Notes to Condensed Consolidated Financial Statements

1. Organization and Basis of Presentation

HealthWarehouse.com, Inc. (“HEWA” or the “Company”), a Delaware company incorporated in 1998, is America’s Trusted Online Pharmacy, licensed in 50 states to focus on the out-of-pocket prescription drug market. The Company is Verified Internet Pharmacy Practice Site (“VIPPS”) accredited by the National Association of Boards of Pharmacy (“NABP”). The Company markets a complete range of generic, brand name, and pet prescription medications as well as over-the-counter (“OTC”) medications and products.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”) for interim financial information. Accordingly, they do not include all of the information and disclosures required by U.S. GAAP for annual financial statements. In the opinion of management, such statements include all adjustments (consisting only of normal recurring items) which are considered necessary for a fair presentation of the condensed consolidated financial statements of the Company as of September 30, 2015 and for the nine months ended September 30, 2015 and 2014. The results of operations for the nine months ended September 30, 2015 are not necessarily indicative of the operating results for the full year ending December 31, 2015 or any other period. These condensed consolidated financial statements should be read in conjunction with the consolidated financial statements and related disclosures of the Company as of December 31, 2014 and for the year then ended, which were filed with the Securities and Exchange Commission on Form 10-K on March 30, 2015.

2. Going Concern and Management’s Liquidity Plans

Since inception, the Company has financed its operations primarily through debt and equity financings and advances from related parties. As of September 30, 2015, the Company had a working capital deficiency of \$4,251,296 and an accumulated deficit of \$30,895,820. During the nine months ended September 30, 2015 and the year ended December 31, 2014, the Company incurred net losses of \$443,073 and \$1,783,279, respectively, and used cash in operating activities of \$407,825 and \$875,769, respectively. These conditions raise substantial doubt about the Company’s ability to continue as a going concern.

On August 27, 2015, a vendor of the Company was granted an order of garnishment against the Company’s funds held in a bank account in the amount of \$83,766 for an unpaid debt, accordingly, such amount has been classified as restricted cash as of September 30, 2015. On September 16, 2015, the Company’s senior lender filed a motion with the court to intercede in the garnishment action on the grounds that it has a superior lien on the funds which was granted at a hearing on October 6, 2015. In addition, as a result of the garnishment action, the senior lender notified the Company that an event of default has occurred on its senior note and the loan is in default and immediately payable. As of the date of this filing, the senior lender has not imposed the default rate of interest but has the right to at any time while the note is in default. The Company is working with the senior lender to cure the default. See Note 5 Notes Payable and Note 10 Subsequent Events.

Subsequent to September 30, 2015, the Company raised an aggregate of \$250,000 in debt financing and continues to incur net losses, use cash in operating activities and experience cash and working capital constraints.

On February 13, 2013, the Company received a Notice of Redemption related to its Series C Redeemable Preferred Stock aggregating \$1,000,000 (see Note 6). As a result of receiving the Notice of Redemption, the Company must now apply all of its assets to redemption of the Series C Preferred Stock and to no other corporate purpose, except to the extent prohibited by Delaware law governing distributions to stockholders (the Company is not permitted to utilize toward the redemption those assets required to pay its debts as they come due and those assets required to continue as a going concern).

The Company recognizes it will need to raise additional capital in order to fund operations, meet its payment obligations and execute its business plan. There is no assurance that additional financing will be available when needed or that management will be able to obtain financing on terms acceptable to the Company and whether the Company will become profitable and generate positive operating cash flow. If the Company is unable to raise sufficient additional funds, it will have to develop and implement a plan to further extend payables, attempt to extend note repayments, attempt to negotiate the preferred stock redemption and reduce overhead until sufficient additional capital is raised to support further operations. There can be no assurance that such a plan will be successful. If the Company is unable to obtain financing on a timely basis, the Company could be forced to sell its assets, discontinue its operation and /or seek reorganization under the U.S. bankruptcy code.

Table of Contents

Accordingly, the accompanying condensed consolidated financial statements have been prepared in conformity with U.S. GAAP, which contemplates continuation of the Company as a going concern and the realization of assets and the satisfaction of liabilities in the normal course of business. The carrying amounts of assets and liabilities presented in the condensed consolidated financial statements do not necessarily represent realizable or settlement values. The condensed consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

3. Summary of Significant Accounting Policies

Principles of Consolidation

The condensed consolidated financial statements include the accounts of HealthWarehouse.com, Inc., Hwareh.com, Inc., Hocks.com, Inc., ION Holding NV and ION Belgium NV, its wholly-owned subsidiaries. ION Holding NV and ION Belgium NV are inactive subsidiaries. All material inter-company balances and transactions have been eliminated in consolidation.

On June 4, 2013, the Company formed a wholly-owned subsidiary called Pagosa Health LLC (“Pagosa”). On January 14, 2014, the Company closed Pagosa to focus on its core consumer prescription business. Pagosa was dissolved in July 2014.

Use of Estimates

The preparation of condensed consolidated financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. The Company’s significant estimates include reserves related to accounts receivable and inventory, the recoverability and useful lives of long-lived assets, the valuation allowance related to deferred tax assets, the valuation of equity instruments and debt discounts.

Net Earnings (Loss) Per Share of Common Stock

Basic net earnings (loss) per share is computed by dividing net earnings (loss) attributable to Common Stockholders by the weighted average number of common shares outstanding during the period. Diluted net earnings (loss) per share reflects the potential dilution that could occur if securities or other instruments to issue Common Stock were exercised or converted into Common Stock. Potentially dilutive securities are excluded from the computation of diluted net earnings (loss) per share if their inclusion would be anti-dilutive and consist of the following:

	2015	September 30, 2014
Options	5,266,128	2,601,700
Warrants	9,976,474	8,032,378
Series B Convertible Preferred Stock	5,507,202	4,844,143
Total potentially dilutive shares	20,749,804	15,478,221

Recently Issued Accounting Pronouncements

In April 2015, the FASB issued ASU No. 2015-03 (ASU 2015-03), Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. This standard amends the existing guidance to require that debt issuance costs be presented in the balance sheet as a deduction from the carrying amount of the related debt liability instead of as a deferred charge. ASU 2015-03 is effective on a retrospective basis for annual and interim reporting periods beginning after December 15, 2015, but early adoption is permitted. The adoption of this standard is not expected to have a material impact on the Company's condensed consolidated financial position and results of operations.

The Company has determined there are no other new accounting standards that are expected to have a material impact on the Company's condensed consolidated financial statements.

Total	\$ 522,853	\$ 680,506

5. Notes Payable

The Company is a party to a Loan and Security Agreement (the "Loan Agreement") with a lender (the "Lender"). Under the terms of the Loan Agreement, the Company borrowed an aggregate of \$750,000 from the Lender (the "Loan"). The Loan is evidenced by a promissory note (the "Senior Note") in the face amount of \$750,000 (as amended). Effective March 1, 2015, near the original maturity date, the Lender agreed to extend the maturity date of the Senior Note from March 1, 2015 to September 1, 2015 and agreed to extend the maturity date for an additional six months to March 1, 2016 if the Company met certain financial requirements which were not met. Effective September 1, 2015, the Lender agreed to extend the maturity date of the Senior note to November 1, 2015. The Senior Note bears interest on the unpaid principal balance of the Note until the full amount of principal has been paid at a floating rate equal to the Prime Rate plus four and one-quarter percent (4.25%) per annum (7.50% as of September 30, 2015). Under the terms of the Loan Agreement, the Company has agreed to make monthly payments of accrued interest on the first day of every month. The principal amount and all unpaid accrued interest on the Note is payable on November 1, 2015, or earlier in the event of default or a sale or liquidation of the Company. See Note 10 Subsequent Events. The Loan may be prepaid in whole or in part at any time by the Company without penalty. The Senior Note contains financial covenants which require the Company to meet certain minimum targets for earnings before interest, taxes and non-cash expenses, including depreciation, amortization and stock-based compensation ("EBITDAS"). The Company granted the Lender a first, priority security interest in all of the Company's assets, in order to secure the Company's obligation to repay the Loan, including a Deposit Account Control Agreement, which grants the Lender a security interest in certain bank accounts.

On August 27, 2015, a vendor of the Company was granted an order of garnishment against the Company's funds held in a bank account in the amount of \$83,766 for an unpaid debt, accordingly, such amount has been classified as restricted cash as of September 30, 2015. On September 16, 2015, the Company's Lender filed a motion with the court to intercede in the garnishment action on the grounds that it has a superior lien on the funds which was granted at a hearing on October 6, 2015. In addition, as a result of the garnishment action, the Lender notified the Company that an event of default has occurred on the Senior Note and the Loan is in default and immediately payable. The Company is working with the Lender to cure the default.

In connection with the extension of the maturity date of the Senior Note, the Company granted the Lender five-year warrants to purchase 500,000 shares of Common Stock at an exercise price of \$0.10 per share. The warrants had a fair value of \$41,300 using the Black-Scholes model (see Note 6) which was established as debt discount during the nine months ended September 30, 2015 and will be amortized using the effective interest method over the remaining term of the Senior Note. Including the value of warrants issued in connection with extension of the maturity date of the Senior Note, the Note had an effective interest rate of 19% per annum.

The Company recorded amortization of debt discount associated with notes payable of \$18,367 and \$98,134 during the three and nine months ended September 30, 2015, respectively, and \$64,865 and \$182,766 for the three and nine months ended September 30, 2014, respectively.

Effective July 23, 2015, the Company reached a settlement agreement with a shareholder that holds a note payable in the amount of \$42,095, plus accrued interest, with a maturity date of May 31, 2014. The Company has agreed to pay twelve monthly payments of \$4,099 on the first of each month starting on August 1, 2015 to fully satisfy its obligations under the note payable. During the three and nine months ended September 30, 2015, the Company made payments of \$8,197.

6. Stockholders' Deficiency

Preferred Stock

As of September 30, 2015 and December 31, 2014, the Company had accrued cumulative contractual dividends of \$239,882 and \$298,918, respectively, related to the Series B Preferred Stock. On January 1, 2015 and 2014, the Company issued 31,633 and 29,564 shares of Series B convertible preferred stock valued at approximately \$299,000 and \$279,000, respectively, representing approximately \$0.66 in value per share of Series B Preferred Stock outstanding on each date, to the Series B convertible preferred stock owners as payment in kind for dividends.

Stock Options

Valuation

In applying the Black-Scholes option pricing model to stock options, the Company used the following weighted average assumptions:

	For The Three Months Ended September 30,		For The Nine Months Ended September 30,	
	2015	2014	2015	2014
Risk free interest rate	1.74% to 2.28%	0.97% to 1.75%	1.35% to 2.28%	0.97% to 1.75%
Dividend yield	0.00%	0.00%	0.00%	0.00%
Expected volatility	196.0 to 197.0%	190.0%	195.0% to 197.0%	190.0%
Expected life in years	5.5 to 10.0	3.0 to 5.5	5.5 to 10.0	3.0 to 5.5

Grants

The weighted average fair value of the stock options granted during the three and nine months ended September 30, 2015 was \$0.12 and \$0.10 per share, respectively. The weighted average fair value of the stock options granted during the three and nine months ended September 30, 2014 was \$0.17 per share.

During the nine months ended September 30, 2015, the Company granted options to employees and directors of the Company to purchase an aggregate of 1,865,633 shares of common stock under the 2014 Plan at a weighted average exercise price of \$0.10 per share for an aggregate grant date value of \$184,860. The options have a vesting period ranging from immediate to three years and have a term of ten years.

During the nine months ended September 30, 2015, the Company granted options to consultants of the Company to purchase an aggregate of 349,861 shares of common stock under the 2014 Plan at a weighted average exercise price of \$0.11 per share for an aggregate grant date value of \$37,423. The options have a vesting period ranging from immediate to three years and have a term of ten years.

Stock-based compensation expense related to stock options was recorded in the condensed consolidated statements of operations as a component of selling, general and administrative expenses and totaled \$59,525 and \$245,814 for the

three and nine months ended September 30, 2015, respectively, and \$99,940 and \$358,144 for the three and nine months ended September 30, 2014, respectively. Option forfeitures are estimated at the time of valuation and reduce expense ratably over the vesting period. This estimate will be adjusted periodically based on the extent to which actual option forfeitures differ, or are expected to differ, from the previous estimate, when it is material. The Company estimated forfeitures related to option grants at an annual rate of 4% for options granted during the nine months ended September 30, 2015.

Table of Contents

As of September 30, 2015, stock-based compensation expense related to stock options of \$1,063,062 remains unamortized, including \$171,493 which is being amortized over the weighted average remaining period of 2.0 years. The remaining \$891,569 is related to a performance based option where vesting is currently deemed to be improbable and no amount is being amortized.

7. Commitments and Contingent Liabilities

Operating Leases

The Company is a party to a lease agreement dated June 15, 2011 for approximately 62,000 square feet of office and storage space with an entity. On December 15, 2014, the Company entered into a sublease agreement for 34,106 square feet of warehouse space at the Company's corporate headquarters in Florence, Kentucky. The sublease, which required rent of \$9,948 per month, was terminated by the Company on the original expiration date of June 14, 2015. On April 27, 2015, the Company entered in an amendment to the lease agreement which reduced the square feet of office and storage space to approximately 28,500 square feet, effective June 15, 2015. Per the amendment, the monthly lease rate reduced to \$7,770 in June 2015, \$4,868 for the remainder of 2015 and \$5,462 in year 2016. The Company accounts for rent expense using the straight line method of accounting, deferring the difference between actual rent due and the straight line amount. The Company will amortize the balance of the remaining deferred rent payable related to the original lease over the remaining life of the amended lease term. The lease expires on January 1, 2017. Deferred rent payable of \$28,402 and \$36,053 as of September 30, 2015 and December 31, 2014, respectively, has been included in accrued expenses and other current liabilities on the condensed consolidated balance sheets.

On June 7, 2013, Pagosa signed a three year lease for \$1,000 per month to house an office, pharmacy as well as inventory and is located in Lawrenceburg, IN. On July 8, 2013, the parties agreed to extend the lease for two additional years, such that the new termination date is now June 7, 2018. On January 14, 2014, the Company closed Pagosa and vacated the Lawrenceburg facility. The Company is currently in discussions with the Landlord regarding termination of the lease related to the building. The present value of the remaining lease payments of \$49,102 is reflected as a component of accrued expenses and other liabilities on the condensed consolidated financial statements as of September 30, 2015.

Future minimum payments, by year and in the aggregate, under operating leases as of September 30, 2015 are as follows:

For years ending December 31,	Amount
2015	\$ 17,604
2016	77,544
2017	12,000
2018	5,000
Total future minimum lease payments	\$ 112,148

During the three and nine months ended September 30, 2015, the Company recorded aggregate rent expense of \$23,536 and \$85,151, respectively, and \$66,820 and \$210,140 during the three and nine months ended September 30, 2014, respectively.

Litigation

In the ordinary course of business, we may become subject to lawsuits and other claims and proceedings that might arise from litigation matters or regulatory audits. Such matters are subject to uncertainty and outcomes are often not predictable with assurance. Our management does not presently expect that any such matters will have a material adverse effect on the Company's condensed consolidated financial condition or condensed consolidated results of operations. We are not currently involved in any pending or threatened material litigation or other material legal proceedings nor have we been made aware of any penalties from regulatory audits.

8. Concentrations

During the three months ended September 30, 2015, two vendors represented 61% and 11% of total inventory purchases, and 67% and 11% of total inventory purchases for the nine months ended September 30, 2015. During the three months ended September 30, 2014, two vendors represented 76% and 12% of total inventory purchases, and 68% and 14% of total inventory purchases for the nine months ended September 30, 2014. Two vendors represented 40% and 12% of the accounts payable balance as of September 30, 2015 and 36% and 11% as of December 31, 2014. One customer represented 6% and 22% of the accounts receivable balance as of September 30, 2015 and December 31, 2014, respectively.

9. Related Party Transactions

Effective September 4, 2014, the Company entered into a consulting agreement with a stockholder to provide consulting services related to business development and marketing activities for the Company and other duties as agreed to by management. The Company is required to pay the related party a monthly fee of \$10,000 plus expense reimbursement. Subsequent to the effective date, the related party agreed to defer the payment of the monthly fee for a period of four months beginning with the November 4, 2014 payment. The deferred fees will be payable on the earlier of the termination date or the second anniversary of the effective date. The consulting agreement has an initial term of one year and can be automatically renewed for a one year period unless terminated by either party. The Agreement may be terminated by the Company by providing a sixty day notice prior to the first anniversary of the effective date. On July 6, 2015, the Company notified the related party of its intent to terminate the contract effective September 4, 2015. During the three and nine months ended September 30, 2015, the Company incurred consulting and other expenses of \$20,000 and \$100,000, respectively, and paid \$20,000 and \$60,000, respectively, related to the consulting agreement.

Between June 2009 and April 2012, an employee who is the son of the managing member of a limited liability company that beneficially owns over 5% of the Company's Common Stock received advances from the Company in various forms which totaled \$391,469 including interest. Principal repayments towards the outstanding advances aggregating \$235,000 have been made through March 31, 2014. In April 2012, this employee voluntarily resigned from the Company. The individual agreed to repay the remaining balance with interest based on prime rate on the first business day of the calendar quarter. The amount has been included in Stockholders' Deficiency as the Company has determined to exercise its rights through a pledge agreement for 42,860 shares as collateral. At December 31, 2014, the Company estimated the value of the collateral at \$2,143. During the nine months ended September 30, 2015, the Company wrote off the value of the collateral to \$0.

10. Subsequent Events

The Company evaluates events that have occurred after the balance sheet date but before the financial statements are issued. Based upon the evaluation, the Company did not identify any recognized or non-recognized subsequent events that would have required adjustment or disclosure in the condensed consolidated financial statements, except as disclosed.

Option Grants

On October 10, 2015, the Company granted options to directors of the Company to purchase an aggregate of 275,706 shares of common stock under the 2014 Plan at an exercise price of \$0.10 per share for an aggregate grant date value of \$27,000. The options vested on the grant date and have a term of ten years. The options were granted as part of director compensation approved by the Compensation Committee.

Notes Payable

On November 11, 2015, the Company entered into a Loan Extension Agreement and an Amended and Restated Promissory Note with its Lender, effective November 1, 2015, which extended the maturity date of the Senior Note from October 31, 2015 to December 31, 2015 and increased the face amount of the Senior Note from \$750,000 to \$1,000,000 (November 2015 Note). The material November 2015 Note terms are unchanged from the Senior

Note. In consideration of the Lender providing additional funds and entering into the November 2015 Note, the Company granted the Lender a five-year warrant to purchase 250,000 shares of Common Stock at an exercise price of \$0.12 per share. In addition, the exercise price on 375,000 previously issued warrants was modified from \$0.35 to \$0.12. The warrant contains customary anti-dilution provisions.

	\$ 1,689,457	14.5	%	\$ 1,474,986

Net sales for the three months ended September 30, 2015 increased to \$1,689,457 from \$1,474,986, an increase of \$214,471, or 14.5%, resulting from growth in core prescription and over-the-counter sales offset by a reduction in business-to-business sales. Core over-the-counter revenue grew 40.3% and orders grew by 44.3% due to advertising efforts and improved order fulfillment rates and customer satisfaction. Core prescription orders grew 17.3% as new customers grew 70.3% and repeat customers grew 22.1%, continuing the reversal of the downward trend experienced during 2014 due to lack of advertising efforts in the first three quarters of 2014.

With the liquidity provided by proceeds from the equity raise in 2014, the Company was able to purchase products in a timely manner and carry inventory of high sales volume products to fill incoming orders and improved order fill rate to less than three days for core prescription orders from the receipt of the order and under one and one-half days for over-the-counter orders. We believe this has resulted in a significant increase in positive customer reviews from both new and repeat customers.

The Company plans to continue to focus on customer acquisition, conversion and retention. The Company believes this strategy has helped to increase new customers by 70.3% and overall orders by 25.9% during the third quarter of 2015 compared to levels experienced prior to the completion of the equity raise. The Company believes repeat customers will also continue to grow through the retention of the new customers acquired over the past twelve months.

Cost of sales were \$604,153 for the three months ended September 30, 2015 as compared to \$600,840 for the three months ended September 30, 2014, an increase of \$3,313, or 0.6%, primarily as a result of increased order volume offset by improved costs realized through strategic purchasing efforts. Gross margin percentage increased from 59.3% for the three months ended September 30, 2014 to 64.2% for the three months ended September 30, 2015, primarily due to the purchasing efforts discussed above and improved margins in core prescription and over-the-counter products. Management will continue to focus efforts on strategic purchasing opportunities and maintaining profit margins while expanding its product line, particularly in the over-the-counter business.

Selling, general and administrative expenses totaled \$1,211,401 for the three months ended September 30, 2015 compared to \$1,317,775 for the three months ended September 30, 2014, a decrease of \$106,374, or 8.1%. The three months ended September 30, 2015 expense decreases included (a) a decrease in stock based compensation of \$174,600; (b) a decrease in contract labor and accounting services expense of \$71,316 (primarily due to the reduction of use of outside consultants); (c) a decrease in rent expense of \$43,284 (resulting from the amendment of the lease reducing the rented space and monthly rent related to our Florence facility); (d) a decrease in legal expense of \$33,792 (primarily due to fees related to the preparation of materials for the 2014 annual meeting and settlement of litigation in 2014); and (e) a decrease in shareholder expense of \$30,937 (primarily due to costs associated with 2014 annual meeting). These expense increases were partially offset by (a) an increase in advertising and marketing expense of \$173,324 to support sales growth; (b) an increase in salary and payroll tax expense of \$36,136 (primarily an increase in pharmacy and customer support personnel to support sales growth); and (c) an increase in shipping expense of \$34,389 (primarily due to higher sales volume).

Interest Expense

Interest expense decreased from \$86,628 in the three months ended September 30, 2014 to \$36,507 in the three months ended September 30, 2015, a decrease of \$50,121, or 57.9%, primarily due to a decrease in amortization of debt discounts.

\$ 5,172,974	11.1 %	\$ 518,570	\$ 4,654,404

Net sales for the nine months ended September 30, 2015 increased to \$5,172,974 from \$4,654,404, an increase of \$518,570, or 11.1%, resulting from growth in prescription, over-the-counter and business-to-business sales. Core over-the-counter revenue grew 30.7% and core prescription revenue grew by 1.2% due to advertising efforts and improved order fulfillment rates and customer satisfaction. We believe core prescription orders from repeat customers during the third quarter of 2015 returned to levels experienced in the first quarter of 2014. Based on current repeat order trends and continued focus on advertising, marketing and operational efforts, we believe orders from repeat prescription customers will exceed the levels achieved in 2014 during the fourth quarter of this year.

Table of Contents

With liquidity from the equity raise in August and October 2014, the Company was able to purchase products in a timely manner and carry inventory of high sales volume products to fill incoming orders and improved order fill rate to less than three days for core prescription orders and under one and one-half days for over-the-counter orders from receipt of order. We believe this has created a significant increase in positive customer reviews from new and repeat customers.

Management will continue to focus on customer acquisition, conversion and retention. Advertising and marketing campaigns will focus on driving new customers to the website, while engineering resources continue to focus on improving customer experience and order conversions. In addition, the Company continues to proactively call prescription customers to improve the Company's order conversion rate. We believe these efforts helped the Company to increase new customers by approximately 40.9% and overall orders by 9.6% during the nine months ended September 30, 2015 compared to the nine month period prior to the equity raise. We believe repeat customers will continue to grow in 2015 through retention of new customers acquired over the past twelve months.

Cost of sales were \$1,853,707 for the nine months ended September 30, 2015 as compared to \$1,923,142 for the nine months ended September 30, 2014, a decrease of \$69,435, or 3.6%, primarily as a result of improved costs realized through strategic purchasing efforts partially offset by the increase in order volume. Gross margin percentage increased from 58.7% for the nine months ended September 30, 2014 to 64.2% for the nine months ended September 30, 2015, primarily due to the purchasing efforts discussed above and our focus on the more profitable core prescription and over-the-counter sales. Management will continue to focus efforts on taking advantage of strategic purchasing opportunities and maintaining profit margins while expanding its product line, particularly in the over-the-counter business.

Selling, general and administrative expenses totaled \$1,211,401 for the three months ended September 30, 2015 compared to \$1,317,775 for the three months ended September 30, 2014, a decrease of \$106,374, or 8.1%. The three months ended September 30, 2015 expense decreases included (a) a decrease in stock based compensation of \$174,600; (b) a decrease in contract labor and accounting services expense of \$71,316 (primarily due to the reduction of use of outside consultants); (c) a decrease in rent expense of \$43,284 (resulting from the amendment of the lease reducing the rented space and monthly rent related to our Florence facility); (d) a decrease in legal expense of \$33,792 (primarily due to fees related to the preparation of materials for the 2014 annual meeting and settlement of litigation in 2014); and (e) a decrease in shareholder expense of \$30,937 (primarily due to costs associated with 2014 annual meeting). These expense increases were partially offset by (a) an increase in advertising and marketing expense of \$173,324 to support sales growth; (b) an increase in salary and payroll tax expense of \$36,136 (primarily an increase in pharmacy and customer support personnel to support sales growth); and (c) an increase in shipping expense of \$34,389 (primarily due to higher sales volume).

Interest Expense

Interest expense decreased from \$245,781 in the nine months ended September 30, 2014 to \$156,464 in the nine months ended September 30, 2015, a decrease of \$89,317 or 36.3%, primarily due to a decrease in amortization of debt discounts partial offset by higher notes payable balances.

Adjusted EBITDAS

We believe Adjusted Earnings Before Interest, Taxes, Depreciation, Amortization and Stock-Based Compensation (“Adjusted EBITDAS”), a non-GAAP financial measure, is useful in evaluating our operating performance compared to that of other companies in our industry, as this metric generally eliminates the effects of certain items that may vary for different companies for reasons unrelated to overall operating performance. We believe that:

Adjusted EBITDAS provides investors and other users of our financial information consistency and comparability with our past financial performance, facilitates period-to-period comparisons of operations and facilitates comparisons with other companies, many of which use similar non-GAAP financial measures to supplement their GAAP results; and

Adjusted EBITDAS is useful because it excludes non-cash charges, such as depreciation and amortization, stock-based compensation and one-time charges, which the amount of such expense in any specific period may not directly correlate to the underlying performance of our business operations and these expenses can vary significantly between periods.

We use Adjusted EBITDAS in conjunction with traditional GAAP measures as part of our overall assessment of our performance, to evaluate the effectiveness of our business strategies and to communicate with our lenders, stockholders and board of directors concerning our financial performance.

Adjusted EBITDAS should not be considered as a substitute for other measures of financial performance reported in accordance with GAAP. There are limitations to using non-GAAP financial measures, including that other companies may calculate these measures differently than we do. We compensate for the inherent limitations associated with using Adjusted EBITDAS through disclosure of these limitations, presentation of our financial statements in accordance with GAAP and reconciliation of Adjusted EBITDAS to the most directly comparable GAAP measure, specifically net loss.

The following provides a reconciliation of net loss to Adjusted EBITDAS:

Impact of Inflation

We believe that inflation has not had a material impact on our results of operations for the nine months ended September 30, 2015 and 2014. We cannot assure you that future inflation will not have an adverse impact on our operating results and financial condition.

Liquidity and Capital Resources

Since inception, the Company has financed its operations primarily through debt and equity financings and advances from related parties. As of September 30, 2015, the Company had a working capital deficiency of \$4,251,296 and an accumulated deficit of \$30,895,820. During the nine months ended September 30, 2015 and the year ended December 31, 2014, the Company incurred net losses of \$443,073 and \$1,783,279, respectively and used cash in operating activities of \$407,825 and \$875,769, respectively. These conditions raise substantial doubt about the Company's ability to continue as a going concern.

On August 27, 2015, a vendor of the Company was granted an order of garnishment against the Company's funds held in a bank account in the amount of \$83,766 for an unpaid debt, accordingly, such amount has been classified as restricted cash as of September 30, 2015. On September 16, 2015, the Company's senior lender filed a motion with the court to intercede in the garnishment action on the grounds that it has a superior lien on the funds which was granted at a hearing on October 6, 2015. In addition, as a result of the garnishment action, the senior lender notified the Company that an event of default has occurred on the senior note and the loan is in default and immediately payable. The Company is working with the senior lender to cure the default.

Subsequent to September 30, 2015, the Company raised an aggregate of \$250,000 in debt financing and continues to incur net losses, use cash in operating activities and experience cash and working capital constraints.

On February 13, 2013, the Company received a Notice of Redemption related to its Series C Redeemable Preferred Stock aggregating \$1,000,000 (see Note 6). As a result of receiving the Notice of Redemption, the Company must now apply all of its assets to redemption of the Series C Preferred Stock and to no other corporate purpose, except to the extent prohibited by Delaware law governing distributions to stockholders (the Company is not permitted to utilize toward the redemption those assets required to pay its debts as they come due and those assets required to continue as a going concern).

We recognize that we will need to raise additional capital in order to fund operations, meet our payment obligations, including the redemption of the Series C Redeemable Preferred Stock, and execute our business plan. There is no assurance that additional financing will be available when needed or that management will be able to obtain financing on terms acceptable to us and whether we will become profitable and generate positive operating cash flow. If we are unable to raise sufficient additional funds, we will have to develop and implement a plan to further extend payables, extend note repayments, extend the preferred stock redemption and reduce overhead until sufficient additional capital is raised to support further operations. There can be no assurance that such a plan will be successful. If we are unable to obtain financing on a timely basis, we could be forced to sell our assets, discontinue our operations and/or seek reorganization under the U.S. bankruptcy code.

Accordingly, the accompanying condensed consolidated financial statements have been prepared in conformity with U.S. GAAP, which contemplate our continuation as a going concern and the realization of assets and the satisfaction of liabilities in the normal course of business. The carrying amounts of assets and liabilities presented in the

condensed consolidated financial statements do not necessarily represent realizable or settlement values. The condensed consolidated financial statements do not include any adjustments that might result from the outcome of this uncertainty.

As of September 30, 2015 and December 31, 2014, the Company had cash on hand of \$25,242 and \$506,019, respectively. Our cash flow from operating, investing and financing activities during these periods were as follows:

For the nine months ended September 30, 2015, cash flows included net cash used in operating activities of \$407,825. This amount included a decrease in operating cash related to a net loss of \$443,073, offset by aggregate non-cash adjustments of \$390,784 plus aggregate cash used by changes in operating assets and liabilities of \$355,536 (primarily a result of a reduction of accounts payable). For the nine months ended September 30, 2014, cash flows included net cash used in operating activities of \$127,101. This amount included a decrease in operating cash related to a net loss of \$1,200,940, partially offset by aggregate non-cash adjustments of \$883,731, plus aggregate cash provided by changes in operating assets and liabilities of \$190,108 (primarily a result of a reduction of receivables and inventory offset by a reduction of accounts payable).

Table of Contents

For the nine months ended September 30, 2015, net cash provided by investing activities was \$12,413 related to a reduction in restricted cash of \$36,077 offset by the capitalization of website development costs and the purchase of computer equipment. For the nine months ended September 30, 2014, net cash utilized by investing activities was \$748,075 due to the placing of cash provided by investors into escrow of \$350,080 (restricted cash), the funding of a reserve balance with our bank and credit card processor of \$300,000 (restricted cash) and the capitalizing of web development costs.

For the nine months ended September 30, 2015, net cash used by financing activities was \$85,365 related to the principal payment on equipment leases and notes payable. For the nine months ended September 30, 2014, net cash provided by financing activities was \$1,312,490 related to net proceeds from a capital raise of \$1,208,759 and the issuance of a notes payable of \$150,000 offset by principal payment on equipment leases of \$41,269 and the repayment of a notes payable – related party of \$5,000.

Critical Accounting Policies and Estimates

There are no material changes from the critical accounting policies set forth in “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of our Form 10-K filed on March 30, 2015. Please refer to that document for disclosures regarding the critical accounting policies related to our business.

Recent Accounting Pronouncements

In April 2015, the FASB issued ASU No. 2015-03 (ASU 2015-03), Interest - Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. This standard amends the existing guidance to require that debt issuance costs be presented in the balance sheet as a deduction from the carrying amount of the related debt liability instead of as a deferred charge. ASU 2015-03 is effective on a retrospective basis for annual and interim reporting periods beginning after December 15, 2015, but early adoption is permitted. The adoption of this standard is not expected to have a material impact on the Company’s condensed consolidated financial position and results of operations.

The Company has determined there are no other new accounting standards that are expected to have a material impact on the Company's condensed consolidated financial statements.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Exchange Act) are designed to provide reasonable assurance that information required to be disclosed in reports we file or submit under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the forms and rules of the SEC and that such information is accumulated and communicated to management, including the Chief Executive Officer, in a manner to allow timely decisions regarding required disclosures.

In connection with the preparation of this Form 10-Q, our management, (Chief Executive and Principal Financial Officer), evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of September 30, 2015. Management had previously identified material weaknesses in our internal control over financial reporting as of December 31, 2014 (see Form 10-K filed with the SEC on March 30, 2015), which is an integral component of our disclosure controls and procedures. During the year ended December 31, 2014, management implemented policies, procedures and controls to address the weaknesses in various areas including operational and financial systems integration, separation of duties in review and approval of disbursement, cash handling, purchasing, receiving, shipping and invoicing functions, daily transaction processing and monthly financial closing procedures and timelines and board approval of related party and other significant transactions. Management believes that the controls implemented in these specific areas are sufficient to address the above weaknesses and have concluded that such controls have fully remediated the identified material weaknesses described above.

As of September 30, 2015, the material weakness that remains is the lack of accounting personnel with sufficient experience with United States generally accepted accounting principles to address the accounting for complex transactions due to the lack of a full-time Chief Financial Officer. Therefore, based on this evaluation, management has concluded that as of September 30, 2015, our disclosure controls were not effective. We believe that to fully remediate this weakness, the Company will need to retain a full time Chief Financial Officer. The directors plan to pursue the employment of a permanent Chief Financial Officer in the near term as the Company's operations and liquidity position improve.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting or in other factors during the quarter ended September 30, 2015, that have materially affected, or were reasonably likely to materially affect, our internal control over financial reporting.

Limitations of the Effectiveness of Control

A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Because of the inherent limitations of any control system, no evaluation of controls can provide absolute assurance that all control issues, if any, within a company have been detected.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

In the ordinary course of business, we may become subject to lawsuits and other claims and proceedings that might arise from litigation matters or regulatory audits. Such matters are subject to uncertainty and outcomes are often not predictable with assurance. Our management does not presently expect that any such matters will have a material adverse effect on the Company's consolidated financial condition or consolidated results of operations. We are not currently involved in any pending or threatened material litigation or other material legal proceedings nor have we been made aware of any penalties from regulatory audits, except as described below.

Item 1A. Risk Factors.

No changes from the Risk Factors included in Item 1A of the Company's Annual Report on Form 10-K for the year ended December 31, 2014 filed with the SEC on March 30, 2015.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.
