Convertible Senior Notes

In April 2012, the Company issued Convertible Senior Notes due 2018 (the “Notes”) with an aggregate principal amount of \$150 million in a public offering. The Notes bear interest at a rate of 3.375% per annum from the date of issuance, payable semi-annually on May 1 and November 1, and mature on May 1, 2018. The Notes are senior unsecured obligations of the Company ranking equally with its existing and future senior unsecured debt. The Company used the net proceeds of \$145.1 million from the sale of the Notes to fund a portion of the purchase price of the acquisition of Walker Group Holdings (“Walker”) in May 2012.

The Notes are convertible by their holders into cash, shares of the Company’s common stock or any combination thereof at the Company’s election, at an initial conversion rate of 85.4372 shares of the Company’s common stock per \$1,000 in principal amount of Notes, which is equal to an initial conversion price of approximately \$11.70 per share, only under the following circumstances: (A) before November 1, 2017 (1) during any calendar quarter commencing after the calendar quarter ending on June 30, 2012 (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day; (2) during the five business day period after any five consecutive trading day period (the “measurement period”) in which the trading price (as defined in the indenture for the Notes) per \$1,000 principal amount of Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of the Company’s common stock and the conversion rate on each such trading day; or (3) upon the occurrence of specified corporate events as described in the indenture for the Notes; and (B) at any time on or after November 1, 2017 until the close of business on the second business day immediately preceding the maturity date.

As of June 30, 2017, the Company determined that the Notes would be convertible during the calendar quarter ending September 30, 2017 based on criteria in (A) above. If the Notes outstanding at June 30, 2017 had been converted as of June 30, 2017, the if-converted value would exceed the principal amount by approximately \$39 million. It is the Company’s intent to settle conversions in cash for both the principal portion and the excess of the conversion value over the principal portion. The Notes mature on May 1, 2018 and are classified as current within the Condensed Consolidated Balance Sheet.

The Company accounts separately for the liability and equity components of the Notes in accordance with authoritative guidance for convertible debt instruments that may be settled in cash upon conversion. The guidance requires the carrying amount of the liability component to be estimated by measuring the fair value of a similar liability that does not have an associated conversion feature. The Company determined that senior, unsecured corporate bonds traded on the market represent a similar liability to the Notes without the conversion option. Based on market data available for publicly traded, senior, unsecured corporate bonds issued by companies in the same industry and with similar maturity, the Company estimated the implied interest rate of the Notes to be 7.0%, assuming no conversion option. Assumptions used in the estimate represent what market participants would use in pricing the

liability component, including market interest rates, credit standing, and yield curves, all of which are defined as Level 2 observable inputs (as defined below). The estimated implied interest rate was applied to the Notes, which resulted in a fair value of the liability component of \$123.8 million upon issuance, calculated as the present value of implied future payments based on the \$150.0 million aggregate principal amount. The \$21.7 million difference between the cash proceeds before offering expenses of \$145.5 million and the estimated fair value of the liability component was recorded in additional paid-in capital. The discount on the liability portion of the Notes is being amortized over the life of the Notes using the effective interest rate method.

In the second quarter of 2017, the Company repurchased \$4.0 million in principal of such Notes for \$7.3 million, excluding accrued interest. Additionally, in 2016 the Company acquired \$82.0 million in principal for \$98.9 million, excluding accrued interest. For the six months ended June 30, 2017 and 2016, the Company recognized a loss on debt extinguishment of \$0.1 million and \$0.5 million, respectively, for repurchase activity, which is included in *Other, net* on the Company's Condensed Consolidated Statements of Operations.

The Company applies the treasury stock method in calculating the dilutive impact of the Notes. For the quarter ended June 30, 2017, the Notes had a dilutive impact.

The following table summarizes information about the equity and liability components of the Notes (dollars in thousands).

	June 30, 2017	December 31, 2016
Principal amount of the Notes outstanding	\$44,938	\$ 48,951

Revolving Credit Agreement

In June 2015, the Company entered into a Joinder and First Amendment to Amended and Restated Credit Agreement, First Amendment to Amended and Restated Security Agreement and First Amendment to Amended and Restated Guaranty Agreement (the “Amendment”) by and among the Company, certain of its subsidiaries designated as Loan Parties (as defined in the Amendment), Wells Fargo Capital Finance, LLC, as arranger and administrative agent (the “Agent”), and the other lenders party thereto. The Amendment amends, among other things, the Amended and Restated Credit Agreement (as amended, the “Credit Agreement”), dated as of May 8, 2012, among the Company, certain subsidiaries of the Company from time to time party thereto (together with the Company, the “Borrowers”), the several lenders from time to time party thereto, and the Agent and provides for, among other things, a five year, \$175 million senior secured revolving credit facility (the “Credit Facility”).

The Amendment, among other things, (i) increases the total commitments under the Credit Facility from \$150 million to \$175 million, and (ii) extends the maturity date of the Credit Facility from May 2017 to June 2020, but provides for an accelerated maturity in the event the Company's outstanding Notes are not converted, redeemed, repurchased or refinanced in full on or before the date that is 121 days prior to the maturity date thereof and the Company is not then maintaining, and continues to not maintain until the Notes are converted, redeemed, repurchased or refinanced in full, (x) Liquidity of at least \$125 million and (y) availability under the Credit Facility of at least \$25 million. Liquidity, as defined in the Credit Agreement, reflects the difference between (1) the sum of (A) unrestricted cash and cash equivalents and (B) availability under the Credit Facility and (2) the amount necessary to fully redeem the Notes.

In addition, the Amendment (i) provides that borrowings under the Credit Facility will bear interest, at the Borrowers' election, at (x) LIBOR plus a margin ranging from 150 basis points to 200 basis points (in lieu of the previous range from 175 basis points to 225 basis points), or (y) a base rate plus a margin ranging from 50 basis points to 100 basis points (in lieu of the previous range from 75 basis points to 125 basis points), in each case, based upon the monthly average excess availability under the Credit Facility, (ii) provides that the monthly unused line fee shall be equal to 25 basis points (which amount was previously 37.5 basis points) times the average unused availability under the Credit Facility, (iii) provides that if availability under the Credit Facility is less than 12.5% (which threshold was previously 15%) of the total commitment under the Credit Facility or if there exists an event of default, amounts in any of the Borrowers' and the subsidiary guarantors' deposit accounts (other than certain excluded accounts) will be transferred daily into a blocked account held by the Agent and applied to reduce the outstanding amounts under the Credit Facility, (iv) provides that the Company will be required to maintain a minimum fixed charge coverage ratio of not less than 1.1 to 1.0 as of the end of any period of 12 fiscal months when excess availability under the Credit Facility is less than 10% (which threshold was previously 12.5%) of the total commitment under the Credit Facility and (v) amends certain negative covenants in the Credit Agreement.

On May 3, 2017 the Company entered into the Second Amendment to Amended and Restated Credit Agreement (the "Second Amendment"). The Second Amendment provides for revisions to the asset sale and lien covenants that conform certain provisions of the Credit Agreement to corresponding provisions of the Company's Term Loan Credit Agreement (see below) by, among other things, (i) increasing amounts allowed per calendar year for certain asset sales from \$20 million to the greater of \$30 million and 5.0% of consolidated tangible assets, (ii) permitting the proceeds of such increased amount of asset sales to be reinvested in lieu of making mandatory prepayments of indebtedness and (iii) increasing the time permitted for incurring purchase money debt following the acquisition of assets financed thereby from 20 days to 180 days.

The Credit Agreement is guaranteed by certain of the Company's subsidiaries (the "Revolver Guarantors") and is secured by (i) first priority security interests (subject only to customary permitted liens and certain other permitted liens) in substantially all personal property of the Borrowers and the Revolver Guarantors, consisting of accounts receivable, inventory, cash, deposit and securities accounts and any cash or other assets in such accounts and, to the extent evidencing or otherwise related to such property, all general intangibles, licenses, intercompany debt, letter of credit rights, commercial tort claims, chattel paper, instruments, supporting obligations, documents and payment intangibles (collectively, the "Revolver Priority Collateral"), and (ii) second-priority liens on and security interests in (subject only to the liens securing the Term Loan Credit Agreement (as defined below), customary permitted liens and certain other

permitted liens) (A) equity interests of each direct subsidiary held by the Borrower and each Revolver Guarantor (subject to customary limitations in the case of the equity of foreign subsidiaries), and (B) substantially all other tangible and intangible assets of the Borrowers and the Revolver Guarantors including equipment, general intangibles, intercompany notes, insurance policies, investment property, intellectual property and material owned real property (in each case, except to the extent constituting Revolver Priority Collateral) (collectively, the “Term Priority Collateral”). The respective priorities of the security interests securing the Credit Agreement and the Term Loan Credit Agreement are governed by an Intercreditor Agreement between the Revolver Agent and the Term Agent (as defined below) (the “Intercreditor Agreement”).

Subject to the terms of the Intercreditor Agreement, if the covenants under the Credit Agreement are breached, the lenders may, subject to various customary cure rights, require the immediate payment of all amounts outstanding and foreclose on collateral. Other customary events of default in the Credit Agreement include, without limitation, failure to pay obligations when due, initiation of insolvency proceedings, defaults on certain other indebtedness, and the incurrence of certain judgments that are not stayed, satisfied, bonded or discharged within 30 days.

As of June 30, 2017 the Company had no outstanding borrowings under the Credit Agreement and was in compliance with all covenants. The Company's liquidity position, defined as cash on hand and available borrowing capacity on the Credit Facility, amounted to \$348.2 million as of June 30, 2017.

Term Loan Credit Agreement

In May 2012, the Company entered into a credit agreement among the Company, the several lenders from time to time party thereto, Morgan Stanley Senior Funding, Inc., as administrative agent, joint lead arranger and joint bookrunner (the "Term Agent"), and Wells Fargo Securities, LLC, as joint lead arranger and joint bookrunner (the "Term Loan Credit Agreement"), which initially provided, among other things, for a senior secured term loan facility of \$300 million. Also in May 2012, certain of the Company's subsidiaries (the "Term Guarantors") entered into a general continuing guarantee of the Company's obligations under the Term Loan Credit Agreement in favor of the Term Agent (the "Term Guarantee").

In April 2013, the Company entered into Amendment No. 1 to Credit Agreement (the "Amendment No. 1"), which became effective on May 9, 2013. As of the Amendment No. 1 date, \$297.0 million of term loans were outstanding under the Term Loan Credit Agreement (the "Initial Loans"), of which the Company paid \$20.0 million in connection with Amendment No. 1. Under Amendment No. 1, the lenders agreed to provide to the Company term loans in an aggregate principal amount of \$277.0 million, which were exchanged for and used to refinance the Initial Loans (the "Tranche B-1 Loans").

In March 2015, the Company entered into Amendment No. 2 to Credit Agreement ("Amendment No. 2"). As of the Amendment No. 2 date, \$192.8 million of Tranche B-1 Loans were outstanding. Under Amendment No. 2, the lenders agreed to provide to the Company term loans in an aggregate principal amount of \$192.8 million (the "Tranche B-2 Loans"), which were used to refinance the outstanding Tranche B-1 Loans. The Tranche B-2 Loans mature in March 2022, but provide for an accelerated maturity in the event the Company's outstanding Notes are not converted, redeemed, repurchased or refinanced in full on or before the date that is 91 days prior to the maturity date thereof and the Company is not then maintaining, and continues to not maintain until the Notes are converted, redeemed, repurchased or refinanced in full, liquidity of at least \$125 million. Liquidity, as defined in the Term Loan Credit Agreement, reflects the difference between (i) the sum of (A) unrestricted cash and cash equivalents and (B) the amount available and permitted to be drawn under the Company's existing Credit Agreement and (ii) the amount

necessary to fully redeem the Notes. The Tranche B-2 Loans shall amortize in equal quarterly installments in aggregate amounts equal to 0.25% of the original principal amount of the Tranche B-2 Loans, with the balance payable at maturity, and will bear interest at a rate, at the Company's election, equal to (x) LIBOR (subject to a floor of 1.00%) plus a margin of 3.25% or (y) a base rate plus a margin of 2.25%.

Amendment No. 2 also amended the Term Loan Credit Agreement by (i) removing the maximum senior secured leverage ratio test, (ii) modifying the accordion feature, as described in the Term Loan Credit Agreement, to provide for a senior secured incremental term loan facility in an aggregate amount not to exceed the greater of (A) \$75 million (less the aggregate amount of (1) any increases in the maximum revolver amount under the Company's existing Credit Agreement and (2) certain permitted indebtedness incurred for the purpose of prepaying or repurchasing the Notes) and (B) an amount such that the senior secured leverage ratio would not be greater than 3.0 to 1.0, subject to certain conditions, including obtaining commitments from any one or more lenders, whether or not currently party to the Term Loan Credit Agreement, to provide such increased amounts, and (iii) amending certain negative covenants. The senior secured leverage ratio is defined in the Term Loan Credit Agreement and reflects a ratio of consolidated net total secured indebtedness to consolidated EBITDA.

Furthermore, on February 24, 2017, the Company entered into Amendment No. 3 to Credit Agreement ("Amendment No. 3"). As of February 24, 2017, \$189.5 million of the Tranche B-2 Loans were outstanding. Under Amendment No. 3, the lenders agreed to provide to the Company term loans in the same aggregate principal amount of the outstanding Tranche B-2 Loans (the "Tranche B-3 Loans"), which were used to refinance the outstanding Tranche B-2 Loans. The Tranche B-3 Loans shall amortize in equal quarterly installments in aggregate amounts equal to 0.25% of the initial principal amount of the Tranche B-3 Loans, with the balance payable at maturity, and will bear interest at a rate, at the Company's election, equal to (i) LIBOR (subject to a floor of 0%) plus a margin of 2.75% or (ii) a base rate (subject to a floor of 0%) plus a margin of 1.75%. Amendment No. 3 also provides for a 1% prepayment premium applicable in the event that the Company enters into a refinancing of, or amendment in respect of, the Tranche B-3 Loans on or prior to the six month anniversary of the effective date of Amendment No. 3 that, in either case, results in the all-in yield (including, for purposes of such determination, the applicable interest rate, margin, original issue discount, upfront fees and interest rate floors, but excluding any customary arrangement, structuring, commitment or underwriting fees) of such refinancing or amendment being less than the all-in yield (determined on the same basis) on the Tranche B-3 Loans. Except as amended by Amendment No. 3, the remaining terms of the Credit Agreement remain in full force and effect.

The Term Loan Credit Agreement, as amended, is guaranteed by the Term Guarantors and is secured by (i) first-priority liens on and security interests in the Term Priority Collateral, and (ii) second-priority security interests in the Revolver Priority Collateral. In addition, the Term Loan Credit Agreement, as amended, contains customary covenants limiting the Company's ability to, among other things, pay cash dividends, incur debt or liens, redeem or repurchase stock, enter into transactions with affiliates, merge, dissolve, pay off subordinated indebtedness, make investments and dispose of assets.

Subject to the terms of the Intercreditor Agreement, if the covenants under the Term Loan Credit Agreement, as amended, are breached, the lenders may, subject to various customary cure rights, require the immediate payment of all amounts outstanding and foreclose on collateral. Other customary events of default in the Term Loan Credit Agreement, as amended, include, without limitation, failure to pay obligations when due, initiation of insolvency proceedings, defaults on certain other indebtedness, and the incurrence of certain judgments that are not stayed, satisfied, bonded or discharged within 60 days.

For the six months ended June 30, 2017 and 2016, under the Term Loan Credit Agreement the Company paid interest of \$3.8 million and \$4.2 million, respectively, and principal of \$0.9 million and \$1.0 million, respectively, during each period. In connection with Amendment No. 3, the Company recognized a loss on debt extinguishment of \$0.6 million during the first quarter of 2017 which was included in *Other, net* on the Company's Condensed Consolidated Statements of Operations. As of June 30, 2017, the Company had \$188.5 million outstanding under the Term Loan Credit Agreement, of which \$1.9 million was classified as current on the Company's Condensed Consolidated Balance Sheet.

4. FAIR VALUE MEASUREMENTS

The Company's fair value measurements are based upon a three-level valuation hierarchy. These valuation techniques are based upon the transparency of inputs (observable and unobservable) to the valuation of an asset or liability as of the measurement date. Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect the Company's market assumptions. These two types of inputs create the following fair value hierarchy:

- Level 1 — Valuation is based on quoted prices for identical assets or liabilities in active markets;

- Level 2 — Valuation is based on quoted prices for similar assets or liabilities in active markets, or other inputs that are observable for the asset or liability, either directly or indirectly, for the full term of the financial instrument; and

- Level 3 — Valuation is based upon other unobservable inputs that are significant to the fair value measurement.

Recurring Fair Value Measurements

The Company maintains a non-qualified deferred compensation plan which is offered to senior management and other key employees. The amount owed to participants is an unfunded and unsecured general obligation of the Company. Participants are offered various investment options with which to invest the amount owed to them, and the plan administrator maintains a record of the liability owed to participants by investment. To minimize the impact of the change in market value of this liability, the Company has elected to purchase a separate portfolio of investments through the plan administrator similar to those chosen by the participant.

The investments purchased by the Company include mutual funds, \$2.3 million of which are classified as Level 1, and life-insurance contracts valued based on the performance of underlying mutual funds, \$11.3 million of which are classified as Level 2.

Estimated Fair Value of Debt

The estimated fair value of debt at June 30, 2017 consists primarily of the Notes and borrowings under the Term Loan Credit Agreement (see Note 3). The fair value of the Notes, the Term Loan Credit Agreement and the Credit Facility are based upon third party pricing sources, which generally do not represent daily market activity or represent data obtained from an exchange, and are classified as Level 2. The interest rates on the Company's borrowings under the

Credit Facility are adjusted regularly to reflect current market rates and thus carrying value approximates fair value for these borrowings. All other debt and capital lease obligations approximate their fair value as determined by discounted cash flows and are classified as Level 3.

The Company's carrying and estimated fair value of debt at June 30, 2017 and December 31, 2016 were as follows:

Instrument	June 30, 2017				December 31, 2016			
	Carrying Value	Fair Value Level 1	Level 2	Level 3	Carrying Value	Fair Value Level 1	Level 2	Level 3
Convertible senior notes	\$43,664	\$-	\$85,634	\$-	\$46,768	\$-	\$69,721	\$-
Term loan credit agreement	187,929	-	188,994	-	188,540	-	189,470	-
Other debt	327	-	-	327	625	-	-	625
Capital lease obligations	1,599	-	-	1,599	1,903	-	-	1,903
	\$233,519	\$-	\$274,628	\$1,926	\$237,836	\$-	\$259,191	\$2,528

5. STOCK-BASED COMPENSATION

The Company recognizes all share-based payments based upon their fair value. The Company values stock option awards using a binomial option-pricing model, which incorporates various assumptions including expected volatility, expected term, dividend yield and risk-free interest rates. The expected volatility is based upon the Company's historical experience. The expected term represents the period of time that options granted are expected to be outstanding. The risk-free interest rate utilized for periods throughout the contractual life of the options are based upon U.S. Treasury security yields at the time of grant. The Company grants restricted stock units subject to service, performance and/or market conditions. The Company's policy is to recognize expense for awards that have service conditions only subject to graded vesting using the straight-line attribution method. The fair value of service and performance based units is based on the market price of a share of underlying common stock at the date of grant. The fair value of the market based units is based on a lattice valuation model. The amount of compensation costs related to stock options, restricted stock units and performance units not yet recognized was \$17.5 million at June 30, 2017 for which the expense will be recognized through 2020.

6. CONTINGENCIES

The Company is involved in a number of legal proceedings concerning matters arising in connection with the conduct of its business activities, and is periodically subject to governmental examinations (including by regulatory and tax authorities), and information gathering requests (collectively, "governmental examinations"). As of June 30, 2017, the Company was named as a defendant or was otherwise involved in numerous legal proceedings and governmental examinations in various jurisdictions, both in the United States and internationally.

The Company has recorded liabilities for certain of its outstanding legal proceedings and governmental examinations. A liability is accrued when it is both (a) probable that a loss with respect to the legal proceeding has occurred and (b) the amount of loss can be reasonably estimated. The Company evaluates, on a quarterly basis, developments in legal proceedings and governmental examinations that could cause an increase or decrease in the amount of the liability that has been previously accrued. These legal proceedings, as well as governmental examinations, involve various lines of business of the Company and a variety of claims (including common law tort, contract, antitrust and consumer protection claims), some of which present novel factual allegations and/or unique legal theories. While some matters pending against the Company specify the damages claimed by the plaintiff, many seek a not-yet-quantified amount of damages or are at very early stages of the legal process. Even when the amount of damages claimed against the Company are stated, the claimed amount may be exaggerated and/or unsupported. As a result, it is not currently possible to estimate a range of possible loss beyond previously accrued liabilities relating to some matters including those described below. Such previously accrued liabilities may not represent the Company's maximum loss exposure. The legal proceedings and governmental examinations underlying the estimated range will change from time to time and actual results may vary significantly from the currently accrued liabilities.

Based on its current knowledge, and taking into consideration its litigation-related liabilities, the Company believes it is not a party to, nor are any of its properties the subject of, any pending legal proceeding or governmental examination other than the matters below, which are addressed individually, that would have a material adverse effect on the Company's consolidated financial condition or liquidity if determined in a manner adverse to the Company. However, in light of the uncertainties involved in such matters, the ultimate outcome of a particular matter could be material to the Company's operating results for a particular period depending on, among other factors, the size of the loss or liability imposed and the level of the Company's income for that period. Costs associated with the litigation and settlements of legal matters are reported within *General and Administrative Expenses* in the Condensed Consolidated Statements of Operations.

Brazil Joint Venture

In March 2001, Bernard Krone Indústria e Comércio de Máquinas Agrícolas Ltda. (“BK”) filed suit against the Company in the Fourth Civil Court of Curitiba in the State of Paraná, Brazil. Because of the bankruptcy of BK, this proceeding is now pending before the Second Civil Court of Bankruptcies and Creditors Reorganization of Curitiba, State of Paraná (No. 232/99).

The case grows out of a joint venture agreement between BK and the Company related to marketing of RoadRailer trailers in Brazil and other areas of South America. When BK was placed into the Brazilian equivalent of bankruptcy late in 2000, the joint venture was dissolved. BK subsequently filed its lawsuit against the Company alleging that it was forced to terminate business with other companies because of the exclusivity and non-compete clauses purportedly found in the joint venture agreement. BK asserted damages, exclusive of any potentially court-imposed interest or inflation adjustments, of approximately R\$20.8 million (Brazilian Reais). BK did not change the amount of damages asserted following its filing of the case in 2001.

A bench (non-jury) trial was held on March 30, 2010 in Curitiba, Paraná, Brazil. On November 22, 2011, the Fourth Civil Court of Curitiba partially granted BK’s claims, and ordered Wabash to pay BK lost profits, compensatory, economic and moral damages in excess of the amount of compensatory damages asserted by BK. The total ordered damages amount was approximately R\$26.7 million (Brazilian Reais), which was approximately \$8.1 million U.S. dollars using the exchange rate as of June 30, 2017 and exclusive of any potentially court-imposed interest, fees or inflation adjustments. On October 5, 2016, the Court of Appeals re-heard all facts and legal questions presented in the case, and ruled in favor of the Company on all claims at issue. In doing so, the Court of Appeals dismissed all claims against the Company and vacated the judgment and damages previously ordered by the Fourth Civil Court of Curitiba. Unless BK appeals the ruling and a higher court finds in favor of BK on any of its claims, the judgment of the Court of Appeals is final. As a result of the Court of Appeals ruling, the Company does not expect that this proceeding will have a material adverse effect on its financial condition or results of operations; however, it will continue to monitor these legal proceedings in the event that BK further appeals the ruling of the Court of Appeals.

Intellectual Property

In October 2006, the Company filed a patent infringement suit against Vanguard National Corporation (“Vanguard”) regarding the Company’s U.S. Patent Nos. 6,986,546 and 6,220,651 in the U.S. District Court for the Northern District of Indiana (Civil Action No. 4:06-cv-135). The Company amended the Complaint in April 2007. In May 2007, Vanguard filed its Answer to the Amended Complaint, along with Counterclaims seeking findings of non-infringement, invalidity, and unenforceability of the subject patents. The Company filed a reply to Vanguard’s counterclaims in May 2007, denying any wrongdoing or merit to the allegations as set forth in the counterclaims. The case was stayed by agreement of the parties while the U.S. Patent and Trademark Office (“Patent Office”) undertook a

reexamination of U.S. Patent No. 6,986,546. In June 2010, the Patent Office notified the Company that the reexamination was completed and the Patent Office reissued U.S. Patent No. 6,986,546 without cancelling any claims of the patent. The parties have not yet petitioned the Court to lift the stay, and it is unknown at this time when the parties may do so.

The Company believes that its claims against Vanguard have merit and that the claims asserted by Vanguard are without merit. The Company intends to vigorously defend its position and intellectual property. The Company believes that the resolution of this lawsuit will not have a material adverse effect on its financial position, liquidity or future results of operations. However, at this stage of the proceeding, no assurance can be given as to the ultimate outcome of the case.

Walker Acquisition

In connection with the Company's acquisition of Walker in May 2012, there is an outstanding claim of approximately \$2.9 million for unpaid benefits that is currently in dispute and that, if required to be paid by the Company, is not expected to have a material adverse effect on the Company's financial condition or results of operations.

Environmental Disputes

In August 2014, the Company was noticed as a potentially responsible party ("PRP") by the South Carolina Department of Health and Environmental Control ("DHEC") pertaining to the Philip Services Site located in Rock Hill, South Carolina pursuant to the Comprehensive Environmental Response, Compensation and Liability Act ("CERCLA") and corresponding South Carolina statutes. PRPs include parties identified through manifest records as having contributed to deliveries of hazardous substances to the Philip Services Site between 1979 and 1999. The DHEC's allegation that the Company was a PRP arises out of four manifest entries in 1989 under the name of a company unaffiliated with Wabash National (or any of its former or current subsidiaries) that purport to be delivering a de minimis amount of hazardous waste to the Philip Services Site "c/o Wabash National Corporation." As such, the Philip Services Site PRP Group ("PRP Group") notified Wabash in August 2014 that it was offering the Company the opportunity to resolve any liabilities associated with the Philip Services Site by entering into a Cash Out and Reopener Settlement Agreement (the "Settlement Agreement") with the PRP Group, as well as a Consent Decree with the DHEC. The Company has accepted the offer from the PRP Group to enter into the Settlement Agreement and Consent Decree, while reserving its rights to contest its liability for any deliveries of hazardous materials to the Philips Services Site. The requested settlement payment is immaterial to the Company's financial conditions or operations, and as a result, if the Settlement Agreement and Consent Decree are finalized, the payment to be made by the Company thereunder is not expected to have a material adverse effect on the Company's financial condition or results of operations.

Bulk Tank International, S. de R.L. de C.V. ("Bulk"), one of the companies acquired in the Walker acquisition, entered into agreements in 2011 with the Mexican federal environmental agency, PROFEPA, and the applicable state environmental agency, PROPAEG, pursuant to PROFEPA's and PROPAEG's respective environmental audit programs to resolve noncompliance with federal and state environmental laws at Bulk's Guanajuato facility. Bulk completed all required corrective actions, received a Certification of Clean Industry from PROPAEG, and effective May 27, 2017, received the same certification from PROFEPA. As a result, the Company does not expect that this matter will have a

material adverse effect on its financial condition or results of operations.

In January 2006, the Company received a letter from the North Carolina Department of Environment and Natural Resources indicating that a site that the Company formerly owned near Charlotte, North Carolina has been included on the state's October 2005 Inactive Hazardous Waste Sites Priority List. The letter states that the Company was being notified in fulfillment of the state's "statutory duty" to notify those who own and those who at present are known to be responsible for each Site on the Priority List. Following receipt of this notice, no action has ever been requested from the Company, and since 2006 the Company has not received any further communications regarding this matter from the state of North Carolina. The Company does not expect that this designation will have a material adverse effect on its financial condition or results of operations.

7. NET INCOME PER SHARE

Per share results have been calculated based on the average number of common shares outstanding. The calculation of basic and diluted net income per share is determined using net income applicable to common stockholders as the numerator and the number of shares included in the denominator as follows (in thousands, except per share amounts):

	Three Months Ended June 30,		Six Months Ended June 30,	
	2017	2016	2017	2016
Basic net income per share:				
Net income applicable to common stockholders	\$ 22,945	\$ 35,531	\$43,118	\$63,055
Weighted average common shares outstanding	59,902	64,834	60,022	64,936
Basic net income per share	\$ 0.38	\$ 0.55	\$0.72	\$0.97
Diluted net income per share:				
Net income applicable to common stockholders	\$ 22,945	\$ 35,531	\$43,118	\$63,055
Weighted average common shares outstanding	59,902	64,834	60,022	64,936
Dilutive shares from assumed conversion of convertible senior notes	1,831	1,057	1,762	529
Dilutive stock options and restricted stock	1,474	1,224	1,519	1,205
Diluted weighted average common shares outstanding	63,207	67,115	63,303	66,670
Diluted net income per share	\$ 0.36	\$ 0.53	\$0.68	\$0.95

Average diluted shares outstanding for the three and six month periods ended June 30, 2016 excludes options to purchase common shares totaling 495 and 622, respectively, because the exercise prices were greater than the average market price of the common shares. The calculation of diluted net income per share for the three and six month periods ended June 30, 2017 and 2016 includes the impact of the Company's Notes as the average stock price of the Company's common stock during the period was above the initial conversion price of approximately \$11.70 per share.

8. INCOME TAXES

The Company recognized income tax expense of \$21.6 million in the first six months of 2017 compared to \$35.4 million for the same period in the prior year. The effective tax rate for the first six months of 2017 and 2016 were 33.4% and 35.9%, respectively. These effective tax rates differ from the U.S. Federal statutory rate of 35% primarily due to the impact of state and local taxes offset by the benefit of the U.S. Internal Revenue Code domestic manufacturing deduction and, in 2017, the recognition of excess tax benefits on stock-based compensation.

9. OTHER ACCRUED LIABILITIES

The following table presents major components of *Other Accrued Liabilities* (in thousands):

	June 30, 2017	December 31, 2016

All other	10,638	10,912
	\$89,355	\$ 92,314

The following table presents the changes in the product warranty accrual included in *Other Accrued Liabilities* (in thousands):

	June 30, 2017	June 30, 2016
Balance as of January 1	\$20,520	\$19,709
Provision for warranties issued in current year	2,792	3,140
(Recovery of) Provision for pre-existing warranties	(225)	182
Payments	(3,351)	(2,796)
Balance as of June 30	\$19,736	\$20,235

The Company offers a limited warranty for its products with a coverage period that ranges between one and five years, except that the coverage period for DuraPlate® trailer panels is ten years. The Company passes through component manufacturers' warranties to our customers. The Company's policy is to accrue the estimated cost of warranty coverage at the time of the sale.

10. SEGMENTS***a. Segment Reporting***

The Commercial Trailer Products segment manufactures standard and customized van and platform trailers, truck bodies and other transportation related equipment to customers who purchase directly from the Company, through independent dealers or Company owned branch locations through which the Company offers additional service and support. The Diversified Products segment, comprised of four strategic business units including, Tank Trailer, Aviation & Truck Equipment, Process Systems and Composites, focuses on the Company's commitment to expand its customer base, diversify its product offerings and revenues and extend its market leadership by leveraging its proprietary DuraPlate[®] panel technology, drawing on its core manufacturing expertise and making available products that are complementary to truck and tank trailers and transportation equipment.

The Company has not allocated certain corporate related administrative costs, interest and income taxes included in the corporate and eliminations segment to the Company's other reportable segments. The Company accounts for intersegment sales and transfers at cost plus a specified mark-up. Reportable segment information is as follows (in thousands):

11. NEW ACCOUNTING PRONOUNCEMENTS

In May 2014, the Financial Accounting Standards Board (the “FASB”) issued Accounting Standards Update (“ASU”) No. 2014-09, *Revenue from Contracts with Customers* (Topic 606), which supersedes the revenue recognition requirements in Accounting Standards Codification (“ASC”) 605, *Revenue*. Furthermore, the FASB issued additional amendments and technical corrections related to ASU 2014-09 during 2016, which are considered in our evaluation of this standard. This ASU is based on the principle that revenue is recognized to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The ASU also requires additional disclosure about the nature, amount, timing and uncertainty of revenue and cash flows arising from customer contracts, including significant judgments and changes in judgments and assets recognized from costs incurred to obtain or fulfill a contract. The effective date of these standards will be the first quarter of fiscal year 2018 using one of two retrospective application methods. The Company is currently in the process of concluding its review of revenue streams and the related performance obligations and pricing

arrangements within each of its product lines. In addition, as part of this review, the Company is evaluating contractual terms, such as customer acceptance clauses, payment terms, shipping instructions, and timing of shipments, against the new standards to determine the impact on the Company's financial statements. The Company has identified the performance obligations and has determined that there are no significant variable consideration in our contracts that impact the transaction price for these performance obligations. The Company is planning to use the modified retrospective method to transition to the new standard and is still evaluating the potential impact, if any, of the adoption on its financial statements and related disclosures. The Company expects to conclude this evaluation in 2017.

In February 2016, the FASB issued ASU 2016-02, *Leases (Topic 842)*. This update requires lessees to recognize, on the balance sheet, assets and liabilities for the rights and obligations created by leases of greater than twelve months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. This guidance will be effective for the Company as of January 1, 2019. A modified retrospective transition method is required. The Company is currently evaluating the impact the adoption of this guidance will have on its consolidated financial statements.

In November 2016, the FASB issued ASU No. 2016-18, *Statement of Cash Flows (Topic 230), Restricted Cash*, which requires entities to show the changes in the total of cash, cash equivalents, restricted cash, and restricted cash equivalents in the statement of cash flows. When cash, cash equivalents, restricted cash and restricted cash equivalents are presented in more than one item on the balance sheet, a reconciliation of the totals in the statement of cash flows to the related captions in the balance sheet is required. This guidance will be effective for the Company as of January 1, 2018. Entities will be required to apply the guidance retrospectively. The Company is currently evaluating the impact the adoption of this guidance will have on its consolidated financial statements.

12. SUBSEQUENT EVENT

On July 17, 2017, the Company entered into an asset purchase agreement with Summit Trailer Group, LLC (“Summit Truck Group”) to transition two company-owned retail branches locations to independent dealer facilities owned and operated by Summit Truck Group for \$14.2 million in cash, subject to closing-date purchase price adjustments relating to final quantities of operating assets acquired. These retail branches are located in San Antonio, Texas, and Dallas, Texas, and will add to Summit Truck Group’s existing locations that will sell and service the Company’s trailers and truck bodies. The Company expects this agreement to close during the third quarter of 2017.

ITEM 2. MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report of Wabash National Corporation (together with its subsidiaries, the “Company,” “Wabash,” “we” or “us”) contains “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934 (the “Exchange Act”). Forward-looking statements may include the words “may,” “will,” “estimate,” “intend,” “continue,” “believe,” “expect,” “plan” or “anticipate” and other similar words. Our “forward-looking statements” include, but are not limited to, statements regarding:

- our business plan;
- our expected revenues, income or loss;
- our ability to manage our indebtedness;
- our strategic plan and plans for future operations;
- financing needs, plans and liquidity, including for working capital and capital expenditures;
- our ability to achieve sustained profitability;

- reliance on certain customers and corporate relationships;
- availability and pricing of raw materials;
- availability of capital and financing;
- dependence on industry trends;
- the outcome of any pending litigation or notice of environmental dispute;
- export sales and new markets;
- engineering and manufacturing capabilities and capacity;
- acceptance of new technology and products;
- government regulation; and
- assumptions relating to the foregoing.

Although we believe that the expectations expressed in our forward-looking statements are reasonable, actual results could differ materially from those projected or assumed in our forward-looking statements. Our future financial condition and results of operations, as well as any forward-looking statements, are subject to change and are subject to inherent risks and uncertainties, such as those disclosed in this Quarterly Report. Important risks and factors that could cause our actual results to be materially different from our expectations include the factors that are disclosed in “Item 1A. Risk Factors” in our Annual Report on Form 10-K for the year ended December 31, 2016. Each forward-looking statement contained in this Quarterly Report reflects our management’s view only as of the date on which that forward-looking statement was made. We are not obligated to update forward-looking statements or publicly release the result of any revisions to them to reflect events or circumstances after the date of this Quarterly Report or to reflect the occurrence of unanticipated events, except as required by law.

For the three and six month period ended June 30, 2017, we recorded net sales of \$435.9 million and \$798.6 million, respectively, compared to \$471.4 million and \$919.1 million, respectively, in the prior year periods. Net sales for the three month period ended June 30, 2017 decreased \$35.5 million, or 7.5%, compared to the prior year period, due primarily to a decrease in new trailer shipments of approximately 1,800 units, or 11.3%. Gross profit margin decreased to 15.5% in the second quarter of 2017 compared to 19.3% in the prior year period driven by lower volumes and higher commodity costs. While 2017 will likely reflect a pullback in overall trailer demand from levels achieved in 2016, we continue to be encouraged by the strong market demand within the dry and refrigerated trailer segment as well as the expectation that overall industry shipment and production levels will remain above replacement demand for the remainder of 2017 as many key structural and market drivers continue to support healthy demand for new trailers. In addition, we expect to continue our focused efforts to drive ongoing improvements throughout the business, deliver new opportunities to expand our customer base and focus on developing innovative new products that both add value to our customers' operations and allow us to continue to differentiate our products from the competition.

For the three month period ended June 30, 2017, selling, general and administrative expenses decreased \$0.6 million as compared to the same period in 2016 primarily due to lower employee related costs, including employee incentive programs. As a percentage of net sales, selling, general and administrative expenses increased to 5.8% in the second quarter of 2017 as compared to 5.4% in the prior year period.

Our management team continues to be focused on increasing overall shareholder value by optimizing our manufacturing operations to match the current demand environment, implementing cost savings initiatives and lean manufacturing techniques, strengthening our capital structure, developing innovative products that enable our customers to succeed, improving earnings and continuing diversification of the business into higher margin opportunities that leverage our intellectual and process capabilities.

Three Months Ended June 30, 2017

Net Sales

Net sales in the second quarter of 2017 decreased \$35.5 million, or 7.5%, compared to the second quarter of 2016. By business segment, prior to the elimination of intercompany sales, sales and related units sold were as follows (dollars in thousands):

(prior to elimination of intersegment sales)	Three Months Ended June 30,			
	2017	2016	Change \$	%
Sales by Segment				
Commercial Trailer Products	\$348,140	\$382,212	\$(34,072)	(8.9)

Commercial Trailer Products	50	300	(250)	(83.3)
Diversified Products	50	50	-	-
Total	100	350	(250)	(71.4)

Commercial Trailer Products segment sales prior to the elimination of intersegment sales were \$348.1 million for the second quarter of 2017, a decrease of \$34.1 million, or 8.9%, compared to the second quarter of 2016. New trailers shipped during the second quarter of 2017 totaled 13,600 trailers compared to 15,350 trailers in the prior year period, an 11.4% decrease due primarily to lower market demand. The decrease in new trailer shipments, partially offset by a 3.6% increase in the average selling price of trailers compared to the prior year period, resulted in a \$30.4 million decrease in new trailer sales. Parts and service revenue for the second quarter of 2017 totaled \$13.1 million, a decrease of \$1.7 million, or 11.6%, as compared to the second quarter of 2016 primarily due to fewer retail branch locations in the current year. Used trailer sales decreased \$2.2 million, or 63.9%, compared to the prior year period primarily due to decreased availability through trade packages as 250 fewer used trailers were shipped in the second quarter of 2017 compared to the prior year period.

Diversified Products segment sales prior to the elimination of intersegment sales were \$90.8 million for the second quarter of 2017, down \$2.0 million, or 2.2%, compared to the second quarter of 2016. New trailer sales decreased \$0.9 million, or 2.7%, from the prior year period due to lower pricing as 550 new trailers were shipped in both the second quarter of 2017 and 2016. Equipment sales decreased \$0.5 million, or 2.2%, compared to the prior year period as a result of lower demand for our non-trailer related products. Sales of our parts and service product offerings totaled \$32.2 million for the second quarter of 2017, a decrease of \$0.3 million or 1.0% as compared to the prior year period.

Gross Profit

Gross profit was \$67.7 million in the second quarter of 2017, a decrease of \$23.4 million from the prior year period. Gross profit as a percentage of sales was 15.5% for the current quarter and 19.3% for the same period in 2016. Gross profit by segment was as follows (dollars in thousands):

	Three Months Ended June 30,			
	2017	2016	Change \$	%
Gross Profit by Segment				
Commercial Trailer Products	\$50,882	\$69,027	\$(18,145)	(26.3)
Diversified Products	17,149	22,938	(5,789)	(25.2)
Corporate	(353)	(901)	548	
Total	\$67,678	\$91,064	\$(23,386)	(25.7)

Commercial Trailer Products segment gross profit was \$50.9 million for the second quarter of 2017 compared to \$69.0 million for the second quarter of 2016. Gross profit prior to the elimination of intersegment sales, as a percentage of net sales, was 14.6% in the second quarter of 2017 compared to 18.1% in the 2016 period. The decrease in gross profit margin as compared to the prior year period was primarily driven by decreases in new trailer shipments during the quarter as well as higher commodity costs.

Diversified Products segment gross profit was \$17.1 million for the second quarter of 2017 compared to \$22.9 million in the same quarter of 2016. Gross profit prior to the elimination of intersegment sales, as a percentage of net sales, was 18.9% in the second quarter of 2017 compared to 24.6% in the 2016 period. The decrease in gross profit as a percentage of net sales compared to the prior year period was due primarily driven by product mix and higher commodity costs.

General and Administrative Expenses

General and administrative expenses in the second quarter of 2017 increased \$0.5 million, or 2.8%, as compared to the same period in 2016 as decreases in salaries and employee related costs, including employee incentive programs, of \$0.8 million were more than offset by an increase in outside services and professional fee expenditures, depreciation, and various other expenses totaling \$1.3 million. As a percentage of net sales, general and administrative expenses increased to 4.4% in the second quarter of 2017 as compared to 3.9% in the prior year period.

Selling Expenses

Selling expenses were \$5.9 million in the second quarter of 2017, a decrease of \$1.1 million, or 16.3%, compared to the prior year period primarily due to a \$0.8 million decrease in salaries and employee related costs, including employee incentive programs, as well as a \$0.2 million decrease in advertising and promotional efforts. As a percentage of net sales, selling expenses were 1.4% for the second quarter of 2017, down slightly from 1.5% for the second quarter of 2016.

Amortization of Intangibles

Amortization of intangibles was \$4.1 million for the second quarter of 2017 compared to \$5.0 million in the prior year period. Amortization of intangibles for both periods were primarily the result of expenses recognized for intangible assets recorded from the acquisition of Walker in May 2012 and the acquisition of certain assets of Beall in February 2013.

Other Income (Expense)

Interest expense for the second quarter of 2017 totaled \$2.9 million compared to \$3.9 million in the second quarter of 2016. Interest expense for both periods is primarily related to interest and non-cash accretion charges on our Convertible Senior Notes and Term Loan Credit Agreement. The decrease from the prior year period is primarily due to the repurchase of Convertible Senior Notes completed over the previous twelve months.

Income Taxes

We recognized income tax expense of \$13.2 million in the second quarter 2017 compared to \$19.2 million for the same period in the prior year. The effective tax rate for the second quarter of 2017 and 2016 were 36.4% and 35.1%, respectively. These effective tax rates differ from the U.S. Federal statutory rate of 35% primarily due to the impact of state and local taxes offset by the benefit of the U.S. Internal Revenue Code domestic manufacturing deduction.

Six Months Ended June 30, 2017

Net Sales

Net sales in the first six months of 2017 decreased \$120.5 million, or 13.1%, compared to the first six months of 2016. By business segment, prior to the elimination of intercompany sales, sales and related units sold were as follows (dollars in thousands):

Total	200	600	(400)	(66.7)

Commercial Trailer Products segment sales prior to the elimination of intersegment sales were \$622.9 million for the first six months of 2017, a decrease of \$123.3 million, or 16.5%, compared to the first six months of 2016. Trailers shipped during the first six months of 2017 totaled 24,000 trailers compared to 29,350 trailers in the prior year period, an 18.2% decrease, due primarily to lower market demand. The decrease in new trailer shipments compared to the prior year period resulted in \$115.2 million decrease in sales. Parts and service revenue for the six month period of 2017 totaled \$25.8 million, a decrease of \$3.1 million or 10.8% from the prior year period due to fewer retail branch locations in the current year. Used trailer sales decreased \$5.2 million, or 70.8%, compared to the prior year period primarily due to decreased availability through trade packages as 400 fewer used trailers were shipped in the first six months of 2017 compared to the prior year period.

Diversified Products segment sales prior to the elimination of intersegment sales were \$180.7 million for the first six months of 2017, up \$1.6 million, or 0.9%, compared to the same period of 2016. New trailer sales for the first six months of 2017 remained consistent with the prior year period as new trailer shipments during the first half of both 2017 and 2016 totaled 1,050 units. Parts and service sales increased \$6.2 million, or 10.4%, as compared to the prior year period due to strong demand for our composite product offerings. Equipment sales decreased \$4.3 million, or 8.6%, compared to the prior year period as a result of lower demand for our non-trailer products and truck-mounted equipment.

Gross Profit

Gross profit was \$127.0 million in the first six months of 2017, a decrease of \$43.6 million from the prior year period. Gross profit as a percentage of sales was 15.9% for the first six months and 18.6% for the same period in 2016. Gross profit by segment was as follows (dollars in thousands):

	Six Months Ended June 30,			
	2017	2016	Change \$	%

Corporate	(715)	(1,981)	1,266	
Total	\$127,035	\$170,590	\$(43,555)	(25.5)

Commercial Trailer Products segment gross profit was \$93.0 million for the first six months of 2017 compared to \$129.4 million for the prior year period. Gross profit prior to the elimination of intersegment sales, as a percentage of net sales, was 14.9% in 2017 compared to 17.3% in the 2016 period. The decrease in gross profit margin as compared to the prior year period was primarily driven by decreases in new trailer shipments during the first six months as well as higher commodity costs.

Diversified Products segment gross profit was \$34.7 million for the first half of 2017 compared to \$43.1 million in the same period of 2016. Gross profit prior to the elimination of intersegment sales, as a percentage of net sales, was 19.2% in the 2017 period compared to 24.0% in the 2016 period. The decrease in gross profit as a percentage of net sales compared to the prior year period was due primarily driven by product mix, higher commodity costs and lower volume for our non-trailer related equipment and other engineered products.

General and Administrative Expenses

General and administrative expenses for the first six months of 2017 decreased \$0.5 million, or 1.2%, from the prior year period as a result of a \$1.1 million decrease in salaries and employee related costs, including employee incentive programs, offset by an increase in outside services and professional fee expenditures totaling \$0.7 million. As a percentage of sales, general and administrative expenses were 4.7% for the 2017 period as compared to 4.1% for the same period of 2016.

Selling Expenses

Selling expenses were \$12.1 million in the first six months of 2017, a decrease of \$1.9 million, or 13.8%, compared to the prior year period, as a result of a \$1.2 million decrease in salaries and employee related costs, including employee incentive programs, as well as a \$0.7 million decrease in advertising and promotional efforts and travel expenses. As a percentage of net sales, selling expenses were 1.5% for both the 2017 and 2016 periods.

Amortization of Intangibles

Amortization of intangibles was \$8.6 million for the first six months of 2017 compared to \$10.0 million in the prior year period. Amortization of intangibles for both periods were primarily the result of expenses recognized for intangible assets recorded from the acquisition of Walker in May 2012 and the acquisition of certain assets of Beall in February 2013.

Other Income (Expense)

Interest expense for the first six months of 2017 totaled \$5.9 million compared to \$8.0 million in the prior year period. Interest expense for both periods is primarily related to interest and non-cash accretion charges on our Convertible Senior Notes and Term Loan Credit Agreement. The decrease from the prior year period is primarily due to Convertible Senior Notes repurchases completed over the previous twelve months.

Other, net for the first six months of 2017 represented income of \$1.7 million as compared to an expense of \$0.6 million for the prior year period. The current year period primarily consists of a gain on the sale of certain branch assets, partially offset by a loss on debt extinguishment for the refinance of our Term Loan Credit Agreement. The prior year period primarily consists of loss on early extinguishment of debt of \$0.5 million related to the Notes repurchase in February 2016.

Income Taxes

We recognized income tax expense of \$21.6 million in the first six months of 2017 compared to \$35.4 million for the same period in the prior year. The effective tax rate for the first six months of 2017 and 2016 were 33.4% and 35.9%, respectively. These effective tax rates differ from the U.S. Federal statutory rate of 35% primarily due to the impact of state and local taxes offset by the benefit of the U.S. Internal Revenue Code domestic manufacturing deduction and, in 2017, the recognition of excess tax benefits on stock-based compensation.

Liquidity and Capital Resources

Capital Structure

Our capital structure is comprised of a mix of debt and equity. As of June 30, 2017, our debt to equity ratio was approximately 0.5:1.0. Our long-term objective is to generate operating cash flows sufficient to support the growth within our businesses and increase shareholder value. This objective will be achieved through a balanced capital allocation strategy of maintaining strong liquidity, deleveraging our balance sheet, investing in the business, both organically and strategically, and returning capital to our shareholders. For the remainder of 2017, we expect to continue our commitment to fund our working capital requirements and capital expenditures while also returning capital to our shareholders and deleveraging our balance sheet through cash flows from operations as well as available borrowings under our existing Credit Agreement (as defined below).

Debt Agreements and Related Amendments

Convertible Senior Notes

In April 2012, we issued Convertible Senior Notes due 2018 (the “Notes”) with an aggregate principal amount of \$150 million in a public offering. The Notes bear interest at the rate of 3.375% per annum from the date of issuance, payable semi-annually on May 1 and November 1, and mature on May 1, 2018. The Notes are senior unsecured obligations and rank equally with our existing and future senior unsecured debt. We used the net proceeds of \$145.1 million from the sale of the Notes to fund a portion of the purchase price of the acquisition of Walker in May 2012.

The Notes are convertible by their holders into cash, shares of our common stock or any combination thereof at our election, at an initial conversion rate of 85.4372 shares of our common stock per \$1,000 in principal amount of Notes, which is equal to an initial conversion price of approximately \$11.70 per share, only under the following circumstances: (A) before November 1, 2017 (1) during any calendar quarter commencing after the calendar quarter ending on June 30, 2012 (and only during such calendar quarter), if the last reported sale price of the common stock for at least 20 trading days (whether or not consecutive) during a period of 30 consecutive trading days ending on the last trading day of the immediately preceding calendar quarter is greater than or equal to 130% of the conversion price on each applicable trading day; (2) during the five business day period after any five consecutive trading day period (the “measurement period”) in which the trading price (as defined in the indenture for the Notes) per \$1,000 principal amount of Notes for each trading day of the measurement period was less than 98% of the product of the last reported sale price of our common stock and the conversion rate on each such trading day; or (3) upon the occurrence of specified corporate events as described in the indenture for the Notes; and (B) at any time on or after November 1, 2017 until the close of business on the second business day immediately preceding the maturity date.

As of June 30, 2017, we determined that the Notes would be convertible during the calendar quarter ending September 30, 2017 based on criteria in (A) above. If the Notes outstanding at June 30, 2017 had been converted as of June 30, 2017, the if-converted value would exceed the principal amount by approximately \$39 million. It is our intent to settle conversions in cash for both the principal portion and the excess of the conversion value over the principal portion. The Notes mature on May 1, 2018 and are classified as current within the Condensed Consolidated Balance Sheet.

We account separately for the liability and equity components of the Notes in accordance with authoritative guidance for convertible debt instruments that may be settled in cash upon conversion. The guidance requires the carrying amount of the liability component to be estimated by measuring the fair value of a similar liability that does not have an associated conversion feature. We determined that senior, unsecured corporate bonds traded on the market represent a similar liability to the Notes without the conversion option. Based on market data available for publicly traded, senior, unsecured corporate bonds issued by companies in the same industry and with similar maturity, we estimated the implied interest rate of the Notes to be 7.0%, assuming no conversion option. Assumptions used in the estimate represent what market participants would use in pricing the liability component, including market interest rates, credit standing, and yield curves, all of which are defined as Level 2 observable inputs. The estimated implied interest rate was applied to the Notes, which resulted in a fair value of the liability component of \$123.8 million upon issuance, calculated as the present value of implied future payments based on the \$150.0 million aggregate principal amount. The \$21.7 million difference between the cash proceeds before offering expenses of \$145.5 million and the estimated fair value of the liability component was recorded in additional paid-in capital. The discount on the liability portion of the Notes is being amortized over the life of the Notes using the effective interest rate method.

In the second quarter of 2017, we repurchased \$4.0 million in principal of such Notes for \$7.3 million, excluding accrued interest. Additionally, in 2016 we acquired \$82.0 million in principal for \$98.9 million, excluding accrued interest. For the six months ended June 30, 2017 and 2016, we recognized a loss on debt extinguishment of \$0.1 million and \$0.5 million, respectively, for repurchase activity, which is included in *Other, net* on the Condensed Consolidated Statements of Operations.

Revolving Credit Agreement

In June 2015, we entered into a Joinder and First Amendment to Amended and Restated Credit Agreement, First Amendment to Amended and Restated Security Agreement and First Amendment to Amended and Restated Guaranty Agreement (the “Amendment”) by and among us, certain of our subsidiaries designated as Loan Parties (as defined in the Amendment), Wells Fargo Capital Finance, LLC, as arranger and administrative agent (the “Agent”), and the other lenders party thereto. The Amendment amends, among other things, the Amended and Restated Credit Agreement (as amended, the “Credit Agreement”), dated as of May 8, 2012, among us, certain of our subsidiaries from time to time party thereto (together with us, the “Borrowers”), the several lenders from time to time party thereto, and the Agent and provides for, among other things, a five year, \$175 million senior secured revolving credit facility (the “Credit Facility”).

The Amendment, among other things, (i) increases the total commitments under the Credit Facility from \$150 million to \$175 million, and (ii) extends the maturity date of the Credit Facility from May 2017 to June 2020, but provides for an accelerated maturity in the event our outstanding Notes are not converted, redeemed, repurchased or refinanced in full on or before the date that is 121 days prior to the maturity date thereof and we are not then maintaining, and continue to not maintain until the Notes are converted, redeemed, repurchased or refinanced in full, (x) Liquidity of at least \$125 million and (y) availability under the Credit Facility of at least \$25 million. Liquidity, as defined in the Credit Agreement, reflects the difference between (1) the sum of (A) unrestricted cash and cash equivalents and (B) availability under the Credit Facility and (2) the amount necessary to fully redeem the Notes.

In addition, the Amendment (i) provides that borrowings under the Credit Facility will bear interest, at the Borrowers' election, at (x) LIBOR plus a margin ranging from 150 basis points to 200 basis points (in lieu of the previous range from 175 basis points to 225 basis points), or (y) a base rate plus a margin ranging from 50 basis points to 100 basis points (in lieu of the previous range from 75 basis points to 125 basis points), in each case, based upon the monthly average excess availability under the Credit Facility, (ii) provides that the monthly unused line fee shall be equal to 25 basis points (which amount was previously 37.5 basis points) times the average unused availability under the Credit Facility, (iii) provides that if availability under the Credit Facility is less than 12.5% (which threshold was previously 15%) of the total commitment under the Credit Facility or if there exists an event of default, amounts in any of the Borrowers' and the subsidiary guarantors' deposit accounts (other than certain excluded accounts) will be transferred daily into a blocked account held by the Agent and applied to reduce the outstanding amounts under the Credit Facility, (iv) provides that we will be required to maintain a minimum fixed charge coverage ratio of not less than 1.1 to 1.0 as of the end of any period of 12 fiscal months when excess availability under the Credit Facility is less than 10% (which threshold was previously 12.5%) of the total commitment under the Credit Facility and (v) amends certain negative covenants in the Credit Agreement.

On May 3, 2017 we entered into the Second Amendment to Amended and Restated Credit Agreement (the "Second Amendment"). The Second Amendment provides for revisions to the asset sale and lien covenants that conform certain provisions of the Credit Agreement to corresponding provisions of our term loan facility by, among other things, (i) increasing amounts allowed per calendar year for certain asset sales from \$20 million to the greater of \$30 million and 5.0% of consolidated tangible assets, (ii) permitting the proceeds of such increased amount of asset sales to be reinvested in lieu of making mandatory prepayments of indebtedness and (iii) increasing the time permitted for incurring purchase money debt following the acquisition of assets financed thereby from 20 days to 180 days.

The Credit Agreement is guaranteed by certain of the Company's subsidiaries (the "Revolver Guarantors") and is secured by (i) first priority security interests (subject only to customary permitted liens and certain other permitted liens) in substantially all personal property of the Borrowers and the Revolver Guarantors, consisting of accounts receivable, inventory, cash, deposit and securities accounts and any cash or other assets in such accounts and, to the extent evidencing or otherwise related to such property, all general intangibles, licenses, intercompany debt, letter of credit rights, commercial tort claims, chattel paper, instruments, supporting obligations, documents and payment intangibles (collectively, the "Revolver Priority Collateral"), and (ii) second-priority liens on and security interests in (subject only to the liens securing the Term Loan Credit Agreement (as defined below) customary permitted liens and certain other permitted liens) (A) equity interests of each direct subsidiary held by the Borrower and each Revolver Guarantor

(subject to customary limitations in the case of the equity of foreign subsidiaries), and (B) substantially all other tangible and intangible assets of the Borrowers and the Revolver Guarantors including equipment, general intangibles, intercompany notes, insurance policies, investment property, intellectual property and material owned real property (in each case, except to the extent constituting Revolver Priority Collateral) (collectively, the “Term Priority Collateral”). The respective priorities of the security interests securing the Credit Agreement and the Term Loan Credit Agreement are governed by an Intercreditor Agreement between the Revolver Agent and the Term Agent (as defined below) (the “Intercreditor Agreement”).

Subject to the terms of the Intercreditor Agreement, if the covenants under the Credit Agreement are breached, the lenders may, subject to various customary cure rights, require the immediate payment of all amounts outstanding and foreclose on collateral. Other customary events of default in the Credit Agreement include, without limitation, failure to pay obligations when due, initiation of insolvency proceedings, defaults on certain other indebtedness, and the incurrance of certain judgments that are not stayed, satisfied, bonded or discharged within 30 days.

As of June 30, 2017, we were in compliance with all covenants of the Credit Agreement.

Term Loan Credit Agreement

In May 2012 we entered into a credit agreement among us, the several lenders from time to time party thereto, Morgan Stanley Senior Funding, Inc., as administrative agent, joint lead arranger and joint bookrunner (the “Term Agent”), and Wells Fargo Securities, LLC, as joint lead arranger and joint bookrunner (the “Term Loan Credit Agreement”), which initially provided, among other things, for a senior secured term loan facility of \$300 million. Also in May 2012, certain of our subsidiaries (the “Term Guarantors”) entered into a general continuing guarantee of our obligations under the Term Loan Credit Agreement in favor of the Term Agent (the “Term Guarantee”).

In April 2013, we entered into Amendment No.1 to Credit Agreement (the “Amendment No. 1”), which became effective on May 9, 2013. As of the Amendment No. 1 date, \$297.0 million of term loans were outstanding under the Term Loan Credit Agreement (the “Initial Loans”), of which we paid \$20.0 million in connection with Amendment No. 1. Under Amendment No. 1, the lenders agreed to provide us term loans in an aggregate principal amount of \$277.0 million, which were exchanged for and used to refinance the Initial Loans (the “Tranche B-1 Loans”).

In March 2015, we entered into Amendment No. 2 to Credit Agreement (“Amendment No. 2”). As of the Amendment No. 2 date, \$192.8 million of the Tranche B-1 Loans were outstanding. Under Amendment No. 2, the lenders agreed to provide to us term loans in an aggregate principal amount of \$192.8 million (the “Tranche B-2 Loans”), which were used to refinance the outstanding Tranche B-1 Loans. The Tranche B-2 Loans mature in March 2022, but provide for an accelerated maturity in the event our outstanding Notes are not converted, redeemed, repurchased or refinanced in full on or before the date that is 91 days prior to the maturity date thereof and we are not then maintaining, and continue to not maintain until the Notes are converted, redeemed, repurchased or refinanced in full, liquidity of at least \$125 million. Liquidity, as defined in the Term Loan Credit Agreement, reflects the difference between (i) the sum of (A) unrestricted cash and cash equivalents and (B) the amount available and permitted to be drawn under our existing Credit Agreement and (ii) the amount necessary to fully redeem the Notes. The Tranche B-2 Loans shall amortize in equal quarterly installments in aggregate amounts equal to 0.25% of the original principal amount of the Tranche B-2 Loans, with the balance payable at maturity, and will bear interest at a rate, at our election, equal to (x) LIBOR (subject to a floor of 1.00%) plus a margin of 3.25% or (y) a base rate plus a margin of 2.25%.

Amendment No. 2 also amended the Term Loan Credit Agreement by (i) removing the maximum senior secured leverage ratio test, (ii) modifying the accordion feature, as described in the Term Loan Credit Agreement, to provide for a senior secured incremental term loan facility in an aggregate amount not to exceed the greater of (A) \$75 million (less the aggregate amount of (1) any increases in the maximum revolver amount under the existing Credit Agreement and (2) certain permitted indebtedness incurred for the purpose of prepaying or repurchasing the Notes) and (B) an amount such that the senior secured leverage ratio would not be greater than 3.0 to 1.0, subject to certain conditions, including obtaining commitments from any one or more lenders, whether or not currently party to the Term Loan Credit Agreement, to provide such increased amounts, and (iii) amending certain negative covenants. The senior secured leverage ratio is defined in the Term Loan Credit Agreement and reflects a ratio of consolidated net total secured indebtedness to consolidated EBITDA.

Furthermore, on February 24, 2017, we entered into Amendment No. 3 to Credit Agreement (“Amendment No. 3”). As of February 24, 2017, \$189.5 million of the Tranche B-2 Loans were outstanding. Under Amendment No. 3, the lenders agreed to provide term loans in the same aggregate principal amount of the outstanding Tranche B-2 Loans (the “Tranche B-3 Loans”), which were used to refinance the outstanding Tranche B-2 Loans. The Tranche B-3 Loans shall amortize in equal quarterly installments, in aggregate amounts equal to 0.25% of the initial principal amount of the Tranche B-3 Loans, with the balance payable at maturity, and will bear interest at a rate, at the Company’s election, equal to (i) LIBOR (subject to a floor of 0%) plus a margin of 2.75% or (ii) a base rate (subject to a floor of 0%) plus a margin of 1.75%. Amendment No. 3 also provides for a 1% prepayment premium applicable in the event we enter into a refinancing of, or amendment in respect of, the Tranche B-3 Loans on or prior to the six month anniversary of the effective date of Amendment No. 3 that, in either case, results in the all-in yield (including, for purposes of such determination, the applicable interest rate, margin, original issue discount, upfront fees and interest rate floors, but excluding any customary arrangement, structuring, commitment or underwriting fees) of such refinancing or amendment being less than the all-in yield (determined on the same basis) on the Tranche B-3 Loans. Except as amended by Amendment No. 3, the remaining terms of the Credit Agreement remain in full force and effect.

The Term Loan Credit Agreement, as amended, is guaranteed by the Term Guarantors and is secured by (i) first-priority liens on and security interests in the Term Priority Collateral, and (ii) second-priority security interests in the Revolver Priority Collateral. In addition, the Term Loan Credit Agreement, as amended, contains customary covenants limiting our ability to, among other things, pay cash dividends, incur debt or liens, redeem or repurchase stock, enter into transactions with affiliates, merge, dissolve, pay off subordinated indebtedness, make investments and dispose of assets.

Subject to the terms of the Intercreditor Agreement, if the covenants under the Term Loan Credit Agreement, as amended, are breached, the lenders may, subject to various customary cure rights, require the immediate payment of all amounts outstanding and foreclose on collateral. Other customary events of default in the Term Loan Credit Agreement, as amended, include, without limitation, failure to pay obligations when due, initiation of insolvency proceedings, defaults on certain other indebtedness, and the incurrence of certain judgments that are not stayed, satisfied, bonded or discharged within 60 days.

For the six months ended June 30, 2017 and 2016, under the Term Loan Credit Agreement, we paid interest of \$3.8 million and \$4.2 million, respectively, and principal of \$0.9 million and \$1.0 million, respectively. We recognized a loss on debt extinguishment of \$0.6 million during the first quarter of 2017 in connection with Amendment No. 3, which was included in *Other, net* on the Company's Condensed Consolidated Statements of Operations. As of June 30, 2017, we had \$188.5 million outstanding under the Term Loan Credit Agreement, of which \$1.9 million was classified as current on the Condensed Consolidated Balance Sheet.

For each six month period ended June 30, 2017 and 2016 we incurred charges of less than \$0.1 million for amortization of fees and original issuance discount, which is included in *Interest Expense* in the Condensed Consolidated Statements of Operations.

Cash Flow

Cash provided by operating activities for the first six months of 2017 totaled \$75.2 million, compared to \$76.3 million during the same period in 2016. Cash provided by operations during the current year period was the result of net income adjusted for various non-cash activities including depreciation, amortization, deferred income taxes, stock-based compensation, non-cash interest expense, loss on debt extinguishment, and a \$9.2 million decrease in working capital. Decreases in working capital for the current year period can be attributed primarily to lower accounts receivable from strong customer collections and increases in accounts payable and accrued liabilities offset by an increase in finished goods inventory. Changes in key working capital accounts for the first six months of 2017 as compared to the same period in 2016 are summarized below (in thousands):

Source (Use) of cash:	2017	2016	Change
Accounts receivable	\$30,656	\$20,873	\$9,783
Inventories	(60,748)	(46,034)	(14,714)
Accounts payable and accrued liabilities	35,285	25,154	10,131
Net source (use) of cash	5,193	(7)	5,200

Accounts receivable decreased by \$30.7 million in the first six months of 2017 as compared to a decrease of \$20.9 million in the prior year period. Days sales outstanding, a measure of working capital efficiency that measures the amount of time a receivable is outstanding, was 26 days in 2017 as compared to 25 days in the same period in 2016. The decrease in accounts receivable during the first six months of 2017 was primarily due to strong customer collections during the quarter. Inventory increased by \$60.7 million during the first six months of 2017 as compared to an increase of \$46.0 million in the 2016 period. The increase in inventory for the 2017 period was primarily due to higher finished goods inventory resulting from production levels exceeding shipments for the first six months of 2017. Our inventory turns, a measure of working capital efficiency that measures how quickly inventory turns per year, was approximately eight times in the 2017 and 2016 periods. Accounts payable and accrued liabilities increased by \$35.3 million in 2017 compared to an increase of \$25.2 million for the same period in 2016. The increase during the first six months of 2017 was primarily due to continued strong production levels and purchasing activities required to meet current demand. Days payable outstanding, a measure of working capital efficiency that measures the amount of time a payable is outstanding, was 27 days in 2017 as compared to 26 days in the same period in 2016.

Investing activities used \$5.9 million during the first six months of 2017, and used \$8.1 million in the same period in 2016. Investing activities for the first six months of 2017 include capital expenditures of \$10.9 million offset by proceeds from the sale of certain former branch location assets totaling \$4.9 million.

Financing activities used \$54.2 million during the first six months of 2017 as compared to \$59.4 million used in the same period in 2016. Cash used in financing activities during the current year period primarily relates to common stock repurchases through our share repurchase program of \$38.5 million, cash dividends paid to our shareholders and

holders of our Notes of \$7.8 million, and the repurchase of Notes totaling \$7.3 million offset by proceeds from the exercise of stock options of \$5.6 million. Cash used in financing activities in the first six months of 2016 primarily relates to the repurchase of Notes totaling \$42.1 million and common stock repurchases through our share repurchase program of \$15.9 million.

As of June 30, 2017, our liquidity position, defined as cash on hand and available borrowing capacity, amounted to \$348.2 million, representing a decrease of \$8.7 million compared to June 30, 2016 and an increase of \$15.2 million compared to December 31, 2016. Total debt and capital lease obligations amounted to \$233.5 million as of June 30, 2017. As we continue to see a strong demand environment within the trailer industry and excellence in operational performance across our business, we believe our liquidity is adequate to fund our currently planned operations, working capital needs and capital expenditures for the remainder of 2017.

Capital Expenditures

Capital spending amounted to \$10.9 million for the first six months of 2017 and is anticipated to be in the range of \$30 million to \$35 million for 2017. Capital spending for 2017 has been and is expected to continue to be primarily utilized to support growth, maintenance, productivity improvements, and environmental, health and safety initiatives within our facilities.

Off-Balance Sheet Transactions

As of June 30, 2017, we had approximately \$5.2 million in operating lease commitments. We did not enter into any material off-balance sheet debt or operating lease transactions during the quarter ended June 30, 2017.

Contractual Obligations and Commercial Commitments

A summary of payments of our contractual obligations and commercial commitments, both on and off balance sheet, as of June 30, 2017 for the remaining six months of 2017, and the calendar years thereafter are as follows (in thousands):

Scheduled payments for our Credit Facility exclude interest payments as rates are variable. Borrowings under the Credit Facility bear interest at a variable rate based on the London Interbank Offer Rate (LIBOR) or a base rate determined by the lender's prime rate plus an applicable margin, as defined in the agreement. Outstanding borrowings under the Credit Facility bear interest at a rate, at our election, equal to (i) LIBOR plus a margin ranging from 1.50% to 2.00% or (ii) a base rate plus a margin ranging from 0.50% to 1.00%, in each case depending upon the monthly average excess availability under the Credit Facility. We are required to pay a monthly unused line fee equal to 0.25% times the average daily unused availability along with other customary fees and expenses of our agent and lenders.

Scheduled payments for our Notes exclude interest payments. The Notes bear interest at the rate of 3.375% per annum from the date of issuance, payable semi-annually on May 1 and November 1.

Scheduled payments for our Term Loan Credit Agreement, as amended, exclude interest payments as rates are variable. Borrowings under the Term Loan Credit Agreement, as amended, bear interest at a variable rate, at our election, equal to (i) LIBOR (subject to a floor of 0.00%) plus a margin of 2.75% or (ii) a base rate plus a margin of 1.75%. The Term Loan Credit Agreement matures in March 2022, but provides for an accelerated maturity in the event our outstanding Notes are not converted, redeemed, repurchased or refinanced in full on or before the date that is 91 days prior to the maturity date thereof and we are not then maintaining, and continue to maintain until the Notes are converted, redeemed, repurchased or refinanced in full, liquidity of at least \$125 million.

Capital leases represent future minimum lease payments including interest. Operating leases represent the total future minimum lease payments.

We have standby letters of credit totaling \$5.4 million issued in connection with workers compensation claims and surety bonds.

We have \$37.9 million in purchase commitments through March 2018 for various raw material commodities, including aluminum, steel and nickel as well as other raw material components which are within normal production requirements.

Backlog

Orders that have been confirmed by customers in writing and can be produced during the next 18 months are included in our backlog. Orders that comprise our backlog may be subject to changes in quantities, delivery, specifications and terms. Our backlog of orders was \$762 million at June 30, 2017 compared to \$802 million at December 31, 2016 and \$860 million at June 30, 2016. We expect to complete the majority of our existing backlog orders within the next 12 months.

OUTLOOK

The demand environment for trailers remained strong through the first six months of 2017, as evidenced by our strong backlog, a trailer demand forecast by industry forecasters above replacement demand levels for the next several years, and our ability to maintain strong margins. Recent estimates from industry analysts, ACT Research Company (“ACT”) and FTR Associates (“FTR”), forecast trailer demand for 2017 and beyond to remain healthy. ACT currently estimates trailer shipments to be approximately 276,000 trailers for 2017, representing a decrease of 3.4% as compared to 2016, and forecasting continued demand levels to be above replacement demand into the foreseeable future with estimated demand for 2018 to be approximately 258,000 and annual average demand for the four year period ending 2022 to be approximately 261,000 new trailers. FTR anticipates new trailer production to be approximately 274,000 new trailers in 2017, representing a decrease of 2.8% as compared to 2016 as well as projecting an increase in 2018 with production totaling 285,000 trailers. In spite of a strong forecasted demand environment, there remain downside risks relating to issues with both the domestic and global economies, including the housing, energy and construction-related markets in the U.S.

Other potential risks we face for the remainder of 2017 and into 2018 will primarily relate to our ability to effectively manage our manufacturing operations as well as the cost and supply of raw materials, commodities and components. Significant increases in the cost of certain commodities, raw materials or components could have an adverse effect on our results of operations. As has been our practice, we will endeavor to pass raw material and component price increases to our customers in addition to continuing our cost management and hedging activities in an effort to minimize the risk changes in material costs could have on our operating results. In addition, we rely on a limited number of suppliers for certain key components and raw materials in the manufacturing of our products, including tires, landing gear, axles, suspensions, aluminum extrusions and specialty steel coil. At the current and expected demand levels, there may be shortages of supplies of raw materials or components which would have an adverse impact on our ability to meet demand for our products.

We believe we remain well-positioned for long-term success in the trailer industry because: (1) our core customers are among the dominant participants in the trucking industry; (2) our DuraPlate® and other industry leading brand trailers continue to have a strong market acceptance; (3) our focus is on developing solutions that reduce our customers' trailer maintenance and operating costs providing the best overall value; and (4) our presence throughout North America utilizing both our extensive independent dealer network in addition to the Company-owned branch locations to market and sell our products.

Based on the published industry demand forecasts, customer feedback regarding their current requirements, our existing backlog of orders and our continued efforts to be selective in our order acceptance to ensure we obtain appropriate value for our products, we estimate that for the full year 2017 total new trailers shipped to be in the range of 53,000 to 56,000 units, which reflects trailer volumes 8% to 13% lower than 2016 demand levels and is slightly more than the decrease in demand as projected by industry forecasters for the overall trailer market. Combining our expectations that trailer demand will remain historically strong throughout the year and our focus on continued productivity and cost optimization initiatives through all of our businesses, we expect to see strong operational performance throughout the remainder of 2017.

We believe our corporate strategy to continue our transformation into a diversified industrial manufacturer will provide us the opportunity to address new markets, enhance our financial profile and reduce the impact of cyclicality within our business. While demand for some of these products is dependent on the development of new products, customer acceptance of our product solutions and the general expansion of our customer base and distribution channels, we remain committed to enhancing and diversifying our business model through the organic and strategic initiatives. Through our two operating segments we offer a wide array of products and customer-specific solutions that we believe provide a good foundation for achieving these goals. In addition, we have been and will continue to focus on developing innovative new products that both add value to our customers' operations and allow us to continue to differentiate our products in the marketplace.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

We have included a summary of our Critical Accounting Policies and Estimates in our annual report on Form 10-K for the year ended December 31, 2016. There have been no material changes to the summary provided in that report.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISKS

In addition to the risks inherent in our operations, we have exposure to financial and market risk resulting from volatility in commodity prices, interest rates and foreign exchange rates. The following discussion provides additional detail regarding our exposure to these risks.

Commodity Prices

We are exposed to fluctuation in commodity prices through the purchase of various raw materials that are processed from commodities such as aluminum, steel, lumber, nickel, copper and polyethylene. Given the volatility of certain commodity prices, this exposure can significantly impact product costs. We manage some of our commodity price changes by entering into fixed price contracts with our suppliers. As of June 30, 2017, we had \$37.9 million in raw material purchase commitments through March 2018 for materials that will be used in the production process, as compared to \$57.8 million as of December 31, 2016. We typically do not set prices for our products more than 45-90 days in advance of our commodity purchases and can, subject to competitive market conditions, take into account the cost of the commodity in setting our prices for each order. To the extent that we are unable to offset the increased commodity costs in our product prices, our results would be materially and adversely affected.

Interest Rates

As of June 30, 2017, we had no floating rate debt outstanding under our Credit Facility. During the three month period ended June 30, 2017, we maintained an average floating rate borrowing level of less than \$0.1 million under our Credit Facility. In addition, as of June 30, 2017, we had outstanding borrowings under our Term Loan Credit Agreement, as amended, totaling \$188.5 million that bear interest at a floating rate. Based on the average borrowings under our Credit Facility and the outstanding indebtedness under our Term Loan Credit Agreement, a hypothetical 100 basis-point change in the floating interest rate would result in a corresponding change in interest expense over a one-year period of \$1.9 million. This sensitivity analysis does not account for the change in the competitive environment indirectly related to the change in interest rates or the potential managerial action taken in response to these changes.

Foreign Exchange Rates

We are subject to fluctuations in the British pound sterling and Mexican peso exchange rates that impact transactions with our foreign subsidiaries, as well as U.S. denominated transactions between these foreign subsidiaries and unrelated parties. A five percent change in the British pound sterling or Mexican peso exchange rates would have an immaterial impact on our results of operations. We do not hold or issue derivative financial instruments for speculative purposes.

ITEM 4. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Based on an evaluation under the supervision and with the participation of the Company's management, the Company's principal executive officer and principal financial officer have concluded that the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) were effective as of June 30, 2017.

Changes in Internal Controls over Financial Reporting

There were no changes in the Company's internal control over financial reporting, as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act, during the second quarter of fiscal year 2017 that have materially affected or are reasonably likely to materially affect the Company's internal control over financial reporting.

PART II - OTHER INFORMATION**ITEM 1. LEGAL PROCEEDINGS**

See Item 3 of Part I of our Annual Report on Form 10-K for the year ended December 31, 2016. See also Note 6, “Contingencies”, to our unaudited condensed consolidated financial statements included elsewhere in this Quarterly Report.

ITEM 1A. RISK FACTORS

You should carefully consider the risks described in our Annual Report on Form 10-K, for the year ended December 31, 2016, including those under the heading “Risk Factors” appearing in Item 1A of Part I of the Form 10-K and other information contained in this Quarterly Report before investing in our securities. Realization of any of these risks could have a material adverse effect on our business, financial condition, cash flows and results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS**Purchases of Our Equity Securities**

For the quarter ended June 30, 2017, we repurchased a total of 1,239,837 shares pursuant to our repurchase program. Additionally, during this period there were 4,285 shares repurchased to cover minimum employee tax withholding obligations upon the vesting of restricted stock awards.

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs ⁽²⁾	Maximum Amount That May Yet Be Purchased Under the Plans or Programs (\$ in millions)
April 2017	226,921	⁽¹⁾ \$ 20.53	222,636	\$ 105.9

Total	1,244,122	\$ 21.03	1,239,837	\$ 84.4

- (1) 4,285 shares were repurchased to cover minimum employee withholding obligations upon the vesting of restricted stock awards.

- (2) The Company's share repurchase program was announced on February 2, 2016, effective February 23, 2016. On February 24, 2017, the Company announced that the Board of Directors approved the repurchase of an additional \$100 million in shares of common stock over a two year period. Stock repurchases under this program may be made in the open market or in private transactions at times and in amounts that management deems appropriate.
