**Approximate Date of Proposed Public Offering:
From time to time after the effective date of this Registration Statement.**

If any securities being registered on this form will be offered on a delayed or continuous basis in reliance on Rule 415 under the Securities Act of 1933, other than securities offered in connection with a dividend reinvestment plan, check the following box. ✓

It is proposed that this filing will become effective (check appropriate box):

✓ when declared effective pursuant to section 8(c).

Edgar Filing: ARES CAPITAL CORP - Form N-2/A

CALCULATION OF REGISTRATION FEE UNDER THE SECURITIES ACT OF 1933

Title of Securities Being Registered	Amount Being Registered	Proposed Maximum Offering Price Per Unit	Proposed Maximum Aggregate Offering Price(1)	Amount of Registration Fee
Common Stock, \$0.001 par value per share(3)(4)				
Preferred Stock, \$0.001 par value per share(3)				
Subscription Rights(3)				
Warrants(5)				
Debt Securities(6)				
Units(7)				
Total			\$3,000,000,000(7)	\$409,200(8)

- (1) Estimated pursuant to Rule 457(o) solely for the purpose of determining the registration fee. The proposed maximum offering price per security will be determined from time to time, by the Registrant in connection with the sale by the Registrant of the securities registered under this registration statement.
- (2) Subject to Note 7 below, there is being registered hereunder an indeterminate number of shares of common stock or preferred stock, or subscription rights to purchase shares of common stock as may be sold, from time to time separately or as units in combination with other securities registered hereunder.
- (3) Includes such indeterminate number of shares of common stock as may, from time to time, be issued upon conversion or exchange of other securities registered hereunder, to the extent any such securities are, by their terms, convertible or exchangeable for common stock.
- (4) Subject to Note 7 below, there is being registered hereunder an indeterminate number of warrants as may be sold, from time to time separately or as units in combination with other securities registered hereunder, representing rights to purchase common stock, preferred stock or debt securities.
- (5) Subject to Note 7 below, there is being registered hereunder an indeterminate principal amount of debt securities as may be sold, from time to time separately or as units in combination with other securities registered hereunder. If any debt securities are issued at an original issue discount, then the offering price shall be in such greater principal amount as shall result in an aggregate price to investors not to exceed \$3,000,000,000.
- (6) Subject to Note 7 below, there is being registered hereunder an indeterminate number of units. Each unit may consist of a combination of any one or more of the securities being registered hereunder and may also include securities issued by third parties, including the U.S. Treasury.
- (7) In no event will the aggregate offering price of all securities issued from time to time pursuant to this registration statement exceed \$3,000,000,000.
- (8) Previously paid.

THE REGISTRANT HEREBY AMENDS THIS REGISTRATION STATEMENT ON SUCH DATE OR DATES AS MAY BE NECESSARY TO DELAY ITS EFFECTIVE DATE UNTIL THE REGISTRANT SHALL FILE A FURTHER AMENDMENT WHICH SPECIFICALLY STATES THAT THIS REGISTRATION STATEMENT SHALL THEREAFTER BECOME EFFECTIVE IN ACCORDANCE WITH SECTION 8(a) OF THE SECURITIES ACT OF 1933, AS AMENDED, OR UNTIL THIS REGISTRATION STATEMENT SHALL BECOME EFFECTIVE ON SUCH DATE AS THE COMMISSION, ACTING PURSUANT TO SECTION 8(a), MAY DETERMINE.

Ares Capital Corporation is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first and second lien senior secured loans (including "unitranche" loans, which are loans that combine both senior and mezzanine debt, generally in a first lien position) and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make preferred and/or common equity investments.

We are externally managed by our investment adviser, Ares Capital Management LLC, a wholly owned subsidiary of Ares Management LLC, a global alternative asset manager and a Securities and Exchange Commission ("SEC") registered investment adviser with approximately \$59 billion of total committed capital under management as of March 31, 2013. Ares Operations LLC, a wholly owned subsidiary of Ares Management LLC, provides certain administrative and other services necessary for us to operate.

Our common stock is traded on The NASDAQ Global Select Market under the symbol "ARCC." On June 10, 2013 the last reported sales price of our common stock on The NASDAQ Global Select Market was \$17.00 per share. The net asset value per share of our common stock at March 31, 2013 (the last date prior to the date of this prospectus on which we determined net asset value) was \$15.98.

Investing in our securities involves risks that are described in the "Risk Factors" section beginning on page 21 of this prospectus, including the risk of leverage.

We may offer, from time to time, in one or more offerings or series, up to \$3,000,000,000 of our common stock, preferred stock, debt securities, subscription rights to purchase shares of our common stock, warrants representing rights to purchase shares of our common stock, preferred stock or debt securities, or units comprised of any combination of the foregoing, which we refer to, collectively, as the "securities." The preferred stock, debt securities, subscription rights and warrants (including as part of a unit) offered hereby may be convertible or exchangeable into shares of our common stock. The securities may be offered at prices and on terms to be described in one or more supplements to this prospectus. In the event we offer common stock, the offering price per share of our common stock less any underwriting commissions or discounts will generally not be less than the net asset value per share of our common stock at the time we make the offering. However, we may issue shares of our common stock pursuant to this prospectus at a price per share that is less than our net asset value per share (a) in connection with a rights offering to our existing stockholders, (b) with the prior approval of the majority of our common stockholders or (c) under such circumstances as the SEC may permit. This prospectus and the accompanying prospectus supplement concisely provide important information about us that you should know before

Edgar Filing: ARES CAPITAL CORP - Form N-2/A

investing in our securities. Please read this prospectus and the accompanying prospectus supplement before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information with the SEC. This information is available free of charge by calling us collect at (310) 201-4200 or on our website at *www.arescapitalcorp.com*. The SEC also maintains a website at *www.sec.gov* that contains such information.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

This prospectus may not be used to consummate sales of securities unless accompanied by a prospectus supplement.

The date of this prospectus is _____, 2013.

ABOUT THIS PROSPECTUS

This prospectus is part of a registration statement that we have filed with the SEC, using the "shelf" registration process. Under the shelf registration process, we may offer, from time to time, in one or more offerings or series, up to \$3,000,000,000 of our common stock, preferred stock, debt securities, subscription rights to purchase shares of our common stock, warrants representing rights to purchase shares of our common stock, preferred stock or debt securities, or units comprised of any combination of the foregoing, on terms to be determined at the time of the offering. The securities may be offered at prices and on terms described in one or more supplements to this prospectus. This prospectus provides you with a general description of the securities that we may offer. Each time we use this prospectus to offer securities, we will provide a prospectus supplement that will contain specific information about the terms of that offering. The prospectus supplement may also add, update or change information contained in this prospectus. Please carefully read this prospectus and the prospectus supplement together with any exhibits and the additional information described under the headings "Available Information" and "Risk Factors" before you make an investment decision.

Table of Contents

PROSPECTUS SUMMARY

This summary highlights some of the information contained elsewhere in this prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" and the other information included in this prospectus. Except where the context suggests otherwise, the terms "we," "us," "our," "the Company" and "Ares Capital" refer to Ares Capital Corporation and its consolidated subsidiaries; "Ares Capital Management" and "our investment adviser" refer to Ares Capital Management LLC; "Ares Operations" and "our administrator" refer to Ares Operations LLC; and "Ares" and "Ares Management" refer to Ares Management LLC and its affiliated companies (other than portfolio companies of its affiliated funds).

THE COMPANY

Overview

Ares Capital, a Maryland corporation, is a specialty finance company that is a closed-end, non-diversified management investment company. We have elected to be regulated as a business development company, or a "BDC," under the Investment Company Act of 1940, as amended, and the rules and regulations promulgated thereunder or the "Investment Company Act." We were founded on April 16, 2004, were initially funded on June 23, 2004 and completed our initial public offering on October 8, 2004. We are one of the largest BDCs with approximately \$6.4 billion of total assets as of March 31, 2013.

We are externally managed by our investment adviser, Ares Capital Management, a wholly owned subsidiary of Ares Management, a global alternative asset manager and an SEC registered investment adviser with approximately \$59 billion of total committed capital under management as of March 31, 2013. Our administrator, Ares Operations, a wholly owned subsidiary of Ares Management, provides certain administrative and other services necessary for us to operate.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in U.S. middle-market companies, where we believe the supply of primary capital is limited and the investment opportunities are most attractive. However, we may from time to time invest in larger or smaller (in particular, for investments in early-stage and/or venture capital-backed) companies. We generally use the term "middle-market" to refer to companies with annual EBITDA between \$10 million and \$250 million. As used herein, EBITDA represents net income before net interest expense, income tax expense, depreciation and amortization.

We invest primarily in first lien senior secured loans (including unitranche loans), second lien senior secured loans and mezzanine debt, which in some cases includes an equity component. First and second lien senior secured loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. Mezzanine debt is subordinated to senior loans and is generally unsecured. Our investments in corporate borrowers generally range between \$30 million and \$400 million each, investments in project finance/power generation projects generally range between \$10 million and \$200 million each and investments in early-stage and/or venture capital-backed companies generally range between \$1 million and \$25 million each. However, the investment sizes may be more or less than these ranges and may vary based on, among other things, our capital availability, the composition of our portfolio and general micro- and macro-economic factors.

To a lesser extent, we also make preferred and/or common equity investments, which have generally been non-control equity investments of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments.

The proportion of these types of investments will change over time given our views on, among other things, the economic and credit environment in which we are operating. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential portfolio company substantially in excess of our final investment. In such situations, while we may

Table of Contents

initially agree to fund up to a certain dollar amount of an investment, we may subsequently syndicate a portion of such amount (including, without limitation, to vehicles managed by our portfolio company, Ivy Hill Asset Management, L.P. ("IHAM")), such that we are left with a smaller investment than what was reflected in our original commitment. In addition to originating investments, we may also acquire investments in the secondary market.

The first and second lien senior secured loans in which we invest generally have stated terms of three to 10 years and the mezzanine debt investments in which we invest generally have stated terms of up to 10 years, but the expected average life of such first and second lien loans and mezzanine debt is generally between three and seven years. However, we may invest in loans and securities with any maturity or duration. The instruments in which we invest typically are not rated by any rating agency, but we believe that if such instruments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's Investors Service, lower than "BBB-" by Fitch Ratings or lower than "BBB-" by Standard & Poor's Ratings Services), which, under the guidelines established by these entities, is an indication of having predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. Bonds that are rated below investment grade are sometimes referred to as "high yield bonds" or "junk bonds." We may invest without limit in debt or other securities of any rating, as well as debt or other securities that have not been rated by any nationally recognized statistical rating organization.

We believe that our investment adviser, Ares Capital Management, is able to leverage the current investment platform, resources and existing relationships of Ares with financial sponsors, financial institutions, hedge funds and other investment firms to provide us with attractive investment opportunities. In addition to deal flow, the Ares investment platform assists our investment adviser in analyzing, structuring and monitoring investments. Ares has been in existence for more than 15 years and its senior partners have an average of over 23 years experience in leveraged finance, private equity, distressed debt, commercial real estate finance, investment banking and capital markets. The Company has access to Ares' investment professionals and administrative professionals, who provide assistance in accounting, finance, legal, compliance, operations, information technology and investor relations. As of March 31, 2013, Ares had 232 investment professionals and 326 administrative professionals.

Since our initial public offering on October 8, 2004 through March 31, 2013, our realized gains have exceeded our realized losses by approximately \$206 million (excluding the one-time gain on the acquisition of Allied Capital Corporation (the "Allied Acquisition") and gains/losses from the extinguishment of debt and other assets). For this same time period, our exited investments have resulted in an aggregate cash flow realized internal rate of return to us of approximately 13% (based on original cash invested, net of syndications, of approximately \$7.0 billion and total proceeds from such exited investments of approximately \$8.5 billion). Approximately 72% of these exited investments resulted in an aggregate cash flow realized internal rate of return to us of 10% or greater. Internal rate of return is the discount rate that makes the net present value of all cash flows related to a particular investment equal to zero. Internal rate of return is gross of expenses related to investments as these expenses are not allocable to specific investments. Investments are considered to be exited when the original investment objective has been achieved through the receipt of cash and/or non-cash consideration upon the repayment of a debt investment or sale of an investment or through the determination that no further consideration was collectible and, thus, a loss may have been realized. These internal rates of return results are historical results relating to our past performance and are not necessarily indicative of future results, the achievement of which cannot be assured.

We and General Electric Capital Corporation and GE Global Sponsor Finance LLC (collectively, "GE") also co-invest through an unconsolidated vehicle, the Senior Secured Loan Fund LLC, which operates using the name "Senior Secured Loan Program" (the "SSLP"). The SSLP was initially formed in December 2007 by Allied Capital Corporation ("Allied Capital") and GE to co-invest in first lien senior secured loans of middle-market companies. In October 2009, we acquired from Allied Capital subordinated certificates issued by the SSLP and management rights in respect

Table of Contents

thereto. As of March 31, 2013, the SSLP had available capital of \$9.0 billion of which approximately \$6.2 billion in aggregate principal amount was funded. As of March 31, 2013, we had agreed to make available to the SSLP approximately \$1.8 billion, of which approximately \$1.3 billion was funded. The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of the Company and GE (with approval from a representative of each required). As of March 31, 2013, our investment in the SSLP was approximately \$1.3 billion at fair value (including unrealized appreciation of \$24.8 million), which represented approximately 21% of our total portfolio at fair value.

While our primary focus is to generate current income and capital appreciation through investments in first and second lien senior secured loans and mezzanine debt and, to a lesser extent, equity securities of eligible portfolio companies, we also may invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. See "Regulation." Specifically, as part of this 30% basket, we may invest in entities that are not considered "eligible portfolio companies" (as defined in the Investment Company Act), including companies located outside of the United States, entities that are operating pursuant to certain exceptions under the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act.

In the first quarter of 2011, the staff of the SEC (the "Staff") informally communicated to certain BDCs the Staff's belief that certain entities, which would be classified as an "investment company" under the Investment Company Act but for the exception from the definition of "investment company" set forth in Rule 3a-7 promulgated under the Investment Company Act, could not be treated as "eligible portfolio companies" (as defined in Section 2(a)(46) under the Investment Company Act) (i.e., in a BDC's 70% basket of "qualifying assets"). Subsequently, in August 2011 the SEC issued a concept release (the "Concept Release") which stated that "[a]s a general matter, the Commission presently does not believe that Rule 3a-7 issuers are the type of small, developing and financially troubled businesses in which the U.S. Congress intended BDCs primarily to invest" and requested comment on whether or not a 3a-7 issuer should be considered an "eligible portfolio company." We provided a comment letter in respect of the Concept Release and continue to believe that the language of Section 2(a)(46) of the Investment Company Act permits a BDC to treat as "eligible portfolio companies" entities that rely on the 3a-7 exception. However, given the current uncertainty in this area (including the language in the Concept Release), we have, solely for purposes of calculating the composition of our portfolio pursuant to Section 55(a) of the Investment Company Act, identified such entities, which include the SSLP, as "non-qualifying assets" should the Staff ultimately take an official view that 3a-7 issuers are not "eligible portfolio companies."

As of March 31, 2013, our portfolio company, IHAM, which became an SEC registered investment adviser effective March 30, 2012, managed 13 vehicles and served as the sub-manager/sub-servicer for three other vehicles (these vehicles managed or sub-managed/sub-serviced by IHAM are collectively referred to as the "IHAM Vehicles"), which are described in more detail under "Business Investments Ivy Hill Asset Management, L.P." below. As of March 31, 2013, IHAM had total committed capital under management of approximately \$3.3 billion, which included approximately \$0.2 billion invested by Ares Capital in IHAM. In connection with IHAM's registration as a registered investment adviser, on March 30, 2012, we received exemptive relief from the SEC allowing us to, subject to certain conditions, own directly or indirectly up to 100% of IHAM's outstanding equity interests and make additional investments in IHAM once IHAM became a registered investment adviser.

Ares Capital Management

Ares Capital Management, our investment adviser, is served by an origination, investment and portfolio management team of 74 U.S.-based investment professionals as of March 31, 2013 and led by

Table of Contents

the senior partners of the Ares Management Private Debt Group: Michael Arougheti, Eric Beckman, Kipp deVeer, Mitchell Goldstein and Michael Smith. Ares Capital Management leverages off of Ares' investment platform and benefits from the significant capital markets, trading and research expertise of Ares' investment professionals. Ares Capital Management's investment committee has eight members, including the senior partners of the Ares Management Private Debt Group, senior partners in the Ares Management Private Equity Group and a senior adviser to the Ares Management Capital Markets Group.

MARKET OPPORTUNITY

We believe that current market conditions present attractive opportunities for us to invest in middle-market companies; specifically:

We believe that the disruption and volatility in the credit markets over the last several years has reduced capital available to certain specialty finance companies and other capital providers, causing a reduction in competition. These market conditions may continue to create opportunities to achieve attractive risk-adjusted returns.

We believe that many commercial and investment banks have, in recent years, de-emphasized their service and product offerings to middle-market businesses in favor of lending to large corporate clients and managing capital markets transactions. In addition, these lenders are limited in their ability to underwrite and hold bank loans and high yield securities for middle-market issuers as they seek to meet existing and future regulatory capital requirements. These factors may result in opportunities for alternative funding sources to middle-market companies and therefore more new-issue market opportunities for us.

We believe that there is a lack of market participants that are willing to not only underwrite but also hold loans. As a result, we believe our ability to minimize syndication risk for a company seeking financing by being able to hold our loans without having to syndicate them is a competitive advantage.

We believe there is a large pool of un-invested private equity capital for middle-market businesses. We expect private equity firms will seek to leverage their investments by combining equity capital with senior secured loans and mezzanine debt from other sources such as us.

We believe that the scheduled expirations of reinvestment periods for a significant amount of collateralized loan obligation vehicles may reduce the amount of funding available for larger middle-market businesses over time.

A significant volume of senior secured debt is expected to come due over the next several years and, accordingly, we believe that the volume of new financing opportunities could remain strong as many companies seek to refinance this indebtedness.

COMPETITIVE ADVANTAGES

We believe that we have the following competitive advantages over other capital providers to middle-market companies:

The Ares Platform

As of March 31, 2013, Ares had approximately \$59 billion of total committed capital under management in the related asset classes of non-syndicated first and second lien corporate and commercial real estate loans, syndicated corporate and commercial real estate loans, high yield bonds, corporate and commercial real estate mezzanine debt and private equity. We believe Ares' current investment platform provides a competitive advantage in terms of access to origination and marketing activities and diligence for us. In particular, we believe that the Ares platform provides us with an

Table of Contents

advantage through its deal flow generation and investment evaluation process. Ares' asset management platform also provides additional market information, company knowledge and industry insight that benefit our investment and due diligence process. Ares' professionals maintain extensive financial sponsor and intermediary relationships, which provide valuable insight and access to transactions and information.

Seasoned Management Team

The investment professionals in the Ares Management Private Debt Group and members of our investment adviser's investment committee also have significant experience investing across market cycles. This experience also provides us with a competitive advantage in identifying, originating, investing in and managing a portfolio of investments in middle-market companies.

Broad Origination Strategy

We focus on self-originating most of our investments by pursuing a broad array of investment opportunities in middle-market companies across multiple channels. We also leverage off of the extensive relationships of the broader Ares platform, including relationships with the portfolio companies in the IHAM Vehicles, to identify investment opportunities. We believe that this allows for asset selectivity and that there is a significant relationship between proprietary deal origination and credit performance. We believe that our focus on generating proprietary deal flow and lead investing also gives us greater control over capital structure, deal terms, pricing and documentation and enables us to actively manage our portfolio investments. Moreover, by leading the investment process, we are often able to secure controlling positions in credit tranches, thereby providing additional control in investment outcomes. We also have originated substantial proprietary deal flow from middle-market intermediaries, which often allows us to act as the sole or principal source of institutional capital to the borrower.

Scale and Flexible Transaction Structuring

We believe that being one of the largest BDCs makes us a more desirable and flexible capital provider, especially in competitive markets. We are flexible and have significant experience in structuring investments, including the types of investments and the terms associated with such investments. We believe this approach and experience enables our investment adviser to identify attractive investment opportunities throughout economic cycles and across a company's capital structure so we can make investments consistent with our stated investment objective and preserve principal while seeking appropriate risk adjusted returns. In addition, we have the ability to provide "one stop" financing with the ability to invest capital across the balance sheet and syndicate and hold larger investments than many of our competitors. We believe that the ability to underwrite, syndicate and hold larger investments benefits our stockholders by (a) potentially increasing net income and earnings through syndication, (b) increasing originated deal flow flexibility, (c) broadening market relationships and deal flow, (d) allowing us to optimize our portfolio composition and (e) allowing us to provide capital to a broader spectrum of middle-market companies, which we believe currently have limited access to capital from traditional lending sources. In addition, we believe that the ability to provide capital at every level of the balance sheet provides a strong value proposition to middle-market borrowers and our senior debt capabilities provide superior deal origination and relative value analysis capabilities compared to traditional "mezzanine only" lenders.

Experience with and Focus on Middle-Market Companies

Ares has historically focused on investments in middle-market companies and we benefit from this experience. In sourcing and analyzing deals, our investment adviser benefits from Ares' extensive network of relationships focused on middle-market companies, including management teams, members of the investment banking community, private equity groups and other investment firms with whom Ares has had long-term relationships. We believe this network enables us to identify well-positioned

Table of Contents

prospective portfolio company investments. The Ares Management Private Debt Group works closely with Ares' other investment professionals. As of March 31, 2013, Ares oversaw a portfolio of investments in over 1,100 companies across over 30 industries, which provides access to an extensive network of relationships and insights into industry trends and the state of the capital markets.

Disciplined Investment Philosophy

In making its investment decisions, our investment adviser has adopted Ares' long-standing, consistent, credit-based investment approach that was developed over 23 years ago by its founders. Specifically, our investment adviser's investment philosophy, portfolio construction and portfolio management involve an assessment of the overall macroeconomic environment and financial markets and company-specific research and analysis. Its investment approach emphasizes capital preservation, low volatility and minimization of downside risk. In addition to engaging in extensive due diligence from the perspective of a long-term investor, our investment adviser's approach seeks to reduce risk in investments by focusing on:

businesses with strong franchises and sustainable competitive advantages;

industries with positive long-term dynamics;

businesses and industries with cash flows that are dependable and predictable;

management teams with demonstrated track records and appropriate economic incentives;

rates of return commensurate with the perceived risks;

securities or investments that are structured with appropriate terms and covenants; and

businesses backed by experienced private equity sponsors.

Extensive Industry Focus

We seek to concentrate our investing activities in industries with a history of predictable and dependable cash flows and in which the Ares investment professionals have had extensive investment experience. Ares investment professionals have developed long-term relationships with management teams and management consultants in over 30 industries, and have accumulated substantial information and identified potential trends within these industries. In turn, we benefit from these relationships, information and identification of potential trends in making investments.

OPERATING AND REGULATORY STRUCTURE

Our investment activities are managed by Ares Capital Management, which is wholly owned by Ares, and supervised by our board of directors, a majority of whom are independent of Ares and its affiliates. Ares Capital Management is registered under the Investment Advisers Act of 1940, or the "Advisers Act." Under our Amended and Restated Investment Advisory and Management Agreement with Ares Capital Management, referred to herein as our "investment advisory and management agreement," we have agreed to pay Ares Capital Management an annual base management fee based on our total assets, as defined under the Investment Company Act (other than cash and cash equivalents, but including assets purchased with borrowed funds), and an incentive fee based on our performance. See "Management Investment Advisory and Management Agreement." Ares Operations provides us with certain administrative and other services necessary for us to operate pursuant to an Amended and Restated Administration Agreement, referred to herein as our "administration agreement." See "Administration Agreement."

As a BDC, we are required to comply with certain regulatory requirements. For example, we are not generally permitted to invest in any portfolio company in which a fund managed by Ares or any of its downstream affiliates (other than us and our downstream affiliates) currently has an investment. However, we may co-invest on a concurrent basis with funds managed by Ares or any of its downstream affiliates, subject to compliance with existing regulatory guidance, applicable regulations

Table of Contents

and our allocation procedures. Certain types of co-investment transactions would only be permitted pursuant to an exemptive order from the SEC, for which we have applied. Any such order will be subject to certain terms and conditions. Further there is no assurance that this application for exemptive relief will be granted by the SEC.

Also, while we may borrow funds to make investments, our ability to use debt is limited in certain significant aspects. See "Business Operating and Regulatory Structure" and "Regulation." In particular, BDC's must have at least 200% asset coverage calculated pursuant to the Investment Company Act in order to incur debt or issue preferred stock (which we refer to collectively as "senior securities"), which requires us to finance our investments with at least as much equity as senior securities in the aggregate. Certain of our credit facilities also require that we maintain asset coverage of at least 200%.

In addition, as a consequence of our being a regulated investment company ("RIC") for U.S. federal income tax purposes, as well as our status as a BDC, our asset growth is dependent on our ability to raise equity capital through the issuance of common stock. RICs generally must distribute substantially all of their earnings to stockholders as dividends in order to preserve their status as a RIC and avoid additional corporate-level income taxes. This requirement, in turn, generally prevents us from using earnings to support our operations including making new investments. See "Certain Material U.S. Federal Income Tax Considerations."

MARKET CONDITIONS

Beginning in 2007, the global financial markets experienced stress, volatility, instability, illiquidity and disruption. While this volatility and disruption peaked in 2008 to 2009 and appears to have abated somewhat, the availability of capital and access to capital markets has been limited over the last several years. As the global liquidity situation and market conditions evolve, we will continue to monitor and adjust our approach to funding accordingly. Given the instability in the global markets over the past several years and the uncertainty around the strength of the U.S. economic recovery, there can be no assurances that these activities will be successful since such market conditions could worsen again in the future. If they do, we could face materially higher financing costs. Consequently, our operating strategy could be materially and adversely affected. See "Risk Factors Risks Relating to Our Business Capital markets have been in a period of disruption and instability for an extended period of time. These market conditions materially and adversely affected debt and equity capital markets in the United States, which had, and may in the future have, a negative impact on our business and operations."

In connection with the prior depressed market conditions of the general economy, the stocks of BDCs as an industry have in the past traded at near historic lows as a result of concerns over liquidity, credit quality, leverage restrictions and distribution requirements. In some cases, certain BDCs became "forced sellers" of assets, defaulted on their indebtedness, decreased their distributions to stockholders or announced share repurchase programs. Although we believe that we currently have sufficient capital to fund our investments and operations, we cannot assure you that the market pressures we may face in the future will not have a material adverse effect on our business, financial condition and results of operations.

ACQUISITION OPPORTUNITIES

We believe the volatility in the credit markets over the past several years has increased the likelihood of further consolidation in our industry. To that end, we are evaluating (and expect to continue to evaluate in the future) a number of potential strategic acquisition opportunities, including acquisitions of:

asset portfolios;

contracts to manage CLO vehicles and other investment vehicles;

Table of Contents

other private and public finance companies or asset managers; and

selected secondary market assets.

We have been in, and from time to time may engage in, discussions with counterparties in respect of various potential strategic acquisition and investment transactions, including potential acquisitions of other finance companies. Some of these transactions could be material to our business and, if consummated, could be difficult to integrate, result in increased leverage or dilution and/or subject us to unexpected liabilities. However, none of these discussions has progressed to the point where the consummation of any such transaction could be deemed to be probable or reasonably certain as of the date of this prospectus. Consummation of any such transaction would be subject to completion of due diligence, finalization of key business and financial terms (including price) and negotiation of final definitive documentation as well as a number of other factors and conditions including, without limitation, the approval of our board of directors, any required third party consents and, in certain cases, the approval of our stockholders. We cannot predict how quickly the terms of any such transaction could be finalized, if at all. Accordingly, there can be no assurance that such transaction would be consummated. In connection with evaluating potential strategic acquisition and investment transactions, we have, and may in the future, incur significant expenses for the evaluation and due diligence investigation of these potential transactions.

LIQUIDITY

As of March 31, 2013, we had approximately \$2.3 billion in aggregate principal amount of total outstanding indebtedness, approximately \$2.0 billion aggregate principal amount of which was unsecured indebtedness of Ares Capital and approximately \$0.3 billion of which was secured indebtedness of our consolidated subsidiaries.

As of March 31, 2013, of the approximately \$2.3 billion aggregate principal amount of total outstanding indebtedness: (i) no amounts were outstanding under our revolving credit facility (the "Revolving Credit Facility"), (ii) approximately \$280.0 million in aggregate principal amount was outstanding under the revolving funding facility of our consolidated subsidiary, Ares Capital CP Funding LLC ("Ares Capital CP") (as amended, the "Revolving Funding Facility"), (iii) no amounts were outstanding under the revolving funding facility of our consolidated subsidiary, Ares Capital JB Funding LLC ("ACJB"), with Sumitomo Mitsui Banking Corporation (the "SMBC Funding Facility" and, together with the Revolving Credit Facility and the Revolving Funding Facility, the "Facilities"), (iv) approximately \$575.0 million aggregate principal amount of our convertible senior unsecured notes that mature on February 1, 2016 (the "February 2016 Convertible Notes") were outstanding, (v) approximately \$230.0 million aggregate principal amount of our convertible senior unsecured notes that mature on June 1, 2016 (the "June 2016 Convertible Notes") were outstanding, (vi) approximately \$162.5 million aggregate principal amount of our convertible senior unsecured notes that mature on March 15, 2017 (the "2017 Convertible Notes") were outstanding, (vii) approximately \$270.0 million aggregate principal amount of our convertible senior unsecured notes that mature on January 15, 2018 (the "2018 Convertible Notes" and together with the February 2016 Convertible Notes, the June 2016 Convertible Notes and the 2017 Convertible Notes, the "Convertible Unsecured Notes") were outstanding, (viii) approximately \$143.8 million aggregate principal amount of our 7.00% senior notes that mature on February 15, 2022 (the "February 2022 Notes") were outstanding, (ix) approximately \$182.5 million aggregate principal amount of our 5.875% senior notes that mature on October 1, 2022 (the "October 2022 Notes") were outstanding, (x) approximately \$200.0 million aggregate principal amount of our 7.75% senior notes that mature on October 15, 2040 (the "2040 Notes") were outstanding and (xi) approximately \$230.0 million aggregate principal amount of our 6.875% senior notes due on April 15, 2047 (the "2047 Notes" and, together with the February 2022 Notes, the October 2022 Notes and the 2040 Notes, the "Unsecured Notes") were outstanding.

For more information on the Company's debt, see "Management's Discussion and Analysis of Financial Condition and Results of Operations Financial Condition, Liquidity and Capital Resources" and "Recent Developments."

RECENT DEVELOPMENTS

In April 2013, we completed a public add-on equity offering (the "April 2013 Offering") pursuant to which we sold 19,147,500 shares of common stock at a price of \$17.43 per share to the participating underwriters. Total proceeds from the April 2013 Offering, net of estimated offering expenses payable by us, were approximately \$333.2 million.

In May 2013, we entered into an amendment to the Revolving Credit Facility. The amendment, among other things, (1) extended the end of the revolving period from May 4, 2015 to May 4, 2017, (2) extended the stated maturity date from May 4, 2016 to May 4, 2018, (3) reduced the interest rate charged from LIBOR plus an applicable spread of 2.25% or a "base rate" (as defined in the agreements governing the Revolving Credit Facility) plus an applicable spread of 1.25% to LIBOR plus an applicable spread of 2.00% or a "base rate" plus an applicable spread of 1.00% and (4) increased total commitments to \$930 million as well as provided for a feature that allows us, under certain circumstances, to increase the size of the Revolving Credit Facility to a maximum of \$1,400 million.

From April 1, 2013 through May 31, 2013, we made new investment commitments of \$994 million, of which \$929 million were funded. Of these new commitments, 75% were in first lien senior secured loans, 15% were investments in subordinated certificates of the SSLP, the proceeds of which were applied to co-investments with GE to fund first lien senior secured loans through the SSLP and 10% were in second lien senior secured loans. Of the \$994 million of new investment commitments, 92% were floating rate and 8% were fixed rate. The weighted average yield of debt and other income producing securities funded during the period at amortized cost was 9.8%. We may seek to syndicate a portion of these new investment commitments, although there can be no assurance that we will be able to do so.

From April 1, 2013 through May 31, 2013, we exited \$273 million of investment commitments. Of these investment commitments, 68% were second lien senior secured loans, 27% were first lien senior secured loans, 3% were senior subordinated debt and 2% were preferred equity securities. Of the \$273 million of exited investment commitments, 68% were fixed rate, 28% were floating rate, 3% were non-interest bearing and 1% were on non-accrual status. The weighted average yield of debt and other income producing securities exited or repaid during the period at amortized cost was 10.4%. On the \$273 million of investment commitments exited from April 1, 2013 through May 31, 2013, we recognized total net realized gains of approximately \$4 million.

In addition, as of May 31, 2013, we had an investment backlog and pipeline of approximately \$355 million and \$500 million, respectively. Investment backlog includes transactions approved by our investment adviser's investment committee and/or for which a formal mandate, letter of intent or a signed commitment have been issued, and therefore we believe are likely to close. Investment pipeline includes transactions where due diligence and analysis are in process, but no formal mandate, letter of intent or signed commitment have been issued. The consummation of any of the investments in this backlog and pipeline depends upon, among other things, one or more of the following: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. In addition, we may syndicate a portion of these investments. We cannot assure you that we will make any of these investments or that we will syndicate any portion of these investments.

RISK FACTORS

Investing in Ares Capital involves risks. The following is a summary of the principal risks that you should carefully consider before investing in our securities. In addition, see "Risk Factors"

Table of Contents

beginning on page 21 for a more detailed discussion of the principal risks as well as certain other risks you should carefully consider before deciding to invest in our securities.

Capital markets have been in a period of disruption and instability for an extended period of time. These market conditions materially and adversely affected debt and equity capital markets in the United States, which had, and may in the future have, a negative impact on our business and operations. Our shares of common stock have traded at a discount from net asset value and may do so again in the future, which could limit our ability to raise additional equity capital. Our ability to grow depends on our ability to raise capital.

A failure on our part to maintain our status as a BDC would significantly reduce our operating flexibility and a failure to maintain our status as a RIC may subject us to additional corporate-level income taxes.

We are dependent upon certain key personnel of Ares for our future success and upon their access to other Ares investment professionals.

We borrow money, which magnifies the potential for gain or loss on amounts invested, subjects us to certain covenants with which we must comply and may increase the risk of investing with us.

We operate in a highly competitive market for investment opportunities.

We are exposed to risks associated with changes in interest rates.

Most of our portfolio investments are not publicly traded and, as a result, the fair value of these investments may not be readily determinable. Additionally, to the extent that we need liquidity and need to sell assets, the lack of liquidity in our investments may adversely affect our business.

There are significant potential conflicts of interest that could impact our investment returns.

Declines in market prices and liquidity in the corporate debt markets can result in significant net unrealized depreciation of our portfolio, which in turn would reduce our net asset value.

Economic recessions or downturns could impair our portfolio companies and harm our operating results.

Our investments, which are primarily in middle-market companies, may be risky and we could lose all or part of our investment.

Our portfolio companies may be highly leveraged.

Our credit ratings may not reflect all risks of an investment in our securities.

OUR CORPORATE INFORMATION

Edgar Filing: ARES CAPITAL CORP - Form N-2/A

Our administrative offices are located at 2000 Avenue of the Stars, 12th Floor, Los Angeles, California 90067, telephone number (310) 201-4200, and our executive offices are located at 245 Park Avenue, 44th Floor, New York, New York 10167, telephone number (212) 750-7300.

Table of Contents

OFFERINGS

We may offer, from time to time, in one or more offerings or series, up to \$3,000,000,000 of our common stock, preferred stock, debt securities, subscription rights to purchase shares of our common stock, warrants representing rights to purchase shares of our common stock, preferred stock or debt securities, or units comprised of any combination of the foregoing, on terms to be determined at the time of the offering. We will offer our securities at prices and on terms to be set forth in one or more supplements to this prospectus. The offering price per share of our common stock, less any underwriting commissions or discounts, generally will not be less than the net asset value per share of our common stock at the time of an offering. However, we may issue shares of our common stock pursuant to this prospectus at a price per share that is less than our net asset value per share (a) in connection with a rights offering to our existing stockholders, (b) with the prior approval of the majority of our common stockholders or (c) under such other circumstances as the SEC may permit. Any such issuance of shares of our common stock below net asset value may be dilutive to the net asset value of our common stock. See "Risk Factors Risks Relating to Offerings Pursuant to this Prospectus."

At our 2013 annual stockholders meeting, subject to certain determinations required to be made by our board of directors, our stockholders approved our ability to sell or otherwise issue shares of our common stock, not exceeding 25% of our then outstanding common stock, at a price below the then current net asset value per share during a period that began on June 4, 2013 and expires on the earlier of June 4, 2014 and the date of our 2014 annual stockholders meeting.

We may offer our securities directly to one or more purchasers, including existing stockholders in a rights offering, through agents that we designate from time to time or to or through underwriters or dealers. The prospectus supplement relating to each offering will identify any agents or underwriters involved in the sale of our securities, and will set forth any applicable purchase price, fee, commission or discount arrangement between us and our agents or underwriters or among our underwriters or the basis upon which such amount may be calculated. See "Plan of Distribution." We may not sell any of our securities through agents, underwriters or dealers without delivery of a prospectus supplement describing the method and terms of the offering of our securities.

Set forth below is additional information regarding offerings of our securities:

Use of proceeds	Unless otherwise specified in a prospectus supplement, we intend to use the net proceeds from the sale of our securities for general corporate purposes, which includes, among other things, (a) investing in portfolio companies in accordance with our investment objective and (b) repaying indebtedness. Each supplement to this prospectus relating to an offering will more fully identify the use of the proceeds from such offering. See "Use of Proceeds."
Distributions	We currently intend to distribute dividends or make distributions to our stockholders on a quarterly basis out of assets legally available for distribution. We may also distribute additional dividends or make additional distributions to our stockholders from time to time. Our quarterly and additional dividends or distributions, if any, will be determined by our board of directors. For more information, see "Price Range of Common Stock and Distributions."
Taxation	We have elected to be treated as a RIC for U.S. federal income tax purposes. As a RIC, we generally will not pay U.S. federal corporate-level income taxes on any income and gain that we distribute to our stockholders as dividends on a timely basis. Among other things, in order to maintain our RIC status, we must meet specified source of income and asset diversification requirements and distribute annually

Table of Contents

Dividend reinvestment plan	generally an amount equal to at least 90% of our investment company taxable income, out of assets legally available for distribution. See "Risk Factors Risks Relating to Our Business We may be subject to additional corporate-level income taxes if we fail to maintain our status as a RIC" and "Price Range of Common Stock and Distributions." We have a dividend reinvestment plan for our stockholders. This is an "opt out" dividend reinvestment plan. As a result, if we declare a cash dividend, then stockholders' dividends will be automatically reinvested in additional shares of our common stock, unless they specifically "opt out" of the dividend reinvestment plan so as to receive cash. Stockholders whose cash dividends are reinvested in additional shares of our common stock will be subject to the same U.S. federal, state and local tax consequences as stockholders who elect to receive their dividends in cash. See "Dividend Reinvestment Plan."
The NASDAQ Global Select Market symbol	"ARCC"
Anti-takeover provisions	Our board of directors is divided into three classes of directors serving staggered three-year terms. This structure is intended to provide us with a greater likelihood of continuity of management, which may be necessary for us to realize the full value of our investments. A staggered board of directors also may serve to deter hostile takeovers or proxy contests, as may certain other measures adopted by us. See "Description of Our Capital Stock."
Leverage	We borrow funds to make additional investments. We use this practice, which is known as "leverage," to attempt to increase returns to our common stockholders, but it involves significant risks. See "Risk Factors," "Senior Securities" and "Regulation Indebtedness and Senior Securities." With certain limited exceptions, we are only allowed to borrow amounts such that our asset coverage, calculated pursuant to the Investment Company Act, equals at least 200% after such borrowing. The amount of leverage that we employ at any particular time will depend on our investment adviser's and our board of directors' assessments of market and other factors at the time of any proposed borrowing.
Management arrangements	Ares Capital Management serves as our investment adviser. Ares Operations serves as our administrator. For a description of Ares Capital Management, Ares Operations, Ares and our contractual arrangements with these companies, see "Management Investment Advisory and Management Agreement," and " Administration Agreement."
Available information	We are required to file periodic reports, proxy statements and other information with the SEC. This information is available free of charge by calling us collect at (310) 201-4200 or on our website at www.arescapitalcorp.com . The information on our website is not deemed incorporated by reference in this prospectus. The SEC also maintains a website at www.sec.gov that contains this information.

Table of Contents

FEES AND EXPENSES

The following table is intended to assist you in understanding the costs and expenses that an investor in our common stock will bear, directly or indirectly, based on the assumptions set forth below. We caution you that some of the percentages indicated in the table below are estimates and may vary. Except where the context suggests otherwise, whenever this table contains a reference to our fees or expenses, we will pay such fees and expenses out of our net assets and, consequently, stockholders will indirectly bear such fees or expenses as investors in Ares Capital.

Stockholder transaction expenses (as a percentage of offering price):
