preliminary sales information - final results will not be available until the week of February 26, 2007:

1. Estimated net sales for the 12 month period ending December 31, 2006 were up between 30% - 31% over net sales for the 12 month period ending December 31, 2005;

2. Estimated net sales in the 4th quarter 2006 were up between 26% - 28% over net sales in the 4th quarter of 2005; and

3. The estimated growth in net sales in the month of December slowed relative to the growth rate in the rest the quarter, primarily due to the softness in cold weather categories such as Men's and Women's outerwear, hats gloves and scarves, and sweaters. In addition, the Company's year end deferred revenue (orders that shipped but did not get received by the customers) was approximately 118% higher in 2006 than 2005.
