IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

1. The Group's business and general information

IRSA Inversiones y Representaciones Sociedad Anónima ("IRSA", "the Company" / "Us" or "the Society") was founded in 1943 and is engaged in a diversified range of real estate activities in Argentina since 1991.

IRSA and its subsidiaries are collectively referred to hereinafter as "the Group".

As of March 31, 2013, the Group operates in six business segments. See Note 5 for a description of such segments.

Group's real estate business operations are conducted primarily through IRSA and IRSA's principal subsidiary, Alto Palermo S.A. ("APSA"). Through APSA, the Group primarily owns, manages and develops shopping centers across Argentina. The Group primarily owns, manages and develops a portfolio of office and other rental properties in the Autonomous City of Buenos Aires, and it entered the US real estate market in 2009, mainly through the acquisition of non-controlling interests in office buildings and hotels (see Note 3). Through IRSA or APSA, the Group also develops residential properties for sale. The Group, through IRSA, is also involved in the operation of branded hotels. The Group uses the term "real estate" indistinctively in these consolidated financial statements to denote investment, development and/or trading properties activities.

The activities of the Group's segment "Financial operations and others" is carried out mainly through Banco Hipotecario S.A. ("BHSA"), where IRSA has a 29.77% interest (without considering treasury shares of our own). BHSA is a commercial bank offering a wide variety of banking activities and related financial services to individuals, small and medium-sized companies and large corporations, including the provision of mortgaged loans. BHSA's shares are listed on the Buenos Aires Stock Exchange ("BASE"). Besides that, the Group has a 42.95% interest in Tarshop S.A. ("Tarshop") which main activities are credit card and loan origination transactions.

IRSA's shares are listed and traded on both the BASE and the New York Stock Exchange ("NYSE"). APSA's shares are listed and traded on both the BASE and the NASDAQ of USA.

Cresud is the ultimate parent company and is a corporation incorporated and domiciled in Argentina. The address of its registered office is Moreno 877, Floor 23, Autonomous City of Buenos Aires, Argentina.

These Unaudited Condensed Interim Consolidated Financial Statements have been approved for issuance by the Board of Directors on May 17, 2013.

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”)

2.1 Basis of preparation and transition to IFRS

The National Securities Commission, (“CNV”, as per its Spanish acronym), through General Resolutions No. 562/09 and 576/10, has provided for the application of Technical Resolutions No. 26 and 29 of the Argentine Federation of Professional Councils of Economic Sciences (as per its Spanish acronym “FACPCE”), which adopt the International Financial Reporting Standards (“IFRS”), issued by the International Accounting Standards Board (“IASB”), for companies subject to the public offering regime ruled by Law 17,811, due to the listing of their shares or corporate notes, and for entities that have applied for authorization to be listed under the mentioned regime.

The Group is required to adopt IFRS as from the fiscal year beginning July 1st, 2012, being these financial statements the first interim financial statements for the nine-month periods prepared under those standards. Consequently, the Group’s transition date for the adoption of IFRS is July 1st, 2011.

The Unaudited Condensed Interim Consolidated Financial Statements of the Group for the nine-month periods ended March 31, 2013 and 2012 have been prepared in accordance with International Accounting Standards (“IAS”) 34 “Interim Financial Reporting” and IFRS 1. The Unaudited Condensed Interim Consolidated Financial Statements have been prepared in accordance with the accounting policies that the Group expects to adopt in its first annual consolidated financial statements for the fiscal year ended June 30, 2013 in accordance with IFRS. The accounting policies are based on IFRS issued by the IASB and the interpretations issued by the IFRS Interpretation Committee (“IFRIC”) that the Group expects to become applicable on such date.

The consolidated financial statements of the Group were prepared in accordance with the Argentine accounting standards (“Argentine GAAP”) in force, which differ from IFRS in some significant aspects. To prepare these Unaudited Condensed Interim Consolidated Financial Statements, the Management of the Company has modified certain valuation and presentation accounting policies that were previously applied under Argentine GAAP in order to comply with the IFRS.

Comparative figures and figures as of the transition date (July 1st, 2011) have been modified to reflect such adjustments. The notes below include a reconciliation of shareholders’ equity figures of consolidated financial statements prepared in accordance with the Argentine GAAP on the transition date (July 1st, 2011), on the adoption date (June 30, 2012) and on the closing date of the comparative period (March 31, 2012) and the statements of income and other comprehensive income figures for the fiscal year ended June 30, 2012 and for the nine and three-month periods ended March 31, 2012, and those presented in accordance with the IFRS in these condensed consolidated interim financial statements, as well as the effects of the adjustments to cash flows.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

These Unaudited Condensed Interim Consolidated Financial Statements should be read together with the annual financial statements of the Group as of June 30, 2012 prepared in accordance with Argentine GAAP and with the Unaudited Condensed Interim Consolidated Financial Statements as of September 30, 2012, which include an Exhibit (“Exhibit I”) which presents additional information as of June 30, 2012 and July 1st, 2011 under IFRS which is considered necessary to understand these condensed interim consolidated financial statements. The figures corresponding to the Unaudited statement of financial position, the statement of income, the statement of changes in shareholders’ equity, and the statement of cash flows under IFRS for the fiscal year ended June 30, 2012, for the nine and three-month periods ended March 31, 2012 and the figures of the statement of financial position as of July 1st, 2011 are detailed in Note 2.3 to these Unaudited Condensed Interim Consolidated Financial Statements. The Unaudited Condensed Interim Consolidated Financial Statements are presented in thousands of Argentine Pesos.

Unaudited Condensed Interim Consolidated Financial Statements corresponding to the nine and three-month periods ended March 31, 2013 and 2012 have not been audited. The management believes they include all necessary adjustments to fairly present the results of each period. The Company’s nine and three-month periods ended March 31, 2013 and 2012 results do not necessarily reflect the proportion of the Group’s full-year results.

The format of the primary financial statements under Argentine GAAP is governed by Technical Resolutions No. 8 and 9 of the Argentine Federation of Professional Councils of Economic Science (as per its Spanish acronym “FACPCE”) and Resolutions of the CNV. IAS 1 “Presentation of Financial Statements” requires certain disclosures to be made on the face of the primary statements and other required disclosures may be made in the notes or on the face of the financial statements, unless another standard specifies otherwise. The transition to IFRS has resulted in the Group changing the format of its statement of income, statement of financial position and statement of cash flows, as well as the disclosure of certain line items not prescribed by Argentine GAAP.

2.2 Initial elections upon adoption of IFRS

IFRS exemption options

As a general rule, the Group is required to establish its IFRS accounting policies for the year ended June 30, 2013 and apply these retrospectively. However, advantage has been taken of certain exemptions afforded by IFRS 1 as further described below:

Exemption for business combinations

IFRS 1 provides the option to apply IFRS 3, “Business combinations”, prospectively from the transition date or from a specific date prior to the transition date. This provides relief from full retrospective application that would require restatement of all business combinations prior to the transition date. The Group elected to apply IFRS 3 prospectively to business combinations occurring after its transition date. Business combinations occurring prior to the transition date have not been restated.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

The business combination exemption applies equally to acquisitions of investments in associates or joint ventures. The Group elected not to restate the acquisitions of investments in associates or joint ventures prior to transition date.

Exemption for deemed cost

IFRS 1 allows previous GAAP revaluations to be used as deemed cost under IFRS if those valuations were, at the time of the valuation, equivalent to fair value or depreciated cost adjusted to reflect changes in a price index. The Group elected to measure certain items of property, plant and equipment and investment properties at price-adjusted historical values as of July 1st, 2011.

In addition, IFRS 1 allows the carrying values of the assets and liabilities immediately following a business combination to be deemed cost for any cost-based measurement going forward from the date of the combination. The Group adopted a cost-based policy for all of its assets. As such, the Group used the previous fair values recognized in past business combinations (not restated as per the business combination exemption above) for certain items of investment properties and property, plant and equipment (primarily shopping centers, office buildings and hotels) as deemed cost at the date of transition. All depreciation methods were already in compliance with those required by IAS 16, “Property, plant and equipment”.

Exemption for accumulated exchange differences

The IFRS 1 allows accumulated exchange differences to be reset to zero on the transition date, thus avoiding the determination of accumulated exchange differences pursuant to IAS 21 “Effects of changes in foreign exchange rates” from the moment a subsidiary or associate was created or acquired. The Group chose to reset all accumulated exchange differences to zero on the transition date.

Exemption for compound financial instruments

IFRS 1 provides that if the liability component of a financial instrument is no longer outstanding at the date of transition to IFRS, first-time adopters do not have to separate it from the equity component. The Group elected not to restate convertible debt instruments that were not outstanding at the date of transition.

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

Exemption for borrowing costs

IFRS 1 has been amended to permit first-time adopters not to restate borrowing costs capitalized at transition date under previous GAAP. The Group elected to apply the provisions of IAS 23 “Borrowing costs” prospectively from the date of transition.

Exemption for assets and liabilities of subsidiaries

In accordance with IFRS 1, if a parent company adopts IFRS subsequent to its subsidiary, associate or joint venture adopting IFRS, the assets and liabilities of the subsidiary, associate or joint venture are to be included in the consolidated financial statements at the same carrying amounts as in the financial statements of the subsidiary, associate or joint venture, adjusted to reflect changes for the Group’s accounting policies upon consolidation, as applicable. The Group’s associates, Tarshop S.A. and Banco Hipotecario S.A., adopted IFRS in December 31, 2011.

The group has not used other optional exemptions of IFRS 1.

IFRS mandatory exceptions

Set out below are the applicable mandatory exceptions in IFRS 1 applied in the conversion from Argentine GAAP to IFRS.

Exception for estimates

IFRS estimates as of July 1st, 2011 are consistent with the estimates as at the same date made in conformity with Argentine GAAP. Therefore the estimates made by the Group under previous GAAP were not revised for application of IFRS except where necessary to reflect any difference in accounting policies.

Exception for non-controlling interests

IFRS 1 establishes that an entity must apply the requirements IFRS 10 “Consolidated financial statements” for accounting for changes in a parent’s ownership interest in a subsidiary that do not result in a loss of control prospectively. Under Argentine GAAP, the Group accounted for acquisitions of non-controlling interests that did not result in change of control as business combinations. Furthermore, under Argentine GAAP, the Group accounted for disposals of non-controlling interests based on its carrying value at the date of disposal, recognizing any difference between the carrying value of the non-controlling interest and the consideration received in the statement of income. The Group did not restate these acquisitions prior to transition date.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

IFRS 1 establishes that an entity must apply the requirements of IFRS 10 for accounting for a loss of control over a subsidiary prospectively. Under Argentine GAAP, the Group recognized any non-controlling equity investment retained under the equity method at the date control was lost.

The other compulsory exceptions of IFRS 1 have not been applied, as these are not relevant to the Group.

2.3 Reconciliations of Argentine GAAP to IFRS

In accordance with the requirements of Technical Resolution No. 26 and 29 of the FACPCE, set out below are the reconciliations of shareholders’ equity from Argentine GAAP to IFRS as of June 30, 2012, at March 31, 2012 and July 1st, 2011, and the reconciliations of income and comprehensive income for the nine and three-month periods ended March 31, 2012 and for the year ended June 30, 2012 and cash flows for the nine-month period ended March 31, 2012 and for the year ended June 30, 2012. The reconciliations included below were prepared based on the IFRS standards that are estimated to be applicable for the Group for the financial statements as of and for the year ended June 30, 2013. The items and amounts in the reconciliations included below are subject to change and should only be deemed final when the annual financial statements prepared under IFRS for the first time are issued.

The items and amounts included in the reconciliations could be modified to the extent that, when preparing financial statements as of and for the year ended June 30, 2013, applicable standards are different.

The first reconciliation provides an overview of the impact on equity of the transition as of July 1st, 2011, as of March 31, 2012 and June 30, 2012 (Note 2.3.1). The second reconciliation provides details of the impact on income for the nine and three-month periods ended March 31, 2012 and for the year ended June 30, 2012 (Note 2.3.1). The third reconciliation provides details of the impact on other comprehensive income for the nine and three-month periods ended March 31, 2012 and for the year ended June 30, 2012 (Note 2.3.1). The following reconciliations provide details of the impact of the transition on:

- Statement of financial position as of July 1st, 2011 (Note 2.3.2)
- Statement of financial position as of March 31, 2012 (Note 2.3.3)
- Statement of financial position as of June 30, 2012 (Note 2.3.4)
- Statement of income for the nine-month periods ended March 31, 2012 (Note 2.3.5)
- Statement of income for the three-month periods ended March 31, 2012 (Note 2.3.6)

2.3.11. Reconciliation of the statement of cash flows for the nine-month period ended March 31, 2012 and for the year ended June 30, 2012

Based on IAS 7 “Statement of Cash Flows” requirements, the Group has made the following reclassification between operating, investing and financing activities in the cash flow statements presented under Argentine GAAP and the cash flows statements under IFRS as further detailed below:

(a) Operating activities

| | 03.31.2012 | 06.30.2012 |
|---|------------|------------|
| Cash generated by operating activities under Argentine GAAP | 592,405 | 878,600 |
| Proceeds from sale of property, plant and equipment and investment properties | (52,827) | (132,941) |
| Deconsolidation of joint ventures | (12,523) | (40,093) |
| Foreign exchange (gain) / loss in cash and cash equivalents | (11,840) | 5,361 |
| Cash generated by operating activities under IFRS | 515,215 | 710,927 |

(b) Investing activities

| | 03.31.2012 | 06.30.2012 |
|---|------------|------------|
| Cash used in investing activities under Argentine GAAP | (308,722) | (402,324) |
| Acquisition of non-controlling interest in subsidiaries | 7,364 | 8,054 |
| Proceeds from sale of property, plant and equipment and investment properties | 52,827 | 132,941 |
| Deconsolidation of joint ventures | 939 | 6,126 |
| Cash used in investing activities under IFRS | (247,592) | (255,203) |

(c) Financing activities

| | 03.31.2012 | 06.30.2012 |
|---|------------|------------|
| Cash used in financing activities under Argentine GAAP | (318,431) | (505,410) |
| Acquisition of non-controlling interest in subsidiaries | (7,364) | (8,054) |
| Deconsolidation of joint ventures | (469) | 20,858 |
| Cash used in financing activities under IFRS | (326,264) | (492,606) |

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

(d) Net decrease in cash and cash equivalents

| | 03.31.2012 | 06.30.2012 |
|--|------------|------------|
| Net decrease in cash and cash equivalents under Argentine GAAP | (34,748) | (29,134) |
| Foreign exchange (gain) / loss in cash and cash equivalents | (11,840) | 5,361 |
| Deconsolidation of joint ventures | (12,053) | (13,109) |
| Net decrease in cash and cash equivalents under IFRS | (58,641) | (36,882) |

2.3.12. Explanation of the transition to IFRS

In addition to the exemptions and exceptions discussed above, the following narratives explain the significant differences between the previous Argentine GAAP accounting policies and the current IFRS applied by the Group. Only the differences having an impact on the Group are explained below. The following is not a complete summary of all of the differences between Argentine GAAP and IFRS. The descriptive caption next to each numbered item below corresponds to the same numbered and descriptive caption in the reconciliations above, which reflect the quantitative impacts from each change. Unless the quantitative impact is disclosed, the impact is not significant to the Group.

Column I in the tables included on previous pages represents Argentine GAAP balances prior to transition as published in the latest Group’s Argentine GAAP financial statements as of and for the year ended June 20, 3012 compared to transition date (July 1st, 2011), and in the Group’s Argentine GAAP financial statements for the nine-month period ended March 31, 2012. However, certain reclassifications and/or groupings have already been made to that information in Column I to avoid lengthy explanations of certain format changes introduced in these IFRS financial statements. The following changes have been made to the previous Argentine GAAP statement of financial position in Column I:

- (1) The line items “Trade receivables” and “Other receivables” have been grouped into the new line item “Trade and other receivables, net”.
- (2) The line items “Trade payables”, “Customer advances”, “Taxes payable” and “Other liabilities” have been also grouped into the new line item “Trade and other payables”, with the exception of income tax payable and deferred income tax which have been shown separately.
- (3) Goodwill which was previously disclosed separately offsetting negative goodwill has been included as part of “Intangible assets”.
- (4) Cash equivalents previously disclosed as part of the line item current investments have been grouped together with cash and banks, in the line named “Cash and cash equivalents”.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

- (5) Derivative financial instruments which were previously included as part of the non-current line items “Other receivables”, “Other payables” and/ or “Investments” have been disclosed as separate assets or liabilities as appropriate.
- (6) Investments in associates and joint ventures previously included as part of “Non-Current Investments” have been separately disclosed in the new line item “Investments in associates and joint ventures”.
- (7) The portion of equity in a subsidiary not attributable directly or indirectly to a parent is known as “Minority interest” and is classified as a separate component between the liability and equity sections of the statement of financial position (mezzanine section). IFRS 10 “Consolidated financial statements” specifies that a non-controlling interest in a subsidiary is an ownership interest in the consolidated entity that should be reported as a separate component within equity in the consolidated financial statements. The Group has non-controlling interest in more than one subsidiary. Accordingly, the Group aggregated its various non-controlling interests on the consolidated statements, renamed them as “Non-controlling interest” and reclassified the aggregated amount from the mezzanine section to shareholders’ equity at transition date.

The following changes have been made to the statements of income for the year ended June 30, 2012 and for the nine and three-month periods ended March 31, 2012:

- (1) The format of the statement of income has been restructured to simplify its reading. To that effect, all revenue streams of the Group which were previously disclosed separately (i.e. sales of development properties, leases and services revenue, and hotel revenue), together with its corresponding costs of sales, have been aggregated into two line items titled "Revenues" and "Costs" in Column I. Revenues and Costs are then cross-referenced to the respective notes in the financial statements where a detailed breakdown is provided per line of business.
- (2) Pursuant to the Argentine GAAP in force, the share of losses and profits from associates and joint ventures is shown after the financial results. Likewise, under IFRS, the share of profits and losses from associates and joint ventures is generally shown after the financial income (expense) line. However, where associates and joint ventures are an integral vehicle to carry out the Group’s operations, it is more adequate to show the share of profits and losses of associates and joint ventures before financial income (expense). In accordance with its strategy, the Group conducts its operations through associates or joint ventures. Therefore, under the IFRS, the Group shows the profits or losses from associates and joint ventures before the financial income (expense) line. For simplicity, the share of profits and losses associates is shown before financial results, net, in Column I.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

- (3) Non-controlling interests in the results of a consolidated subsidiary which was previously classified as a component of profits within the statement of income has been presented as an allocation of profit in Column I. As part of the adoption to IFRS, the term "Minority interest" has also been replaced with the new term "non-controlling interest" in accordance with IAS 1.
- (4) Under the Argentine GAAP in force, financial results are broken down depending on whether it is generated by assets or by liabilities. Under the IFRSs, the Group has adopted the criterion of showing financial income and financial expenses on different lines in the statement of income. For simplicity, the Group has reclassified the figures as per Argentine GAAP shown under “Financial income (expense) generated by assets” and “Financial income (expense) generated by liabilities”, into “Financial income” and “Financial cost” as established by the IFRS, as applicable, in Column I.
- (5) According to IFRS, income and expense items not recognized in the statement of income (that is, exchange differences related to translation of foreign businesses) are shown in the statement of comprehensive income as “Other comprehensive income”. According to Argentine GAAP, the statement of comprehensive income is not mandatory and, therefore, such items are recognized as part of shareholders’ equity, in a separate reserve account. For simplicity, these items are shown in “Other comprehensive income” in Column I.

2.3.12.1 Deconsolidation of joint ventures (Column II)

Argentine GAAP – Entities in which the Group has joint control are proportionately consolidated. As of July 1st, 2011, the Group’s joint ventures are Cyrsa S.A., Canteras Natal Crespo S.A., Puerto Retiro S.A., Baicom Networks S.A. and Quality Invest S.A.. As of March 31, 2012 and June 30, 2012, the joint ventures of the Group are Cyrsa S.A., Canteras Natal Crespo S.A., Puerto Retiro S.A., Baicom Networks S.A., Quality Invest S.A. and Nuevo Puerto Santa Fe S.A..

IFRS - The Group has assessed the nature of its joint arrangements in line with IFRS 11 “Joint Arrangements” and determined them to be joint ventures. Joint ventures are accounted for under the equity method of accounting.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

As a result, the Group deconsolidated the accounts of the joint ventures and presented them as a single line item on the face of the statement of financial position. Column II titled “Deconsolidation of joint ventures” reflects the elimination on a line-by-line basis of the Argentine GAAP pro-rata equity interest in the joint ventures and the disclosure of the Group’s investments in the joint ventures as a single line item titled “Investments in associates and joint ventures” on the statement of financial position and as a single line item titled “Share of profit / loss of associates and joint ventures” on the statement of income. The impact of the IFRS adjustments on joint ventures balances is further discussed in Note 2.3.12.3 below.

2.3.12.2 Reclassifications (Column III)

Reclassifications affecting the statement of financial position

The column titled “Reclassifications” reflects the differences in presentation and format between the statement of financial position under Argentine GAAP and IFRS. Unless otherwise stated, amounts have been reclassified for presentational purposes under IFRS prior to affecting the corresponding IFRS adjustments, as applicable, to the Argentine GAAP corresponding amounts. The impact of the IFRS adjustments on reclassified balances is included in Column IV titled “Measurement Adjustments” and is further discussed in Note 2.3.12.3 below. Unless otherwise stated, reclassifications affect both the statement of financial position as of transition date (July 1st, 2011), March 31, 2012, and June 30, 2012.

(a) Investment properties, net

Argentine GAAP - There are not specific requirements for presentation of investment property. Accordingly, the Group does not present separately investment property and includes it as part of property, plant and equipment and non-current investments.

Certain property of the Group is being partially owner-occupied while the rest is being rented out to third parties. There is no such distinction under Argentine GAAP. Portions that are owner-occupied are accounted for and presented in the same way as portions that are being rented out.

Certain associates and joint ventures are currently occupying certain property of the Group. There is no distinction under Argentine GAAP and property rented out to associates or joint ventures are accounted for as property, plant and equipment.

IFRS - IAS 1 “Presentation of Financial Statements” requires investment property to be presented as a separate line item on the face of the statement of financial position within non-current assets.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

In addition, the portions of the property that are being owner-occupied are accounted for and presented as property, plant and equipment under IAS 16 while the portions being rented out are treated and presented as investment property under IAS 40.

The Group’s property occupied by associates or joint ventures accounted for using the equity method of accounting is not considered part of the Group for consolidation purposes and, therefore, the property is not owner-occupied from the Group’s perspective. Therefore, this property is treated as investment property.

(b) Trading properties

Argentine GAAP – There are not specific requirements for separate presentation of trading properties. Trading properties are included as part of inventories and non-current investments.

IFRS – Trading properties are inventories under IAS 2 “Inventories”. The Group also has materials and supplies, and other items classified as inventories under IAS 2. Due to the significance and different nature of these inventories, the Group decided to present trading properties separately.

(c) In-kind receivables from barter transactions

Argentine GAAP – In-kind receivables from barter transactions representing the Group’s right to receive residential apartments to be constructed by a third-party developer are classified as inventory on the face of the statement of financial position.

IFRS – In-kind receivables representing are not financial assets under IFRS. These in-kind receivables are similar to trading properties and they are classified accordingly in current or non-current assets, as appropriate.

(d) Non-current investments – financial assets

Argentine GAAP – There are not specific requirements for separate presentation of financial assets. Certain financial assets carried at cost under Argentine GAAP were included within non-current investments.

IFRS – IAS 1 “Presentation of Financial Statements” requires financial assets carried at fair value through profit or loss to be presented as a separate line item on the face of the statement of financial position.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

(e) Current investments – investments in financial assets

Argentine GAAP – Certain instruments carried at fair value are included within the line item investments in the face of the statement of financial position.

IFRS – These investments are also carried at fair value but they are separately disclosed in the new line item titled “Investments in financial assets”.

(f) Advances for purchases of property, plant and equipment, inventories and investments in associates and joint ventures

Argentine GAAP – Receivables representing money advances made for the purchase of items of property, plant and equipment, inventories and investments in associates and joint ventures are shown as part of their respective balances.

IFRS - Advances for the purchase of items of investment properties, property, plant and equipment, inventories and investments in associates and joint ventures are not considered part of these balances until the respective item is received, and, thus, they are shown within “Trade and other receivables, net”.

(g) Software

Argentine GAAP – Under Argentina GAAP, the Group classified software into property, plant and equipment.

IFRS – Software is not considered part of property, plant and equipment, thus, it is shown within Intangible Assets, net”.

Reclassifications affecting the statement of income for the nine and three-month periods ended March 31, 2012 and for the year ended June 30, 2012

(i) Revenue – service income and service charges

Argentine GAAP – The Group structures its operating leases to allow for recovery of a significant portion of property operating, real estate taxes, repairs and maintenance, and advertising and promotion expenses from tenants. A substantial portion of the Group’s leases require the tenants to reimburse the Group for a substantial portion of operating expenses, including common area maintenance, real estate taxes and insurance. The Group’s tenants are required to pay for their proportionate share of property common operating costs. These expenses (“service charge expenses”) are incurred and paid by the Group and subsequently charged to tenants without any mark-up (“service charge income”).

Under Argentine GAAP, service charge income and service charge expense are offset and presented net in the income statement.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

IFRS – IAS 18 states that whether an entity is acting as a principal or an agent in transactions is dependent on the facts and circumstances of the relationship. The Group has assessed the substance of the transactions and concluded that the Group is acting as a principal since it has exposure to the significant risks and rewards associated with the rendering of services.

Therefore, service charge income is presented separately from property operating expenses. Property operating expenses are expensed as incurred and any property operating expenditure not recovered from tenants through service charges or when the property is vacant are charged to the statement of income. The Group’s advertising and promotional costs are expensed as incurred.

(ii) Gains on disposal of investment

Argentine GAAP – As part of the Group’s strategy, the Group may dispose of investment properties which are no longer considered core to the Group’s ongoing operations and for which profit can be realized from value appreciation. Gain on disposals of office buildings is classified as revenue in the statement of income.

IFRS – Based on the IFRS Conceptual Framework, gain on disposal of assets described above are not reported under “Revenues”.

Under IFRS, gains from the disposal of fixed assets are not included in “Revenue” as the standard refers to the sale of goods including goods produced by the entity for sale or purchased for resale. Only property acquired or constructed for sale and held as inventory (“Trading property”) would therefore be included in the “Revenues”, except for property held as an investment properties or property, plant and equipment.

(iii) Other operating results, net

Argentine GAAP - Under Argentine GAAP, certain income and expense items are included as part of financial results or other non-operating income and expenses, as appropriate. These items primarily comprise fees payable related to the management contract charges for provisions (i.e. generally charges for litigation and claims), gains or losses on disposal of property, plant and equipment items, gains or losses from the sale of subsidiaries and taxes borne by the Group on behalf of shareholders, among others.

IFRS - Under IFRS, income and expense items are generally presented according to its nature and the Group’s presentation policy. The items described above are generally presented as “Other operating results, net” under IFRS.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

(iv) Investment in financial assets

Argentine GAAP – Investments in entities in which the Company does not exercise significant influence, joint control or control, are accounted at cost plus dividends. The received dividends are included within share of profit or loss of associates and joint ventures.

IFRS – Investments in entities which are not subsidiaries, associates and joint ventures, are measured at fair value. Changes in fair values and gains from disposal of equity investments at fair value through profit or loss and dividends income are recorded within “Financial results, net” in the statement of income.

Reclassifications affecting the statements of cash flows for the nine-month period ended March 31, 2012 and for the year ended June 30, 2012.

Pursuant to Argentine GAAP, the Group proportionally consolidated the joint ventures’ accounts. Consequently, a difference is generated between the amount of cash and cash equivalents reported in the statement of cash flows under Argentine GAAP and the amount of cash and cash equivalents that would be reported in the statement of cash flows prepared under IFRS.

On the other hand, under the Argentine GAAP, the effect of exchange rate changes on cash and cash equivalents was shown as part of operating activities and not under a fourth category in the statement of cash flows as required by the IFRSs.

Additionally, pursuant to Argentine GAAP, proceeds from sale of property, plant and equipment (including properties classified as investment properties under IFRS) were reported as operating activities. In accordance with IFRS proceeds from sale of investment properties and property, plant and equipment are reported as investing activities.

Finally, pursuant to Argentine GAAP, acquisition of non-controlling interest was reported as investing activities, whereas, in accordance with IFRS, it must be reported as cash from financing activities.

Thus, cash flows generated by or used in operating, investing and financing activities were different in the statement of cash flow prepared under Argentine GAAP.

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

2.3.12.3 Measurement adjustments (Column IV)

Argentine GAAP differs in certain significant respects from IFRS. Such differences involve methods of measuring the amounts shown in the consolidated financial statements, as further described below:

(A) Currency translation adjustment

As noted in the section titled “IFRS exemption options”, the Group has applied the one-time exemption to set the foreign currency cumulative translation adjustment (“CTA”) to zero as of July 1st, 2011.

(B) Revenue recognition – “scheduled rent increases”

Argentine GAAP - Revenue from “non-cancelable” leases subject to scheduled rent escalation clauses is recognized when the escalated payments are due. Therefore, revenue does not include an averaging of rental income. Rent-free periods, reduced rent or other tenant incentives, if any, are recognized in the period in which these incentives are provided.

IFRS - The Group applied IAS 17 “Leases”. As a result, lease income from operating leases with scheduled rent increases is recognized on a straight-line basis over the term of the leases. All tenant incentives, if any, are treated as a reduction of rental income on a straight-line basis over the lease terms.

(C) Revenue recognition – “letting fees”

Argentine GAAP - The Group does not generally use the services of a third-party lease agent for its shopping center properties. Rather, the Group acts as its own leasing agent and earns letting fees. Letting fees are recognized at the time a transaction is successfully completed. A transaction is considered successfully completed when both parties (the tenant and the Group) have signed the related lease contract.

IFRS - The Group considers that in these circumstances payments received from tenants for “letting fees” are not different from other payments received such as admission rights. Accordingly, revenue from letting fees is recognized under the straight-line method over the lease term.

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

(D) Trading properties

Argentine GAAP - Trading properties are stated at the lower of cost adjusted for inflation or net realizable value. Additionally, trading properties are measured at net realizable value when contracts are exchanged for which a non-refundable deposit has been received securing the sale in advance of legal completion (i.e. transfer of deed of title and significant risk and rewards). This form of sale fixes the price of the property and the terms and conditions of the contract providing reasonable certainty about the closing of the transaction and realization of the gain. Accordingly, these transactions are deemed consummated for Argentine GAAP purposes and revenue is recognized at the time the contract is signed. Gains on the revaluation of trading property to net realizable value are shown as “gain from recognition of inventories at net realizable value” in the statement of income.

IFRS - Trading properties are measured at the lowest of cost or net realizable value. Revenue from the sale of properties is recognized only when the significant risks and rewards have transferred to the buyer. This will normally take place on unconditional exchange of contracts at the moment of the transfer of title deed. For conditional exchanges, sales are recognized when these conditions are satisfied.

(E) Pre-operating and organization expenses

Argentine GAAP - Under Argentine GAAP, pre-operating, organization expenses and other start-up costs (mainly related to the opening of new shopping centers) are capitalized and amortized under the straight-line method generally over a period of three to five years.

IFRS - IFRS prescribes that pre-operating expenses cannot be attributed to the cost of property, plant and equipment, investment properties, trading properties or the creation of intangible assets and are immediately recognized as expenses.

(F) Goodwill

Argentine GAAP - The Group accounts for acquisitions of businesses and non-controlling interests under the purchase method of accounting. Under the purchase method of accounting, the Group allocates the purchase price to tangible and intangible assets and liabilities based on the respective fair values. Goodwill represents the excess of cost over the fair value of net identifiable assets and is amortized under the straight-line method over the weighted average useful life of the tangible assets acquired. Goodwill does not exceed its respective estimated recoverable value at year-end.

IFRS - As noted in Note 2.2., the Group has applied the exemption in IFRS 1 for business combinations. Also, as noted in Note 2.2., the Group has applied the exception in IFRS 1 for acquisitions of non-controlling interests.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

(G) Negative Goodwill

Argentine GAAP - Under Argentine GAAP, when the amount paid in a business combination or acquisition of a non-controlling interest is lower than the carrying amount of the acquired assets and assumed liabilities, the Group recognizes such amount as negative goodwill on the statement of financial position (as a deduction to non-current assets) and amortizes it over the period considered to justify negative goodwill not exceeding 20 years. However, under Argentine GAAP, when negative goodwill exists, acquired intangible assets which otherwise would be recognized are reduced to absorb the negative goodwill even if they are then assigned a zero value.

Additionally, where the amount paid for the acquisition of associates and/or joint ventures is lower to the investor's interest in the net fair values of the associate and/or joint venture's identifiable assets and liabilities, the Group recognizes such amount as negative goodwill on the statement of financial position and amortizes it over the period considered to justify negative goodwill not exceeding 20 years. That amortization is recognized under the line “Share of profit / (loss) of associates and joint ventures” in the statement of income.

IFRS - As noted in Note 2.2., the Group has applied the exemption in IFRS 1 for business combinations. Also, as noted in Note 2.2., the Group has applied the exception in IFRS 1 for acquisitions of non-controlling interests. Consequently, business combinations and acquisitions of non-controlling interests completed prior to July 1st, 2011 have not been restated, and the carrying amount of negative goodwill under IFRS as of July 1st, 2011 equals the carrying amount under Argentine GAAP as of that date. In accordance with IFRS, negative goodwill is recognized in profit or loss immediately.

Additionally, acquisitions of associates and/or joint ventures are initially recorded at cost of the investment. Any difference between the cost of the investment and the investor's interest in the net fair values of the associates' and/ or joint venture's identifiable assets and liabilities is goodwill. Negative goodwill is taken to the income statement in the period when the associate and/or joint venture is acquired.

(H) Non-current investments – investments in financial assets

Argentine GAAP - The Group holds investments in quoted equity securities with readily determinable fair values, namely TGLT S.A., Hersha Hospitality Trust and Supertel. Under Argentine GAAP, these investments are carried at acquisition cost since they are not held for the purpose of trading in the short term.

IFRS - Under IFRS 9 “Financial Instruments”, all equity investments are measured at fair value. For certain equity investments, the Group can make an irrevocable election at initial recognition to recognize changes in fair value through other comprehensive income rather than profit or loss. However, the Group has decided to not recognize changes in fair value through other comprehensive income. The Group has elected to recognize changes in the fair value of these equity securities in the statement of income.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

(I) Initial direct costs on operating leases

Argentine GAAP - Under Argentine GAAP, certain initial direct costs (i.e. legal fees, commissions and other fees) paid to third parties for arranging a lease (when the Group is a lessor) are recognized as an immediate expense when incurred.

IFRS - Initial direct costs incurred by lessors in arranging an operating lease are added to the carrying amount of the leased assets (i.e. investment properties) and are recognized as an expense over the lease term on the same basis as the lease income.

(J) Tenant deposits

Argentine GAAP - The Group obtains deposits from tenants as a guarantee for returning the property at the end of the lease term in a specified good condition or for the lease payments for a period of generally 3 years. The deposit amounts, usually, one month of rent. These deposits are treated as liabilities under Argentine GAAP and measured at the amount received by the tenants.

IFRS - Tenant deposits are treated as a financial liability in accordance with IFRS 9, and they are initially recognized at fair value. The difference between fair value and cash received is considered to be part of the minimum lease payments received for the operating lease (deferred income). The deposits are subsequently measured at amortized cost, and deferred income is amortized under the straight line method over the lease term.

(K) Impairment of financial assets

Argentine GAAP - At July 1st, 2011, March 31, and June 30, 2012, the Group maintains receivables relating to credit card loans, which are carried at amortized cost. Under Argentine GAAP, the Group determined an allowance for doubtful accounts based on specific criteria set forth for financial and banking institutions.

IFRS - The Group applied the criteria for impairment provisions in IFRS 9.

(L) Present value accounting – tax credits

Argentine GAAP - Under Argentine GAAP, certain long-term tax credits are present-valued as of year-end.

IFRS - Under IFRS, there is no requirement to discount long-term tax credits. The Group elects to measure tax receivables and payables at the amounts expected to be recovered from or paid to the tax authorities and thus, not discounting long-term tax credits.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

(M) Investment properties

Argentine GAAP - There are not specific requirements for presentation of investment property. Accordingly, the Group includes it as part of property, plant and equipment and non-current investments and are measured at acquisition cost less accumulated amortization and loss for impairments, if any. Additionally, trading properties are measured at net realizable value when contracts are exchanged for which a non-refundable deposit has been received securing the sale in advance of legal completion (i.e. transfer of title deed and significant risk and rewards). This form of sale fixes the price of the property and the terms and conditions of the contract providing reasonable certainty about the closing of the transaction and realization of the gain. Accordingly, these transactions are deemed consummated for Argentine GAAP purposes and revenue is recognized at the time the contract is signed. Gains on the revaluation of trading property to net realizable value are shown as “Gain from recognition of inventories at net realizable value” in the statement of income.

IFRS - Investments properties are measured at cost, less accumulated depreciation and loss for impairments, if any. Revenue from the sale of properties is recognized only when the significant risks and rewards have transferred to the buyer. This will normally take place with the transfer of title deed. For conditional exchanges, sales are recognized when these conditions are satisfied.

(N) Impact of adjustments in accordance with IFRS in investments in associates

Argentine GAAP - Investments in entities in which the Group exercises significant influence, but not control, are accounted for under the equity method. Under the equity method, the investment is recorded at original cost and periodically increased (decreased) by the investor's proportionate share of earnings (losses) of the investee and decreased by all dividends received from the investor by the investee. The Group applies its percentage ownership interest to the financial statements of its equity method investments prepared under Argentine GAAP.

As of July 1st, 2011, the associates of the Group are Banco Hipotecario S.A., Banco de Crédito & Securitización S.A., Manibil S.A., New Lipstick LLC, Lipstick Management LLC, Rigby 183 LLC and Tarshop S.A. As of March 31 and June 30, 2012 Bitania 26 S.A. is incorporated.

IFRS - The Group assessed all of its interests in the entities mentioned in the paragraph above and determined that the Company exercises significant influence over them. Accordingly, under IFRS, the Group also accounts for these investments under the equity method of accounting. However, the Group has assessed the impact of IFRS adjustments on the financial statements of these investments prepared under Argentine GAAP prior to the application of the equity method.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

Following is a description of the most significant IFRS adjustments to the equity, income and comprehensive income of its associates. For ease of presentation and to facilitate an understanding of the nature of the IFRS adjustments, associates were grouped by business activities. Associates are not discussed below when IFRS adjustments were not significant to the Group or no IFRS adjustments were identified:

Banking business

The Group assessed the financial statements of associates of the Group related to the banking business as of July 1st, 2011, March 31, and June 30, 2012 and determined the following adjustments to IFRS:

- Under Argentine GAAP, revenues from life and disability insurance and loan origination fees are recognized on an up-front basis. Under IFRS, these revenues are recognized on a straight line basis over the term of the respective underlying receivables.
- Under Argentine GAAP, the allowance for doubtful accounts for loan losses are recognized based on specific criteria as set forth by the Central Bank for financial and banking institutions. Under IFRS, the associate applied the impairment provisions in IFRS 9.
- Under Argentine GAAP, receivables transferred to trusts in securitization programs are treated as sales and a gain or loss is recognized on the sale. Usually the transferor retains an interest in the trust and maintains a cash reserve which serves as collateral for payments of amounts due under the debt securities issued by the trust. Under IFRS, following the provisions of IFRS 9, the associate is not able to derecognize financial assets with these characteristics. As a result, the associate continues recognizing the receivables and a liability for the consideration received upon transfer. The receivables recognized are then tested for impairment following the IFRS 9 criteria.
- Under Argentine GAAP, the calculation of the insurance technical reserves is recognized following the regulations issued by the National Insurance Superintendence. Under IFRS, following the guidance of IFRS 4 “insurance contracts”, the associate measured the insurance technical reserve in accordance with the “best estimation” approach.

Investment properties

The Company assessed the financial statements of the associates related to the investment property business and determined the following adjustments to IFRS as of July 1st, 2011, March 31 and June 30, 2012:

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

- Under Argentine GAAP, revenue from non-cancelable leases subject to scheduled rent escalation clauses is recognized when the escalated payments are due. Therefore, revenue does not include an averaging of rental income. Rent-free periods, reduced rent or other tenant incentives, if any, are recognized in the period in which these incentives are provided. Under IFRS, lease income from operating leases with scheduled rent increases is recognized on a straight-line basis over the term of the leases. All tenant incentives, if any, are treated as a reduction of rental income on a straight-line basis over the lease terms.

- Under Argentine GAAP, lease expense where the entity is the lessee under an operating ground lease agreement subject to escalation clauses is recognized when the escalated payments are due. Therefore, lease expenses are not recognized on a straight-line basis. Under IFRS, lease payments for operating leases with scheduled rent increases are recognized on a straight-line basis over the term of the leases.

(O) Impact of IFRS adjustment on joint ventures

Argentine GAAP - Investments in entities in which the Group exercises joint control are accounted for under the proportionate consolidation method. Under the proportionate consolidation method, the financial statements of the Group reflect the Group’s pro-rata equity interest in the jointly controlled entities on a line-by-line basis. The Group applied its pro-rata equity interest to the financial statements of its jointly-controlled entities prepared under Argentine GAAP.

IFRS – The Group assessed all of its interests in joint arrangements and determined that they are joint ventures under IFRS 11 “Joint Arrangements”. Accordingly, the Group accounted for its joint ventures under the equity method of accounting. The Group has assessed the impact of IFRS adjustments on the financial statements of joint ventures prepared under Argentine GAAP prior to the application of the equity method.

As of July 1st, 2011, the joint ventures of the Group are Cyrsa S.A., Canteras Natal Crespo S.A., Puerto Retiro S.A., Baicom Networks S.A. and Quality Invest S.A. As of March 31 and June 30, 2012 Nuevo Puerto Santa Fe S.A. is incorporated.

Following is a description of the most significant IFRS adjustments to the equity and income of the joint ventures. Joint ventures are not discussed below when IFRS adjustments were not significant to the Group or no adjustments were identified.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

- Under Argentine GAAP, the joint venture has historically accounted for revenues and therefore profits from all property sales on a percentage of completion basis once contracts for the sale of a property have been exchanged and only if the eventual profit from that property can be foreseen with reasonable certainty. Under IFRS, the joint venture has applied IFRIC 15 “Agreements for the construction of Real Estate”. The Group assessed the contractual terms of the agreements and concluded that revenue from open market sales of real estate should be accounted for on legal completion of the agreement in accordance with IAS 18 “Revenue”. As a result, the joint venture recognizes revenue from the sale of private homes and commercial units entirely at the point of legal completion in accordance with IAS 18. The most significant impact of IFRIC 15 is therefore the deferral of profits previously recognized from the point of exchange of contracts onwards until the point of legal completion. All of these profits are now recognized at a later date.

- Under Argentine GAAP, tenant deposits are treated as liabilities and measured at the amount received by the tenants. Under IFRS, tenant deposits are treated as both a financial asset and a financial liability in accordance with IFRS 9, and they are initially recognized at fair value. The difference between fair value and cash received is considered to be part of the minimum lease payments received for the operating lease. The deposits are subsequently measured at amortized cost.

- Under Argentine GAAP, revenue from non-cancelable leases subject to scheduled rent escalation clauses is recognized when the escalated payments are due. Under IFRS, the Group applied IAS 17 “Leases”. Consequently, revenue derived from operating leases with scheduled increases is recognized on a straight line basis over the lease agreement term.

- Under Argentine GAAP, certain long-term tax credits are present-valued as of year-end. Under IFRS, there is no requirement to discount long-term tax credits. The joint venture elects to measure tax receivables and payables at the amounts expected to be recovered from or paid to the tax authorities and thus, not discounting long-term tax credits. As a result, the joint venture eliminated the effect of discounting tax.

(P) Acquisition of non-controlling interest

As stated in Note 2.2., the Group has applied the exception provided by IFRS 1 for accounting for changes in the interest in subsidiaries that do not result in loss of control. Consequently, acquisitions of non-controlling interests that took place before July 1st, 2011 have not been restated.

IFRS adjustments detailed below relate to acquisitions of non-controlling interest that took place on July 1st, 2011 or after date.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

Argentine GAAP - Under Argentine GAAP, the Group accounted for the acquisition of the non-controlling interests under the purchase method of accounting. Under the purchase method of accounting, the purchase price paid is allocated to the net assets acquired based on its fair value. Assets, including goodwill, and liabilities of the acquired business are recognized using a cost accumulation approach (i.e. for the previous equity interests acquired). These acquisitions generated goodwill since the cost of acquisition exceeded the fair value of the net tangible and intangible assets acquired.

IFRS - Under IFRS, the Group applied the principles of IFRS 10 in accounting for changes in ownership interests. As per IFRS 10, when an additional interest is obtained and control is maintained, the transaction is accounted for as an equity transaction. The Group does not recognize any additional acquisition adjustments to reflect the subsequent acquisition of additional interest in the subsidiary if there is no change in control.

Under IFRS, the difference between the fair value of the consideration paid and the related carrying value of the non-controlling interest acquired is recognized in the controlling interest’s equity as a credit or debit to a reserve in net equity. Therefore, no gain or loss is recognized in the statement of income and no additional goodwill is recognized. The carrying value of the non-controlling interest is adjusted to reflect the change in the non-controlling interest’s ownership interest in the subsidiary.

(Q) Amortization of borrowing costs

Argentine GAAP - Under Argentine GAAP, transactions costs directly attributable to the acquisition of borrowings are amortized under the straight-line method over the contract term.

IFRS – Transaction costs directly attributable to the acquisition of borrowings are deducted from the fair value at which the financial liability is initially recognized. Subsequently, they are amortized using the effective interest method over the contract term.

(R) Currency translation adjustment

Argentine GAAP - Foreign operations shall be classified as integrated or non-integrated entities depending if their activities are carried out as an extension of the reporting entity. Exchange differences resulting from the translation of integrated entities are recognized in the statement of income. Exchange differences resulting from the translation of non-integrated entities are recognized in a separate reserve in equity.

IFRS – Exchange differences resulting from the translation of foreign operations of subsidiaries and associates are recognized in the statement of other comprehensive income.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

(S) Deferred income tax

Argentine GAAP - The Group accounts for income taxes using the deferred tax method whereby deferred tax asset and liability account balances are determined based on differences between financial reporting and tax based assets and liabilities and are measured using the enacted tax rates. Argentine GAAP does not prescribe detailed specific guidance related to the recognition of a valuation allowance. The Group assesses the need for a valuation allowance based on several factors including but not limited to current projections, legal expiration periods and others.

IFRS – There is no difference in the determination of deferred income taxes. However, deferred tax assets are recognized when it is considered probable (defined as “more likely than not”) that sufficient taxable profits will be available to utilize the temporary difference or unused tax losses. IFRS does not allow the recognition of valuation allowances.

IFRS establishes more specific and strict procedures to assess whether a deferred tax asset should be recognized. All available evidence, both positive and negative, is considered to determine whether, based on the weight of that evidence, a deferred tax asset should be recognized. Judgment must be used in considering the relative impact of negative and positive evidence. The weight given to the potential effect of negative and positive evidence should be commensurate with the extent to which it can be objectively verified. The more negative evidence that exists (a) the more positive evidence is necessary and (b) the more difficult it is to support a conclusion that a deferred tax asset can be recognized.

(T) Non-controlling interest

Differences for non-controlling interest include the effect of recording, where applicable, the corresponding effect of other differences between Argentine GAAP and IFRS.

2.4. Significant Accounting Policies

The principal accounting policies applied in the presentation of these Unaudited Condensed Interim Consolidated Financial Statements are consistent with those applied in the preparation of the information under IFRS as of June 30, 2012, which are described in Exhibit I attached hereto and are based upon such IFRS expected to be in force as of June 30, 2013. The most significant accounting policies are described in Exhibit I.

2.5. Use of estimates

The preparation of financial statements at a certain date requires the Management to make estimations and evaluations affecting the amount of assets and liabilities recorded and contingent assets and liabilities disclosed at such date, as well as income and expenses recorded during the period. Actual future results might differ from the estimates and evaluations made at the date of preparation of these financial statements.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

2. Basis of preparation and adoption of International Financial Reporting Standards (“IFRS”) (Continued)

In the preparation of these condensed interim consolidated financial statements, the significant judgments made by Management in applying the Group’s accounting policies and the main sources of uncertainty were the same applied by the Group in the preparation of the annual consolidated financial statements for the year ended June 30, 2012 which are described in Exhibit I.

2.6 Seasonal effects on operations

The operations of the Group’s shopping centers are also subject to seasonal effects, which affect the level of sales recorded by lessees. During summer time (January and February), the lessees of shopping centers experience the lowest sales levels in comparison with the winter holidays (July) and Christmas holidays (December) when they tend to record peaks of sales. Apparel stores generally change their collections during the spring and the fall, which impacts positively on shopping mall sales. Sale discounts at the end of each season also affect the business. As a consequence, a higher level of revenues is generally expected in the second half of the year rather than the first in shopping center operations.

3. Acquisitions and disposals

Transactions with non-controlling interest

APSA

During the current nine-month period, the Group, through IRSA and E-Commerce Latina S.A., acquired an additional equity interest of 0.1% in APSA for a total consideration of Ps. 2.3 million. As a result of this transaction, the non-controlling interest was reduced by Ps. 0.8 million and the interest attributable to the shareholders’ of the controlling parents was reduced by Ps. 1.5 million. The effect on shareholders’ equity of this change in the equity interest in APSA is summarized as follows:

| | Ps. |
|--|----------|
| Carrying value of the equity interests acquired by the Group | 824 |
| Price paid for the non-controlling interest | (2,364) |
| Reserve created due to the acquisition recognized in the parent’s equity | (1,540) |

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

3. Acquisition and disposals (Continued)

Acquisition of equity interest in joint venture

On November 29, 2012 the Group through APSA acquired shares of common stock, representing 50% of Entertainment Holdings S.A. (“EHSA”)’s capital stock and votes for Ps. 32 million. Under the acquisition agreement, APSA is entitled to exercise joint control over EHSA. EHSA is an Argentine company whose main asset consists of an indirect interest of 50% in the capital and voting rights of La Rural S.A. (“LRSA”), whereby it has joint control over this Company together with Sociedad Rural Argentina (“SRA”), who owns the remaining 50%. Thus, APSA is the owner of an indirect interest of 25% in LRSA, whose main asset consists of an usufruct agreement on the Predio Ferial de Buenos Aires, located between Cerviño, Sarmiento, Santa Fé Avenues and Oro street, in the city of Buenos Aires (the “Predio Ferial”) entered into with SRA, owner of such Predio Ferial.

The fair value of the APSA’s investment in the joint business was determined based on the fair value of EHSA’s net assets, being the main asset the usufruct agreement mentioned above. APSA has preliminarily allocated the price paid at the fair value of the net assets acquired based on the information available as of the closing date of Unaudited Condensed Interim Consolidated Financial Statements. Such fair value amounted to Ps. 15.3 million, which means a goodwill figure of Ps. 10.6 million recognized in the “Investments in associates and joint business” line in the balance sheet as of March 31, 2013. The fair value and identified goodwill should not be treated as final until the process of allocating the price paid is finalized.

The fair value of the usufruct agreement has been determined by the application of the discounted cash flow method. This estimate considered a discount rate that reflects the market assessments regarding uncertainties in terms of the cash flow amount and timing. The amount of net future cash flows was estimated based on the specific features of the property, the agreements in force, market information and future forecasts as of the valuation date. Net income forecasts, revenues growth rates and discount rates are among the most important assumptions used in the valuation.

Purchase of financial assets

During this period the Group purchased:

a) Government bonds of the City of Buenos Aires, for a nominal value of Ps. 19.0 million. These bonds accrue interest at an annual 7.95% fixed rate, payable semi- annually and maturing on April 29, 2014.

b) BHSA Non-Convertible Notes for Ps. 5 million, which accrue interest at an annual 18.75% fixed annual rate, payable semi- annually maturing on August 8, 2013.

IRSA Inversiones y Representaciones Sociedad Anónima

Notes to the Unaudited Condensed Interim Consolidated Financial Statements (Continued)

(All amounts in thousands of Argentine Pesos, except shares and per share data and as otherwise indicated)

Free translation from the original prepared in Spanish for publication in Argentina

3. Acquisition and disposals (Continued)

Disposal of financial assets

During the current nine-month period, the Group sold 3,823,412 ordinary shares of Hersha Hospitality Trust (“Hersha”) for a total amount of US\$ 19.4 million. Consequently, as of the date of issuance of these Unaudited Condensed Interim Consolidated Financial Statements, the Group’s interest in Hersha’s capital stock decreased from 9.13% (at the beginning of the year) to 7.19%. Subsequent to March 31, 2013, the Group sold an additional number of Hersha’s shares (see Note 33).

In November and December 2012, IRSA sold all of its shareholdings in NH Hoteles S.A. (138,572 shares for a consideration of € 0.38 million) and in NH Hoteles S.A. (387,758 shares for a total consideration of US\$ 1.4 million).

In December 2012, IRSA sold all of its shareholdings in Metrovacesa F (1,238,990 shares for a consideration of € 2.7 million); Metrovacesa SM (229,995 shares for a total consideration of € 0.5 million) and Metrovacesa F (919,087 shares for a consideration of US\$ 2.7 million).

Significant sales of investment properties

On August 31, 2012, IRSA executed the transfer deeds that formalize the sale of certain functional units of the building “Libertador 498” of the Autonomous City of Buenos Aires. The total price of the transaction amounted to Ps. 15 million and was paid on the execution of the title conveyance deeds. This transaction generated a gain of Ps. 12.7 million.

On September 14, 2012, IRSA sold certain functional units on floors 18 and 19, as well as parking areas, of the building Bouchard 551. The total price of the transaction was US\$ 8.5 million paid upon execution of the conveyance deed. This transaction generated a gain of Ps. 18.4 million.

On October 4 and 11, 2012, IRSA signed the transfer deed for the sale of several functional units (stores and parking spaces) of the building “Libertador 498”. The transactions price was set at Ps. 29.4 million, amount that had been completely collected. This transaction generated a gain of Ps. 24.9 million.

On January 8, 2013, IRSA sold certain functional units (stores and parking spaces) of the building “Costeros Dique IV”. The total price of the transaction was Ps. 9.2 million. This transaction generated a gain of Ps. 7.8 million.

On March 14, the Group through APSA sold, a functional unit of the building located on Anchorena 559. The transaction Price was set at Ps. 0.4 million, which resulted in approximately Ps. 0.2 million gain.

3. Acquisition and disposals (Continued)

Acquisition of Rigby 183 LLC

On June 30, 2012, the Group held through its subsidiary IMadison LLC a 49% equity interest in the capital stock of Rigby 183 LLC (“Rigby”), a company that owns office buildings for rental at Madison Avenue 183, New York, USA. On November 27, 2012, the Group, through its subsidiary IRSA International LLC, purchased an additional 25.5% equity interest in Rigby’s capital stock, thus taking control over said company. As a result of the acquisition, the Group expects to increase its footprint in the US real estate market. The goodwill from the acquisition, which amounts to Ps. 45.7 million, is attributable to the synergies expected to be achieved by combining the Group’s and Rigby’s operations.

The following chart shows the consideration paid by the Group, the fair value of the acquired assets, the assumed liabilities and the non-controlling interest as of the acquisition date.

| | |
|---|------------|
| Consideration paid: | 11.27.2012 |
| Cash and cash equivalents | 118,373 |
| Total consideration paid | 118,373 |
| Fair value of the interest in Rigby’s equity held before the business combination | 227,462 |
| Total consideration | 345,835 |
| Recognized balances of acquired identifiable assets and assumed liabilities: | |
| Cash and cash equivalents | 499 |
| Investment properties (Note 9) | 679,219 |
| Restricted assets (i) | 11,818 |
| Trade and other receivables, net | 2,317 |
| Borrowings | (252,834) |
| Trade and other payables | (12,081) |
| Deferred income tax liabilities (Note 22) | (26,103) |
| Total net identifiable assets | 402,835 |
| Non-controlling interest | (102,723) |
| Goodwill (Note 12) | 45,723 |
| Total | 345,835 |

(i) It pertains to cash held in escrow as security deposits and taxes paid in advance by tenants.

The acquisition-related costs (which amount to Ps. 2.5 million) were charged under “General and Administrative Expenses” in the statement of income.

The fair value of the investment property acquired is Ps. 679.2 million and was assessed by a qualified independent appraiser. The fair value of trade and other receivables amounts to Ps. 14.1 million, including trade receivables in the amount of Ps. 0.1 million. As of the acquisition date, the Group estimates that these receivables are recoverable. The fair value of the non-controlling interest in Rigby, an unlisted company, has been determined on a proportional basis to the fair value of net acquired assets.

3. Acquisition and disposals (Continued)

The Group recognized income of Ps. 124.1 million derived from the reassessment of the fair value of the 49% interest held in Rigby before the business combination. In addition, all cumulative currency translation gains (losses) accumulated in shareholders' equity from the interest held in Rigby before the business combination (Ps. 12.9 million) were charged to income. These gains were disclosed under "Other operating results, net" in the statement of income.

The revenues Rigby has generated since November 27, 2012 and that have been disclosed in the consolidated statement of income amount to Ps. 25.6 million. Rigby has also run a net loss of Ps. 2.6 million during said period. If Rigby had been included in the consolidation since July 1st, 2012, the consolidated income statement would have shown pro-forma revenues in the amount of Ps. 1,618.4 million and pro-forma net income of Ps. 317.2 million.

4. Financial risk management

4.1. Financial risk

The group's diverse activities are exposed to a variety of financial risk: market risk (including foreign currency risk, interest rate risk and price risk) credit risk, liquidity risk and capital risk.

The Exhibit I provides information on financial risk management as of June 30, 2012 and July 1st, 2011. Since June 30, 2012, there have been no significant changes in the risk management or risk management policies applied by the Group.

4.2. Fair value estimates

Since June 30, 2012 there have been no significant changes in business or economic circumstances affecting the fair value of the Group's financial assets or liabilities (either measured at fair value or amortized cost), nor any transfers between the different hierarchies used to assess the fair value of the Group's financial instrument and / or reclassifications between categories of financial instruments.

5. Segment information (Continued)

Total segment assets are allocated based on the operations of the segment and the physical location of the asset. In line with the discussion above, segment assets include the proportionate share of the assets of joint ventures. The statements of financial position under IFRS show the net investment in these joint ventures as a single item.

| | 03.31.2013 |
|--|------------|
| Total reportable assets as per segment information | 5,809,158 |
| Investment properties, net | (168,843) |
| Property, plant and equipment, net | (122) |
| Trading properties | (33,750) |
| Inventories | (104) |
| Investments in associates and joint venture | 299,760 |
| Total assets as per the statements of financial position | 5,906,099 |

6. Information about main subsidiaries

The Group conducts its business through several operating and holding subsidiaries which are listed in Note 1.3 of Exhibit I. The Group considers that the subsidiaries below are the ones with non-controlling interests material to the Group.

Set out below are the summarized financial information for each subsidiary that has non-controlling interests that are material to the Group:

7. Interests in joint ventures

As of March 31, 2013, the joint ventures of the Group are Canteras Natal Crespo S.A., Cyrsa S.A., Puerto Retiro S.A., Baicom Networks S.A., Quality Invest S.A. Nuevo Puerto Santa Fe S.A. (“NPSF”) and EH. The shares in these joint ventures are not publicly traded.

As of June 30, 2012, the joint ventures of the Group were Canteras Natal Crespo S.A., Cyrsa S.A., Puerto Retiro S.A., Baicom Networks S.A., Quality Invest S.A. and NPSF.

As noted Note 3, the Group through APSA acquired shares of common stock, representing 50% of Entertainment Holdings S.A. (“EH”)’s capital stock and votes and as a consequence holds a jointly indirect interest in LRSA of 25% which operates the fairground Predio.

In connection with the Fairground, as publicly known, in December 2012 the Executive Branch issued Executive Order 2552/12 that annulled an executive order dated 1991 which approved the sale of the Fairground to the SRA; the effect of this new order was to revoke the sale transaction. Subsequent to December 21, 2012, the Executive Branch notified the SRA of said executive order and further ordered that the property be returned to the Federal Government within 30 subsequent days. Then, the SRA issued a press release publicly disclosing the initiation of legal actions.

Neither has the Group been served notice formally nor is it a party involved in the legal actions brought by the SRA.

As of the date of these Unaudited Condensed Interim Consolidated Financial Statements, the above mentioned legal matters resulted in certain delays in gathering all the necessary financial information to register the acquisition pursuant to IFRS 3. However, the Group has strived to complete the preliminary allocation of the price paid based on its fair value estimates made on the information available to date. Therefore, values included are preliminary and are subject to changes. The Group expects to finalize this process by June 30, 2013.

Changes in the Group’s investments in joint ventures for the nine-month period ended March 31, 2013 and for the year ended June 30, 2012 were as follows:

| | 03.31.2013 | 06.30.2012 |
|-------------------------------|------------|------------|
| Beginning of period / year | 228,970 | 193,666 |
| Acquisition of joint ventures | 32,024 | 43,038 |
| Capital contribution | 29,606 | 15,850 |
| Share of profit, net | 9,160 | (23,584) |
| End of period / year | 299,760 | 228,970 |

IRSA Inversiones y Representaciones Sociedad Anónima

8. Interests in associates

As of June 30, 2012, the associate of the Group were New Lipstick LLC, Rigby 183 LLC, BHSA, Tarshop S.A., Manibil S.A., Lipstick Management LLC, Banco de Crédito y Securitización S.A. (“BACS”) and Bitania 26 S.A..

As of December 31, 2012, Rigby 183 LLC began to be reported on a consolidated basis and ceased to be an affiliate, thus as of March 31, 2013, the associates of the Group are New Lipstick LLC, BHSA, Tarshop S.A., Manibil S.A., Lipstick Management LLC, BACS and Bitania 26 S.A..

Changes in the Group’s investments in associates for the nine-month period ended March 31, 2013 and for the year ended June 30, 2012 were as follows:

| | 03.31.2013 | 06.30.2012 |
|---|------------|------------|
| Beginning of the period / year | 1,216,845 | 1,179,549 |
| Acquisition of associates | - | 6,166 |
| Capital contributions | 10,319 | - |
| Share of profit, net | 5,952 | 35,244 |
| Currency translation adjustment | 4,996 | (4,114) |
| Dividend payments (ii) | (33,813) | - |
| Decrease for the taking over (see Note 3) | (103,315) | - |
| | (*) | |
| End of the period/year (i) year | 1,100,984 | 1,216,845 |

(i) Includes a balance of Ps. (29,944) reflecting interests in companies with negative equity as of March 31, 2013 which is reclassified to “Provisions” (see Note 20).

(ii) During the period, the Group cashed dividends from Manibil S.A. and BHSA in the amount of Ps. 3.3 million and Ps. 30.5 million, respectively.

9. Investment properties

Changes in the Group’s investment properties for the nine-month period ended March 31, 2013 and for the year ended June 30, 2012 were as follows:

| | 03.31.2013 | 06.30.2012 |
|----------------------------------|------------|------------|
| Beginning of the period / year | 3,275,226 | 3,340,081 |
| Currency translation adjustment | 42,070 | - |
| Additions and acquisitions | 157,324 | 108,863 |
| Acquisition of subsidiaries (ii) | 679,219 | - |
| Sales and disposals (ii) | (27,437) | (38,889) |
| Depreciation charge (i) | (141,632) | (134,829) |
| End of the period / year | 3,984,770 | 3,275,226 |

(i) Depreciation charges of investment properties were included in “Costs” in the Statements of Income (Note 26).

(ii) See Note 3.
