Table of Contents

ATRION CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(1) Basis of Presentation

In the opinion of management, all adjustments necessary for a fair presentation of results of operations for the periods presented have been included in the accompanying unaudited consolidated financial statements of Atrion Corporation and its subsidiaries (the "Company"). Such adjustments consist of normal recurring items. The accompanying financial statements have been prepared in accordance with the instructions to Form 10-Q and include the information and notes required by such instructions. Accordingly, the consolidated financial statements and notes thereto should be read in conjunction with the financial statements and notes included in the Company's 2006 Annual Report on Form 10-K.

(2) Inventories

Inventories are stated at the lower of cost or market. Cost is determined by using the first-in, first-out method. The following table details the major components of inventories (in thousands):

	September 30, 2007	December 31, 2006
Raw materials	\$ 7,153	\$ 7,194
Work in process	4,578	4,084
Finished goods	5,996	5,837
Total inventories	\$ 17,727	\$ 17,115

(3) Income per share

The following is the computation for basic and diluted income per share:

	Three months ended September 30,		Nine months ended September 30,	
	2007	2006	2007	2006
	(in thousands, except per share amounts)			
Income from continuing operations	\$ 4,110	\$ 2,696	\$ 10,864	\$ 7,621
Weighted average basic shares outstanding	1,895	1,858	1,883	1,846
Add: Effect of dilutive securities	93	102	97	105
Weighted average diluted shares outstanding	1,988	1,960	1,980	1,951
Earnings per share from continuing operations:				
Basic	\$ 2.17	\$ 1.45	\$ 5.77	\$ 4.13
Diluted	\$ 2.07	\$ 1.38	\$ 5.49	\$ 3.91

There were no outstanding options to purchase shares of common stock that were not included in the diluted income per share calculations because their effect would be anti-dilutive for the three-month and nine-month periods ended September 30, 2007 and 2006.

Table of Contents

ATRION CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

(4) Pension Benefits

The components of net periodic pension cost for the Atrion Corporation Cash Balance Plan (the "Plan") are as follows for the three and nine months ended September 30, 2007 and September 30, 2006 (in thousands):

	Three Months ended		Nine months ended	
	September 30,		September 30,	
	2007	2006	2007	2006
Service cost	\$ 65	\$ 69	\$ 195	\$ 207
Interest cost	80	83	240	249
Expected return on assets	(123)	(111)	(369)	(333)
Prior service cost amortization	(9)	(9)	(27)	(27)
Net curtailment/settlement losses	(311)	--	(311)	--
Actuarial loss	15	29	45	87
Net periodic pension cost	\$ (283)	\$ 61	\$ (227)	\$ 183

In September 2007, the Company terminated the Plan. Affected employees will be eligible to accrue pension benefits through December 31, 2007, but will not accrue any additional benefits under the Plan after that date. A curtailment gain of approximately \$389,000 was recorded in the third quarter of 2007. During September 2007 the Plan settled its obligations to a certain group of participants whose employment has terminated by acquiring for them annuities from a life insurance company. A settlement loss of approximately \$700,000 was recorded in the third quarter of 2007. Additional losses of approximately \$1.0 million will be recognized in future periods as the remaining benefit obligations under the Plan are settled.

The Company has not made any contributions to the Plan during 2007 and it does not believe that any further contributions to the Plan will be required because the Plan's assets exceed its remaining obligations by approximately \$300,000.

During the third quarter the Company also terminated and settled its obligations under two nonqualified retirement plans by making additional contributions of \$280,000 to the trusts for such plans and then distributing all trust assets to the plan participants. A settlement loss of approximately \$18,000 was recorded in the third quarter of 2007 with respect to these plans.

(5) Recent Accounting Pronouncements

In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements" ("SFAS 157"), which provides guidance for measuring the fair value of assets and liabilities, as well as requires expanded disclosures about fair value measurements. SFAS 157 indicates that fair value should be determined based on the assumptions marketplace participants would use in pricing the asset or liability, and provides additional guidelines to consider in determining the market-based measurement. The Company will be required to adopt SFAS 157 on January 1, 2008. The Company is currently evaluating the impact of adopting SFAS 157 on its consolidated financial statements.

Table of Contents

ATRION CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

In February 2007, the FASB issued SFAS 159, "The Fair Value Option for Financial Assets and Financial Liabilities - Including an amendment of FASB Statement No. 115" ("SFAS 159"), which allows measurement at fair value of eligible financial assets and liabilities that are not otherwise measured at fair value. If the fair value option for an eligible item is elected, unrealized gains and losses for that item shall be reported in current earnings at each subsequent reporting date. SFAS 159 also establishes presentation and disclosure requirements designed to draw comparison between the different measurement attributes the Company elects for similar types of assets and liabilities. SFAS 159 is effective for fiscal years beginning after November 15, 2007. Early adoption is permitted. The Company is currently assessing the impact of SFAS 159 on its financial statements.

(6) Income Taxes

The Company adopted the provisions of Financial Accounting Standards Board Interpretation 48 ("FIN 48"), "Accounting for Uncertainty in Income Taxes - an interpretation of FASB Statement No. 109," on January 1, 2007. As a result of the implementation of FIN 48, the Company recorded \$959,000 of unrecognized tax benefits as "Other non-current liabilities" on the consolidated balance sheet, with no net impact to the consolidated statement of operations. Of this amount, approximately \$17,000 was accounted for as a reduction to the January 1, 2007 balance of retained earnings, in accordance with the adoption of FIN 48. The unrecognized tax benefits were comprised of uncertain tax positions that would impact the effective tax rate if recognized. At January 1, 2007, approximately \$404,000 of unrecognized tax benefits related to items that are affected by statutes of limitation that expire within the next 12 months.

The unrecognized tax benefits mentioned above of \$959,000 include an aggregate \$57,000 of interest expense. Interest was computed on the difference between the tax position recognized in accordance with FIN 48 and the amount previously taken or expected to be taken in the tax returns. Upon adoption of FIN 48, the Company has elected an accounting policy to classify interest expense on underpayments of income taxes and accrued penalties related to unrecognized tax benefits in the income tax provision. Prior to the adoption of FIN 48, the Company's policy was to classify interest expense on underpayments of income taxes as interest expense and to classify penalties as an operating expense in arriving at pretax income.

In the third quarter of 2007, the Company reduced its balance of unrecognized tax benefits by \$382,000 related to the expiration of statutes of limitations. At September 30, 2007, the balance of unrecognized tax benefits was \$561,000. The unrecognized tax benefits were comprised of uncertain tax positions that would impact the effective tax rate if recognized. Unrecognized tax benefits that are affected by statutes of limitation that expire within the next 12 months are immaterial.

The Company and its subsidiaries are subject to U.S. federal income tax as well as to income tax of multiple state jurisdictions. The Company has concluded all U.S. federal income tax matters for years through 2004. In October 2007, the Internal Revenue Service (IRS) began examining certain of the Company's U.S. Federal income tax returns for 2005. To date, no proposed adjustments have been issued. All material state and local income tax matters have been concluded for years through 2002.

Table of Contents

**ATRION CORPORATION AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)**

(7) Dispute Settlement

The Company had an ongoing dispute which was favorably settled in the third quarter of 2007. The Company recorded a one-time benefit of \$1.4 million, net of expenses, in operating expenses. As part of this settlement the Company could receive additional annual payments totaling \$4.1 million through 2025. The Company did not record these payments as part of the settlement due to the uncertainty of collection.

9

Table of Contents

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Overview

The Company designs, develops, manufactures, sells and distributes products and components, primarily for the medical and healthcare industry. The Company markets components to other equipment manufacturers for incorporation in their products and sells finished devices to physicians, hospitals, clinics and other treatment centers. The Company's medical products primarily serve the fluid delivery, cardiovascular, and ophthalmology markets. The Company's other medical and non-medical products include instrumentation and disposables used in dialysis, contract manufacturing and valves and inflation devices used in marine and aviation safety products.

The Company's products are used in a wide variety of applications by numerous customers. The Company encounters competition in all of its markets and competes primarily on the basis of product quality, price, engineering, customer service and delivery time.

The Company's strategy is to provide a broad selection of products in the areas of its expertise. Research and development efforts are focused on improving current products and developing highly-engineered products that meet customer needs and have the potential for broad market applications and significant sales. Proposed new products may be subject to regulatory clearance or approval prior to commercialization and the time period for introducing a new product to the marketplace can be unpredictable. The Company also focuses on controlling costs by investing in modern manufacturing technologies and controlling purchasing processes. The Company has been successful in consistently generating cash from operations and has used that cash to reduce indebtedness, to fund capital expenditures, to repurchase stock and to pay dividends.

The Company's strategic objective is to further enhance its position in its served markets by:

- Focusing on customer needs;
- Expanding existing product lines and developing new products;
- Maintaining a culture of controlling cost; and
- Preserving and fostering a collaborative, entrepreneurial management structure.

For the three months ended September 30, 2007, the Company reported revenues of \$21.3 million, operating income of \$5.8 million and net income of \$4.1 million, up 10 percent, 82 percent and 52 percent, respectively, from the three months ended September 30, 2006. For the nine months ended September 30, 2007, the Company reported revenues of \$67.6 million, operating income of \$16.0 million and net income of \$10.9 million, up 13 percent, 54 percent and 40 percent, respectively, from the nine months ended September 30, 2006

Results for the three months ended September 30, 2007

Table of Contents

Consolidated net income totaled \$4.1 million, or \$2.17 per basic and \$2.07 per diluted share, in the third quarter of 2007. This is compared with consolidated net income of \$2.7 million, or \$1.45 per basic and \$1.38 per diluted share, in the third quarter of 2006. The income per basic share computations are based on weighted average basic shares outstanding of 1,894,622 in the 2007 period and 1,858,356 in the 2006 period. The income per diluted share computations are based on weighted average diluted shares outstanding of 1,988,150 in the 2007 period and 1,960,274 in the 2006 period.

Consolidated revenues of \$21.3 million for the third quarter of 2007 were 10 percent higher than revenues of \$19.3 million for the third quarter of 2006. These increases were generally attributable to higher sales volumes.

Revenues by product line were as follows (in thousands):

	Three Months ended September 30,	
	2007	2006
Fluid Delivery	\$ 7,236	\$ 6,121
Cardiovascular	5,867	5,707
Ophthalmology	4,230	3,301
Other	3,982	4,161
Total	\$ 21,315	\$ 19,290

Cost of goods sold of \$12.2 million for the third quarter of 2007 was 3 percent higher than in the comparable 2006 period. Increased sales volume and increased manufacturing overhead costs partially offset by improved manufacturing efficiencies were the primary contributors to the increase in cost of goods sold for the third quarter of 2007.

Gross profit of \$9.1 million in the third quarter of 2007 was \$1.6 million, or 22 percent, higher than in the comparable 2006 period. The Company's gross profit percentage in the third quarter of 2007 was 42.7 percent of revenues compared with 38.8 percent of revenues in the third quarter of 2006. The increase in gross profit percentage in the 2007 period compared to the 2006 period was primarily related to improved manufacturing efficiencies.

The Company's third quarter 2007 operating expenses of \$3.3 million were \$991,000 lower than the operating expenses for the third quarter of 2006. This decrease was comprised of a \$405,000 increase in General and Administrative (G&A) expenses and a \$79,000 increase in selling (Selling) expenses partially offset by a \$77,000 decrease in Research and Development (R&D) expenses. Additionally, in the third quarter of 2007 the Company recorded a large non-routine item in operating expenses. The Company recorded a \$1.4 million benefit, net of expenses, related to a dispute settlement. The increase in G&A expenses for the third quarter of 2007 was principally attributable to a \$329,000 charge related to the termination of certain pension plans, increased compensation and benefit costs partially offset by lower costs for outside services. G&A expenses for the third quarter of 2006 included costs associated with the relocation to the new facility for a subsidiary, Halkey-Roberts Corporation ("Halkey-Roberts"). The increase in Selling expenses for the third quarter of 2007 was primarily related to increased outside services, promotion and advertising, and travel-related expenses partially offset by decreased compensation. The decrease in R&D costs was primarily related to decreased outside services. Operating income in the third quarter of 2007 increased \$2.6 million, or 82 percent, to \$5.8 million. Operating income was 27.2 percent of revenues in the third quarter of 2007 compared to 16.5 percent of revenues in the third quarter of 2006. The previously mentioned increase in gross profit and the decrease in operating expenses were the major contributors to the operating income improvement in the third quarter of 2007.

Table of Contents

Interest expense was \$33,000 for the 2007 period and was attributable to borrowings related to the new facility for Halkey-Roberts. Interest on those borrowings that accrued in the third quarter of 2007 was treated as an expense while interest on borrowings for construction that accrued through August 31, 2006 was capitalized as that quarter was part of the construction period of the new Halkey-Roberts facility. Interest of \$58,000 on the borrowings after August 31, 2006 was treated as an expense. The relocation of the Halkey-Roberts operations to the new facility was completed by the end of the third quarter of 2006. Income tax expense for the third quarter of 2007 was \$1.7 million compared to income tax expense of \$433,000 for the same period in the prior year. The effective tax rate for the third quarter of 2007 was 28.8 percent compared with 13.8 percent for the third quarter of 2006. The lower effective tax rate for the 2006 period is primarily related to a review of the Company's R&D tax credits for 2005 and prior-year tax returns which indicated that the Company was entitled to higher credits than had been claimed.

Results for the nine months ended September 30, 2007

Consolidated net income totaled \$10.9 million, or \$5.77 per basic and \$5.49 per diluted share, in the first nine months of 2007. This is compared with consolidated net income of \$7.8 million, or \$4.22 per basic and \$3.99 per diluted share, in the first nine months of 2006. The income per basic share computations are based on weighted average basic shares outstanding of 1,883,444 in the 2007 period and 1,846,265 in the 2006 period. The income per diluted share computations are based on weighted average diluted shares outstanding of 1,980,385 in the 2007 period and 1,951,413 in the 2006 period.

Consolidated revenues of \$67.6 million for the first nine months of 2007 were 13 percent higher than revenues of \$59.6 million for the first nine months of 2006. These increases were generally attributable to higher sales volumes.

Revenues by product line were as follows (in thousands):

	Nine months ended September 30,	
	2007	2006
Fluid Delivery	\$ 21,984	\$ 19,180
Cardiovascular	17,928	17,147
Ophthalmology	13,748	9,685
Other	13,892	13,629
Total	\$ 67,552	\$ 59,641

Cost of goods sold of \$38.5 million for the first nine months of 2007 was 7 percent higher than in the comparable 2006 period. Increased sales volume and increased manufacturing overhead costs were the primary contributors to the increase in cost of goods sold for the first nine months of 2007.

Table of Contents

Gross profit of \$29.1 million in the first nine months of 2007 was \$5.5 million, or 23 percent, higher than in the comparable 2006 period. The Company's gross profit percentage in the first nine months of 2007 was 43.1 percent of revenues compared with 39.6 percent of revenues in the first nine months of 2006. The increase in gross profit percentage in the 2007 period compared to the 2006 period was primarily related to an improved mix of product sales toward products with lower costs and improved manufacturing efficiencies.

The Company's operating expenses of \$13.1 million for the first nine months of 2007 were \$118,000 lower than the operating expenses for the first nine months of 2006. This decrease was comprised of an \$1.1 million increase in G&A expenses and a \$187,000 increase in Selling expenses partially offset by a \$48,000 decrease in R&D expenses. Additionally, in the third quarter of 2007 the Company recorded a \$1.4 million benefit, net of expenses, related to a dispute settlement as a reduction in operating expenses. The increase in G&A expenses for the first nine months of 2007 was principally attributable to a \$329,000 charge related to the termination of certain pension plans, increased compensation costs partially offset by reduced outside services. The increase in Selling expenses for the first nine months of 2007 was primarily related to increased outside services, promotion and advertising partially offset by reduced compensation. The decrease in R&D costs was primarily related to lower costs for outside services and supplies. Operating income in the first nine months of 2007 increased \$5.6 million, or 54 percent, to \$16.0 million. Operating income was 23.6 percent of revenues in the first nine months of 2007 compared to 17.4 percent of revenues in the first nine months of 2006. The previously mentioned increase in gross profit and the decrease in operating expenses were the major contributors to the operating income improvement in the first nine months of 2007.

Interest expense was \$251,000 for the 2007 period and was attributable to borrowings related to the new facility for Halkey-Roberts. Interest on those borrowings that accrued in the first nine months of 2007 was treated as an expense while interest on borrowings for construction that accrued through August 31, 2006 was capitalized as that period was part of the construction period of the new Halkey-Roberts facility. Interest of \$58,000 on the borrowings after August 31, 2006 was treated as an expense. The relocation of the Halkey-Roberts operations to the new facility was completed by the end of the third quarter of 2006. Income tax expense for the first nine months of 2007 was \$4.9 million compared to income tax expense of \$2.7 million for the same period in the prior year. The effective tax rate for the first nine months of 2007 was 31.0 percent compared with 26.1 percent for the first nine months of 2006. The lower effective tax rate for the 2006 period is primarily related to a review of the Company's R&D tax credits for 2005 and prior-year tax returns which indicated that the Company was entitled to higher credits than had been claimed.

During the first nine months of 2006, the Company recorded a gain on the disposal of discontinued operations relating to the 1997 sale of its natural gas operations of \$165,000 after tax, or \$0.09 per basic and \$0.08 per diluted share, resulting from the receipt of a contingent deferred payment in 2006. Under the terms of the 1997 agreement pursuant to which the Company sold its natural gas operations, no additional payments were due after 2006.

Liquidity and Capital Resources

At September 30, 2007, the Company had cash and cash equivalents of \$1.0 million compared with \$333,000 at December 31, 2006. The Company had no outstanding borrowings under its \$25.0 million revolving credit facility (“Credit Facility”) at September 30, 2007 and \$11.4 million at December 31, 2006. Cash generated primarily from operations during the first nine months of 2007 was used to pay off the \$11.4 million outstanding balance under the Credit Facility as of December 31, 2006 and interest thereon accruing during 2007. The Credit Facility, which expires November 12, 2009, and may be extended under certain circumstances, contains various restrictive covenants, none of which is expected to impact the Company’s liquidity or capital resources. At September 30, 2007, the Company was in compliance with all financial covenants.

As of September 30, 2007, the Company had working capital of \$22.5 million, including \$1.0 million in cash and cash equivalents. The \$1.2 million decrease in working capital during the first nine months of 2007 was primarily related to an increase in accounts payable and other accrued expenses and a decrease in prepaid expenses partially offset by increases in inventory and cash. The increase in accounts payable for 2007 is primarily related to inventory purchases. The decrease in prepaid expenses for 2007 was primarily attributable to reduced income tax deposits. The increase in inventories for 2007 is related to increased stocking levels necessary to support current operations. The increase in cash for 2007 is primarily related to amounts available from operations after the Company paid off its outstanding borrowings. Cash flows from operating activities generated \$18.3 million for the nine months ended September 30, 2007 as compared to \$10.1 million for the nine months ended September 30, 2006. The 2007 increase was attributable to improved profitability and improved working capital changes in 2007 as compared to working capital changes in 2006. During the first nine months of 2007, the Company expended \$6.0 million for the addition of property and equipment. During the first nine months of 2007, the Company received net proceeds of \$541,000 from the exercise of employee stock options and paid dividends of \$1.2 million.

The Company believes that its existing cash and cash equivalents, cash flows from operations, borrowings available under the Company’s credit facility, supplemented, if necessary, with equity or debt financing, which the Company believes would be available, will be sufficient to fund the Company’s cash requirements for the foreseeable future.

Forward-Looking Statements

The statements in this Management’s Discussion and Analysis that are forward-looking are based upon current expectations, and actual results may differ materially. Therefore, the inclusion of such forward-looking information should not be regarded as a representation by the Company that the objectives or plans of the Company would be achieved. Such statements include, but are not limited to, the Company’s expectations regarding future liquidity and capital resources and the effects of terminating the Company’s pension plans. Words such as “anticipates,” “believes,” “expects,” “estimated” and variations of such words and similar expressions are intended to identify such forward-looking statements. Forward-looking statements contained herein involve numerous risks and uncertainties, and there are a number of factors that could cause actual results or future events to differ materially, including, but not limited to, the following: changing economic, market and business conditions; acts of war or terrorism; the effects of governmental regulation; the impact of competition and new technologies; slower-than-anticipated introduction of new products or implementation of marketing strategies; implementation of new manufacturing processes or implementation of new information systems; the Company’s ability to protect its intellectual property; changes in the prices of raw materials; changes in product mix; intellectual property and product liability claims and product recalls; the ability to attract and retain qualified personnel; and the loss of, or any material reduction in sales to, any significant customers. In addition, assumptions relating to budgeting, marketing, product development and other management decisions are subjective in many respects and thus susceptible to interpretations and periodic review which may cause the Company to alter its marketing, capital expenditures or other budgets, which in turn may affect the Company’s results of operations and financial condition.

Table of Contents

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For the quarter ended September 30, 2007, the Company did not experience any material changes in market risk exposures that affect the quantitative and qualitative disclosures presented in the Company's 2006 Annual Report on Form 10K.

Item 4. Controls and Procedures

The Company's management, with the participation of the Company's Chief Executive Officer and its Chief Financial Officer, evaluated the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of September 30, 2007. Based upon this evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures are effective. There were no changes in the Company's internal control over financial reporting for the quarter ended September 30, 2007 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

From time to time, the Company may be involved in claims or litigation that arise in the normal course of business. The Company is not currently a party to any legal proceedings, which, if decided adversely, would have a material adverse effect on the Company's business, financial condition, or results of operations.

Item 1A. Risk Factors

Other than as set forth below, there were no material changes to Risk Factors disclosed in our annual report on Form 10-K for the year ended December 31, 2006.

Item 6. Exhibits and Reports on Form 8-K

(a) Exhibits

31.1 Sarbanes-Oxley Act Section 302 Certification of Chief Executive Officer

31.2 Sarbanes-Oxley Act Section 302 Certification of Chief Financial Officer

32.1 Certification Pursuant To 18 U.S.C. Section 1350, As Adopted Pursuant To Section 906 of The Sarbanes – Oxley Act Of 2002

32.2 Certification Pursuant To 18 U.S.C. Section 1350, As Adopted Pursuant To Section 906 of The Sarbanes – Oxley Act Of 2002

(b) Reports on Form 8-K

On August 7, 2007, the Company filed a report on Form 8-K with the SEC regarding the public dissemination of a press release announcing its financial results for the second quarter ended June 30, 2007 (Item 12).
