2Q11

BANCOLOMBIA S.A. (NYSE: CIB; BVC: BCOLOMBIA, PFBCOLOM) REPORTS CONSOLIDATED NET INCOME OF COP 386 BILLION FOR THE SECOND QUARTER OF 2011 (COP 489 PER SHARE - USD 1.10 PER ADR), WHICH REPRESENTS AN INCREASE OF 32% COMPARED TO THE SAME QUARTER LAST YEAR.

- Net loans grew 5.1% during the quarter and 22.4% compared to 2Q10. This growth confirms the trend of sustained credit demand that started in the second half of 2010.
- Net interest income increased 10% during the quarter and 17.2% compared to 2Q10. These increases are the result of loan growth coupled with a funding strategy that allowed the Bank to maintain a low cost of deposits during the quarter as a measure to defend the net interest margin, which ended the period at 6.2%
- Loan portfolio quality continues showing a good trend. Loan deterioration during 2Q11 was COP 62 billion, 56% lower than in 1Q11, and past due loans as a percentage of total loans were 2.6%. Net provision charges totaled COP104 billion for the quarter, while annualized credit cost for the first semester of 2011 was 0.7%.
- The balance sheet remains strong. Loan loss reserves represented 4.8% of total loans and 187% of past due loans at the end of 2Q11. The capital adequacy ratio ended the quarter at 13.7% (Tier 1 of 9.9%).
- Profitability. ROE for 2Q11 was 19.6%, and annualized ROE for the first six months of the year was 18.5%, which represents an increase from the 18% reported for 2010.

2Q11

1. BALANCE SHEET

1.1. Assets

As of June 30, 2011, Bancolombia's assets totaled COP 75,157 billion, which represents an increase of 6% compared to 1Q11 and of 20% compared to 2Q10.

Assets denominated in COP totaled COP 60,778 billion at the end of 2Q11, increasing 6% compared to 1Q11 and 31% compared to 2Q10. Assets denominated in currencies other than COP (mainly American dollars ("USD")) represented 19% of total assets (or USD 8.1 billion) at the end of 2Q11, increasing 8% compared to 1Q11 and decreasing 4% compared to 2Q10. The COP appreciated 5% against the USD during 2Q11 and appreciated 7% against that same currency since 2Q10.

Loans and financial leases, net of provisions, represented 67% of assets at the end of 2Q11, decreasing 1% as compared to the proportion they represented at the end of 1Q11 and increasing 1% as compared to the proportion they represented 2Q10 (66%). Net investments were 14% of total assets at the end of the quarter, decreasing as compared to their participation in assets at the end of 1Q11 (15%) and remaining stable as compared to 2Q10.

Prepaid expenses and deferred charges increased 258% in 2Q11 versus 2Q10. This increase is explained by the recording of deferred expenses for COP 469 billion in 1Q11, related to the wealth tax that Bancolombia and its subsidiaries will pay from 2011 to 2014. The value recorded in this line will be amortized during the next four years and will be shown mainly as a reduction in the reappraisal and others account, although a portion will be reflected on the administrative expenses and others account. As of June 2011, the prepaid expenses and deferred charges account had COP 401 billion related to this wealth tax.

The property, plant and equipment account increased 15% during 2Q11 and 37% with respect to 2Q10. These variations are mainly explained by the increase in the import of equipment destined for leasing operations (once the importing process is finalized), and also by capitalized investments and expenses related to technology.

1.2. Loan Portfolio

During the second quarter of 2011, there was growth of the loan portfolio in our operation in Colombia. Loans denominated in COP totaled COP 39,613 billion at the end of 2Q11, and increased 6% compared to 1Q11 and 18% compared to 2Q10. On the other hand, loans denominated in USD totaled USD 7,694 million (26% of the loan portfolio), increasing 6% compared to 1Q11 and 43% compared to 2Q10. These USD denominated loans correspond to loans originated in Colombia (USD 3,054 million or 41% of loans in USD), El Salvador (USD 2,361 million or 31% of loans in USD) and other countries (USD 2,079 million or 28% of loans in USD).

The appreciation of the COP during the quarter affected the conversion to COP of loans denominated in USD. Overall, Bancolombia's gross loans totaled COP 53,249 billion at the end of 2Q11 and increased 4.8% compared to the COP 50,793 billion at the end of 1Q11.

In annual terms, gross loans increased 21% compared to the COP 43,886 billion in loans reported as of the end of 2Q10. This increase is explained by the growth of loans in both COP and USD, although the conversion of USD denominated loans to COP results in total loan growth in COP of 32% for the dollar denominated portfolio compared

to 2Q10. In general, the higher volume of loans denominated in USD during the quarter, reflect increased credit demand on the part of Colombian companies. The recovery of international trade flows played an important role in the increase of loans denominated in USD. Similarly, loans denominated in COP, which constitutes the majority of our loan portfolio, confirms the positive trend that began to show in 2Q10.

2Q11

Commercial loans denominated in COP ended 2Q11 at COP 22,732 billion and increased 4% with respect to 1Q11. Commercial loans denominated in USD totaled USD 5,888 million at the end of the quarter and increased 7% compared to 1Q11. Companies are consistently demanding credit from domestic banks, which again confirms the trend that has been observed in the last few quarters. The Colombian government, in an effort to control external debt in dollars that could result in further appreciation of the COP, imposed a withholding tax on the interest paid by Colombian companies on loans granted to them by other foreign banks. This tax motivated companies with loans in USD granted by foreign banks to start taking loans in USD with domestic banks, which was one of the reasons for the growth in Bancolombia's USD denominated loan book.

Consumer loans denominated in COP also continued to show dynamism during the quarter, reaching COP 7,512 billion, a figure 14% higher than that reported at the end of 1Q11 and 46% higher than that reported at the end of 2Q10. In contrast, consumer loans originated in El Salvador continued to be subdued as consumer loans denominated in USD totaled USD 1,041 million and increased 1% with respect to 1Q11, and 3% with respect to 2Q10.

In 2Q11, mortgage loans expressed in COP increased COP 393 billion (13%), and reached COP 3,394 billion. The total outstanding balance of securitized mortgages was COP 2,785 billion at the end of 2Q11. When taking into account securitizations, mortgage loans increased 4% during the quarter and 14% during the past 12 months. The increased dynamism of mortgage lending in Colombia is explained by optimism regarding the economy, lower long-term interest rates, as well as by the Colombian government's interest rate subsidy programs, which have produced higher credit demand in this segment. On the other hand, the outstanding mortgage balances denominated in USD from our operation in El Salvador totaled USD 423 million, 1% lower than the mortgage balances in USD reported in 1Q11 and 2% lower than those reported in 2Q10.

Financial leases, 91% of which are denominated in COP, increased 4% during the quarter and 16% compared to 2Q10. Operating leases, net of depreciation, increased 8% during 2Q11 and 23% over the last 12 months.

When analyzing the performance of the loan portfolio according to the categories established by Bancolombia to manage its commercial strategy, it becomes clear that retail and SME loans were key drivers of the growth of the total loan portfolio during the quarter as they increased 8% with respect to 1Q11. This increase is explained by higher demand for working capital and financing by SMEs, personal loans and car loans. On the other hand, corporate loans increased 2% in the same period due to greater demand for working capital and financing by corporations.

Reserves for loan losses decreased 1% during 2Q11 and totaled COP 2,539 billion, or 4.8% of total loans at the end of the quarter. For further explanation regarding coverage of the loan portfolio and credit quality trends, please see Section 2.4. "Asset Quality, Provision Charges and Balance Sheet Strength" of this report.

1.3.

Investment Portfolio

As of June 30, 2011, Bancolombia's net investment portfolio totaled COP 10,231 billion, decreasing 6% compared to 1Q11 and increasing 14% compared to 2Q10. The investment portfolio is mainly composed of debt investment securities, which represented 94% of Bancolombia's total investments and 13% of assets at the end of 2Q11. Investments denominated in USD totaled USD 1,611 million and represented 28% of the investment portfolio. Additionally, the Bank has COP 2.087 billion in mortgage backed securities, which represents 20% of the investment portfolio. The duration of the debt securities portfolio was 23.3 months with a yield to maturity of 4.51% at the end of 2Q11.

1.4. Goodwill

As of 2Q11, Bancolombia's goodwill totaled COP 672 billion and decreased 14% compared to the amount reported in 2Q10. This variation is explained by the appreciation of the Colombian peso in the quarter and the amortization of goodwill reported during the past year (under COL GAAP, goodwill is amortized within a period of 20 years). As of June 30, 2011, Bancolombia's goodwill included USD 353 million related mostly to the acquisition of Banagrícola in 2007 and COP 5 billion related to the acquisition of a participation of Renting Bancolombia by Leasing Bancolombia.

1.5. Funding

As of June 30, 2011, Bancolombia's liabilities totaled COP 67,149 billion and increased 6% compared to 1Q11 and 21% compared to 2Q10. The ratio of net loans to deposits (including borrowings from domestic development banks) was 104% at the end of 2Q11, increasing compared to the figures reported in 1Q11 (100%) and 2Q10 (95%). The growth of the loan portfolio and Bancolombia's ability to obtain funds through long-term bond issuances resulted in the higher ratio of net loans to deposits for the quarter.

2Q11

Deposits totaled COP 46,238 billion (or 69% of liabilities) at the end of 2Q11 and increased 2% during the quarter and 13% over the last 12 months. CDs represented 42% of deposits in 2Q10, but represented only 37% in 2Q11. This decrease is in line with the funding strategy executed by the Bank in the last few quarters, which has consisted of taking advantage of the greater liquidity and low interest rates through increasing savings and checking accounts. As a result of this recomposition of the funding mix, demand deposits went from representing 58% of the Bank's total deposits in 2Q10, to representing 63% as of the end of 2Q11.

Through this strategy, it was possible to sustain a moderate increase in interest expense compared to 2Q10, while deposits increased.

1.6. Shareholders' Equity and Regulatory Capital

Shareholders' equity at the end of 2Q11 was COP 8,008 billion, increasing 13% or COP 905 billion with respect to the COP 7,102 billion reported at the end of 2Q10.

Bancolombia's capital adequacy ratio was 13.69%, 52 basis points below the 14.21% for 1Q11 and 32 bps above the 13.37% for 2Q10. The year over year increase was a result of the growth in secondary capital, product of a subordinated bonds issuance for USD 620 million that took place in July 2010.

Bancolombia's capital adequacy ratio was 469 basis points above the minimum level required by Colombia's regulator, while the basic capital ratio (tier 1) was 9.95% and the tangible capital ratio, which is equal to shareholders' equity minus goodwill and intangible assets divided by tangible assets, was 8.89% at the end of 2Q11.

2.INCOME STATEMENT

Net income totaled COP 386 billion in 2Q11, or COP 489 per share – USD 1.10 per ADR, which represents an increase of 10% compared to 1Q11 and of 32% compared to 2Q10. Bancolombia's ROE was 19.6% for 2Q11, higher than the annualized ROE of 17.6% for 1Q11 and the 16.7% reported in 2Q10.

2.1. Net Interest Income

Net interest income totaled COP 984 billion in 2Q11, 10% higher than that reported in 1Q11, and 17% higher than the figure for 2Q10. Interest income increased 11% during the quarter, while interest expense on deposits increased 15%. However, interest paid on bonds increased 10% during 2Q11 due to the increase in the amount of bonds outstanding as a result of the bond issuance that took place in June.

During 2Q11, income generated by the investment portfolio totaled COP 192 billion, a figure 45% higher than the COP 133 billion for 1Q11 and 94% higher than the COP 99 billion for 2Q10. During 2Q11, income generated by the investment portfolio increased due to higher bond prices in the secondary markets due to the granting of investment grade to Colombia.

Net Interest Margin

Annualized net interest margin ended 2Q11 at 6.2%. Annualized net interest margin for investments was 5.1%, while the annualized net interest margin for loans, financial leases and overnight funds was 6.3%.

Annualized Interest Margin	1Q10	2Q10	3Q10	4Q10	1Q11	2Q11
Loans' Interest margin	7.1 %	7.1 %	6.7 %	6.6 %	6.4 %	6.3 %
Debt investments' margin	1.4 %	3.1 %	3.6 %	2.3 %	3.0 %	5.1 %
Net interest margin	6.2 %	6.4 %	6.2 %	6.0 %	5.9 %	6.2 %

The funding cost increased during 2Q11 as deposits began to reflect the increase in interest rates by the Colombian Central Bank. The annualized weighted average cost of deposits reached 2.5% in 2Q11, higher than the 2.2% for 1Q11 but lower than the 2.6% for 2Q10 as a result of the recomposition of the funding mix toward demand deposits.

Deposits' weighted average cost	2Q10	1Q11	2Q11

Time deposits	4.05 %	3.73 %	3.94 %

2.2. Fees and Income from Services

During 2Q11, net fees and income from services totaled COP 407 billion, 6% higher than those reported in 1Q11 and 3% higher than those reported in 2Q10. In particular, fees from credit and debit cards increased 1% with respect to 1Q11, and 6% with respect to 2Q10, and fees from banking services increased 11% respect to 1Q11 and 19% with respect to 2Q10. 2.3. Other Operating Income

Total other operating income was COP 121 billion in 2Q11, 9% higher than in 1Q11, and 1% lower than in 2Q10. Income from foreign exchange gains and derivatives denominated in foreign currencies decreased 10% due to the appreciation of the COP against the USD.

Notably, revenues aggregated in the communication, postage, rent and others totaled COP 53 billion in 2Q11, 8% higher as compared to 1Q11 and 22% higher as compared to 2Q10. This line includes commercial discounts and operating leases payments, which have grown as the value of assets rented under operating leasing contract has increased. Finally, income from subsidiaries from the real sector decreased 7% during the quarter but increased 15% over the past year.

2.4. Asset Quality, Provision Charges and Balance Sheet Strength

The deterioration of the loan portfolio (new past due loans before charge-offs) was COP 62 billion in 2Q11. This slow pace of deterioration is in line with a better performance of the economy although credit quality continues to be impacted by unemployment. Nevertheless, the new vintages of loans have a low deterioration and contribute to the improvement of the loan portfolio quality.

Past due loans (those overdue more than 30 days) totaled COP 1,360 billion at the end of 2Q11, which represents 2.6% of total gross loans. The PDL ratio decreased from 2.9% in 1Q11 and 3.6% at the end of 2Q10. Loan charge-offs totaled COP 163 billion in 2Q11.

Provision charges (net of recoveries), totaled COP 104 billion in 2Q11. It is remarkable that while gross loan provisions decreased 25% in the last 12 months, recovery of charged-off loans decreased only 2%.

Bancolombia maintains a strong balance sheet in terms of loan loss reserves. Allowances for loan losses totaled COP 2,539 billion, or 4.8% of total loans at the end of 2Q11, decreasing with respect to the 5% presented at the end of 1Q11 and 5.6% at the end of 2Q10. Additionally, coverage, measured by the ratio of allowances for loans losses (principal) to PDLs (overdue 30 days), was 187% at the end of 2Q11. Likewise, coverage measured by the ratio of allowances for loans losses to loans classified as C, D and E, was 116% at the end of the second quarter of 2Q11.

For all other loans and financial leasing operations of any type, interest is no longer accumulated after they are more than 30 days past due.

2.5. Operating Expenses

During 2Q11, operating expenses totaled COP 889 billion, increasing 5% compared to 1Q11 and 20% compared to 2Q10.

Personnel expenses (the sum of salaries and employee benefits, bonus plan payments and compensation) totaled COP 352 billion in 2Q11, increasing 2% as compared to 1Q11 and increasing 12% as compared to 2Q10.

During 2Q11, administrative and other expenses totaled COP 450 billion and increased 6% as compared to 1Q11 and 26% compared to 2Q10. This variation is explained by higher expenses for rentals and leasing of technology that the Bank has incurred for several years. Rent expenses were COP 29 billion during 2Q11. At the same time, advisory fees increased during the quarter. Also, provisions were made for the improvement of physical facilities.

Depreciation expenses totaled COP 52 billion in 2Q11, increasing 4% as compared to 1Q11 and 6% compared to 2Q10.
