granting authority to management and approving business and marketing strategies, the Board considers, among other things, the risks and vulnerabilities we face. Additionally, the Board holds annual strategic planning sessions with senior

Edgar Filing: Clean Energy Fuels Corp. - Form DEF 14A

management in which they review and analyze, among other items, political and legislative risk, environmental and regulatory risk, commodity based exposures and the risks associated with depending on third parties to assist in developing our industry, for example in the manufacture of heavy duty trucks and other vehicles that operate on natural gas. Our Board also regularly reviews our cash management practices, derivative exposure and budget

Each of our current directors will satisfy these guidelines at the earliest legally permissible opportunity.

COMPENSATION DISCUSSION AND ANALYSIS

Overview

We have adopted a basic philosophy and practice of offering market competitive compensation that is designed to attract, retain, reward and motivate a highly qualified executive management team. With respect to (1) each person who served as our principal executive officer or principal financial officer during fiscal 2010 (Andrew J. Littlefair and Richard R. Wheeler, respectively), and (2) the three most highly compensated executive officers during fiscal 2010 who were serving as executive officers at the end of fiscal 2010 and who did not serve as principal executive officer or principal financial officer (James N. Harger, Mitchell W. Pratt and Barclay F. Corbus and together with Messrs. Littlefair and Wheeler, the "named executive officers"), this Compensation Discussion and Analysis describes our compensation philosophy and objectives, the methodologies used for establishing the compensation programs for the named executive officers, and the policies and practices to administer such programs.

Compensation Philosophy

We believe compensation should include a mix of a competitive base salary and bonus incentives to encourage retention and reward individual responsibility and productivity, equity grants to align the interests of our officers with those of our stockholders, and case-specific compensation plans to accommodate individual circumstances or non-recurring situations. Our compensation committee uses its judgment and experience and works closely with our named executive officers to determine the appropriate mix of compensation for each individual. Our compensation committee historically has not used tally sheets, internal pay equity studies, accumulated wealth analyses, equity retention policies, benchmarking or similar tools in assisting with compensation determinations for our named executive officers.

The compensation committee has no formal policy, but does retain the discretion, to adjust or recover awards or payments made to its named executive officers if the relevant performance measures upon which they are based are restated or are otherwise adjusted in a manner that would reduce the size of the initial award or payment.

Review of Competitive Market Practices

We informally consider competitive market practices with respect to the salaries and total compensation of our named executive officers for the purpose of staying informed on current compensation practices and developments; however, we do not benchmark compensation levels based on this data nor do we determine our named executive officers' compensation based on market data for comparable company compensation levels. We did not conduct any market evaluation during 2010. Our prior studies of market data did not prove instructive, as we do not believe there are a sufficient number of comparable companies to evaluate.

Elements of Compensation

Our named executive officers' compensation has three primary components—base compensation or salary, annual cash bonuses, and equity awards. In addition, we provide our named executive officers with a variety of benefits that are generally available to all salaried employees.

We view the various components of compensation as related, but distinct. Although our compensation committee reviews each named executive officer's total compensation, we do not believe that significant compensation derived from one component of compensation should negate or reduce compensation from other components. We determine the appropriate level for each compensation component based on the performance of the employee (including any extraordinary performance), the level of responsibility and commitment associated with the position and our business judgment and experience. In addition, our compensation decisions generally reflect our belief that employees with comparable levels of responsibility and performance deserve comparable compensation, and that employees with a greater degree of responsibility and performance deserve greater compensation on a relative basis. Our compensation committee has not adopted any formal or informal policies or guidelines for allocating compensation between long-term and short-term compensation, between cash and non-cash compensation, or among different forms of non-cash compensation.

Our annual process of determining overall compensation for named executive officers begins with recommendations made by Mr. Littlefair, our President and Chief Executive Officer, to our compensation committee. In making his recommendation, Mr. Littlefair considers a number of factors, including the seniority of the individual, the functional role of the position, the level of the individual's responsibility, the individual's performance and contribution to our overall business objectives, the individual's long-term commitment to our Company, and the scarcity of individuals with similar skills. Acting with the recommendation from Mr. Littlefair, our compensation committee makes the final determination of compensation for our named executive officers. The compensation committee determines the compensation of Mr. Littlefair. Mr. Littlefair also submits recommendations to the compensation committee regarding his own proposed compensation levels, which are taken under advisement by the committee.

Assessment of Individual Performance

Andrew J. Littlefair—President and Chief Executive Officer

As the Company's President and Chief Executive Officer, Mr. Littlefair works with the Board and senior management to establish and execute the Company's operating and strategic plans to increase revenue, achieve the Company's long and short-term strategic growth objectives and profit targets and maximize return for stockholders. Mr. Littlefair's effective leadership of the Company led to positive financial and operating results in 2009 and 2010, with total revenue increasing to \$131.5 million in 2009 and \$211.8 million in 2010, and gasoline gallon equivalents sold increasing to 101.0 million gallons delivered in 2009 and 122.7 million gallons delivered in 2010. Further, in 2009 and 2010, Mr. Littlefair successfully oversaw the planning and execution of our acquisitions of Exterran Energy Solutions, BAF Technologies, I.M.W. Industries, Ltd. Mr. Wheeler effectively provides direction to the Company with respect to increasing revenue, achieving its financial

objectives, pursuing strategic investments and raising capital. During 2009, Mr. Wheeler played a key role in our acquisitions of Exterran Energy Solutions and BAF Technologies, and in connection with our \$73.2 million stock offering that closed in July 2009. During 2010, Mr. Wheeler was instrumental in the acquisitions of IMW and Northstar, as well as the Company's common stock offering of 3,450,000 shares in November 2010.

James N. Harger Chief Marketing Officer

In 2009 and 2010, Mr. Pratt successfully oversaw the post-acquisition integration of Exterran Energy Solutions, BAF Technologies, IMW and Northstar.

Barclay F. Corbus Senior Vice President, Strategic Development

In 2009, Mr. Corbus led our efforts to acquire Exterran Energy Solutions and BAF Technologies. He also successfully spearheaded our \$73.2 million stock offering that closed in July 2009. Mr. Corbus served a critical role in connection with the Company's offering of 3,450,000 shares of common stock that closed in November 2010. In addition, Mr. Corbus made key contributions toward securing our agreement with Pilot Travel Centers LLC to build, own and operate public access CNG and LNG fueling facilities at agreed upon Pilot travel centers nationwide and in Canada.

Base Salary

We provide base salaries to recognize the experience, skills, knowledge and responsibilities required of our named executive officers, taking into account competitive market compensation paid by other companies for similar position, and to reward individual performance and contribution to our overall business goals. The compensation committee uses its judgment and discretion in determining the amount of base salary and does not target a particular range in relation to salaries at other companies. Base salaries are reviewed annually.

Edgar Filing: Clean Energy Fuels Corp. - Form DEF 14A

Proposed base salaries are prepared by Mr. Littlefair and recommended to the compensation committee for its consideration. In setting 2010 base salaries for our named executive officers, the compensation committee focused on Mr. Littlefair's recommendations, our performance and each executive's performance in 2009, the executive's experience, responsibilities and tenure with our Company, and our need to motivate and retain our executive officers. Based on these factors, the compensation committee increased 2010 base salaries for our named executive officers from 2009 levels, as follows:

Named Executive Officer	2009 Base Salary(\$)	2010 Base Salary(\$)
Andrew J. Littlefair	475,200	520,000
Richard R. Wheeler	313,250	345,000
James N. Harger	306,250	335,000
Mitchell W. Pratt	280,000	310,000
Barclay F. Corbus	260,000	286,000

In the first quarter of 2011, the compensation committee approved the following 2011 base salaries for our named executive officers:

Named Executive Officer	2011 Base Salary(\$)
Andrew J. Littlefair	600,000
Richard R. Wheeler	365,000
James N. Harger	365,000
Mitchell W. Pratt	365,000
Barclay F. Corbus	350,000

Annual Cash Bonus

We believe a cash based incentive compensation program is important in order to focus our management on, and reward our executives for, achieving key Company objectives. Each year our compensation committee approves a cash bonus plan and pays bonuses after determining whether performance criteria set forth in the plan were satisfied. In setting the performance criteria, the compensation committee considers the recommendation of our management and competitive market practices. For each named executive officer, the performance criteria for cash bonus awards for the fiscal year 2010 were bifurcated, with 35% of the total potential cash bonus award based on the volume of gasoline gallon equivalents of natural gas sold by us, and 65% of the total potential cash bonus award based on the target Adjusted EBITDA, as defined below, of our Company. For the fiscal year 2011, we have added performance criteria for cash bonus awards to further encourage management to make decisions that align our corporate goals with our stockholders' interests and mitigate the risk of executives approving high volume deals with low profit margins. In fiscal year 2011, the cash payment awards for each named executive officer will be based on four performance criteria, with 25% of the total potential cash bonus award based on the volume of gasoline gallon equivalents of natural gas delivered by us, 25% of the total potential cash bonus award based on the target Adjusted EBITDA, as defined below, of our Company, 25% of the total potential cash bonus award based on the Company's gross profit margin, and 25% of the total potential cash bonus award based on the achievement of the Company's strategic initiatives. The financial performance criteria are prepared by our Chief Financial Officer based on our annual budget and presented to our compensation committee for approval and to the Board for their consideration.

Edgar Filing: Clean Energy Fuels Corp. - Form DEF 14A

The specific performance criteria approved by our compensation committee and Board for 2010 are set forth in the table below:

Performance Criteria	Weighting	Base Target (thousands)	Middle Target (thousands)	Maximum Target (thousands)
Adjusted EBITDA	65%	\$ 18,000	\$ 25,275	\$ 32,000
Volume (in gasoline gallon equivalents)	35%	130,000	138,009	146,000

Adjusted EBITDA is calculated by adding back non-cash stock based compensation expense, losses or gains associated with marking to market our outstanding Series I warrants for our common stock, foreign currency charges or gains on the notes we issued to purchase IMW or other significant unanticipated non-cash charges to the Company's EBITDA (Earnings Before Interest, Taxes, Depreciation and Amortization).

Under our annual cash bonus performance plan, if the Company exceeds a performance target, the executive officers receive a pro-rata portion of the incremental annual cash bonus amount, up to the next target limit. In 2010, the Company achieved \$18.0 million in Adjusted EBITDA, thereby meeting the Company's base Adjusted EBITDA target, and sold 122.7 million gasoline gallon equivalents, which did not reach the base volume target for the year. Consequently, the bonuses payable in 2010 were based solely on the performance criteria with respect to Adjusted EBITDA, amounting to 65% of the base target bonus amount for this objective.

Under our performance based annual cash bonus plan, Mr. Littlefair receives 70%, 100% or 150% of his base salary for achievement of the base, middle and maximum performance targets, respectively, by our Company. For each of Messrs. Wheeler, Pratt, Corbus and Harger, achievement of the base, middle and maximum performance targets by our Company result in a bonus equivalent to 50%, 70% or 100%, respectively, of his respective base salary. These performance percentages are as specified in the respective executive officers' employment agreements with the Company. Our compensation committee believes it is appropriate to reward our Chief Executive Officer with a higher percentage of his base salary for achievement of the performance targets due to the fact that the position of Chief Executive Officer is deemed by our compensation committee to be the most important and demanding position with the Company.

Special Cash Bonuses

Our compensation committee may, in its discretion, award additional special cash bonuses to reward extraordinary efforts by our named executive officers coupled with successful results for our Company. During 2010, our compensation committee awarded the following special cash bonuses to our executive officers for their efforts in the Company's sale of 3,450,000 shares of its Common Stock that closed in November 2010 and their efforts in successfully acquiring IMW and Northstar:

Named Executive Officer	Bonus(\$)
Andrew J. Littlefair	200,000
Richard R. Wheeler	100,000
James N. Harger	100,000
Mitchell W. Pratt	100,000
Barclay F. Corbus	150,000

Equity Compensation

We believe that long-term performance is achieved through an ownership culture that encourages performance by our named executive officers through the use of stock and stock based awards. Our stock compensation plans have been established to provide certain of our employees, including our

Edgar Filing: Clean Energy Fuels Corp. - Form DEF 14A

named executive officers, with incentives to align those employees' interests with the interests of our stockholders. Our compensation committee believes the use of stock and stock based awards offers the best approach to achieving this goal. Our stock compensation plans have provided the principal method for our named executive officers to acquire equity or equity linked interests in our Company. The compensation committee develops its equity award determinations based on its judgments as to whether the equity awards provided to our named executive officers are sufficient to further our ownership culture and retain, motivate and adequately reward the executives.

We sponsor a 2002 Stock Option Plan ("2002 Plan") and the 2006 Plan. Upon the closing of our initial public offering, the 2006 Plan became effective and the 2002 Plan became unavailable for new awards. For more information about the 2002 Plan and the 2006 Plan, please read "Compensation of Directors and Executive Officers Stock Incentive Plans" below. The 2002 Plan and the 2006 Plan are administered by our Board or our compensation committee. In the case of awards intended to qualify as "performance based compensation" excludable from the deduction limitation under Section 162(m) of the Internal Revenue Code, the administrator of the 2006 Plan will consist of two or more "outside directors" within the meaning of Section 162(m).

In order to meet the objectives of our compensation program, we have historically awarded stock options to our named executive officers on an annual basis. Our compensation committee does not maintain any formal policies with respect to the timing of option grants. However, with respect to the timing of option grants to our named executive officers, such grants generally occur annually or at regularly scheduled meetings of our Board or our compensation committee (the administrators of our 2002 Plan and 2006 Plan), and are priced based on the closing price of our common stock on that date. For new hires, options are generally priced at the later to occur of the date of the meeting at which the Board or compensation committee approves the grant or the first date of employment.

In 2010, the compensation committee awarded stock options to our named executive officers to reward them for our performance and their individual performance in 2010. The compensation committee further determined that the 2010 equity awards were important to incentivize our named executive officers to continue with our Company for longer periods of time. The options awarded in 2010 vest at a rate of one third of the shares originally subject to the options on each anniversary of the grant date, subject to the executive's continued service to our Company.

Change in Control and Severance Payments

The employment agreements of our named executive officers provide them benefits if their employment is terminated (other than for misconduct or voluntary termination that does not follow a change in control), including termination following a change in control. The compensation committee believes that our named executive officers' interests are best aligned with the interests of our stockholders, and we will be better able to retain their services, if they are entitled to these benefits. The details and amounts of such benefits are set forth below in the section entitled "Potential Payments Upon Termination or Change in Control."

Stock options awarded under the 2006 Plan that are held by our named executive officers vest in full upon a change in control ("single trigger"). We believe single trigger treatment for stock options is appropriate because: (i) it helps retain key employees during change in control discussions, especially more senior executive officers where equity represents a significant portion of their total pay package; and (ii) the Company that made the original equity grant may no longer exist after a change in control and employees should not be required to have the fate of their outstanding equity tied to the new company's future success.

Deductibility of Executive Compensation

Our compensation committee reviews and considers the deductibility of executive compensation under Section 162(m) of the Internal Revenue Code, which provides that we may not deduct certain compensation of more than \$1,000,000 that is paid to certain individuals. Our compensation committee believes that compensation paid to our named executive officers should generally be fully deductible for federal income tax purposes. However, in certain situations, our compensation committee may approve compensation that will not meet these requirements in order to ensure competitive levels of total compensation for our named executive officers. All of the compensation paid to our named executive officers was fully deductible in fiscal 2010. With respect to compensation awarded (or to be awarded) under the 2006 Plan, in the past, we relied on transitional relief under Section 162(m) to exclude such compensation from the \$1,000,000 limit on deductibility. At our 2009 annual meeting of stockholders, the stockholders approved our 2006 Plan, and, as a result, the awards under the 2006 Plan continue to qualify as "performance based" compensation under Section 162(m) and therefore are fully deductible without reliance on the transitional rules.

Risks Related to Compensation Policies and Practices

The Compensation Committee has considered whether our overall compensation program for employees creates incentives for employees to take excessive or unreasonable risks that could materially harm our Company. We believe our approach to goal setting, payouts at multiple levels of performance and evaluation of performance results assist in mitigating such risks. Although a portion of our executive compensation plan is performance based, we do not believe that our compensation structure encourages excessive or unnecessary risk taking. Although risk taking is a necessary part of building a business, the compensation committee has focused on aligning the Company's compensation policies with the long term interests of the Company and avoiding short term rewards for management decisions that could pose long term risks to the Company, as follows:

Our compensation structure includes a combination of a competitive base salary, equity grants to align the interests of our employees and named executive officers with those of our stockholders, and annual cash bonuses to encourage retention and reward individual responsibility and productivity.

In fiscal year 2010, the cash payment awards for each named executive officer were bifurcated, with 35% of the total potential cash bonus award based on the volume of gasoline gallon equivalents of natural gas sold by us, and 65% of the total potential cash bonus award based on the target Adjusted EBITDA of our Company. In an effort to further mitigate the risk of executives approving high volume deals with low profit margins, for fiscal year 2011, the cash payment awards for each named executive officer will be based on four performance criteria, with 25% of the total potential cash bonus award based on the volume of gasoline gallon equivalents of natural gas sold by us, 25% of the total potential cash bonus award based on the

target Adjusted EBITDA of our Company, 25% of the total potential cash bonus award based on the achievement of the Company's strategic goals and 25% of the total potential cash bonus award based on the Company's gross profit margin.

Our stock option grants have been established to provide certain of our employees, including our named executive officers, with incentives to help align those employees' interests with the interests of our stockholders.

We further believe that our internal legal and financial controls appropriately mitigate the probability and potential impact of an individual employee committing our Company to a harmful long term business transaction in exchange for short term compensation benefit.
