PROXY STATEMENT

General

This Proxy Statement is furnished to the stockholders of record of LivePerson, Inc., a Delaware corporation (LivePerson or the Company), as of the record date, in connection with the solicitation of proxies on behalf of the Board of Directors of the Company for use at the Annual Meeting of Stockholders to be held on June 6, 2013, and at any adjournments or postponements thereof. The Annual Meeting will be held at 10:00 a.m. (Eastern Daylight time) at the offices of LivePerson, Inc., 475 10th Avenue, 5th Floor, New York, NY 10018, Tel (212) 609-4200. This Proxy Statement and the accompanying Proxy Card and Notice of Annual Meeting of Stockholders are first being mailed on or about April 30, 2013 to all stockholders entitled to vote at the Annual Meeting and at any adjournments or postponements thereof.

Voting

The specific matters to be considered and acted upon at the Annual Meeting are:

- (1) election of one Class I director to serve until the 2016 Annual Meeting of Stockholders, or until such director's successor shall have been duly elected and qualified;
- (2) ratification of the Audit Committee's appointment of BDO USA, LLP as the Company's independent registered public accounting firm for the fiscal year ending December 31, 2013;
- (3) advisory approval of the Company's executive compensation;
- (4) action upon such other business as may properly come before the Annual Meeting or any adjournments or postponements thereof.

These matters are described in more detail in this Proxy Statement.

On the record date (April 19, 2013) for determination of stockholders entitled to notice of and to vote at the Annual Meeting and any adjournments or postponements thereof, 55,075,898 shares of the Company's common stock were issued and outstanding. No shares of the Company's preferred stock, par value \$0.001 per share, were outstanding. Each stockholder is entitled to one vote for each share of common stock held by such stockholder on the record date.

Stockholders may not cumulate votes in the election of directors.

Except as provided below with respect to stockholders who hold shares through a member of the TASE and intend to

vote their shares, there are three ways a stockholder of record can vote:

By Internet: You may vote over the Internet at www.voteproxy.com by following the instructions on the proxy card.

By Mail: You may complete, sign and mail the accompanying proxy card in the postage-paid envelope provided.

In Person: If you are a stockholder as of the record date, you may vote in person at the Annual Meeting. Submitting a proxy will not prevent a stockholder from attending the Annual Meeting, revoking their earlier-submitted proxy, and voting in person.

Stockholders who hold shares through a member of the TASE and intend to vote their shares, must deliver to the Company's Israeli counsel, Yigal Arnon & Co. c/o Mr. Zohar Nevo, 22 J. Rivlin Street, Jerusalem, Israel, 94240 (email: zoharn@arnon.co.il) an ownership certificate confirming their ownership of the Company's common stock on the Record Date. Such certificate must be approved by a recognized financial institution, as required by the Israeli Companies Regulations 2000, as amended (Proof of Ownership

of Shares for Voting at General Meeting). Such stockholder is entitled to receive the ownership certificate at the branch of the TASE member or by mail to his address (in consideration of mailing fees only), if the stockholder so requests. Such a request should be made promptly upon receipt of this Proxy Statement (and no later than 5:00 p.m. (Israel time) on Wednesday, June 5, 2013), and should be made for a particular securities account. Stockholders who wish to vote are obliged to complete, sign, date and return the proxy card in accordance with the instructions indicated thereon along with their ownership certificate to the address of Company's Israeli counsel indicated above.

The form of proxy card for stockholders who hold shares through a member of the TASE is available on the websites: <http://www.magna.isa.gov.il> and <http://maya.tase.co.il>.

The stock transfer books of the Company will remain open at the offices of the Company (475 Tenth Avenue, 5th Floor, New York, New York 10018) between the record date and the date of the Annual Meeting, and any adjournments or postponements thereof. A list of stockholders entitled to vote at the Annual Meeting, and any adjournments or postponements thereof, will be available for inspection at the Annual Meeting, and any adjournments or postponements thereof, and for a period of 10 days prior to the meeting during regular business hours at the offices of the Company listed above.

The presence, in person or by proxy, of the holders of a majority of the votes entitled to be cast at the Annual Meeting is necessary to constitute a quorum in connection with the transaction of business at the Annual Meeting. All votes will be tabulated by the inspector of election appointed for the meeting, who will separately tabulate affirmative and negative votes, abstentions and broker non-votes (*i.e.*, proxies from brokers or nominees indicating that such persons have not received instructions from the beneficial owner or other persons entitled to vote shares as to a matter with respect to which the brokers or nominees do not have discretionary power to vote). Abstentions and broker non-votes are counted as present for purposes of determining the presence or absence of a quorum for the transaction of business.

If a quorum is present, the nominee who receives the greatest number of votes properly cast (in person or by proxy) will be elected as the Class I Director. Only votes FOR or WITHHELD count. Neither abstentions nor broker non-votes will have any effect on the outcome of voting with respect to the election of the Class I director. **If you own shares through a broker, you must give the broker instructions to vote your shares in the election of the director. Otherwise, your shares will not be voted.** Stockholders may not cumulate votes for the election of the director.

Proposals other than for the election of the director shall be approved by the affirmative vote of a majority of the votes cast by the holders of shares of our Common Stock entitled to vote that are present in person or represented by proxy at the Annual Meeting. Abstentions are counted for the purposes of determining whether a quorum is present at the Annual Meeting. Abstentions will not be counted either in favor of or against any of the proposals and will have the same effect as negative votes, whereas broker non-votes will not be counted for purposes of determining whether such a proposal has been approved.

Under the General Corporation Law of the State of Delaware, stockholders are not entitled to dissenter's rights with respect to any matter to be considered and voted on at the Annual Meeting, and the Company will not independently provide stockholders with any such right.

Proxies

If the enclosed Proxy Card is properly signed and returned, the shares represented thereby will be voted at the Annual Meeting in accordance with the instructions specified thereon. If you are a stockholder of record of shares of our

Edgar Filing: LIVEPERSON INC - Form DEF 14A

common stock and if you indicate when voting through the Internet that you wish to vote as recommended by our Board of Directors, or if you sign and return a proxy without giving specific voting instructions, then the proxy holders designated by our Board, who are officers of our company, will vote your shares in the manner recommended by the Board on all matters presented in this Proxy Statement and as the proxy holders may determine in their discretion with respect to any other matters properly presented for a vote at the meeting.

You may revoke or change your proxy at any time before the Annual Meeting by filing with the Secretary of the Company, at the Company's principal executive offices at 475 Tenth Avenue, 5th Floor,

2

New York, New York 10018, a notice of revocation or another signed Proxy Card with a later date. You may also revoke your proxy by attending the Annual Meeting and voting in person.

Shares Held by Brokers

If you hold your shares through a broker and you do not instruct your broker on how to vote your shares, your brokerage firm, in its discretion, may either leave your shares unvoted or vote your shares on routine matters. The proposal to ratify the appointment of BDO USA, LLP as our independent registered public accounting firm for the current fiscal year ended December 31, 2013 will be treated as a routine matter. To the extent your brokerage firm votes your shares on your behalf on this proposal, your shares also will be counted as present for the purpose of determining a quorum.

On the other hand, your broker is not entitled to vote shares held for a beneficial holder on certain non-routine items, such as the election of directors or the advisory vote on executive compensation, absent instructions from the beneficial holders of such shares. Your broker is no longer permitted to vote on your behalf on the election of directors unless you provide specific instructions by completing and returning the proxy card or following the instructions provided to you on how to vote your shares on the Internet. For your vote to be counted, you now will need to communicate your voting decisions to your broker, bank or other financial institution before the date of the stockholder meeting.

Stockholders who hold their stock through a member of the TASE and intend to vote their shares are obliged to return a complete signed and dated Proxy Card along with a certificate of ownership to the offices of Israeli counsel to the Company no later than 5:00 p.m. (Israel time) on Wednesday, June 5, 2013.

Solicitation

The Company will bear the entire cost of solicitation, including the preparation, assembly, printing and mailing of this Proxy Statement, the enclosed Proxy Card and any additional solicitation materials furnished to the stockholders. Copies of solicitation materials will be furnished to brokerage houses, fiduciaries and custodians holding shares in their names that are beneficially owned by others so that they may forward this solicitation material to such beneficial owners. In addition, the Company may reimburse such persons for their costs in forwarding the solicitation materials to such beneficial owners. The original solicitation of proxies by mail may be supplemented by a solicitation by telephone, telegram or other means by directors, officers or employees of the Company. No additional compensation will be paid to these individuals for any such services. Except as described above, the Company does not presently intend to solicit proxies other than by mail.

In order to be considered for inclusion in the Company's Proxy Statement and Proxy Card relating to the 2014 Annual Meeting of Stockholders, any proposal by a stockholder submitted pursuant to Rule 14a-8 of the Securities Exchange Act of 1934, as amended (the Exchange Act), must be received by the Company at its principal executive offices in

Edgar Filing: LIVEPERSON INC - Form DEF 14A

New York, New York, on or before December 30, 2013. In addition, under the Company's current Amended and Restated Bylaws, any proposal for consideration at the 2014 Annual Meeting of Stockholders submitted by a stockholder other than pursuant to Rule 14a-8 will be considered timely if it is received by the Secretary of the Company at its principal executive offices between the close of business on February 6, 2014 and the close of business on March 8, 2014, and is otherwise in compliance with the requirements set forth in the Company's current Amended and Restated Bylaws. The proxy solicited by the Board of Directors for the 2014 Annual Meeting of Stockholders will confer discretionary authority to vote as the proxy holders deem advisable on such stockholder proposals which are considered untimely.

Your Participation in Voting the Shares You Own Is Important

Voting your shares is important to ensure that you have a say in the governance of your company and to fulfill the objectives of the plurality voting standard that we apply in the election of directors. Please review the proxy materials and follow the instructions on the proxy card to vote your shares. We hope you will exercise your rights and fully participate as a stockholder in our future.

Stockholders with the Same Last Name and Address

The Securities and Exchange Commission, or the SEC, has adopted rules that permit companies to implement a delivery procedure called householding. Under this procedure, multiple shareholders who reside at the same address may receive a single copy of the Annual Report and Proxy Statement, unless the affected shareholder has provided contrary instructions. This procedure reduces printing costs and postage fees, and saves natural resources.

If you received a household mailing this year and you would like to have additional copies mailed to you, please submit your request in writing to Monica L. Greenberg, Senior Vice President, Business Affairs and General Counsel, at the Company's principal executive offices located at 475 Tenth Avenue, 5th Floor, New York, New York 10018 or by calling (212) 609-4200. Similarly, you may also contact Ms. Greenberg if you received multiple copies of the Annual Meeting materials and would prefer to receive a single copy in the future, or if you would like to opt out of householding for future mailings.

Annual Report

The Company filed an Annual Report on Form 10-K with the SEC on March 1, 2013 relating to the fiscal year ended December 31, 2012, or the 2012 Fiscal Year. Stockholders may obtain a copy of this report, without charge, by writing to Monica L. Greenberg, Senior Vice President, Business Affairs and General Counsel, at the Company's principal executive offices located at 475 Tenth Avenue, 5th Floor, New York, New York 10018.

A copy of the Annual Report of the Company for the 2012 Fiscal Year is being mailed concurrently with this Proxy Statement to all stockholders entitled to notice of and to vote at the Annual Meeting. The Annual Report is not incorporated into this Proxy Statement and is not considered proxy solicitation material.

Incorporation by Reference

Notwithstanding anything to the contrary set forth in any of the Company's previous or future filings under the Securities Act of 1933, as amended, or the Securities Exchange Act of 1934, as amended, that might incorporate by reference this Proxy Statement or future filings made by the Company under those statutes, the Compensation Committee Report, the Audit Committee Report, references to the Audit Committee Charter and references to the independence of the Audit Committee members are not deemed filed with the SEC, are not deemed soliciting material and shall not be deemed incorporated by reference into any of those prior filings or into any future filings made by the Company under those statutes, except to the extent that the Company specifically incorporates such information by reference into a previous or future filing, or specifically requests that such information be treated as soliciting material, in each case under those statutes.

Other Matters

The Company knows of no other matters that will be presented for consideration at the Annual Meeting. If any other matters properly come before the Annual Meeting, it is the intention of the persons named in the enclosed Proxy Card to vote the shares they represent as such persons deem advisable. Discretionary authority with respect to such other matters is granted by the execution of the enclosed Proxy Card.

More Information Is Available

If you have any questions about this rule or the proxy voting process in general, please contact the broker, bank or other financial institution where you hold your shares. The SEC also has a website (www.sec.gov/spotlight/proxymatters.shtml) with more information about your rights as a stockholder. Additionally, you may contact our Investor Relations Department at <http://www.liveperson.com/about/ir/>.

MATTERS TO BE CONSIDERED AT ANNUAL MEETING PROPOSAL ONE ELECTION OF THE CLASS I DIRECTOR

General

The Company's Fourth Amended and Restated Certificate of Incorporation provides for a classified Board of Directors, consisting of three classes of directors with staggered three-year terms, with each class consisting, as nearly as possible, of one third of the total number of directors. At the annual meeting of stockholders in the year in which the term of a class of directors expires, director nominees in such class will stand for election to three-year terms. With respect to each class, a director's term will be subject to the election and qualification of such director's successor, or the earlier death, resignation or removal of such director.

As of the date of this Proxy Statement, the Board consists of five persons, as follows:

Class I (current term ends at this Annual Meeting)	Class II (current term ends at the 2014 Annual Meeting)	Class III (current term ends at the 2015 Annual Meeting)
William G. Wesemann	Peter Block David Vaskevitch	Kevin C. Lavan Robert P. LoCascio

The term of office for Mr. Wesemann expires at this Annual Meeting. The Board has selected Mr. Wesemann, the current Class I director at the time of the Annual Meeting, as the nominee for the Class I director whose term of office will expire at the 2016 Annual Meeting of Stockholders.

Mr. Wesemann has agreed to be named as a nominee and to continue to serve a director, if elected, and management has no reason to believe that he will be unavailable to serve. If Mr. Wesemann is unable or declines to serve as a director at the time of the Annual Meeting, the proxies will be voted for any nominee who may be designated by the present Board of Directors to fill the vacancy. Unless otherwise instructed, the proxy holders will vote the proxies received by them **FOR** Mr. Wesemann. The proxies solicited by this Proxy Statement cannot be voted for a greater number of persons than the number of nominees named.

Required Vote

The Class I director shall be elected by the affirmative vote of a plurality of the shares of the common stock present at the Annual Meeting, in person or by proxy, and entitled to vote in the election of directors. Pursuant to applicable Delaware law, abstentions and broker non-votes will have no effect on the outcome of the vote and will not be voted for directors.

As part of the Board's process in making such determination, each such director provided confirmation that (a) the objective criteria for independence pursuant to the Nasdaq rules are satisfied and (b) each such director has no other relationship with the Company that would interfere with the exercise of independent judgment in carrying out the responsibilities of a director. The Board of Directors held six meetings during the 2012 Fiscal Year. In the 2012 Fiscal Year, each director attended or participated in at least 75% of the aggregate of (i) the total number of meetings of the Board of Directors, and (ii) the total number of meetings held by all committees of the Board on which such director served (in each case for meetings held during the period in the 2012 Fiscal Year for which such director served).

Directors who are not members of the Company's management meet at regularly scheduled executive sessions without members of management present. At least two of these meetings each year are to include only independent directors. Currently, all non-employee directors are independent.

While the Company has not adopted a formal policy with regard to attendance by members of the Board of Directors at annual stockholder meetings, all members of the Board are invited to attend the Company's annual meeting of stockholders. At the 2012 Annual Meeting, two of our directors attended.

Board Committees

The Board of Directors has an Audit Committee, a Compensation Committee and a Nominating and Governance Committee. All Board committee members are independent.

7

The Board committees are composed of the following members:

Audit Committee	Compensation Committee	Nominating and Corporate Governance Committee
Kevin C. Lavan (Chair)	Peter Block (Chair)	Peter Block
David Vaskevitch	Kevin C. Lavan	Kevin C. Lavan
William G. Wesemann	David Vaskevitch	David Vaskevitch
	William G. Wesemann	William G. Wesemann (Chair)

Audit Committee

The Audit Committee appoints our independent registered public accounting firm, subject to ratification by our stockholders, reviews the plan for and the results of the independent audit, approves the fees of our independent registered public accounting firm, reviews with management and the independent registered public accounting firm our quarterly and annual financial statements and our internal accounting, financial and disclosure controls, reviews and approves transactions between LivePerson and its officers, directors and affiliates and performs other duties and responsibilities as set forth in a charter approved by the Board of Directors. The charter of the Audit Committee is available under About LivePerson Corporate Governance on the Company's website, <http://www.liveperson.com>. Each member of the Audit Committee is independent, as independence is defined for purposes of Audit Committee membership by the listing standards of Nasdaq and the applicable rules and regulations of the SEC. The Audit Committee held four meetings during the 2012 Fiscal Year.

The Board has determined that each member of the Audit Committee is able to read and understand fundamental financial statements, including LivePerson's balance sheet, income statement and cash flow statement, as required by Nasdaq rules. In addition, the Board has determined that Mr. Lavan satisfies the Nasdaq rule requiring that at least one member of our Board's Audit Committee have past employment experience in finance or accounting, requisite professional certification in accounting or any other comparable experience or background which results in the member's financial sophistication, including being, or having been, a chief executive officer, chief financial officer or other senior officer with financial oversight responsibilities. The Board has also determined that Mr. Lavan is the Audit Committee's audit committee financial expert as defined by the SEC.

Compensation Committee

The Compensation Committee's primary responsibility is to review and approve the compensation to be paid or provided to the Company's executive officers and to assure that such compensation is in line with the Company's strategy, sound corporate governance principles and shareholder interests. The Compensation Committee also oversees the Company's compensation, equity and employee benefit plans and programs and performs other duties and responsibilities as set forth in a charter approved by the Board of Directors. The charter of the Compensation Committee is available under About LivePerson Corporate Governance on the Company's website, <http://www.liveperson.com>. The Chief Executive Officer and the Human Resources Department present compensation and benefit proposals to the Compensation Committee for the Committee's consideration and approval. Each member of the Compensation Committee is independent, as independence is defined for purposes of Compensation Committee membership by the listing standards of Nasdaq and a non-employee director as defined in Rule 16b-3 under the Exchange Act. The Compensation Committee deliberated as needed during regularly scheduled board meetings during the 2012 Fiscal Year, and, in addition, the Compensation Committee held one separate meeting during the 2012 Fiscal Year.

In making its determinations with respect to executive compensation, the Compensation Committee has not independently engaged the services of a compensation consultant; however, the Company from time to time engages the services of a compensation consultant to provide market and peer compensation data to the Company. The Compensation Committee annually reviews this market and peer compensation data, as well as data sourced from Culpepper and Associates, a provider of worldwide salary surveys and data for compensation and employee benefit programs in the technology industry, as well as compensation data made publicly available by peer group companies. The Compensation Committee has the authority to retain, terminate and set the terms of the Company's relationship with any outside advisors who assist the Committee in carrying out its responsibilities.

Nominating and Corporate Governance Committee

The Nominating and Corporate Governance Committee of our Board of Directors is responsible for identifying individuals qualified to become Board members, recommending to our Board the persons to be nominated for election as directors and to each of the Board's committees, reviewing and making recommendations to the Board with respect to management succession planning, developing and recommending to the Board corporate governance principles, and overseeing evaluation of the Board as needed. The charter of the Nominating and Corporate Governance Committee is available under About LivePerson Corporate Governance on the Company's website, <http://www.liveperson.com>. The processes and procedures followed by the Nominating and Corporate Governance Committee in identifying and evaluating director candidates are described below under Director Nomination Process. Each member of the Nominating and Corporate Governance Committee is independent, as defined under the rules of Nasdaq. The Nominating and Corporate Governance Committee deliberated as needed during regularly scheduled board meetings during the 2012 Fiscal Year.

Director Nomination Process

The processes established by our Nominating and Corporate Governance Committee Charter to identify and evaluate director candidates include requests to Board members and others for recommendations, evaluation of biographical information and background material relating to potential candidates and interviews of selected candidates by members of the Committee and the Board, all on an as needed basis from time to time.

In considering whether to recommend any particular candidate for inclusion in the Board's slate of recommended director nominees, our Nominating and Corporate Governance Committee will apply the criteria attached to the Nominating and Corporate Governance Committee's charter. These criteria include the candidate's integrity, business acumen, knowledge of our business and industry, experience, diligence, conflicts of interest and the ability to act in the interests of all stockholders. Specific weighting is not assigned to the criteria and no particular criterion is a prerequisite for each prospective nominee. Our Board of Directors believes that the backgrounds and qualifications of its directors, considered as a group, should provide a composite mix of experience, knowledge and abilities that will allow it to fulfill its responsibilities. The Nominating and Corporate Governance Committee has, on certain occasions, retained a third party executive search firm to identify or assist in the evaluation of candidates.

The Nominating and Corporate Governance Committee does not have a formal diversity policy with respect to the identification and recommendation of individuals for membership on the Company's Board of Directors. However, in carrying out this responsibility, the Nominating and Corporate Governance Committee values differences in professional experience, educational background, viewpoint and other individual qualities and attributes that facilitate and enhance the oversight by the Board of Directors of the business and affairs of the Company.

The Nominating and Corporate Governance Committee will also consider as potential nominees for our Board persons recommended by stockholders. Stockholders wishing to bring a nomination for a director candidate at a stockholders meeting must give written notice to LivePerson's Corporate Secretary, pursuant to the procedures set forth under Communicating with the Board of Directors and subject to the deadline set forth under Deadline for Stockholder Proposals. The stockholder's notice must set forth all information relating to each person whom the stockholder proposes to nominate that is required to be disclosed under applicable rules and regulations of the SEC and LivePerson's Amended and Restated Bylaws. Our current Amended and Restated Bylaws can be accessed in the About LivePerson Corporate Governance section of our website at www.liveperson.com.

Once the Nominating and Corporate Governance Committee has identified a prospective nominee, it will make an initial determination as to whether to conduct a full evaluation of the candidate. The Nominating and Corporate

Governance Committee will make its initial determination on its own knowledge of the candidate, information provided as part of the candidate's nomination or any supplemental inquiries to the person recommending the candidate or others. The initial determination will be based primarily on the need for additional Board members to fill vacancies or expand the size of the Board and the likelihood that the prospective nominee can satisfy the evaluation factors described below.

If the Nominating and Corporate Governance Committee determines, in consultation with other Board members as appropriate, that additional consideration is warranted, it may gather or request the third party search firm to gather additional information about the prospective nominee's background and experience. The Nominating and Corporate Governance Committee then will evaluate the prospective nominee, taking into account whether the prospective nominee is independent within the meaning of the listing standards of Nasdaq and such other factors as it deems relevant, including the current composition of the Board, the balance of management and independent directors, the need for Audit Committee or Compensation Committee expertise, the prospective nominee's skills and experience, the diversity of the member's skills and experience in areas that are relevant to the Company's businesses and activities, and the evaluations of other prospective nominees. In connection with this evaluation, the Nominating and Corporate Governance Committee will determine whether to interview the prospective nominee and, if warranted, one or more members of the Nominating and Corporate Governance Committee and others, as appropriate, conduct interviews in person or by telephone. After completing this process, the Nominating and Corporate Governance Committee will make a recommendation to the full Board as to the persons who should be nominated by the Board, and the Board determines the nominees after considering the recommendation and report of the Nominating and Corporate Governance Committee. The Nominating and Corporate Governance Committee follow the same process and use the same criteria for evaluating candidates proposed by stockholders, members of the Board and members of management.

Communicating with the Board of Directors

In order to communicate with the Board of Directors as a whole, with non-employee directors or with specified individual directors, correspondence may be directed to LivePerson, Inc., 475 Tenth Avenue, 5th Floor, New York, New York 10018, Attention: Corporate Secretary. All such correspondence will be forwarded to the appropriate director or group of directors. Codes of Conduct and Corporate Governance Documents

The Company monitors developments in the area of corporate governance and routinely reviews its processes and procedures in light of such developments. Accordingly, the Company reviews federal laws affecting corporate governance as well as various rules promulgated by the SEC and Nasdaq. The Company believes that it has procedures and practices in place which are designed to enhance and protect the interests of its stockholders.

The Board has adopted a Code of Conduct that applies to all officers, directors and employees, and a Code of Ethics for the Chief Executive Officer and Senior Financial Officers that applies to the Company's Chief Executive Officer and executives who are deemed to be Senior Financial Officers of the Company. Both codes of conduct can be accessed in the About LivePerson Corporate Governance section of our website at www.liveperson.com, as well as any amendments to, or waivers under, the Code of Ethics for the Chief Executive Officer and Senior Financial Officers.

Board Leadership Structure and Role in Risk Oversight

Board Leadership Structure. The Board of Directors has not separated the positions of Chairman of the Board and Chief Executive Officer of the Company. Both positions are held by Mr. LoCascio. The Board does not have a lead director. The Board believes that this structure has historically served the Company well and continues to do so, by facilitating communication between the Board and senior management of the Company as well as Board oversight of the Company's business and affairs.

Role of the Board in Risk Oversight. The Board of Directors provides oversight of the Company's management of risk. Senior management has responsibility for the management of risk and reports to the

Board as needed with respect to its ongoing enterprise risk management efforts. In exercising its oversight of risk management, the Board has delegated to the Audit Committee primary responsibility for the oversight of risk related to the Company's financial statements and processes. As discussed in more detail below, the Board has delegated to the Compensation Committee primary responsibility for the oversight of risk related to the Company's compensation policies and practices. The Board has delegated to the Nominating and Corporate Governance Committee primary responsibility for the oversight of risk related to the Company's corporate governance practices. Each committee reports as needed to the full Board with respect to such committee's particular risk oversight responsibilities.

Risk Assessment of Compensation Policies. The Compensation Committee, with the assistance of management, included a risk assessment in its overall review of the Company's compensation policies and practices in the 2012 Fiscal Year and concluded that they did not, and do not, motivate imprudent risk taking. As further discussed below in Proposal Three (Advisory Approval of Executive Compensation) as it relates to the Company's executive officer compensation program, the Compensation Committee noted that:

the Company's annual incentive compensation is based on balanced performance metrics that promote disciplined progress towards Company goals;
the Company does not offer significant short-term incentives that might drive high-risk investments at the expense of long-term Company value;
the Company's long-term incentives do not drive high-risk investments at the expense of long-term Company value;
and
the Company's compensation programs are appropriately balanced between cash and equity, and the equity component does not promote unnecessary risk taking.

Based on this assessment, the Compensation Committee and the Board concluded that the Company has a balanced pay and performance program that is consistent with the Company's business model and long-term goals, and does not promote excessive risk taking.

Compensation Discussion and Analysis

The following Compensation Discussion and Analysis describes the compensation program as it relates to our Named Executive Officers identified in the Summary Compensation Table. In this section, we first discuss our governance practices and executive compensation program objectives and strategies. Next, we review the process the Compensation Committee follows in deciding how to compensate our Named Executive Officers. We then present an overview of the compensation structure and specific pay elements of our executive compensation program, as well as a detailed discussion and analysis of the Compensation Committee's specific decisions about the compensation of our Named Executive Officers for the 2012 Fiscal Year.

The Compensation Committee structures our executive compensation program in a manner that it believes does not promote inappropriate risk taking by our executives, but rather encourages management to take a balanced approach, focused on achieving our corporate goals. A more complete discussion regarding the Compensation Committee's risk assessment process can be found in the section of this Proxy Statement titled Risk Assessment of Compensation Policies.

The Compensation Committee believes our executive compensation programs are effectively designed and working well in alignment with the interests of our stockholders and are instrumental to achieving our business strategy. As has been the case in the past, the Compensation Committee will consider any stockholder concerns and feedback on its executive compensation programs that it receives. Also, in determining executive compensation for the 2012 Fiscal Year, the Compensation Committee considered the overwhelming stockholder support that the Say-on-Pay proposal received at our 2012 annual meeting of stockholders. As a result, the Compensation Committee continued to apply the same effective principles and philosophy it has used in previous years in determining executive compensation.

Further, consistent with the results of our stockholder vote regarding the frequency of future advisory votes on executive compensation at our 2011 annual meeting of stockholders, the Company will hold an advisory vote on the compensation of Named Executive Officers every year until the next required vote on the frequency of advisory votes on the compensation of Named Executive Officers.

This Compensation Discussion and Analysis contains forward-looking statements that are based on our current plans, considerations, expectations and determinations regarding future compensation programs. The actual compensation programs that we adopt in the future may differ materially from currently planned programs as summarized in this discussion.

The Compensation Committee has concluded that the risks arising from our Company's executive compensation program

Compensation Objectives and Strategy

The Company's executive officer compensation program is designed to attract and retain the caliber of officers needed to ensure the Company's continued growth and profitability, to align incentives with the Company's fiscal performance, and to reward officers' individual performance against objectives important to achieving the Company's strategic and operational goals, and the creation of long term value for stockholders. The primary objectives of the program are to:

align incentives, including bonus targets, performance metrics and equity, with Company fiscal performance as well as achievement of strategic objectives that create stockholder value;

retain and encourage high potential team players to build a career at the Company;

provide incentives that are cost-efficient, competitive with other organizations and fair to employees and stockholders; and

design a balanced approach to compensation that properly aligns incentives with Company performance and stockholder value and does not promote inappropriate risk taking.

Working with management, the Compensation Committee has developed a compensation, bonus and benefits strategy designed to reward performance and reinforce a culture that the Compensation Committee believes will promote long-term success.

The compensation program rewards team accomplishments and promotes individual accountability. Compensation depends primarily on Company results, with additional measures for individual performance against defined objectives tied to the Company's strategic goals. The goal of the program is to maintain a strong relationship between individual efforts, Company results and financial rewards.

A portion of total compensation is placed at risk through annual and long-term incentives. The combination of incentives is designed to balance annual operating objectives and Company earnings performance with longer-term stockholder value creation.

We seek to provide competitive compensation that is commensurate with performance. We target compensation within an appropriate range above and below the market median, and calibrate both annual and long-term incentive opportunities to generate less-than-median awards when goals are not fully achieved and greater-than-median awards when goals are exceeded.

We seek to promote a long-term commitment to the Company by our senior executives. We believe that there is great value to the Company in having a team of long-tenure, seasoned managers. The vesting schedules attached to option awards (generally 25% per year over 4 years, time-based vesting) reinforce this long-term orientation.

We utilize a well-proportioned mix of security-oriented compensation, retention benefits and at-risk compensation which produces both short-term and long-term performance incentives and rewards. By following this approach, we provide each of our Named Executive Officers a measure of security in the base compensation that the individual is eligible to receive, while motivating the executive to focus on the business metrics that will produce a high level of performance for the Company, as well as incentives for executive retention. The mix of metrics used for the annual bonus plan and the Stock Incentive Plan likewise provides an appropriate balance between short-term financial performance and long-term financial and stock performance. Maintaining this pay mix results, fundamentally, in a pay-for-performance orientation for our executives.

Process for Determining Executive Compensation

The Compensation Committee provides overall guidance for our executive compensation policies. The Compensation Committee reviews executive compensation and market and peer compensation data annually, in conjunction with annual operational and financial planning for the current fiscal year, and also periodically as needed for specific executive compensation issues that may arise at other times.

The Compensation Committee makes final determinations regarding compensation for the Chief Executive Officer and our executive officers in its sole discretion. Our Chief Executive Officer and Senior Vice

President of Human Resources assist the Compensation Committee by presenting market and peer compensation data, proposals and recommendations to the Compensation Committee, information on Company and individual performance of the Named Executive Officers and management's perspective and recommendations on compensation matters (except that the Chief Executive Officer recuses himself from that portion of the Compensation Committee meetings involving his own compensation).

The Senior Vice President of Human Resources also works with our Chief Executive Officer to assist the Compensation Committee and play a role administering our compensation program for other executives. In particular, our Chief Executive Officer and the Senior Vice President of Human Resources together determine the base compensation and target bonus levels to recommend to our Compensation Committee for all of our other executive officers. Our Chief Executive Officer and the Senior Vice President of Human Resources also recommend to our Compensation Committee the annual bonus payout for our executive officers, based upon overall Company performance as well as individual performance against defined objectives aligned to the strategic goals of the Company.

Use of Outside Advisors and Market Data

In making its determinations with respect to executive compensation, the Compensation Committee has the authority to retain the services of a third party compensation consultant, and has done so from time to time to evaluate and assist in the process of determining an appropriate compensation structure.

The Company periodically engages an outside compensation consultant to provide market and peer compensation data and other insight. Our Chief Executive Officer and Senior Vice President of Human Resources provide this data and other insight from time to time to the Committee for its consideration, along with compensation data provided by a third party service, Culpepper and Associates, a provider of worldwide salary surveys and data for compensation and employee benefit programs in the technology industry, focused primarily on small and mid-sized technology companies, which are the most comparable peer group for the Company. The compensation data provided by Culpepper and Associates is aggregated across companies based on size and geographic region and provides general information about compensation levels of similarly sized companies in the geographic areas where our employees are located. The Committee also reviews executive compensation elements for a select group of publicly traded software as a service companies compiled by our Chief Executive Officer and Senior Vice President of Human Resources from proxy statements and other public reports filed by these companies. The companies within this group reviewed by the Compensation Committee in the past year were Blackboard Inc., Concur Technologies, Inc., Kenexa Corporation, NetSuite Inc., Salesforce.com, inc., Taleo Corporation, The Ultimate Software Group, Inc., and Websense, Inc.

Pay Levels

Pay levels for each of our Named Executive Officers are determined based on a number of factors, including the individual's roles and responsibilities within the Company, the individual's experience and expertise, the pay levels for peers within the Company, pay levels in the marketplace for similar positions and performance of the individual and the Company as a whole. The Compensation Committee is responsible for approving pay levels for our Named Executive Officers. In determining the pay levels, the Compensation Committee considers all forms of compensation and benefits.

After consideration of the data collected on external competitive levels of compensation and internal relationships within the executive group, the Compensation Committee reviews and approves target total compensation opportunities for executives based on the need to attract, motivate and retain an experienced and effective management team.

Relative to the competitive market data, the Compensation Committee generally intends that the salary and target annual incentive opportunity for each executive will be within a reasonable range of the median of the competitive market.

As noted above, notwithstanding the Company's overall pay positioning objectives, pay opportunities for specific individuals vary based on a number of factors such as scope of duties, tenure, institutional knowledge

and/or difficulty in recruiting a new executive. Actual total compensation in a given year will vary above or below the target compensation levels based primarily on the attainment of operating goals and the creation of stockholder value.

Compensation Structure

Pay Elements Overview

The Company utilizes four main components of compensation:

Base Salary fixed pay that takes into account an individual's role and responsibilities, experience, expertise and individual performance.

Annual Incentive variable pay that is designed to reward attainment of annual business goals. Executives qualify for an annual cash incentive payment based on a combination of Company performance as well as individual performance against defined objectives tied to the Company's strategic and fiscal objectives. In the case of executives whose primary objective is revenue generation, incentive compensation may take the form of commissions tied to revenue as well as other Company and individual performance metrics.

Long-Term Incentives the Company's equity based incentive plan allows for awards that may include stock options, stock appreciation rights, restricted stock, performance shares and other stock based awards, including restricted stock units and deferred stock units. To date, the Company has used only stock options for long-term incentive awards.

Benefits and Perquisites the Company offers certain benefits, including medical, dental and life insurance benefits and retirement savings that it considers to be consistent with industry practices and important for competitive recruitment and retention. The Company does not offer special benefits such as supplemental executive retirement plans, perquisites, tax gross-ups or tax equalization.

Pay Elements Details

1. Base Salary

The Compensation Committee annually reviews officer salaries and makes adjustments as warranted based on individual responsibilities and performance, Company performance in light of market conditions and competitive practices. Salary adjustments are generally approved during the first quarter of the calendar year and implemented during the second quarter.

In 2012, the level of salary increase for our executive officers ranged from 0% to 17% based on individual performance, market and peer compensation data and level of responsibility. The Compensation Committee increased the base salaries of certain of our Named Executive Officers as follows: Mr. Murphy increase of \$50,000 or 17% as a market adjustment, resulting in a base salary of \$350,000; and Mr. Kovach increase of \$8,000 or 3% as a market adjustment, resulting in a base salary of \$268,000. Neither Mr. LoCascio nor Mr. Campo received a salary increase in 2012. At the time Ms. Schultz commenced employment with us in February 2012, the Compensation Committee established Ms. Schultz's base salary at \$300,000 based on a review of peer group data and the officer's historic salary levels, as well as a recommendation of our Chief Executive Officer and our Senior Vice President of Human Resources.

2. Annual Incentive Compensation

Our Named Executive Officers are eligible for annual incentive compensation under a bonus plan for each year. The plan is designed to provide awards to such individuals as an incentive to contribute to both revenue growth and profitability on a team basis and as an incentive to meet individual objectives that relate to overall Company goals.

Bonuses are based on the Company's overall financial performance and are contingent upon the attainment by the

Company of certain performance targets established by the Compensation Committee, which may include from time to time:

18

earnings per share;
gross or net revenues;
revenue per employee;
earnings before interest, taxes plus amortization and depreciation (EBITDA);
EBITDA per share;
attainment of strategic and/or product innovation objectives; or
such other goals established by the Committee.

The Compensation Committee retains discretion to adjust the bonus amount paid to any employee or executive up or down, regardless of that person's target bonus or specific corporate performance metrics. There are no maximum payouts, and generally no minimum thresholds for individuals, although certain Named Executive Officers' bonus payouts are subject to minimum threshold amounts as further described below. Bonuses are typically paid in cash after the end of the performance period in which they are earned.

We have set forth below certain of the metrics and discretion applied in calculating the 2012 bonus payments for our Named Executive Officers.

During its annual review of compensation in 2012, the Compensation Committee set the 2012 bonus target amounts for each executive and the target EBITDA metric, with the actual bonus to be paid to each executive to be determined based on the Company's fiscal performance against a target EBITDA metric, together with an assessment of the Company's achievement of various other goals associated with the Company's strategic objectives as well as individual performance against individual objectives. With respect to actual bonus payments for 2012, the total potential percentage payout against each executive's target bonus for 2012 was determined based on the Company's achievement against the Company's 2012 EBITDA target of \$39.5 million. The Company's actual EBITDA performance was \$29.0 million. Accordingly, in consultation with the Company's Chief Executive Officer, the Committee evaluated the Company's overall performance against this goal and its various other strategic objectives, and adopted management's recommendation to set the total bonus pool funding at 68%, inclusive of payroll taxes associated with bonus payments to be made. The actual percentage payout for each executive was further determined by the Committee's subjective assessment of each individual's performance and achievement of such individual's strategic objectives, and in certain cases, payments were rounded to the nearest whole number resulting in a payout of slightly above or below 65% for each executive. The actual bonus payments made for 2012 Fiscal Year performance for each executive were determined as follows:

Chief Executive Officer. During its annual review of compensation in 2012, the Compensation Committee considered market data, the incentive and total compensation paid to the chief executive officers of comparable companies, the Company's overall performance, Mr. LoCascio's role in achieving the Company's performance and strategic priorities, and the goal of maintaining competitive overall compensation rates for Mr. LoCascio. Based on all of these factors, the Committee determined that it was in the best interests of the Company and its stockholders to increase Mr. LoCascio's bonus target amount for 2012 to \$412,500, prorated from an effective date of April 1, 2012. Based on the Committee's overall decision with respect to the maximum payout achievable for 2012 as discussed above, together with the Committee's subjective assessment of Mr. LoCascio's performance against non-metric goals related to introduction of new products, operational efficiency and other strategic objectives, the Compensation Committee approved a 2012 payout of 65% of the bonus target amount (prorated per the April adjustment), or \$268,200 for this executive.

Chief Financial Officer. During its annual review of compensation in 2012, the Compensation Committee set the bonus target amount for Mr. Murphy at \$175,000. Based on the Committee's overall decision with respect to the maximum payout achievable as discussed above, together with the Committee's subjective assessment of this executive's performance against non-metric strategic goals related to finance and operational infrastructure, investor relations and tax planning, the Compensation Committee approved a 2012 payout of 65% of the bonus target amount,

or \$113,800 for this executive.

Executive Vice President and General Manager, Technology Operations-Israel. During its annual review of compensation in 2012, the Compensation Committee set the bonus target amount for Mr. Campo at \$112,647. Based on the Committee's overall decision with respect to the maximum payout achievable as discussed above, together with the Committee's subjective assessment of this executive's performance against non-metric strategic and operational goals related to introduction of new products, enhancement and scalability of existing technology infrastructure, and ongoing technology talent recruitment, the Compensation Committee approved a 2012 payout of 65% of the bonus target amount, or \$73,220 for this executive.

Executive Vice President, Global Sales and Markets. During its annual review of compensation in 2012, the Compensation Committee set the bonus target amount for Ms. Schultz at \$300,000. Based on the Committee's overall decision with respect to the maximum payout achievable as discussed above, together with the Committee's subjective assessment of this executive's performance against non-metric strategic goals related to enhancement of sales operations, infrastructure and recruitment of talent, the Compensation Committee approved a 2012 payout of 74% of the bonus target amount, or \$221,000 for this executive.

Senior Vice President, Corporate Controller. During its annual review of compensation in 2012, the Compensation Committee set the bonus target amount for Mr. Kovach at \$120,000. Based on the Committee's overall decision with respect to the maximum payout achievable as discussed above, together with the Committee's subjective assessment of this executive's performance against non-metric strategic objectives related to scalability of internal financial and business infrastructure, operational efficiency and tax planning, the Compensation Committee approved a 2012 payout of 65% of the bonus target amount, or \$78,000 for this executive.

3. Long-term Incentives – Equity-Based Awards

The Company and the Compensation Committee believe that equity-based awards are an important factor in aligning the long-term financial interest of our Named Executive Officers and our stockholders. The Compensation Committee continually evaluates the use of equity-based awards and intends to continue to use such awards in the future as part of designing and administering the Company's compensation program. The Compensation Committee may grant equity incentives under the Company's 2009 Stock Incentive Plan in the form of stock options (non-qualified and incentive stock options), stock appreciation rights, restricted stock, performance shares and other stock-based awards, including, without limitation, restricted stock units (RSUs) and deferred stock units. The exercise price for stock options is the grant date closing market price per share. Historically, the Compensation Committee has granted stock options that provide for time-based vesting in four equal annual installments beginning on the first anniversary of the grant date.

The Company typically grants options upon hire for new employees and, for employees, including officers other than our Chief Executive Officer, we have historically granted additional options each year they are employed by the Company. The annual option grant process for existing employees has historically occurred in the first half of the calendar year. We have not historically granted options each year to our Chief Executive Officer.

The Compensation Committee has not granted stock based awards other than stock options in the past. The Compensation Committee will evaluate the mix of stock options, restricted stock and other stock based awards in the future to provide emphasis on preserving stockholder value generated in recent years while providing incentives for continued growth in stockholder value.

Each year, the Compensation Committee approves a total pool of equity awards available to grant in the year, after considering the following factors, in its discretion: potential dilution impact of the equity grants; stock-compensation expense related to the equity grants; and the equity grant history and total outstanding equity amounts of similarly situated companies, to the extent available. The Compensation Committee considers similarly situated companies to be those with similar market capitalization, revenue levels, and similar industry presence and product offerings such as the software as a service peer companies discussed above.

Following the determination by the Compensation Committee of the size of the total pool of equity available for grant in a given year, the Chief Executive Officer and the Senior Vice President of Human Resources make recommendations to the Compensation Committee concerning the allocation of the available

pool of equity among specific employees and executive officers, after considering the following factors, in their discretion: existing equity holdings, including vesting status, strike price and quantity; responsibility level of employee; compensation (salary and incentive) structure of the employee; and the desire to allocate equity to those individuals who, by their retention, are expected to drive long term value for the Company.

The Compensation Committee reviews and approves the allocation of individual grants from the approved pool with heavy reliance on the recommendations of management based on these factors, and then may grant approval or make adjustments in its discretion based on the factors enumerated above, along with more generalized or subjective factors such as employment market conditions and employee retention goals, market norms, and general climate for stockholder relations and expectations, dilution and other factors that the Committee may deem appropriate.

In 2012, the stock option grants to our executive officers ranged from 25,000 to 200,000 shares based on individual and Company performance, then-current stock option holdings, market conditions and level of responsibility. In performing its review of our Chief Executive Officer's equity compensation, the Compensation Committee considered market data, data regarding equity compensation practices for chief executive officers of comparable companies, and the total amount, vesting status and the strike prices of historic equity grants received by this executive. The Committee also considered the significant role Mr. LoCascio plays in driving the Company's performance and setting its strategic priorities, as well as Mr. LoCascio's overall level of performance. Based on all of these factors, the Committee determined that it was in the best interest of the Company and its stockholders to award Mr. LoCascio with a stock option grant of 100,000 shares. The Compensation Committee also granted the following stock options to our Named Executive Officers in 2012: Mr. Murphy (100,000 shares), Mr. Campo (200,000), Ms. Schultz (125,000) and Mr. Kovach (25,000 shares).

4. Other Benefits and Perquisites

We do not offer special perquisites to our named executive officers. The Company's executive compensation program includes standard benefits that are also offered to all employees. These benefits include 401(k) plan accounts, Company-paid medical benefits and life insurance coverage. The Company annually reviews these other benefits and perquisites and makes adjustments as warranted based on competitive practices, the Company's performance and the individual's responsibilities and performance. The Company currently partially matches employee contributions to 401(k) plan accounts up to a maximum matching contribution of \$6,000.

Pay Elements Evaluation of Individual Performance

In addition to the description of the Compensation Committee's evaluation provided above, the Compensation Committee also structures and implements specific forms of compensation for the Named Executive Officers to reflect each Named Executive Officer's individual performance and contribution to the Company. Below are certain of the objectives that each Named Executive Officer's performance is measured against:

Chief Executive Officer. For 2012, the salary of Mr. LoCascio was reviewed by the Compensation Committee. Adjustments were made based on peer group data, historical salary level, the Company's performance in the previous year as compared to the financial plan and strategic achievements. Mr. LoCascio's annual incentive compensation is determined based on peer group data as well as the Company's performance against objectives, in particular related to performance against EBITDA target and Company strategic achievements accomplished. Strategic achievements include long term objectives related to product and business strategy. Each of these components contributes to the determination of the bonus amount, which can then be adjusted up or down by the Compensation Committee in its discretion. Mr. LoCascio's incentive equity is determined based on peer group data, historical equity grants (including the amount, exercise prices and vesting status of previous grants), existing common stock holdings, strategic achievements and the Company's performance in the previous year as compared to the financial plan. The actual amount of incentive equity granted is determined by the Compensation Committee in its discretion.

Chief Financial Officer. For 2012, the salary for this officer was determined by the Compensation Committee in response to the recommendation of the Chief Executive Officer and Senior Vice President of

Human Resources and based on peer group data. Mr. Murphy's annual incentive compensation is calculated based on the Company's achievement of fiscal objectives as well as Mr. Murphy's achievement of individual objectives tied to the Company's goals such as global financial infrastructure and strategic planning and investor relations. Mr. Murphy's incentive equity is determined based on peer group data. The actual amount of incentive equity granted is recommended by the Chief Executive Officer and the Senior Vice President of Human Resources in their discretion, and approved by the Compensation Committee in its discretion.

Executive Vice President and General Manager, Technology Operations. For 2012, the salary of Mr. Campo was reviewed and ratified by the Compensation Committee in response to the recommendation of our Chief Executive Officer and our Senior Vice President of Human Resources, and based on peer group data as well as the officer's historical salary levels and individual performance. Mr. Campo's annual incentive compensation is calculated based on the Company's achievement of fiscal objectives as well as Mr. Campo's achievement of individual objectives tied to the Company's goals related to product strategy, technology and hosting infrastructure. Mr. Campo's incentive equity is determined based on peer group data, historical equity grants (including the amount, exercise prices and vesting status of previous grants) and individual and Company performance in the previous year as compared to the financial and operating plan, particularly in those areas under the general discretion of the officer. The actual amount of incentive equity granted is recommended by the Chief Executive Officer and the Senior Vice President of Human Resources in their discretion, and approved by the Compensation Committee in its discretion.

Executive Vice President, Global Sales and Markets. When Ms. Schultz commenced employment with the Company in February 2012, the salary of Ms. Schultz was reviewed and ratified by the Compensation Committee in response to the recommendation of our Chief Executive Officer and our Senior Vice President of Human Resources, and based on peer group data as well as the officer's historical salary levels. Ms. Schultz's annual incentive compensation is calculated based on the Company's achievement of fiscal objectives as well as Ms. Schultz's achievement of individual objectives tied to the Company's goals related to sales programs, talent and infrastructure. Ms. Schultz's incentive equity is determined based on peer group data. The actual amount of incentive equity granted is recommended by the Chief Executive Officer and the Senior Vice President of Human Resources in their discretion, and approved by the Compensation Committee in its discretion.

Senior Vice President, Corporate Controller. For 2012, the salary of Mr. Kovach was reviewed and ratified by the Compensation Committee in response to the recommendation of our Chief Executive Officer, Senior Vice President of Human Resources and Chief Financial Officer based on peer group data as well as the officer's historical salary levels and individual performance. Mr. Kovach's annual incentive compensation is calculated based on the Company's achievement of fiscal objectives as well as Mr. Kovach's achievement of individual objectives tied to the Company's goals related to global financial infrastructure and planning. Mr. Kovach's incentive equity is determined based on peer group data, historical equity grants (including the amount, exercise prices and vesting status of previous grants) and individual and Company performance in the previous year as compared to the financial and operating plan, particularly in those areas under the general discretion of the officer. The actual amount of incentive equity granted is recommended by the Chief Executive Officer and the Senior Vice President of Human Resources in their discretion, and approved by the Compensation Committee in its discretion.

Stock Ownership Guidelines

Currently, we do not have specific share retention or ownership guidelines for our executives. However, we encourage our executives to hold an equity interest in our Company. Each of our executive officers retains substantial equity value in our Company in the form of common stock, and/or vested and unvested stock options.

Post-Termination Compensation and Benefits

Certain employment agreements with our executive officers provide for severance payments and benefits upon an involuntary termination of employment, or resignation for good reason (as defined in the agreement). In addition, certain executives are entitled to partial vesting acceleration in the event they are involuntarily terminated or resign for good reason in connection with a change in control. The Compensation Committee believes the terms of these agreements are fair and reasonable and are in the best interests of the

Company and our stockholders. Additional details regarding the employment agreements with our executives, including a description of the severance payments and benefits payable to our executive as well as estimates of amounts payable upon termination of employment, are disclosed in the section titled Employment Agreements for our Named Executive Officers and Potential Payments Upon Termination or Change-in-Control contained in this proxy statement.

Prohibition Against Certain Equity Transactions

Our Insider Trading Policy prohibits our officers from engaging in short sales or other transactions involving LivePerson-based derivative securities which could reasonably cause our officers to have interests adverse to our stockholders. Short sales, which are sales of shares of common stock by a person that does not own the shares at the time of the sale, evidence an expectation that the value of the shares will decline. We prohibit our officers from entering into short sales because such transactions signal to the market that the officer has no confidence in us or our short-term prospects and may reduce the officer's incentive to improve our performance. In addition, Section 16(c) of the Exchange Act expressly prohibits executive officers and directors from engaging in short sales. Our officers are also prohibited from trading in LivePerson-based put and call option contracts, transacting in straddles and similar transactions. These transactions would allow someone to continue to own the covered securities, but without the full risks and rewards of ownership. If an officer were to enter into such a transaction, the officer would no longer have the same objectives as our other stockholders.

Compensation Recovery Policy

We have not implemented a policy regarding retroactive adjustments to any cash or equity-based incentive compensation paid to our Named Executive Officers where the payments were predicated upon the achievement of financial results that were subsequently the subject of a financial restatement.

Compensation Committee Discretion

The Compensation Committee retains the discretion to decrease all forms of incentive payouts based on significant individual or Company performance shortfalls. Likewise, the Compensation Committee retains the discretion to increase payouts and/or consider special awards for significant achievements, including but not limited to superior asset management, investment or strategic accomplishments and/or consummation of acquisitions, divestitures, capital improvements to existing properties, or other management objectives.

Tax and Accounting Considerations

In determining executive compensation, the Compensation Committee also considers, among other factors, the possible tax consequences to the Company and to its executives. However, to maintain maximum flexibility in designing compensation programs, the Compensation Committee will not limit compensation to those levels or types of compensation that are intended to be deductible. For example, our Compensation Committee considers the provisions of Section 162(m) of the Code and related Treasury Department regulations that restrict deductibility for federal income tax purposes of executive compensation paid to our chief executive officer and each of our three other most-highly-compensated executive officers holding office at the end of any year, other than our Chief Financial Officer, to the extent such compensation exceeds \$1,000,000 for any of such officers in any year and does not qualify for an exception under the statute or regulations. The members of our Compensation Committee qualify as outside directors for purposes of exempting executive compensation from the limits on deductibility under Section 162(m). However, the Compensation Committee believes that our interests are best served in certain circumstances by providing compensation that does not qualify as performance-based compensation under Section 162(m) and,

accordingly, has granted such compensation which may be subject to the \$1,000,000 annual limit on deductibility, including base salary, annual cash bonuses and stock options.

In addition to Section 162(m), Sections 280G and 4999 of the Code provide that executive officers, persons who hold significant equity interests and certain other highly-compensated service providers may be subject to an excise tax if they receive payments or benefits in connection with a change in control of the Company that exceeds certain prescribed limits, and that the Company (or a successor) may forfeit a deduction on the amounts subject to this additional tax. Further, Section 409A of the Code imposes certain

additional taxes on service providers who enter into certain deferred compensation arrangements that do not comply with the requirements of Section 409A. We have not agreed to pay any named executive officer a gross-up or other reimbursement payment for any tax liability that he or she might owe as a result of the application of Sections 280G, 4999 or 409A.

The Compensation Committee also considers the accounting consequences to the Company of different compensation decisions and the impact of certain arrangements on stockholder dilution. However, neither of these factors by themselves will compel a particular compensation decision.

Conclusion

The ultimate level and mix of compensation is considered within the context of both the objective data from our competitive assessment of compensation and performance, as well as discussion of the subjective factors as outlined above. The Compensation Committee believes that each of the compensation packages is within the competitive range of practices when compared to the objective comparative data even where subjective factors have influenced the compensation decisions.

(1) Amounts represent the aggregate grant date fair value computed in accordance with Financial Accounting Standards Board's Accounting Standards Codification Topic 718, or ASC Topic 718, and in accordance with SEC rules. Generally, the aggregate grant date fair value is the amount that the Company expects to expense in its financial statements over the award's vesting schedule. These amounts reflect the company's accounting expense and do not correspond to the actual value that will be realized by the Named Executive Officers and there is no assurance that these grant date fair values will ever be realized by the Named Executive Officers. Pursuant to SEC rules, the amounts shown exclude the impact of estimated forfeitures related to service-based vesting conditions.
