**RESPONSE TO PART III**

UTStarcom, Inc., a Delaware corporation (the "Company"), is unable to file its Annual Report on Form 10-K for the fiscal year ended December 31, 2006 (the "2006 10-K") by the prescribed due date due to circumstances described below. The Company does not anticipate that it will be able to file its Form 10-K on or before 15th calendar day following the prescribed due date, in accordance with Rule 12b-25(b).

As disclosed in the Company's Current Reports on Form 8-K filed with the Securities and Exchanges Commission (the "SEC") on November 8, 2006, February 2, 2007, and March 2, 2007, the Company has commenced a voluntary review of its historical equity award grant practices under the direction of the Nominating and Corporate Governance Committee of the Board of Directors of the Company (the "Governance Committee") and with the assistance of independent legal counsel and independent accounting consultants. The Governance Committee review found the Company had not followed the requirements of Accounting Principles Board No. 25, Accounting for Stock Issued to Employees, and had used incorrect measurement dates in accounting for Company stock option grants. The review has determined that, rather than the grant dates previously used for accounting purposes, a later date, when all actions that establish a measurement date had taken place, should have been used in accounting for these stock options. The Company needs additional time in order to (i) analyze the measurement date errors identified in the Governance Committee's review and compute adjustments to previously issued financial statements to correct for the errors in measurement dates, (ii) make necessary adjustments to its financial statements and disclosures pursuant to guidance in SFAS No.154 Accounting Changes and Error Corrections- a replacement of APB Opinion No. 20 and FASB Statement No. 3 and as issued in January 2007 by the staff of the SEC concerning Filing Restated Financial Statements for Errors in Accounting for Stock Option Grants and (iii) assess any impact of the review on the effectiveness of the Company's internal control over financial reporting and **Management's annual report on internal control over financial reporting.**

As a result of this ongoing review, the possible impact of which is more fully described below, the Company is unable to file the 2006 10-K by the required filing date and does not currently anticipate that it will be filed on or before the fifteenth calendar day following the prescribed due date according to Rule 12b-25.

**Impact on Financial Statements and Internal Control over Financial Reporting**

As previously announced on February 1, 2007, the Governance Committee review found that in certain instances all actions that establish a measurement date under the requirements of Accounting Principles Board No. 25, Accounting for Stock Issued to Employees, had not occurred at the grant date, which had been used as the measurement date in accounting for Company stock option grants. A later date, when all such actions had taken place, should have been used as the measurement date for these stock options. The Audit Committee of the Company's Board of Directors (the "Audit Committee") then determined, in consultation with and on the recommendation of the Company's management, the effect of using incorrect measurement dates would require the Company to record material additional stock-based compensation charges in its previously issued financial statements. The Company therefore previously announced, based on preliminary information, its previously issued financial statements for the years 2000 through 2006, including interim periods within these fiscal years, should no longer be relied upon, and its estimate that the restatement may involve additional non-cash compensation and related charges of approximately \$50 million.

## Edgar Filing: UTSTARCOM INC - Form NT 10-K

This information is preliminary and is subject to changes that might result from completion of the Governance Committee's investigation, management's review of the findings of the Governance Committee, and audit by the Company's independent registered public accounting firm, but it provides management's best estimates based on available information.

### Impact on Listing of Company's Securities

Management expects that Nasdaq will soon notify the Company that the delay in the filing of the Form 10-K constitutes non-compliance with the requirements of the NASDAQ Global Select Market for continued listing of our shares. Upon receipt of such notification, the Company will initiate the appeal process by requesting a hearing before the Nasdaq Listing Qualifications Panel. Pending a decision by the panel, the Company expects its securities of the Company will remain listed on the NASDAQ Global Select Market.

### Forward-Looking Statements

Information in this Form 12b-25 regarding the status and determinations resulting from the Governance Committee's independent review, the Audit Committee's assessment of the results of that review, Company management's estimate of the total amount of additional non-cash stock-based compensation charges that may be recognized, and the Company's present expectations concerning the timing of filing the Form 10-K with the SEC, as well as other expectations and beliefs, are forward-looking statements that involve risks and uncertainties. All forward-looking statements included in this Form 12b-25 are based upon information available to the Company as of the date of this Form 12b-25, which may change, and we assume no obligation to update any such forward-looking statement. These statements are not guarantees of future performance and actual results could differ materially from our current expectations. Factors that could cause or contribute to such differences include the final conclusions of the Governance Committee (and the timing of such conclusions) concerning matters relating to stock option grants, the review of such conclusions by the Audit Committee, Company management, and the Company's independent registered public accounting firm, and other risks detailed from time to time in the Company's SEC reports and filings, including our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q and Current Reports on Form 8-K.

The Company's investigation regarding timing of past stock option grants and other potentially related issues is ongoing, and the determinations of the Governance Committee, the Audit Committee and the Company's management discussed in this Form 12b-25 are preliminary. In addition, the investigation and possible conclusions have had and may in the future have an impact on the amount and timing of previously awarded stock-based compensation expense and other related additional charges to be recorded for previously awarded equity grants; our ability to file required reports with the SEC on a timely basis; our ability to meet the requirements of the NASDAQ Global Select Market for continued listing of our shares; potential claims and proceedings relating to such matters, including shareholder or employee litigation and action by the SEC and/or other governmental agencies; and negative tax or other implications for the Company resulting from any accounting adjustments or other factors.
