- (1) Senior floating-rate interests often require prepayments from excess cash flows or permit the borrower to repay at its election. The degree to which borrowers repay, whether as a contractual requirement or at their election, cannot be predicted with accuracy. As a result, the actual remaining maturity may be substantially less than the stated maturities shown. However, it is anticipated that the senior floating-rate interests will have an expected average life of approximately two to three years. The stated interest rate represents the weighted average interest rate of all contracts within the senior loan facility. Senior Loans typically have rates of interest which are redetermined either daily, monthly, quarterly or semi-annually by reference to a base lending rate, plus a premium. These base lending rates are primarily the London-Interbank Offered Rate (LIBOR), and secondarily the prime rate offered by one or more major United States banks (the Prime Rate) and the certificate of deposit (CD) rate or other base lending rates used by commercial lenders.
- (2) Unfunded or partially unfunded loan commitments. The Fund may enter into certain credit agreements whereby all or a portion of which may be unfunded. The Fund is obligated to fund these commitments at the borrower's discretion.
- (3) Security valued at fair value using methods determined in good faith by or at the direction of the Trustees.
- (4) All or a portion of these securities were on loan at July 31, 2007.
- (5) Security (or a portion thereof) has been segregated to cover margin requirements on open financial futures contracts.
- (6) Adjustable rate securities. Rates shown are the rates at period end.
- (7) Rate shown is a weighted average fixed-rate coupon that changes/updates monthly.
- (8) Security pays 3.8% coupon and accrues principal based on annual increases in the Chilean UF Rate, for an effective yield of 7.433%.
- (9) Affiliated investment company available to Eaton Vance portfolios and funds which invests in high quality, U.S. dollar denominated money market instruments. The rate shown is the annualized seven-day yield as of July 31, 2007. Net income allocated from this investment for the three months ended July 31, 2007 was \$120,226.
- (10) This Senior Loan will settle after July 31, 2007, at which time the interest rate will be determined.
