CORPORATE STRUCTURE

Name, Address and Incorporation

We were incorporated on May 8, 1984 pursuant to the Canada Business Corporations Act under the name of Textiles Gildan Inc. At our inception, we focused our activities on the manufacture of textiles and produced and sold finished fabric as a principal product-line. In 1992, we redefined our operating strategy and, by 1994, our operations focused exclusively on the manufacture and sale of activewear in the screenprint channel. In March 1995, we changed our name to Gildan Activewear Inc./Les Vêtements de Sports Gildan Inc. In 2005, we changed our French name to Les Vêtements de Sport Gildan Inc.

In June 1998, in conjunction with a planned initial public offering, we filed Articles of Amendment to, among other things, remove the private company restrictions contained in our charter documents and change the structure of our authorized share capital. On June 17, 1998, we completed our initial public offering of an aggregate of 3,000,000 Class A Subordinate Voting shares at Cdn\$10.29 per share, on a pre-split basis, for total gross proceeds of Cdn\$30,880,500.

On February 2, 2005, we filed Articles of Amendment in order to, among other things, (i) create a new class of common shares (the "Common Shares"), (ii) change each of the issued and outstanding Class A Subordinate Voting shares into the newly-created Common Shares, on a one-for-one basis, and (iii) remove the Class B Multiple Voting shares and the Class A Subordinate Voting shares as well as the rights, privileges, restrictions and conditions attaching thereto. On February 15, 2011, we filed Restated Articles of Incorporation in order to change the number of directors to a minimum of five and a maximum of twelve as determined by the directors from time to time and to appoint one or more directors in accordance with the law governing the Company.

Our principal executive offices and registered office are located at 600 de Maisonneuve Boulevard West, 33rd Floor, Montréal, Québec, Canada H3A 3J2, and our main telephone number at that address is (514) 735-2023.

Intercorporate Relationships

The following table indicates our principal subsidiaries, their jurisdiction of incorporation or formation and the percentage of voting securities or partnership interests that we beneficially own or over which we exercise direct or indirect control:

Subsidiary	Jurisdiction of Incorporation or Formation	Percentage of Voting Securities or Partnership Interests that Gildan held as at February 22, 2019
Gildan Activewear SRL	Barbados	100%
Gildan Yarns, LLC	Delaware	100%
Gildan Branded Apparel SRL	Barbados	100%
Gildan Honduras Properties, S. de R.L.	Honduras	100%

Gildan Hosiery Rio Nance, S. de R.L.	Honduras	100%
Gildan Mayan Textiles, S. de R.L.	Honduras	100%

The subsidiaries that have been omitted do not represent individually more than 10% of the consolidated assets and 10% of the consolidated revenue of Gildan, or in the aggregate more than 20% of the total consolidated assets and the consolidated revenue as at and for the year ended December 30, 2018.

GENERAL DEVELOPMENT OF THE BUSINESS

The following section describes how our business has evolved in the last three completed fiscal years and lists key events that have influenced the development of our business.

Recent Developments

On February 20, 2019, Gildan's Board of Directors approved a 20% increase in the amount of the current quarterly dividend and declared a cash dividend of \$0.134 per Common Share payable on April 1, 2019 to shareholders of record on March 7, 2019.

On February 20, 2019, the Company received approval from the Toronto Stock Exchange ("TSX") to renew its normal course issuer bid ("NCIB") commencing on February 27, 2019 to purchase for cancellation up to 10,337,017 Common Shares, representing approximately 5% of the Company's issued and outstanding Common Shares. As of February 14, 2019 (the reference date for the NCIB), the Company had 206,740,357 Common Shares issued and outstanding. The Company is authorized to make purchases under the NCIB until February 26, 2020 in accordance with the requirements of the TSX. Purchases will be made by means of open market transactions on both the TSX and the New York Stock Exchange ("NYSE"), or alternative trading systems, if eligible, or by such other means as a securities regulatory authority may permit, including by private agreements under an issuer bid exemption order issued by securities regulatory authorities in Canada. Under the bid, Gildan may purchase up to a maximum of 136,754 Common Shares daily through TSX facilities, which represents 25% of the average daily trading volume on the TSX for the most recently completed six calendar months. The price to be paid by Gildan for any Common Shares will be the market price at the time of the acquisition, plus brokerage fees, and purchases made under an issuer bid exemption order will be at a discount to the prevailing market price in accordance with the terms of the order.

Developments in Fiscal 2018

Effective January 1, 2018, the Company implemented executive leadership changes and consolidated its organizational structure to better leverage its go-to-market strategy across its brand portfolio and drive greater operational efficiency across the organization. The Company combined its Printwear and Branded Apparel operating businesses into one consolidated divisional operating structure. Consequently, starting in fiscal 2018 the Company began reporting under one reportable business segment. As part of this organizational consolidation, we centralized marketing, merchandising, sales, and administrative functions and streamlined our distribution network, including the closure of smaller owned and leased warehouse facilities, as well as the start-up of new larger distribution centres in the west and east coasts of the United States.

During 2018, we consolidated and reduced some of our sock manufacturing capacity. In the third quarter of 2018, we closed a smaller sock facility in North Carolina, U.S., which was acquired as part of the acquisition of Peds Legwear Inc. (Peds), and transitioned the production to our Rio Nance 4 sock facility in Honduras. During the fourth quarter, we also began consolidating our sock operations in Honduras into one facility by integrating the majority of our sock production into our Rio Nance 4 facility. The Rio Nance 3 facility, previously our other sock facility, is now largely focusing on our garment dyeing operations. In the fourth quarter of 2018, we also made the decision to close the AKH textile facility in Honduras, which was acquired as part of the Anvil acquisition in 2012, operating in leased premises outside of our large manufacturing complex in Rio Nance. Textile production from AKH was transitioned to our new state-of-the-art Rio Nance 6 textile facility which began operations towards the end of the second quarter of 2018. Rio Nance 6 is being ramped up with new equipment geared for more efficient production of fashion basics. All textile production in Honduras will now be contained within our large Rio Nance complex.

On February 21, 2018, Gildan's Board of Directors approved a 20% increase in the amount of the current quarterly dividend and declared a cash dividend of \$0.112 per Common Share payable each quarter of fiscal 2018.

On February 21, 2018, the Company received approval from the TSX to renew its NCIB commencing on February 27, 2018 to purchase for cancellation up to 10,960,391 Common Shares, representing approximately 5% of the Company's issued and outstanding Common Shares. As of February 15, 2018 (the reference date for the NCIB), the Company had 219,207,838 Common Shares issued and outstanding. The Company was authorized to make purchases under the NCIB until February 26, 2019. On July 31, 2018, the Company received approval from the TSX to amend its NCIB in order to increase the maximum number of Common Shares that may be repurchased to 21,575,761 Common Shares, representing approximately 10% of the Company's public float as at February 15, 2018. No other terms of the NCIB were amended. During the twelve month period ended February 20, 2019, the Company repurchased and cancelled a total of 12,634,692 Common Shares under the NCIB through the facilities of the TSX and the NYSE for a total of cost of \$367.5 million.

Developments in Fiscal 2017

On February 8, 2017, the Company acquired the American Apparel® brand and certain assets from American Apparel, LLC, ("American Apparel") which filed for Chapter 11 bankruptcy protection on November 14, 2016. The acquisition was effected through a court supervised auction during which Gildan emerged as the successful bidder with a final cash bid of \$88.0 million. The Company also acquired inventory from American Apparel for approximately \$10.5 million. The total consideration transferred for this acquisition was therefore \$98.5 million (of which \$91.9 million was paid in the fiscal year ended December 31, 2017, and \$6.6 million was paid in the fourth quarter of fiscal 2016). The acquisition was financed by the utilization of the Company's long-term bank credit facilities. The American Apparel® brand is a highly recognized brand among consumers and within the North American imprintables channel and is a strong complementary addition to Gildan's growing brand portfolio. The acquisition provides the opportunity to grow American Apparel® sales by leveraging the Company's extensive imprintables distribution networks in North America and internationally to drive further share in the fashion basics category of these markets.

On February 22, 2017, Gildan's Board of Directors approved a 20% increase in the amount of the quarterly dividend and declared a cash dividend of \$0.0935 per Common Share payable each quarter of fiscal 2017.

On February 22, 2017, the Company received approval from the TSX to renew its NCIB commencing on February 27, 2017 to purchase for cancellation up to 11,512,267 Common Shares representing approximately 5% of the Company's issued and outstanding Common Shares. As at February 17, 2017 (the reference date for the NCIB), the Company had 230,245,359 Common Shares issued and outstanding. The Company was authorized to make purchases under the NCIB until February 26, 2018. On November 2, 2017, the Company received approval from the TSX to amend its NCIB in order to increase the maximum number of Common Shares that may be repurchased to 16,117,175 Common Shares, representing 7.2% of the Company's public float or 7% of the issued and outstanding Common Shares as at February 17, 2017. No other terms of the NCIB were then amended. During the twelve months period ended February 21, 2018, the Company repurchased and cancelled a total of 11,512,267 Common Shares under the NCIB through the facilities of the TSX and the NYSE for a total cost of \$328.6 million, of which a total of 877,000 Common Shares were repurchased by way of private agreements with arm's length third party sellers.

On February 22, 2017, the Company's Board of Directors approved a new shareholder rights plan (the "Rights Plan") which became effective upon confirmation and approval by the shareholders of the Company at the annual general meeting of shareholders held on May 4, 2017. The Rights Plan is designed to ensure that all shareholders of the Company are treated fairly in connection with any take-over offer or other acquisition of control of the Company. The Rights Plan was not adopted in response to any specific proposal to acquire control of the Company, nor is the Board of Directors aware of any pending or threatened take-over bid for the Company. The Rights Plan is similar to plans recently adopted by other Canadian companies and approved by their shareholders, which include amendments to take into consideration the changes to

the take-over bid rules that came into force in Canada on May 9, 2016. The Rights Plan will remain in effect until the close of business on the date of the Company's annual meeting of shareholders in 2020, with one renewal option subject to shareholder approval, and subject to earlier termination or expiration of the Rights Plan in accordance with its terms. A complete copy of the Rights Plan can be found on SEDAR at www.sedar.com and on EDGAR at www.sec.gov.

On July 17, 2017, the Company acquired substantially all of the assets of a ring-spun yarn manufacturer with two facilities located in Columbus, Georgia for cash consideration of \$13.5 million. Production from the yarn facilities, which manufacture combed and carded ring spun yarns will be used to support our sales of fashion basics products and to round out our yarn requirement needs, in particular for specialty yarns. The Company expects that focusing production of specialty yarns in these facilities will enable additional efficiencies in the Company's other larger plants. On April 4, 2017, the Company acquired a 100% interest in an Australian based activewear distributor for cash consideration of \$5.7 million. This business is part of the Company's international sales strategy.

Developments in Fiscal 2016

On February 23, 2016, Gildan's Board of Directors approved a 20% increase in the amount of the quarterly dividend and declared a cash dividend of \$0.078 per Common Share payable each quarter of fiscal 2016.

On February 24, 2016, the Company received approval from the TSX to renew its NCIB, beginning February 26, 2016 and expiring February 25, 2017 to purchase for cancellation up to 12,192,814 outstanding Common Shares, representing approximately 5% of the Company's 243,856,289 issued and outstanding Common Shares. On July 26, 2016, the Company received approval from the TSX to amend its NCIB in order to increase the maximum number of Common Shares that may be repurchased to 20,727,784 Common Shares, representing 8.5% of the Company's issued and outstanding Common Shares or 8.6% of the public float as at February 19, 2016. No other terms of the NCIB were amended. During the twelve months ended January 1, 2017, the Company repurchased and cancelled a total of 13,775,248 Common Shares under the NCIB through the facilities of the TSX and the NYSE for a total cost of \$394.4 million, of which a total of 4,025,000 Common Shares were repurchased by way of private agreements with arm's length third party sellers.

On May 26, 2016, the Company acquired 100% of the equity interest of Alstyle Apparel, LLC and its subsidiaries ("Alstyle"), which constituted the apparel division of Ennis, Inc., for a total cash purchase price of \$110 million. The acquisition of Alstyle expanded Gildan's penetration in printwear markets in the U.S., Canada and Mexico and complemented its overall market presence in the Western United States where Alstyle has a strong presence. With the acquisition, Gildan acquired Alstyle's manufacturing operations in Mexico.

During 2016, the Company raised \$600 million of long-term debt in order to support its net debt leverage target of one to two times adjusted EBITDA. Gildan management and the Board of Directors believe that the Company can make effective use of its balance sheet within this targeted net debt leverage range which is expected to allow the Company to continue to pursue complementary acquisitions, as a priority of use for cash, that can enhance its organic growth strategy, while also providing for return of capital to its shareholders through dividends and share repurchase programs.

In August 2016, the Company acquired 100% of the equity interest of Peds, a marketer of foot apparel and legwear products sold under the Peds® and MediPeds® brands, for a total consideration of \$51.9 million. The rationale for the acquisition was to target revenue growth opportunities by leveraging Gildan's and Peds existing channels of distribution and customer base and potentially extending Peds' brands into Gildan's other product categories.

DESCRIPTION OF THE BUSINESS

Business Overview

Gildan is a leading manufacturer of everyday basic apparel, including activewear, underwear, socks, hosiery, and legwear products sold in North America, Europe, Asia-Pacific, and Latin America to wholesale distributors, screenprinters or embellishers, as well as to retailers in North America, and directly to consumers, primarily through our own e-commerce platforms. Since its formation, the Company has made significant capital investments in developing its own large-scale, low-cost vertically integrated supply chain, encompassing yarn production, textile and sock manufacturing, and sewing operations. Gildan's manufacturing operations are located in Central America, the Caribbean Basin, North America, and Bangladesh.

We believe the skill set that we have developed in designing, constructing, and operating our own manufacturing facilities combined with the significant capital investments made over the years in that respect, well above average industry capital intensity levels, are strong factors that differentiate us from our competition. More than 90% of our sales are derived from products we produce ourselves. Owning and operating the vast majority of our manufacturing facilities allows us to exercise tighter control over our production processes and to ensure adherence to high standards for environmental and social responsibility practices throughout our supply chain. In addition, running our own operations enables us to better control operational efficiency, costs, and product quality, as well as provide a reliable supply chain with short production/delivery cycle times.

Strategy and Objectives

Our growth strategy is composed of the following strategic drivers:

1. Growing share in fashion basics

Within the imprintables channel, there are three main categories for activewear, namely “basics”, “fashion basics”, and “performance basics”. The Company historically focused on the basics category and over the years gained significant market share penetration with the Gildan® brand becoming the leading brand in this category in North America. In more recent years, we have seen an acceleration of industry growth in the fashion basics and performance basics categories, due in part to end users shifting preference to lighter weight and softer fabrics (fashion basics), or garments offering attributes featuring moisture wicking and anti-microbial properties for long-lasting comfort and performance (performance basics). Fashion basics products are produced with higher quality cotton ring-spun yarns and/or blended yarn fibres and may feature more fitted silhouettes, side seam stitching, and stretch attributes, among other characteristics. Over the last few years we have started to pursue gains in market share in these categories and have developed and acquired brands which are well positioned to drive growth in these categories. Our opening price point offering is marketed under the Gildan® and Gildan® Hammer™ brands. Higher price point offerings include the Anvil® brand, the American Apparel® brand, which is positioned as a premium brand in fashion basics, and the Comfort Colors® brand, also a premium brand, which features garment-dyed activewear products. In the performance category, we market our products under our Gildan Performance® brand offering. We have also invested in developing our own yarn-spinning manufacturing facilities, thereby securing our own cost-effective ring-spun yarn supply. In addition, our newest textile facility Rio Nance 6, which began production during 2018, is being ramped up with new equipment geared for more efficient production of fashion basics. With strong brand positioning in these categories supported by cost-effective manufacturing operations, including yarn capabilities, we believe we are well positioned to drive market leadership within imprintable fashion and performance basics.

2. Driving international growth

We are pursuing further growth within the imprintable channel of international markets, focusing in Europe, Asia-Pacific, and Latin America, where we estimate the addressable market opportunity in aggregate to be large. Currently our sales outside the United States and Canada represent approximately 10% of our total consolidated net sales. We are continuing to expand our manufacturing capacity to support further penetration in these markets where our growth has been somewhat restricted by capacity availability. We have been increasing capacity at our

manufacturing hub in Asia, specifically in Bangladesh, which is dedicated to supporting international markets. To support requirements for Europe, we also use supply from our Central American hub, where we are also expanding capacity. We intend to continue to pursue further sales growth internationally by leveraging the extensive breadth of our North American product line to further develop and broaden our international product offering and enhance the profitability mix of our international sales. Our current sales base has been established primarily through the sale of products marketed under the Gildan® brand. We are now leveraging additional brands from our portfolio, such as the American Apparel® and Comfort Colors® brands, among others, across the international markets in which we compete.

3. Capitalizing on retailer private label program opportunities that fit within our business model

The apparel market is evolving and various market dynamics are unfolding. E-commerce as a distribution platform is impacting the retail landscape in various ways. On-line shopping facilitates price transparency and has led to brand proliferation due to low barriers of entry given the lack of shelf space limitations as in the traditional brick and mortar outlets. We believe these factors are contributing to the resurgence of private label brands by traditional retailers trying to differentiate their offerings and enhance profitability.

While we continue to pursue sales growth with our own brands, in light of the rising trend of retailers shifting focus to proprietary private label brands, particularly mass merchants, the Company is also pursuing opportunities to supply retailers with products for their own private label programs. The mass tier within the retail channel represents the largest share of sales of basic apparel products. While we have established relationships and a sales base with mass retailers, our overall basic apparel market share within this channel for our own brands is small compared to the market share held by national brands. We believe we are well positioned to support retailers who are seeking low-cost, large-scale manufacturers to support their private label program requirements. The Company intends to pursue private label programs aligned to its operational and financial criteria, including product and SKU complexity and size of program, financial return targets, duration or term of expiry of the agreement, and working capital investment requirements, among other factors of consideration.

4. Growing with global athletic and lifestyle brands

We have also developed strong relationships with, and are targeting to grow our sales as a supply chain partner to a small number of select leading global athletic and lifestyle brands for which we manufacture products, but against which our brands do not compete directly. We believe we are well positioned to service global brands that are increasingly looking to source from manufacturers that meet rigorous quality and social compliance criteria, strategically located in the Western Hemisphere. The majority of our sales to global lifestyle brands are primarily derived from the sale of activewear products. In recent years we have also started to sell sock products to one of our global brand customers and we believe there is an opportunity to leverage our relationships with these customers to continue to grow our sales in activewear and socks.

5. Pursuing e-commerce growth

We are targeting to grow our sales by leveraging our brand portfolio across our e-commerce infrastructure and the on-line platforms of our customers. Accessibility to consumers and end-users through e-commerce is increasing, and “space” to market products on-line is not a constraining factor for growth as in the traditional brick and mortar retailer channel. Consequently, e-commerce is creating opportunities for our brands. The Company has been investing in building its e-commerce capabilities, including the development of a strong operational e-commerce team and investments in enhancing direct-to-consumer distribution capabilities.

6. Enhancing sales and earnings growth with acquisitions that complement our strategy

We believe we can enhance our sales and earnings growth by continuing to seek complementary strategic acquisition opportunities. We intend to use our free cash flow and debt financing capacity to pursue acquisitions which meet our criteria. Over the past decade, we have completed acquisitions which have added brands to our portfolio or expanded our product offering, enhanced our manufacturing capabilities, or expanded our distribution or presence

in geographical markets. The three main considerations around which we have developed our criteria for evaluating acquisition opportunities include: (1) strategic fit; (2) ease of integration; and (3) financial targets, including return on investment thresholds, based on our risk-adjusted cost of capital.

Operating Segment Reporting

Effective January 1, 2018, the Company implemented executive leadership changes and consolidated its organizational structure to better leverage its go-to-market strategy across its brand portfolio and drive greater operational efficiency across the organization. The Company combined its Printwear and Branded Apparel operating businesses into one consolidated divisional operating structure, reflecting how the business is managed and reviewed by the Company's chief operating decision maker. Consequently, starting in 2018 the Company began reporting under one reportable business segment.

Our Operations

Brands, Products, and Customers

The products we manufacture and sell are marketed under our Company-owned brands, including Gildan®, American Apparel®, Comfort Colors®, Gildan® Hammer™, Gold Toe®, Anvil®, Alstyle®, Secret®, Silks®, Kushyfoot®, Secret Silky®, Therapy Plus™, Peds® and MediPeds®. Through a sock licensing agreement providing exclusive distribution rights in the United States and Canada, we also sell socks under the Under Armour® brand. In addition, we manufacture and supply products to select leading global athletic and lifestyle brands, as well as to certain retail customers who market these products under their own brands.

Our primary product categories include activewear, underwear and hosiery, the vast majority of which we manufacture. Some of our brands also extend to other categories such as intimates, shapewear, denim, and peripheral or fringe products like caps, totes, towels, and other accessories which are primarily sourced through third-party suppliers.

We sell our activewear products primarily in “blank” or undecorated form, without imprints or embellishment. Activewear products are primarily sold to wholesale distributors within the imprintables channel, who then sell the blanks to screenprinters/embellishers who decorate the products with designs and logos, and in turn sell the embellished/imprinted activewear into a highly diversified range of end-use markets. These include educational institutions, athletic dealers, event merchandisers, promotional product distributors, charitable organizations, entertainment promoters, travel and tourism venues, and retailers. In addition to socks and underwear for men, ladies, and kids, as well as other hosiery products such as pantyhose and leggings, we also sell our activewear products to various retailers. These retailers include mass merchants, dollar stores, department stores, national chains, sports specialty stores, craft stores, food and drug retailers, and price clubs, all of which sell to consumers through their brick and mortar outlets. Consumers also buy our products through our retail customers' e-commerce platforms and our own websites. In addition to selling our products to retailers, we manufacture for and sell to select leading global athletic and lifestyle consumer brand companies who distribute these products within the retail channel.

The following table summarizes our product and brand offerings:

Manufacturing

The vast majority of our products are manufactured in facilities that we own and operate. To a lesser extent, we also use third-party contractors to supplement our requirements. Our vertically integrated manufacturing operations include capital-intensive yarn-spinning, textile, sock, and sheer hosiery manufacturing facilities, as well as labour-intensive sewing facilities. Our manufacturing operations are situated in five main hubs, including the United States, Central America, the Caribbean Basin, Mexico, and Bangladesh. All of our yarn-spinning operations are located in the United States, while textile, sewing, and sock manufacturing operations are situated in the other geographical hubs mentioned above, the largest of which is in Central America, in Honduras.

In order to support further sales growth, we continue to expand our manufacturing capacity, including investments in technology to enhance our capabilities in the production of fashion basics and performance garments.

The following table provides a summary of our primary manufacturing operations by geographic area:

	Canada	United States	Central America	Caribbean Basin	Mexico	Asia
Yarn-spinning facilities: ⁽¹⁾ conversion of cotton, polyester and other fibres into yarn		Clarkton, NC Cedartown, GA Columbus, GA (2 facilities) Salisbury, NC (2 facilities) Mocksville, NC				
Textile facilities: knitting yarn into fabric, dyeing and cutting fabric			Honduras (4 facilities)	Dominican Republic	Agua Prieta	Bangladesh
Sewing facilities: ⁽²⁾ assembly and sewing of cut goods			Honduras (4 facilities) Nicaragua (3 facilities)	Dominican Republic (3 facilities)	Ensenada Hermosillo Agua Prieta	Bangladesh
Garment-dyeing: ⁽³⁾ pigment dyeing or reactive dyeing process			Honduras (1 facility)			
Hosiery manufacturing facilities: conversion of yarn into finished socks/sheer hosiery	Montreal, QC		Honduras (1 facility)			

(1) While the majority of our yarn requirements are internally produced, we also use third-party yarn-spinning suppliers, primarily in the U.S., to satisfy the remainder of our yarn needs.

(2) While we operate the majority of our sewing facilities, we also use the services of third-party sewing contractors, primarily in Haiti, Nicaragua and other regions in Central America, as well as Mexico, to satisfy the remainder of our sewing requirements.

(3) Garment dyeing is a feature of our Comfort Colors® products only, which involves a different dyeing process than how we typically dye the majority of our products. Our garment dyeing operations are located in our Rio Nance 3 facility in Honduras.

Competitive Environment

The basic apparel market for our products is highly competitive and continuously evolving. Changing market dynamics, such as the growth of on-line shopping, declining store traffic trends, as well as retailer closures and consolidation, are intensifying competition while at the same time presenting opportunities for various market participants. Competition is generally based upon price, quality and consistency, comfort, fit, style, brand, and service. We compete on these factors by leveraging our competitive strengths, including our strategically located manufacturing operations and supply chain, scale, cost structure, global distribution, and our brand positioning in the markets we serve. We believe the skill set we have developed in owning and operating manufacturing operations together with the significant capital investments we have made, which have been above historical industry averages, are key competitive strengths.

We face competition from large and smaller U.S.-based and foreign manufacturers or suppliers of basic family apparel. Among the larger competing North American-based manufacturers are Fruit of the Loom, Inc., a subsidiary of Berkshire Hathaway Inc., which competes through its own brand offerings and those of its subsidiary, Russell Corporation, as well as Hanesbrands Inc. (Hanesbrands). These companies manufacture out of similar geographies as

Gildan and compete primarily within the same basic apparel product categories in similar channels of distribution in North America and international markets. In socks and underwear, our competitors also include Garan Incorporated, Renfro Corporation, Jockey International, Inc., Kayser Roth Corporation, and Spanx, Inc. In addition, we compete with smaller U.S.-based competitors selling to or operating as wholesale distributors of imprintable activewear products, including Next Level Apparel, Bella + Canvas, Delta Apparel Inc., and Color Image Apparel, Inc., as well as Central American and Mexican manufacturers. Competing brands also include various private label brands controlled and sold by many of our customers, including wholesale distributors within the imprints channel and retailers. In recent years, we have seen an increase in private label offerings, particularly within the mass retail channel, replacing branded offerings. While this trend creates additional competition for our brands, it

also provides opportunity for the Company to become a strategic supplier to these customers, given the Company's scale and manufacturing capabilities.

Sales, Marketing, and Distribution

Our global sales and marketing office is located in Christ Church, Barbados, out of which we have established customer-related functions, including sales management, marketing, customer service, credit management, sales forecasting, and production planning, as well as inventory control and logistics. We also maintain sales offices in the U.S. We have established extensive distribution operations worldwide primarily through internally managed and operated distribution centres. We distribute our products out of our Company-operated large distribution centres in the United States, in Eden, NC, Charleston, SC, Jurupa Valley, CA, and Jacksonville, FL, and out of smaller facilities in the U.S. and Canada, as well as out of Company-owned distribution facilities in Honduras and Mexico. To supplement some of our distribution needs, we use third-party warehouses in the U.S., Canada, Mexico, Colombia, Europe, and Asia.

Customers

We sell our activewear, underwear, socks, hosiery, and legwear products to a broad range of customers, including wholesale distributors, screenprinters or embellishers, as well as to retailers that sell to consumers through their physical stores and/or e-commerce platforms. In addition, we sell directly to consumers through our own direct-to-consumer platforms. In the imprintables channel we sell our products in over 60 countries across North America, Europe, the Asia-Pacific region and Latin America, primarily to wholesale distributors and to a lesser extent to large screenprinters or embellishers. Our products in the North American retail channel are sold to a broad spectrum of retailers, including mass-market retailers, department stores, national and regional chains, sports specialty stores, and price clubs. For fiscal 2018, our sales totaled \$2,908.6 million. In fiscal 2018, we sold our products in the United States, Canada and other international markets, which accounted for 85.4%, 4.2% and 10.4% of total sales, respectively. For a breakdown of our total sales by product group and geographic market for each of the last two financial years, reference is made to note 25 to the 2018 Annual Financial Statements, which note is incorporated herein by reference.

Our total customer base is composed of a relatively small number of significant customers. In fiscal 2018, our largest customer accounted for 19.0% of our total sales, and our top ten customers accounted for 56.5% of our total sales. Although we have long term ongoing relationships with many of our customers, our contracts with our customers do not require them to purchase a minimum quantity of our products. Instead, we assess their projected requirements and then plan our production and marketing strategy accordingly.

Raw Materials

Cotton and polyester fibres are the main raw materials used in the manufacturing of our products. Cotton is used in the manufacturing of both 100% cotton yarns and blended yarns, while polyester is used in the manufacturing of both blended yarns and 100% polyester yarns. The cotton fibers used in the manufacturing of yarn in our internal yarn spinning facilities are typically purchased directly from cotton merchants for future delivery at pre-determined prices under contracts as deemed appropriate by management. Similarly, for the majority of the polyester fibers, pricing is negotiated directly with suppliers on an annual basis subject to the price variability of certain polyester components.

During fiscal 2018, most of our yarn requirements for the production of our product-lines were met by our own seven yarn-spinning facilities located in Cedartown, GA, Columbus, GA, Clarkton, NC, Salisbury, NC and Mocksville, NC and our long-term supply agreements with third-party suppliers. The yarn requirements for our Bangladesh operations are supplied by local and regional spinners. We expect that most of our yarn requirements will continue to be met by these sources.

The primary sources of energy consumed in our manufacturing facilities are (i) biomass, bunker fuel and natural gas, which are used to generate steam required in the production process, and (ii) electricity, which is used to power production equipment and air-conditioning. The bunker fuel used in our operations is supplied by local third-party

suppliers, and the pricing is highly dependent on international market prices for bunker fuel. Natural gas is used in our operations in Bangladesh, and is obtained from local third-party suppliers. The electricity requirements for our manufacturing complex in the Dominican Republic as well as our Mexican facilities are provided by the local public electricity company. Our Rio Nance complex in Honduras transitioned during 2016 from the public grid to a long-term private contract which is now providing over 90% of our electricity requirements. In both cases, electricity rates are variable and are largely related to underlying oil prices.

Biomass, derived from agricultural waste, is sourced from private third-party suppliers, and provides a major portion of the thermal energy (or steam) for our operations in both the Dominican Republic and Honduras. We anticipate that our biomass consumption needs will increase progressively over the next few years. We have been operating a biomass steam generation system in the Dominican Republic since 2010, which has contributed to the reduction of the energy costs associated with our textile production in the Dominican Republic. Similarly, we began operating a biomass steam generation facility in Honduras during 2010 and are currently operating three such facilities at the Rio Nance complex in Honduras to support both of our sock manufacturing facilities as well as the majority of the steam requirements for our textile operations. Since 2016, instead of using electrical chillers for the air conditioning systems at our textile and hosiery manufacturing facilities we use the cold water derived from the steam generated, effectively reducing an electricity consumption in Honduras by almost 4.5 MW. The Company is planning to expand its production of steam from biomass to support additional textile capacity expansions as needed in the future.

We also purchase chemicals, dyestuffs and trims through a variety of suppliers. These products have historically been available in sufficient supply.

Management Information Systems

Our management information systems consist of a full range of supply chain and financial systems. The systems include applications related to product development, planning, manufacturing, distribution, sales, human resources and financial reporting. We continue to invest in technology to upgrade systems to enhance efficiencies, including support of e-commerce and customer relationship management.

Seasonality and Other Factors Affecting the Variability of Results and Financial Condition

Our results of operations for interim and annual periods are impacted by the variability of certain factors, including, but not limited to, changes in end-use demand and customer demand, our customers' decision to increase or decrease their inventory levels, changes in our sales mix, and fluctuations in selling prices and raw material costs. While our products are sold on a year-round basis, our business experiences seasonal changes in demand which result in quarterly fluctuations in operating results. Although certain products have seasonal peak periods of demand, competitive dynamics may influence the timing of customer purchases causing seasonal trends to vary somewhat from year to year. Historically, demand for T-shirts is lowest in the fourth quarter and highest in the second quarter of the year, when distributors purchase inventory for the peak summer selling season. Demand for fleece is typically highest in advance of the fall and winter seasons, in the second and third quarters of the year. Sales of hosiery and underwear are higher during the second half of the year, during the back-to-school period and the Christmas holiday selling season. These seasonal sales trends of our business also result in fluctuations in our inventory levels throughout the year.

Our results are also impacted by fluctuations in the price of raw materials and other input costs. Cotton and polyester fibres are the primary raw materials used in the manufacture of our products, and we also use chemicals, dyestuffs, and trims, which we purchase from a variety of suppliers. Cotton prices are affected by consumer demand, global supply, which may be impacted by weather conditions in any given year, speculation on the commodities market, the relative valuations and fluctuations of the currencies of producer versus consumer countries, and other factors that are generally unpredictable. While we enter into purchase contracts and derivative financial instruments in advance of delivery to establish firm prices for the cotton component of our yarn requirements, our realized cotton costs can fluctuate significantly between interim and annual reporting periods. Energy costs in our results of operations are also affected by fluctuations in crude oil, natural gas, and petroleum prices, which can also influence transportation costs and the cost of related items used in our business, such as polyester fibres, chemicals, dyestuffs,

and trims. Changes in raw material costs are initially reflected in the cost of inventory and only impact net earnings when the respective inventories are sold.

Business acquisitions may affect the comparability of results. As noted in the table under “Summary of quarterly results” in section 5.5 of our 2018 Annual MD&A, the quarterly financial data reflect results of companies acquired from their effective date of acquisition. In addition, management decisions to consolidate or reorganize operations, including the closure of facilities, may result in significant restructuring costs in an interim or annual period. The effect of asset write-downs, including provisions for bad debts and slow moving inventories, can also affect the variability of our results. Subsection 5.4.4 entitled “Restructuring and acquisition-related costs” in our 2018 Annual MD&A contains a discussion of costs related to the Company’s restructuring activities and business acquisitions.

Our reported amounts for net sales, cost of sales, SG&A expenses, and financial expenses/income are impacted by fluctuations in certain currencies versus the U.S. dollar as described in the “Financial risk management” section of our 2018 Annual MD&A. The Company periodically uses derivative financial instruments to manage risks related to fluctuations in foreign exchange rates.

Trade Regulation

As a multinational corporation, we are affected by domestic tariffs, including the potential imposition of anti-dumping or countervailing duties on our raw materials and finished goods, international trade legislation, as well as bilateral and multilateral trade agreements and trade preference programs in the countries in which we operate, source and sell products. In order to remain globally competitive, we have situated most of our manufacturing facilities in strategic locations to benefit from various free trade agreements and preferential trade programs. Furthermore, management monitors new developments and evaluates risks relating to duties, including anti-dumping and countervailing duties, tariffs, and trade restrictions that could impact our approach to global manufacturing and sourcing, and makes adjustments as needed.

The United States has implemented several free trade agreements and trade preference programs to enhance trade with certain countries such as the North America Free Trade Agreement (“NAFTA”), the Dominican Republic-Central America-United States Free Trade Agreement (“CAFTA-DR”), the Caribbean Basin Trade Partnership Act (“CBTPA”) and the Haitian Hemispheric Opportunity through Partnership Encouragement Act (“HOPE”), which allow qualifying textiles and apparel from participating countries duty-free access to the U.S. market.

The United States adopted CAFTA-DR and HOPE (as amended by HOPE II legislation in 2008 and by the Haitian Economic Lift Program legislation in 2010) to strengthen and develop U.S. economic relations and expand trade with Central America, the Dominican Republic and Haiti, where we have substantial manufacturing operations and activities.

Following the United States’ January 2017 withdrawal from the Trans-Pacific Partnership Agreement (“TPP”), the remaining countries participating in the TPP, namely, Australia, Brunei, Canada, Chile, Japan, Malaysia, Mexico, New Zealand, Peru, Singapore, and Vietnam negotiated and agreed to a revised trade agreement known as the Comprehensive Progressive Trans-Pacific Partnership (“CPTPP”). CPTPP has been ratified by Australia, Canada, Japan, Mexico, New Zealand, Singapore, and Vietnam and officially came in force on December 30, 2018. The remaining participating countries (Brunei, Chile, Malaysia, and Peru) will not benefit or be bound by the agreement until they complete their ratification process. CPTPP may negatively affect our competitive position in some of the countries in which we sell our products.

In 2018, the United States, Canada, and Mexico concluded a renegotiated agreement of NAFTA referred to as the United States-Mexico-Canada Agreement (“USMCA”). The USMCA is expected to replace NAFTA once it has been ratified by each of the member countries. The USMCA brings more closely into alignment the apparel rules of origin with those of CAFTA-DR. NAFTA will remain in effect until the USMCA is ratified by each member country. There is a risk that the United States could withdraw from NAFTA if the USMCA is not ratified by U.S. Congress. The

termination of NAFTA without the full implementation of USMCA could adversely impact the overall competitiveness of products we ship to the U.S., Canada and Mexico from our Mexican and Canadian manufacturing supply chains, as applicable

Canada and Honduras have in place a free trade agreement which came into force on October 1, 2014. This agreement enables qualifying textiles and apparel from Honduras to benefit from duty-free access into the Canadian market. Canada also affords preferential tariff treatment to certain qualifying apparel articles from least developed countries, including Haiti, Cambodia and Bangladesh.

Imports into the Mexican market may qualify for trade preferences from free trade agreements in effect with Costa-Rica, El Salvador, Guatemala, Nicaragua and Honduras.

The European Union has an Association Agreement with Central America, including Honduras and Nicaragua, where we have production operations. The European Union also has preferential trade arrangements with other countries. The European Union maintains a Generalized System of Preferences (“GSP”) and the Everything But Arms programs (“EBA”). These programs allow free or reduced duty entry into the European Union of qualifying articles, including apparel, from developing countries and least developed countries where we have manufacturing operations, including Haiti and Bangladesh. The European Union also affords preference to qualifying apparel from notable production venues including Vietnam, Myanmar and Pakistan, which could negatively impact our competitive position in the European Union.

On June 23, 2016, the United Kingdom voted to leave the European Union with a scheduled exit date of March 29, 2019 (“Brexit”). A proposed agreement between the United Kingdom and the European Union on the terms of the withdrawal and the future relationship between the United Kingdom and the European Union was defeated in the U.K. Parliament and at this time, the prospects of an alternative agreement are unclear, thus increasing the possibility of a “no-deal Brexit,” which, absent any extension or, potential transition period that could ease the impact on trade between the parties, could result in the loss of certain efficiencies in our European distribution network. With respect to trade between the United Kingdom and third countries with which the European Union has trade agreements in effect, if the United Kingdom fails to timely implement identical or similar agreements or programs to the ones in effect with the European Union, it could negatively impact the competitiveness of our supply chain in servicing the United Kingdom market.

The Colombia-Northern Triangle Regional Trade Agreement, which includes Colombia, El Salvador, Guatemala and Honduras as member countries provides duty free access for qualifying goods traded between these countries.

The People's Republic of China extends duty-free and quota-free trade benefits under the Asia-Pacific Trade Agreement to qualifying apparel articles from Bangladesh, including certain chief-weight cotton apparel articles. Any changes to this agreement could have a negative impact on our operations.

A segment of our goods from China have been subject to tariffs by the U.S. which are over-and-above the normal applicable duty rates. Furthermore, the tariffs on these goods may further increase or additional goods may become subject to tariffs in the absence of an agreement between the U.S. and China which could have a negative impact on our operations.

Exports of qualifying goods from Bangladesh into the commerce of Japan are also eligible for the duty-free trade preference entitlement under Japan's Generalized System of Preferences scheme.

Overall, changes to trade agreements or trade preference programs that the Company currently relies on for our key country markets, or new agreements or arrangements that further liberalize access to our key country markets, could negatively impact our competitiveness in those markets. The likelihood that any such agreements, measures, or

programs will be adopted, or that the agreements and preference programs around which we have built our

manufacturing supply chain will be modified, repealed, suspended, terminated, or allowed to expire, and the extent of the impact of such changes on our business, cannot be determined with certainty.

Textile and apparel articles are generally not subject to specific export restrictions or licensing requirements in the countries where we manufacture and distribute goods. However, the creation of export licensing requirements, imposition of restrictions on export quantities, or specification of minimum export prices could potentially have a negative impact on our business. In addition, unilateral and multilateral sanctions and restrictions on dealings with certain countries and persons are unpredictable, continue to emerge and evolve in response to international economic and political events, and could impact our trading relationships with vendors or customers.

Product Safety Regulation

We are subject to consumer product safety laws and regulations that could affect our business. In the United States, we are subject to the Consumer Product Safety Act, as amended by the Consumer Product Safety Improvement Act of 2008, the Federal Hazardous Substances Act, the Flammable Fabrics Act, the Toxic Substances Control Act, and rules and regulations enacted pursuant to these statutes. Such laws provide for substantial penalties for non-compliance. These statutes and regulations include requirements for testing and certification for flammability of wearing apparel, for lead content and lead in surface coatings in children's products, and for phthalate content in child care articles, including plasticized components of children's sleepwear. We are also subject to similar laws and regulations, and to additional warning and reporting requirements, in the various individual states within the U.S. in which our products are sold.

In Canada, we are subject to similar laws and regulations, including the Hazardous Products Act and the Canada Consumer Product Safety Act, which apply to manufacturers, importers, distributors, advertisers, and retailers of consumer products. In the European Union, we are also subject to product safety regulations, including those which are imposed pursuant to the General Product Safety Directive and the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH), which places responsibility on all manufacturers to identify and manage the risks that chemical substances may pose to human health and to the environment. We are also subject to similar laws and regulations in the other jurisdictions in which our products are sold.

Although we believe that we are in compliance in all material respects with applicable product safety laws and regulations in the jurisdictions in which we operate, the extent of our liability and risk of business interruption, if any, due to failures to comply with laws, regulations, and permits applicable to our operations cannot be reasonably determined.

Intellectual Property

Trademarks, trade names, and domain names, as well as related logos, designs and graphics, provide substantial value in the development and marketing of the Company's products and are important to our continued success. As a result of successive acquisitions over the past years, we now own a large portfolio of trademarks covering, among others, the Gildan®, GoldToe®, Anvil®, Secret®, Comfort Colors®, Peds®, Alstyle® and American Apparel® families of brands, with trademarks registered in Canada, in the U.S. and in many other countries where our products are manufactured and/or sold. In addition, we continue to expand registration of these marks internationally and we vigorously monitor and enforce the Company's intellectual property against infringement and violations where and to the extent legal, feasible and appropriate.

We have an exclusive license for Under Armour® branded socks in the U.S. and Canada.

Genuine Responsibility™

The Company's corporate social responsibility program, launched almost 16 years ago is deeply embedded within our overall corporate strategy and recognized throughout the organization as a key driver of our business success. We remain committed to pursuing continuous improvement and the implementation of innovative and sustainable solutions that can reduce our environmental footprint and drive positive outcomes for all stakeholders.

In 2017, in conjunction with the completion of a comprehensive materiality assessment, we began the process of mapping our strategies and priorities against the United Nation's Sustainable Development Goals (SDGs). This process led us to build on our existing Genuine Responsibility™ strategy by redefining our key focus areas to align with the SDGs and to renew our commitments to operating responsibly. We believe we can best achieve these goals and deliver value for all stakeholders by focusing on Caring for our People, Conserving the Environment and Creating Strong Communities.

Caring for our People: By owning our own facilities that produce our apparel, we are able to directly invest in the well-being, safety and development of our employees by creating safe and rewarding work environments that are in line with the highest international standards.

Conserving the Environment: Through investments in large-scale environmental innovations at our manufacturing facilities, we have implemented systems to maximize our use of natural resources, increase our access to renewable energy and treat our wastewater naturally.

Creating stronger Communities: We contribute to our communities and strive to have a positive impact by helping them become stronger and more resilient through investments in local economic development, advancing access to education and promoting healthy and active lifestyles.

In September of 2018, Gildan was included in the Dow Jones Sustainability North American Index. This is the sixth consecutive year that Gildan has been included on the Dow Jones Sustainability Indices ("DJSI").

The DJSI track the financial performance of the leading sustainability-driven companies worldwide. These indices serve as benchmarks for investors who integrate environmental, social and governance ("ESG") considerations into their investment philosophy. The annual DJSI review is based on a thorough analysis of corporate economic, environmental and social performance carried out by RobecoSAM, an investment specialist focused exclusively on sustainability investing. The analysis covers issues such as supply chain standards and labour practices, environmental policy/management systems, corporate governance and risk management.

Social Compliance

We provide favourable working conditions for all our employees worldwide. All of Gildan's operations are governed by the Company's Code of Conduct, which was updated in the end of 2017 to ensure that we continue to comply with local laws and the most current international standards. The Code of Conduct is based on the International Labour Organization Conventions, the Fair Labor Association ("FLA") standards, and the Worldwide Responsible Accredited Production ("WRAP") guidelines, as well as best practices of leading organizations in the area of corporate social responsibility.

Compliance is ensured through the use of internal and external monitoring programs that allow us to verify compliance not only with local labour laws, but with internationally-recognized labour standards as well. Our social compliance monitoring is composed of both external third-party audits and internal monitoring audits. Internal audits are done on an unannounced basis while independent third-party monitors also regularly audit our plants, both on an announced and unannounced basis. During fiscal 2018, a total of 178 audits were performed in our facilities and in the facilities of our third-party contractors. 40% of these audits were carried out by external auditors, 19% of which were mandated by our customers. On a regular basis, we will reconcile the results of our internal audits with the external audits conducted at our facilities in order to ensure the completeness of our verifications.

In November 2003, we joined the FLA as a “Participating Company”. The FLA is a multi-stakeholder organization that is internationally recognized and whose goal is to promote adherence to international labour standards and to improve working conditions for employees worldwide. In 2007, Gildan became the first vertically-integrated apparel manufacturer to have its social compliance program accredited by the FLA.

All of our sewing facilities, including our vertically integrated textile and sewing facility in Bangladesh, have been certified by WRAP, an independent, non-profit organization dedicated to the promotion and certification of lawful, humane and ethical manufacturing throughout the world. WRAP, through independent third-party verification, certifies facilities that comply with its code of conduct. In addition, our sewing facilities in Nicaragua, as well as our contractors’ facilities in Haiti, are members of the Better Work Programme, which is a comprehensive collaborative programme between the United Nation’s International Labour Organization and the International Finance Corporation designed to improve working conditions and respect of labour rights of workers, and boost the competitiveness of apparel businesses. All of our third-party sewing contractors are contractually required to follow prescribed employment policies as well as our Code of Conduct.

Environmental Compliance

Gildan operates within the guidelines and practices set forth in its Corporate Environmental Policy and in its Restricted Substances Code of Practice. The purpose of our Environmental Management System is to reduce our environmental impact and to preserve the external natural resources the Company utilizes. In 2017, we identified two primary areas of focus that are of top importance to our stakeholders and critical to our Company’s long-term operational success: operational water and wastewater management, and climate change. Innovative systems such as the biotop, a biological wastewater treatment system, and our biomass steam generation systems are some of the leading sustainable practices we have put in place. The Company monitors, controls and manages other environmental issues through policies which include, but are not limited to, recycling and creation of measures for waste prevention, minimization and recovery and the treatment at all stages of the production cycle including the off-site disposal of any hazardous waste. While we have achieved great results to date, we remain committed to searching for and investing in new technologies in these areas.

We are subject to various federal, state, local, and other government environmental and occupational health and safety laws and regulations in the different jurisdictions in which we operate, concerning, among other things, wastewater discharges, air emissions, storm water flows, and solid waste disposal. Through our Corporate Environmental Policy, Environmental Code of Practice and Environmental Management System, we seek not only to comply with all applicable laws and regulations, but also to reduce our environmental footprint through waste prevention, recovery and treatment. Although we believe that we are currently in compliance in all material respects with the regulatory requirements of those jurisdictions in which our facilities are located, the extent of our liability, if any, for past failures to comply with laws, regulations and permits applicable to our operations cannot be reasonably determined. During fiscal 2013, Gildan was notified that a Gold Toe subsidiary has been identified as one of numerous “potentially responsible parties” at a certain waste disposal site undergoing an investigation by the Pennsylvania Department of Environmental Protection under the Pennsylvania Hazardous Sites Cleanup Act and the Solid Waste Management Act. As a result of activities alleged to have occurred during the 1980’s, Gildan could be liable to contribute to the costs of any investigation or cleanup action which the site may require, although to date we have insufficient information from the authorities as to the potential costs of the investigation and cleanup to reasonably estimate Gildan’s share of liability for any such costs, if any.

In line with our commitment to the environment, as well as to the health and safety of our employees, we incur capital and other expenditures each year that are aimed at achieving compliance with current environmental standards. There can be no assurance that future changes in federal, state, local or other government regulations, interpretations of existing regulations or the discovery of currently unknown problems or conditions will not require substantial additional environmental remediation expenditures, fines or penalties or result in a disruption to our supply chain that could have an adverse effect on our business.

More information about the Company and its corporate citizenship practices and initiatives can be found at www.gildancorp.com and www.genuineresponsibility.com, respectively.

Risk Factors

Please see the “Financial Risk Management”, “Critical Accounting Estimates and Judgments”, and the “Risks and Uncertainties” sections of our 2018 Annual MD&A beginning on page 26, page 31 and page 34, respectively, which are incorporated herein by reference.

Employees

Gildan employs over 50,000 employees worldwide. The Company has historically been able to operate in a productive manner in all of its manufacturing facilities without experiencing significant labour disruptions, such as strikes or work stoppages. At the end of 2018, 54% of our total employee base was represented by labour organizations and in excess of 26,000 employees were covered under collective bargaining agreements.

DIVIDEND POLICY

In December 2010, the Company announced the adoption of a dividend policy which aims to declare and pay cash dividends on a quarterly basis.

The Board of Directors considers several factors when reviewing dividend payments, including the Company’s present and future earnings, cash flows, capital requirements and future regulatory restrictions, while complying with laws governing the Company. There can be no assurance as to the amount or timing of dividends in the future. Although the Company’s long-term debt agreements require compliance with lending covenants in order to pay dividends, these covenants are not currently, and are not expected to be a constraint to the payment of dividends under the Company’s dividend policy.

For each of the three most recently completed financial years, the Company declared and paid dividends on its Common Shares as follows:

Date of Dividend Declaration	Amount of Dividend per Common Share
February 24, 2016	\$0.078
May 4, 2016	\$0.078
July 27, 2016	\$0.078
November 3, 2016	\$0.078
February 23, 2017	\$0.0935
May 3, 2017	\$0.0935
August 3, 2017	\$0.0935
November 2, 2017	\$0.0935
February 22, 2018	\$0.1120
May 2, 2018	\$0.1120
August 2, 2018	\$0.1120
November 1, 2018	\$0.1120

CAPITAL STRUCTURE

The following is a description of the material terms of our Common Shares, our First Preferred shares and our Second Preferred shares, as set forth in the Articles of the Company. Our authorized share capital consists of an unlimited number of Common Shares, of which 206,740,357 were issued and outstanding as of February 15, 2019, and an unlimited number of First Preferred shares and Second Preferred shares, each issuable in series, none of which are issued and outstanding.

First Preferred Shares

Issuance in Series

The First Preferred shares are issuable in series and the Board of Directors has the right, from time to time, to fix the number of, and to determine the designation, rights, privileges, restrictions and conditions attaching to, the First Preferred shares of each series, subject to the limitations, if any, set out in the Articles of the Company.

Rank

The First Preferred shares rank senior to the Second Preferred shares and to the Common Shares with respect to the payment of dividends, return of capital and the distribution of assets in the event of the liquidation, dissolution or winding up of Gildan. The First Preferred shares in each series rank equally with the First Preferred shares of any other series.

Voting Rights

Unless the Articles otherwise provide with respect to any series of the First Preferred shares, the holders of the First Preferred shares are not entitled to receive any notice of or attend any meeting of the shareholders of Gildan and are not entitled to vote at any such meeting.

Second Preferred Shares

Issuance in Series

The Second Preferred shares are issuable in series and the Board of Directors has the right, from time to time, to fix the number of, and to determine the designation, rights, privileges, restrictions and conditions attaching to, the Second Preferred shares of each series subject to the limitations, if any, set out in the Articles of the Company.

Rank

The Second Preferred shares are subject and subordinate to the rights, privileges, restrictions and conditions attaching to the First Preferred shares. The Second Preferred shares rank senior to the Common Shares with respect to payment of dividends, return of capital and distribution of assets in the event of the liquidation, dissolution or winding up of Gildan. The Second Preferred shares in each series rank equally with the Second Preferred shares of any other series.

Voting Rights

Unless the Articles otherwise provide with respect to any series of the Second Preferred shares, the holders of the Second Preferred shares are not entitled to receive any notice of or attend any meeting of the shareholders of Gildan and are not entitled to vote at any such meeting.

Common Shares

Following the conversion of all of the Company's Class B Multiple Voting shares into Class A Subordinate Voting shares, the Company's shareholders approved a special resolution on February 2, 2005 to amend the Company's Articles in order to change each of the issued and outstanding Class A Subordinate Voting shares into Common Shares, on a one-for-one basis, and to remove the Class B Multiple Voting shares and the Class A Subordinate Voting shares.

The Common Shares are subject and subordinate to the rights, privileges, restrictions and conditions attaching to the First Preferred shares and the Second Preferred shares. Each holder of Common Shares shall have the right to receive any dividend declared by the Company and the right to receive the remaining property and assets of the Company on dissolution.

Each holder of Common Shares is entitled to receive notice of and to attend all meetings of shareholders of the Company, except meetings at which only holders of another particular class or series shall have the right to vote. Each Common Share entitles the holder thereof to one vote.

MARKET FOR SECURITIES

The Common Shares are listed on the NYSE and the TSX under the symbol “GIL”. The Class A Subordinate Voting shares (now the Common Shares), which were issued at an offering price of \$0.44 (Cdn\$0.64), on a post-split basis, began trading on the TSX, the Montreal Exchange (the “ME”) and the American Stock Exchange (the “AMEX”) on June 17, 1998. Prior to that date, there was no public market for the Class A Subordinate Voting shares. We delisted such shares from the AMEX on August 31, 1999. On September 1, 1999, the Class A Subordinate Voting shares (now the Common Shares) commenced trading on the NYSE. As a result of a restructuring of Canada’s stock exchanges, which took effect on December 7, 1999, the Class A Subordinate Voting shares (now the Common Shares) are no longer listed on the ME.

The table below shows the monthly price range per Common Share and the trading volume of the Common Shares for the fiscal year ended December 30, 2018 on the TSX (in Cdn\$) and on the NYSE (in US\$).

The co-transfer agent and co-registrar of the Company is Computershare Trust Company, N.A., having an office in Golden, Colorado.

MATERIAL CONTRACTS

Other than the agreements entered into during the normal course of business, the only material agreement entered into in fiscal 2018, or before fiscal 2018 and which is still in force, is the following:

- The Rights Plan approved by the Board of Directors on February 22, 2017, ratified by the Company's shareholders at the annual shareholders' meeting on May 4, 2017. This agreement will expire on the date on which the annual meeting of the Company's shareholders will be held in 2020, with one renewal option subject to shareholder approval, and subject to earlier termination or expiration in accordance with the plan's terms. This agreement was filed on SEDAR on February 23, 2017, and is available at www.sedar.com.

INTERESTS OF EXPERTS

KPMG, the external auditor of the Company, reported on the 2018 Annual Financial Statements, which were filed with the securities regulatory authorities. KPMG LLP have confirmed that they are independent with respect to the Company within the meaning of the relevant rules and related interpretations prescribed by the relevant professional bodies in Canada and any applicable legislation or regulations and also that they are independent accountants with respect to the Company under all relevant U.S. professional and regulatory standards.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

Certain statements included in this Annual Information Form constitute "forward-looking statements" within the meaning of the U.S. Private Securities Litigation Reform Act of 1995 and Canadian securities legislation and regulations, and are subject to important risks, uncertainties, and assumptions. This forward-looking information includes, amongst others, information with respect to our objectives and the strategies to achieve these objectives, as well as information with respect to our beliefs, plans, expectations, anticipations, estimates, and intentions. In particular, information appearing under the heading "Strategy and objectives" contain forward looking statements. Forward-looking statements generally can be identified by the use of conditional or forward-looking terminology such as "may", "will", "expect", "intend", "estimate", "project", "assume", "anticipate", "plan", "foresee", "believe",

or “continue”, or the negatives of these terms or variations of them or similar terminology. We refer you to the Company’s filings with the Canadian securities regulatory authorities and the U.S. Securities and Exchange Commission, as well as the risks described under the “Financial risk management”, “Critical accounting estimates and judgments”, and “Risks and uncertainties” sections of the 2018 MD&A for a discussion of the various factors that may affect the Company’s future results. Material factors and assumptions that were applied in drawing a conclusion or making a forecast or projection are also set out throughout this document.

Forward-looking information is inherently uncertain and the results or events predicted in such forward-looking information may differ materially from actual results or events. Material factors, which could cause actual results or events to differ materially from a conclusion, forecast, or projection in such forward-looking information, include, but are not limited to:

- our ability to implement our growth strategies and plans;
- our ability to successfully integrate acquisitions and realize expected benefits and synergies;
 - the intensity of competitive activity and our ability to compete effectively;
- changes in general economic and financial conditions globally or in one or more of the markets we serve;
- our reliance on a small number of significant customers;
- the fact that our customers do not commit to minimum quantity purchases;
- our ability to anticipate, identify, or react to changes in consumer preferences and trends;
- our ability to manage production and inventory levels effectively in relation to changes in customer demand;
- fluctuations and volatility in the price of raw materials used to manufacture our products, such as cotton, polyester fibres, dyes and other chemicals;
- our reliance on key suppliers and our ability to maintain an uninterrupted supply of raw materials and finished goods;
- the impact of climate, political, social, and economic risks in the countries in which we operate or from which we source production;
- disruption to manufacturing and distribution activities due to such factors as operational issues, disruptions in transportation logistic functions, labour disruptions, political or social instability, bad weather, natural disasters, pandemics, and other unforeseen adverse events;
- compliance with applicable trade, competition, taxation, environmental, health and safety, product liability, employment, patent and trademark, corporate and securities, licensing and permits, data privacy, bankruptcy, anti-corruption, and other laws and regulations in the jurisdictions in which we operate;
- the imposition of trade remedies, or changes to duties and tariffs, international trade legislation, bilateral and multilateral trade agreements and trade preference programs that the Company is currently relying on in conducting its operations or the application of safeguards thereunder;
- factors or circumstances that could increase our effective income tax rate, including the outcome of any tax audits or changes to applicable tax laws or treaties;
- changes to and failure to comply with consumer product safety laws and regulations;
- changes in our relationship with our employees or changes to domestic and foreign employment laws and regulations;
- negative publicity as a result of actual, alleged, or perceived violations of labour and environmental laws or international labour standards, or unethical labour or other business practices by the Company or one of its third-party contractors;
- changes in third-party licensing arrangements and licensed brands;
- our ability to protect our intellectual property rights;
- operational problems with our information systems as a result of system failures, viruses, security and cyber security breaches, disasters, and disruptions due to system upgrades or the integration of systems;
- an actual or perceived breach of data security;
- our reliance on key management and our ability to attract and/or retain key personnel;
- changes in accounting policies and estimates; and

exposure to risks arising from financial instruments, including credit risk on trade accounts receivables and other financial instruments, liquidity risk, foreign currency risk, and interest rate risk, as well as risks arising from commodity prices.

These factors may cause the Company's actual performance and financial results in future periods to differ materially from any estimates or projections of future performance or results expressed or implied by such forward-looking statements. Forward-looking statements do not take into account the effect that transactions or non-recurring or other special items announced or occurring after the statements are made may have on the Company's business. For example, they do not include the effect of business dispositions, acquisitions, other business transactions, asset write-downs, asset impairment losses, or other charges announced or occurring after forward-looking statements are made. The financial impact of such transactions and non-recurring and other special items can be complex and necessarily depends on the facts particular to each of them.

There can be no assurance that the expectations represented by our forward-looking statements will prove to be correct. The purpose of the forward-looking statements is to provide the reader with a description of management's expectations regarding the Company's future financial performance and may not be appropriate for other purposes. Furthermore, unless otherwise stated, the forward-looking statements contained in this report are made as of the date hereof, and we do not undertake any obligation to update publicly or to revise any of the included forward-looking statements, whether as a result of new information, future events or otherwise unless required by applicable legislation or regulation. The forward-looking statements contained in this report are expressly qualified by this cautionary statement.

APPENDIX A - MANDATE OF THE AUDIT AND FINANCE COMMITTEE

The following description of the mandate of the Audit and Finance Committee of the Company complies with applicable Canadian laws and regulations, such as the rules of the Canadian Securities Administrators, and with the disclosure and listing requirements of the Toronto Stock Exchange (collectively, the “Canadian Corporate Governance Standards”), as they exist on the date hereof. In addition, this mandate complies with applicable U.S. laws, such as the Sarbanes-Oxley Act of 2002, and rules and regulations adopted thereunder, and with the New York Stock Exchange’s corporate governance standards (collectively, the “US Corporate Governance Standards”), as they exist on the date hereof. The mandate of the Audit and Finance Committee of the Company (the “Audit Committee”) shall be reviewed annually by the Board in order to ensure on-going compliance with such standards.

1. Membership and Quorum

a minimum of three directors;

only “independent” (as contemplated by Canadian Corporate Governance Standards and US Corporate Governance Standards) directors shall be appointed, the whole as determined by the Board; no affiliate of the Company or any of its subsidiaries (including any person who, directly or indirectly, controls or is controlled by, or is under common control with the Company, or any director, executive officer, partner, member, principal or designee of such affiliate) may serve on the Audit Committee;

a member of the Audit Committee shall receive no compensation from the Company or any of its affiliates other than compensation as a director and committee member of the Company; prohibited compensation includes fees paid, directly or indirectly, for services as a consultant or as legal or financial advisor, regardless of the amount;

each member must be “financially literate” (as contemplated by Canadian Corporate Governance Standards and US Corporate Governance Standards), as determined by the Board;

at least one member must be an “audit committee financial expert” (as contemplated by US Corporate Governance Standards), as determined by the Board;

members of the Audit Committee shall be appointed annually by the Board upon recommendation of the Company’s Corporate Governance Committee; such members may be removed or replaced, and any vacancies on the Audit

Committee shall be filled by the Board upon recommendation of the Company’s Corporate Governance Committee; membership on the Audit Committee shall automatically end at such time the Board determines that a member ceases to be “independent” as determined in the manner set forth above;

the chair of the Compensation and Human Resources Committee of the Company is a member of the Audit Committee;

quorum of majority of members.

2. Frequency and Timing of Meetings

- normally contemporaneously with the Company’s Board meetings;
- at least four times a year and as necessary.

3. Mandate

The responsibilities of the Audit Committee include the following:

(a) Overseeing financial reporting

monitoring the integrity and quality of the Company's accounting and financial reporting process, disclosure controls and procedures, and systems of internal control, through independent discussions with management, the external auditors and the internal auditors;

reviewing, with management and the external auditors, the annual audited consolidated financial statements of the Company and accompanying information, including the report of the auditors thereon to be included in the Annual Report of the Company, the Company's MD&A disclosure and annual earnings press release, prior to their release, filing and distribution;

reviewing, with management and the external auditors, condensed interim consolidated financial statements of the Company and accompanying information, including the Company's MD&A disclosure and quarterly earnings press release, prior to their release, filing and distribution;

reviewing, with management and where appropriate, the external auditors, the financial information contained in prospectuses, offering memoranda, Annual Information Forms, Management Information Circulars, Forms 6 K (including Supplemental Disclosure) and 40 F and any other document required to be disclosed or filed by the Company before their public disclosure or filing with regulatory authorities in Canada or the United States of America;

- reviewing, with management, the type, presentation, controls and processes relating to financial information to be included in earnings press releases and other documents required to be filed with regulatory authorities in Canada or the United States of America (including earnings guidance and other material forward-looking information, as well as any use of pro-forma or non-GAAP information);

reviewing, with management, that adequate procedures are in place for the review of the Company's disclosure of financial information extracted or derived from the Company's financial statements, such as annual reports and investor presentations, and periodically assessing the adequacy of those procedures;

- reviewing, with the external auditors and management, the quality, appropriateness and disclosure of the Company's accounting principles and policies, underlying assumptions and reporting practices, and any proposed changes thereto;

reviewing any analysis or other written communications prepared by management setting forth significant financial reporting issues, including the method used to account for significant unusual transactions or events and disclosures relating thereto, critical accounting estimates and judgments made in connection with the preparation of the financial statements, the analyses of the effect of alternative acceptable accounting policy choices, and the disclosure of sensitive matters such as related party transactions;

- reviewing the external auditors' quarterly review engagement report;

- overseeing the procedures to review management certifications filed with applicable securities regulators;

- reviewing the potential impact of any litigation, claim or other contingency and any regulatory or accounting initiatives that could have a material effect upon the financial

position or operating results of the Company and the appropriateness of the disclosure thereof in the documents reviewed by the Audit Committee;

- overseeing the procedures to monitor the public disclosure of information by the Company;

• reviewing the Company's disclosure policy on a regular basis;

• reviewing the results of the external audit, any significant problems encountered in performing the audit, and

• management's response and/or action plan related to any Management Letter issued by the external auditors and any significant recommendations contained therein.

(b) Monitoring risk management and internal controls

• receiving periodically management's report assessing the adequacy and effectiveness of the Company's disclosure controls and procedures;

• receiving periodically management's reports assessing the adequacy and effectiveness of the Company's systems of internal control over financial reporting and reviewing the report of the auditors thereon;

• reviewing insurance coverage (annually and as may otherwise be appropriate);

• reviewing the Company's policies and parameters regarding hedging activity and derivatives contracts entered into by management in order to address risks associated with foreign exchange fluctuations, commodity prices, interest rates and any other risks where the Company enters into derivatives contracts;

• assisting the Board with the oversight of the Company's compliance with, and reviewing the Company's processes for complying with, applicable legal and regulatory requirements, including tax compliance;

• overseeing the confidential, anonymous procedures for the receipt, retention and treatment of complaints or concerns

• received by the Company regarding accounting, internal accounting controls or auditing matters or employee concerns regarding accounting or auditing matters;

• requesting the performance of any specific audit, as required.

(c) Monitoring internal auditors

• ensuring that the head of internal audit has a functional reporting relationship with the Audit Committee;

• overseeing the access by internal auditors to all levels of management in order to carry out their duties;

• regularly monitoring the internal audit function's performance, its responsibilities, staffing and budget;

• approving the appointment and termination of the Company's chief internal auditor;

• ensuring the ongoing accountability of the internal audit function to the Audit Committee and to the Board.

(a) Monitoring external auditors

• performing annual evaluations and periodic comprehensive evaluations of the performance of the external auditors, including assessing their qualifications and compensation as well as the quality and independence of their audits;

• monitoring at least annually the results of the periodic regulatory and professional quality-control examinations of the quality of the external audits;

• recommending the retention and, if appropriate, the removal of external auditors (both subject to shareholder approval);

• overseeing all relationships between the external auditors and the Company including, determining which non-audit services the external auditors are prohibited from providing, approving or pre-approving policies defining audit and permitted non-audit services provided by the external auditors, overseeing the disclosure of all audit and permitted non-audit services provided by the external auditors, and reviewing the total amount of fees paid by the Company to the external auditors for all audit and non-audit services;

• overseeing the direct reporting and accountability of the external auditors to the Audit Committee and to the Board; directly overseeing the work of the external auditors, including the resolution of any disagreement between them and management regarding accounting and financial reporting;

• discussing with the external auditors the quality and not just the acceptability of the Company's accounting principles, including (i) critical accounting policies and practices used, (ii) critical accounting estimates and matters involving significant uncertainty, (iii) alternative treatments of financial information that have been discussed with management, the ramification of their use and the treatment preferred by the external auditors, as well as (iv) other material written communications between the Company and the external auditors with respect thereto;

• reviewing at least annually, representations by the external auditors describing their internal quality-control procedures;

• reviewing at least annually, the external auditors' representations as to independence and holding discussions with the external auditors as to any relationship or services that may impact their objectivity or independence;

• reviewing hiring policies for employees or former employees of the Company's firm of external auditors;

• overseeing the rotation of lead, concurring and other partners involved in the audit.

(b) Reviewing financings

• reviewing the adequacy, terms and conditions, and compliance relating to the Company's material financing arrangements, including sales of accounts receivable, supplier factoring and hedging.

(c) Evaluating the performance of the Audit Committee

• overseeing the existence of processes to annually evaluate the performance of the Audit Committee.

Because of the Audit Committee's demanding role and responsibilities, the Board chair, together with the Corporate Governance Committee chair, reviews any invitation to Audit Committee members to join the audit committee of another publicly-listed entity. Where a member of the Audit Committee simultaneously serves on the audit committee of more than three public companies, including the Company, the Board determines whether such simultaneous service impairs the ability of such member to effectively serve on the Audit Committee and either requires a correction to the situation or discloses in the Company's Management Information Circular that there is no such impairment.

As appropriate, the Audit Committee may obtain advice and assistance from outside legal, accounting or other advisors and set and pay their compensation, and so advise the Board chair and, if appropriate, the external auditors; the Audit Committee makes arrangements for the appropriate funding for payment of the external auditors and any advisors retained by it. In addition, the Company will provide appropriate funding for the Audit Committee, including the payment of all outside legal, accounting and other advisors retained by the Audit Committee.

The internal auditors and the external auditors will have at all times a direct line of communication with the Audit Committee. In addition, each meets separately with the Audit Committee, without management, at least once a quarter, during which the Company's financial statements and control environment must be discussed. Furthermore, at least once a quarter, and more frequently as required, the Audit Committee meets separately with management. Finally, at each regularly-scheduled and special meeting, the Audit Committee meets without management or any non-independent directors present.

The Audit Committee reports annually to the Board on the adequacy of its mandate. In addition, the chair of the Audit Committee reports regularly to the Board on the business of the Audit Committee.

Nothing contained in the above mandate is intended to transfer to the Audit Committee the Board's responsibility to ensure the Company's compliance with applicable laws or regulations or to expand applicable standards of liability under statutory or regulatory requirements for the directors or the members of the Audit Committee. Even though the Audit Committee has a specific mandate and its members may have financial experience, they do not have the obligation to act as auditors or to perform auditing, or to determine that the Company's financial statements are complete and accurate and are in accordance with generally accepted accounting principles. Such matters are the responsibility of management, the internal auditors and the external auditors. Members of the Audit Committee are entitled to rely, absent knowledge to the contrary, on (i) the integrity of the persons and organizations from whom they receive information, (ii) the accuracy and completeness of the information provided, and (iii) representations made by management as to the non-audit services provided to the Company by the external auditors. The Audit Committee's oversight responsibilities are not established to provide an independent basis to determine that (i) management has maintained appropriate accounting and financial reporting principles or appropriate internal controls and procedures, or (ii) the Company's financial statements have been prepared and, if applicable, audited in accordance with generally accepted accounting principles.

* * * * *

A. Undertaking

Gildan Activewear Inc. (the “Registrant” or “Company”) undertakes to make available, in person or by telephone, representatives to respond to inquiries made by the staff of the Securities and Exchange Commission (“SEC”), and to furnish promptly, when requested to do so by the SEC staff, information relating to the securities in relation to which the obligation to file an annual report on Form 40-F arises or transactions in such securities.

B. Consent to Service of Process

The Registrant has previously filed with the SEC a written irrevocable consent and power of attorney on Form F-X in connection with the Class A Subordinate Voting Shares (now Common Shares).

C. Evaluation of disclosure controls and procedures

Our disclosure controls and procedures (as such term is defined in the Securities Exchange Act of 1934 (the “Exchange Act”), as amended, Rules 13a-15(e) and 15d-15(e)) are designed to ensure that information required to be disclosed in our reports filed with the SEC is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms and is accumulated and communicated to our management, including our principal executive officer and our principal financial officer, as appropriate, to allow timely decisions regarding required disclosure.

An evaluation was carried out under the supervision of, and with the participation of, our management, including our principal executive officer and our principal financial officer, of the effectiveness of our disclosure controls and procedures as of the end of the period covered by this Annual Report on Form 40-F.

Based on that evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective as of the end of such period.

D. Management’s annual report on internal control over financial reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting, as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act.

Our internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of our assets; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that our receipts and expenditures are being made only in accordance with authorizations of our management and directors; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of our assets that could have a material effect on the financial statements.

Under the supervision and with the participation of our principal executive officer and our principal financial officer, management conducted an evaluation of the effectiveness of our internal control over financial reporting, as of December 30, 2018, based on the framework set forth in Internal Control-Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission (“COSO”). Based on that evaluation, our principal executive officer and our principal financial officer concluded that our internal control over financial reporting was effective as of that date.

E. Report of the registered public accounting firm.

KPMG LLP (“KPMG”), an independent registered public accounting firm, that audited and reported on our financial statements attached as Exhibit 99.2 to this Annual Report on Form 40-F, has issued a report on the effectiveness of our internal control over financial reporting as of December 30, 2018. The report is included on page 3 of the financial statements attached as Exhibit 99.2 to this Annual Report on Form 40-F.

F. Changes in internal controls over financial reporting.

There have been no changes that occurred during the period beginning on January 1, 2018 and ended on December 30, 2018 in our internal control over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

The design of any system of controls and procedures is based in part upon certain assumptions about the likelihood of certain events. There can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions, regardless of how remote.

G. Audit Committee Financial Experts

The Registrant's board of directors has determined that it has at least three (3) audit committee financial experts serving on its Audit and Finance Committee. Mr. Donald C. Berg, Mr. Russell Goodman, and Mr. Gonzalo F. Valdes-Fauli have been determined to be such audit committee financial experts and are independent, as that term is defined by the New York Stock Exchange's listing standards applicable to the Registrant. The SEC has indicated that the designation of Mr. Berg, Mr. Goodman, and Mr. Valdes-Fauli as audit committee financial experts does not make Mr. Berg, Mr. Goodman, and Mr. Valdes-Fauli "experts" for any purpose, impose any duties, obligations or liability on Mr. Berg, Mr. Goodman, and Mr. Valdes-Fauli that are greater than those imposed on members of the Audit and Finance Committee and Board of Directors who do not carry this designation or affect the duties, obligations or liability of any other member of the Audit and Finance Committee.

H. Code of Ethics

The Registrant adopted a Code of Ethics (the "Code of Ethics") that applies to all employees and officers, including its principal executive officer, principal financial officer and principal accounting officer. The Code of Ethics is available at the Registrant's website, <http://www.gildancorp.com>, and is available, without charge, in print to any shareholder who requests it.

I. Principal Accountant Fees and Services

In addition to retaining KPMG to report upon the annual consolidated financial statements of the Registrant, the Registrant retained KPMG to provide various audit-related and non-audit services in fiscal 2018. The aggregate fees billed for professional services by KPMG for each of the last two (2) fiscal years, were as follows:

Audit Fees - The aggregate audit fees billed by KPMG were Cdn \$2,392,000 for the fiscal year ended December 30, 2018 and Cdn \$2,238,000 for the fiscal year ended December 31, 2017. These services consisted of professional services rendered for the annual audit of the Company's consolidated financial statements and the quarterly reviews of the Company's interim financial statements, consultation concerning financial reporting and accounting standards, and services provided in connection with statutory and regulatory filings or engagements. The fees for the annual audit of the Company's consolidated financial statements include fees relating to KPMG's audit of the effectiveness of the Company's internal control over financial reporting.

Audit-Related Fees - The aggregate audit-related fees billed by KPMG were Cdn \$80,000 for fiscal 2018 and Cdn \$140,000 for fiscal 2017. These services consisted of due diligence services relating to business acquisitions in fiscal 2017 and also translation services in both years. Such due diligence services related primarily to financial accounting.

Tax Fees - The aggregate tax fees billed by KPMG were Cdn \$801,000 for fiscal 2018 and Cdn \$929,000 for fiscal 2017. These services consisted of tax compliance, including assistance with the preparation and review of tax returns, assistance regarding income, capital and sales tax audits, the preparation of annual transfer pricing studies, and tax advisory services relating to domestic and international taxation.

All Other Fees - The aggregate fees billed by KPMG for all other professional services rendered were Cdn \$nil for fiscal 2018 and Cdn \$nil for fiscal 2017.

All fees billed to the Registrant by KPMG in fiscal 2018 were pre-approved by the Registrant's Audit and Finance Committee pursuant to the procedures and policies set forth in the Audit and Finance Committee mandate and pursuant to applicable legislation. The mandate of the Audit and Finance Committee is available on the Registrant's website at <http://www1.gildan.com/corporate/IR/corporateGovernance.cfm>.

In fiscal 2018 and fiscal 2017, the Company's Audit and Finance Committee did not approve any audit-related, tax or other services pursuant to paragraph (c) (7) (i) (C) of Rule 2-01 of Regulation S-X.

J. Off-Balance Sheet Arrangements

Operating Leases and Commitments

The Registrant has no commitments that are not reflected in its balance sheets except for purchase obligations, minimum annual lease payments under operating leases which are primarily for premises, and minimum royalty payments, which are included in the table of contractual obligations on page 28 of its Management's Discussion and Analysis (see Exhibit 99.1). As disclosed in Note 23(b) to the Registrant's consolidated financial statements (see Exhibit 99.2), the Registrant has issued financial guarantees, irrevocable standby letters of credit and surety bonds primarily from various servicing agreements amounting to \$55.4 million at December 30, 2018.

K. Tabular Disclosure of Contractual Obligations

See page 28 of Exhibit 99.1.

L. Corporate Governance Guidelines

The Registrant has adopted Corporate Governance Guidelines as well as mandates for its board of directors and each of its three committees which are available at the Registrant's Internet website, <http://www1.gildan.com/corporate/IR/corporateGovernance.cfm>, and are available in print to any shareholder who requests them.

M. Identification of the Audit Committee

The Registrant has a separately-designated standing audit committee, known as the Audit and Finance Committee, established in accordance with Section 3(a)(58)(A) of the Exchange Act. The members of the Registrant's Audit and Finance Committee are Mr. Donald C. Berg, Ms. Maryse Bertrand, Ms. Shirley E. Cunningham, Mr. Russell Goodman, Mr. George Heller, Mr. Craig A. Leavitt and Mr. Gonzalo F. Valdez-Fauli. Please refer to the section of our Annual Information Form entitled "Audit and Finance Committee Disclosure", incorporated by reference herein, for additional information.

N. Summary of Significant Differences from NYSE Corporate Governance Rules

The Registrant is committed to adopting and adhering to corporate governance practices that either meet or exceed applicable Canadian and U.S. corporate governance standards. As a Canadian reporting issuer with securities listed on the Toronto Stock Exchange ("TSX") and the New York Stock Exchange ("NYSE"), the Registrant complies with all applicable rules adopted by the Canadian Securities Administrators as well as the rules of the U.S. Securities and Exchange Commission giving effect to the provisions of the U.S. Sarbanes-Oxley Act of 2002.

Although many of the NYSE Corporate Governance Standards (the "NYSE Standards") do not apply to the Registrant, it nevertheless voluntarily complies with most of the NYSE Standards. In fact, the Registrant's corporate governance practices differ significantly in only one respect from those required of U.S. domestic issuers under the NYSE Standards, which is with respect to the approval of equity compensation plans. The NYSE Standards require shareholder approval of all equity compensation plans and material revisions to such plans, regardless of whether the securities to be delivered under such plans are newly issued or purchased on the open market, subject to a few limited exceptions. The TSX Rules, however, do not require shareholder approval in all those circumstances. Hence, only the creation or material amendments to equity compensation plans that provide for new issuances of securities are subject to shareholder approval. The Registrant has in place plans which did not require the approval of its shareholders under the TSX Rules but which could have required the approval of its shareholders under the NYSE Standards as applicable to U.S. domestic issuers.
