Meetings of the Board of Directors

The board of directors met seven times and did not act by unanimous written consent during the fiscal year ended December 31, 2016. The audit committee met five times, the compensation committee met two times and the nominating and corporate governance committee met one time and acted by unanimous written consent one time. Each member of the board of directors, excluding Mr. Clark, who was elected as a member of the board of directors in January 2017, and Mr. Krognnes, who attended 50% of the compensation committee meetings held in 2016, attended at least 75% of the aggregate number of meetings of our board of directors, and of the committees on which he served, held during the last fiscal year. We encourage all of our directors and nominees for director to attend our annual meeting of stockholders; however, attendance is not mandatory.

Corporate Governance Guidelines

The board of directors has documented our governance practices in our corporate governance guidelines to assure that the board will have the necessary authority and practices in place to review and evaluate our business operations as needed and to make decisions that are independent of our management. The guidelines are also intended to align the interests of directors and management with those of our stockholders. The corporate governance guidelines set forth certain practices the board will follow with respect to board composition, board committees, board nomination, director qualifications and evaluation of the board and committees. The corporate governance guidelines and the charter for each committee of the board of directors may be viewed at www.corvuspharma.com.

Leadership Structure of the Board

Our Bylaws and corporate governance guidelines provide our board of directors with flexibility to combine or separate the positions of chairperson of the board of directors and Chief Executive Officer and/or the implementation of a lead director in accordance with its determination that utilizing one or the other structure would be in our best interests. Dr. Miller currently serves as the chairperson of our board of directors. In that role, Dr. Miller presides over the meetings of our board of directors.

Our board of directors has concluded that our current leadership structure is appropriate at this time. However, our board of directors will continue to periodically review our leadership structure and may make such changes in the future as it deems appropriate.

Role of Board in Risk Oversight Process

Risk assessment and oversight are an integral part of our governance and management processes. Our board of directors encourages management to promote a culture that incorporates risk management into our corporate strategy and day-to-day business operations. Management discusses strategic and operational risks with the board of directors at regular board meetings as part of management presentations that focus on particular business functions, operations or strategies, and presents the steps taken by management to mitigate or eliminate such risks.

Our board of directors does not have a standing risk management committee, but rather administers this oversight function directly through our board of directors as a whole, as well as through various standing committees of our board of directors that address risks inherent in their respective areas of oversight. In particular, our board of directors is responsible for monitoring and assessing strategic risk exposure. Our audit committee is responsible for overseeing our major financial risk exposures and the steps our management has taken to monitor and control these exposures. The audit committee also monitors compliance with legal and regulatory requirements and considers and approves or disapproves any related person transactions. Our nominating and governance committee monitors the effectiveness of our corporate governance guidelines. Our compensation committee assesses and monitors whether any of our compensation policies and programs has the potential to encourage excessive risk-taking.

Pursuant to their respective agreements, our named executive officers are bound by certain restrictive covenants, including covenants relating to confidentiality and/or assignment of intellectual property rights. In addition, each named executive officer is bound by covenants not to solicit our officers or employees during employment and for a specified period following termination of employment. As provided by our related party transaction policy, our audit committee will be responsible for reviewing and approving in advance the related party transactions covered by our related party transaction policies and procedures.

Certain Related Party Transactions

We describe below transactions and series of similar transactions since January 1, 2016, to which we were a party or will be a party, in which (i) the amounts involved exceeded or will exceed \$120,000 and (ii) any of our directors, executive officers, holders of more than five percent of our capital stock or any member of their immediate family had or will have a direct or indirect material interest

The underwriters received the same underwriting discount from the sale of the shares of our common stock to these holders as they did from other shares of our common stock sold to the public in the IPO.

Participants	Number of Shares of Common Stock Purchased	Aggregate Purchase Price
Entities affiliated with Fidelity Management & Research Company	850,000	\$ 12,750,000
Novo A/S	666,666	9,999,990

Investors' Rights Agreement

We are party to an amended and restated investors' rights agreement, dated as of September 16, 2015, pursuant to which certain of our stockholders, including certain holders of five percent (5%) or more of our capital stock and entities affiliated with certain of our directors, have the right to demand that we file a registration statement for their shares of our common stock or request that their shares of our common stock be covered by a registration statement that we are otherwise filing. As of March 31, the holders of approximately 12.4 million shares of our common stock are entitled to rights with respect to the registration of their shares under the Securities Act.

Demand Registration Rights

At any time after 180 days following March 22, 2016, the holders of at least thirty percent (30%) of the registrable shares can, on not more than two (2) occasions, request that we register all or a portion of their shares if the aggregate price to the public of the shares offered is at least \$5,000,000 (after deduction of underwriter's discounts and expenses related to the issuance).

Piggyback Registration Rights

In the event that we determine to register any of our securities under the Securities Act (subject to certain exceptions), in another offering, either for our own account or for the account of other security holders, the holders of the registrable shares will be entitled to certain piggyback registration rights allowing holders to include their shares in such registration, subject to certain marketing and other limitations. As a result, whenever we propose to file a registration statement under the Securities Act, other than with respect to a registration related to employee benefit plans, the offer and sale of debt securities, or corporate reorganizations or certain other transactions, the holders of registrable shares are entitled to notice of the registration and have the right, subject to limitations that the underwriters may impose on the number of shares included in the registration, to include their shares in the registration. In an underwritten offering, the underwriters have the right, subject to specified

conditions and limitations, to limit the number of shares such holders may include.

Form S-3 Registration Rights

The holders of registrable shares will be entitled to certain Form S-3 registration rights. The holders of any of these shares may make a written request that we register their shares on Form S-3 if we are eligible to file a registration statement on Form S-3 and if the aggregate price to the public of the shares offered is at least \$2,000,000 (after deduction of underwriter's discounts and expenses related to the issuance). These stockholders may make an unlimited number of requests for registration on Form S-3, but in no event shall we be required to file more than two (2) registrations on Form S-3 in any twelve-month period.

Table of Contents

Expenses of Registration

We will pay the registration expenses of the holders of the shares registered pursuant to the demand, piggyback and Form S-3 registration rights described above, including the expenses in an amount not to exceed \$35,000 of one special counsel for the selling holders.

Expiration of Registration Rights

The demand, piggyback and Form S-3 registration rights described above will expire, with respect to any particular stockholder, upon the earlier of four (4) years after the consummation of our IPO or when such stockholder can immediately sell all of its shares under Rule 144 of the Securities Act during any ninety (90) day period (and without the requirement for the Company to be in compliance with the current public information required under Section c(1) of Rule 144 of the Securities Act).

Voting Agreement

We were party to an amended and restated voting agreement with certain holders of our common stock and convertible preferred stock until the consummation of our IPO in March 2016. The amended and restated voting agreement provided for certain voting rights for members of our board of directors in favor of certain holders of convertible preferred stock. This agreement terminated upon the consummation of our IPO.

Right of First Refusal and Co-Sale Agreement

We were party to an amended and restated right of first refusal and co-sale agreement with certain holders of our common stock and convertible preferred stock until the consummation of our IPO in March 2016. The amended and restated right of first refusal and co-sale agreement provided for, among other things, rights of first refusal and co-sale relating to the shares of our common stock held by the parties thereto. This agreement terminated upon the consummation of our IPO.

Independence of the Board of Directors

Our board of directors currently consists of seven (7) members. Our board of directors has determined that all of our directors, other than Dr. Miller, qualify as independent directors in accordance with the NASDAQ Global Market (NASDAQ) listing requirements. Dr. Miller is not considered independent because he is an employee of the Company. NASDAQ's independence definition includes a series of objective tests, such as that the director is not, and has not been for at least three (3) years, one of our employees and that neither the director nor any of his or her family members has engaged in various types of business dealings with us. In addition, as required by NASDAQ rules, our board of directors has made a subjective determination as to each independent director that no relationships exist that, in the opinion of our board of directors, would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. In making these determinations, our

Edgar Filing: Corvus Pharmaceuticals, Inc. - Form 10-K/A

board of directors reviewed and discussed information provided by the directors and us with regard to each director's business and personal activities and relationships as they may relate to us and our management. There are no family relationships among any of our directors or executive officers.

As required under NASDAQ rules and regulations, our independent directors meet in regularly scheduled executive sessions at which only independent directors are present.

Pre-Approval Policies and Procedures

The audit committee has adopted policies and procedures for the pre-approval of audit and non-audit services provided by our independent registered public accounting firm, PricewaterhouseCoopers LLP. The policy generally requires pre-approval for specified services in the defined categories of audit services, audit-related services and tax services. The pre-approval of services may be delegated to one or more of the audit committee's members, but the decision must be reported to the full audit committee at its next scheduled meeting.

The audit committee reviews both audit and non-audit services performed by PricewaterhouseCoopers LLP and the fees charged for such services. Among other things, the audit committee reviews non-audit services proposed to be provided by PricewaterhouseCoopers LLP and pre-approve such services only if they are compatible with maintaining PricewaterhouseCoopers LLP's status as an independent registered public accounting firm. All services provided by PricewaterhouseCoopers LLP in 2016 and 2015 were pre-approved by our board of directors or the audit committee after review of each of the services proposed for approval.
