Frank T. MacInnis, Chairman and CEO of EMCOR Group, commented, "The third quarter marks another quarter of strong performance by EMCOR Group, as conditions remained robust across the markets in which we participate. We saw good operational results in most of our businesses, with particularly strong performance from our U.S. mechanical segment, which demonstrated significant improvement in profitability as a result of the strategic steps we've taken. We also experienced continued excellent growth within our facilities services segment, with 2006 third quarter revenues and operating profits growing more than 20% and 79%, respectively, from the comparable 2005 quarter. For years, EMCOR Group has emphasized the opportunity represented by the facilities services marketplace and the importance of these services to our customers. We continue to win new business and gain market share in this growing sector, and we remain very positive regarding future growth opportunities for our facilities services business."

Mr. MacInnis concluded, "Looking forward, we continue to be optimistic about the prospects for our business in total. Our expanded and diversified contract

backlog is a positive indicator for the future, and is indicative of our ability to adapt to changing conditions in the marketplace and to focus our efforts on those areas of the economy showing the best prospects for growth. Demand for our services remains strong, and we believe we are in an excellent position for a good fourth quarter. Based on current market conditions, we now expect revenues for 2006 of between \$5.0 billion and \$5.2 billion, resulting in diluted earnings per share for the year of between \$2.05 and \$2.15, which includes approximately \$0.07 per diluted share after tax in expenses related to the Company's adoption of FAS 123(R)."
