**PROXY STATEMENT
FOR THE 2003 ANNUAL MEETING OF STOCKHOLDERS**

The board of directors of Wire One Technologies, Inc. (referred to throughout this proxy statement as "Wire One" or "we" or "our") is soliciting proxies for our 2003 Annual Meeting of Stockholders or any adjournment or postponement thereof. The annual meeting will be held at 9:00 a.m. local time on [], 2003, at the Holiday Inn, 304 Route 22 West, Springfield, New Jersey 07081. This proxy statement, the accompanying proxy card and Wire One's Form 10-K for 2002 are first being mailed to stockholders on or about [], 2003.

At the annual meeting, stockholders will be asked to consider and vote on (1) the approval of the sale of substantially all of the assets of our Video Solutions business, pursuant to an asset purchase agreement between our company and Gores Technology Group. Pursuant to the terms of the asset purchase agreement, the purchase price of \$23 million consists of three components. Gores will pay to us at the closing of the asset sale \$20 million in cash. Gores will pay us up to an additional \$2 million, subject to adjustment, at such time as the net assets of the Video Solutions business are determined pursuant to the asset purchase agreement. In addition, at closing, Gores will deliver a promissory note to us in the amount of \$1 million. Gores will pay us up to an additional \$2 million in cash over the two years following the closing based on the annual revenues derived from the Video Solutions business. Details of this transaction and other important information are set forth in this proxy statement which you are urged to read carefully; (2) the approval of an amendment to our certificate of incorporation to effect a change of our corporate name from "Wire One Technologies Inc." to "Glowpoint, Inc." immediately following consummation of the asset sale; (3) the election of two directors each to serve a three-year term as a Class I Director; (4) the approval of an amendment to our 2000 Stock Incentive Plan increasing the number of shares of common stock reserved for issuance thereunder by 2,100,000 shares; (5) the ratification of the appointment of BDO Seidman, LLP as our independent auditors for the fiscal year ending December 31, 2003; and (6) the approval of an adjournment or postponement of the annual meeting, in order to solicit additional proxies, to such time and place as designated by the presiding officer of the meeting. At the annual meeting, stockholders may also be asked to consider and take action with respect to other matters that properly come before the meeting.

Record Date; Quorum

Only holders of record of Wire One's common stock, par value \$.0001 per share, at the close of business on [], 2003 are entitled to vote at the annual meeting. As of the record date, approximately [] shares of common stock were issued and outstanding, each of which entitles its holder to cast one vote on each matter to be presented at the annual meeting. A quorum is present at the annual meeting if a majority of shares of common stock issued and outstanding and entitled to vote on the record date are represented in person or by proxy. If a quorum is not present, the annual meeting may be adjourned from time to time until a quorum is obtained.

Voting Procedures

The shares represented by the proxies received, properly dated and executed and not revoked will be voted at the annual meeting in accordance with the instructions of the stockholders. Properly executed proxies that do not contain voting instructions will be voted (1) FOR the asset sale, (2) FOR the name change, (3) FOR each of the nominees named below for election as directors, (4) FOR the approval of the amendment to our 2000 Stock Incentive Plan and (5) FOR ratification of BDO Seidman, LLP as our independent auditors for the fiscal year ending December 31, 2003, and with respect to other matters that may come before the annual meeting, at the discretion of the proxy holders.

Abstentions and broker "non-votes" will be treated as shares that are present and entitled to vote for purposes of determining the presence of a quorum. An abstention is the voluntary act of not voting by a

[Back to Contents](#)

stockholder who is present at a meeting and entitled to vote. Abstentions are counted as a "no" vote for any proposals submitted to stockholders for a vote, excluding the election of directors. A broker "non-vote" occurs when a broker nominee holding shares for a beneficial owner does not vote on a particular proposal because the nominee does not have discretionary power for that particular item and has not received instructions from the beneficial owner. A broker "non-vote" will be treated as unvoted for purposes of determining the approval of any matter submitted to the stockholders for a vote. A plurality of the votes duly cast is required for the election of directors. This means that the two nominees receiving the highest number of affirmative votes will be elected. Abstentions and "broker non-votes" are not counted for purposes of the election of directors. Because the Delaware General Corporation Law requires the affirmative vote of the holders of a majority of the outstanding shares of common stock entitled to vote on the proposal to approve the sale of our Video Solutions business, a "broker non-vote" on such proposal will have the same effect as a vote against the approval of the sale of our Video Solutions business.

Stockholders have the option to vote over the internet or by telephone. Please be aware that if you vote over the internet, you may incur costs such as telephone and access charges for which you will be responsible.

In accordance with a notice sent to eligible stockholders who share a single address, we are sending only one annual report and proxy statement to that address unless we received instructions to the contrary from any stockholder at that address. This practice, known as "householding," is designed to reduce our printing and postage costs. However, if a stockholder of record residing at such an address wishes to receive a separate annual report or proxy statement in the future, he or she may contact our transfer agent, American Stock Transfer, at 1-800-937-5449, write to them at 59 Maiden Lane, New York, New York 10038 or email them at info@amstock.com. If you are an eligible stockholder of record receiving multiple copies of our annual report and proxy statement, you can request householding by contacting us in the same manner. If you own your shares through a bank, broker or other nominee, you can request householding by contacting the nominee

Solicitation and Revocation

After you have submitted a proxy, you may change your vote at any time before the proxy is exercised by submitting a notice of revocation or a proxy bearing a later date. Regardless of whether you voted using a traditional proxy card, over the internet or by telephone, you may use any of those three methods to change your vote. Along those lines, you may change your vote either by submitting a proxy card prior to the date of the annual meeting or by voting again prior to the time at which the internet and telephone voting facilities close by following the procedures applicable to those methods of voting. In each event, the later submitted vote will be recorded and the earlier vote revoked. You may also revoke a proxy by voting in person at the annual meeting. Your attendance at the annual meeting will not by itself constitute revocation of a proxy.

Wire One will bear the cost of the solicitation of proxies from our stockholders, including the cost of preparing, assembling and mailing the proxy solicitation materials. In addition to solicitation by mail, the directors, officers and employees of Wire One and its subsidiaries may solicit proxies from stockholders by telephone or other electronic means or in person, but any such person will not be specifically compensated for such services. Wire One will cause brokerage houses and other custodians, nominees and fiduciaries to forward solicitation materials to the beneficial owners of stock held of record by such persons. We will reimburse such custodians, nominees and fiduciaries for their reasonable out-of-pocket expenses in doing so. We have engaged American Stock Transfer and Trust Company to aid in the distribution of the proxy materials for reasonable out-of-pocket expenses.

Stockholder Proposals

Any stockholder who intends to present a proposal at the 2004 Annual Meeting of Stockholders must deliver the proposal to the Corporate Secretary, Wire One Technologies, Inc., 225 Long Avenue, Hillside, New Jersey 07205, no later than December 23, 2003 if such proposal is to be considered for inclusion in our proxy materials for that meeting.

[Back to Contents](#)

In addition, our by-laws provide that, in order for a stockholder to propose business for consideration at an annual meeting of stockholders, such stockholder must give written notice to the Corporate Secretary at our principal executive offices not less than 60 days nor more than 90 days prior to the anniversary date of the immediately preceding annual meeting of stockholders; provided however, that in the event the annual meeting is called for a date that is not within 30 days before or after such anniversary date, notice by the stockholder in order to be timely must be received not later than the close of business on the 10th day following the day on which such notice of the date of the annual meeting was mailed or such public disclosure of the date the annual meeting was made, whichever occurs first.

SUMMARY TERM SHEET RELATING TO THE SALE OF SUBSTANTIALLY ALL OF THE ASSETS OF OUR VIDEO SOLUTIONS BUSINESS

The following summary briefly describes the material terms of the proposed sale of substantially all of the assets of our Video Solutions business to Gores Technology Group. This summary highlights selected information from this proxy statement and does not contain all the information that may be important for you to consider when evaluating the proposed transaction. To understand the transaction fully and for a more complete description of the legal terms of the transaction, you should carefully read this proxy statement. The asset purchase agreement between our company and Gores dated as of June 10, 2003 is attached to this proxy statement as Annex A. You are encouraged to read the asset purchase agreement as it is the main legal document that governs the asset sale. We have included page references in this summary to direct you to a fuller discussion in the proxy statement.

You should carefully consider the risk factors beginning on page 22 in evaluating whether to approve the asset sale. These risk factors should be considered along with any additional risk factors in documents incorporated by reference in this proxy statement and any other information included or incorporated by reference herein, including in conjunction with forward-looking statements made herein.

The Parties (page 12)

The parties to the asset sale are Wire One, as seller, and Gores Technology Group, or Gores, as purchaser.

The Assets to be Sold (pages 25-26)

We have agreed to sell to Gores all of the properties, rights, interests and other tangible and intangible assets that relate in any material respect to the Video Solutions business.

Reasons for the Sale of Our Video Solutions Business (pages 15-16)

In reaching its determination to approve the asset sale, the asset purchase agreement and related agreements, our board of directors consulted with senior management and our financial and legal advisors, and considered a number of factors. We are proposing to sell our Video Solutions business to Gores because we believe that the sale and the terms of the related asset purchase agreement are in the best interests of our company and our stockholders. The board of directors has identified various benefits that are likely to result from the sale of our Video Solutions business. The board of directors believes the sale of that business will:

- allow us to devote substantially all of our energies and resources to development of our Glowpoint network, thereby focusing on network offerings instead of equipment sales, service and maintenance;
- enable us to more effectively market and sell our Glowpoint network to resellers who will no longer view us as a competitor;
- provide an improved organizational focus;
- allow us to direct our focus to the potentially better overall returns from our Glowpoint network, by reducing our expenses and increasing our cash balances;

[Back to Contents](#)

- meet our need for raising cash sufficient to build out, market and implement the Glowpoint network, which the board believes will yield higher profit margins than the Video Solutions business; and
- provide us with capital resources to consider and assess other opportunities that the board believes may afford a superior opportunity for growth compared to the existing Video Solutions business.

The amount of cash we receive will vary, depending on some future contingencies, and is described below under What We Will Receive and on pages 27 through 28.

Proceeds from the Sale of Our Videoconferencing Services Business (page 14)

We will retain the proceeds of the sale of our Video Solutions business. We do not intend to distribute any of the proceeds to our stockholders, but will use the proceeds, along with our other cash and cash equivalents, in connection with our future business plan.

Nature of Our Business Following the Asset Sale (page 14)

The board has determined that our strategic direction will focus on building out and marketing our Glowpoint network following the consummation of the asset sale. Although the board may explore opportunities to acquire, invest in, or develop new lines of business, to date the board has determined to focus solely on this strategic direction for our company.

Terms of the Asset Purchase Agreement (pages 25-35)

In the asset purchase agreement, the main legal document governing the rights of our company and Gores, we make certain representations and warranties and undertakes to perform or to refrain from performing certain actions. A copy of the asset purchase agreement is attached as Annex A to this proxy statement. Stockholders are urged to carefully read the document.

What We Will Receive (pages 27-28)

Gores will pay us approximately \$23 million to \$25 million for the assets of our Video Solutions business, consisting of \$20 million in cash, which may be adjusted downward if any purchase price adjustments are required, and an unsecured promissory note in the principal amount of \$1 million maturing on December 31, 2004 and bearing interest at a rate of 5% per annum. In addition, Gores will hold back an additional \$2 million to cover potential purchase price adjustments payable by us arising under the asset purchase agreement. The holdback amount will be disbursed to us, less any purchase price adjustments payable by us.

While \$2 million is to be distributed to us, we may not receive the holdback amount, or the amount we actually receive may be less than the holdback amount. In assessing the holdback amount, our board of directors did not apply a discount for the time value of money or a discount to take into account the potential risk of nonpayment in determining to approve this transaction. See Reasons for the Sale of Our Video Solutions Business on pages 15 through 16.

A purchase price adjustment will occur if the net assets to be transferred to Gores are less than \$15 million, as measured as of June 30, 2003. The initial purchase price adjustment will be made to the \$20 million that we are to receive at closing, based upon our good faith estimate to be delivered ten days after June 30, 2002 of the amount of net assets to be transferred to Gores on the closing date. To the extent that this adjustment has not already been accounted for in any adjustment of the \$20 million of cash we are to receive at closing, these adjustments will initially be taken out of the \$2 million held back specifically for this purpose. If these adjustments were to exceed \$2 million, then we would be required to pay such excess to Gores.

As of the date of this proxy statement, we do not anticipate that there will be any purchase price adjustments. Our belief that there will not be any purchase price adjustments is based on our review of the most recent information available to us which indicates that the threshold that would result in the occurrence

[Back to Contents](#)

of a purchase price adjustment will not be breached. Because future events are at times difficult to foresee, however, we can give no assurances that this adjustment will not occur.

Gores will pay us on each of June 30, 2004 and June 30, 2005, additional payments, not to exceed an aggregate of \$2 million, equal to 5% of the sum of (1) the amounts billed by Gores from the operation of the Video Solutions business by Gores after the closing, plus (2) the annual revenues derived from the Pierce Technology Services, Inc. (formerly Forgent Networks, Inc.) Video Solutions business for such year in excess of \$96,000,000. If Gores sells substantially all of the assets of the Video Solutions business prior to June 30, 2005, whether by merger, sale of stock or sale of assets, for total consideration greater than \$35 million, Gores will pay us \$2 million less any additional payments previously paid.

We believe that the source of the cash that Gores will use to pay the cash consideration will be from Gores' internal sources. Gores has represented to us that it has the financial capability, in the ordinary course of business and without seeking any additional third party financing, to fulfill its commitments under the asset purchase agreement.

What Is Being Sold (pages 25-26)

We are selling to Gores substantially all of the assets used in the operation of our Video Solutions business, which includes our videoconferencing equipment distribution, system design and engineering, installation, operation and maintenance activities. The Video Solutions business consists of: a headquarters and warehouse facility in Miamisburg, Ohio, inventory, a help desk operation in Camarillo, California, a client list of approximately 3,000 active customers with an installed base of approximately 22,000 videoconferencing systems, and contracts and work in progress.

What Is Being Retained (pages 26-27)

We are retaining certain assets, including the following assets:

- all cash, cash equivalents and bank accounts (other than the transition accounts);
- all of our right, title and interest in and to the assets, properties, goodwill and business of every kind and description and wherever located, directly or indirectly owned by us or to which we are directly or indirectly entitled and, in any case, necessary for the operation of, or that is primarily used in, our network business;
- all of our rights arising under the asset purchase agreement, the bill of sale, assumption agreement, real estate agreements, transition services agreement and the Glowpoint sales agency agreement, and any other document delivered under the asset purchase agreement or in connection with the transactions contemplated thereby;
- trademarks, service marks and trade names relating to our network business;
- any of our rights to tax refunds or any prepaid taxes;
- any records relating to our internal governance; and
- any of our insurance policies or any right, title or interest we have thereunder, including any prepaid insurance premiums and all insurance benefits thereunder, including rights and proceeds, arising from or relating to the operation of the Video Solutions business prior to June 30, 2003.

Assumed Liabilities (page 27)

As partial consideration for the purchase of the assets, Gores will assume certain liabilities related to our Video Solutions business, including:

- all liabilities to be paid or performed after the closing date that arise from or out of the performance or non-performance by Gores after the closing date of any contracts included in the assets or entered into after June 10, 2003, including under any extended warranty, customer support, upgrade or product delivery contracts for sales inventory, but not including any liabilities for any breach of such

[Back to Contents](#)

obligations by us or liabilities in excess of those which are required to be set forth on our closing statement related to the Video Solutions business for future performance of the obligations to customers; and

- our accounts payable, customer deposits, deferred revenue and accrued liabilities related to the Video Solutions business, but not including any liabilities in excess of those which are required to be set forth on our closing statement or any liabilities evidencing any intercompany obligation of us and our subsidiaries.

As of the date of this proxy statement, the total liabilities associated with our Video Solutions business are estimated at approximately \$13,000,000, but they may vary between now and the closing date.

Conditions to Completion of Asset Purchase (pages 32-33)

Each party's obligation to complete the sale of our Video Solutions business is subject to the prior satisfaction or waiver of certain conditions. If any of the closing conditions are waived, we will consider the facts and circumstances at that time and make a determination as to whether a resolicitation of proxies from our stockholders is appropriate. No determination can be made at this time as to which, if any, of the closing conditions are likely to be waived by us or Gores. The following list sets forth the material conditions that have not yet been satisfied and therefore must be satisfied or waived before completion of the sale of our Video Solutions business:

- we must obtain approval by our stockholders of the sale; and
- we must remove as of the closing all liens placed on the assets in connection with our credit agreement with JPMorgan Chase Bank.

Each party's obligations are also subject to other customary closing conditions.

Termination and Break-Up Fee (pages 33-34)

Notwithstanding approval by our stockholders of the asset purchase agreement and the transactions contemplated thereby, the asset purchase agreement may be terminated, and the sale of our Video Solutions business may be abandoned, at any time prior to the closing, in any of the following ways:

- by the mutual written consent of us and Gores;
- by either us or Gores if:
 - the sale of the Video Solutions business is not completed by September 30, 2003, other than as a result of the failure by the party proposing to terminate the asset purchase agreement to perform its obligations;
 - an order, decree or ruling is entered restraining, enjoining or otherwise prohibiting the completion of the sale of our Video Solutions business;
 - our stockholders fail to approve the sale of our Video Solutions business by September 30, 2003; or
 - the other party materially breaches its representations or agreements so that a closing condition would not be satisfied and the breach remains uncured 30 days following notice or the breaching party ceases to use commercially reasonable efforts to cure the breach.

In addition, Gores may terminate the asset purchase agreement if, between June 10, 2003 and closing, we make a general assignment for the benefit of creditors, or any proceeding is instituted against us seeking to adjudicate us bankrupt or insolvent, or seeking liquidation or winding up or reorganization of our debts under any law relating to bankruptcy, insolvency or reorganization.

We have agreed to pay Gores a break-up fee equal to \$1 million if the asset purchase agreement is terminated by Gores or, prior to the approval of the asset purchase agreement by our stockholders, by us if:

[Back to Contents](#)

- our board of directors withdraws or modifies in an adverse manner its recommendation of the sale of the Video Solutions business;
- we fail to include in this proxy statement the approval and recommendation of our board of directors for the sale of our Video Solutions business; or
- our board of directors approves any transaction or series of transactions in which a party other than Gores is entitled to purchase a substantial portion of the Video Solutions business or its assets.

Non-Competition and Non-Solicitation Provisions between Gores and Wire One (page 31)

Upon the closing of the asset sale, we have agreed for a period of three years following the closing date not to compete with Gores with respect to the Video Solutions business and we have agreed for a period of one year following the closing date not to solicit any then-current employee of the Video Solutions business or any person who has been an employee of the Video Solutions business at any time within the previous six months. Gores has agreed for a period of three years following the closing date not to market or sell services which are competitive to those of our Video Network business. Each party may obtain a waiver of the non-compete provision restricting its actions for a one-time fee of \$5 million.

Transition Period (pages 31-32)

Between June 30, 2003 and the closing date, we have agreed to conduct the business of the Video Solutions business in accordance with a transition budget agreed upon by us and Gores.

Additional Agreements Related to the Asset Purchase Agreement (page 35)

In conjunction with the closing of the sale of our Video Solutions business, we will enter into a transition services agreement with Gores whereby we will provide for a fee certain transition services to Gores related to the assets acquired and liabilities assumed.

We will also enter into a Glowpoint sales agency agreement, whereby Gores will be able to market our Glowpoint network subscriber service and associated bridging and gateway services. The agreement provides that we will pay Gores a monthly commission and has a term of three years from execution.

Because we are retaining the lease for the Camarillo, California facility where part of the Video Solutions business is located, we have agreed to sublease a portion of that facility to Gores after the closing of the asset purchase agreement.

The Annual Meeting

At the annual meeting of the our stockholders on [], 2003, the stockholders will be asked to approve the asset sale (PROPOSAL NO. 1). In addition, our stockholders will be asked to approve an amendment to our certificate of incorporation to change our corporate name from Wire One Technologies, Inc. to Glowpoint, Inc. (PROPOSAL NO. 2).

Recommendation of Our Board of Directors (pages 17 and 47)

Our board recommends that you vote FOR the asset sale (PROPOSAL NO. 1) and FOR the name change (PROPOSAL NO. 2).

Opinion of the Company's Financial Advisor (pages 17-21)

We retained Broadband Capital Management LLC to determine whether, in its view, the consideration to be received from Gores in connection with the asset sale is fair, from a financial point of view, to Wire One. Broadband delivered an opinion to the board to the effect that, as of June 9, 2003, and subject to and based on the considerations referred to in its opinion, the consideration to be provided in connection with the asset sale is fair to Wire One, from a financial point of view. The full text of this opinion is attached as Annex B to this proxy statement.

Tax Consequences (page 21)

As a result of currently available U.S. federal income tax net operating loss carryforwards, we anticipate that the asset sale will not cause us to incur any U.S. federal income tax liability. Stockholders will not have any taxable gain or loss as a result of the asset sale.

No Appraisal Rights (page 21)

Under the Delaware General Corporation Law, holders of our common stock are not entitled to appraisal rights in connection with the asset sale.

Regulatory Approvals (page 21)

The asset sale is not subject to the approval of any state or federal regulatory agency or governmental body.

The asset purchase agreement is attached to this proxy statement as Annex A.

Q: Why Are We Proposing to Sell Our Video Solutions Business?

A: We are proposing to sell our Video Solutions business because we believe the sale will:

- allow us to devote substantially all of our energies and resources to development of our Glowpoint network, thereby focusing on network offerings instead of equipment sales, service and maintenance;
- enable us to more effectively market and sell our Glowpoint network to resellers who will no longer view us as a competitor;
- provide an improved organizational focus;
- allow us to direct our focus to the potentially better overall returns from our Glowpoint network, by reducing our expenses and increasing our cash balances;
- meet our need for raising cash sufficient to build out and market the Glowpoint network, which the board believes will yield higher profit margins than the Video Solutions business; and
- provide us with capital resources to consider and assess other opportunities that the board believes may afford a superior opportunity for rapid growth and revenues compared to the existing Video Solutions business.

The amount of cash we receive will vary, depending on some future contingencies, and is described on page 4 under "What We Will Receive" and on pages 27-28.

Q: Will Any of the Proceeds from the Sale of the Videoconferencing Services Business be Distributed to Me as a Stockholder?

Q: How Does the Board Recommend that I Vote on the Matters Proposed?

A: Your board unanimously recommends that stockholders vote FOR each of the proposals submitted at the annual meeting.

Q: Did We Receive a Report From a Financial Advisor Concerning the Sale of the Video Solutions Business and are There Any Important Aspects of the Process of Obtaining that Report and Conclusions in the Report That You Should Consider in Referring to the Opinion of Our Financial Advisor?

A: Yes. In arriving at its determination that the sale of our Video Solutions business is fair to, and in the best interests of our company, the board has considered a number of factors, including an opinion of our financial advisor, Broadband Capital Management LLC. There were, however, some important aspects associated with the process of obtaining the report and conclusions in the report that you should consider when considering the opinion of Broadband, including the fact that in rendering its opinion, Broadband did not adjust the \$2 million of contingent consideration to account for the time value of money or the possibility that these additional amounts will not be paid to us.

For a full description of the opinion letter that we received from Broadband, see the section titled Opinion of Financial Advisor on pages 17 through 18. To review the text of this letter, see Annex B to this proxy statement.

Q: Can I Still Sell My Shares?

A: Yes. Neither the asset purchase agreement nor the sale of our Video Solutions business assets will affect your right to sell or otherwise transfer your shares of our common stock.

Q: What Will Happen If The Sale Of Our Video Solutions Business Is Not Approved?

A: If the sale is not approved, we will not complete the proposed sale, we will retain and continue to operate the Video Solutions business and we will continue to pursue other buyers. However, the market price of our common stock could decline and our ability to grow and implement our current business strategies could be substantially limited. In the event that our board withdraws or adversely modifies its recommendation of this transaction, or we terminate the asset purchase agreement prior to closing in order to enter into a transaction to sell any substantial portion of the Video Solutions business or its assets to a third party other than Gores, we will pay Gores a break-up fee of \$1 million.

Q: Who is Entitled to Vote at the Annual Meeting?

A: Only holders of record of our common stock as of the close of business on [], 2003 will be entitled to notice of and to vote at the annual meeting.

Q: When and Where is the Annual Meeting?

Q: If My Shares are Held in [Street Name] by My Broker, Will My Broker Vote My Shares for Me?

A: Your broker may not be permitted to exercise voting discretion with respect to some of the matters to be acted upon. Thus, if you do not give your broker or nominee specific instructions, your shares may not be voted on those matters, and will not be counted in determining the number of shares necessary for approval. You should follow the directions provided by your broker regarding how to instruct your broker to vote your shares.

Q: May I Change My Vote After I Have Mailed My Signed Proxy Card?

A: Yes. Just send in a written revocation or a later dated, signed proxy card before the annual meeting or simply attend the annual meeting and vote in person. Simply attending the annual meeting, however, will not revoke your proxy; you must vote at the annual meeting.

A: Please vote your shares as soon as possible so that your shares may be represented at the annual meeting. You may vote by signing and dating your proxy card and mailing it in the enclosed return envelope or by telephone or over the internet, or you may vote in person at the annual meeting. Because a vote of a majority of our outstanding shares is required to approve the sale of our Video Solutions business, your failure to vote is the same as your voting against the sale.

Q: What are the U.S. Federal Income Tax Consequences of the Sale of Our Video Solutions Business to the Stockholders?

A: The sale of our Video Solutions business will not result in any federal income tax consequences to our stockholders.

Q: What are the U.S. Federal Income Tax Consequences of the Sale of the Video Solutions Business to the Company?

A: As a result of currently available U.S. federal income tax net operating loss carryforwards, we anticipate that the asset sale will not cause us to incur any U.S. federal income tax liability.

Q: Will Stockholders Have Appraisal Rights?

A: No. Under Delaware law you will have no appraisal rights as a result of the sale of our Video Solutions business.

Q: Whom Should I Call If I Have Questions?

However, we recommend that you read carefully the complete asset purchase agreement for the precise legal terms of the agreement and other information that may be important to you. The asset purchase agreement is included in this proxy statement as Annex A.

The Companies

Wire One Technologies, Inc.

Wire One Technologies, Inc., a Delaware corporation, was formed in May 2000 by the merger of All Communications Corporation, a value-added integrator of video, voice and network communications solutions since 1991, into View Tech, Inc., a provider of video, voice and data communications equipment and services since 1992.

We are a leading single source provider of video communications solutions that encompass the entire video communications value chain. We operate our company in two segments: our Video Solutions business and our Video Network business.

Video Solutions business. Through our Video Solutions business, we are a leading integrator for major video communications equipment manufacturers. We integrate equipment from these manufacturers into comprehensive video and network solutions and resell them to end users and resellers. Our current customer base includes over 3,000 companies with approximately 22,000 videoconferencing endpoints. Upon completion of the sale of our Video Solutions business to Gores, we will concentrate on developing and expanding our Video Network business.

Video Network business. Our Video Network business, which primarily consists of our Glowpoint network service, provides our customers with two-way video communications with a high quality of service. We believe Glowpoint is the first subscriber network to provide such communications by utilizing a dedicated Internet Protocol backbone and broadband access. Through Glowpoint, we offer our customers a single point of contact for all their video communications requirements.

The principal executive offices of Wire One are located at 225 Long Avenue, Hillside, New Jersey 07205 and our telephone number is (973) 282-2000.

Gores Technology Group

Gores Technology Group is a privately held international acquisition and management firm that pursues an aggressive strategy of acquiring promising high-technology organizations and managing them for growth and profitability. Gores holds a number of businesses acquired through acquisition transactions.

The principal executive offices of Gores are located at 10877 Wilshire Boulevard, Suite 1805, Los Angeles, California 90024 and its telephone number is (310) 209-3010.

Background of the Sale of Our Video Solutions Business

During the summer of 2002 our board of directors began to evaluate separating the Video Solutions business from the Glowpoint network. Our board determined that the most efficient way to separate the businesses and simultaneously raise capital for the Glowpoint network was to explore the sale of the company's Video Solutions business. The board also determined to undertake this review because it believed that there were insufficient growth and profit opportunities present in the Video Solutions business relative to the Glowpoint network.

On August 1, 2002, Water Mill Partners LLC presented our management with a review of various strategic alternatives and the potential impact of each on the overall valuation of our company.

[Back to Contents](#)

In late August 2002, we were contacted on an unsolicited basis by a potential strategic acquiror regarding the potential acquisition of our Video Solutions business. During August and September 2002, Water Mill conducted a review of our Video Solutions business. From late August through mid-September 2002, we discussed various due diligence requirements, transaction structuring concepts and preliminary valuation ranges with the strategic acquiror. On September 4, 2002, our board of directors retained Water Mill as a financial advisor to assist us in maximizing stockholder value through a potential sale of the Video Solutions business.

On September 17, 2002, we executed a confidentiality agreement with the strategic acquiror which provided for the parties to negotiate the purchase and sale of the Video Solutions business on an exclusive basis. On September 20, 2002, we delivered certain due diligence materials to the strategic acquiror. On October 11, 2002, our management and Water Mill met with the strategic acquiror at their corporate headquarters to discuss the Video Solutions business in detail. From early October through mid-December 2002, we exchanged certain financial and operational information and engaged in additional meetings and conference calls. In December 2002, the strategic acquiror performed financial due diligence at our New Hampshire offices and performed financial and operational due diligence in our Miamisburg, Ohio facility.

We agreed on a preliminary term sheet with the strategic acquiror on December 2, 2002. The Board of Directors reviewed the term sheet on December 5, 2002 and authorized our management to continue negotiating with the strategic acquiror and to commence the drafting and negotiation of an asset purchase agreement.

On January 7, 2003, the two parties terminated discussions as the strategic acquiror decided not to move forward with the potential acquisition of the Video Solutions business.

On January 21, 2003, our board of directors at a regular meeting of the board discussed the status of the Video Solutions business transaction and authorized our management to solicit the interest of other suitable parties for the sale of the Video Solutions business. In February 2003, after completing a confidential information memorandum, Water Mill and our management identified and contacted numerous potential strategic acquirors and financial investors to gauge interest in a possible transaction involving the Video Solutions business. By March 17, 2003, we received preliminary indications of interest for the Video Solutions business from three financial buyers. After Water Mill presented each of the indications of interest to the board of directors, all of the potential financial buyers were invited in late March to continue the process. In late March, we provided each financial buyer with due diligence materials and a formal management presentation in Miamisburg, Ohio.

After the potential buyers had completed the management presentation and reviewed additional due diligence materials, they were asked to resubmit their indications of interest and propose a final offer for the Video Solutions business.

By April 28, 2003, we received final proposals from two of the potential financial buyers and the board of directors reviewed each of the final proposals received. The board assessed the overall structure of each proposal, including the representations and warranties our company was likely to be required to make, the liabilities our company would be required to retain, the amount and form of the consideration to be received and the extent of any indemnification obligations. The board determined that a proposal from one of the potential financial buyers was superior to the other proposal. On May 1, 2003, we entered into a non-binding letter of intent to negotiate a definitive asset purchase agreement with that potential financial buyer on an exclusive basis until May 18, 2003. Subsequent to May 1, 2003, representatives of our company, Water Mill and the potential financial buyer continued their due diligence efforts and began to negotiate the terms of an asset purchase agreement.

Prior to the expiration of the exclusivity period, the potential financial buyer substantially decreased its offer for the Video Solutions business. On May 19, 2003, after the expiration of the exclusivity period, our management instructed Water Mill to contact the two other parties that had submitted indications of interest to determine their continued interest and valuation level. At this time, Gores Technology Group resubmitted a proposal that was deemed to be superior to its previous proposal. On May 22, 2003, the board of directors

[Back to Contents](#)

met and decided to discontinue negotiations with the initial potential financial buyer and instead to enter into an exclusive, non-binding letter of intent with Gores.

On May 23, 2003, we entered into an exclusive, non-binding letter of intent with Gores to negotiate an asset purchase agreement with it. Between May 23, 2003 and June 9, 2003, there were numerous meetings and telephone discussions involving various representatives of our company, Water Mill, and our legal counsel and representatives of Gores and its legal counsel. The purpose of these discussions was to work toward agreement on all open issues, to assist Gores in completing its due diligence and to negotiate and finalize the details of the asset purchase agreement, various ancillary documents and the schedules to the asset purchase agreement and to generally continue movement towards execution of definitive agreements.

On June 6, 2003, the board met to review the status of Gores's proposal. At that meeting, Broadband Capital Management LLC gave a presentation to the board regarding its preliminary views regarding the fairness, from a financial point of view, of the potential transaction to our company.

On June 9, 2003, the board met telephonically. Wire One's legal advisors updated the board on the status of the transaction and the final negotiations with Gores. At that meeting, Broadband gave a presentation to the board regarding the fairness, from a financial point of view, of the consideration to be received by us under the proposal made by Gores as it existed on that date, and delivered an oral opinion to the effect that the consideration to be received by us, as it existed on that date, was, from a financial point of view, fair to Wire One. Broadband later confirmed its oral opinion in writing with an opinion letter dated as of June 9, 2003. See Annex B for a copy of this letter. After carefully evaluating the proposal, the board determined to accept the proposal made by Gores. In making its determination to approve the transaction the board considered the cash to be received, the liabilities to be assumed and the overall structure of the transaction and the terms of the asset purchase agreement. The board also considered the other proposal the company had received from the initial potential financial buyer, which was materially less favorable than Gores's offer with respect to these and other parameters. The board of directors also unanimously resolved to recommend that our stockholders approve and adopt the asset purchase agreement and the sale of substantially all of the assets of our Video Solutions business to Gores.

From June 9, 2003 through the execution of the definitive asset purchase agreement on June 10, 2003, Gores and its legal counsel continued their due diligence efforts. During this time we, representatives of Water Mill, and our legal counsel and Gores and its legal counsel participated by telephone in a series of negotiations finalizing the terms of the asset purchase agreement and the other related agreements. These negotiations largely covered the provisions related to the purchase price adjustment mechanism, finalizing the terms of the ancillary agreements, completing the schedules to the asset purchase agreement, and clarifying certain issues related to the assets of the Video Solutions business. The changes made to the asset purchase agreement during this time were not material and did not alter the consideration to be received from the version of the asset purchase agreement circulated to the board on June 9, 2003. The asset purchase agreement was executed on June 10, 2003 and we announced the execution of the asset purchase agreement that same day.

Proceeds from the Sale of Our Video Solutions Business

Our company will retain the proceeds of the sale of our Video Solutions business. We do not intend to distribute any of the proceeds to our stockholders, but will use the proceeds, along with our other cash and cash equivalents, in connection with our future business plan.

Nature of Our Business Following the Asset Sale

The board has determined that our strategic direction will focus on building out and marketing our Glowpoint network following the consummation of the asset sale. Although the board may explore opportunities to acquire, invest in, or develop new lines of business, to date the board has determined to focus solely on this strategic direction for our company.

[Back to Contents](#)

Reasons for the Sale of Our Video Solutions Business

In reaching its determination to approve the asset sale, the asset purchase agreement and related agreements, our board consulted with our management and our financial and legal advisors, and considered a number of factors. We are proposing to sell our Video Solutions business to Gores because we believe that the sale and the terms of the related asset purchase agreement are in the best interests of our company and our stockholders. The board has identified various benefits that are likely to result from the sale of our Video Solutions business. The board believes the sale of that business will:

- allow us to devote substantially all of our energies and resources to development of our Glowpoint network, thereby focusing on network offerings instead of equipment, service and maintenance;
- enable us to more effectively market and sell our Glowpoint network to resellers who will no longer view us as a competitor;
- provide an improved organizational focus;
- allow us to direct our focus to the potentially better overall returns from our Glowpoint network, by reducing our expenses and increasing our cash balances;
- meet our need for raising cash sufficient to build out, market and implement the Glowpoint network, which the board believes will yield higher profit margins than the Video Solutions business; and
- provide us with capital resources to consider and assess other opportunities that the board believes may afford a superior opportunity for growth compared to the existing Video Solutions business.

The amount of cash we receive will vary, depending on some future contingencies, and is described on page 4 under What We Will Receive and on pages 27-28.

In arriving at its determination that the asset sale is in the best interests of our company and its stockholders, the board of directors carefully considered the terms of the asset purchase agreement as well as the potential impacts of the asset sale on our company. As part of this process, the board of directors considered the advice and assistance of its outside financial advisors and legal counsel. In determining to authorize the asset sale, the board of directors considered the factors set out above as well as the following factors:

- the oral opinion provided on June 9, 2003, which was confirmed in writing by an opinion letter dated as of June 9, 2003 in connection with the preparation of this proxy statement, that we received from Broadband Capital Management LLC, our company's financial advisor, that the consideration to be received by Wire One pursuant to the asset sale is fair from a financial point of view;
- the fact that Gores's offer was superior to the other offer we received, both in terms of aggregate consideration and proposed transaction structure;
- the amount of cash included in Gores's offer;
- the terms and conditions of the asset purchase agreement, including the fiduciary out provision negotiated by the board, which allows the board to consider unsolicited offers to purchase the Video Solutions business;
- the fact that the sale of our Video Solutions business must be approved by the holders of a majority of our common stock, which ensures that the board will not be taking action of which the stockholders disapprove;
- the risk that after the asset sale our company will have a less diversified business which would leave our company dependent on the performance of our Glowpoint network;
- the risk that our company could be exposed to future indemnification payments for a breach of the representations, warranties and covenants contained in the asset purchase agreement;

[Back to Contents](#)

- the risk that we may not receive, or we may only receive a portion of, the \$2 million to be held back by Gores if we are required to cover purchase price adjustments because of a change in the net asset value of the assets sold; and
- the risk that the asset sale might not be consummated, which could result in a decline in the price of our common stock, limit our ability to grow and implement our current business strategies and, under certain circumstances, result in our paying Gores a termination fee of \$1 million.

Additional Considerations

The amount of cash we receive in this transaction will vary, depending on some future contingencies, and we may not receive all of the consideration provided for in the asset purchase agreement. We will retain the proceeds of the sale of our Video Solutions business. We do not intend to distribute any of the proceeds to our stockholders, but will use the proceeds, along with our other cash and cash equivalents, in connection with our future business plan.

The foregoing discussion of the information and factors considered by the board is not intended to be exhaustive, but does include the material factors considered. In view of the complexity and wide variety of information and factors, both positive and negative, considered by the board, it is not practical to quantify, rank, or otherwise assign relative or specific weights to the factors considered. In addition, the board did not reach any specific conclusion with respect to each of the factors considered, or any aspect of any particular factor. Instead, the board conducted an overall analysis of the factors described above, including discussions with management and legal, financial and accounting advisors. In considering the factors described above, individual members of the board may have given different weight to different factors. The board considered all of these factors in totality and concluded, on the whole, such factors supported its determination to approve the asset sale. After taking into consideration all of the factors set forth above, the board, following consultation with its legal and financial advisors, concluded that the asset sale is fair to, and in the best interests of, our company and stockholders, and that we should proceed with the asset sale.

In view of the variety of factors considered in connection with its evaluation of the asset sale, the board did not find it practical to, and did not quantify or otherwise attempt to, assign relative weights to the specific factors considered in reaching its conclusions.

In arriving at its determination that the asset sale is in the best interests of our company and its stockholders, the board did not apply a discount factor to the \$2 million held back for purchase price adjustments by Gores to account for the time value of money to reflect that \$2 million in the future is worth less than \$2 million in the present. The board did not apply a time value of money discount due to the low interest rate environment that existed then and that currently exists, and due to the relatively short duration of the period of approximately 90 days before determination of any purchase price adjustments. Using the rate that our company currently earns on its cash balances of 0.75% to discount the escrow deposit to present value, a discount factor of approximately \$3,722 would result, which we consider immaterial in the context of the magnitude of this transaction.

The board also did not apply a discount factor to the \$2 million holdback amount to reflect the possibility that these additional escrowed funds may not be paid to our company. The board did not apply this possibility of non-payment discount to the escrowed amount because the information available to the board at that time indicated that all of the holdback amount would, in all reasonable likelihood, be disbursed to the company. This information reflected the belief that the threshold that would result in a purchase price adjustment occurring would not be breached. Further, when the board approved the transaction, it did not believe that there would be any indemnity claims payable due to our company's active negotiation of the representations and warranties in the asset purchase agreement, the review of the representations and warranties made by our company and our company's related investigations to ascertain the accuracy of those representations and warranties, together with the fact that the company is not liable for indemnity claims until the aggregate of all such claims exceeds \$200,000.

Because future events are at times difficult to foresee, however, we can give no assurances that either or both of these adjustments will not occur. Stockholders may decide to apply discount factors to the \$2 million

[Back to Contents](#)

holdback amount when assessing how to vote on the proposal to sell substantially all of the assets of our Video Solutions business. Using the rate the company currently earns on cash balances of 0.75% to account for the time value of money and discounting the \$2 million by 10% to account for the possibility that there will be purchase price adjustments and/or indemnity claims exceeding \$200,000, the assumed discounted value of the \$2 million hold back amount would be approximately \$1,796,278. Different assumptions pertaining to the present value discount or pertaining to the possibility of non-payment discount could provide different results. The effort to present these discounts is designed to show the impact that these types of discounts may have on a valuation of \$2 million to be received in the future, and is not intended to represent what amount our company will actually receive. The board considered the possibility of purchase price adjustments and/or indemnity claims in authorizing this transaction for the reasons noted above. Nonetheless, in deciding how to vote, you may wish to value the \$2 million to be received in the future using discount factors and the discounted value of \$2 million may affect how you may wish to vote.

Recommendation of the Board of Directors

The board of directors has determined that the sale of our Video Solutions business is in the best interests of our company and our stockholders. The board of directors unanimously approved the asset purchase agreement and unanimously recommends that the stockholders vote in favor of the proposal to approve the sale of substantially all of the assets of our Video Solutions business to Gores, pursuant to the asset purchase agreement and the transactions contemplated by the asset purchase agreement.

Opinion of Financial Advisor

We retained the firm of Broadband Capital Management LLC to evaluate the fairness, from a financial point of view, of the consideration to be received by our company in connection with the proposed asset sale. We selected Broadband based on Broadband's principals' qualifications and expertise, including the fact that Broadband's principals have significant experience in the valuation of businesses in connection with mergers and acquisitions, public and private financings and other transactions. Broadband is a boutique investment bank based in New York providing financial and strategic advisory services to companies, with a particular focus on the technology sector. Broadband, as part of its investment banking practice, advises companies on mergers, acquisitions, and similar transactions. Broadband is actively engaged in the investment banking business and regularly undertakes the valuation of businesses and their securities in connection with private placements, business combinations and similar transactions.

At a meeting of our board of directors on June 9, 2003, Broadband delivered its oral opinion, and subsequently confirmed in writing in an opinion dated June 9, 2003, that, as of such date and based upon and subject to the assumptions and other matters described in its written opinion, the proposed consideration to be received by Wire One in the asset sale was fair from a financial point of view to Wire One. Broadband's opinion is addressed to the board of directors and is directed only to the fairness, from a financial point of view, of the consideration to be received by us pursuant to asset purchase agreement and not to the merits of the underlying business decision to effect the asset sale, the structure or tax consequences of the asset purchase agreement or the availability or advisability of any alternatives to the sale of the Video Solutions business. Broadband's opinion does not constitute a recommendation that our company approve and consummate the asset purchase agreement nor does it constitute a recommendation to any stockholder as to how that stockholder should vote at the annual meeting.

The complete text of Broadband's opinion, which sets forth the assumptions made, matters considered and limitations on and scope of the review undertaken by Broadband, is attached to this proxy statement as Annex B, and the summary of Broadband's opinion set forth in this document is qualified in its entirety by reference to Broadband's written opinion. Stockholders are urged to read Broadband's opinion carefully and in its entirety for a description of the procedures followed, the factors considered and the assumptions made by Broadband.

In arriving at its opinion, Broadband took into account general economic, market and financial conditions as well as its experience in connection with similar transactions and valuations generally. In addition, among other things, Broadband:

- (1) reviewed the financial terms and conditions stated in the asset purchase agreement;
- (2) reviewed the unaudited actual and pro forma financial statements of the Video Solutions business for the years ended December 31, 2002 and 2001;
- (3) reviewed the financial projections for the Video Solutions business which we made available to Broadband;
- (4) reviewed certain other information on the Video Solutions business that we made available to Broadband;
- (5) discussed with members of senior management of Wire One and of the Video Solutions business information relating to the items described above, as well as other matters which Broadband deemed relevant to their inquiry;
- (6) reviewed public information concerning companies in businesses considered by Broadband to be generally comparable to the Video Solutions business;
- (7) reviewed financial terms and other information concerning selected completed business combinations or acquisitions/dispositions of assets deemed to be generally comparable to the asset sale or otherwise relevant to its opinion, in whole or in part; and
- (8) performed other such financial studies, analyses and investigations as Broadband deemed appropriate.

As described in its opinion, Broadband assumed and relied upon the accuracy and completeness of all information supplied or otherwise made available to Broadband by us or any other party and did not attempt to verify independently any such information. Broadband did not make or obtain an independent appraisal of the assets or liabilities (contingent or otherwise) of our Video Solutions business. With respect to financial forecasts and projections prepared by our management, Broadband relied upon the assurances of our management that such forecasts and projections were reasonably prepared in good faith on bases reflecting the best currently available estimates and judgments of our management as to the future financial performance of our company. Broadband relied upon each party to advise it promptly if any information previously provided or discussed with Broadband became inaccurate or was required to be updated during the period of its review. Broadband did not make any physical inspection of any of our properties and facilities or our Video Solutions business. We did not impose any limitations on Broadband with respect to the investigations made or procedures followed by Broadband in connection with the rendering of its opinion.

The opinion was based on market, economic, financial and other circumstances and conditions existing and disclosed to Broadband as of June 6, 2003, and any material change in such circumstances and conditions would require a reevaluation of the opinion, which Broadband is under no obligation to undertake. In rendering its opinion, Broadband assumed that the asset sale would be consummated on the terms described in the asset purchase agreement, without any waiver of material terms and conditions by us and without giving effect to any adjustments to the total consideration which may be contemplated pursuant to the asset purchase agreement.

Based on this information, Broadband performed a variety of financial analyses of the proposed asset sale and the consideration to be received by us in connection therewith. The following paragraphs summarize the material financial analyses performed by Broadband in arriving at its opinion.

Fairness Opinion Analyses

The following is a summary of the analyses performed by Broadband in connection with the preparation of the opinion. This summary is not a complete description of the analyses underlying the opinion. Broadband's opinion regarding the fairness of the consideration to be received by us was not based on any one analysis or any particular subset of these analyses but rather gave consideration to all of the analyses taken as a whole.

Discounted Cash Flow Analysis. Broadband performed a discounted cash flow analysis based on the unlevered discounted cash flow of the projected three-year financial performance of our Video Solutions business. We provided Broadband with projections for calendar years 2003 through 2005 for our Video Solutions business based on certain assumptions by our management regarding the performance of our Video

Solutions business. A range of terminal values was calculated by Broadband by applying a multiple of earnings before interest, taxes, depreciation and amortization, or EBITDA, in the final year of the forecast period. Broadband selected discount rates ranging from 18% to 26% to reflect the risk inherent in our Video Solutions business and our projections. Based on a range of terminal EBITDA multiples of 3.5x to 4.3x, the implied enterprise value of the Video Solutions business ranged from \$21.6 million to \$24.9 million with a midpoint of \$23.3 million. In addition, Broadband presented a perpetual growth scenario whereby a range of growth rates was applied to terminal year free cash flow to determine terminal value. Based on a range of terminal growth rates ranging from 4% to 6%, the implied enterprise value of the Video Solutions business ranged from \$19.5 million to \$20.9 million with a midpoint of \$20.2 million. Discounted cash flow analysis is a widely used valuation methodology, but it relies on numerous assumptions, including asset values and earnings growth rates, terminal values and discount rates. This analysis is not necessarily reflective of the actual value of our Video Solutions business.

Comparable Company and Comparable Transaction Analysis. The comparable company and comparable transaction analyses performed by Broadband were based on market data for companies deemed to be generally comparable to our Video Solutions business and from previous transactions involving companies deemed to be generally comparable to our Video Solutions business. Because no company or transaction is precisely comparable to our Video Solutions business, the analyses relied on data from a group of companies and transactions. Accordingly, an analysis of the results of the foregoing necessarily involves complex considerations and judgments concerning the differences in financial and operating characteristics of our Video Solutions business and other factors that could affect the public trading value of the comparable companies and the transaction value of comparable transactions to which they are being compared. If single company or transaction comparisons were to be used, the implied value for our Video Solutions business would vary significantly depending on which company or transaction is chosen. For this reason, the analyses present the results for not only the highest and lowest implied values for each analysis, but also the results for the average and median values for the entire group of companies or transactions analyzed.

Analysis of Publicly Traded Comparable Companies. Broadband analyzed selected historical financial, operating and stock market data of other publicly traded companies that Broadband deemed to be comparable to our Video Solutions business. The six public companies deemed by Broadband to be reasonably comparable to our Video Solutions business in terms of products and services offered, markets served and business prospects were Compucom Systems, Danka Business Systems, Forgent Networks Inc., Global Imaging Systems Inc., Ikon Office Solutions Inc. and Pomeroy Computer Resources Inc.

Broadband examined certain publicly available financial data of the six comparable public companies, including the ratio of equity or enterprise value (equity value plus total debt, including preferred stock, less cash and cash equivalents) to the following metrics: trailing 12 months net revenues, trailing 12 months EBITDA, trailing 12 months earnings before interest and taxes, or EBIT, fiscal year 2002 net revenues, fiscal year 2002 EBITDA, fiscal year 2002 EBIT, common shareholders equity and total assets. Broadband then compared the ratios derived from its comparable public company analysis to our Video Solutions business's actual and pro forma operating results for the fiscal trailing 12 months and calendar year 2002. A summary of this analysis is provided below.

Analysis of Selected Merger and Acquisition Transactions. Broadband compared the proposed asset sale with selected comparable merger and acquisition transactions. No transaction analyzed in Broadband's comparable transaction analysis was identical to the asset sale. Accordingly, this analysis necessarily involves complex considerations and judgments concerning differences in financial and operating characteristics and other factors between the asset sale and the other transactions considered that could affect the acquisition value of the companies to which our Video Solutions business was being compared.

Broadband performed an analysis of 16 selected merger and acquisition transactions in related industries that occurred between March 1999 and April 2003. The 16 merger and acquisition transactions considered were:

The summary set forth above does not purport to be a complete description of the analyses of data underlying Broadband's opinion. The preparation of a fairness opinion is a complex process and is not

[Back to Contents](#)

necessarily susceptible to a partial analysis or summary description. Broadband believes that its analyses must be considered as a whole and that selecting portions of its analyses, without considering the analyses taken as a whole, would create an incomplete view of the process underlying the analyses set forth in its opinion. In addition, Broadband considered the results of all such analyses and did not assign relative weights to any of the analyses, so the ranges of valuations resulting from any particular analysis described above should not be taken to be Broadband's view of the actual value of our Video Solutions business.

In summary, Broadband based its opinion on the totality of the analyses it conducted and not on any single analysis. Broadband may have given various valuation ranges more or less weight than other valuation ranges, and may have deemed various assumptions more or less probable than other assumptions, so that the range of valuations resulting from any particular analysis described above should not be taken to be Broadband's view of the actual value of the Video Solutions business. Broadband examined each of the cases where the implied value under a particular analysis exceeded the proposed asset sale consideration and came to the opinion that in each case there were circumstances which argued against relying solely on the results of such analysis. In considering these circumstances, as discussed above, and in considering the results of the complete set of analyses using a variety of methodologies, Broadband formed its opinion described herein.

In performing its analyses, Broadband made numerous assumptions with respect to industry performance, general business, economic and regulatory conditions and other matters, many of which are beyond our control. The analyses performed by Broadband are not necessarily indicative of actual values, trading values or actual future results, which might be achieved, all of which may be significantly more or less favorable than suggested by such analyses. Such analyses were prepared solely as part of Broadband's analysis of the fairness of the financial terms and conditions of the transaction from a financial point of view and were provided to the board of directors. The analyses do not purport to be appraisals or to reflect the prices at which businesses or securities might be sold. In addition, the opinion of Broadband was one of many factors taken into consideration by the board of directors in making its determination to approve the transaction. Consequently, the analyses described above should not be viewed as determinative of the board of directors' opinion with respect to the value of our Video Solutions business.

We have paid Broadband a fee of \$75,000 in connection with the preparation and issuance of the opinion. We have also agreed to reimburse Broadband for its reasonable out-of-pocket expenses and provide Broadband with customary indemnification protection.

Broadband has consented to the descriptions of its opinion in, and the inclusion of its opinion as an annex to, this proxy statement.

No part of the compensation paid by us to Broadband is contingent upon Broadband's conclusion regarding financial fairness. We have not previously engaged Broadband to act as our financial advisor and, to management's knowledge, we have had no prior transactions in which Broadband was involved.

Regulatory Approvals

The asset sale is not subject to the approval of any state or federal regulatory agency or governmental body.

No Appraisal Rights

Under the Delaware General Corporation Law, holders of our common stock are not entitled to appraisal rights in connection with the asset sale.

Tax Consequences

As a result of currently available U.S. federal income tax net operating loss carryforwards, we anticipate that the asset sale will not cause us to incur any significant U.S. federal income tax liability. Stockholders will not have any taxable gain or loss as a result of the asset sale.

Treatment of Transferred and Continuing Employee Stock Options

Because the asset sale will be deemed to be a sale of substantially all of the assets, it will be considered a corporate transaction under our 2000 Stock Incentive Plan. As a result, the vesting of stock options held under the plan by certain of our employees and consultants who will be transferred to Gores in connection with the asset sale may be accelerated in full, conditioned upon the consummation of the asset sale. However, an outstanding award under the plan will not fully vest and be exercisable and released from limitations if and to the extent: (i) such award is, in connection with the asset sale, either assumed by Gores or replaced with a comparable award with respect to shares of the capital stock of Gores or (ii) such award is to be replaced with a cash incentive program of Gores which preserves the compensation element of such award existing at the time of the asset sale and provides for subsequent payout in accordance with the same vesting schedule applicable to such award. As of June 18, 2003, option holders under the plan held options to purchase 6,024,891 million shares, of which 743,266 were unvested but will be accorded accelerated vesting as a result of the asset sale. Many of the currently outstanding options under the plan have exercise prices greater than the current fair market value of our common stock. Option awards for our continuing employees will not accelerate and will remain unchanged.

Interests of Certain Persons in the Asset Sale

Our President and Chief Operating Officer, Leo Flotron, holds options to purchase up to 847,500 shares of common stock, scheduled to vest over the next two years. Mr. Flotron is also currently one of our directors. Upon the closing of the asset sale, it is expected that Mr. Flotron will continue to be employed by the Video Solutions business after its sale and will resign his position as a director. As discussed above under Treatment of Transferred and Continuing Employee Stock Options, the vesting of Mr. Flotron's stock options may be accelerated in full effective upon the consummation of the asset sale. Some of these options have exercise prices greater than the current fair market value of our common stock.

Voting Agreements

Pursuant to voting agreements dated as of June 10, 2003, Richard Reiss, our Chairman and Chief Executive Officer, and Leo Flotron, our President and Chief Operating Officer, have agreed to vote in favor of the asset sale with respect to the shares of our common stock they hold as of the record date. The form of this voting agreement is attached to this proxy statement as Annex E.

Special Considerations You Should Take into Account in Deciding How to Vote on the Proposal to Sell Our Video Solutions Business

You should carefully consider the special considerations described below as well as other information provided to you in this document in deciding how to vote on the proposal to sell our Video Solutions business. The special considerations described below are not the only ones facing our company. Additional considerations not presently known to us or that we currently believe are immaterial may also impair our business operations. If any of the following special considerations actually occur, our business, financial condition or results of operations could be materially adversely affected, the value of our common stock could decline, and you may lose all or part of your investment.

Special Considerations Regarding the Proposal to Sell Our Video Solutions Business

The amount of cash we receive in this transaction will vary, depending on some future contingencies, so that we may not receive all of the cash provided for in the asset purchase agreement.

Pursuant to the terms of the asset purchase agreement, Gores will hold back \$2 million of the purchase price for potential purchase price adjustments. The holdback will be used to pay for purchase price adjustments resulting from the final determination that the net assets that were transferred to Gores on the closing date were less than \$15 million. To the extent that these adjustments have not already been accounted for in any adjustment to the \$20 million of cash we are to receive at closing, these adjustments will initially be taken out of the \$2 million held back specifically for this purpose. If these adjustments were to exceed that \$2 million, then we would be required to pay such excess to Gores. The cash held back by Gores for this

[Back to Contents](#)

purpose is generally payable 90 days after the closing. As such, while \$2 million is to be held back by Gores and is to be distributed to us subject to these contingencies, we may not receive the holdback funds, or the amount we actually receive may be less than the amount of the holdback.

We will be unable to compete with the Video Solutions business for three years from the date of closing.

We have agreed that, without the prior written consent of Gores, we will not engage in or own or control any interest in (except as a passive investor of less than 4.99 percent of the outstanding equity interests of a publicly held company) any entity that is engaged in any line of business that competes with the Video Solutions business as it exists on the date of closing anywhere in the world. Our Glowpoint network is not deemed to compete with the Video Solutions business. However, the non-compete provisions will restrict our ability to engage in business in the Video Solutions business for three years from the date of closing.

There is no plan to distribute any of the proceeds of the sale of our Video Solutions business to our stockholders.

We do not intend to distribute any portion of the proceeds from the sale of our Video Solutions business to our stockholders. Currently, we intend to use the proceeds from the sale of that business to fund and grow our remaining businesses.

Our management could spend or invest the proceeds from the sale of our Video Solutions business in ways with which our stockholders may not agree, including the possible pursuit of other market opportunities.

Our management could spend or invest the proceeds from the sale of our Video Solutions business in ways with which our stockholders may not agree. Furthermore, because the market for our remaining business is evolving, in the future we may discover new opportunities that are more attractive. As a result, we may commit resources to these alternative market opportunities. If we change our business focus we may face risks that may be different from the risks associated with the video network markets.

Our business may be harmed if the asset sale transaction disrupts the operations of our business and prevents us from realizing intended benefits.

The asset sale transaction may disrupt our business and prevent us from realizing intended benefits as a result of a number of obstacles, such as:

- loss of key employees or customers;
- changes in management which may impair relationships with employees and customers;
- failure to adjust or implement our business model;
- failure of our Glowpoint network service to achieve intended goals;
- additional expenditures required to facilitate this divestiture; and
- the resulting diversion of management's attention from our day-to-day business.

The asset purchase agreement will expose us to contingent liabilities.

Pursuant to the asset purchase agreement, we undertook to indemnify Gores for any losses from breaches of our representations or warranties that occur within 18 months after the closing date of the asset sale. Our indemnification obligations are limited by an overall cap of forty percent of the purchase price (without giving effect to the post-closing earnout consideration), or \$9.2 million. For example, an indemnification claim by Gores might result if we are inaccurate in any of our representations about the assets comprising our Video Solutions business. Although we know of no breaches of our representations or warranties, the payment of any such indemnification obligations would adversely impact our cash resources following the consummation of the asset sale and our ability to pursue other opportunities.

[Back to Contents](#)

The failure to complete the sale of our Video Solutions business may result in a decrease in the market value of our common stock and may create substantial doubt as to our ability to grow and implement our current business strategies.

The sale of our Video Solutions business is subject to a number of contingencies, including approval by our stockholders and other customary closing conditions. We cannot predict whether we will succeed in obtaining the approval of our stockholders. As a result, we cannot assure you that the sale of our Video Solutions business will be completed. If our stockholders fail to approve the proposal at the annual meeting or if the sale of our Video Solutions business is not completed for any other reason, the market price of our common stock may decline. In addition, failure to complete the sale of our Video Solutions business may substantially limit our ability to grow and implement our current business strategies.

If our stockholders do not approve the sale of our Video Solutions business, there may not be any other offers from potential acquirors.

If our stockholders do not approve the sale of our Video Solutions business, we may seek another purchaser for our Video Solutions business. Although we had discussions with various parties concerning such a purchase, none of these parties may now have an interest in such a sale or be willing to offer a reasonable purchase price.

Special Considerations Relating to Our Company If Our Video Solutions Business is Sold
Our business following the asset sale will be entirely dependent on the success of our Video Network business, which to date has only represented a small percentage of our annual and historical revenues.

The Video Solutions business proposed to be sold pursuant to the asset sale represents 90 to 95 percent of our annual revenues in each of the past two years. Our business following the asset sale will be less diversified, leaving us entirely dependent on the performance of our Video Network business, which primarily represents contributions from our Glowpoint network and will be our main operating unit going forward. Our Video Network business has a limited operating history and has only represented a small percentage of our periodic and historical revenues to date. The Video Network business generated revenues of \$2.2 million in the first quarter of 2003, including a \$1.7 million contribution from Glowpoint. If we fail to effectively market, sell and implement our Glowpoint network or if the videoconferencing industry does not respond as favorably as anticipated to Glowpoint, our business will be materially adversely effected.

Our success will depend on the success of our new business model.

Upon consummating the asset sale, we will have a very different strategic focus requiring us to devote substantially all of our efforts and resources on building out, marketing and servicing our Glowpoint network. Internal changes resulting from the business restructuring announced by us during 2002 are substantially complete, but many factors may negatively impact our ability to implement our strategic focus, including our ability or possible inability to manage the implementation and development of our Glowpoint network, sustain the productivity of our workforce and retain key employees, manage operating expenses and quickly respond to and recover from unforeseen events associated with the restructuring. We may be required by market conditions and other factors to undertake additional restructuring efforts in the future. Our business, results of operations or financial condition could be materially adversely affected if we are unable to manage the implementation and development of our new business strategy, sustain the productivity of our workforce and retain key employees, manage our operating expenses or quickly respond to and recover from unforeseen events associated with any future restructuring efforts.

Our Glowpoint network software product is new and has limited market awareness.

Our Glowpoint network was introduced in December 2000, and as such, it has limited market awareness and, to date, limited sales. Our future success will be dependent in significant part on our ability to generate demand for our Glowpoint network and professional services. To this end, our direct and indirect sales operations must increase market awareness of our Glowpoint network to generate increased revenue. Our products and services require a sophisticated sales effort targeted at the senior management of our prospective customers. All new hires will require training and will take time to achieve full productivity. We cannot be

[Back to Contents](#)

certain that our new hires will become as productive as necessary or that we will be able to hire enough qualified individuals or retain existing employees in the future. We cannot be certain that we will be successful in our efforts to market and sell our products, and if we are not successful in building greater market awareness and generating increased sales, future results of operations will be adversely affected.

As we expand our Glowpoint network and its use, any system failures or interruptions in our network may cause loss of customers.

If the asset sale is consummated, our success will depend on the seamless, uninterrupted operation of our Glowpoint network and on the management of traffic volumes and route preferences over our network. As we continue to expand our network to increase both its capacity and reach, and as traffic volume continues to increase, we will face increasing demands and challenges in managing our capacity and traffic management systems. Any prolonged failure of our network or other systems or hardware that causes significant interruptions to our operations could seriously damage our reputation and result in customer attrition and financial loss.

We may be unable to adequately respond to rapid changes in technology.

The market for our Glowpoint network and related services is characterized by rapidly changing technology, evolving industry standards and frequent product introductions. The introduction of products and services embodying new technology and the emergence of new industry standards may render our existing Glowpoint network and related services obsolete and unmarketable if we are unable to adapt to change. A significant factor in our ability to grow and to remain competitive is our ability to successfully introduce new products and services that embody new technology, anticipate and incorporate evolving industry standards and achieve levels of functionality and price acceptable to the market. If our Glowpoint network is unable to meet its specifications or if it is unable to keep pace with technological changes in the videoconferencing industry, our Glowpoint network could eventually become obsolete. We may be unable to allocate the funds necessary to upgrade our network as improvements in videoconferencing networking technologies are introduced. In the event that other companies develop more technologically advanced networks, our competitive position relative to such companies would be harmed.

THE ASSET PURCHASE AGREEMENT

We believe this summary describes the material terms of the asset purchase agreement. However, we recommend that you read carefully the complete agreement for the precise legal terms of the asset purchase agreement and other information that may be important to you. The asset purchase agreement is included in this proxy statement as Annex A.

- all of our intangible rights and property associated with the Video Solutions business, including going concern value and goodwill;

- all guarantees, warranties, indemnities and similar rights in favor of us with respect to the Video Solutions business or any of the assets sold;
- all of our claims against third parties relating to the assets sold;
- all of our rights in respect of the assets sold relating to deposits and prepaid expenses, claims for refunds and rights to offset; and
- all of our rights in and to monies received by us as payment of any receivables or otherwise with respect to the Video Solutions business from June 30, 2003 until the closing date (all such monies will be deposited into transition accounts separate from our other accounts);

Assets Retained

We are retaining certain assets, including the following assets:

- all cash, cash equivalents and bank accounts (other than the transition accounts);
- all of our right, title and interest in and to the assets, properties, goodwill and business of every kind and description and wherever located, directly or indirectly owned by us or to which we are directly or indirectly entitled and, in any case, necessary for the operation of, or that is primarily used in, our Video Network business;
- all of our rights arising under the asset purchase agreement, the bill of sale, assumption agreement, real estate agreements, transition services agreement and the Glowpoint sales agency agreement, and any other document delivered under the asset purchase agreement or in connection with the transactions contemplated thereby;

- trademarks, service marks and trade names relating to our network business;
- any of our rights to tax refunds or any prepaid taxes;

26

[Back to Contents](#)

- any records relating to our internal governance; and
- any of our insurance policies or any right, title or interest we have thereunder, including any prepaid insurance premiums and all insurance benefits thereunder, including rights and proceeds, arising from or relating to the operation of the Video Solutions business prior to June 30, 2003.

Assumed Liabilities

As partial consideration for the purchase of the assets, Gores will assume certain liabilities related to our Video Solutions business, including:

- all liabilities to be paid or performed after the closing date that arise from or out of the performance or non-performance by Gores after the closing date of any contracts included in the assets or entered into after June 10, 2003, including under any extended warranty, customer support, upgrade or product delivery contracts for sales inventory, but not including any liabilities for any breach of such obligations by us or liabilities in excess of those which are required to be set forth on our closing statement related to the Video Solutions business for future performance of the obligations to customers; and
- our accounts payable, customer deposits, deferred revenue and accrued liabilities related to the Video Solutions business, but not including any liabilities in excess of those which are required to be set forth on our closing statement or any liabilities evidencing any intercompany obligation of us and our subsidiaries.

Closing Date

The closing of the sale of our Video Solutions business will take place within two days after our stockholders approve the sale of substantially all of the assets used in the operation of the Video Solutions business and all other closing conditions are satisfied, unless the parties agree upon another time. It is the intent of the parties to complete the sale of our Video Solutions business as soon as practicable following approval by our stockholders of the sale of the Video Solutions business.

Consideration

Gores will pay us approximately \$23 million to \$25 million for the assets of our Video Solutions business, consisting of \$20 million in cash, which may be adjusted downward if any purchase price adjustments are required. Gores will issue to us an unsecured promissory note in the principal amount of \$1 million maturing on December 31, 2004 and bearing interest at a rate of 5% per annum. In addition, Gores will hold back an additional \$2 million to cover potential purchase price adjustments payable by us arising under the asset purchase agreement. The holdback amount will be disbursed to us, less any purchase price adjustments payable by us.

While \$2 million is to be distributed to us, we may not receive the holdback amount, or the amount we actually receive may be less than the holdback amount. In assessing the holdback amount, our board of directors did not apply a discount for the time value of money or a discount to take into account the potential risk of nonpayment in determining to approve this transaction. See "Reasons for the Sale of Our Video Solutions business" on pages 15 through 16.

A purchase price adjustment will occur if the net assets to be transferred to Gores are less than \$15 million, as measured as of June 30, 2003. The initial purchase price adjustment will be made to the \$20 million that we are to receive at closing, based upon our good faith estimate to be delivered ten days after June 30, 2002 of the amount of net assets to be transferred to Gores on the closing date. To the extent that this adjustment has not already been accounted for in any adjustment of the \$20 million of cash we are to receive at closing, these adjustments will be taken out of the \$2 million held back specifically for this purpose. If these adjustments were to exceed \$2 million, then we would be required to pay such excess to Gores.

[Back to Contents](#)

Additional Payments

Gores will pay us on each of June 30, 2004 and June 30, 2005, additional payments, not to exceed an aggregate of \$2 million, equal to 5% of the sum of (1) the amounts billed by Gores from the operation of the Video Solutions business by Gores after the closing (less normal and customary cash and trade discounts, credits for returns and allowances, bad debt, insurance costs and transportation charges or allowances, if any, any sales or other excise taxes or duties imposed with respect to such sales, and selling commissions by resellers or trading agents, if any), plus (2) the annual revenues derived from the Pierce Technology Services, Inc. (formerly Forgent Networks, Inc.) video solutions business for such year in excess of \$96 million. If Gores sells substantially all of the assets of the Video Solutions business prior to June 30, 2005, whether by merger, sale of stock or sale of assets, for total consideration greater than \$35 million, Gores will pay us \$2 million less any additional payments previously paid.

- our company will provide Gores with full access to our offices, facilities, books and records and to our directors, employees, agents, accountants and counsel who have any knowledge relating to the Video Solutions business, and will furnish additional financial and operating data and other information regarding the Video Solutions business and the assets as Gores may from time to time reasonably request;

- Gores waives our compliance with any applicable bulk sale or bulk transfer laws in connection with the sale of assets. We agree to indemnify Gores against any and all liabilities asserted by a third party against Gores as a result of our noncompliance with such laws;
- we agree to reimburse Gores for any real or personal property taxes paid by Gores relating to any portion of a taxable period ending on or before the closing date; and

However, from the closing date through December 31, 2003, we may continue to use trademarks and other intellectual property relating to the Video Solutions business to inform customers, vendors and other parties about the transactions contemplated by the asset purchase agreement and in filings with the SEC and other governmental authorities.

Non-competition and Non-solicitation

We agree, for a period of three years commencing on the closing date, not to engage in or own any equity interest in (except as a passive investor of less than 4.99 percent of the outstanding equity interests of a publicly traded company) any business engaged in the Video Solutions business anywhere in the world.

In addition, our company, for a period of one year commencing on the closing date, agrees that, without Gores' prior written consent, it will not solicit any then-current employee of the Video Solutions business or any person who has been an employee of the Video Solutions business at any time within the previous six months.

The noncompetition and nonsolicitation provisions do not apply to any successor or assignee of the assets of our company, whether by merger, consolidation, asset sale or other form of transaction. However, if such successor or assignee is a restricted buyer, as designated on the disclosure schedule, we will pay Gores \$5 million in consideration for Gores' waiver of the noncompetition and nonsolicitation provisions.

Gores agrees, for a period of three years commencing on the closing date, not to (1) market or sell services competitive to those of our company's Video Network business provided by a restricted competitor, as designated on the disclosure schedule, or (2) own any equity interest in any restricted competitor that would result in Gores marketing services which are competitive to our company's Video Network business. However, Gores may market or sell our company's services or acquire any of the restricted competitors upon payment to us of a one-time fee of \$5 million for the permanent waiver of these noncompetition provisions. In addition, for a period of one year commencing on the closing date, Gores agrees that, without our prior written consent, it will not solicit any then-current employee of our company or any person who has been an employee of our company at any time within the previous six months.

Transition Period

Between June 30, 2003 and the closing date, we have agreed to the following in connection with the business of the Video Solutions business:

- conduct the Video Solutions business in the ordinary course and consistent with our past practices;
- establish a separate general ledger reflecting all of the revenues and amounts payable to third parties with respect to the liabilities assumed by Gores and the employees transferred to Gores;
- incur direct costs of the Video Solutions business only in accordance with the transition budget agreed upon by us and Gores;
- deposit all monies received by us as payment of any receivables or otherwise with respect to the Video Solutions business into transition accounts separate from all of our other accounts;
- make payment with respect to any direct costs of the Video Solutions business only from the transition accounts;

[Back to Contents](#)

- permit a Gores representative access to our facilities and properties to observe the conduct of the Video Solutions business and consider the reasonable requests of such representative with respect to the conduct of the Video Solutions business so long as such requests do not cause us to expend funds in excess of the amounts provided in the transition budget;
- not to enter into any agreement or obligation prohibited by the asset purchase agreement; and
- credit to Gores at closing, as if the Glowpoint sales agency agreement were in place when such sales were consummated, commissions on sales of products and services of our network business by employees of the Video Solutions business.

We agree, within 30 days following the closing date, to provide Gores with accounting statements for the Video Solutions business for the period between June 30, 2003 and the closing date to determine whether we are entitled to an offset from Gores in the event that our costs during the transition period exceed those set forth in the transition budget. We agree to pay in cash to Gores the transition cost amount, except as follows:

(1) if the EBITDA of the Video Solutions business for the quarter ended September 30, 2003 is at least \$1 million but not more than \$1.159 million, then we will be entitled to an offset against payment of the transition cost amount of up to \$159,000, not to exceed the transition cap, meaning \$159,000 times the actual number of calendar months elapsed in the period between June 30, 2003 and the closing date, prorated for any partial calendar month;

(2) if the EBITDA of the Video Solutions business for the quarter ended September 30, 2003 is more than \$1.159 million but not more than \$1.318 million, then we will be entitled to an offset against payment of the transition cost amount of up to \$318,000, not to exceed the transition cap; and

(3) if the EBITDA of the Video Solutions business for the quarter ended September 30, 2003 is more than \$1.318 million, then we will be entitled to an offset against payment of the transition cost amount of up to \$477,000, not to exceed the transition cap.

Employee Matters

In the asset purchase agreement, among other things, Gores and our company have agreed that Gores will extend offers of employment to each of the employees of the Video Solutions business. Employees who accept Gores' employment offer will become Gores employees effective on the closing date.

Conditions to Completion of Asset Purchase

Each party's obligation to complete the sale of our Video Solutions business is subject to the prior satisfaction or waiver of certain conditions. If any of the closing conditions are waived, we will consider the facts and circumstances at that time and make a determination as to whether a resolicitation of proxies from our stockholders is appropriate. No determination can be made at this time as to which, if any, of the closing conditions are likely to be waived by us or Gores. The following list sets forth the material conditions that have not yet been satisfied and therefore must be satisfied or waived before completion of the sale of our Video Solutions business:

- we must obtain approval by our stockholders of the sale;
- our representations and warranties and the representations and warranties of Gores must be true and correct in all material respects as of the closing;
- we and Gores must perform or comply with our respective covenants and other agreements in all material respects on or prior to the closing;
- no legal restraint or prohibition against the consummation of the sale of the Video Solutions business may be in effect; and

[Back to Contents](#)

- we and Gores must execute and deliver to each other each of the ancillary agreements, meaning the bill of sale, the assumption agreement, the real estate agreements, the transition services agreement and the Glowpoint sales agency agreement.

In addition, the obligations of Gores to effect the asset sale are subject to certain conditions, including:

- we must remove as of the closing all liens placed on the assets in connection with our credit agreement with JPMorgan Chase Bank.

Indemnification

Under the asset purchase agreement, we are obligated to indemnify and hold harmless Gores from and against all losses that it incurs arising out of or resulting from:

- any breach or inaccuracy in any representation or warranty made by us in the asset purchase agreement or the ancillary agreements;
- any breach of any covenant or agreement made by us in the asset purchase agreement or the ancillary agreements; or
- the liabilities, whether arising before or after the closing date, that Gores has not assumed.

The asset purchase agreement provides that Gores will indemnify and hold harmless our company from and against all losses that we incur arising out of or resulting from:

- any breach or inaccuracy in any representation or warranty made by Gores in the asset purchase agreement or the ancillary agreements;
- any breach of any covenant or agreement made by Gores in the asset purchase agreement or the ancillary agreements; or
- the liabilities assumed by Gores.

Limits on Indemnification

Neither we nor Gores, with certain limited exceptions, will be obligated to indemnify the other for any losses under the asset purchase agreement until the aggregate amount of the losses exceeds \$200,000 for such party, and then only to the extent of such excess. We are obligated to indemnify Gores for any and all losses arising out of a breach of our tax representations and warranties in the asset purchase agreement. In addition, the maximum aggregate amounts that either we or Gores may recover for losses due to breach or inaccuracy of the other party's representations or warranties in the acquisition documents is forty percent of the purchase price.

Termination of the Asset Purchase Agreement

Termination

Notwithstanding approval by our stockholders of the asset purchase agreement and the transactions contemplated thereby, the asset purchase agreement may be terminated, and the sale of our Video Solutions business may be abandoned, at any time prior to the closing, in any of the following ways:

- by the mutual written consent of us and Gores;
- by either us or Gores if:
 - the sale of the Video Solutions business is not completed by September 30, 2003, other than as a result of the failure by the party proposing to terminate the asset purchase agreement to perform its obligations;
 - an order, decree or ruling is entered restraining, enjoining or otherwise prohibiting the completion of the sale of our Video Solutions business;

[Back to Contents](#)

- our stockholders fail to approve the sale of our Video Solutions business by September 30, 2003; or
- the other party materially breaches its representations or agreements so that a closing condition would not be satisfied and the breach remains uncured 30 days following notice or the breaching party ceases to use commercially reasonable efforts to cure such breach.

In addition, Gores may terminate the asset purchase agreement if between June 10, 2003 and closing, we make a general assignment for the benefit of creditors, or any proceeding is instituted against us seeking to adjudicate us bankrupt or insolvent, or seeking liquidation or winding up or reorganization of our debts under any law relating to bankruptcy, insolvency or reorganization.

We may terminate the asset purchase agreement upon the occurrence of the following, and Gores may terminate the asset purchase agreement if any of the following occur at any time prior to the approval of the asset purchase agreement by our stockholders:

- our board of directors withdraws or modifies in an adverse manner its recommendation of the sale of the Video Solutions business;
- we fail to include in this proxy statement the approval and recommendation of our board of directors for the sale of our Video Solutions business; or
- our board of directors approves any transaction or series of transactions in which a party other than Gores is entitled to purchase a substantial portion of the Video Solutions business or its assets.

Effect of Termination

If the asset purchase agreement is terminated, we and Gores have no liability or obligations to one another other than for the breakup fee which is payable under the circumstances described below under "Break-Up Fee" and damages for breach or fraud committed in connection with the asset purchase agreement.

Break-Up Fee

We agreed not to solicit, negotiate or approve the acquisition of the Video Solutions business by any person other than Gores between June 10, 2003 and the closing date. We also agreed to pay Gores a break-up fee equal to \$1 million if the asset purchase agreement is terminated by Gores or, prior to the approval of the asset purchase agreement by our stockholders, us if:

- our board of directors or any committee thereof for any reason withdraws, amends or modifies in a manner adverse to Gores its affirmative recommendation to our stockholders in favor of the adoption of the asset purchase agreement and the approval of the transaction contemplated thereby;
- our board of directors fails to include its affirmative recommendation in these proxy materials with respect to our company's stockholder meeting; or
- our board of directors or any committee thereof approves any proposal with respect to any transaction or series of related transactions in which any party other than Gores is entitled to purchase any substantial portion of the Video Solutions business or its assets, whether by asset sale, sale of stock or other securities, spin-off, contribution, merger, consolidation, reorganization, recapitalization, liquidation or otherwise.

Expenses

Each party to the asset purchase agreement will bear its own expenses incurred in connection with the sale of our Video Solutions business. Our expenses include the costs of preparing, filing with the Securities and Exchange Commission, printing and mailing this proxy statement.

[Back to Contents](#)

Amendment

The asset purchase agreement may only be amended in a written document signed by us and Gores or in a written waiver signed by the party to be bound thereby.

Additional Agreements Related to the Asset Purchase Agreement

In conjunction with the closing of the sale of our Video Solutions business, we will enter into a transition services agreement with Gores whereby we will provide for a fee certain transition services to Gores related to the assets acquired and liabilities assumed.

We will also enter into a Glowpoint sales agency agreement, whereby Gores will be able to market our Glowpoint network subscriber service and associated bridging and gateway services. The agreement provides that we will pay Gores a monthly commission equal to 10% to 15% (depending upon the number of Glowpoint circuits delivered to us pursuant to customer contracts procured exclusively by Gores in the previous calendar quarter) of the charges that are billed and actually received by us for Glowpoint services that are delivered by us pursuant to customer contracts procured exclusively by Gores. The sales agency agreement has a term of three years from execution.

Because we are retaining the lease for the Camarillo, California facility where part of the Video Solutions business is located, we have agreed to sublease a portion of that facility to Gores after the closing of the asset purchase agreement.

**PROPOSAL NO. 2 -
NAME CHANGE**

Background

If the asset sale is approved by stockholders, the asset purchase agreement will transfer certain assets related to the Video Solutions business, including but not limited to the name "Wire One Technologies, Inc." and related trademarks and trade names.

Board Recommendation

The board of directors unanimously recommends that stockholders vote FOR the approval of the name change from "Wire One Technologies, Inc." to "Glowpoint, Inc." and the amendment and restatement of our amended and restated certificate of incorporation in the form attached hereto to effect such name change.

**PROPOSAL NO. 3 -
ELECTION OF DIRECTORS**

Our directors are divided into three classes. The number of directors is determined from time to time by our board of directors. A single class of directors is elected each year at the annual meeting of stockholders. Each director elected at an annual meeting will serve for a term ending at the third annual meeting of stockholders after his or her election and until his or her successor is elected and duly qualified. Peter Maluso resigned his position as a Class II director as of April 1, 2003. Jonathan Birkhahn, our former Executive Vice President, Business Affairs, General Counsel and Secretary and a Class I director whose term is expiring upon the annual meeting, has decided not to stand for re-election. Upon the closing of the asset sale, we expect that Leo Flotron will resign his position as a Class II Director. In light of this attrition, the board has determined to reduce the number of directors from nine to seven, effective as of the date of the annual meeting. The board is currently in the process of seeking a new director to replace Mr. Flotron.

The directors to be elected at the Annual Meeting are Class I directors and are to serve until the 2006 annual meeting or until their respective successors are duly elected and qualified. The nominees who will stand for election are James Kuster and Michael Sternberg, both of whom are currently members of our board of directors. The two nominees receiving the highest number of affirmative votes will be elected as Class I directors. In the event any nominee is unable or unwilling to serve as a nominee, the board of directors may select a substitute nominee. If a substitute nominee is selected, proxies will be voted in favor of such nominee. Our board of directors has no reason to believe that either of Messrs. Kuster or Sternberg will be unable or unwilling to serve as a nominee or as a director if elected.

The following table sets forth information with respect to our current directors, director nominees and executive officers.

Votes withheld from any nominee are counted for purposes of determining the presence or absence of a quorum, but have no other legal effect under Delaware law. The Board of Directors, Board Committees and Meetings

Corporate governance is typically defined as the system that allocates duties and authority among a company's stockholders, board of directors and management. The stockholders elect the board and vote on extraordinary matters; the board is the company's governing body, responsible for hiring, overseeing and evaluating management, particularly the chief executive officer; and management runs the company's day-to-day operations. Our board of directors currently consists of seven directors as described in Proposal No. 3: Election of Directors. The current board members and nominees for election include three independent directors and three members of our senior management. The primary responsibilities of the board of directors are oversight, counseling and direction to our management in the long-term interests of Wire One and its stockholders.

Our board of directors met seven times during the year ended December 31, 2002. During this period, each of the directors attended or participated in more than 75% of the aggregate of (i) the total number of meetings of the board of directors held during the period for which he was a director and (ii) the total number of meetings of committees of the board on which he served, held during the period for which he served. The board has an audit committee, a compensation committee and a stock option committee.

Audit Committee

We currently maintain an audit committee consisting of James Kuster, Michael Sternberg and Michael Toporek. Each of Messrs. Kuster, Sternberg and Toporek is independent as defined in Rule 4200 of the National Association of Securities Dealers' listing standards. However, under the proposed amendments to NASD Rule 4350, which would require audit committee members to satisfy the heightened independence standards provided in Section 10A(m)(3) of the Securities Exchange Act of 1934, one of our current audit

committee members would not qualify as "independent." Accordingly, we intend to obtain at least one additional director for our board and our audit committee who will qualify under these proposed amendments. Each non-employee member of our audit committee receives options to purchase 500 shares of common stock for each meeting attended. The audit committee consults and meets with our auditors and chief financial officer and accounting personnel, reviews potential conflict of interest situations where appropriate, and reports and makes recommendations to the full board of directors regarding such matters. The audit committee met three times during the year ended December 31, 2002.

Compensation Committee

We currently maintain a compensation committee consisting of James Kuster, Michael Sternberg and Michael Toporek. Each non-employee member of our compensation committee receives options to purchase 500 shares of common stock for each meeting attended. The compensation committee is responsible for supervising our executive compensation policies, reviewing officers' salaries, approving significant changes in employee benefits and recommending to the board of directors such other forms of remuneration as it deems appropriate. The compensation committee met three times during the year ended December 31, 2002.

Stock Option Committee

We currently maintain a stock option committee consisting of James Kuster, Michael Sternberg and Michael Toporek. Each non-employee member of our stock option committee receives options to purchase 500 shares of common stock for each meeting attended. The stock option committee is responsible for administering Wire One's employee incentive plans and recommending to the board of directors such other forms of remuneration as it deems appropriate. The stock option committee did not meet during the year ended December 31, 2002.

REPORT OF THE AUDIT COMMITTEE OF THE BOARD OF DIRECTORS

The audit committee is composed of three directors. Each meets the current independence standards under the NASD's rules for The Nasdaq Stock Market. The audit committee operates under a written audit committee charter, which is attached hereto as Appendix F.

The audit committee has reviewed Wire One's audited financial statements and met and held discussions with management regarding the audited financial statements. Management has represented to the audit committee that Wire One's consolidated financial statements were prepared in accordance with accounting principles generally accepted in the United States.

The audit committee has discussed with BDO Seidman, LLP, Wire One's independent auditors, the matters required to be discussed by Statement of Auditing Standards No. 61 (Communication with Audit Committees). These discussions have included a review as to the quality, not just the acceptability, of Wire One's accounting principles.

Wire One's independent auditors also provided to the audit committee the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussion with Audit Committees), and the audit committee discussed with the independent auditors the auditors' independence from management and Wire One. The audit committee has also considered the compatibility of non-audit services with the auditors' independence.

Based on the audit committee's discussion with management and the independent auditors, the audit committee's review of the audited financial statements, the representations of management and the report of the independent auditors to the audit committee, the audit committee recommended that the board of directors include the audited consolidated financial statements in Wire One's annual report on Form 10-K for the year ended December 31, 2002 filed with the Securities and Exchange Commission.

Respectfully submitted,

James Kuster
Peter Maluso (member until April 1, 2003)

REPORT OF THE COMPENSATION COMMITTEE ON EXECUTIVE COMPENSATION

Scope of the Committee's Work

The compensation committee of the board of directors has the authority and responsibility to establish the overall compensation strategy for Wire One, including salary and bonus levels, and to review and make recommendations to the board with respect to the compensation of our executive officers. The compensation committee was established in 1999; prior thereto, compensation decisions and grants of stock options were made only by the full Board.

Executive Compensation Philosophy and Policies

Wire One's overall compensation philosophy is to provide a total compensation package that is competitive and enables us to attract, motivate, reward and retain key executives and other employees who have the skills and experience necessary to promote the short- and long-term financial performance and growth of Wire One.

The compensation committee recognizes the critical role of its executive officers in the significant growth and success of Wire One to date and our future prospects. Accordingly, our executive compensation policies are designed to (1) align the interests of executive officers with those of stockholders by encouraging stock ownership by executive officers and by making a significant portion of executive compensation dependent on our financial performance, (2) provide compensation that will attract and retain talented professionals, (3) reward individual results through base salary, annual cash bonuses, long-term incentive

[Back to Contents](#)

compensation in the form of stock options and various other benefits and (4) manage compensation based on skill, knowledge, effort and responsibility needed to perform a particular job successfully.

In establishing salary, bonuses and long-term incentive compensation for its executive officers, the compensation committee takes into account both the position and the expertise of a particular executive, as well as the committee's understanding of competitive compensation for similarly situated executives in our sector of the technology industry.

Executive Compensation

Base Salary. Salaries for executive officers for 2002 were generally determined by the compensation committee on an individual basis in connection with the determination of the terms of such executive's applicable employment agreement, based on the following criteria: such executive's scope of responsibility, performance, prior experience and salary history, as well as the salaries for similar positions at comparable companies.

Bonus. The amount of bonuses paid to executives for 2002 was based on the financial results of our company (as well as, in the case of Mr. Reiss, the satisfaction of the conditions in the formula set forth in his employment agreement). Mr. Reiss received a cash bonus of \$75,000 for 2002 as a result of satisfaction of those conditions. Messrs. Flotron, Birkhahn, and Brandofino, as well as Ms. Harman, were also paid bonuses in respect of their services during 2002 in the form of stock option grants to purchase 50,000, 20,000, 20,000 and 10,000 shares of our common stock, respectively.

Long-Term Incentive Awards. The compensation committee believes that equity-based compensation in the form of stock options links the interests of executives with the long-term interests of our company's stockholders and encourages executives to remain in our company's employ. We grant stock options in accordance with our various stock option plans. Grants are awarded based on a number of factors, including the individual's level of responsibility, the amount and term of options already held by the individual, the individual's contributions to the achievement of our financial and strategic objectives, and industry practices and norms.

Compensation of the Chief Executive Officer

Mr. Reiss, who served as ACC's Chairman of the Board of Directors, President and Chief Executive Officer from its formation in 1991 until May 2000, and has served as Wire One's Chairman and Chief Executive Officer since its formation in May 2000 and as Wire One's President from May 2000 until April 2002, was paid a base salary of \$379,250 in 2002. As noted above, he was also paid a cash bonus of \$75,000 for his services in 2002.

Effective January 1, 2001, we entered into an employment agreement with Mr. Reiss (see "Employment Agreements") pursuant to which he serves as Chief Executive Officer. Mr. Reiss's salary and other compensation and the terms of his employment agreement have been established by reference to the salaries and equity participations of chief executive officers of other companies in our industry and related industries, and in recognition of Mr. Reiss's unique skills and importance to our company.

On April 24, 2002, Mr. Reiss was named Chairman and Chief Executive Officer and his agreement was amended to subject the formula bonus to satisfaction of the condition that we have \$500,000 in EBITDA from continuing operations during a given quarter in addition to the gross revenue condition. On July 30, 2002, the agreement was amended to reduce annual base compensation to \$369,000 for the remainder of year two and to \$432,000 in year three. Effective January 1, 2003, the agreement was further amended to reduce annual base compensation to \$330,000 and the formula bonus was replaced with a discretionary bonus for the remaining term.

Internal Revenue Code Section 162(m) Limitation

Section 162(m) of the Internal Revenue Code, enacted in 1993, generally disallows a tax deduction to publicly held companies for compensation exceeding \$1 million per year paid to certain executive officers. The limitation applies only to compensation that is not considered to be performance-based. The non-

[Back to Contents](#)

performance based compensation paid to our company's executive officers in 2002 did not, in the case of any such officer, exceed the \$1 million per year limit. The compensation committee generally intends to limit the dollar amount of all non-performance based compensation payable to our executive officers to no more than \$1 million per year.

Compensation Committee Interlocks and Insider Participation

Peter Maluso, James Kuster, Michael Sternberg and Michael Toporek served as members of the compensation committee of the board of directors during 2002. No member of the compensation committee was at any time during 2002 or at any other time an officer or employee of our company. No member of the compensation committee served on the board of directors or compensation committee of any entity that has one or more executive officers serving as a member of the board or our compensation committee.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The landlord for our Hillside, New Jersey office is Vitamin Realty Associates, L.L.C., of which Eric Friedman, a member of our board until June 2001, is a member. The lease term is for five years and expires on April 30, 2005. The base rental for the premises during the term of the lease is approximately \$162,000 per year. In addition, we must pay our share of the landlord's operating expenses (i.e., those costs or expenses incurred by the landlord in connection with the ownership, operation, management, maintenance, repair and replacement of the premises, including, among other things, the cost of common area electricity, operational services and real estate taxes). For the years ended December 31, 2002, 2001 and 2000, rent expense associated with this lease was \$252,000, \$295,000 and \$225,000, respectively. We believe that the lease reflects a fair rental value for the property and is on terms no less favorable than we could obtain in an arm's length transaction with an independent third party.

We receive financial and tax services from Schneider & Associates LLP, an accounting firm in which Dean Hiltzik, one of our directors, is a partner. Since Mr. Hiltzik became a director of ACC on September 15, 1999, we have incurred fees of approximately \$250,000 for services received from this firm, \$33,000 of which were incurred in 2002. We also entered into a consulting agreement with Mr. Hiltzik, dated January 2, 2001, for the provision of tax and financial services for one year. Mr. Hiltzik received an option to purchase 30,000 shares of common stock at an exercise price of \$3.94 per share pursuant to that agreement.

We entered into a one-year consulting agreement, commencing July 22, 2002, with Lewis Jaffe, one of our directors, pursuant to which Mr. Jaffe serves as a management consultant to our company in the areas of corporate development and investor relations. In consideration for these services, we granted Mr. Jaffe an option to purchase 50,000 shares of our common stock at an average exercise price of \$3.00 per share vesting in ten installments of 5,000 shares per month commencing September 30, 2002. We entered into a one-year consulting agreement, dated September 21, 2001, with Mr. Jaffe pursuant to which Mr. Jaffe served as a management consultant to our company in the areas of corporate development and investor relations. In consideration for these services, we granted Mr. Jaffe an option to purchase 30,000 shares of our common stock at an exercise price of \$5.16 per share.

In March 2002, Wire One made a recourse loan to Leo Flotron, a member of our board of directors, in the amount of \$69,960 with a 5.25% rate of interest. We extended the loan to Mr. Flotron to enable him to exercise options (scheduled to expire imminently) to purchase 33,000 shares of common stock. Mr. Flotron repaid the loan in full in March 2003.

We entered into a consulting agreement dated as of March 7, 2003 with Innovative Strategies & Management, of which Michael Sternberg, one of our directors, is the managing partner. Pursuant to this agreement, Innovative Strategies & Management will provide consulting services related to our Glowpoint business in consideration for \$24,000.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934, as amended, requires executive officers and directors and persons who beneficially own more than 10% of a registered class of our equity securities to file reports of ownership and changes in ownership with the Securities and Exchange Commission. Executive officers, directors and greater than 10% stockholders are required by regulations of the Securities and Exchange Commission to furnish us with copies of all Section 16(a) reports they file.

Based solely on our review of the copies of reports we received, or written representations that no such reports were required for those persons, we believe that, for 2002, all statements of beneficial ownership required to be filed with the Securities and Exchange Commission were filed on a timely basis except as follows: one late report on Form 4 was filed for each of James Kuster and Peter Maluso in connection with their receipt of options in consideration for their attendance at meetings of the board of directors; one late Form 5 was filed for Laura Kenny, a former director, reporting one transaction for options she received in consideration for her attendance at audit and compensation committee meetings.

**PROPOSAL NO. 4 -
APPROVAL OF AMENDMENT TO THE 2000 STOCK INCENTIVE PLAN**

Our stockholders are being asked to approve an amendment to our 2000 Stock Incentive Plan that will increase the number of shares reserved for issuance under the plan by 2,100,000 shares, none of which will be available for grants of awards of restricted stock (as defined in the plan).

The plan is an important component of our competitive compensation package. The amendment to the plan will enable us to continue to grant awards as needed to attract officers, directors, employees and other service providers. The 2000 plan is intended to enhance our ability to provide individuals with awards and incentives commensurate with their contributions and competitive with those offered by other employers. The increase in the number of shares reserved for issuance under the plan is integral to our compensation strategies and programs. The use of stock options and other stock awards among technology companies is widely prevalent. The increase in the number of shares reserved for issuance under the plan will allow us to maintain the flexibility that we need to keep pace with our competitors and effectively recruit, motivate, and retain the caliber of officers, directors and employees essential for our success. It is also intended to increase stockholder value by further aligning the interests of these individuals with the interests of our stockholders by providing an opportunity to benefit from stock price appreciation that generally accompanies improved financial performance.

Required Vote and Board Recommendation

The affirmative vote of a majority of the shares present in person or by proxy at the annual meeting and entitled to vote is required for the adoption of Proposal No. 4. The board of directors recommends a vote for approval of the amendment to the 2000 plan.

The following summary of the plan, including the proposed amendment, is subject in its entirety to the specific language of the Plan, a copy of which is attached hereto as Appendix D.

General Description

The 2000 plan was adopted by the board of directors in June 2000 and approved by our stockholders in September 2000. On June 24, 2003, the board approved an amendment to the plan, conditioned on and not to take effect until approved by our stockholders, to increase the number of shares of common stock reserved for issuance under the plan by 2,100,000, none of which will be available for grants of awards of restricted stock (as defined in the plan). Subject to adjustment to reflect certain corporate events, such as stock dividends, recapitalizations and business combinations, the current maximum aggregate number of shares of common stock that may be issued pursuant to all awards (as defined below) is 4,400,000.

The purposes of the 2000 plan are to attract and retain the best available personnel, to provide additional incentives to employees or directors or consultants to our company or our affiliates, and to promote the success of our company's business. As of June 18, 2003, options to purchase a total of 6,024,891 shares held by 215 optionees were outstanding at an average exercise price of \$3.16 per share, and 978,850 shares remained available for future grant under the plan. As of the same date, the closing price of our shares was \$2.54, and the number of employees, directors and consultants eligible to receive grants under the 2000 plan was approximately 257.

Administration. With respect to awards granted to directors or officers, the 2000 plan is administered by the board, the stock option committee or by any other committee designated by the board that is constituted in such a manner as to permit such grants and related transactions under the plan to be exempt from Section 16(b) of the Securities Exchange Act of 1934, as amended. With respect to awards granted to other participants, the plan is administered by the board, the stock option committee or by one or more other committees designated by the board. Once appointed, the committee continues to serve in its designated capacity until otherwise directed by the board. In each case, the board, the stock option committee or such other committees (the board, the stock option committee or such other committees are referred to as the "administrator") will determine the provisions, terms and conditions of each award as discussed below.

[Back to Contents](#)

The administrator has the authority, in its discretion, to construe and interpret any provision of the 2000 plan, and to determine the terms and conditions (not inconsistent with the terms of the 2000 plan) of awards thereunder, including without limitation: (1) determination of the exercise or purchase price of awards granted and the vesting and exercisability thereof, the number of shares subject to an award, and which employees, directors and consultants will receive awards; (2) approval of the forms of agreement under the 2000 plan; (3) modification or amendment of any award granted under the 2000 plan; and (4) determination of the provisions, terms and conditions of each award.

Awards. The 2000 plan permits the grant of options and other equity rights, including stock appreciation rights, sales or bonuses of restricted stock, dividend equivalent rights, performance units or performance shares, or any combination of these (collectively, the awards). Options may include nonstatutory stock options (NSOs), as well as incentive stock options (ISOs), intended to qualify for special tax treatment. Options granted under our plans generally vest 25% per year annually over a four-year period. The term of an option will be determined by the administrator, provided, however, that the term will be no more than ten and five years, respectively, for ISOs issued to employees who are less than 10% stockholders and employees who are 10% stockholders.

The exercise price or purchase price, if any, of the 2000 plan awards that are not ISOs will not be less than 85% of the fair market value of the stock unless otherwise determined by the administrator. The exercise price or purchase price, if any, of the 2000 plan awards that are ISOs (a) granted to an employee who, at the time of such grant, owns stock representing more than 10% of the voting power of all classes of our company's stock or any parent or subsidiary, will be not less than 110% of the fair market value of the stock on the date of the grant or (b) granted to any employee other than an employee described in clause (a) above, will be not less than 100% of the fair market value of the stock on the date of the grant. The form of payment for the shares of common stock when options are exercised or stock is purchased under the 2000 plan award will be determined by the administrator and may include cash, check, shares of common stock or the assignment of part of the proceeds from the sale of shares acquired upon exercise or purchase of the award.

Where the award agreement permits the exercise or purchase of an award for a period of time following the recipient's termination of service with us, that award will terminate to the extent not exercised or purchased on the last day of the specified period or the last day of the original term of the award, whichever occurs first.

Amendment and Termination. The 2000 plan will continue in effect until June 2010, unless sooner terminated by the board. The board may amend the 2000 plan at any time or from time to time or may suspend or terminate it, without approval of the stockholders, except as required by law. However, no action by the board or stockholders may alter or impair any award previously granted under the 2000 plan.

Other Terms. Subject to any action that may be required by our stockholders, the administrator may, in its discretion, proportionately adjust the number and price of outstanding awards, and the number of shares authorized for issuance under the 2000 plan, in the event of a stock dividend, stock split, recapitalization or other corporate action having a similar effect on our capitalization. The administrator may establish programs that provide for the exchange of awards for one or more other types of awards by certain employees, directors, or consultants. In the event of a corporate transaction (as defined in the 2000 plan), all outstanding options will fully vest unless assumed by the successor corporation, and all unexercised options will terminate immediately prior to the closing of that transaction unless assumed by the successor corporation. If, after consummation of a corporate transaction or following a change of control (as defined in the 2000 plan), an employee grantee is terminated without cause or quits for good reason (as such terms are defined in the 2000 plan) within 12 months of the transaction, all of the employee grantee's outstanding options will immediately vest.

Plan Benefits

As of the date of this proxy statement, no executive officer, director and no associate of any executive officer or director, has been granted any options subject to stockholder approval of the proposed amendment.

[Back to Contents](#)

The benefits to be received pursuant to the amendment to the 2000 plan by our executive officers, directors and employees are not determinable at this time.

Certain Federal Income Tax Consequences

The following is only a brief summary of the effect of federal income taxation on the recipient of an award under the 2000 plan and does not purport to be a complete description of the tax consequences of the 2000 plan.

Incentive stock options under the 2000 plan are intended to be eligible for the favorable federal income tax treatment accorded [incentive stock options] under Section 422 of the Code. There are generally no federal income tax consequences to the optionee or our company by reason of the grant or exercise of an ISO. If an optionee holds stock for more than two years from the date on which the ISO is granted and more than one year from the date on which the shares are transferred to the optionee upon exercise of the ISO, any gain or loss on a disposition of such stock will be long-term capital gain or loss. In this event, our company will not be allowed a business expense deduction with respect to the disposition of shares. However, if the optionee disposes of the stock before the expiration of either of the above-stated holding periods, a Disqualifying Disposition, at the time of disposition the optionee will realize taxable ordinary income equal to the lesser of (1) the excess of the fair market value on the date of exercise over the exercise price, or (2) the optionee's actual gain, if any, on the purchase and sale. The optionee's additional gain or any loss upon the disqualifying disposition will be a capital gain or loss, which will be long-term or short-term depending on whether the stock was held for more than one year. To the extent the optionee recognizes ordinary income by reason of a disqualifying disposition, our company will be entitled (subject to the requirement of reasonableness and perhaps, in the future, the satisfaction of a withholding obligation) to a corresponding business expense deduction in the tax year in which the disposition occurs.

It is important to note that the exercise of an ISO may increase an optionee's alternative minimum tax liability. This is because the difference between the exercise price of an ISO and the fair market value of the shares on the date of exercise must be claimed as an item of adjustment for alternative minimum tax purposes. If an optionee's alternative minimum tax liability exceeds his or her regular income tax liability, such optionee will owe the larger amount of taxes. In order to avoid the application of alternative minimum tax with respect to ISOs, the optionee must sell the shares within the same calendar year in which the ISOs were exercised. However, such a sale of shares within the same year of exercise will constitute a disqualifying disposition, causing the optionee to realize taxable ordinary income, as in the paragraph above.

There generally are no tax consequences to the optionee or our company by reason of the grant of a non-qualified stock option. Upon exercise of a non-qualified stock option, the optionee will recognize taxable ordinary income equal to the excess of the stock's fair market value on the date of exercise over the exercise price. Generally, with respect to employees, we are required to withhold from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Subject to the requirement of reasonableness and the satisfaction of any withholding obligation, we will be entitled to a business expense deduction equal to the taxable ordinary income realized by the optionee. Upon disposition of stock, the optionee will recognize a capital gain or loss equal to the difference between the selling price and the sum of the amount paid for such stock plus any amount recognized as ordinary income upon exercise of the option. Such gain or loss will be long-term or short-term depending on whether the stock was held for more than one year.

Stock grants, restricted stock grants and restricted stock purchases granted under the 2000 plan have certain federal income tax consequences. Generally, a recipient of stock under the 2000 plan would recognize ordinary income equal to the difference between the market value of the stock on the grant or purchase date and any amount paid or required to be paid for the stock. If the stock is restricted and subject to vesting, then the recipient of the stock would recognize ordinary income as the restrictions are removed and the stock vests. On each vesting date, the recipient would recognize ordinary income equal to the difference between the fair market value of the shares of stock that have vested on such date and any amount paid or required to be paid for the shares of stock. The recipient of the stock would not recognize any income to the extent the rights to the stock have not vested. A recipient of stock under the 2000 plan, however, may make a Section

[Back to Contents](#)

83(b) election whereby the recipient elects to be taxed at the grant date at ordinary income rates on the difference between the fair market value of the stock on the grant or purchase date (such valuation taking into account only those restrictions, if any, on the stock and the risk of forfeiture thereof that will never lapse) and any amount paid by the recipient for the stock.

With respect to employees, we are required to withhold from regular wages or supplemental wage payments an amount based on the ordinary income recognized. Subject to the requirement of reasonableness and the satisfaction of any withholding obligation, we will be entitled to a business expense deduction equal to the taxable ordinary income realized by the recipient. Upon disposition of stock, the recipient will recognize a capital gain or loss equal to the difference between the selling price and the sum of the amount paid for such stock plus any amount recognized as ordinary income. Such gain or loss will be long-term or short-term depending on whether the stock was held for more than one year.

Recipients of stock appreciation rights generally should not recognize income until such rights are exercised (assuming there is no ceiling on the value of the right). Upon exercise, the participating individual will normally recognize ordinary compensation income for federal income tax purposes equal to the amount of cash and the fair market value of stock, if any, received upon such exercise. Participating individuals who are employees will be subject to withholding with respect to income recognized upon exercise of a stock appreciation right. We will be entitled to a tax deduction to the extent and in the year that ordinary income is recognized by the participating individual, so long as we withhold the appropriate taxes with respect to such income and the individual's total compensation is deemed reasonable in amount. Participating individuals will recognize gain upon the disposition of any stock received on exercise of a stock appreciation right equal to the excess of (1) the amount realized on such disposition over (2) the ordinary income recognized with respect to such stock under the principles set forth above. That gain will be taxable as long-term or short-term capital gain depending on whether the stock was held for more than one year.

PROPOSAL NO. 5 - RATIFICATION OF APPOINTMENT OF INDEPENDENT AUDITORS

General

The audit committee, composed entirely of independent, non-employee members of the board of directors has appointed the firm of BDO Seidman, LLP as independent auditors to audit the consolidated financial statements of our company and its subsidiaries for fiscal 2003 and is asking the stockholders for ratification of the appointment. Stockholder ratification is not required by our company's bylaws or under any other applicable legal requirement. If the stockholders do not approve the selection of BDO Seidman, the audit committee will reconsider the appointment.

BDO Seidman has audited our company's consolidated financial statements since 2000. As our independent auditors, BDO Seidman would audit our consolidated financial statements for fiscal 2003 and perform audit-related services and consultation in connection with various accounting and financial reporting matters. BDO Seidman also performs certain non-audit services for our company. The audit committee has determined that the provision of the services provided by BDO Seidman as set forth herein are compatible with maintaining BDO Seidman's independence and the prohibitions on performing non-audit services set forth in the Sarbanes-Oxley Act and relevant Securities and Exchange Commission rules.

BDO Seidman will have a representative present at the annual meeting who will be available to respond to appropriate questions. The representative will also have the opportunity to make a statement if he or she desires to do so.

Audit Fees

BDO Seidman has billed us \$159,154 in the aggregate for professional services rendered by it for the audit of our annual financial statements for the 2002 fiscal year and the reviews of the financial statements included in our quarterly reports on Form 10-Q for the 2002 fiscal year.

Financial Information Systems Design and Implementation Fees

BDO Seidman did not render professional services to us relating to financial information systems design and implementation as described in paragraph (c)(4)(ii) of Rule 2-01 of Regulation S-X during the 2002 fiscal year.

All Other Fees

Fees billed to us by BDO Seidman during the 2002 fiscal year for all other services rendered to us relate primarily to filings with the Securities and Exchange Commission audits, and totaled \$10,050.

Required Vote and Board Recommendation

Approval of the independent auditor proposal requires the affirmative vote of a majority of the votes cast by holders of common stock present at the annual meeting in person or by proxy entitled to vote. The board of directors recommends that stockholders vote for the ratification of the selection of BDO Seidman as our independent auditors for the fiscal year ending December 31, 2003.

**PROPOSAL NO. 6 -
ADJOURNMENT OR POSTPONEMENT OF THE ANNUAL MEETING**

Our board of directors is requesting that the stockholders approve an adjournment or postponement of the annual meeting, to solicit additional proxies, to such time and place as designated by the presiding officer of the meeting. SECTION 2.2 Consideration for Sale and Conveyance.

(a) **Purchase Price.** Subject to the terms and conditions of this Agreement, in reliance upon the representations, warranties and agreements of Seller contained herein, and in full consideration of the aforesaid sale, conveyance and delivery of the Assets, the purchase price (the "Purchase Price") shall be an amount equal to \$23,000,000, as adjusted pursuant to Section 2.3, payable by Buyer to Seller in immediately available funds to the Purchase Price Bank Account, as follows: (i) \$20,000,000 at Closing (the "Cash Payment"), as adjusted pursuant to Section 2.3; (ii) \$2,000,000 (the "Holdback Amount") at such time as the Net Assets are fully and finally determined pursuant to Section 2.3(d); (iii) an unsecured promissory note in the principal amount of \$1,000,000, such promissory note to be substantially in the form of Exhibit 2.2(a) attached hereto (the "Note");

(b) **Post-Closing Additional Payments.** Purchaser shall pay to Seller such additional payments as are required by Section 2.5.

(c) **Allocation of Purchase Price.** Exhibit 2.2(c) attached hereto is a preliminary allocation of the Purchase Price among the Assets. Promptly following the Closing, the final allocation (the "Final Allocation") will be prepared by Buyer in a manner consistent with the Exhibit attached hereto and presented to Seller for Seller's approval, which approval shall not be unreasonably withheld. Seller and Buyer each agree (a) to report the sale of the Purchased Assets for Tax purposes in accordance with the allocations set forth on the Final Allocation and to follow the allocations set forth on the Final Allocation in determining and reporting their liabilities for any Taxes, (b) without limitation, not to take any position inconsistent with such allocations on any of its Tax Returns, and (c) to timely file federal tax Form 8594 with the applicable Tax Return for the year of this transaction reflecting such Purchase Price allocations.

(d) **Assumption of Liabilities.** Except as specifically provided herein, Buyer is not assuming, or becoming responsible for, any liabilities, obligations or debts of Seller and, except as set forth herein, Seller shall remain liable for all of its liabilities, obligations and debts. On the terms and subject to the conditions of this Agreement, Buyer is hereby assuming the following liabilities of Seller (collectively, the "Assumed Liabilities"):

- (i) any Liabilities to be paid or performed after the Closing Date that arise from or out of the performance or non-performance by Buyer after the Closing Date of any Contracts included in the Assets and as set forth in Sections 2.1(a)(iv) or 2.1(a)(v) of the Disclosure Schedule hereto or entered into after the date hereof in accordance with the terms hereof, including under any such extended warranty, customer support, upgrade or product delivery contracts for Sales Inventory, but not including (1) any liability, obligation or commitment of Seller for any breach thereof by Seller or a predecessor-in-interest occurring prior to the Closing Date or on or after the Closing Date solely with respect to any obligations of Seller or such predecessor-in-interest arising under any such contract prior to the Closing Date, or (2) liabilities as of the Closing Date of the type required by GAAP to be reflected on the Closing Statement for future performance of such obligations in excess of the amount with respect thereto as reflected on the Closing Statement (as finally determined); and

[Back to Contents](#)

(ii) the accounts payable, customer deposits, deferred revenue and accrued liabilities listed on Section 2.2(d)(ii) of the Disclosure Schedule, but not including any such liability to the extent that (A) it exceeds the amount with respect thereto set forth on the Closing Statement (as finally determined) and (B) it evidences any intercompany obligation of the Seller and its subsidiaries.

(e) Except for the Assumed Liabilities specifically set forth in Section 2.2(d) above, Seller shall retain, and shall remain responsible for paying, performing and discharging when due, and Buyer shall not assume or have any responsibility for, all Liabilities of Seller as of the Closing Date (collectively, the Excluded Liabilities).

SECTION 2.3 Minimum Net Assets.

(a) No later than ten business days after the Measurement Date, Seller shall deliver to Buyer a good faith estimate substantially in the form of Exhibit 2.3(a), reasonably acceptable to Buyer, of a statement of the Assets and the Assumed Liabilities of the Business as of the Measurement Date (the Closing Statement), prepared in accordance with GAAP, and including a computation in accordance with such data of the estimated Net Assets of the Business as of the Measurement Date, together with the detailed work papers which support the Estimated Closing Statement. The Cash Payment shall be decreased by the amount by which the sum of the Net Assets at the Measurement Date is less than \$15,000,000 (the Closing Cash Adjustment).

(b) Buyer shall have the right to review the books and records of Seller and the Business for a period of ninety (90) days after the Closing Date (or such reasonable extension thereof as approved by Seller, such approval not to be unreasonably withheld) to verify and confirm the accuracy thereof. If, after such review, Buyer agrees with the Closing Statement, Buyer shall promptly (and in any event within ninety (90) days after the Closing Date or approved extension) notify Seller of its agreement. If, after such review, Buyer objects to the Closing Statement, Buyer shall promptly (and in any event within ninety (90) days after the Closing Date or approved extension) provide Seller with a statement indicating the basis for its objections, and Buyer and Seller shall meet and confer in an effort to resolve such disagreement in good faith.

(c) In the event that Buyer and Seller are unable to resolve a disagreement with respect to the Closing Statement within ten (10) days following the date of Buyer's objection (or such longer period as Buyer and Seller may agree), the Net Assets shall be determined by PricewaterhouseCoopers LLP or such other independent firm of certified public accountants mutually agreeable to Buyer and Seller (the Accountants). If issues in dispute are submitted to the Accountants for resolution, (i) each party shall furnish to the Accountants such work papers and other documents and information relating to the disputed issues as the Accountants may request and are available to that party, and shall be afforded the opportunity to present to the Accountants any material relating to the determination and to discuss the determination with the Accountants; (ii) the determination by the Accountants of the Net Assets as set forth in a notice delivered to both parties by the Accountants, will be binding and conclusive on the parties; and (iii) the fees and expenses of the Accountants for such determination shall be paid by the parties based upon the degree to which the Accountants accept the respective positions of the parties. For example, if it is Buyer's position that the adjustment owed by Seller to Buyer is \$300, Seller's position that the adjustment owed by Seller to Buyer is \$100 and the Accountants' finding that the adjustment owed by Seller to Buyer is \$150, then Buyer shall pay 75% (300-150 / 300-100) of the Accountants' fees and expenses and Seller shall pay 25% (150-100 / 300-100) of the Accountants' fees and expenses. Other than the expense of retaining the Accountants, the expense of preparing the Closing Statement shall be borne by Seller.

(d) Upon the determination of the Net Assets pursuant to either the agreement of the parties or the determination of the Accountants, the parties shall recompute the Net Assets and the Purchase Price using the Net Assets as so agreed or determined (the Final Cash Adjustment). Within three (3) business days of such agreement or determination, in the event that the Purchase Price based on the Closing Cash Adjustment exceeds the Purchase Price based on the Final Cash Adjustment, then Buyer shall deduct the amount of such excess from the Holdback Amount and promptly pay the remainder, if

[Back to Contents](#)

any, of the Holdback Amount, together with interest thereon at the rate of 5% from the date on which any dispute is submitted to the Accountants pursuant to subsection (c) above through and including the date of payment, to Seller by wire transfer of immediately available funds. If the amount of such excess exceeds the Holdback Amount, Seller will promptly pay to Buyer by wire transfer of immediately available funds, the amount by which such excess exceeds the Holdback Amount, together with interest thereon at the rate of 5% from the date on which any dispute is submitted to the Accountants pursuant to subsection (c) above through and including the date of payment. If the Cash Payment was decreased under Section 2.3(a) and the Purchase Price based on the Final Cash Adjustment exceeds the Purchase Price based on the Closing Cash Adjustment, the Buyer shall promptly pay such excess to Seller by wire transfer of immediately available funds.

SECTION 2.4 Closing.

(a) Closing. The closing (the [Closing]) of the purchase and sale of the Assets provided for in this Agreement shall take place at the offices of Morrison & Foerster LLP at 10:00 a.m. New York time on the second Business Day following the satisfaction or waiver of all other conditions to the obligations of the parties set forth in Article VII (other than those conditions which by their terms are to be satisfied or waived as of the Closing), or at such other place or at such other time or on such other date as Seller and Buyer may mutually agree upon in writing (the day on which the Closing takes place being the [Closing Date]). All transactions occurring at the Closing shall be deemed to have occurred simultaneously as of the Closing Time, and no one transaction shall be complete until all transactions have been completed.

(b) Closing Deliveries by Seller. On the terms and subject to the conditions of this Agreement, at and as of the Closing, Seller shall deliver or cause to be delivered to Buyer:

(i) the Bill of Sale and such other instruments, in customary form and substance, as may reasonably be requested by Buyer to transfer the Assets to Buyer or evidence such transfer on the public records;

(ii) an executed counterpart of the Assumption Agreement;

(iii) an executed counterpart of each of the Real Estate Agreements required to be executed by Seller;

(iv) an executed counterpart of the Transition Services Agreement; and

(v) the certificates and other documents required to be delivered pursuant to Section 7.2.

(c) Closing Deliveries by Buyer.

(i) On the terms and subject to the conditions of this Agreement, at and as of the Closing, Buyer shall deliver to Seller:

(ii) the Cash Payment, payable by wire transfer in immediately available funds to the Purchase Price Bank Account;

(iii) an executed counterpart of the Assumption Agreement;

(iv) an executed counterpart of each of the Real Estate Agreements required to be executed by Buyer;

(v) an executed counterpart of the Transition Services Agreement; and

(d) the certificates and other documents required to be delivered pursuant to Section 7.1.

SECTION 2.5 Post-Closing Additional Payments

(a) Buyer shall pay to Seller within sixty (60) days following the last day of each of the first two (2) years after the Closing Date ending on June 30, 2004 and June 30, 2005, respectively, additional payments equal to five percent (5.0%) of the sum of (1) Total Net Revenues plus (2) the annual revenues

[Back to Contents](#)

derived from the Pierce Technology Services, Inc. (formerly Forgent Networks, Inc.) videoconferencing services business for such year in excess of Ninety-Six Million Dollars (\$96,000,000) (the "Additional Payments"); provided, however, that in no event shall Buyer be obligated to pay Seller additional payments pursuant to this Section such that the aggregate amount of such payments would exceed Two Million Dollars (\$2,000,000), and provided further, that upon a sale of substantially all of the assets of the Business by Buyer prior to June 30, 2005, whether by merger, sale of stock or sale of assets, for total consideration that is greater than Thirty-Five Million Dollars (\$35,000,000), Buyer shall pay to Seller Two Million Dollars (\$2,000,000) less the sum of any Additional Payments previously paid. Concurrently with each payment, Buyer shall provide Seller with a certificate, signed by its chief financial officer, showing the computation of such payment.

(b) Each payment under Section 2.5(a) shall be accompanied by a reasonably detailed statement of the computation of the amount thereof. Not more than once in any calendar year, Seller shall have the right to audit any of Buyer's books of account, documents, records, papers and files relating to the payments under Section 2.5(a). Seller shall complete such audit within sixty (60) days of its commencement. If Seller has any objections to the computations, Seller will deliver detailed statements describing its objections to Buyer within twenty (20) days after the completion of such audit. The parties will use their reasonable efforts to resolve any such Seller's objections. If, however, the parties do not obtain final resolution of this matter within 20 days after Buyer has received the statements of objections, the dispute shall be referred to the Accountants. The parties will cooperate with the Accountants. The Accountants' determination of such payment shall be binding upon all parties. Buyer and Seller will share responsibility for the fees and expenses of the Accountants based on the degree to which the Accountants accept the respective positions of the parties, as conclusively determined by the Accountants. For example, if it is Buyer's position that the payment owed by Buyer to Seller is \$100, Seller's position that the payment owed by Buyer to Seller is \$300 and the Accountants' finding that the payment owed by Buyer to Seller is \$250, then Buyer shall pay 75% (i.e., $(250-100/300-100)$) of the Accountants' fees and expenses and Seller shall pay 25% (i.e., $(300-250/300-100)$) of the Accountants' fees and expenses.

This Agreement has been, and upon their execution the Ancillary Agreements will be, duly executed and delivered by Seller, and (assuming due authorization, execution and delivery by Buyer) this Agreement constitutes, and upon their execution the Ancillary Agreements will constitute, legal, valid and binding obligations of Seller enforceable against Seller in accordance with their respective terms, except as enforceability may be limited by bankruptcy, insolvency, reorganization, moratorium and other similar laws and equitable principles related to or limiting creditors' rights generally and by general principles of equity.

SECTION 3.3 No Conflict

Assuming the making and obtaining of all filings, notifications, consents, approvals, authorizations and other actions referred to in Section 3.4, except as may result from any facts or circumstances relating solely to Buyer, the execution, delivery and performance of this Agreement and the Ancillary Agreements by Seller does not and will not (a) violate, conflict with or result in the breach of any provision of the Certificate of Incorporation or By-Laws of Seller, (b) conflict with or violate any Law or Governmental Order applicable to Seller, or the Assets or the Business, (c) conflict with, result in any breach of, constitute a default (or event which with the giving of notice or lapse of time, or both, would become a default) under, require any consent under, or give to others any rights of termination, amendment, acceleration, suspension, revocation or cancellation of, any License or contract included in the Assets, or result in the creation of any Encumbrance on any of the Assets, or (d) result in the payment by, or the creation of any obligation (absolute or contingent) to pay on behalf of, the Seller or Business of any severance, termination, "golden parachute," or other similar payment pursuant to any employment agreement or contract or the triggering of any severance notice obligation with respect to any of the Transferred Employees, except, with respect to clauses (b) and (c), for such conflicts, violations, breaches, defaults or Encumbrances which, individually or in the aggregate, would not reasonably be expected to have a Material Adverse Effect.

SECTION 3.4 Governmental Consents and Approvals

The execution, delivery and performance of this Agreement and each Ancillary Agreement by Seller does not and will not require any consent, approval, authorization or other order of, action by, filing with or notification to, any Governmental Authority, except any filings with Governmental Authorities necessary to obtain the required approval of this Agreement and the transactions contemplated hereby by the stockholders of Seller.
