RISK FACTORS

Before making an investment decision, investors should carefully consider the risks and uncertainties described under the heading "Risk Factors" in the accompanying prospectus and in our Annual Information Form and MD&A incorporated by reference in the prospectus. These risks and uncertainties are not the only ones we face. Additional risks and uncertainties not presently known to us or that we currently deem immaterial may also impair our business operations or an investment in the notes. If any such risks actually occur, an investment in the notes or our business, financial condition and operating results could be materially harmed.

TRANSCANADA PIPELINES LIMITED

We operate our business in three segments: Natural Gas Pipelines, Liquids Pipelines and Energy. Natural Gas Pipelines and Liquids Pipelines are principally comprised of our respective natural gas and liquids pipelines in Canada, the U.S. and Mexico as well as our regulated natural gas storage operations in the U.S. Energy includes our power operations and the non-regulated natural gas storage business in Canada.

Our principal subsidiaries as of December 31, 2014 are indicated in the diagram under the heading "TransCanada PipeLines Limited Intercorporate Relationships" in the Annual Information Form. All of the outstanding common shares of the Corporation are owned by TransCanada Corporation, our parent holding company. The Corporation's head and registered office are located at 450 - 1st Street S.W., Calgary, Alberta, Canada, T2P 5H1.

Recent Developments

Keystone XL

The U.S. Department of State announced on November 6, 2015 that it had decided to reject the Corporation's application for approval of the Keystone XL pipeline. On January 6, 2016, the Corporation announced that it had filed a Notice of Intent to initiate a claim under Chapter 11 of the North American Free Trade Agreement in response to the U.S. Administration's decision to deny the permit on the basis that the denial was arbitrary and unjustified. The Corporation also filed a lawsuit in the U.S. Federal Court in Houston, Texas, asserting that the President's decision to deny construction of Keystone XL exceeded his power under the U.S. Constitution. As a result of the permit denial, the Corporation is reviewing the approximate \$4.3 billion carrying value invested in the project and related assets and expects that an estimated \$2.5 to \$2.9 billion after-tax write-down will be recorded in the Corporation's fourth quarter results. The non-cash charge will reflect anticipated asset recoveries as well as the recognition of certain income tax benefits and the rating agencies have confirmed that the Corporation's credit ratings will not be impacted as a result of the expected write-down.

Tuxpan-Tula Pipeline

TransCanada Corporation announced on November 11, 2015, that it had been chosen to build, own and operate the Tuxpan-Tula Pipeline in Mexico. Construction of the pipeline is supported by a 25-year natural gas transportation service contract with the Comision Federal de Electricidad, Mexico's state owned power company. The Corporation expects to invest approximately U.S.\$500 million in the 36-inch diameter pipeline and anticipates an in-service date in the fourth quarter of 2017. The pipeline will be approximately 250 kilometres long and have contracted capacity of 886 million cubic feet a day.

Nova Gas Transmission Limited

On November 16, 2015, TransCanada Corporation announced that its wholly-owned subsidiary, NOVA Gas Transmission Ltd. ("NGTL"), had signed contracts for approximately 2.7 billion cubic feet

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

per day of new firm natural gas transportation service that will require a \$570 million system expansion. Subject to regulatory approvals, construction is expected to start in 2017, with all facilities expected to be in service in 2018. On December 1, 2015, the Corporation also announced that NGTL had reached an agreement with customers and other interested parties on the annual costs, including equity return and depreciation, required to operate the NGTL System for 2016 and 2017, subject to regulatory approvals.

Bruce Power

TransCanada Corporation announced on December 3, 2015 that Bruce Power had entered into an agreement with the Ontario Independent Electricity System Operator to extend the operating life of the Bruce Power facility to 2064. This new agreement represents an extension and material amendment to the earlier agreement that led to the refurbishment of Units 1 and 2 at the facility site. In connection with this extension, the Corporation has exercised its option to acquire an additional interest in Bruce Power for \$236 million from the Ontario Municipal Employees Retirement System ("OMERS"). Following the completion of this transaction, the Corporation and OMERS will each hold a 48.5 per cent interest in Bruce Power, with the remainder held by the Power Workers' Union, the Society of Energy Professionals and a Bruce Power Employee Trust.

The amended agreement, which took economic effect January 1, 2016, will allow Bruce Power to immediately invest in life extension activities for Units 3 through 8 to support the long-term refurbishment program. This early investment in the Asset Management ("AM") program will result in near-term life extension, allowing later investment in the Major Component Replacement ("MCR") work that will begin in 2020. The Corporation's estimated share of investment related to the AM program to be completed over the life of the agreement is approximately \$2.5 billion (2014 dollars). The Corporation's estimated share of investment in the MCR work for Units 3 through 8 over the 2020 to 2033 timeframe is approximately a further \$4 billion (2014 dollars).

Energy East

On December 17, 2015, TransCanada Corporation announced it had filed an amendment to its existing application with the National Energy Board ("NEB") that adjusts the proposed route, scope and capital cost of the Energy East Pipeline Project based on landowner, environmental, community and customer input. Changes to the project schedule and scope have contributed to a new projected capital cost of \$15.7 billion, excluding the transfer of Canadian Mainline natural gas assets. The change in project scope and further refinement of the project schedule is expected to result in an in-service date of 2020, subject to receiving the necessary regulatory approvals and permits. The Corporation had previously announced on November 5, 2015 its intention to amend the application before the NEB to remove a port in Québec from the scope of the project.

Consolidated Capitalization

Other than the issuance of \$400 million principal amount of 4.55% medium term notes due 2041 on October 6, 2015 (the "October MTNs") and U.S.\$1,000,000,000 principal amount of 1.625% senior notes due 2017 on November 9, 2015 (the "November Notes"), there have been no material changes in our share and loan capital on a consolidated basis since September 30, 2015.

Enforcement of Judgments Obtained in Canada Against U.S. Directors

Each of Paula R. Reynolds, John Richels, Mary Pat Salomone and John E. Lowe, who are directors of the Corporation, reside outside of Canada and have appointed the Corporation, having its registered office and principal executive office at 450 - 1st Street S.W., Calgary, Alberta, Canada T2T 5H1, as agent for service of process in Canada.

Purchasers are advised that it may not be possible for investors to enforce judgments obtained in Canada against any person or company that is incorporated, continued or otherwise organized under the laws of a foreign jurisdiction or resides outside of Canada, even if the party has appointed an agent for service of process.

USE OF PROCEEDS

We estimate that the net proceeds of the offering of the notes, after deducting estimated expenses of the offering and the underwriting commissions, will be approximately U.S.\$1,236,481,500. We intend to use the net proceeds of this offering for general corporate purposes and to reduce short term indebtedness of the Corporation and its affiliates, which short term indebtedness was used to fund the Corporation's capital program and for general corporate purposes. The Corporation may invest funds that it does not immediately require in short-term marketable debt instruments.

PRIOR SALES

The Corporation has not sold or issued any U.S.\$ senior notes, or securities convertible into senior notes, during the 12-month period prior to the date hereof, other than the (i) U.S. \$750 million principal amount of 4.60% senior notes due 2045 (the "Formosa Bonds") on March 31, 2015, and (ii) the November Notes.

The Formosa Bonds are listed on the Taipei Exchange. Since the date of issuance no Formosa Bonds have been traded on the Taipei Exchange.

EARNINGS COVERAGE

The following financial ratios have been calculated on a consolidated basis for the respective 12-month periods ended December 31, 2014 and September 30, 2015 and are based on audited financial information in the case of the 12-month period ended December 31, 2014 and unaudited financial information in the case of the 12-month period ended September 30, 2015. The following financial ratios give pro forma effect to the issuance of the notes pursuant to this prospectus supplement and the intended use of proceeds therefrom and to the issuance of the October MTNs and the November Notes. The financial ratios for the 12-month period ended December 31, 2014 also give pro forma effect to the issuance of (i) the U.S. \$500 million principal amount of 1.875% senior notes due 2018 (the "January Fixed Rate Notes") on January 12, 2015, (ii) the U.S. \$250 million principal amount of floating rate senior notes due 2018 (the "January Floating Rate Notes") on January 12, 2015 (assuming a constant rate of interest for the January Floating Rate Notes for the applicable periods based on the rate of interest applicable to such notes on the date hereof), (iii) the Formosa Bonds, (iv) U.S. \$750 million principal amount of 5.875% (reset quarterly starting May 20, 2025) subordinated notes due 2075 (the "Sub Notes") on May 20, 2015; and (v) \$750 million principal amount of 3.30% medium term notes due 2025 (the "July MTNs") on July 17, 2015. Adjustments for other normal course issuances and repayments of long-term debt subsequent to September 30, 2015 and December 31, 2014, as applicable, would not materially affect the ratios and, as a result, have not been made. The financial ratios for the 12-month periods ended December 31, 2014 and September 30, 2015 have been calculated based on information contained within our financial statements for the related periods.

The Corporation's interest expense requirements for: (i) the 12-month period ended December 31, 2014 after giving pro forma effect to the issuance of the notes pursuant to this prospectus supplement and the intended use of proceeds therefrom, and the issuance of the January Fixed Rate Notes, the January Floating Rate Notes, the Formosa Bonds, the Sub Notes, the July MTNs, the October MTNs and the November Notes amounted to approximately \$1.674 billion; and (ii) the 12-month period ended September 30, 2015 after giving pro forma effect to the issuance of the notes pursuant to this prospectus supplement and the intended use of proceeds therefrom and the issuance of the October MTNs and the November Notes amounted to approximately \$1.817 billion. The Corporation's earnings

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

before interest expense and income taxes amounted to: (i) approximately \$3.870 billion for the 12-month period ended December 31, 2014, which is 2.3 times the Corporation's pro forma interest requirements for that period; and (ii) approximately \$3.978 billion for the 12-month period ended September 30, 2015, which is 2.2 times the Corporation's pro forma interest requirements for that period.

DESCRIPTION OF THE NOTES

The notes will be issued in two series under a second amended and restated debt indenture, dated as of September 15, 2010, as supplemented or amended from time to time (the "Indenture"), between us and The Bank of New York Mellon, as Trustee. The following summary of certain provisions of the Indenture and the notes does not purport to be complete and is qualified in its entirety by reference to the actual provisions of the Indenture.

The notes will be issued under the Indenture in two series in an aggregate principal amount of U.S.\$400,000,000 for the 2019 Notes and an aggregate principal amount of U.S.\$850,000,000 for the 2026 Notes. The 2019 Notes will mature on January 15, 2019 and the 2026 Notes will mature on January 15, 2026. The 2019 Notes will bear interest at a rate of 3.125% per year and the 2026 Notes will bear interest at a rate of 4.875% per year. Interest on the notes will be payable semi-annually on January 15 and July 15 of each year, commencing on July 15, 2016 to the persons in whose names the notes are registered at the close of business on the preceding January 1 or July 1, respectively.

The following description of the terms of the notes offered hereby supplements, and to the extent inconsistent therewith supersedes, the description of the general terms and provisions of debt securities set forth under the heading "Description of Debt Securities" in the accompanying prospectus, and should be read in conjunction with that description. References in this "Description of the Notes" to "we", "us", "our" or the "Corporation" refer to TransCanada PipeLines Limited and not to any of its parent, subsidiaries, partnership interests and joint venture investments.

General

The trustee under the Indenture shall be referred to herein as the "Trustee", which term shall include, unless the context otherwise requires, its successors and assigns. Capitalized terms used but not defined herein shall have the meanings given to them in the Indenture. The term "debt securities", as used in this prospectus supplement, refers to all debt securities issued and issuable from time to time under the Indenture and includes the notes.

We may from time to time without notice to, or the consent of, the holders of the notes, create and issue additional notes under the Indenture, equal in rank to the notes in all respects so that the new notes may be consolidated and form a single series with the 2019 Notes or the 2026 Notes, as applicable, and have the same terms as to status, redemption and otherwise as the applicable series of the notes issued under this prospectus supplement.

The notes will be our direct unsecured obligations issued under the Indenture and will rank equally with all of our other unsecured and unsubordinated indebtedness other than preferred claims imposed by operation of law. In addition, our business operations are conducted in part through our subsidiaries and through joint ventures. As a result, the notes will be effectively subordinated to all existing and future liabilities of our subsidiaries and joint ventures. As at September 30, 2015, as determined under U.S. GAAP, the long-term debt (excluding guarantees and intercompany obligations between us and our subsidiaries) of our wholly-owned subsidiaries totaled approximately \$1.7 billion. At September 30, 2015, as determined under U.S. GAAP, our total consolidated long-term debt, junior subordinated notes and long-term debt due within one year was, in aggregate principal amount, approximately \$31.4 billion. There are no terms of the Indenture that limit our or our subsidiaries' or joint ventures' ability to incur additional indebtedness including, in the case of us and our subsidiaries

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

and joint ventures, indebtedness that ranks, either effectively or by contract, senior to the notes. See "Description of Debt Securities Unsubordinated Debt" and "Description of Debt Securities Certain Covenants of the Corporation" in the accompanying prospectus.

The notes will be denominated in U.S. dollars and payments of principal (and premium, if any) and interest on the notes will be paid in U.S. dollars in the manner and on terms set out in the Indenture.

The notes offered by this prospectus supplement will not be entitled to any benefits of a sinking fund.

Optional Redemption

Except as described below, the notes of each series will be redeemable, in whole or in part, at our option at any time or from time to time at a redemption price equal to the greater of:

100% of the principal amount of the notes to be redeemed, and

as determined by the Quotation Agent (as defined below), the sum of the present values of the remaining scheduled payments of principal and interest on the notes to be redeemed (not including any portion of the payments of interest accrued as of the date of redemption), discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) at the Adjusted Treasury Rate (as defined below) plus 35 basis points, in the case of the 2019 Notes, or 45 basis points, in the case of the 2026 Notes,

plus, in either case, accrued interest thereon to the date of redemption.

On or after October 15, 2025 (three months prior to the maturity date of the 2026 Notes), in the case of the 2026 Notes, we may redeem the 2026 Notes, in whole or in part, at our option at any time or from time to time at a redemption price equal to 100% of the principal amount of the 2026 Notes to be redeemed, plus accrued interest thereon to the date of redemption.

Notice of any redemption will be delivered by first-class mail at least 30 days, but not more than 60 days, before the redemption date to each holder of the notes to be redeemed.

Unless we default in payment of the redemption price, on and after the redemption date, interest will cease to accrue on the notes or portions of the notes called for redemption.

In the case of a partial redemption of the notes of a series, selection of such notes for redemption will be made by the Trustee as it shall deem appropriate and fair (subject to the procedures of the depository for the notes). If the notes of a series are redeemed in part, the notice of redemption shall provide for the principal amount to be redeemed. The notes may be redeemed in multiples equal to the minimum authorized denominations for the notes or any multiples thereof.

"*Adjusted Treasury Rate*" means, with respect to any redemption date, the rate per annum equal to the semi-annual equivalent yield to maturity or interpolated (on a day count basis) of the Comparable Treasury Issue, assuming a price for the Comparable Treasury Issue (expressed as a percentage of its principal amount) equal to the Comparable Treasury Price for the redemption date.

"*Business Day*" means any day, other than a Saturday or Sunday, that is neither a legal holiday nor a day on which commercial banks are authorized or required by law, regulation or executive order to close in The City of New York.

"*Comparable Treasury Issue*" means the U.S. Treasury security or securities selected by the Quotation Agent as having an actual or interpolated maturity comparable to the remaining term of the notes to be redeemed that would be utilized, at the time of selection and in accordance with customary

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

financial practice, in pricing new issues of corporate debt securities of comparable maturity to the remaining term of the notes.

"*Comparable Treasury Price*" means, with respect to any redemption date, (i) the average of the Reference Treasury Dealer Quotations for such redemption date, after excluding the highest and lowest such Reference Treasury Dealer Quotations, or (ii) if fewer than four such Reference Treasury Dealer Quotations are obtained, the average of all such quotations.

"*Quotation Agent*" means one of the Reference Treasury Dealers, which is appointed by us.

"*Reference Treasury Dealer*" means Deutsche Bank Securities Inc. and J.P. Morgan Securities LLC plus three other entities or their affiliates which are primary U.S. Government securities dealers and their respective successors, provided, however, that if any of the foregoing or their affiliates shall cease to be a primary U.S. Government securities dealer in New York City (a "Primary Treasury Dealer"), we shall substitute another Primary Treasury Dealer.

"*Reference Treasury Dealer Quotations*" means, with respect to each Reference Treasury Dealer and any redemption date, the average, as determined by the Quotation Agent, of the bid and asked prices for the Comparable Treasury Issue (expressed in each case as a percentage of its principal amount) quoted in writing to the Quotation Agent by such Reference Treasury Dealer at 3:30 p.m. (New York time) on the third Business Day preceding such redemption date.

Payment of Principal and Interest

Payments of principal of, and premium, if any, and interest on, the notes will be made by us through the Trustee to the Depository (as defined below). See "Book-Entry System".

Interest payments for the notes will include accrued interest from and including the date of issue or from and including the last date in respect of which interest has been paid, as the case may be, to, but excluding, the interest payment date or the date of maturity, as the case may be. If any interest payment date or the maturity date of the notes falls on a day that is not a Business Day, the related payment of principal, premium, if any, or interest will be postponed to the next succeeding Business Day, and no interest on such payment will accrue for the period from and after such interest payment date or the maturity date, as the case may be. Interest on the notes will be calculated on the basis of a 360-day year of twelve 30-day months.

Book-Entry System

Upon issuance, each series of the notes will be represented by one or more fully registered global securities (the "Global Securities") registered in the name of Cede & Co. (the nominee of The Depository Trust Company (the "Depository")), or such other name as may be requested by an authorized representative of the Depository. The authorized denominations of each note will be U.S.\$1,000 and integral multiples thereof. The provisions set forth under "Description of Debt Securities Global Securities" in the accompanying prospectus will be applicable to the notes. Accordingly, notes may be transferred or exchanged only through the Depository and its participants. Except as described under "Description of Debt Securities Global Securities" in the accompanying prospectus, owners of beneficial interests in the Global Securities will not be entitled to receive notes in definitive form.

Beneficial interests in the notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in the Depository. Investors may elect to hold interests in the notes in global form through either the Depository in the U.S. or Clearstream Banking, société anonyme ("Clearstream, Luxembourg"), or Euroclear Bank S.A./N.V. ("Euroclear"), if they are participants in those systems, or indirectly through organizations which are participants in those systems. Clearstream, Luxembourg and Euroclear will hold interests on behalf

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

of their participants through customers' securities accounts in Clearstream, Luxembourg's and Euroclear's names on the books of their respective depositaries, which in turn will hold such interests in customers' securities accounts in the depositaries' names on the books of the Depositary.

Each person owning a beneficial interest in a Global Security must rely on the procedures of the Depositary and, if such person is not a participant, on the procedures of the participant through which such person owns its interest in order to exercise any rights of a holder under the Indenture. The laws of some jurisdictions require that certain purchasers of securities take physical delivery of such securities in certificated form. Such limits and such laws may impair the ability to transfer beneficial interests in a Global Security representing the notes.

The following is based on information furnished by the Depositary:

The Depositary is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Exchange Act. The Depositary holds securities that its participants ("Participants") deposit with the Depositary. The Depositary also facilitates the settlement among Participants of securities transactions, such as transfers and pledges, in deposited securities through electronic computerized book-entry changes in Participants' accounts, thereby eliminating the need for physical movement of securities certificates. These direct Participants ("Direct Participants") include securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations. The Depositary is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for the Depositary, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the Depositary's system is also available to others such as securities brokers and dealers, banks and trust companies that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). The rules applicable to the Depositary and its Participants are on file with the SEC.

Purchases of the notes under the Depositary's system must be made by or through Direct Participants, which will receive a credit for such notes on the Depositary's records. The ownership interest of each actual purchaser of each note represented by a Global Security ("Beneficial Owner") is in turn to be recorded on the Direct Participants' and Indirect Participants' records. Beneficial Owners will not receive written confirmation from the Depositary of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct Participants or Indirect Participants through which such Beneficial Owner entered into the transaction. Transfers of ownership interests in a Global Security representing notes are to be accomplished by entries made on the books of Participants acting on behalf of Beneficial Owners. Beneficial Owners of a Global Security representing the notes will not receive notes in definitive form representing their ownership interests therein, except in the event that use of the book-entry system for such notes is discontinued.

To facilitate subsequent transfers, the Global Securities representing the notes which are deposited with the Depositary are registered in the name of the Depositary's nominee, Cede & Co., or such other name as may be requested by an authorized representative of the Depositary. The deposit of Global Securities with the Depositary and their registration in the name of Cede & Co. or such other nominee effect no change in beneficial ownership. The Depositary has no knowledge of the actual Beneficial Owners of the Global Securities representing the notes; the Depositary's records reflect only the identity of the Direct Participants to whose accounts such notes are credited, which may or may not be the Beneficial Owners. The Participants will remain responsible for keeping account of their holdings on behalf of their customers.

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

Conveyance of notices and other communications by the Depositary to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Neither the Depositary nor Cede & Co. (nor such other nominee of the Depositary) will consent or vote with respect to the Global Securities representing the notes. Under its usual procedures, the Depositary mails an "omnibus proxy" to us as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts the notes are credited on the applicable record date (identified in a listing attached to the omnibus proxy).

Principal, premium, if any, and interest payments on the Global Securities representing the notes will be made to Cede & Co. (or such other nominee as may be requested by an authorized representative of the Depositary). The Depositary's practice is to credit Direct Participants' accounts, upon the Depositary's receipt of funds and corresponding detailed information from us or the applicable Trustee, on the applicable payment date in accordance with their respective holdings shown on the Depositary's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name", and will be the responsibility of such Participant and not of the Depositary, the applicable Trustee or us, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of principal, premium, if any, and interest to Cede & Co. (or such other nominee as may be requested by an authorized representative of the Depositary) is the responsibility of us or the applicable Trustee (provided it has received funds from us), disbursement of such payments to Direct Participants shall be the responsibility of the Depositary, and disbursement of such payments to the Beneficial Owners shall be the responsibility of Direct and Indirect Participants.

The Depositary may discontinue providing its services as securities depository with respect to the notes at any time by giving reasonable notice to us or the Trustee. Under such circumstances, in the event that a successor securities depository is not obtained, notes in definitive form are required to be printed and delivered to each holder.

We may decide to discontinue use of the system of book-entry transfers through the Depositary (or a successor securities depository). In that event, notes in definitive form will be printed and delivered.

Clearstream, Luxembourg advises that it is incorporated under the laws of Luxembourg as a professional depository. Clearstream, Luxembourg holds securities for its participating organizations ("Clearstream participants"), and facilitates the clearance and settlement of securities transactions between Clearstream participants through electronic book-entry changes in accounts of Clearstream participants, thereby eliminating the need for physical movement of certificates. Clearstream, Luxembourg provides to Clearstream participants, among other things, services for safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg interfaces with domestic markets in several countries. As a professional depository, Clearstream, Luxembourg is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream participants are recognized financial institutions around the world, including underwriters, securities brokers and dealers, banks, trust companies, clearing corporations and certain other organizations and may include the underwriters. Indirect access to Clearstream, Luxembourg is also available to others, such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream participant, either directly or indirectly.

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

Distributions with respect to interests in the notes held beneficially through Clearstream, Luxembourg will be credited to cash accounts of Clearstream participants in accordance with its rules and procedures, to the extent received by the Depositary for Clearstream, Luxembourg.

Euroclear advises that it was created in 1968 to hold securities for participants of Euroclear ("Euroclear participants"), and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of certificates and any risk from lack of simultaneous transfers of securities and cash. Euroclear includes various other services, including securities lending and borrowing and interfaces with domestic markets in several countries. Euroclear is operated by Euroclear Bank S.A./N.V. ("Euroclear Operator"). All operations are conducted by the Euroclear Operator, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear Operator. Euroclear participants include banks (including central banks), securities brokers and dealers and other professional financial intermediaries and may include the underwriters. Indirect access to Euroclear is also available to other firms that clear through or maintain a custodial relationship with a Euroclear participant, either directly or indirectly.

Securities clearance accounts and cash accounts with the Euroclear Operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law (collectively, the "Terms and Conditions"). The Terms and Conditions govern transfers of securities and cash within the Euroclear System, withdrawals of securities and cash from the Euroclear System, and receipts of payment with respect to securities in the Euroclear System. All securities in the Euroclear System are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear Operator acts under the Terms and Conditions only on behalf of Euroclear participants, and has no records of or relationship with persons holding through Euroclear participants.

Distributions with respect to the notes held beneficially through the Euroclear System will be credited to the cash accounts of Euroclear participants in accordance with the Terms and Conditions, to the extent received by the U.S. depositary for the Euroclear System.

The information in this section concerning the Depositary and the Depositary's book-entry system, Clearstream, Luxembourg and Euroclear has been obtained from sources that we believe to be reliable, but is subject to any changes to the arrangements between us and the Depositary and any changes to such procedures that may be instituted unilaterally by the Depositary, Clearstream, Luxembourg and Euroclear.

CERTAIN INCOME TAX CONSIDERATIONS

Certain U.S. Federal Income Tax Considerations

The following is a general summary of certain U.S. federal income tax consequences of the purchase, ownership and disposition of the notes by U.S. Holders (as defined below). The summary is for general information only and is based on the United States Internal Revenue Code of 1986, as amended (the "Code"), the Treasury regulations promulgated or proposed thereunder, and judicial and administrative interpretations thereof, all as in effect on the date hereof and all of which are subject to change (possibly with retroactive effect). The U.S. federal income tax treatment of a U.S. Holder may vary depending upon the particular situation of the U.S. Holder. Certain U.S. Holders (including, but not limited to, insurance companies, tax-exempt organizations, banks, financial institutions, persons subject to the alternative minimum tax, U.S. persons whose functional currency is not the U.S. dollar, traders in securities that elect mark-to-market accounting treatment, broker dealers in securities, or U.S. Holders that will hold the notes as a hedge against currency risks or as part of a straddle, synthetic security, conversion transaction, or other integrated investment comprised of the notes and one or more other investments, regulated investment companies and U.S. expatriates) may be subject to special rules not discussed below. The following summary is applicable only to purchasers of the notes on original issue at the issue price and does not address other purchasers. In addition, the summary is limited to investors that will hold the notes as "capital assets" within the meaning of Section 1221 of the Code. The discussion below also does not address estate, gift or alternative minimum tax consequences or the effect of any state, local or non-U.S. law on a holder of the notes.

As used herein, the term "U.S. Holder" means a beneficial owner of a note that is:

an individual who is a citizen or resident of the U.S. as determined for U.S. federal income tax purposes;

a corporation or other entity treated as a corporation for U.S. federal income tax purposes organized in or under the laws of the U.S., any state thereof, or the District of Columbia;

an estate that is subject to U.S. federal income taxation without regard to the source of its income; or

a trust if, in general, (i) a court within the U.S. is able to exercise primary supervision over the administration of the trust and one or more U.S. persons have the authority to control all substantial decisions of the trust, or (ii) the trust has made a valid election to be treated as a U.S. person.

If a partnership (including any other pass-through entity for U.S. federal income tax purposes) holds notes, the tax treatment of a partner or other owner of the entity generally will depend on the status of the partner or other owner and the activities of the partnership or other entity. If you are a partner in a partnership or other owner of a pass-through entity you are urged to consult your tax advisor regarding the tax consequences of acquiring, owning and disposing of the notes.

The summary does not constitute, and should not be considered as, legal or tax advice to holders of notes. Each holder of the notes should consult a tax advisor as to the particular tax consequences to such holder of holding the notes, including the applicability and effect of any state, local or non-U.S. tax laws.

Payments of Interest

Each payment of interest on a note will be taxable to a U.S. Holder as ordinary interest income at the time it is accrued or is received in accordance with the U.S. Holder's method of accounting for U.S. federal income tax purposes. Interest on the notes will constitute income from sources without the U.S. for purposes of computing the foreign tax credit allowable under the U.S. federal income tax laws.

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

The rules governing the foreign tax credit are complex, and U.S. Holders should consult their tax advisors regarding the availability of the credit under their particular circumstances.

Sale and Retirement of the Notes

A U.S. Holder will recognize a gain or loss on the sale or retirement of a note equal to the difference between the amount realized on the sale or retirement (except to the extent of accrued and unpaid interest, which will be taxable as ordinary interest income) and the U.S. Holder's tax basis in the note (generally, the price the U.S. Holder paid for the note). As a general rule, such gain or loss recognized on the sale or retirement of a note will be capital gain or loss and will be long-term capital gain or loss if the note was held for more than one year. Such income or loss will generally constitute income or loss from sources within the U.S. for purposes of computing the foreign tax credit allowable under the U.S. federal income tax laws.

For non-corporate U.S. Holders, including individuals, long-term capital gains generally are taxed at a lower rate than ordinary income. The deductibility of capital losses is subject to limitations.

Backup Withholding and Reporting Obligations

A U.S. Holder may be subject to backup withholding (currently at a rate of 28%) with respect to payments of principal and interest made on the note, or the proceeds of a sale, exchange or retirement of the note, unless such U.S. Holder (a) qualifies under one of several exemptions, one of which covers most corporations, and, when required, certifies to this fact or (b) provides a correct U.S. taxpayer identification number ("TIN"), certifies, under penalties of perjury, that such U.S. Holder is not subject to backup withholding, and otherwise complies with applicable requirements of the backup withholding rules. Backup withholding is not an additional tax and will be credited against a U.S. Holder's U.S. federal income tax liability, provided the required information is timely furnished to the Internal Revenue Service. You are urged to consult your tax advisor regarding the application of backup withholding, the availability of an exemption from backup withholding and the procedure for obtaining such an exemption, if available.

Certain U.S. Holders who are individuals are required to report information relating to an interest in a note, subject to certain exceptions (including an exception for a note held in accounts maintained by certain financial institutions, such as a U.S. brokerage account). You are urged to consult your own tax advisor regarding your reporting requirements.

Additional Tax on Passive Income

Certain U.S. Holders that are individuals, estates or trusts, and whose income exceeds certain thresholds, are required to pay an additional 3.8% tax on their "net investment income", which includes, among other items, interest income and capital gains from the sale or other disposition of a note, subject to certain limitations and exceptions. You are urged to consult your own tax advisor regarding the effect, if any, of this tax on your ownership and disposition of the notes.

The U.S. federal income tax discussion set forth above is included for general information only and may not be applicable depending upon a holder's particular situation. U.S. Holders should consult their tax advisors regarding the tax consequences to them of the purchase, ownership and disposition of the notes, including the tax consequences under state, local, non-U.S. and other tax laws.

Certain Canadian Income Tax Considerations

In the opinion of Blake, Cassels & Graydon LLP, Canadian counsel to the Corporation, the following is a summary of the material Canadian federal income tax considerations generally applicable, as of the date of this prospectus supplement, to the acquisition, holding, disposition and redemption of the notes. The summary only addresses the tax consequences to purchasers who acquire the notes on their original issue pursuant to this prospectus supplement and who, at all relevant times and for the purposes of the Income Tax Act (Canada) (the "Canada Tax Act"): (i) are not resident (and are not deemed to be resident) in Canada; (ii) do not use or hold and are not deemed to use or hold the notes in, or in the course of, carrying on business in Canada; (iii) deal at arm's length with the Corporation; and (iv) are not a "specified non-resident shareholder" of the Corporation and deal at arm's length with "specified shareholders" of the Corporation within the meaning of subsection 18(5) of the Canada Tax Act ("Non-Resident Holders"). Special rules which apply to non-resident insurers carrying on business in Canada and elsewhere are not disclosed in this summary, and such purchasers should obtain independent advice as to the tax consequences of acquiring, holding and disposing of the notes.

This summary is based upon the facts set out in this prospectus supplement, the current provisions of the Canada Tax Act and the regulations thereunder, all specific proposals (the "Tax Proposals") to amend the Canada Tax Act and the regulations thereunder publicly announced by or on behalf of the Minister of Finance (Canada) prior to the date hereof, and the understanding of Blake, Cassels & Graydon LLP of the current administrative and assessing policies and practices of the Canada Revenue Agency published in writing by and prior to the date hereof. This summary is not exhaustive of all possible Canadian federal income tax considerations and assumes that the Tax Proposals will be enacted as currently proposed, but does not otherwise take into account or anticipate any changes in law or in the assessment and administrative practices of the Canada Revenue Agency, whether by legislative, governmental or judicial action, and does not take into account tax legislation or considerations of any province or territory of Canada or any non-Canadian jurisdiction.

Under the Canada Tax Act, no Canadian tax will be required to be deducted or withheld from amounts paid or credited or deemed by the Canada Tax Act to be paid or credited to a Non-Resident Holder by the Corporation as, on account or in lieu of payment of, or in satisfaction of interest or principal on the notes. A Non-Resident Holder who transfers a note to a person who, for purposes of the Tax Act, is or is deemed to be resident in Canada and with whom the Non-Resident Holder does not deal at arm's length may be liable for Canadian withholding tax in respect of deemed interest on the transfer. A Non-Resident Holder considering such a transfer should consult its own tax advisor regarding the tax consequences to the Non-Resident Holder of such a transfer.

A Non-Resident Holder who disposes of a note (including on a redemption, repayment on or prior to maturity, or repurchase) will not be subject to tax in Canada with respect to any capital gain realized on the disposition of the note.

This summary is of a general nature only and is not intended to be, nor should it be construed to be, legal or tax advice to any particular Non-Resident Holder. Prospective Non-Resident Holders should consult their own Canadian tax advisers with respect to the Canadian income tax consequences of purchasing notes pursuant to this offering.

Total	U.S.\$	400,000,000	U.S.\$	850,000,000

The terms of the offering were established through negotiations between us and the underwriters.

The underwriting agreement provides that the obligations of the several underwriters to purchase the notes offered hereby are subject to certain conditions precedent and that the underwriters will purchase all of the notes offered by this prospectus supplement if any of these notes are purchased.

The obligations of the underwriters under the underwriting agreement may be terminated at their discretion, subject to certain conditions, following a suspension of trading on certain stock exchanges, a banking moratorium, an outbreak or escalation of hostilities or a declaration by the United States or Canada of a national emergency or war, or other calamity or crisis affecting financial markets such as to make it, in the sole judgment of Deutsche Bank Securities Inc. and J.P. Morgan Securities LLC, impractical or inadvisable to proceed with the offering or delivery of the notes as contemplated by this prospectus supplement and the accompanying prospectus, and upon the occurrence of certain stated events.

We have been advised by the representatives of the underwriters that the underwriters propose to offer each series of notes to the public at the public offering price set forth on the cover page of this prospectus supplement and to dealers at a price that represents a concession not in excess of 0.250% of the principal amount of the 2019 Notes and 0.400% of the principal amount of the 2026 Notes. The underwriters may allow, and these dealers may re-allow, a concession of not more than 0.150% of the principal amount of the 2019 Notes and 0.250% of the principal amount of the 2026 Notes to other dealers. After the initial public offering, the representatives of the underwriters may change the offering prices and other selling terms. Thus, the prices paid for notes may vary from purchaser to purchaser and may vary during the period of distribution. The compensation realized by the underwriters will be either increased or decreased by the amount that the aggregate price paid by purchasers of the notes differs from the gross proceeds paid to us by the underwriters.

We estimate that our share of the total expenses of this offering, excluding underwriting commissions, will be approximately U.S.\$1,500,000.

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

We have agreed to indemnify the underwriters against certain liabilities, including liabilities under the Securities Act, and to contribute to payments the underwriters may be required to make in respect of any of these liabilities.

The representatives of the underwriters have advised us that the underwriters do not intend to confirm sales to any account over which they exercise discretionary authority.

Each series of the notes is a new issue of securities with no established trading market. The notes will not be listed on any securities exchange or on any automated dealer quotation system. The underwriters may make a market in the notes after completion of the offering, but will not be obligated to do so and may discontinue any market-making activities at any time without notice. No assurance can be given as to the liquidity of the trading market for either series of the notes or that an active public market for the notes will develop. If an active public trading market for either series of the notes does not develop, the market price and liquidity of such notes may be adversely affected.

In connection with the offering, the underwriters may purchase and sell the notes in the open market. These transactions may include short sales, purchases to cover positions created by short sales and stabilizing transactions.

Short sales involve the sale by the underwriters of a greater principal amount of notes than they are required to purchase in the offering. The underwriters may close out any short position by purchasing notes in the open market. A short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the notes of a series in the open market prior to the completion of the offering.

Stabilizing transactions consist of various bids for or purchases of the notes of a series made by the underwriters in the open market prior to the completion of the offering.

The underwriters may impose a penalty bid. This occurs when a particular underwriter repays to the other underwriters a portion of the underwriting commission received by it because the representatives of the underwriters have repurchased notes of a series sold by or for the account of that underwriter in stabilizing or short covering transactions.

Purchases to cover short positions and stabilizing transactions may have the effect of preventing or slowing a decline in the market price of the notes of a series. Additionally, these purchases, along with the imposition of the penalty bid, may stabilize, maintain or otherwise affect the market price of the notes of a series.

As a result, the price of the notes of a series may be higher than the price that might otherwise exist in the open market. These transactions may be effected in the over-the-counter market or otherwise.

Certain of the underwriters and their respective affiliates have, from time to time, performed, and in the future may perform, commercial and investment banking and advisory services for us for which they have received or will receive customary fees and expenses. The underwriters may, from time to time, engage in transactions with and perform services for us in the ordinary course of their business.

Under applicable securities legislation in the Province of Alberta, we may be considered to be a connected issuer of Deutsche Bank Securities Inc., J.P. Morgan Securities LLC, HSBC Securities (USA) Inc., Mitsubishi UFJ Securities (USA), Inc., Mizuho Securities USA Inc., Citigroup Global Markets Inc., Credit Suisse Securities (USA) LLC, Merrill Lynch, Pierce, Fenner & Smith Incorporated, Credit Agricole Securities (USA) Inc. and SMBC Nikko Securities America, Inc., each of which is, directly or indirectly, a subsidiary or affiliate of a bank or other financial institution which is a lender (collectively, the "Lenders") to us or our affiliates under certain unsecured credit facilities (collectively, the "Facilities"). The Facilities consist of the following committed syndicated facilities: our \$3.0 billion amended and restated credit agreement; our U.S.\$1.0 billion credit agreement; a

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

TransCanada PipeLine USA Ltd. U.S.\$0.5 billion credit agreement; a TransCanada American Investments Ltd. and TransCanada Power Marketing Ltd., as co-borrowers, U.S.\$1.5 billion credit agreement; a TC PipeLines U.S.\$500 million first amendment to a second amended and restated revolving credit and term loan agreement; a TC PipeLines U.S.\$500 million term loan agreement; a TC PipeLines U.S.\$170 million term loan agreement; a Northern Border Pipeline Company U.S.\$200 million revolving amended and restated credit agreement; and a Gas Transmission Northwest LLC U.S.\$75 million term loan agreement, each as amended; and also consist of certain other demand bank facilities with aggregate commitments of approximately U.S.\$150 million. As of December 31, 2015, we had approximately U.S.\$1.0 billion outstanding under the Facilities. As of the date hereof, we and our affiliates are in material compliance with all material terms of the agreements governing the Facilities and none of the Lenders has waived any material breach by us or our affiliates of those agreements since the Facilities were established. Our financial position on a consolidated basis has not changed substantially and adversely since the indebtedness under the Facilities was incurred. None of the Lenders has been or will be involved in the decision to offer the notes and none has been or will be involved in the determination of the terms of any distribution of the notes.

As a consequence of their participation in the offering, the underwriters will be entitled to share in the underwriting commissions relating to the offering of the notes. The decision to distribute the notes hereunder and the determination of the terms of this offering were made through negotiations between us and the underwriters. We may have outstanding short term indebtedness owing to certain of the underwriters and affiliates of such underwriters, a portion of which we may repay with the net proceeds of the offering. See "Use of Proceeds". As a result, one or more of such underwriters or their affiliates may receive more than 5% of the net proceeds from the offering of the notes in the form of the repayment of such indebtedness. Accordingly, the offering of the notes is being made pursuant to Rule 5121 of the Financial Industry Regulatory Authority, Inc. Pursuant to this rule, the appointment of a qualified independent underwriter is not necessary in connection with this offering, because the conditions of Rule 5121(a)(1)(C) are satisfied.

The notes will not be qualified for sale under the securities laws of Canada or any province or territory of Canada and may not be offered or sold, directly or indirectly, in Canada or to residents of Canada in contravention of the securities laws of any province or territory in Canada. Each underwriter has agreed that it will not, directly or indirectly, offer, sell or deliver any notes purchased by it, in Canada or to residents of Canada, and that any selling agreement or similar agreement with respect to the notes will require each dealer or other party thereto to make an agreement to the same effect.

The sellers of the notes have not authorized and do not authorize the making of any offer of the notes through any financial intermediary on their behalf, other than offers made by the underwriters with a view to the final placement of the notes as contemplated in this prospectus supplement.

Accordingly, no purchaser of the notes, other than the underwriters, is authorized to make any further offer of the notes on behalf of the sellers or the underwriters.

THE CORPORATION

We operate our business in three segments: Natural Gas Pipelines, Liquids Pipelines and Energy. Natural Gas Pipelines and Liquids Pipelines are principally comprised of our respective natural gas and oil pipelines in Canada, the U.S. and Mexico as well as our regulated natural gas storage operations in the U.S. Energy includes our power operations and the non-regulated natural gas storage business in Canada.

Our principal subsidiaries as of December 31, 2014 are indicated in the diagram under the heading "TransCanada PipeLines Limited Intercorporate Relationships" in the Annual Information Form. All of the outstanding common shares of the Corporation are owned by TransCanada Corporation.

RECENT DEVELOPMENTS

The U.S. Department of State announced on November 6, 2015 that it had decided to reject the Corporation's application for approval of the Keystone XL pipeline. The Corporation is currently reviewing the accounting impact as well as all of its options in light of the permit denial, including a reduction in carrying value of the costs incurred on the project to their estimated fair value and filing a new application to receive a Presidential Permit.

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

TransCanada Corporation announced on November 11, 2015, that it had been chosen to build, own and operate the Tuxpan-Tula Pipeline in Mexico. Construction of the pipeline is supported by a 25-year natural gas transportation service contract with the Comision Federal de Electricidad, Mexico's state owned power company. The Corporation expects to invest approximately U.S.\$500 million in the 36-inch diameter pipeline and anticipates an in-service date in the fourth quarter of 2017. The pipeline will be approximately 250 kilometres long and have contracted capacity of 886 million cubic feet a day.

On November 16, 2015, TransCanada Corporation announced that its wholly-owned subsidiary, NOVA Gas Transmission Ltd. ("NGTL") had signed contracts for approximately 2.7 billion cubic feet per day of new firm natural gas transportation service that will require a \$570 million system expansion. Subject to regulatory approvals, construction is expected to start in 2017, with all facilities expected to be in service in 2018. On December 1, 2015, the Corporation also announced that NGTL had reached an agreement with customers and other interested parties on the annual costs, including equity return and depreciation, required to operate the NGTL System for 2016 and 2017, subject to regulatory approvals.

TransCanada Corporation announced on December 3, 2015 that Bruce Power had entered into an agreement with the Ontario Independent Electricity System Operator to extend the operating life of the Bruce Power facility to 2064. This new agreement represents an extension and material amendment to the earlier agreement that led to the refurbishment of Units 1 and 2 at the site. In connection with this extension, the Corporation has exercised its option to acquire an additional interest in Bruce Power for \$236 million from the Ontario Municipal Employees Retirement System (OMERS). Following the completion of this transaction, the Corporation and OMERS will each hold a 48.5 per cent interest in Bruce Power, with the remainder held by the Power Workers' Union, the Society of Energy Professionals and a Bruce Power Employee Trust.

The amended agreement, which will take economic effect January 1, 2016, will allow Bruce Power to immediately invest in life extension activities for Units 3 through 8 to support the long-term refurbishment program. This early investment in the Asset Management (AM) program will result in near-term life extension, allowing later investment in the Major Component Replacement (MCR) work that will begin in 2020. Our estimated share of investment related to the AM program to be completed over the life of the agreement is approximately \$2.5 billion (2014 dollars). The Corporation's estimated share of investment in the MCR work for Units 3 through 8 over the 2020 to 2033 timeframe is approximately a further \$4 billion (2014 dollars).

On December 17, 2015 TransCanada Corporation announced it had filed an amendment to its existing application with the National Energy Board ("NEB") that adjusts the proposed route, scope and capital cost of the Energy East Pipeline Project based on landowner, environmental, community and customer input. Changes to the project schedule and scope have contributed to a new projected capital cost of \$15.7 billion, excluding the transfer of Canadian Mainline natural gas assets. The change in project scope and further refinement of the project schedule is expected to result in an in-service date of 2020, subject to receiving the necessary regulatory approvals and permits. The Corporation had previously announced on November 5, 2015 its intention to amend the application before the NEB to remove a port in Québec from the scope of the project.

CONSOLIDATED CAPITALIZATION

Other than the issuance of \$400 million principal amount of 4.55% medium term notes due 2041 on October 6, 2015 (the "October MTNs") and the U.S.\$1.0 billion principal amount of 1.625% senior notes due 2017 on November 9, 2015 (the "November Notes"), there have been no material changes in the share and loan capital of the Corporation, on a consolidated basis, since September 30, 2015.

USE OF PROCEEDS

Unless otherwise specified in an applicable Prospectus Supplement, we intend to use the net proceeds from the sale of debt securities to reduce or repay indebtedness and/or to, directly or indirectly, finance the Corporation's long-term investment program. Specific information about the use of net proceeds will be set forth in the applicable Prospectus Supplement. The Corporation may invest funds that it does not immediately require in short-term marketable investment grade securities. The Corporation may, from time to time, issue debt securities other than pursuant to this prospectus.

EARNINGS COVERAGE

The following financial ratios have been calculated on a consolidated basis for the respective 12-month periods ended December 31, 2014 and September 30, 2015 and are based on audited financial information in the case of the 12-month period ended December 31, 2014 and unaudited financial information in the case of the 12-month period ended September 30, 2015. The following financial ratios give pro forma effect to the issuance of the October MTNs and the November Notes. The financial ratios for the 12 month period ended December 31, 2014 also give pro forma effect to the issuance of: (i) U.S. \$500 million principal amount of 1.875% senior notes due 2018 (the "January Fixed Rate Notes") and U.S. \$250 million principal amount of floating rate senior notes due 2018 (the "January Floating Rate Notes") on January 12, 2015 (assuming a constant rate of interest for the notes for the applicable periods based on the rate of interest applicable to such notes on the date hereof), (ii) U.S. \$750 million principal amount of 4.60% senior notes due 2045 (the "Formosa Bonds") on March 31, 2015, (iii) U.S. \$750 million principal amount of 5.875% (reset quarterly starting May 20, 2025) subordinated notes due 2075 (the "Sub Notes") on May 20, 2015; and (iv) \$750 million principal amount of 3.30% medium term notes due 2025 (the "July MTNs") on July 17, 2015. The following ratios do not give effect to the issue of any debt securities pursuant to this prospectus. Adjustments for other normal course issuances and repayments of long-term debt subsequent to September 30, 2015 and December 31, 2014, as applicable, would not materially affect the ratios and, as a result, have not been made.

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

Pursuant to this prospectus, the Corporation may offer debt securities that will rank pari passu, except as to sinking funds and claims preferred by operation of law, with all other unsecured and unsubordinated debt of the Corporation ("Unsubordinated Debt Securities") as well as debt securities that will be subordinate and junior in right of payment to all Senior Indebtedness (as defined below) of the Corporation ("Subordinated Debt Securities"). The Debt Indenture and the Subordinated Debt Indenture are sometimes hereinafter referred to individually as an "Indenture" and collectively as the "Indentures". The Bank of New York Mellon (formerly known as The Bank of New York) and Computershare Trust Company, N.A. are hereinafter referred to individually as a "Trustee" and collectively as the "Trustees". The following summaries of certain provisions of the Indentures and the debt securities do not purport to be complete and such summaries are subject to, and qualified in their entirety by, the detailed provisions of the applicable Indenture to which reference is hereby made, including the definitions of certain terms used herein. Numerical references in parentheses below are to sections in the applicable Indenture. Wherever particular sections or defined terms of the applicable Indenture are referred to, such sections or defined terms are incorporated herein by reference as part of the statement made, and the statement is qualified in its entirety by such reference. For a more complete description, you should consult the Indentures. The Indentures have been filed as exhibits to the registration statement. The Indentures are substantially identical, except for the provisions relating to subordination and certain covenants. See "Subordinated Debt" and "Certain Covenants of the Corporation". The debt securities offered by this prospectus and the related Prospectus Supplement are referred to herein as the "Offered Debt Securities".

General

Neither of the Indentures limits the amount of the debt securities, debentures, notes or other evidences of indebtedness that may be issued by the Corporation or any of its subsidiaries under the Indentures or otherwise. The Corporation may, from time to time, issue debt instruments and incur additional indebtedness other than through the issuance of debt securities pursuant to this prospectus.

The Indentures provide that debt securities may be created and issued from time to time in one or more series and may be denominated and payable in U.S. dollars or any other currency. Special Canadian and U.S. federal income tax considerations applicable to any of the debt securities denominated in a currency other than U.S. dollars will be described in the Prospectus Supplement relating to any offering of debt securities denominated in a currency other than U.S. dollars. Unless otherwise indicated in a Prospectus Supplement, the debt securities will be unsecured obligations. The debt securities offered pursuant to this prospectus will be issued in an aggregate initial offering price of up to US\$4,000,000,000 or the equivalent in other currencies. The Indentures also permit the Corporation to increase the principal amount of any series of the debt securities previously issued and to issue that increased principal amount. Reference must be made to the Prospectus Supplement for specific terms of and information relating to the Offered Debt Securities (to the extent such terms are applicable to such debt securities) including the following:

- (1) classification as Unsubordinated Debt Securities or Subordinated Debt Securities, the specific designation, aggregate principal amount, purchase price and denominations, if other than US\$1,000;

- (7) any applicable United States federal income tax consequences, including whether and under what circumstances the Corporation will pay additional amounts on Offered Debt Securities held by a person who is not a United States person in respect of any tax, assessment or governmental charge withheld or deducted and, if so, whether the Corporation will have the option to redeem such Offered Debt Securities rather than pay such additional amounts;
- (8) the portion of the principal amount of the Offered Debt Securities, if other than the principal amount thereof, payable upon acceleration of the maturity thereof;

- (14) whether the principal of and interest, if any, on the Offered Debt Securities are to be payable in a Currency other than that in which such Offered Debt Securities are denominated or stated to be payable, and other information, including the method of calculating the applicable exchange rate, related thereto; and
- (15) any other specific terms, conditions, rights and preferences (or limitations on such rights or preferences) of the Offered Debt Securities, including any additional events of default or covenants provided for with respect to such debt securities, and any terms which may be required by or advisable under applicable laws or regulations.

Debt securities will bear interest at a fixed rate ("Fixed Rate Security") or a floating rate ("Floating Rate Security"). Debt securities bearing no interest or interest at a rate that at the time of issuance is below the prevailing market rate will be sold at a discount below their stated principal amount. Special United States federal income tax considerations applicable to any such discounted debt securities or to certain debt securities issued at par that are treated as having been issued at a discount for United States federal income tax purposes will be described in the

relevant Prospectus Supplement.

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

The Indentures provide that all accounting terms not specifically defined therein are to be construed in accordance with accounting principles as are generally accepted in Canada ("GAAP") at the time of computation.

Global Securities

Unless otherwise indicated in an applicable Prospectus Supplement, the debt securities of a series may be issued in the form of one or more fully registered global debt securities ("Registered Global Security") that will be deposited with The Depository Trust Company (the "Depository") or with a nominee for the Depository identified in the Prospectus Supplement relating to such series. In such case, one or more Registered Global Securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal amount of outstanding registered debt securities of the series to be represented by such Registered Global Security or Securities. Unless and until it is exchanged for debt securities in definitive registered form, a Registered Global Security may not be transferred except as a whole by the Depository for such Registered Global Security to a nominee of such Depository or by a nominee of such Depository to such Depository or another nominee of such Depository or by such Depository or any such nominee to a successor of such Depository or a nominee of such successor.

The specific terms of the depositary arrangement with respect to any portion of a series of debt securities to be represented by a Registered Global Security will be described in the Prospectus Supplement relating to such series. The Corporation anticipates that the following provisions will apply to all depositary arrangements.

Upon the issuance of a Registered Global Security, the Depository for such Registered Global Security will credit, on its book-entry registration and transfer system, the respective principal amounts of debt securities represented by such Registered Global Security to the accounts of persons that have accounts with such Depository ("participants"). The accounts to be credited shall be designated by any underwriters, dealers or agents participating in the distribution of such debt securities. Ownership of beneficial interests in a Registered Global Security will be limited to participants or persons that may hold interests through participants. Ownership of beneficial interests in such Registered Global Security will be shown on, and the transfer of that ownership will be effected only through, records maintained by the Depository for such Registered Global Security (with respect to interests of participants) or by participants or persons that hold through participants (with respect to interests of persons other than participants).

So long as the Depository for a Registered Global Security, or its nominee, is the registered owner of such Registered Global Security, such Depository or such nominee, as the case may be, will be considered the sole owner or holder of the debt securities represented by such Registered Global Security for all purposes under the applicable Indenture. Except as set forth below, owners of beneficial interests in a Registered Global Security will not be entitled to have the debt securities represented by such Registered Global Security registered in their names, will not receive or be entitled to receive physical delivery of such debt securities in definitive form and will not be considered the owners or holders thereof under the applicable Indenture.

Principal, premium, if any, and interest payments on debt securities represented by a Registered Global Security registered in the name of the Depository or its nominee will be made to such Depository or its nominee, as the case may be, as the registered owner of such Registered Global Security. None of the Corporation, the Trustee or any paying agent for such debt securities will have any responsibility or liability for any aspect of the records relating to or payments made on account of beneficial ownership interests in such Registered Global Security or for maintaining, supervising or reviewing any records relating to such beneficial ownership interests.

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

The Corporation expects that the Depository for any debt securities represented by a Registered Global Security, upon receipt of any payment of principal, premium or interest, will immediately credit participants' accounts with payments in amounts proportionate to their respective beneficial interests in the principal amount of such Registered Global Security as shown on the records of such Depository. The Corporation also expects that payments by participants to owners of beneficial interests in such Registered Global Security held through such participants will be governed by standing instructions and customary practices, as is now the case with the securities held for the accounts of customers registered in "street names" and will be the responsibility of such participants. Under the terms of the Indentures, the Corporation and the Trustees will treat the persons in whose names the debt securities are registered as the owners of such debt securities for the purpose of receiving payments of principal, premium, if any, and interest on the debt securities and for all other purposes whatsoever. Therefore, neither the Corporation, the Trustees nor any paying agents has any direct responsibility or liability for the payment of principal, premium, if any, or interest on the debt securities to owners of beneficial interests in a Registered Global Security.

If the Depository for any debt securities represented by a Registered Global Security is at any time unwilling or unable to continue as the Depository and a successor Depository is not appointed by the Corporation within 90 days, the Corporation will issue such debt securities in definitive form in exchange for such Registered Global Security. In addition, the Corporation may at any time and in its sole discretion determine not to have any of the debt securities of a series represented by one or more Registered Global Securities and, in such event, will issue debt securities of such series in definitive form in exchange for the Registered Global Security or Registered Global Securities representing such debt securities. In either instance, an owner of a beneficial interest in a Registered Global Security will be entitled to have debt securities equal in principal amount to such beneficial interest registered in its name and will be entitled to physical delivery of such debt securities in definitive form.

Unsubordinated Debt

The Unsubordinated Debt Securities that will constitute part of the unsubordinated debt of the Corporation will be issued under the Debt Indenture and will rank *pari passu* with all other unsecured and unsubordinated debt of the Corporation except for claims preferred by operation of law.

Subordinated Debt

The Subordinated Debt Securities that will constitute part of the subordinated debt of the Corporation will be issued under the Subordinated Debt Indenture and will be subordinate and junior in right of payment, to the extent and in the manner set forth in the Subordinated Debt Indenture, to all Senior Indebtedness of the Corporation. The Subordinated Debt Indenture defines "Senior Indebtedness" as obligations (other than non-recourse obligations, the Subordinated Debt Securities or any other obligations specifically designated as being subordinate in right of payment to Senior Indebtedness) of, or guaranteed or assumed by, the Corporation for borrowed money or evidenced by bonds, debentures, notes or other similar instruments, and amendments, renewals, extensions, modifications and refundings of any such indebtedness or obligation, including, but not limited to, obligations of the Corporation under the Canadian Trust Indenture (as defined below). (Subordinated Debt Indenture, Section 1.1)

In the event (a) of any insolvency or bankruptcy proceedings, or any receivership, liquidation, reorganization or other similar proceedings in respect of the Corporation or a substantial part of its property or (b) that (i) a default shall have occurred with respect to the payment of principal of (and premium, if any) or any interest on or other monetary amounts due and payable on any Senior Indebtedness or (ii) there shall have occurred an event of default (other than a default in the payment of principal (or premium, if any) or interest, or other monetary amounts due and payable) with respect to any Senior Indebtedness, as defined therein or in the instrument under which the same is

outstanding, permitting the holder or holders thereof to accelerate the maturity thereof (with notice or lapse of time, or both) and such event of default shall have continued beyond the period of grace, if any, in respect thereof, and such default or event of default shall not have been cured or waived or shall not have ceased to exist, or (c) that the principal of and accrued interest on the Subordinated Debt Securities shall have been declared due and payable upon an Event of Default pursuant to Section 5.1 of the Subordinated Debt Indenture and such declaration shall not have been rescinded and annulled as provided therein, then in any such case the holders of all Senior Indebtedness shall first be entitled to receive payment of the full amount unpaid thereon, or provisions shall be made for such payment in money or money's worth, before the holders of any of the Subordinated Debt Securities are entitled to receive a payment on account of the principal of (and premium, if any) or any interest on the indebtedness evidenced by such Subordinated Debt Securities. (Subordinated Debt Indenture, Section 13.1) If this prospectus is being delivered in connection with a series of Subordinated Debt Securities, the accompanying Prospectus Supplement or the information incorporated herein by reference will set forth the approximate amount of Senior Indebtedness outstanding as of a recent date.

Certain Covenants of the Corporation

Merger, Consolidation, Sale, Lease or Conveyance. Each Indenture provides that the Corporation will not merge, amalgamate or consolidate with any other person and will not sell, lease or convey all or substantially all its assets to any person, unless the Corporation shall be the continuing corporation, or unless the successor corporation or person that acquires all or substantially all the assets of the Corporation shall expressly assume all of the covenants to be performed and conditions to be observed by the Corporation under the Indenture, and unless immediately after such merger, amalgamation, consolidation, sale, lease or conveyance, the Corporation, such person or such successor corporation shall not be in default in the performance of the covenants and conditions of such Indenture to be performed or observed by the Corporation. (Section 9.1)

This covenant would not apply to a recapitalization transaction, a change of control of the Corporation, a transaction with management or management affiliates or a highly leveraged transaction unless such transactions or change of control were structured to include a merger, amalgamation or consolidation or sale, lease or conveyance of all or substantially all of the assets of the Corporation. Except as may be included in a supplemental indenture applicable to a specific series of debt securities and as may be described in a Prospectus Supplement applicable to such debt securities, there are no covenants or other provisions in the Indentures providing for a put or increased interest or otherwise that would afford holders of debt securities additional protection in the event of a recapitalization transaction, a change of control of the Corporation, a transaction with management or management affiliates or a highly leveraged transaction.

Limitations on Liens, Ownership of Subsidiaries and Certain Other Transactions. The Debt Indenture for the Unsubordinated Debt Securities provides that, so long as any Unsubordinated Debt Securities remain outstanding:

- (1) the Corporation will not, nor will it permit any Designated Subsidiary (as defined below) to, in any way encumber any of its assets to secure any obligations unless at the same time all Unsubordinated Debt Securities shall be secured equally and ratably with such obligations; provided that this covenant does not apply to nor operate to prevent, among other things (a) any security given in the ordinary course of business to any bank or banks to secure any Indebtedness (as defined below) payable on demand or maturing (including any right of extension or renewal) within 24 months after the date such Indebtedness is incurred or the date of any renewal or extension thereof, (b) the giving or assumption of security for any Purchase Money Obligation (as defined below), (c) certain permitted liens specified in the Debt Indenture or (d) any liens of a nature similar to the permitted liens specified in the Debt Indenture which do not secure Indebtedness of, or Indebtedness guaranteed by, the

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

Corporation or any Designated Subsidiary and which do not materially impair the use of the property subject thereto or the operation of the business of the Corporation or such Designated Subsidiary or the value of such property for the purpose of such other business;

- (2) the Corporation will not create, assume or otherwise incur any Funded Obligations (as defined below) ranking prior to the Unsubordinated Debt Securities;
- (3) if the Corporation shall cause the payment of the principal of, premium, if any, or interest on any of its Indebtedness to be subordinated to the prior payment of any other of its Indebtedness it shall in like manner subordinate such payment to the prior payment in full of all of the Unsubordinated Debt Securities outstanding under the Debt Indenture;
- (4) the Corporation will at all times hold Voting Shares (as defined below) of each Designated Subsidiary which, together with Voting Shares of such Designated Subsidiary held by other Designated Subsidiaries, are sufficient to entitle such holders to elect at least a majority of the directors of such Designated Subsidiary;
- (5) the Corporation will not enter into any agreement providing for the issue or sale of Funded Obligations unless such agreement contains a condition of such issue or sale (which condition can only be waived with the consent of the holders of Unsubordinated Debt Securities expressed by resolution) to the effect that the terms and conditions of the Debt Indenture relating to the creation, assumption or incurring of Funded Obligations shall be complied with at the time of each issue and sale provided for in such agreement;
- (6) the Corporation will not permit any Designated Subsidiary to issue any shares of its capital stock except (a) to the Corporation, (b) to the extent, if any, required to qualify directors of a Designated Subsidiary under applicable law, (c) pursuant to obligations to issue shares which exist prior to the date when such Designated Subsidiary became a subsidiary or (d) to the extent issued to other shareholders of such Designated Subsidiary if after giving effect to such issue the pro rata aggregate ownership interest of the Corporation and any other Designated Subsidiaries in the capital stock of such Designated Subsidiary and the Corporation's direct and indirect pro rata voting rights, pro rata interest in shareholders' equity, and pro rata rights to participate in earnings of such Designated Subsidiary are not reduced; and
- (7) the Corporation will not, and will not permit any Designated Subsidiary to, sell or dispose of any shares of capital stock or Indebtedness of any Designated Subsidiary to any person other than the Corporation or another Designated Subsidiary unless all shares of capital stock and Indebtedness of such Designated Subsidiary then held by the Corporation and any of its Subsidiaries (together with all shares of capital stock and Indebtedness of the Corporation and other Designated Subsidiaries then held by such Designated Subsidiary) are being sold or disposed of at such time to a subsidiary of the Corporation for cash at fair value determined by an Independent Appraiser or to persons other than any of the Corporation's Subsidiaries. (Debt Indenture, Section 3.6)

Events of Default

An Event of Default is defined under each Indenture with respect to debt securities of any series issued under such Indenture as being:

- (1) a default in payment of any principal of, and premium, if any, on the debt securities of such series, either at maturity (or upon any redemption), by declaration or otherwise;
- (2) a default for 30 days in payment of any interest on any debt securities of such series;
- (3) a default for 60 days after written notice in the observance or performance of any other covenant or agreement in the debt securities of such series or such Indenture other than a covenant included in such Indenture solely for the benefit of a series of debt securities other than such series;
- (4) certain events of bankruptcy, insolvency or reorganization;
- (5) failure by the Corporation to make any payment at maturity, including any applicable grace period, in respect of any issue of Indebtedness in an aggregate amount in excess of US\$50,000,000 and continuance of such failure for a period of 30 days after written notice thereof to the Corporation by the Trustee, or to the Corporation and the Trustee by the holders of not less than 25% in principal amount of the outstanding debt securities (treated as one class) issued under such Indenture;
- (6) a default with respect to any Indebtedness, which default results in the acceleration of any issue of Indebtedness in an aggregate amount in excess of US\$50,000,000 without such Indebtedness having been discharged or such acceleration having been cured, waived, rescinded or annulled for a period of 30 days after written notice thereof to the Corporation by the Trustee, or to the Corporation and the Trustee by the holders of not less than 25% in principal amount of the outstanding debt securities (treated as one class) issued under such Indenture; or
- (7) any event of default provided with respect to that series,

provided that if any such failure, default or acceleration referred to in clause (5) or (6) above shall cease or be cured, waived, rescinded or annulled, then the Event of Default by reason thereof shall be deemed likewise to have been thereupon cured. (Section 5.1)

Each Indenture provides that: (a) if an Event of Default due to the default in payment of principal of, premium, if any, or interest on any series of debt securities issued under such Indenture or due to the default in the performance or breach of any other covenant or warranty of the Corporation applicable to the debt securities of such series but not applicable to all outstanding debt securities issued under such Indenture shall have occurred and be continuing, either the Trustee or the holders of not less than 25% in principal amount of the debt securities of each affected series (treated as one class) issued under such Indenture and then outstanding may then declare the principal of all debt securities of each such affected series and interest accrued thereon to be due and payable immediately; and (b) if an Event of Default due to a default in the performance of any other of the covenants or

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

agreements in such Indenture applicable to all outstanding debt securities issued thereunder and then outstanding, due to the failure to make any payment at maturity on certain other Indebtedness, due to a default on certain other Indebtedness which has caused an acceleration of such Indebtedness or due to certain events of bankruptcy, insolvency and reorganization of the Corporation shall have occurred and be continuing, unless the principal of all the debt securities has already become due and payable, either the Trustee or the holders of not less than 25% in principal amount of all debt securities issued under such Indenture and then outstanding (treated as one class) may declare the principal of, and premium, if any, on all such debt securities and interest accrued thereon to be due and payable immediately, but upon certain conditions such declarations may be annulled and past defaults may be waived (except a continuing default in payment of principal of (or premium, if any) or interest on such debt securities) by the holders of a majority in principal amount of the debt securities of all such affected series then outstanding. (Section 5.1)

Each Indenture contains a provision entitling the Trustee, subject to the duty of the Trustee during a default to act with the required standard of care, to be indemnified by the holders of debt securities (treated as one class) issued under such Indenture before proceeding to exercise any right or power under such Indenture at the request of such holders. (Section 6.1) Subject to such provisions in each Indenture for the indemnification of the Trustee and certain other limitations, the holders of a majority in principal amount of the outstanding debt securities (treated as one class) issued under such Indenture may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee. (Section 5.8)

Under the *United States Trust Indenture Act of 1939*, the Trustee is required to give to the holders of debt securities, within 90 days after the occurrence of a default, notice of all defaults known to the Trustee. Except in the case of a default in the payment of principal of (or premium, if any) or interest on any debt securities, the Trustee shall be protected in the withholding of such notice if it determines in good faith that the withholding of such notice is in the interest of the holders of the debt securities.

Each Indenture provides that no holder of debt securities issued under such Indenture may institute any action against the Corporation under such Indenture (except actions for payment of overdue principal and premium, if any, or interest) unless such holder previously shall have given to the Trustee written notice of default and continuance thereof and unless the holders of not less than 25% in principal amount of the debt securities of each affected series (treated as one class) issued under such Indenture and then outstanding shall have requested the Trustee to institute such action and shall have offered the Trustee such indemnity as it may reasonably require, the Trustee shall not have instituted such action within 60 days of such request and the Trustee shall not have received direction inconsistent with such written request by the holders of a majority in principal amount of the debt securities of each affected series (treated as one class) issued under such Indenture and then outstanding. (Sections 5.6 and 5.8)

Notwithstanding the foregoing, the right of any holder of a debt security to receive payment of the principal of and interest on such debt security on or after the respective due dates thereof and to institute suit for the enforcement of such payment on or after such respective dates shall not be impaired or affected without the consent of such holder. (Section 5.12)

Each Indenture contains a covenant that the Corporation will file annually with the Trustee a certificate with respect to the Corporation's compliance with all covenants and conditions under such Indenture. (Section 3.5)

Discharge, Defeasance and Covenant Defeasance

The Corporation can discharge or defease its obligations under each Indenture as set forth below. (Section 10.1)

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

The Corporation may discharge certain obligations to holders of any series of debt securities issued under such Indenture (a) if the Corporation pays the principal of and interest on all the outstanding debt securities of any series as and when the same shall have become due and payable, or (b) if the Corporation delivers to the Trustee for cancellation all debt securities of any series theretofore authenticated, or (c) in the case of any series of debt securities where the exact amount of principal of and interest due on which can be determined at the time of making the deposit referred to in clause (ii) below, if (i) all the debt securities of such series not theretofore delivered to the Trustee for cancellation have become due and payable, or are by their terms to become due and payable within one year or are to be called for redemption within one year under arrangements reasonably satisfactory to the Trustee, and (ii) the Corporation irrevocably deposits with the Trustee as trust funds cash (in such Currency in which such debt securities are payable at their stated maturity) (other than moneys repaid by the Trustee or any paying agent to the Corporation), or Government Obligations (as defined in such Indenture) applicable to such debt securities (determined on the basis of the Currency in which such debt securities are then specified as payable at their stated maturity), maturing as to principal and interest at such times and in such amounts as will insure the availability of cash, or a combination thereof in an amount certified by a nationally recognized firm of independent public or chartered accountants to be sufficient to pay at maturity (or upon redemption or pursuant to mandatory sinking fund payments) the principal of, premium, if any, and interest on all outstanding debt securities of such series; and if, in any such case, the Corporation pays all other sums payable under the Indenture by the Corporation.

The Corporation may also discharge any and all of its obligations to holders of any series of debt securities issued under an Indenture at any time ("defeasance") upon compliance with conditions discussed below if the exact amounts of principal and interest due on such debt securities can be determined, with the exception of its duty to register the transfer or exchange of such series of debt securities, to replace any mutilated, destroyed, lost or stolen series of debt securities or to maintain an office or agency in respect of such series of debt securities. Under terms reasonably satisfactory to the relevant Trustee, the Corporation may instead be released with respect to any outstanding series of debt securities issued under the relevant Indenture from the obligations imposed by Sections 3.6 and 9.1, in the case of the Debt Indenture, and Section 9.1, in the case of the Subordinated Debt Indenture (which Sections contain the covenants described above under "Certain Covenants of the Corporation"), and omit to comply with such Sections without creating an Event of Default ("covenant defeasance"). Defeasance or covenant defeasance may be effected only if, among other things:

- (1) the Corporation irrevocably deposits with the Trustee, as trust funds specifically pledged as security for, and dedicated solely to, the benefit of the holders of such debt securities, cash (in such Currency, in which such debt securities are specified as payable at their stated maturity) or Government Obligations applicable to such debt securities (determined on the basis of the Currency in which such debt securities are then specified as payable at their stated maturity), maturing as to principal and interest at such times and in such amounts as will insure the availability of cash, or a combination thereof in an amount certified by a nationally recognized firm of independent public or chartered accountants to be sufficient to pay at maturity (or upon redemption or pursuant to mandatory sinking fund payments) the principal of, premium, if any, and interest on all outstanding debt securities of such series issued under such Indenture;
- (2) such deposit will not result in breach or violation of, or constitute a default under, any agreement or instrument to which the Corporation is a party or by which it is bound;
- (3) the Corporation delivers to the relevant Trustee an opinion of counsel to the effect that the holders of such series of debt securities will not recognize income, gain or loss for United States federal income tax purposes as a result of such defeasance or covenant defeasance and that defeasance or covenant defeasance will not otherwise alter such holders'

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

United States federal income tax treatment of principal, premium, if any, and interest payments on such series of debt securities (in the case of a defeasance, such opinion must be based on a ruling of the Internal Revenue Service or a change in the United States federal income tax law occurring after the date of such Indenture, since such a result would not occur under current tax law);

(4)

the Corporation delivers to the relevant Trustee an opinion of Canadian counsel to the effect that such deposit and related defeasance or covenant defeasance, as the case may be, will not cause the holders of such series of debt securities, other than holders of such series of debt securities who are or who are deemed to be residents of Canada or use or hold or are deemed to use or hold their debt securities of such series in carrying on a business in Canada, to recognize income, gain or loss for Canadian income tax purposes, and to the effect that payments out of the trust fund described above will be free and exempt from any and all withholding and other income taxes of whatever nature of Canada or any province thereof or political subdivision thereof or therein having power to tax, except in the case of debt securities of such series beneficially owned (a) by a person who is or is deemed to be a resident of Canada or (b) by a person who uses or holds or is deemed to use or hold such series of debt securities in carrying on a business in Canada; and

(5)

in the case of the Subordinated Debt Indenture (a) no event or condition shall exist that, pursuant to certain provisions described under "Subordinated Debt" above, would prevent the Corporation from making payments of principal of, and premium, if any, and interest on the Subordinated Debt Securities at the date of the irrevocable deposit referred to above and (b) the Corporation delivers to the Trustee for the Subordinated Debt Indenture an opinion of counsel to the effect that (i) the trust funds will not be subject to any rights of holders of Senior Indebtedness and (ii) the trust funds will not be subject to the effect of any applicable bankruptcy, insolvency, reorganization or similar laws affecting creditors' rights generally; provided however, that such opinion may contain an exception to the effect that if a court were to rule under any such law in any case or proceeding that the trust funds remained property of the Corporation, then the Trustee and the holders of the Subordinated Debt Securities would be entitled to certain rights as secured creditors in such trust funds.

Modification and Waiver

Each Indenture provides that the Corporation and the Trustee may enter into supplemental indentures without the consent of the holders of debt securities to: (a) secure any debt securities; (b) evidence the succession of another corporation to the Corporation, or successive successions, and the assumption by the successor corporation of the obligations of the Corporation; (c) add covenants for the benefit of the holders of debt securities; (d) cure any ambiguity or correct any inconsistency in such Indenture; (e) establish the form or terms of debt securities of any series; (f) evidence the acceptance of appointment by a successor trustee under the Indenture with respect to one or more series of debt securities and provide for or facilitate the administration of one or more trusts under the Indenture by one or more trustees; and (g) provide for or facilitate the issuance of debt securities in bearer form or provide for uncertificated securities. (Section 8.1).

Each Indenture also contains provisions permitting the Corporation and the Trustee, with the consent of the holders of not less than a majority in principal amount of debt securities of each series issued under such Indenture then outstanding and affected, to add any provisions to, or change in any manner or eliminate any of the provisions of, such Indenture or modify in any manner the rights of the holders of the debt securities of each series so affected; provided that the Corporation and the Trustee may not, without the consent of the holder of each outstanding debt security affected thereby, (a) extend the stated maturity of the principal of any debt security, or reduce the principal amount thereof or reduce the rate or extend the time of payment of interest thereon, or reduce any amount

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

payable on redemption thereof, or change the place at which or currency in which principal and interest payments are to be made, or reduce the amount of any original issue discount security payable upon acceleration or provable in bankruptcy or impair the right to institute suit for the enforcement of any payment on any debt security when due or (b) reduce the aforesaid percentage in principal amount of debt securities of any series issued under such Indenture, the consent of the holders of which is required for any such modification. (Section 8.2).

The holders of a majority in principal amount of the outstanding debt securities of any series may on behalf of the holders of all debt securities of that series waive, insofar as that series is concerned, compliance by the Corporation with certain restrictive provisions of the Indentures. The holders of a majority in principal amount of outstanding debt securities of any series may waive any past default under the Indentures with respect to that series, except in respect of a provision which under the Indentures cannot be modified or amended without the consent of the holder of each outstanding debt security of that series (including a default in the payment of the principal of (or premium, if any) and interest, if any, on any debt security of that series). (Section 5.9).

The Subordinated Debt Indenture may not be amended to alter the subordination of any outstanding Subordinated Debt Securities without the consent of each holder of Senior Indebtedness then outstanding that would be adversely affected thereby. (Subordinated Debt Indenture, Section 8.6).

Consent to Jurisdiction and Service

Each Indenture provides that the Corporation agrees that any legal suit, action or proceeding brought by the applicable Trustee or any holder of debt securities issued under such Indenture in connection with such debt securities or such Indenture may be instituted in any State or Federal court in The City of New York and the Corporation has appointed CT Corporation System at 111 Eighth Avenue, 13th Floor., New York, NY 10011 as its authorized agent for service of process in any such suit, action or proceeding. (Section 11.12).

Governing Law

The Indentures are and the debt securities will be governed by and construed in accordance with the laws of the State of New York.

PLAN OF DISTRIBUTION

We may offer and sell the debt securities to or through underwriters or dealers purchasing as principals, and also may sell the debt securities to one or more purchasers directly or through agents. The distribution of the debt securities may be effected from time to time in one or more transactions at a fixed price or prices or at non-fixed prices. If offered on a non-fixed price basis, the debt securities may be offered at market prices prevailing at the time of sale or at prices to be negotiated with purchasers at the time of sale, which prices may vary as between purchasers and during the period of distribution. If the debt securities are offered on a non-fixed price basis, the underwriters', dealers' or agents' compensation will be increased or decreased by the amount by which the aggregate price paid for the debt securities by the purchasers exceeds or is less than the gross proceeds paid by the underwriters, dealers or agents to us.

The Prospectus Supplement relating to each offering of debt securities will identify each underwriter, dealer or agent, as the case may be, and will also set forth the terms of the offering, including the type of security being offered, the public offering price (or the manner of determination thereof if offered on a non-fixed price basis), the proceeds to the Corporation and any underwriting fees or commissions, any fees or commissions to be paid to any agents and any fees, commissions or concessions allowed or reallocated or paid by any underwriters to other dealers. Only underwriters,

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

dealers or agents so named in the Prospectus Supplement are deemed to be underwriters, dealers or agents, as the case may be, in connection with the debt securities offered thereby.

If underwriters purchase debt securities as principal, the debt securities will be acquired by the underwriters for their own account and may be resold from time to time in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase those debt securities will be subject to certain conditions precedent, and the underwriters will be obligated to purchase all the debt securities offered by the Prospectus Supplement if any of such debt securities are purchased. Any public offering price and any discounts or concessions allowed or re-allowed or paid may be changed from time to time. The Prospectus Supplement will also set forth the intention of any underwriters, agents or dealers to engage in stabilizing, to syndicate short covering transactions or penalty bids, or to undertake any other transactions during the offering that may stabilize, maintain, or otherwise affect the debt securities' price. Such transactions, if commenced, may be interrupted or discontinued at any time without notice. Any underwriters or agents to or through whom the debt securities are sold by the Corporation for public offering and sale may make a market in the debt securities, but such underwriters or agents will not be obligated to do so and may interrupt or discontinue any market making at any time without notice. No assurance can be given that a trading market in any of the debt securities will develop or as to the liquidity of any trading market for such debt securities.

Under agreements which may be entered into by the Corporation, underwriters, dealers and agents who participate in the distribution of the debt securities may be entitled to indemnification by the Corporation against certain liabilities, including liabilities under the *Securities Act* or to contribution with respect to payments which such underwriters, dealers or agents may be required to make in respect thereof.

The debt securities may be offered and sold by the Corporation directly or through agents designated by the Corporation from time to time. Any agent participating in the distribution of the debt securities may be deemed to be an "underwriter", as that term is defined in the *Securities Act*, of the debt securities so offered and sold. The debt securities also may be sold to dealers at the applicable price to the public set forth in the applicable Prospectus Supplement for resale to purchasers. Such dealers may be deemed to be "underwriters" within the meaning of the *Securities Act*.

Each underwriter, dealer or agent participating in a distribution of the debt securities must agree that it will not offer or sell, directly or indirectly, any of the debt securities acquired by it in connection with a distribution in Canada or to residents of Canada.

Unless otherwise specified in the applicable Prospectus Supplement, each series or issue of the debt securities will be a new issue of securities with no established trading market and will not be listed on any securities or stock exchange.

If so indicated in the Prospectus Supplement relating to a particular offering of debt securities, the Corporation will authorize underwriters, dealers or agents to solicit offers by certain institutions to purchase such debt securities from the Corporation pursuant to delayed delivery contracts providing for payment and delivery at a future date. Such contracts will be subject only to those conditions set forth in the Prospectus Supplement, and the Prospectus Supplement will set forth the commission payable for solicitations of such contracts.

ENFORCEABILITY OF CIVIL LIABILITIES

The Corporation is a corporation incorporated under and governed by the *Canada Business Corporations Act*. Some of the directors and officers of the Corporation, and some of the experts named in this prospectus, are residents of Canada or otherwise reside outside the United States, and all or a substantial portion of their assets, and a substantial portion of the Corporation's assets, are

Edgar Filing: TRANSCANADA PIPELINES LTD - Form SUPPL

located outside the United States. The Corporation has appointed an agent for service of process in the United States, but it may be difficult for holders of debt securities who reside in the United States to effect service within the United States upon those directors, officers and experts who are not residents of the United States. It may also be difficult for holders of debt securities who reside in the United States to realize in the United States upon judgments of courts of the United States predicated upon the Corporation's civil liability and the civil liability of the directors and officers of the Corporation and experts under United States federal securities laws.

The Corporation has been advised by its Canadian counsel, Blake, Cassels & Graydon LLP, that a judgment of a United States court predicated solely upon civil liability under United States federal securities laws would probably be enforceable in Canada if the United States court in which the judgment was obtained has a basis for jurisdiction in the matter that would be recognized by a Canadian court for the same purposes. The Corporation has also been advised by Blake, Cassels & Graydon LLP, however, that there is real doubt whether an action could be brought in Canada in the first instance on the basis of liability predicated solely upon United States federal securities laws.

The Corporation filed with the SEC, concurrently with its registration statement on Form F-10, an appointment of agent for service of process on Form F-X. Under the Form F-X, the Corporation appointed TransCanada PipeLine USA Ltd. as its agent for service of process in the United States in connection with any investigation or administrative proceeding conducted by the SEC, and any civil suit or action brought against or involving the Corporation in a United States court arising out of or related to or concerning an offering of securities under this prospectus.

CERTAIN INCOME TAX CONSIDERATIONS

The applicable Prospectus Supplement will describe certain material Canadian federal income tax consequences to an investor who is a non-resident of Canada acquiring any debt securities offered thereunder, including whether payments of principal, premium, if any, and interest on debt securities will be subject to Canadian non-resident withholding tax.

The applicable Prospectus Supplement will also describe certain material United States federal income tax consequences of the purchase, ownership and disposition of any debt securities offered thereunder by an initial investor who is a United States person (within the meaning of the United States Internal Revenue Code), including, to the extent applicable, any such consequences relating to debt securities payable in a currency other than the United States dollar, issued at an original issue discount for United States federal income tax purposes or containing early redemption provisions or other special items.

RISK FACTORS

Investment in debt securities is subject to various risks including those discussed below and those risks inherent in the pipeline, energy and gas storage industries. You should consider carefully the risk factors contained in and incorporated by reference in this prospectus (including in subsequently filed documents incorporated by reference) and those described in a Prospectus Supplement relating to a specific offering of debt securities.

Discussions of certain risk factors affecting the Corporation in connection with its business are provided in the Corporation's annual and interim disclosure documents filed with the various securities regulatory authorities, which are incorporated by reference in this prospectus.

Risks Relating to the Unsecured Nature of the Debt Securities

The debt securities will be unsecured debt of the Corporation and will be effectively subordinated to all existing and future secured debt of the Corporation, to the extent of the assets securing such

debt. If the Corporation is involved in any bankruptcy, dissolution, liquidation or reorganization, the secured debt holders would be paid before the holders of debt securities receive any amounts due under the debt securities to the extent of the value of the assets securing the secured debt. In that event, a holder of debt securities may not be able to recover any principal or interest due to it under the debt securities.

Structural Subordination

The debt securities will not be guaranteed by any subsidiaries of the Corporation. Therefore, the debt securities will be effectively subordinated to all existing and future liabilities of the Corporation's subsidiaries. The creditors of those subsidiaries will have the right to be paid before payment on the debt securities from any cash received or held by those subsidiaries. In the event of any bankruptcy, dissolution, liquidation or reorganization of one of those subsidiaries, following payment by the subsidiary of its liabilities, the subsidiary may not have sufficient assets to make payments to the Corporation in its capacity as an equityholder of such subsidiary.

Liquidity Risk

The Corporation does not intend to list the debt securities on any stock exchange and there can be no assurance that there will be a secondary market for or liquidity in the debt securities. This may affect the pricing of the debt securities in the secondary market, the transparency and availability of trading prices, the liquidity of the debt securities, and the extent of issuer regulation. Any underwriters or agents to or through whom the debt securities are sold by the Corporation for public offering and sale may make a market in the debt securities, but such underwriters or agents will not be obligated to do so and there can be no assurance that any underwriter or agent will undertake any market making activities in respect of the debt securities.

Interest Rate Risks

Prevailing interest rates will affect the market price or value of the debt securities. The market price or value of the debt securities may decline as prevailing interest rates for comparable debt instruments rise, and increase as prevailing interest rates for comparable debt instruments decline.

Credit Ratings May Not Reflect All Risks of an Investment in the Debt Securities and May Change

Credit ratings may not reflect all risks associated with an investment in the debt securities. Any credit ratings applied to the debt securities are an assessment of the Corporation's ability to pay its obligations. Consequently, real or anticipated changes in the credit ratings will generally affect the market value of the debt securities. The credit ratings, however, may not reflect the potential impact of risks related to structure, market or other factors discussed herein on the value of the debt securities. There is no assurance that any credit rating assigned to the debt securities will remain in effect for any given period of time or that any rating will not be lowered or withdrawn entirely by the relevant rating agency.
