Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form 10-K/A

COMPENSATION OF DIRECTORS

Our directors do not currently receive any cash compensation from us for their service as members of our Board of Directors, although they are reimbursed for certain travel-related expenses in connection with attendance at Board and committee meetings in accordance with our policy.

Each of our non-employee directors receives stock option grants under the 1995 Non-Employee Directors' Stock Option Plan. Only non-employee directors are eligible to receive options under the Directors' Plan. Options granted under the Directors' Plan are intended not to qualify as incentive stock options under the Internal Revenue Code of 1986, as amended.

Option grants under the Directors' Plan are non-discretionary. Pursuant to the terms of the Directors' Plan, each director who was serving on the date of our initial public offering was granted on such date an option to purchase 72,000 shares of our Common Stock. In addition, each non-employee director subsequently elected to the Board was automatically be granted an option to purchase 72,000 shares of our Common Stock, until the Directors' Plan was amended in April 1999, at which time the amount of the initial grant upon election to the Board of Directors was changed to an option to purchase 45,000 shares of our Common Stock. Each year, non-employee directors who have served as directors for the prior year are granted an option to purchase 18,000 shares of our Common Stock. No other options may be granted at any time under the Directors' Plan. The exercise price of options granted under the Directors' Plan is 100% of the fair market value of the Common Stock subject to the option on the date of the option grant. Options granted prior to April 1999 vest ratably over four years from the date of grant. Options granted after April 1999 are fully vested and exercisable upon the date of grant. The term of options granted under the Directors' Plan is ten years. In the event of our merger with or into another corporation or a consolidation, acquisition of assets or other change-in-control transaction, the vesting of options issued prior to April 1999 will accelerate and the option will terminate if not exercised prior to the consummation of the transaction. At December 31, 2000, options, net of canceled or expired options, covering an aggregate of 453,000 shares had been granted under the Directors' Plan and 147,000 shares of our Common Stock remained available for grant under the Directors' Plan.

During 2000, we granted options under the Directors' Plan covering 18,000 shares to each of Messrs. STOCK OPTION GRANTS AND EXERCISES

The following tables show for the fiscal year ended December 31, 2000, information regarding options granted to, exercised by, and held at year end by the officers listed in the "Summary Compensation Table" above.

2000 STOCK OPTION GRANTS

The exercise price of each option was equal to the fair market value of our Common Stock on the date of grant. Mr. Yeh's option was equal to 110% of the fair market value of our Common Stock on the date of grant. The exercise price may be paid in cash, in shares of our Common Stock valued at fair value on the exercise date or through a cashless exercise procedure involving a same-day sale of the purchased shares.

The potential realizable value is calculated based on the ten-year term of the option at the time of grant. Stock price appreciation of 5% and 10% is assumed pursuant to rules promulgated by the Securities and Exchange Commission and does not represent our prediction of our stock price performance. The potential

Edgar Filing: SILICON STORAGE TECHNOLOGY INC - Form 10-K/A

realizable values at 5% and 10% appreciation are calculated by:

- multiplying the number of shares of Common Stock subject to a given option by the exercise price per share;
- assuming that the aggregate stock value derived from that calculation compounds at the annual 5% or 10% rate shown in the table until the expiration of the options; and
- subtracting from that result the aggregate option exercise price.

The shares listed in the following table under "Number of Securities Underlying Option Granted" are subject to vesting. Certain of the stock options listed in the table vest over a four-year period, 25% after one year and 2.083% per month thereafter. Each of the options has a ten-year term, subject to earlier termination if the optionee's service with us ceases. Under certain circumstances following a change of control, the vesting of such option grants may accelerate and become immediately exercisable.

In January 2000, Mr. Yeh was awarded a stock option grant for 300,000 shares of Common Stock with an exercise price of \$10.84 and Messrs. Hu, Briner, Best and Lui were each awarded a stock option grant for 30,000 shares of Common Stock with an exercise price of \$9.85. Pursuant to the terms of the option grants, as our revenues for fiscal 2000 were in excess of \$400 million, all of the shares subject to these grants vested and became exercisable on January 1, 2001.

Percentages shown under "Percent of Total Options Granted in 2000" are based on 3,921,000 options granted to our employees and directors during 2000.

On January 31, 1996, we acquired a 14% interest in a Japanese company for approximately \$939,000 paid in cash. In 1998, 1999 and 2000 this customer accounted for 15% (\$10.2 million), 8% (10.0 million) and 3% (\$12.2 million), respectively, of our net revenues. This customer was one of two customers that accounted for more than 10% of our net revenues in both 1998 and 1999.

Mr. Chwang is the President of Acer Technology Ventures Management LLC, a venture capital business unit of the Acer Group, a worldwide computer, component and semiconductor manufacturer. Several related entities, including Acer Corporation, are our customers. In January 1999, we loaned \$75,000 to Derek Best, our Senior Vice President, Sales and Marketing. Under the terms of the promissory note, the loan will be repaid over a three year period with interest-only payments made for the first 18 months of the loan, followed by interest and principal payments for the next 18 months and ending with a balloon payment of approximately \$36,000.
