99.1. Press Release of Monster Worldwide, Inc. (the Company) issued on July 27, 2004, relating to its second quarter 2004 results.

ITEM 12. RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

On July 27, 2004, the Company announced its results of operations for the quarter and six months ended June 30, 2004. A copy of the Company's press release is furnished herewith as Exhibit 99.1 and is incorporated herein by reference. The presentation of interest and other, net as reported on the accompanying condensed consolidated statements of operations for the three months ended June 30, 2004 and 2003 has been changed from the July 27, 2004 press release to be consistent in the manner in which these amounts were reported in previous press releases. All other amounts remain as previously reported.

Included in the press release issued by the Company and furnished herewith as Exhibit 99.1 are certain non-GAAP financial measures. The Company has provided certain non-GAAP financial information as additional information for its operating results. These measures are not in accordance with, or an alternative for, generally accepted accounting principles and may be different from non-GAAP measures reported by other companies. The Company believes that its presentation of non-GAAP measures such as non-GAAP operating income, non-GAAP earnings per share, adjusted EBITDA, net cash and free cash flow provide useful information to management and investors regarding certain financial and business trends relating to its financial condition and results of operations. In addition, the Company's management uses these measures for reviewing the financial results of the Company and for budget planning purposes. Non-GAAP operating income, income from continuing operations and related per share information exclude business reorganization, spin-off and other special charges and any tax benefits thereon. Non-GAAP operating income is a measure used by the Company in reviewing business trends and the financial results of its reportable segments. These measures are also the primary basis upon which the Company prepares its budgets and forecasts. Adjusted EBITDA is one of

the measures that determine the Company's ability to borrow under its \$100 million credit facility. If the Company failed to meet the required level of adjusted EBITDA as defined in its credit agreement, the lender may terminate the agreement, requiring the Company to repay any outstanding amount. EBITDA and adjusted EBITDA are non-GAAP measures and should not be considered in isolation, or as a substitute for, operating income, cash flows from operating activities or as a measure of the Company's profitability or liquidity. EBITDA and adjusted

EBITDA reflected herein may not be comparable with similarly titled measures reported by other companies. Free cash flow is defined as cash flow from operating activities or operating activities of continuing operations, less capital expenditures. Free cash flow is considered a liquidity measure and provides useful information about the Company's ability to generate cash after investments in property and equipment. Free cash flow reflected herein is a non-GAAP measure and may not be comparable to similarly titled measures reported by other companies. Free cash flow does not reflect the total change in the Company's cash position for the period and should not be considered a substitute for such a measure. Net cash is defined as cash and cash equivalents after subtracting total debt. Net cash is considered a measure of the Company's liquidity and reflects the amount of cash and cash equivalents that would remain with the Company after paying off its contractual debt obligations. Net cash also provides information to investors regarding the effect that each period's borrowings have on the Company's balance of cash and cash equivalents. Net cash presented herein is a non-GAAP measure and may not be comparable to similarly titled measures reported by other companies.

(All other items on this report are inapplicable.)
