# MIND Announces Two New Wins

## Strengthening Presence in the US Market

**Yoqneam, Israel, August 28, 2007** - MIND CTI Ltd. (NasdaqGM:MNDO), a leading provider of convergent end-to-end billing and customer care product based solutions for tier 2 and tier 3 carriers worldwide, today announced it has won two new large deals in the US.

MIND has been selected by a wireless communications service provider in the US to support its unique model for mobile solutions thanks to its product flexibility and openness in managing innovative needs. This is a five-year agreement for managed services (extended maintenance and enhanced support services that include performing day to day billing operational tasks). The MIND solution that will be deployed includes consolidated billing, customer care, order management, inventory, provisioning and mediation.

The second win is with a provider of both wireless and wireline services in the US. As a first phase MIND was chosen to perform billing and customer care for the new offering of the wireless services. This new win is for the fix line

operation, where the consolidated MIND billing, customer care, order management and inventory platform will be deployed to replace legacy systems for voice, data and corporate services. The MIND platform, once fully rolled out, should provide a unified view of all customers and services across all offerings.

Monica Eisinger, Chairperson and CEO, commented: "We are pleased to announce these two new important wins. These wins reflect our strengthening presence in the US market, both in the mobile and the wireline industry. We believe that our innovative solutions and reputation of on-time successful implementations will help us win additional contracts in the near future."

Implementation of these projects will be completed within two to four quarters.
