**Item 3.02 Unregistered Sales of Equity Securities.**

During September and October of 2013, we sold an aggregate of \$3,932,320 in principal amount of 12% Series A Convertible Promissory Notes to investors. The promissory notes are convertible into shares of our common stock at a conversion price of \$1.75 per share. Outstanding interest on the notes is due and payable quarterly in arrears, with one lump sum payment of all outstanding principal due and payable on March 31, 2015. As part of the sale of these notes, we also issued these investors a total of 450,551 Series A Warrants to purchase common stock at an exercise price of \$2.00 per share. The warrants expire on March 31, 2018.

We sold the securities to the investors through a private placement offering and received aggregate consideration of \$3,932,320. In connection with the sale of these securities, we paid placement agent fees of up to 10% of the principal amount. We also issued the placement agents a total of 175,005 warrants to purchase common stock at an exercise price of \$2.00 per share for a term of three years.

The securities were issued to investors under the exemption from registration provided by Section 4(2) of the Securities Act of 1933 and the rules and regulations promulgated thereunder. The issuance of securities did not involve a public offering based upon the following factors: (i) the issuances of the securities were isolated private transactions; (ii) a limited number of securities were issued to a limited number of offerees; (iii) there was no public solicitation; (iv) the offerees represented that they were accredited investors; (v) the investment intent of the offerees; and (vi) the restriction on transferability of the securities issued.

The above sale of securities was part of an offering to investors of up to a maximum of \$12,000,000 worth of 12% Series A Convertible Promissory Notes ( Series A Notes ) and Series A Warrants, which offering terminated on October 31, 2013 (the Offering ). The total raised in the Offering from its commencement was \$11,998,232. The Series A Notes sold prior to September 2013 originally provided for a sinking fund, whereby we were to set aside in a separate account funds to be used to either redeem the notes, pay interest on the notes when due, or pay the principal amount of the notes on the maturity date. Prior to the sales described above, we obtained approval from all holders of the Series A Notes to eliminate the sinking fund requirement. Accordingly, none of the Series A Notes sold in the Offering have a sinking fund requirement.
