 - Financial Activity results were R\$ 390 million, a 17.5% increase over results for 1Q03.
 - The Insurance Group (Insurance, Private Pension Plan and Savings Bond companies) contributed with results of R\$ 104 million
 - The results of other activities totaled R\$ 25 million.
- The financial margin was R\$ 2.617 million, a decrease of 22.3% as compared to 1Q03.
- Operating Income was R\$ 859 million, down by 24.6% in comparison with 1Q03.
- Consolidated Assets amounted to R\$ 154,489 million, a growth of 6.5% as compared to 1Q03.
- The Basel capital adequacy ratio was 16.4% on a consolidated financial basis and 14.5% on a total consolidated basis, compared to 19.7% and 17.1% respectively, in 1Q03.
- The permanent assets to stockholders' equity ratio was 43.9% on a consolidated financial basis and 31.6% on a total consolidated basis, compared to 42.5% and 31.3%, respectively in 1Q03.

2. Analysis of Consolidated Results

2.1 Income from Lending and Trading activities

Income from Credit and Leasing Operations totaled R\$ 2,751 million, down by 8.7% as compared to 1Q03. This decrease mainly reflects: (i) negative exchange variation of 14.35% in 2Q03 compared to 5.10% in 1Q03, impacting U.S. dollar-denominated or dollar-indexed operations.

Results of Securities and Financial Derivative Instrument Operations totaled R\$ 634 million, a decrease of 70.7% compared with 1Q03. The decrease was mainly generated by negative exchange variation in 2Q03, impacting securities denominated or indexed in U.S. dollars and derivative financial instruments, used to hedge operations. In addition, the positive impact verified in 1Q03, as a result of market recovery, was not repeated.

Financial Income on Insurance, Private Pension Plans and Savings Bonds totaled R\$ 1,172 million, down by 18.7% in comparison with 1Q03. This variation was mainly generated by: (i) the downturn in IGPM-indexed securities; (ii) non-repetition in 2Q03 of the positive impact

Edgar Filing: BANK BRADESCO - Form 6-K

following the market recovery verified in 1Q03; partially offset by (iii) the increase in the volume of securities subject to technical reserves.

Results of Foreign Exchange were R\$ 169 million, up by 70.7% over 1Q03. This account should be analyzed net of foreign funding expenses used to finance import/export operations. Net of these deductions, results would total R\$ 72 million in 1Q03 and R\$ 106 million in 2Q03, as a result of the increase in foreign exchange portfolio volume.

2.2 Expenses for Lending and Trading Activities

Interest and charges on deposits totaled R\$ 1,826 million, down by 31.6% compared to 1Q03. This downturn mainly reflects negative exchange variation in 2Q03, particularly impacting securities issued abroad.

Price-level Restatement and Interest on Technical Reserves for Insurance, Private Pension Plans and Savings Bonds totaled R\$ 756 million, down by 16.2% in comparison with 1Q03. The variation was mainly generated by: (i) the downturn in IGPM-indexed reserves; (ii) non-repetition in 2Q03 of the positive impact following market recovery verified in 1Q03, affecting assets subject to technical reserves, reflected accordingly, partially offset by the increase in the volume of technical reserves.

Expenses for borrowings and onlendings were R\$ 103 million against R\$ 141 million in 1Q03. This decrease was substantially generated by negative exchange variation on foreign borrowings and onlendings.

Expenses for provision for loan losses totaled R\$ 586 million, 27.6% less than in 1Q03. Excluding the additional provisions of R\$ 298 million and R\$ 14 million, recorded in 1Q03 and 2Q03, respectively, there is an increase of R\$ 63 million.

2.3 Financial Margin

Financial margin totaled R\$ 2,617 million, down by 22.3% in comparison with 1Q03. The decrease in this margin reflects the increase in the compulsory deposit rate, greater negative exchange variation in 2Q03 and non-repetition in 2Q03 of the positive impact following market recovery verified in 1Q03. The annualized financial margin on average total assets decreased from 9.7% in 1Q03 to 7.2% in 2Q03. Adjusting the additional provision for market risk fluctuation recorded/reversed for these periods, the annualized financial margin would be 10.2% and 8.1%, respectively.

2.4 Other Operating Income and Expenses

Income on Commissions and Fees totaled R\$ 1,080 million in 2Q03, up by 6.6% compared with 1Q03. Growth for the quarter reflects increased revenue from: (i) income on fund management R\$ 23 million; (ii) checking accounts R\$ 15 million, mainly maintenance charges; (iii) credit operations R\$ 13 million, mainly from contracting and opening of credit; (iv) the consolidation of BBV Banco R\$ 10 million; (v) collection - R\$ 5 million, offset by decreased revenue from (vi) credit cards R\$ 8 million.

Income on Insurance Premiums, Private Pension Plans and Savings Bonds totaled R\$ 2,909 million in 2Q03, a 5% increase over 1Q03. This variation was mainly derived from an increase in auto-line sales and savings bonds.

Variation in Technical Reserves for Insurance, Pension Plans and Savings Bonds totaled R\$ 737 million in 2Q03, a decrease of 25.4% compared to 1Q03. This variation was generated by: (i) fewer supplementary pension plan product sales in 2Q03; offset by (ii) increased sales of auto-line products and savings bond certificates.

Insurance Claims were R\$ 1,237 million, up by 21.4% compared to 1Q03. The increase in claims was mainly generated by: (i) increased Life and VGBL insurance premium redemptions, as well as the lengthening of the provision for claims incurred but not reported (IBNR) from 6 to 12 months in the health line and to a lesser degree: (ii) the increase in Auto-line claims

Personnel Expenses for the quarter were R\$ 1,148 million, increasing by 9% over 1Q03. This increase was generated mainly by: (i) increased expenses for benefits R\$ 36 million; (ii) an increase in the number of employees, following the consolidation of BBV Banco, with expenses of R\$ 29 million; (iii) training R\$ 10 million; and (iv) lower expenses as a result of the concentration of vacation pay in 1Q03.

Administrative Expenses for the quarter were R\$ 1,153 million, corresponding to an increase of 4.7% in comparison with 1Q03. The increase for this quarter reflects increased expenses for: (i) consolidation of BBV Banco - R\$ 31 million; (ii) publicity and advertising - R\$ 11 million; and (iii) third-party services R\$ 9 million.

2.5 Operating Income

Edgar Filing: BANK BRADESCO - Form 6-K

Operating income was R\$ 859 million, down 24.6% compared to 1Q03. This oscillation was mainly generated by: (i) negative variation in financial margin; (ii) increase in personnel and administrative expenses; partially offset by (iii) reversal of provisions, mainly for exchange variation; (iv) decrease in expenses for PDD; and (v) increase in income from commissions and fees.

2.6 Taxes and Contributions

Taxes and contributions paid and accrued, including social security contributions, totaled R\$750 million, corresponding to 1.44 times net income for 2Q03. In 1Q03, taxes and contributions were equivalent to 1.74 times net income.

 - The Insurance Group (Insurance, Private Pension Plan and Savings Bond companies) contributed with results of R\$ 260 million.

- The permanent assets to stockholders' equity ratio was 43.9% on a consolidated financial basis and 31.6% on a total consolidated basis, compared to 56.1% and 46.6%, respectively in 1H02.

2. Analysis of Consolidated Results

2.1 Income from Lending and Trading activities

Income from Credit and Leasing Operations totaled R\$ 5,765 million, down by 18.4% as compared to 1H02. This decrease mainly reflects negative exchange variation of 18.72% in 1H03 against negative exchange variation of 22.58% in 1H02, impacting U.S. dollar-denominated or

Edgar Filing: BANK BRADESCO - Form 6-K

dollar-indexed operations, which comprise 23.67% of total credit and leasing operations.

Results of Securities and Derivative Financial Instrument Operations totaled R\$ 2,799 million, a 10.5% decrease compared to 1H02. The variation was mainly due to: (i) negative exchange variation for the period; and (ii) the increase in the compulsory deposit rate; offset by (iii) market recovery; and by (iv) the increase in financial volume.

Financial Income on Insurance, Private Pension Plans and Savings Bonds totaled R\$ 2,613 million, a 136.9% increase over 1H02. The increase for the period was derived from (i) the growth in the average volume of investments; (ii) market recovery; and (iii) the increase in investment rates.

Results of Foreign Exchange Transactions were R\$268 million. This account should be analyzed net of foreign funding expenses used to finance import/export operations, as described in Note 14a to the financial statements. Net of these deductions, results would total R\$ 173 million in 1H02 and R\$ 178 million in 1H03.

2.2 Expenses for Lending and Trading Activities

Interest and Charges on Deposits totaled R\$ 4,496 million, down by 9.2% compared with 1H02. This decrease mainly reflects: negative exchange variation in 1H03, particularly impacting securities issued abroad, offset by an increase in deposit volume/rates.

Price-level Restatement and Interest on Technical Reserves for Insurance, Private Pension Plans and Savings Bonds totaled R\$ 1,658 million, up by 123.1% compared with 1H02. The growth for the period was derived from: (i) the increase in the average volume of technical reserves; (ii) market recovery and the increase in the investment rates of assets subject to technical reserves, reflected accordingly.

Expenses for Borrowings and Onlendings were R\$ 38 million, a 98.5% decrease compared to 1H02. This downturn was mainly due to: (i) negative exchange variation in 1H03 against positive exchange variation in 1H02.

Expenses for Provision for Loan Losses totaled R\$ 1,395 million, a 3.8% increase over 1H02. Excluding the additional provisions of R\$ 57 million and R\$ 312 million, recorded in 1H02 and 1H03, respectively, the decrease of R\$ 203 million in this expense reflects the Bank's more selective credit granting policy.

2.3 Financial Margin

Financial Margin was R\$ 5,984 million, a growth rate of 27.3% compared to 1H02. Margin growth reflects increased volume and market recovery, partially offset by the increase in the compulsory deposit rate and negative exchange variation in 1H03. The annualized financial margin on average total assets increased from 8.1% in 1H02 to 8.3% in 1H03. Adjusting the additional provision for market risk fluctuation recorded/reversed for these periods, the annualized financial margin would be 8.3% and 9.0%, respectively.

2.4 Other Operating Income and Expenses

Income on Commissions and Fees totaled R\$ 2,093 million in 1H03, up by 17.2% compared to 1H02. This growth reflects increased revenue from: (i) cards - R\$ 99 million; (ii) checking accounts - R\$ 79 million, mainly maintenance charges; (iii) credit operations - R\$ 79 million, mainly from contracting and opening of credit; (iv) collection - R\$ 18 million; (v) the consolidation of BBV Banco - R\$ 10 million; offset by decreased revenue from managed funds - R\$ 11 million.

2Q02.

Administrative Expenses for 1H03 totaled R\$ 2,254 million, corresponding to a 21.6% increase over 1H02. 2.5 Operating Income

Operating Income totaled R\$ 1,999 million, up by 72.9% as compared to 1H02.
