04.05.2007 07:47:36 Marked=OB Utsteder=Telenor ASA Instrument=TEL **TELENOR ASA FIRST QUARTER 2007 RESULTS** delårsresultat

In the first quarter of 2007, Telenor's revenues increased by 5 per cent compared to the first quarter of 2006, reaching NOK 22.4 billion. The underlying revenue growth was 12 per cent. EBITDA before other income and expenses was NOK 7.1 billion while profit before taxes was NOK 4.2 billion.

**HIGHLIGHTS FIRST QUARTER 2007**

Revenue growth of 5% underlying growth of 12%  
EBITDA margin before other income and expenses of 32%  
Telenor Pakistan reaching break-even on EBITDA  
Cost savings in Fixed Norway on track

**OUTLOOK FOR 2007**

Based upon the current group structure and assuming that the majority owned operation Kyivstar is not consolidated in 2007: We expect a growth in reported revenues of between 3% and 5%. The EBITDA margin before other income and expenses is expected to be around 32%. We expect capital expenditure as a proportion of revenues to be around 20%, mainly driven by high subscription growth within our mobile operations in emerging markets. A growing share of Telenor's revenues and profits is derived from operations outside Norway. Currency fluctuations may to an increasing extent influence the reported figures in Norwegian Krone. Political risk, including regulatory conditions, may also influence the profits. We expect seasonal variations between the quarters.

The situation in Kyivstar, as described in Telenor's annual report, has continued during the first quarter of 2007. Since Telenor has not received financial information from Kyivstar during the first quarter of 2007, Kyivstar is presented in one line in the balance sheet under Investment in Kyivstar, with the same value as of 31 December 2006, adjusted for currency effects.

Telenor has entered into an agreement with Tele2 for the acquisition of its subsidiary Tele2 Denmark for a price representing an enterprise value of DKK 835 million.

Tele2 Denmark had, as of year end 2006, 227,000\* mobile customers, including 100,000 post-paid subscribers, 75,000 broadband customers, 206,000 fixed-line customers. This acquisition boosts Telenor's Danish mobile market share from 23.3 to 27.3\*\* percent and broadband market share from 10 to 14 percent. With the acquisition of Tele2 in Denmark, and good underlying growth in the existing business, Telenor Denmark maintains its aim of growing faster than the rest of the market.

The transaction is subject to approval from the Danish competition authorities. After completion of the transaction, the operation of the company will be run under the existing brand name during a transitional period. Tele2 Denmark, which has approximately 60 employees, will become a part of the Telenor group Danish operation.

On 11 May 2007, Telenor East Invest entered into an amendment to its total return equity swap agreement with ING Bank, enabling Telenor to purchase and take physical ownership of 7,666,900 of the ADRs purchased by ING under their total return equity swap agreement, giving Telenor 29.9% of the voting stock in Russian mobile operator VimpelCom and 33.6% of VimpelCom's common stock.

On 11 May 2007, Telenor East Invest entered into an amendment to its total return equity swap agreement with ING Bank, enabling Telenor to purchase and take physical ownership of 7,666,900 of the ADRs purchased by ING under their total return equity swap agreement, giving Telenor 29.9% of the voting stock in Russian mobile operator VimpelCom and 33.6% of VimpelCom's common stock. Telenor believes this transaction will increase the likelihood of three or more of its nominees to the Board of Directors of VimpelCom being elected to the Board at VimpelCom's annual general meeting of shareholders to be held June 29, 2007.

Under the Total Return Equity Swap Agreement between Telenor ASA and ING Bank, Telenor had economic exposure to up to 3.522% percent of the shares in Russian mobile operator VimpelCom. Telenor has also agreed to extend the swap agreement until June 2, 2008 to cover the remaining 447,400 ADRs acquired by ING pursuant to the original agreement. This amendment entitled Telenor to purchase from ING 7,666,900 VimpelCom ADRs (equivalent to 1,916,725 shares of the common stock) for a price per ADR of USD 97.15261 (USD 744,859,345.60 in aggregate). The extended swap agreement will not provide Telenor with any voting or investment rights over the remaining 447,400 VimpelCom ADRs.

Through its direct ownership of shares and ADRs, as well as its remaining economic exposure to ADRs under the extended swap agreement, Telenor will now have economic exposure to 33.8% of VimpelCom's common stock. On 11 May 2007, Telenor filed an amendment to its filing on Schedule 13D with the United States Securities and Exchange Commission in which Telenor described the terms of the amendment and the extension of the swap transaction. A copy of Telenor's amendment agreement with ING Bank N.V. is attached as an exhibit to that filing.
