RE: Annual General Meeting of Shareholders

Dear Shareholder,

Fiscal 2008 proved to be a year of great transformation, as we made a number of vital changes to maximize mid- and long-term value. We acquired Navtel Communications and Brix Networks to build EXFO into a leader in next-generation, IP testing and service assurance. We opened our high-volume, low-complexity manufacturing center in Shenzhen, China and bolstered our software development team in Pune, India to extend our global reach and deliver the most innovative products in the industry. We accelerated our sales, marketing and branding efforts, especially among key focus accounts and Tier-1 countries, to expand our coverage and long-term growth perspectives.

These initiatives, among several others implemented in the last few years, helped increase our sales by 20.2% year over year to a record of \$183.8 million in fiscal 2008. In the last five years, our sales CAGR stands at 24.3% and at 19.3% over the last 10 years which includes the telecom downturn. Most investors are well aware that EXFO has gained market share and grown substantially faster than the industry every single year since the company began operations in my apartment in 1985. Few realize, however, that we have increased EBITDA* faster than sales in four of the last five years. In fact, we increased our EBITDA margin from -1.1% in fiscal 2004 to 14.8% in 2007 (or 12.0% excluding an unusual R&D tax credit and government grant recovery) despite a severe headwind from the Canadian dollar. And there's further room for expansion within our long-term growth strategy.

In fiscal 2008, our EBITDA margin slightly dropped to 11.2% due to the short-term impact of the Brix Networks acquisition and the opening of our manufacturing center in China. Both of these strategic actions should deliver considerable long-term benefits.

Fiscal 2008 Performance Highlights

Clearly, we initiated a number of changes in 2008 with a long-term horizon in mind, but progress was made on several fronts that are noteworthy:

- Increased annual sales 20.2% to a record-high of \$183.8 million, including 24.0% growth in our Telecom Division;
- Improved Optical sales 12.7% year over year to \$115.1 million (We own an estimated 28% of the global portable optical test market);
- Bolstered Protocol sales 97.4% year over year to \$33.7 million (including a partial revenue contribution of \$5.4 million from the Navtel and Brix acquisitions);
 - Increased annual sales 12.8% in the Americas, 26.3% in EMEA and 40.1% in Asia-Pacific;
- Diversified our customer base with the largest account representing 7.4% of sales in fiscal 2008 compared to 14.7% in 2007. (Excluding sales to this customer, our Telecom Division sales would have increased 37.7% year over year and sales to the US would have improved 28.7% year over year);

*EBITDA is defined as GAAP net earnings (loss) before interest, income taxes, amortization of property, plant and equipment, amortization of intangible assets, and extraordinary gain.

Table of Contents

- Raised gross margin for a sixth consecutive year to reach 58.9% despite a severe headwind from the Canadian dollar; and
- Launched 27 new products in fiscal 2008, versus 20 in 2007, and derived 34.6% of sales from new products on the market two years or less.

Three-Year Corporate Performance Objectives

Against this backdrop, I am pleased to provide the following corporate performance objectives for our three-year strategic plan ending at the close of fiscal 2011. These long-term objectives are meant to replace the performance goals that we provided on an annual basis. These new objectives reflect the clear direction management is taking toward long-term value creation.

Objective	Three-Year Metric
Grow sales significantly faster than the industry rate	20% CAGR
Increase EBITDA in dollars faster than sales	>20% CAGR
Continue raising gross margin	62%

I will discuss these objectives in greater detail at our upcoming Annual General Meeting of Shareholders. Please consider this letter as a formal invitation to attend our Meeting, which will be held on January 14, 2009, 10 a.m., at the Hilton Toronto (Casson Meeting Room; Convention Level), 145 Richmond Street West, Toronto, Ontario.

Details of the business to be conducted at the Meeting are provided in the attached Management Proxy Circular and Notice of Annual General Meeting of Shareholders.

It is important that your shares be represented at the Meeting. **WHETHER OR NOT YOU PLAN TO ATTEND THE MEETING, PLEASE COMPLETE, SIGN, DATE AND PROMPTLY RETURN THE ACCOMPANYING PROXY IN THE ENCLOSED POSTAGE-PAID ENVELOPE.**

If you send in your proxy card and then decide to attend the Meeting to vote your shares in person, you may still do so. Your proxy is revocable in accordance with the procedures set forth in the Management Proxy Circular.

On behalf of the Board of Directors, I would like to express our appreciation for your continued interest in EXFO. We look forward to seeing you at the Meeting.

Sincerely,

/s/ Germain Lamonde

ELECTRONIC DELIVERY

The Corporation has a voluntary program for e-mail notification to our shareholders that documents which must be delivered pursuant to securities legislation are available on EXFO's website. Every year, EXFO delivers documentation to shareholders, such as this Management Proxy Circular and its Annual Report containing the consolidated annual financial statements together with the auditors report thereon that must be delivered to shareholders of a public company by law. EXFO has made this process more convenient for its shareholders, as shareholders who so wish, may be notified by e-mail when the Corporation's documentation is posted in the "Investors" section on its website (www.EXFO.com). Accordingly such documentation will not be sent in paper form by mail. The Corporation believes that electronic delivery will benefit the environment and reduce its

costs. Shareholders who do not consent to receive documentation by e-mail will continue to receive such documentation by mail. Shareholders may also notify the Corporation in writing of their intention not to receive the Annual Report containing the consolidated annual financial statements together with the auditors report thereon, neither by e-mail nor by mail.

Table of Contents

Registered shareholders can consent to electronic delivery by completing and returning the consent form accompanying this Circular to CIBC Mellon Trust Company. Unregistered shareholders (i.e. shares are held through a securities broker, bank, trust company or other nominee) can consent to electronic delivery by completing and returning the appropriate form received from the applicable intermediary.

BUSINESS TO BE TRANSACTED AT THE MEETING

Presentation of the Financial Statements

The consolidated financial statements of the Corporation for the financial year ended August 31, 2008 and the Auditors' report thereon contained in EXFO's Annual Report accompanying this Circular will be submitted to shareholders at the Meeting but no vote with respect thereto is required or proposed to be taken.

Election of the Directors

According to the articles of the Corporation, the Board of Directors shall consist of a minimum of three (3) and a maximum of twelve (12) directors. At the Meeting, Management proposes the six (6) persons named hereafter on pages 3 and 4 as nominees for election as directors to hold office until the next annual meeting or until the office is otherwise vacated in accordance with the Corporation's by-laws.

Management does not anticipate that any of the nominees will be unable, or for any reason whatsoever, be reluctant to fulfill their duties as directors. Should this occur for any reason whatsoever before the election, the persons named in the Form of Proxy reserve the right to vote for another nominee of their choice unless the shareholder specified on the Form of Proxy to abstain from voting for the election of the directors. The election of the directors must be approved by a majority of the votes cast on the matter at the Meeting.

Appointment and Remuneration of Auditors

A firm of auditors is to be appointed by vote of the shareholders at the Meeting to serve as auditors of the Corporation until the close of the next annual meeting. The Audit Committee is to be authorized to fix the remuneration of the auditors so appointed. The Board of Directors and Management, upon the advice of the Audit Committee, recommend that PricewaterhouseCoopers LLP be re-appointed as Auditors of the Corporation. Other than its Long-Term Incentive Plan, Deferred Share Unit Plan, Restricted Stock Award Plan and Stock Appreciation Rights Plan, which are described below in the "Report on Executive Compensation by the Human Resources Committee – Long-Term Incentive Compensation", the Corporation does not have any other formal long-term incentive plans for its directors, officers and employees.

Deferred Profit Sharing Plan

The Corporation maintains a plan for certain eligible Canadian resident employees, under which the Corporation may elect to contribute an amount equal to 2% of an employee's gross salary, provided that the employee has contributed at least 2% of his gross salary to a tax-deferred registered retirement savings plan. Cash contributions to this plan and expenses for the years ended August 31, 2006, 2007 and 2008, amounted to US\$316,000, US\$419,000 and US\$531,000, respectively.

401K Plan

The Corporation maintains a 401K plan for eligible United States resident employees. Under this plan, the Corporation must contribute an amount equal to 3% of an employee's current compensation. During the years ended August 31, 2006, 2007 and 2008, the Corporation recorded cash contributions and expenses totaling US\$126,000, US\$166,000 and US\$216,000, respectively.

Deferred Share Unit Grants in Last Financial Year

The aggregate number of Deferred Share Units ("DSUs") credited to non-employee directors during the financial year ended August 31, 2008 and as of November 3, 2008 was 35,162. The estimated value at the time of grant of a DSU is determined based on the highest of the closing prices of the Subordinate Voting Shares on the Toronto Stock Exchange and the NASDAQ National Market on the last trading day preceding the grant date, using the noon buying rate of the Federal Reserve Bank of New York on the grant date to convert the NASDAQ National Market closing price to Canadian dollars, as required. The value at vesting of a DSU is equivalent to the market value of a Subordinate Voting Share when a DSU is converted to such Subordinate Voting Share. As of November 3, 2008, there were a total of 79,185 DSUs credited to directors pursuant to the Deferred Share Unit Plan having an estimated value at the time of grant of US\$416,640 (CA\$461,587).

DSUs attract dividends in the form of additional DSUs at the same rate as dividends on Subordinate Voting Shares. The DSUs are converted and paid in Subordinate Voting Shares at the time a director ceases to be a member of the Board.

Therefore, the value at vesting of a DSU, when converted to Subordinate Voting Shares, is equivalent to the market value of a Subordinate Voting Share at the time the conversion takes place. The table below shows information regarding DSU grants made under the Deferred Share Unit Plan during the financial year ended August 31, 2008 and as of November 3, 2008. See "Report on Executive Compensation by the Human Resources Committee – Long-Term Incentive Compensation – Deferred Share Unit Plan" for a description of the Deferred Share Unit Plan.

Restricted Share Unit Grants in Last Financial Year

The aggregate number of Restricted Share Units (RSUs) granted during the financial year ended August 31, 2008 was 469,847 having a weighted average fair value at the time of grant of US\$5.46 (CA\$5.43) per RSU. The fair value at the time of grant of a RSU is equal to the market value of Subordinate Voting Shares at the time RSUs are granted. At the end of the financial year ended August 31, 2008, there were a total of 847,791 RSUs granted and outstanding pursuant to the Long-Term Incentive Plan having a weighted average fair value at the time of grant of US\$5.62 (CA\$6.05) per RSU. All RSUs first vesting cannot be earlier than the third anniversary date of their grant. Some RSUs granted in the financial year ended August 31, 2008, vest at a rate of 1/2 annually commencing on the third anniversary date of the grants in October 2007, January 2008, April 2008 and July 2008. Some RSUs granted in the financial year ended August 31, 2007, vest at a rate of 1/2 annually commencing on the third anniversary date of the grants in September 2006, January 2007 and July 2007 and others at a rate of 1/3 annually on the third, fourth and fifth anniversary dates of the grants in September 2006, October 2006 and January 2007. Some RSUs granted in the financial year ended August 31, 2006, vest at a rate of 1/2 annually commencing on the third anniversary date of the grant in February 2006 and in June 2006 and others at a rate of 1/3 annually on the third, fourth and fifth anniversary dates of the grant in August 2006. Some RSUs granted in the financial year ended August 31, 2005 vest at a rate of 1/3 annually commencing on the third anniversary date of the grant in February 2005 and others at a rate of 55%, 35% and 10%, on the third, fourth and fifth anniversary dates of the grant in January 2005. Some RSUs granted during the last four financial years vest on the fifth anniversary date of each grant respectively in October 2007, October 2006, December 2005 and in January 2005. However, these RSUs are subject to early vesting on the third and fourth anniversary dates of the grant on the attainment of performance objectives, namely related to long term growth of revenue and profitability, as determined by the Board of Directors of the Corporation. Accordingly, subject to the attainment of performance objectives, the first early vesting is up to 1/3 of the units on the third anniversary date of the grant and the second early vesting is up to 50% of the remaining units on the fourth anniversary date of the grant.

The RSUs are redeemed for actual Subordinate Voting Shares or the equivalent in cash at the discretion of the Board of Directors of the Corporation on the vesting dates established by the Board of Directors of the Corporation at the time of grant in its sole discretion.

Therefore, the value at vesting of a RSU, when converted to Subordinate Voting Shares, is equivalent to the market value of a Subordinate Voting Share at the time the conversion takes place. The table below shows information regarding RSU grants made under the Long-Term Incentive Plan during the financial year ended August 31, 2008. See “Report on Executive Compensation by the Human Resources Committee – Long-Term Incentive Compensation – Long-Term Incentive Plan” for a description of the Long-Term Incentive Plan.

Aggregated RSUs vested in Last Financial Year and Financial Year-End RSU Values

The following table summarizes, for each of the Named Executive Officers, the number of RSUs, if any, vested during the financial year ended August 31, 2008, the aggregate value realized upon vesting and the total number of unvested RSUs, if any, held at August 31, 2008. Value realized upon vesting is the market value of the Subordinate Voting Shares on the vesting date. The value of unvested RSUs at financial year-end is the market value of the Subordinate Voting Shares on August 29, 2008, which was US\$4.20 per share. These values, unlike the amounts set forth in the column "Aggregate Value Realized", have not been and may never be realized. The actual gains on vesting will depend on the value of the Subordinate Voting Shares on the date of vesting. There can be no assurance that these values will be realized. See "Report on Executive Compensation by the Human Resources Committee – Long-Term Incentive Compensation – Long-Term Incentive Plan."

- (2) The value of RSUs is calculated using the highest of the closing prices of the Subordinate Voting Shares on the Toronto Stock Exchange and on the NASDAQ National Market on August 29, 2008 using the noon buying rate of the Federal Reserve Bank of New York to convert the NASDAQ National Market closing price to Canadian dollars, as required.

These values, unlike the amounts set forth in the column “Aggregate Value Realized,” have not been, and may never be, realized. The underlying options have not been, and may never be exercised, and actual gains, if any, on exercise will depend on the value of the Subordinate Voting Shares on the date of exercise. There can be no assurance that these values will be realized. Unexercisable options are those that have been held for less than the time required for vesting. See “Report on Executive Compensation by the Human Resources Committee – Long-Term Incentive Compensation.”

REPORT ON EXECUTIVE COMPENSATION BY THE HUMAN RESOURCES COMMITTEE

Members of the Human Resources Committee

During the financial year ended August 31, 2008, the Human Resources Committee was composed of Michael Unger, as Chairman (until his resignation in June 2008), Pierre Marcouiller, Guy Marier as Chairman per interim for the replacement of Mr. Unger, David A. Thompson and André Tremblay, none of whom were officers or employees, or former officers or employees of the Corporation or its subsidiaries. All of the members of the Human Resources Committee are considered "independent", as defined by the guidelines of the Canadian Securities Administrators.

Human Resources Committee Mandate

The Human Resources Committee of the Board of Directors is responsible for establishing the annual compensation and overseeing the assessment of the performance of all the Corporation's executive officers, including the President and Chief Executive Officer. This Committee also reviews and submits to the Board the salary structure and the short-term and long-term incentive compensation programs for all employees of the Corporation. The Committee also evaluates and makes recommendations to the Board regarding the compensation of directors, including the number of Deferred Share Units credited to the non-employee directors pursuant to the Deferred Share Unit Plan. The Committee's goal is to develop and monitor executive compensation programs that are consistent with strategic business objectives and shareholder interests. Though the Committee is responsible for the review and approval of the employees that will receive Restricted Share Units or options to purchase shares of the Corporation, in accordance with policies established by the Board and the terms of the Long-Term Incentive Plan, these functions have been shared by the Board of Directors and the Human Resources Committee during the period from September 1, 2007 to August 31, 2008.

Since September 1, 2007, the Human Resources Committee held five (5) meetings prior to November 3, 2008, which were attended by all the members of the Committee, except Mr. Marcouiller who was absent at two (2) meetings and Mr. Thompson, Mr. Tremblay and Mr. Unger who were also absent at one (1) meeting.

Key Elements and Policies for Compensation of Executive Officers

The Corporation's executive compensation plans are designed to attract, retain and motivate key executives who directly impact the Corporation's long-term success and the creation of shareholder value. In determining executive compensation, the Committee considers the following four principles:

- **Performance-based:** Executive compensation levels reflect both corporation and individual results based on specific quantitative and qualitative objectives established at the start of each financial year in keeping with Corporation's long-term strategic objectives.
- **Aligned with shareholder interests:** A significant proportion of incentive compensation for executives is composed of equity awards to ensure that executives are aligned with the principles of sustained long-term shareholder value growth.
- **Market competitive:** Compensation of executives is designed to be externally competitive when compared against executives of comparable peer companies, and in consideration of Corporation results relative to the results of peers.
- **Individually equitable:** Compensation levels are also designed to reflect individual factors such as scope of responsibility, experience, and performance against individual measures.

The key elements of the Corporation's 2008 executive compensation program were Base Salary, the Short Term Incentive Plan, and stock-based incentive compensation delivered through the Long Term Incentive Plan. To determine appropriate compensation levels for each pay component, the Committee considered all elements of the executive compensation program. The Committee did not assign specific weightings to any key element of the Corporation's 2008 executive compensation program.

Base Salaries

In establishing the base salaries of senior officers, including the President and Chief Executive Officer, the Corporation takes into consideration responsibilities, job descriptions and salaries paid by other similar Canadian organizations for positions similar in magnitude, scope and complexity. The Committee's objective is to align executive compensation levels with the median compensation offered within a reference group of comparable companies that are similar in size to the Corporation, with a particular focus on those within the High-Technology/Telecommunications and Manufacturing-Durable Goods industries. The Committee reviews the base salary of each senior officer on an annual basis and recommends that the Board approve appropriate adjustments, if required, within the salary range in order to maintain a competitive position within the market place.

Short-Term Incentive Compensation

The short-term incentive plan ("STIP") provides senior executives with the opportunity to earn annual bonuses based on the Corporation's financial performance and the achievement of strategic corporate and business unit objectives established on a yearly basis.

Target payout levels for Named Executive Officers eligible for incentive bonuses in the year ended August 31, 2008 were established to be in line with the objective of the Committee to align compensation with the median compensation offered in the reference group. The minimum, target and maximum payouts to senior officers under the STIP (expressed as a percentage of their base salary) for the financial year ending August 31, 2008 were as follows:

Our President and Chief Executive Officer, Mr. Germain Lamonde, has a short term incentive target of 55% of his annual base salary. That bonus is based on the achievement of financial, strategic and individual objectives as shown in the following table.

Our Chief Financial Officer, Mr. Pierre Plamondon, has a short term incentive target of 35% of his annual base salary. That bonus is based on the achievement of financial, strategic and individual objectives as shown in the following table.

Page 20 of 36

Table of Contents

Our Vice-President, Research and Development, Telecom Division, Mr. Stephen Bull, has a short term incentive target of 30% of his annual base salary. That bonus is based on the achievement of financial, strategic and individual objectives as shown in the following table.

Measure (1)	Weighting Mr. Lamonde, Mr. Plamondon and Mr.	
	Bull	
Sales	35%	
Earnings	15%	
Gross margin	25%	
Customer satisfaction (quality and on time delivery)	25%	
Growth metrics	10%	
Personal objectives (multiplier)	0% - 125%	

(1) Sales, Earnings, Gross margin and Customer satisfaction measures are established to provide a metric from 0% to 150% and such a metric is multiplied by the personal objectives measure. This result is then multiplied by the short term incentive target % of the individual annual base salary.

Our Vice-President, Telecom Sales - International, Mr. Jon Bradley, and Vice-President, Telecom Sales - Americas, Mr. Dana Yearian, do not participate in the short term incentive plan that is available to the company's other senior executives. Instead, Mr. Bradley and Mr. Yearian participate in the company's sales incentive plan (SIP). Under the SIP, Mr. Bradley and Mr. Yearian have target incentives of 40% of their annual base salaries. The SIP is based 40% on the achievement of revenue targets (billings), 40% on margin targets and 20% on management objectives.

Long-Term Incentive Compensation

Long-Term Incentive Plan

The principal component of the long-term incentive compensation offered by the Corporation is made up of the Long-Term Incentive Plan for directors, officers, employees and consultants of the Corporation and its subsidiaries. As disclosed under the caption "Restricted Share Unit Grants in Last Financial Year", the Named Executive Officers were granted RSUs during the last fiscal year. The Corporation did not take into account the amount and terms of outstanding options or RSUs neither the restrictions on resale of such units, when determining the grant mentioned above.

Introduced in May 2000, amended in October 2004 and effective in January 2005, the Long-Term Incentive Plan is designed to provide directors, officers, employees and consultants with an incentive to create value and accordingly ensures that their interests are aligned with those of the Corporation's shareholders. The LTIP is subject to Human Resources Committee review to ensure maintenance of its market competitiveness. The Board has full and complete authority to interpret the Plan and to establish the rules and regulations applying to it and to make all other determinations it deems necessary or useful for the administration of the Plan, provided that such interpretations, rules, regulations and determinations are consistent with the rules of all stock exchanges on which the securities of the Corporation are then traded and with all relevant securities legislation.

The Long-Term Incentive Plan provides for the issuance of options to purchase Subordinate Voting Shares and the issuance of Restricted Share Units ("RSUs") redeemable for actual Subordinate Voting Shares or the equivalent in cash to directors, officers, employees and consultants. The Board of Directors upon recommendation of the Human Resources Committee designates the recipients of options or RSUs and determines the number of Subordinate Voting

Shares covered by each option or RSU, the dates of vesting, the expiry date and any other conditions relating to these options or RSUs, in each case in accordance with the applicable legislation of the securities regulatory authorities. During the financial year ended August 31, 2008, target awards for eligible officers under the LTIP were established to be in line with the objective of the Committee to align compensation with the median compensation offered in the reference group. A portion of the target RSU awards are fixed, in order to encourage executive retention over the longer term, and the balance are made at, above, or below target levels based on merit, as determined by each executive's individual performance over the previous year.

Table of Contents

The exercise price of the options is determined by the Board of Directors at the time of granting the options, subject to compliance with the rules of all stock exchanges on which the Subordinate Voting Shares are listed and with all relevant securities legislation. In any event, the price at which the Subordinate Voting Shares may be purchased may not be lower than the highest of the closing prices of the Subordinate Voting Shares on the Toronto Stock Exchange and the NASDAQ National Market on the last trading day preceding the grant date, using the noon buying rate of the Federal Reserve Bank of New York on the grant date to convert the NASDAQ National Market closing price to Canadian dollars. Any option issued is non-transferable. At the end of financial year ended August 31, 2008, there were a total of 1,821,481 options granted and outstanding pursuant to the Long-Term Incentive Plan having a weighted average exercise price of US\$13.83 (CA\$20.66).

The fair value at the time of grant of a RSU is equal to the market value of Subordinate Voting Shares at the time RSUs are granted. At the end of financial year ended August 31, 2008, there were a total of 847,791 RSUs granted and outstanding pursuant to the Long-Term Incentive Plan having a weighted average fair value at the time of grant of US\$5.62 (CA\$6.05) per RSU.

The maximum number of Subordinate Voting Shares that are issuable under the Plan shall not exceed 6,306,153 Subordinate Voting Shares, which represents 9.4% of the Corporation's issued and outstanding voting shares as of November 3, 2008. The maximum number of Subordinate Voting Shares that may be granted to any one individual shall not exceed 5% of the number of outstanding Subordinate Voting Shares.

Some options granted to Directors and employees vest on the first anniversary date of their grant. Some options granted in the financial year ended August 31, 2004 and 2005 vest at a rate of 12.5% six (6) months after the date of grant, 12.5% twelve (12) months after the date of grant and 25% annually thereafter commencing on the second anniversary date of the grant in October 2005. Otherwise all options vest a rate of 25% annually commencing on the first anniversary date of the grant. All options may be exercised in whole or in part once vested. All of the options that are granted under the Plan must be exercised within a maximum period of ten (10) years following the date of their grant or they will be forfeited.

All RSUs first vesting cannot be earlier than the third anniversary date of their grant. Some RSUs granted in the financial year ended August 31, 2008, vest at a rate of 1/2 annually commencing on the third anniversary date of the grants in October 2007, January 2008, April 2008 and July 2008. Some RSUs granted in the financial year ended August 31, 2007, vest at a rate of 1/2 annually commencing on the third anniversary date of the grants in September 2006, January 2007 and July 2007 and others at a rate of 1/3 annually on the third, fourth and fifth anniversary dates of the grants in September 2006, October 2006 and January 2007. Some RSUs granted in the financial year ended August 31, 2006 vest at a rate of 1/2 annually commencing on the third anniversary date of the grant in February 2006 and in June 2006 and others at a rate of 1/3 annually commencing on the third anniversary date of the grant in August 2006. Some RSUs granted in the financial year ended August 31, 2005 vest at a rate of 1/3 annually commencing on the third anniversary date of the grant in February 2005 and others at a rate of 55%, 35% and 10%, on the third, fourth and fifth anniversary dates of the grant in January 2005. Some RSUs granted during the last four financial years vest on the fifth anniversary date of each grant respectively in October 2007, October 2006, December 2005 and in January 2005. However, these RSUs are subject to early vesting on the third and fourth anniversary dates of the grant on the attainment of performance objectives, namely related to long term growth of revenue and profitability, as determined by the Board of Directors of the Corporation. Accordingly, subject to the attainment of performance objectives, the first early vesting is up to 1/3 of the units on the third anniversary date of the grant and the second early vesting is up to 50% of the remaining units on the fourth anniversary date of the grant. If such vesting date falls into any black-out period or any other restrictive period during which the RSU holder is not entitled to trade the Corporation's Subordinate Voting Shares, then the units shall vest on the first trading day the RSU holder is entitled to trade after such black-out period or restrictive period.

Compensation of Chief Executive Officer

In establishing Mr. Lamonde's compensation for the year ending August 31, 2008, the Corporation relied on a study completed by an independent consulting firm (Mercer Human Resource Consulting). Such study indicated average salaries and bonuses, median salaries and bonuses and maximum salaries and bonuses paid to chief executive officers by Canadian and American computer hardware and software companies as well as by a specific group of companies active in the fiber optics industry identified by the Corporation that it considers to be the best available comparisons. It

was decided that Mr. Lamonde's compensation should reflect the median of Canadian computer hardware and software companies and of the specific group of companies in fiber optics identified by the Corporation. In the financial year ended August 31, 2008, Mr. Lamonde's compensation was adjusted accordingly.

Table of Contents

In the financial year ended August 31, 2008, the bonus portion of Mr. Lamonde's compensation was tied to the financial and strategic objectives of the Corporation based on the following factors:

Measure (1)	Weighting ALL
Sales	35%
Earnings	15%
Gross margin	25%
Customer satisfaction (quality and on time delivery)	25%
Growth metrics	10%
Personal objectives (multiplier)	0% - 125%

(1) Sales, Earnings, Gross margin and Customer satisfaction measures are established to provide a metric from 0% to 150% and such a metric is multiplied by the personal objectives measure. This result is then multiplied by the short term incentive target % of the individual annual base salary.

Mr. Lamonde's bonus is payable in the same proportion at which the Corporation attains such objectives. When the objectives are exceeded, the bonus is higher; when objectives are not met, the bonus is lower.

Deferred Share Unit Plan

Introduced in October 2004 and effective as of January 2005, the Deferred Share Unit Plan is designed to align more closely the interests of its non-employee directors with those of the Corporation's shareholders.

Under the Deferred Share Unit Plan, non-employee directors shall receive up to 100 % of their retainer fees in the form of Deferred Share Units ("DSUs"), each of which has an estimated value determined based on the highest of the closing prices of the Subordinate Voting Shares on the Toronto Stock Exchange and the NASDAQ National Market on the last trading day preceding the grant date, using the noon buying rate of the Federal Reserve Bank of New York on the grant date to convert the NASDAQ National Market closing price to Canadian dollars, as required. The value at vesting of a DSU is equivalent to the market value of a Subordinate Voting Share when a DSU is converted to such Subordinate Voting Share. The value of a DSU, when converted to Subordinate Voting Shares, is equivalent to the market value of a Subordinate Voting Share at the time the conversion takes place. DSUs attract dividends in the form of additional DSUs at the same rate as dividends on Subordinate Voting Share. When a director ceases to be a member of the Board, the DSUs are either converted and paid in Subordinate Voting Shares purchased on the open market or issued by the Corporation. Such Subordinate Voting Shares issued by the Corporation will be issued from the same pool of Subordinate Voting Shares reserved for issuance pursuant to the Long-Term Incentive Plan, which is 9.4% of the total issued and outstanding voting shares.

The following table summarizes information about DSUs granted to the non-employee members of the Board of Directors as at November 3, 2008:

	Number of DSUs	% of Issued and Outstanding DSUs	Weighted Average Estimated Value at the Time of Grant \$US/DSU
Board of Directors (five individuals)	79,185	100%	5.26

Edgar Filing: EXFO ELECTRO OPTICAL ENGINEERING INC - Form 6-K

The following table summarizes information about DSUs converted and paid in Subordinate Voting Shares when a director ceased to be a member of the Board as at November 3, 2008:

Name	Number of DSUs converted	Aggregate Value Realized (US\$) (1)
Michael Unger	20,695	88,894

(1) The aggregate value realized is equivalent to the market value of the securities underlying the DSUs at conversion. This value, as the case maybe, has been converted from Canadian dollars to U.S. dollars based upon the average foreign exchange rate on the day of conversion.

Stock Appreciation Rights Plan

On August 4, 2001, the Corporation established a Stock Appreciation Rights Plan (“SAR Plan”) for the benefit of certain employees residing in countries where the granting of options under the Long-Term Incentive Plan is not feasible in the opinion of the Corporation. The Board has full and complete authority to interpret the SAR Plan and to establish the rules and regulations applying to it and to make all other determinations it deems necessary or useful for the administration of the SAR Plan.

Under the SAR Plan, eligible employees are entitled to receive a cash amount equivalent to the difference between the market price of the Subordinate Voting Shares on the date of exercise and the exercise price determined on the date of grant. No Subordinate Voting Shares are issuable under the SAR Plan.

The Board of Directors has delegated to Management the task of designating the recipients of stock appreciation rights, the date of vesting, the expiry date and other conditions. Under the terms of the SAR Plan, the exercise price of the stock appreciation rights may not be lower than the highest of the closing prices of the Subordinate Voting Shares on the Toronto Stock Exchange and on the NASDAQ National Market on the last trading day preceding the grant date, using the noon buying rate of the Federal Reserve Bank of New York on the grant date to convert the NASDAQ National Market closing price to Canadian dollars. Stock appreciation rights are non-transferable.

The stock appreciation rights vest over a four-year period, with 25% vesting annually commencing on the first anniversary date of the date of grant. However, since October 2007, some stock appreciation rights vest at a rate of 50% annually commencing on the third anniversary date of the grants in October 2007 and October 2008. Once vested, stock appreciation rights may be exercised between the second and the fifteenth business day following each release of the Corporation’s quarterly financial results. All of the stock appreciation rights that are granted under the SAR Plan may be exercised within a maximum period of 10 years following the date of their grant. Any stock appreciation rights granted under the SAR Plan will lapse immediately upon the termination of the relationship with the Corporation or one of its subsidiaries for a good and sufficient cause or at the date on which an employee resigns or leaves his employment with the Corporation or one of its subsidiaries (or within 30 days if the holder is dismissed without cause). In the event of retirement or disability, any stock appreciation right held by an employee lapses 30 days after the date of any such disability or retirement. In the event of death, any stock appreciation right lapses 6 months after the date of death.

Compensation Plan Control and Review

As a general practice, the Corporation’s relative position in terms of compensation levels is determined annually through studies performed by independent consulting firms using a selected reference market of comparable companies. In addition, internal pay equity studies are a key factor to complete the compensation review process and indicate where necessary adjustments may be required. During the fiscal year ended August 31, 2008, this practice continued and certain compensation adjustments that became necessary were made.

Conclusion

By way of application of the Corporation’s executive compensation policy, an important part of executive compensation is linked to corporate performance and long-term value creation. The Human Resources Committee continuously reviews executive compensation programs to ensure that they maintain their competitiveness and continue to focus on the Corporation’s objectives, values and business strategies.

Depending on specific circumstances, the Committee may also recommend employment terms and conditions that deviate from the policies and the execution by the Corporation or its subsidiaries of employment contracts on a

case-by-case basis.

REPORT ON CORPORATE GOVERNANCE PRACTICES

Recent Corporate Governance Developments in Canada

In January 2004, the Canadian Securities Administrators (the “CSA”) adopted Multilateral Instrument 52-110 — Audit Committees, which was amended as of June 30, 2005 (“MI 52-110”). MI 52-110 sets forth certain requirements regarding audit committee composition and responsibilities, as well as reporting obligations with respect to audit-related matters. The disclosure of the MI 52-110 requirements is included in our 2008 Annual Information Form in Form 20-F available as described below.

Effective June 30, 2005, the CSA also adopted National Instrument 58-101 — Disclosure of Corporate Governance Practices (“NI 58-101”) and National Policy 58-201 — Effective Corporate Governance (“NP 58-201” and, together with MI 52-110, the “CSA Corporate Governance Standards”). NP 58-201 provides guidance to Canadian issuers with respect to corporate governance practices, while NI 58-101 requires issuers to make certain disclosures regarding their governance practices. The CSA Corporate Governance Standards, particularly NI 58-101 and NP 58-201, have replaced the former guidelines of the Toronto Stock Exchange that had, prior to the coming into force of the CSA Corporate Governance Standards, served as the primary source of codified recommendations in respect of corporate governance practices in Canada.

EXFO’s Corporate Governance Practices

In accordance with NI 58-101, we are required to disclose information with respect to our system of corporate governance. Over the past few years, we have undertaken a comprehensive review of our corporate governance practices in order to best comply with and, whenever practicable, exceed the CSA Standards.

We adopted in March 2005 and updating on a regular basis a number of charters and policies, including an Audit Committee Charter; a Board of Directors Corporate Governance Guidelines, a Code of Ethics for our Principal Executive Officer and Senior Financial Officers, a Disclosure Guidelines, an Ethics and Business Conduct Policy, a Human Resources Committee Charter, a Securities Trading Policy and a Statement on Reporting Ethical Violations (Whistle Blower). We also adopted in October 2006 a policy regarding Hiring Employees and Former Employees of Independent Auditor. We are also implementing best practices such as, Best Practice regarding the Granting base of Stock Incentive Compensation. We refer to our Board and Committee Charters as our “Corporate Governance Rules”.

We are of the view that adopting and implementing good corporate governance practices is a cornerstone of our corporate and management practices and policies and that our existing corporate governance practices already meet or surpass the prevailing corporate governance standards. We further believe that the measures we have adopted with respect to corporate governance comply substantially with the CSA Standards.

We encourage our shareholders to consult our Corporate Governance Rules and Ethics and Business Conduct Policy available on our website at www.EXFO.com and also available in print to any shareholder who requests copies by contacting our Corporate Secretary.

Our 2008 Annual Information Form in Form 20-F (also filed with the SEC), which will be available on or before November 28, 2008 and which may be obtained upon request from our Corporate Secretary or at www.sedar.com, will also contain certain information with respect to our corporate governance practices.

We are dedicated to updating our corporate governance practices on an ongoing basis in order to respond to the evolution of best practices. We and our Board of Directors are of the view that our corporate governance practices, as summarized in the Schedule A attached to this Management Proxy Circular, are in substantial compliance with the

CSA Corporate Governance Standards. Copies of our Corporate Governance Rules and all related policies (including those mentioned above) are available on our website at www.EXFO.com as mentioned in Schedule A.
