Net sales decreased by 9.7% to \$4.1 million in the Company's plastic segment and increased by 20.3% to \$4.3 million in the electronic segment. Gross profit margin in the plastic segment increased to 25.6% of net sales for the fourth quarter of fiscal 2016 compared to 22.8% of net sales for the same quarter of last fiscal year. The increase in gross profit and margin in the plastic segment was mainly due to a decrease in factory overheads as a percentage of sales offsetting an increase in raw materials cost. The improvement in gross profit and margin in the electronic segment was mainly attributed to decreases in labor cost and factory overheads as a percentage of sales, offsetting an increase in raw materials cost.

The Company reported a net loss of \$1.2 million for the fourth quarter ended March 31, 2016 compared to a net income of \$0.01 million for the quarter ended March 31, 2015. Deswell reported basic and diluted loss per share of (\$0.072) for the fourth quarter of fiscal 2016 (based on 16,056,000 and 16,056,000 weighted average shares outstanding, respectively), compared to basic and diluted income per share of \$0.001 (based on 16,056,000 and 16,056,000 weighted average shares outstanding, respectively), for the quarter ended March 31, 2015.

The Company's balance sheet remained strong at the end of the fourth quarter of fiscal 2016, with \$12.0 million in cash and cash equivalents at March 31, 2016 compared to \$14.3 million at March 31, 2015. Working capital totaled \$39.9 million as of March 31, 2016, versus \$45.9 million as of March 31, 2015. Furthermore, the Company has no long-term or short-term borrowings as of March 31, 2016.

Mr. Edward So, Chief Executive Officer, commented, "During the fourth quarter we saw increased revenues, primarily driven by continued growth in our electronics division and we achieved enhanced margin performance in both our electronics and our plastics segments. We've increased our focus on the ODM business and have had success in identifying and capturing opportunities in adjacent markets. The marketplace remains challenging, particularly as product life cycles continue to shorten and we're working closely with our customers and accelerating our R&D efforts to ensure that products are going to market as quickly as possible. Our balance sheet remains strong, providing a solid foundation for the continued growth of our business."

Fourth Quarter Dividends

The Company also announced that on June 24, 2016 its board of directors declared a cash dividend of \$0.035 per share for the fiscal fourth quarter ended March 31, 2016. The dividend will be payable on July 27, 2016 to shareholders of record as of July 7, 2016.

Forward-Looking Statements

Statements in this press release that are “forward-looking statements” are based on current expectations and assumptions that are subject to risks and uncertainties. For example, our statements regarding our expected growth in sales from the electronic division in the coming year and our efforts to reduce overhead costs in our plastic division are forward-looking statements. Actual results could differ materially because of the following factors, among others, which may cause revenues and income to fall short of anticipated levels or our overhead expenses to increase: our dependence on a few major customers; vigorous competition forcing product price reductions or discounts; the timing and amount of significant orders from our relatively few significant customers; continuing increases in resin prices that cannot be passed on to customers; unexpected production delays; obsolete inventory or product returns; losses resulting from fraudulent activity of our customers or employees; labor shortages that increase labor and costs; changes in the mix of product products we manufacture and sell; adverse currency fluctuations in the renminbi and Hong Kong dollar when translated to US dollars; potential new accounting pronouncements; and the effects of travel restrictions and quarantines associated with major health problems, such as the Severe Acute Respiratory Syndrome, on general economic activity.

For further information regarding risks and uncertainties associated with the Company’s business, please refer to the “Risk Factors” section of Company’s Annual Report on Form 20-F, copies of which may be obtained from the Website maintained by the Securities and Exchange Commission at <http://www.sec.gov>.

All information in this release is made as of the date of this press release. Deswell undertakes no duty to update any forward-looking statement to conform the statement to actual results or changes in Deswell’s expectations.
