PROPOSAL 1

AMENDMENT TO OUR ARTICLES OF INCORPORATION TO AUTHORIZE A CLASS OF "BLANK CHECK" PREFERRED STOCK CONSISTING OF 20,000,000 AUTHORIZED SHARES

Our Articles of Incorporation currently provides that we are authorized to issue 5,000,000 shares of preferred stock, \$0.001 par value. Our Board of Directors has determined that it is advisable to amend our Articles of Incorporation to authorize us to issue up to 20,000,000 shares of preferred stock, in one or more series with each series having such rights and preferences as our Board of Directors may determine when authorizing such shares (the "Amendment"). This type of class of securities is commonly referred to as "blank check" serial preferred stock. A copy of the Certificate of Amendment to the Certificate of Incorporation is attached hereto as Exhibit A to this Information Statement.

If the Amendment is approved by the Shareholders, shares of our serial preferred stock will be available for issuance from time to time for such purposes and consideration as our Board of Directors may approve. No further vote of our Shareholders will be required in connection with the authorization of a series of preferred stock or the issuance of shares of such series, unless otherwise required by applicable law. As of the date of this Information Statement, we have no present plans to authorize any series of preferred stock or to issue any shares within a series of preferred stock.

In the event that our Board of Directors does authorize, designate and issue shares of serial preferred stock, our Board of Directors may exercise its discretion in establishing the terms of such serial preferred stock. In the exercise of such discretion, our Board may determine the voting rights, if any, of the series of serial preferred stock being issued, which could include the right to vote separately or as a single class with our Common Stock and/or other series of serial preferred stock, to have more or less voting power per share than the possessed by our Common Stock or other series of serial preferred stock, and to vote on certain specified matters presented to our shareholders or on all of such matters or upon the occurrence of any specified event or

Edgar Filing: TECH LABORATORIES INC - Form PRE 14C

condition. On our liquidation, dissolution or winding up, the holders of serial preferred stock may be entitled to receive preferential cash distributions fixed by our Board of Directors when creating the particular series of preferred stock before the holders of our Common Stock are entitled to receive anything. Serial preferred stock authorized by our Board of Directors could be redeemable or convertible into shares of any other class or series of our capital stock.

Our Board of Directors believes the authorization of serial preferred stock is necessary to provide us with the flexibility to act in the future with respect to financing programs, acquisitions, stock splits, and other corporate purposes (although no such specific activities currently are contemplated) without the delay and expense associated with obtaining special shareholder approval each time an opportunity requiring the issuance of shares of preferred stock may arise. Such a delay might deny us the flexibility that our Board views as important in facilitating the effective use of the securities of our Company.

The authorization of the serial preferred stock is not being proposed as a means of preventing or dissuading a change in control or takeover of our Company. However, use of shares of serial preferred stock for such a purpose is possible. Shares of our authorized serial preferred stock, as well as shares of our authorized but unissued Common Stock, for example, could be issued in an effort to dilute the stock ownership and voting power of persons seeking to obtain control of our Company or could be issued to purchasers who would support our Board of Directors in opposing a takeover proposal. In addition, the existence of authority to issue serial preferred stock, as well as the issuance of a series of our preferred stock, if approved, may have the effect of discouraging a challenge for control or making it less likely that such a challenge, if attempted, would be successful.

CONSEQUENCES OF THE AMENDMENT TO CREATE BLANK CHECK SERIAL PREFERRED

If this Proposal No. 1 is approved, all or any of the authorized shares of serial preferred stock may be issued without further Shareholder action (unless such approval is required by applicable law or marketplace rules) and without first offering those shares to our Shareholders for subscription. The issuance of shares otherwise than on a pro-rata basis to all Shareholders would reduce the proportionate equity interest in our Company of each of our Shareholders. The creation of serial preferred stock pursuant to approval of the Amendment will have no dilutive effect upon the proportionate voting power of our present Shareholders. However, to the extent that shares of our serial preferred stock having voting rights are subsequently issued, such issuance could have a substantial dilutive effect on our current Shareholders.

PROPOSAL 2

PROPOSED REVERSE STOCK SPLIT

Our Board of Directors has authorized, subject to Shareholder approval, a Reverse Stock Split of one-for-thirty of our outstanding Common Stock that may be effected by our Board of Directors depending on market conditions. The intent of the Reverse Stock Split is to increase the marketability and liquidity of our Common Stock.

If the Reverse Stock Split is approved by the Shareholders by Written Consent, it will be effected only upon a determination by our Board of Directors that the Reverse Stock Split is in the best interests of the Company and the Shareholders. In the Board's judgment, the Reverse Stock Split would result in the greatest marketability and liquidity of our Common Stock, based upon

Edgar Filing: TECH LABORATORIES INC - Form PRE 14C

prevailing market conditions, the likely effect on the market price of the Common Stock, and other relevant factors.

If approved by the Shareholders, the Reverse Stock Split will become effective on any date (the "Effective Date") selected by our Board of Directors on or prior to December 31, 2006, upon filing the appropriate documentation with NASDAQ. If no Reverse Stock Split is effected by such date, our Board of Directors will take action to abandon the Reverse Stock Split without further Shareholder action.

PURPOSES AND EFFECTS OF THE REVERSE STOCK SPLIT

Our Common Stock is listed for trading on the OTC Bulletin Board under the symbol TCHL. On the Record Date, the reported closing price of our Common Stock on the OTC Bulletin Board was \$0.0013 per share. We intend to use our best efforts in the future to cause our shares of Common Stock to be approved for trading on the Nasdaq SmallCap Market (the "SmallCap Market"). We do not currently qualify for admission to the SmallCap Market because our per-share price of \$0.0013 (as of the close of trading on October 31, 2006) is below the \$3.00 level required for admission to the SmallCap Market. Further, our net tangible assets and shareholders' equity are below the minimum requirements of \$4,000,000 and \$2,000,000, respectively, for inclusion on the SmallCap Market. Management believes that, based on possible future generation of revenues and offerings of Common Stock, we may eventually meet the net tangible assets requirement imposed by the SmallCap Market and the shareholder equity requirement imposed by the SmallCap Market. Management intends to effect a Reverse Stock Split at a level of one-for-five which it believes is sufficient to enable us in the future to meet such requirements for admission into the SmallCap Market. The Board of Directors believes that a Reverse Stock Split will result in attaining both of our goals of achieving a per-share price in excess of \$3.00 and increasing the marketability and liquidity of our Common Stock.

Additionally, our Board of Directors believes that the current per-share price of the Common Stock has limited the effective marketability of the Common Stock because of the reluctance of many brokerage firms and institutional investors to recommend lower-priced stocks to their clients or to hold them in their own portfolios. Certain policies and practices of the securities industry may tend to discourage individual brokers within those firms from dealing in lower-priced stocks. Some of those policies and practices involve time-consuming procedures that make the handling of lower priced stocks economically unattractive. The brokerage commission on a sale of lower-priced stock may also represent a higher percentage of the sale price than the brokerage commission on a higher priced issue. Any reduction in brokerage commissions resulting from the Reverse Stock Split may be offset, however, in whole or in part, by increased brokerage commissions required to be paid by stockholders selling "odd lots" created by such Reverse Stock Split.

On the Record Date the number of record holders of our Common Stock was approximately 46 and the number of beneficial holders of our Common Stock was estimated to be approximately 450. We do not anticipate that any Reverse Stock Split will result in a significant reduction in the number of such holders, and do not currently intend to effect any Reverse Stock Split that would result in a reduction in the number of holders large enough to jeopardize listing of our Common Stock on the SmallCap Market or the Company being subject to the periodic reporting requirements of the Securities and Exchange Commission.

The Reverse Stock Split would have the following effects upon the number of shares of Common Stock outstanding (303,000,000 shares as of the

Edgar Filing: TECH LABORATORIES INC - Form PRE 14C

Record Date) assuming that no additional shares of Common Stock are issued by us after the Record Date and that the Reverse Stock Split is effected and without taking into account any increase in the number of outstanding shares resulting from the exercise of outstanding warrants or options, if any. Our Common Stock will continue to be \$0.005 par value common stock following any Reverse Stock Split, and the number of shares of Common Stock outstanding will be reduced. The following example is intended for illustrative purposes.

Reverse Stock Split	Common Stock Outstanding
1 for 30	10,100,000

At the Effective Date, each share of the Common Stock issued and outstanding immediately prior thereto (the "Old Common Stock"), will be reclassified as and changed into the appropriate fraction of a share of our Common Stock, \$0.01 par value per share (the "New Common Stock"), subject to the treatment of fractional share interests as described below. Shortly after the Effective Date, we will send transmittal forms to the holders of the Old Common Stock to be used in forwarding their certificates formerly representing shares of Old Common Stock for surrender and exchange for certificates representing whole shares of New Common Stock. No certificates or scrip representing fractional share interests in the New Common Stock will be issued, and no such fractional share interest will entitle the holder thereof to vote, or to any rights of a shareholder of the Company. In lieu of any such fractional share interest, each holder of Old Common Stock who would otherwise be entitled to receive a fractional share of New Common Stock will in lieu receive one full share upon surrender of certificates formerly representing Old Common Stock held by such holder.

FEDERAL INCOME TAX CONSEQUENCES OF THE REVERSE STOCK SPLIT

The following is a summary of the material federal income tax consequences of the proposed Reverse Stock Split. This summary does not purport to be complete and does not address the tax consequences to holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, broker-dealers and tax-exempt entities. This summary is based on the Internal Revenue Code of 1986, as amended (the "Code"), Treasury regulations and proposed regulations, court decisions and current administrative rulings and pronouncements of the Internal Revenue Service ("IRS"), all of which are subject to change, possibly with retroactive effect, and assumes that the New Common Stock will be held as a "capital asset" (generally, property held for investment) as defined in the Code. Holders of Old Common Stock are advised to consult their own tax advisers regarding the federal income tax consequences of the proposed Reverse Stock Split in light of their personal circumstances and the consequences under state, local and foreign tax laws.

1. The reverse split will qualify as a recapitalization described in Section 368(a)(1)(E) of the Code.

2. No gain or loss will be recognized by the Company in connection with the Reverse Stock Split.

3. No gain or loss will be recognized by a shareholder who exchanges all of his shares of Old Common Stock solely for shares of New Common Stock.

4. The aggregate basis of the shares of New Common Stock to be received in

Edgar Filing: TECH LABORATORIES INC - Form PRE 14C

the Reverse Stock Split (including any whole shares received in lieu of fractional shares) will be the same as the aggregate basis of the shares of Old Common Stock surrendered in exchange therefore.

5. The holding period of the shares of New Common Stock to be received in the Reverse Stock Split (including any whole shares received in lieu of fractional shares) will include the holding period of the shares of Old Common Stock surrendered in exchange therefor.

THE FOREGOING SUMMARY IS INCLUDED FOR GENERAL INFORMATION ONLY. ACCORDINGLY, EACH HOLDER OF COMMON STOCK OF THE COMPANY IS URGED TO CONSULT WITH HIS OWN TAX ADVISER WITH RESPECT TO THE TAX CONSEQUENCES OF THE PROPOSED REVERSE STOCK SPLIT, INCLUDING THE APPLICATION AND EFFECT OF THE LAWS OF ANY STATE, MUNICIPAL, FOREIGN OR OTHER TAXING JURISDICTION.

BOARD RECOMMENDATION

The Board of Directors recommends a vote FOR the adoption of the Reverse Stock Split and each of the resolutions with respect thereto set forth in Exhibit B hereto.

PROPOSALS BY SECURITY HOLDERS

of the Company's issued and outstanding shares of Common Stock

RESOLVED that the Board of Directors be, and it hereby is, authorized to effect a one-for-thirty reverse stock split (the "Reverse Stock Split"), in accordance with the following resolutions if the Board of Directors determines in the exercise of its discretion that a Reverse Stock Split is in the best interests of the Corporation and the shareholders and that a Reverse Stock Split is likely to result in an increase in the marketability and liquidity of the Common Stock;
