The Company has, at the present time, not paid any dividends and any dividends that may be paid in the future will depend upon the financial requirements of the Company and other relevant factors.

CONDENSED FINANCIAL STATEMENTS - The accompanying financial statements have been prepared by the Company without audit. In the opinion of management, all adjustments (which include only normal recurring adjustments) necessary to present fairly the financial position, results of operations and cash flows at March 31, 2003 and 2002 and for the periods then ended have been made.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles in the United States of America have been condensed or omitted. It is suggested that these condensed financial statements be read in conjunction with the financial statements and notes thereto included in the Company's December 31, 2002 audited financial statements. The results of operations for the periods ended March 31, 2003 and 2002 are not necessarily indicative of the operating results for the full year.

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [CONTINUED]

ACCOUNTS AND LOANS RECEIVABLE - The Company records accounts and loans receivable at the lower of cost or fair value. The Company determines the lower of cost or fair value of nonmortgage loans on an individual asset basis. The Company recognizes interest income on an account receivable based on the stated interest rate for past-due accounts over the period that the account is past due. The Company recognizes interest income on a loan receivable based on the stated interest rate over the term of the

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

loan. The Company accumulates and defers fees and costs associated with establishing a receivable to be amortized over the estimated life of the related receivable. The Company estimates allowances for doubtful accounts and loan losses based on the aged receivable balance and historical losses. The Company records interest income on delinquent accounts and loans receivable only when payment is received. The Company first applies payments received on delinquent accounts and loans receivable to eliminate the outstanding principal. The Company charges off uncollectible accounts and loans receivable when management estimates no possibility of collecting the related receivable. The Company considers accounts and loans receivable to be past due or delinquent based on contractual terms.

PROPERTY AND EQUIPMENT - Property and equipment are stated at cost. Expenditures for repairs and maintenance are charged to operating expense as incurred. Expenditures for additions and betterments that extend the useful lives of property and equipment are capitalized, upon being placed in service. When assets are sold or otherwise disposed of, the cost and related accumulated depreciation or amortization is removed from the accounts and any resulting gain or loss is included in operations. Depreciation is computed using the straight-line method over the estimated useful lives of the assets of five years [See Note 6].

WEBSITE COSTS - The Company has adopted the provisions of Emerging Issues Task Force 00-2, "Accounting for Web Site Development Costs." Costs incurred in the planning stage of a website are expensed as research and development while costs incurred in the development stage are capitalized and amortized over the life of the asset, estimated to be five years. As of March 31, 2003, the Company has capitalized a total of \$1,541 of website costs which are included in property and equipment. The Company did not incur any planning costs and did not record any research and development costs for the three months ended March 31, 2003 and 2002.

INTANGIBLE ASSETS - The Company accounts for their intangible assets in accordance with Statement of Financial Accounting Standards No. 142, "Goodwill and Other Intangible Assets" [See Note 7].

STOCK OFFERING COSTS - Costs related to proposed stock offerings are deferred and will be offset against the proceeds of the offering. In the event a stock offering is unsuccessful, the costs related to the offering will be written off to expense.

ACQUISITION COSTS - Costs related to proposed acquisitions are deferred and will be included in the acquisition price. In the event an acquisition is unsuccessful, the costs related to the acquisition will be written off to expense.

AMERICAN HOSPITAL RESOURCES, INC. AND SUBSIDIARY

NOTES TO UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES [CONTINUED]

REVENUE RECOGNITION - The Company's revenue comes from the management of hospitals and from the sale of hospital property. Revenue from the management of hospitals is recognized over the term of the managing agreement. A portion of the managing services is subcontracted out by the Company to third party vendors. These direct costs are recorded by the Company as general and administrative expenses. Revenue from the sale of

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

hospital property is recorded when property is sold. The Company has purchased the right to receive a portion of the revenues from a consulting and asset sale agreement. Revenue derived from the purchased contract rights is recorded as received on a net basis. On a net basis, only the share of revenue belonging to the Company is recorded as revenue.

STOCK BASED COMPENSATION - The Company accounts for their stock based compensation in accordance with Statement of Financial Accounting Standards No. 123 "Accounting for Stock-Based Compensation." This statement establishes an accounting method based on the fair value of equity instruments awarded to employees as compensation. However, companies are permitted to continue applying previous accounting standards in the determination of net income with disclosure in the notes to the financial statements of the differences between previous accounting measurements and those formulated by the new accounting standard. The Company has adopted the disclosure only provisions of SFAS No. 123. Accordingly, the Company has elected to determine net income using previous accounting standards.

LOSS PER SHARE - The computation of loss per share of common stock is based on the weighted average number of shares outstanding during the periods presented, in accordance with Statement of Financial Accounting Standards No. 128, "Earnings Per Share" [See Note 14].

ACCOUNTING ESTIMATES - The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that effect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimated by management.

RECENTLY ENACTED ACCOUNTING STANDARDS - Statement of Financial Accounting Standards ("SFAS") No. 141, "Business Combinations", SFAS No. 142, "Goodwill and Other Intangible Assets", SFAS No. 143, "Accounting for Asset Retirement Obligations", SFAS No. 144, "Accounting for the Impairment or Disposal of Long-Lived Assets", SFAS No. 145, "Rescission of FASB Statements No. 4, 44, and 64, Amendment of FASB Statement No. 13, and Technical Corrections", SFAS No. 146, "Accounting for Costs Associated with Exit or Disposal Activities", SFAS No. 147, "Acquisitions of Certain Financial Institutions - an Amendment of FASB Statements No. 72 and 144 and FASB Interpretation No. 9", and SFAS No. 148, "Accounting for Stock-Based Compensation - Transition and Disclosure - an Amendment of FASB Statement No. 123", were recently issued. SFAS No. 141, 142, 143, 144, 145, 146, 147 and 148 have no current applicability to the Company or their effect on the financial statements would not have been significant.

RECLASSIFICATION - The financial statements for periods prior to March 31, 2003 have been reclassified to conform to the headings and classifications used in the March 31, 2003 financial statements.

NOTE 2 - ACQUISITION AND VOIDING OF ACQUISITION

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

On December 13, 2002, Parent signed an asset purchase agreement with NIPSI Healthcare of Houston Limited Partnership ("NIPSI") and NIPSI of Houston, Inc. ("NIPSI General Partner"). The agreement provided for Parent to assume certain liabilities of NIPSI and to sign an unsecured 18-month \$150,000 note payable to NIPSI for most of the operating assets of NIPSI. The agreement also included a non-compete covenant from NIPSI and NIPSI General Partner. The acquisition closed December 16, 2002; however, subsequently, in a default judgement against NIPSI in favor of a creditor, the court voided and nullified the transfer of NIPSI assets to the Company [See Notes 15 and 17]. Also, NIPSI General Partner sent a demand letter to the Company to rescind the asset purchase agreement and claiming damages of \$120,000 against the Company [See Note 15]. The financial statements reflect the acquisition as having been voided or rescinded and any expenses associated with the voided acquisition have been classified as a cost of the unsuccessful NIPSI acquisition.

NOTE 3 - ACQUISITION

On April 3, 2002, Parent signed an agreement and plan of reorganization with Phase One, LLC and AHR Subsidiary. The agreement provided for Parent to issue 3,196,873 shares of its common stock for all 1,500 shares of AHR Subsidiary's common stock. In connection with the proposed reorganization, Parent previously issued a total of 13,000,000 shares of its common stock to Phase One, LLC for \$130,000 in financing. The agreement called for former shareholders of AHR Subsidiary to receive up to 12,870,000 shares of the common stock issued to Phase One, LLC based on the performance of the Company. In connection with the agreement, Parent amended its articles of incorporation to authorize 10,000,000 shares of preferred stock and to change its name to American Hospital Resources, Inc. Also in connection with the agreement, Parent and AHR Subsidiary entered into three-year consulting agreements with both Synergistic Connections, Inc. and Corporate Dynamics, Inc. [See Note 15]. As a result of the agreement, the former officers and directors of the Company resigned and new officers and directors were appointed. The acquisition closed June 17, 2002 and has been accounted for as a purchase of AHR Subsidiary. The Company recorded goodwill of \$60,321 as a result of the acquisition. On December 31, 2002, the agreement and plan of reorganization was amended to exchange the 13,000,000 shares of the Company's common stock that had been issued to Phase One, LLC for 2,600,000 shares of the Company's Series A preferred stock. The agreement was further amended to issue the 2,600,000 shares of Series A preferred stock to the Chief Executive Officer for value received by Phase One, LLC, which effected a change in control of the Company. The amended agreement also grants the Chief Executive Officer the right to convert, at any time, any or all of the common stock that he received under the agreement into Series A preferred stock at a rate of five shares of common stock into one share of Series A preferred stock.

NOTE 9 - NOTES PAYABLE [CONTINUED]

On February 27, 2002, the Company issued 500,000 shares of common stock as full payment of the \$20,000 note payable and its accrued interest of \$1,281 [See Note 10].

NOTE 10 - CAPITAL STOCK

PREFERRED STOCK - The Company has authorized 10,000,000 shares of preferred stock, no par value, with such rights, preferences and designations and to be issued in such series as determined by the Board of Directors. On December 30, 2002, the Company's Board of Directors designated 5,000,000 shares as Series A and 5,000,000 shares as Series B.

SERIES A PREFERRED STOCK - Each share of Series A preferred stock has the voting rights of 5 shares of common stock, is convertible into 5 shares of common stock and is entitled to receive a \$.0575 annual dividend payable monthly. The total annual dividend for all shares of Series A preferred stock is limited to 50% of the Company's earnings before interest, taxes, depreciation and amortization for the year and the monthly payments are adjusted accordingly. For the three months ended March 31, 2003, the Company has negative earnings before interest, taxes, depreciation and amortization; therefore, no dividend is due on the Series A preferred stock and no accrual for future dividend payments has been recorded in the accompanying financial statements. In addition, if shares of the Series A preferred stock are required to be converted as part of a sale or merger of the Company, then each share of Series A preferred stock is convertible into 5.5 shares of common stock.

In December 2002, the Company issued 2,600,000 shares of their previously authorized but unissued Series A preferred stock in exchange for 13,000,000 shares of the Company's common stock.

SERIES B PREFERRED STOCK - Each share of Series B preferred stock is convertible into 1 share of common stock and is entitled to receive a 6.5% annual dividend payable quarterly. The 6.5% annual dividend is based on the purchase price paid to or the consideration received by the Company. At March 31, 2003, no shares were issued and outstanding. The Series B preferred stock rights were subsequently modified [See Note 17].

The Company accounts for income taxes in accordance with Statement of Financial Accounting Standards No. 109, "Accounting for Income Taxes". SFAS No. 109 requires the Company to provide a net deferred tax asset or liability equal to the expected future tax benefit or expense of temporary reporting differences between book and tax accounting methods and any available operating loss or tax credit carryforwards. NOTE 11 - INCOME TAXES [CONTINUED]

At March 31, 2003, the total of all deferred tax assets was approximately \$239,000 and the total of all deferred tax liabilities was \$0. The amount of and ultimate realization of the benefits from the deferred tax assets for income tax purposes is dependent, in part, upon the tax laws in effect, the future earnings of the Company, and other future events, the effects of which cannot be determined. Because of the uncertainty surrounding the realization of the loss carryforwards, the Company has established a valuation allowance of approximately \$239,000. The net change in the valuation allowance was approximately \$34,000 during the three months ended March 31, 2003.

The temporary differences gave rise to the following deferred tax asset (liability):

NOTE 12 - GOING CONCERN

The accompanying financial statements have been prepared in conformity with generally accepted accounting principles in the United States of America, which contemplate continuation of the Company as a going concern. These factors raise substantial doubt about the ability of the Company to continue as a going concern. In

this regard, management is proposing to raise any necessary additional funds not provided by operations through loans or through sales of their common stock or through a possible business combination with another company. There is no assurance that the Company will be successful in raising this additional capital or in achieving profitable operations. DESCRIPTION OF BUSINESS

GENERAL

American Hospital Resources, Inc. ("American Hospital Resources" or the "Company") originally incorporated in the State of Utah on May 9, 1972, under the name High-Line Investment & Development Company. In 1977, the Company changed its name to Gayle Industries, Inc., and in 1978 the Company merged into its subsidiary, Swing Bike, keeping the Swing Bike name. In 1979 the Company changed its name from Swing Bike to Horizon Energy Corp. In 1992 the Company changed its name to Millennium Entertainment Corp.

In 1993 the Company changed its name to New Horizon Education, Inc. and implemented a business plan focusing on marketing computer education programs. Later that year, the Company formed a new subsidiary, Sunset Horizon, Inc. for the purpose of merging with Ruff Network Marketing, Inc. The subsidiary, Sunset Horizon, Inc., owned the marketing rights to the computer education programs and Ruff Network Marketing, Inc. provided the marketing network. The Company was not successful in its marketing activities and in 1995 the Company sold its assets and suspended operations. In 1997 the Company sold its subsidiary and became essentially dormant from 1998 through 2000.

In 2001, the Company recommenced operations and in June of 2002, the Company finalized an Agreement and Plan of Reorganization with American Hospital Resources, Inc. Under the Agreement, American Hospital Resources Inc. became a

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

wholly owned subsidiary of the Company and the Company changed its name to American Hospital Resources, Inc. The Company also authorized a class of 10,000,000 shares of Preferred Stock at no par value per share and changed its business strategy to focus on providing health care services and management.

The Company's common stock is quoted on the OTCBB under the symbol "AMHR."

NATURE OF BUSINESS

American Hospital Resources is a healthcare services company that provides pharmacy services to long-term care providers and hospitals as well as other acute care consulting and management services. We are currently focusing on the acquisition and consolidation of profitable pharmacy outsourcing businesses. These consolidated pharmacy outsourcing and materials management companies

27

provide pharmacy management services and pharmaceutical supplies to acute care hospitals and long-term care facilities such as nursing homes and hospices. As part of our business strategy, we have structured a program designed to merge profitable regional pharmacy outsourcers into a national team. We believe these regional providers will benefit from the enhanced buying power and market presence of a consolidated healthcare entity.

THREE MONTH PERIODS ENDED MARCH 31, 2003 AND 2002

AMHR did not generate any revenue during the three months ended March 31, 2003. Total expenses during this period consisted of general and administrative expenses of \$86,838. These expenses included \$30,000 in executive compensation, \$47,500 for consulting and negotiation services and \$1,500 in office rental. The remaining expenses of approximately \$7,838 consisted of legal and accounting costs and other administrative expenses. AMHR did not generate any revenue during the three months ended March 31, 2002 and had general and administrative expenses of \$25,408 consisting mainly of legal, accounting and other professional expenses. The company also had interest expenses of \$596 during the three months ended March 31, 2002. As a result of these factors, AMHR realized a net loss of \$86,838 during the first three months of fiscal 2003 and a net loss of \$26,004 during the comparable period in 2002.

Higher general and administrative expenses in 2003 are largely attributable to professional and consulting costs associated with implementing our business plan and the acquisition of American Hospital Resources in the summer of 2002.

LIQUIDITY AND CAPITAL RESOURCES

Total assets at March 31, 2003 were \$1,371,642. Assets primarily consisted of \$1,059,609 in deferred stock offering costs, \$250,000 in deferred acquisition costs and \$60,321 in goodwill. AMHR also had \$1,645 in property and equipment. Total current assets during this period consisted of \$67 in prepaid expenses. At December 31, 2002, current assets were \$51,854 consisting of \$6,779 in cash, \$15,000 in an advance due from NIPSI and prepaid expenses of \$30,075. We also had property and equipment of \$1,743. Other assets at December 31, 2002 consisted of \$60,321 in goodwill and \$1,059,424 in deferred stock offering costs.

Current liabilities at March 31, 2003 totaled \$1,223,628 consisting of \$1,081,695 in accounts payable, \$112,841 in accrued expenses, \$24,298 in an unsecured deposit from NIPSI and a bank overdraft of \$4,794. Liabilities at December 31, 2002 were \$1,198,090 consisting of \$1,088,150 in accounts payable and \$109,940 in accrued expenses. Accounts payable during both periods

Edgar Filing: AMERICAN HOSPITAL RESOURCES INC - Form 10QSB

consisted mainly of unpaid fees relating to securing a \$10,000,000 equity line of credit with Cornell Capital LP. Accrued expenses during both periods were primarily due to accrued salaries and unpaid executive compensation.

During the next twelve months we hope to reduce liabilities and bring current our outstanding debts. We anticipate that our operating expenses for the next twelve months will be approximately \$120,000 consisting mainly of salaries and consulting fees. We will also have legal and auditing expenses relating to our public reports as well as office rental and other expenses. Management hopes to generate sufficient operating capital through the continued implementation of our business plan and anticipated cash collections from accounts receivable. Should it become necessary to raise additional capital, we may consider securing loans from officers and directors, selling additional stock or entering into debt financing. Other than as discussed in this report, we have no material commitments for capital expenditures.

28

PLAN OF OPERATION

Since acquiring our subsidiary and implementing our business plan, we have been actively engaged in identifying pharmaceutical and healthcare companies to join our healthcare network. During the past year we identified three companies that we thought would be suitable for potential acquisition and/or management opportunities. In December of 2002 we reported on Form 8-K an agreement to acquire the assets of NIPSI Healthcare of Houston LP and its general partner. We operated the assets of NIPSI for approximately three months from December of 2002 through February of 2003. In March of 2003 we returned the assets after learning that AmerisourceBergen Corporation had a prior claim on NIPSI's assets. Subsequent to the date of this report, in April of 2003, a Texas State court entered a default judgment against NIPSI and voided the agreement.

We intend to continue seeking suitable healthcare and pharmaceutical companies for potential acquisition, consulting or management opportunities. Subsequent to the date of this report, in May of 2003, we finalized a stock purchase and management agreement with Rx Solutions, Inc. The agreement documents are filed as an exhibit to this report. We are currently negotiating to acquire the assets of Coastalmed Inc. and Coastalmed of Panama City, Inc. Although we have been actively engaged in negotiations, the proposed acquisition has not been finalized at the date of this report. Our capital requirements may change dramatically if the proposed transaction is consummated.

ITEM 3. CONTROLS AND PROCEDURES

Within the 90-day period prior to the date of this report, we evaluated the effectiveness and operation of our disclosure controls and procedures pursuant to Rule 13a-14 of the Securities Exchange Act of 1934. Based on that evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures are effective. There have been no significant changes in internal controls or other factors that could significantly affect internal controls subsequent to the date we carried out our evaluation.
