**ITEM 3.**

***PRESS RELEASE***

A press release was issued by the Company on February 9, 2004 at Vancouver, British Columbia and distributed through the facilities of Canada NewsWire.

**ITEM 4.**

***SUMMARY OF MATERIAL CHANGE***

The Company has signed a binding agreement with a number of individuals, subject to regulatory approval and other conditions, to purchase for approximately \$35 million 92.014% of the voting shares of Compania Minera Argentum S.A. ("Argentum"). Argentum will acquire, through a split-off process from Sociedad Minera Corona S.A., the Anticona and Manuelita mining units and related infrastructure and processing assets ("Morococho").

**ITEM 5.**

***FULL DESCRIPTION OF MATERIAL CHANGE***

Vancouver, Canada - Pan American Silver Corp. (PAAS: NASDAQ; PAA: TSX) is pleased to announce it has signed a binding agreement with a number of individuals, subject to regulatory approval and other conditions, to purchase for approximately \$35 million 92.014% of the voting shares of Compania Minera Argentum S.A. ("Argentum"). Argentum will acquire, through a split-off process from Sociedad Minera Corona S.A., the Anticona and Manuelita mining units and related infrastructure and processing assets ("Morococha"). Morococha is located in central Peru 150 km northeast of Lima. Historically, the operation has produced approximately 3.5 million ounces of silver annually, together with significant amounts of byproduct zinc, copper and lead, at a cash cost, net of by-product credits, of below \$3 per ounce of silver. Morococha is located only 80 km from Pan American's 4.5 million ounce/year Huaron silver mine, which is also an underground vein mine producing silver-bearing concentrates.

**1500-625 HOWE STREET, VANCOUVER, BC CANADA V6C 2T6 . TEL 604.684.1175 FAX 604.684.0147**

**[www.panamericansilver.com](http://www.panamericansilver.com)**

---

Morococha hosts a very large and prolific network of veins and replacement bodies within a mineral rights package covering 6,648 hectares of historically productive and highly prospective concessions. The mine has proven and probable reserves of 9.2 million ounces of silver, measured and indicated resources of 5.7 million ounces of silver, and inferred resources of 40 million ounces of silver.\*

The addition of Morococha is immediately accretive to Pan American's silver production, cash flow and earnings per share, and will reduce the Company's consolidated cash and total operating costs per ounce of silver produced. The new production will increase the Company's 2004 silver production forecast from 10.1 million ounces to 13 million ounces and will reduce forecast cash costs to below \$3.50/oz, bringing anticipated total costs to less than \$4/oz for the year. The acquisition will increase Pan American's annual Peruvian silver production to over 10 million ounces and will allow many administrative synergies with the Company's other two Peruvian underground mines and its Lima administrative office.

Based on an extensive technical due diligence review, Pan American plans to carry out stepped-up mine development and mill upgrades to enable sustained long-term production averaging 3.9 million ounces of silver annually at a cash cost of below \$2.50 per ounce.
