Use of Non-GAAP Financial Information

Shutterfly has supplemented the financial measures contained in the attached press release that are provided in accordance with generally accepted accounting principles (“GAAP”) with non-GAAP financial measures. Shutterfly believes that these non-GAAP financial measures provide useful information about its core operating results and thus are appropriate to enhance the overall understanding of its past financial performance and its prospects for the future. These adjustments to Shutterfly’s GAAP results are made with the intent of providing both management and investors a more complete understanding of Shutterfly’s underlying operational results and trends and performance. Management uses these non-GAAP measures to evaluate Shutterfly’s financial results, develop budgets, manage expenditures and determine employee compensation. The methods used by Shutterfly to produce non-GAAP financial results may differ from the methods used by other companies. Shutterfly’s reference to these non-GAAP financial results should be considered in addition to results that are prepared under current accounting standards but should not be considered as a substitute for, or superior to, the financial results that are presented as consistent with GAAP. Reconciliation to the nearest GAAP financial measures of the non-GAAP financial measures is included in the press release attached hereto as Exhibit 99.1.
