The Registrant is unable to file its Annual Report on Form 10-K for the fiscal year ended December 31, 2004 (the Form 10-K) due to the fact that its limited resources and personnel have been fully deployed on matters related to the restatement of the Registrant's financial statements for the quarters ended March 31, 2004, June 30, 2004 and September 30, 2004 as described in its Current Report on Form 8-K filed on March 9, 2005. The Registrant requires additional time to prepare and review the Form 10-K, which the Registrant intends to file no later than the fifteenth calendar day following the prescribed due date, as permitted by Rule 12b-25.

Controls and Procedures

In connection with an evaluation, under the supervision and participation of the Registrant's Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of our disclosure controls and procedures as of December 31, 2004, the Registrant identified a material weakness with regard to its accounting for the warrants associated with its Series A-1 Preferred Stock financing completed in March and May 2004. This resulted in the need to restate the Registrant's financial statements for the quarters ended March 31, June 30 and September 30, 2004, as described in its Current Report on Form 8-K filed on March 9, 2005. As a result of this material weakness, management expects to conclude in the Form 10-K that its disclosure controls and procedures over financial reporting were not effective as of December 31, 2004.

In response to this material weakness, in March 2005 the Registrant implemented a policy that requires for any future issuance of complex equity and derivative instruments or other complex transactions, an outside expert with experience concerning the related accounting issues will be consulted. In addition, enhanced review and documentation procedures have been implemented in the Registrant's accounting process in order to ensure accuracy of all accounting entries.
