## ITEM 5. OTHER EVENTS

As previously disclosed, Carriage Services, Inc. ( Carriage ) had a revolving credit facility with a group of banks. The credit facility, set to mature in June 2004, was unsecured and contained customary restrictive covenants, including a restriction on the payment of dividends on common stock, and required that Carriage maintain certain financial ratios. Interest under that facility was provided at both LIBOR and prime rate options.

On August 4, 2003, Carriage completed a transaction to replace the credit facility with a new \$40 million unsecured bank credit facility that is set to mature in March 2006. Interest under the new credit facility is payable at the initial floating rate of LIBOR plus 300 basis points and subsequently may decline with future reductions in Carriage's debt to EBITDA ratio, if any. The new credit facility's commitment level reduces by \$7.5 million in March 2005 and by an additional \$7.5 million in September 2005. In addition, the commitment reduces by up to \$5 million for the banks' pro-rata share of proceeds from the disposition of Carriage's assets, if any. In complying with the new credit facility, Carriage will begin deferring interest payments on its subordinated debentures held by its affiliate, Carriage Services Capital Trust, which will result in cash distributions payable by such Trust under the TIDES convertible trust preferred securities similarly being deferred for at least the term of the new credit facility, beginning with the payment due September 1, 2003. During the period in which such payments are deferred, distributions will continue to accumulate at the seven percent annual rate, and those deferred distributions will themselves accumulate distributions at the same seven percent annual rate. During the deferral period, Carriage will be prohibited from paying dividends on our common stock or repurchasing its common stock, subject to limited exceptions. Carriage will record a pretax charge in the third quarter of 2003 in connection with the extinguishment of the existing credit facility in the amount of \$162,000, which represents the unamortized loan origination costs.
