PROXY STATEMENT — MARCH 18, 2016

This Proxy Statement is furnished in connection with the solicitation by the Board of Directors of Hyster-Yale Materials Handling, Inc., a Delaware corporation, of proxies to be used at the annual meeting of stockholders of the Company to be held on May 4, 2016 (the "Annual Meeting"). The terms the "Company," "Hyster-Yale," "we," "our" and "us" refer to Hyster-Yale Materials Handling, Inc. This Proxy Statement and the related form of proxy are being mailed to stockholders commencing on or about March 18, 2016.

If the enclosed form of proxy is executed, dated and returned or if you vote electronically, the shares represented by the proxy will be voted as directed on all matters properly coming before the Annual Meeting for a vote. Proxies that are properly signed without any indication of voting instructions will be voted as follows:

for the election of each director nominee;
for the approval of the Company's Named Executive Officer compensation;
for the confirmation of the appointment of Ernst & Young, LLP, the independent registered public accounting firm of the Company, for the current fiscal year; and
as recommended by our Board of Directors with regard to any other matters or, if no recommendation is given, in the proxy holders' own discretion.

The proxies may be revoked at any time prior to their exercise by giving notice to us in writing or by executing and delivering a later dated proxy. Attendance at the Annual Meeting will not automatically revoke a proxy, but a stockholder of record attending the Annual Meeting may request a ballot and vote in person, thereby revoking a previously granted proxy.

Stockholders of record at the close of business on March 7, 2016 will be entitled to notice of, and to vote at, the Annual Meeting. On that date, we had 12,435,439 outstanding shares of Class A Common Stock, par value \$0.01 per share (the "Class A Common"), entitled to vote at the Annual Meeting and 3,941,712 outstanding shares of Class B Common Stock, par value \$0.01 per share (the "Class B Common"), entitled to vote at the Annual Meeting. Each share of Class A Common is entitled to one vote for a nominee for each of the ten directorships to be filled and one vote on each other matter properly brought before the Annual Meeting. Each share of Class B Common is entitled to ten votes for each such nominee and ten votes on each other matter properly brought before the Annual Meeting. Class A Common and Class B Common will vote as a single class on all matters anticipated to be brought before the Annual Meeting.

At the Annual Meeting, in accordance with Delaware law and our Bylaws, the inspectors of election appointed by the Board of Directors for the Annual Meeting will determine the presence of a quorum and will tabulate the results of stockholder voting. As provided by Delaware law and our Bylaws, the holders of a majority of our stock, issued and outstanding, and entitled to vote at the Annual Meeting and present in person or by proxy at the Annual Meeting, will constitute a quorum for the Annual Meeting. The inspectors of election intend to treat properly executed proxies marked "abstain" as "present" for purposes of determining whether a quorum has been achieved at the Annual Meeting. The inspectors of election will also treat proxies held in "street name" by brokers that are voted on at least one, but not all, of the proposals to come before the Annual Meeting ("broker non-votes") as "present" for purposes of determining whether a quorum has been achieved at the Annual Meeting.

In accordance with Delaware law, the ten director nominees receiving the greatest number of votes will be elected directors.

In accordance with our Bylaws, the affirmative vote of the holders of a majority of the voting power of our stock that is present in person or represented by proxy and that is actually voted is required to approve all other proposals that are brought before the Annual Meeting. As a result, abstentions and broker non-votes in respect of any proposal will not be counted and will have no effect for purposes of determining whether a proposal has received the requisite approval by our stockholders.

In accordance with Delaware law and our Bylaws, we may, by a vote of the stockholders, in person or by proxy, adjourn the Annual Meeting to a later date or dates, without changing the record date. If we were to determine that an adjournment was desirable, the appointed proxies would use the discretionary authority granted pursuant to the proxy

cards to vote in favor of such an adjournment.

PART ONE - CORPORATE GOVERNANCE INFORMATION

Composition of the Board

Directors are elected at each annual meeting to serve for one-year terms and until their respective successors are duly elected and qualified, subject to their earlier death, resignation or removal. During fiscal year 2015, our Board of Directors consisted of eleven directors until the retirement of Michael E. Shannon on May 14, 2015, at which time the Board of Directors was reduced to ten.

Directors' Meetings and Committees

The Board of Directors has an Audit Review Committee, a Compensation Committee, a Nominating and Corporate Governance Committee, a Finance Committee and an Executive Committee. The members and responsibilities of such committees are as follows:

| Name | Independent | Audit Review | Compensation | Nominating and Corporate Governance | Finance | Executive |
|--------------------------|-------------|--------------|--------------|---|---------|-----------|
| J.C. Butler, Jr. | No | | | | X | |
| Carolyn Corvi | Yes | X | X | | Chair | X |

| John M. Stropki | Yes | | X | X | | |
| Britton T. Taplin | Yes | | | | X | |
| Eugene Wong | Yes | X | X | | | |

Our Board of Directors held nine meetings in 2015. During their tenure in 2015, all of the directors attended at least 75 percent of the total meetings held by our Board of Directors and by the committees on which they served.

Our Board of Directors has determined that, based primarily on the ownership of Class A Common and Class B Common by the members of the Taplin and Rankin families and their voting history, we have the characteristics of, and may be, a "controlled company," as defined in Section 303A of the New York Stock Exchange ("NYSE") listing standards. While our Board of Directors has determined that we could be characterized as a "controlled company," it has elected not to make use at the present time of any of the exceptions to the NYSE listing standards that are available to controlled companies.

In accordance with the rules of the NYSE, our non-management directors are scheduled to meet in executive session, without management, once a year. The Chairman of the Compensation Committee will preside at such meeting. Additional meetings of the non-management directors may be scheduled when the non-management directors believe such meetings are desirable. The determination of the director who should preside at such additional meetings will be made based upon the principal subject matter to be discussed at each such meeting. A meeting of the non-management directors was held on February 10, 2016.

We hold a regularly scheduled meeting of our Board of Directors in conjunction with our annual meeting of stockholders. Directors are expected to attend the annual meeting of stockholders absent an appropriate excuse. All of our directors who were directors on the date of our 2015 Annual Meeting of Stockholders, with the exception of Mr. Shannon, attended the meeting in person or by electronic means.

Board Leadership Structure

The Board of Directors believes that it is prudent and in the best interests of stockholders that the CEO and Chairman positions be combined and that such combination has no negative effect on the operation or direction of the Company. Alfred M. Rankin, Jr., the Company's CEO, is the most appropriate person to serve as our Chairman because he possesses in-depth knowledge of the issues, opportunities and challenges facing our business. Because of this knowledge and insight, the Board of Directors believes that Mr. Rankin is in the best position to effectively identify strategic opportunities and priorities and to lead discussions regarding the execution of the Company's strategies and achievement of its objectives. As Chairman, our CEO is able to:

- focus our Board of Directors on the most significant strategic goals and risks of our business;
- utilize the individual qualifications, skills and experience of the other members of the Board of Directors to maximize their contributions to our Board of Directors;
- assess whether each other member of our Board of Directors has sufficient knowledge and understanding of our business to enable them to make informed judgments;
- promote a seamless flow of information to our Board of Directors;
- facilitate the flow of information between our Board of Directors and our management; and
- provide the perspective of a long-term stockholder.

In addition, Colin Wilson is the CEO of our principal operating subsidiary, Hyster-Yale Group, Inc., formerly known as NACCO Materials Handling Group, Inc. ("HYG"), and as such is responsible for the day-to-day operations of the business. This arrangement allows Mr. Rankin to focus almost exclusively on the strategic opportunities and priorities of the overall business.

We do not assign a lead independent director but the Chairman of our Compensation Committee presides at the regularly scheduled meetings of non-management directors.

Board Oversight of Risk Management

The Board believes that strong and effective controls and risk management processes are essential components needed to achieve long-term stockholder value. The Board, directly and through its Committees, is responsible for overseeing risks that potentially affect the Company. Each Board Committee is responsible for oversight of risk categories related to the Committee's specific function, while our full Board exercises ultimate responsibility for overseeing the risk management as a whole. The respective areas of risk oversight exercised by our Board and its Committees are as follows:

| Board/Committee | Primary Areas of Risk Oversight |
|------------------------|--|
| Full Board | Oversees overall Company risk management procedures and regularly receives and evaluates reports and presentations from the Chairs of the Audit Review, Compensation, NCG, and Finance Committees on risk-related matters falling within each respective committee's oversight responsibilities Oversees financial, operational, strategic, and legal risks by regularly reviewing reports and presentations given by management, including our Senior Vice President and General Counsel, Senior Vice President and Chief Financial Officer, and Director, Internal Audit, as well as other operational Company personnel, and evaluates potential related-person transactions |
| Audit Review Committee | Regularly reviews our risk management practices and risk-related policies (for example, the Company's Code of Corporate Conduct and legal and regulatory reviews) and evaluates potential risks related to internal control over financial reporting |
| NCG Committee | Oversees potential risks related to our governance practices by, among other things, reviewing succession plans and performance evaluations of the Board and CEO |
| Compensation Committee | |

Oversees potential risks related to the design and administration of our compensation plans, policies and programs, including our performance-based compensation programs, to promote appropriate incentives which do not encourage unnecessary and excessive risk-taking by our executive officers or other employees

Finance Committee

Regularly reviews risks related to financing and other risk management strategies, including reviews of our insurance portfolios

Code of Conduct

We have adopted a code of ethics, entitled "Code of Corporate Conduct," applicable to all of our personnel, including the principal executive officer, principal financial officer, principal accounting officer, and controller and other persons performing similar functions. Waivers of our Code of Corporate Conduct, if any, for our directors or executive officers may be disclosed on our website, by press release or by filing a Current Report on Form 8-K with the SEC. We have also adopted Corporate Governance Guidelines, which provide a framework for the conduct of our Board of Directors' business. The Code of Corporate Conduct, the Corporate Governance Guidelines and the Independence Standards for Directors, as well as each of the charters of the Audit Review, Compensation and NCG Committees, are available free of charge on our website at <http://www.hyster-yale.com>, under the heading "Corporate Governance." The information contained on or accessible through our website is not incorporated by reference into this Proxy Statement and you should not consider such information to be part of this Proxy Statement.

Review and Approval of Related Party Transactions

The Audit Review Committee reviews all relationships and transactions in which we and our directors and executive officers or their immediate family members are participants to determine whether such persons have a direct or indirect material interest in such transactions. Our legal department is primarily responsible for the development and implementation of processes and controls to obtain information from the directors and executive officers with respect to related person transactions in order to enable the Audit Review Committee to determine whether we have or a related person has a direct or indirect material interest in the transaction. In the course of the review of a potentially material related-person transaction, the Audit Review Committee considers:

- the nature of the related person's interest in the transaction;
- the material terms of the transaction, including, without limitation, the amount and type of transaction;
- the importance of the transaction to the related person;
- the importance of the transaction to us;
- whether the transaction would impair the judgment of a director or executive officer to act in our best interest; and
- any other matters the Audit Review Committee deems appropriate.

Based on this review, the Audit Review Committee will determine whether to approve or ratify any transaction that is directly or indirectly material to us or a related person.

Any member of the Audit Review Committee who is a related person with respect to a transaction under review may not participate in the deliberations or vote with respect to the approval or ratification of the transaction. However, such director may be counted in determining the presence of a quorum at a meeting of the Audit Review Committee that considers the transaction.

Communication with Directors

Our stockholders and other interested parties may communicate with our Board of Directors as a group, with the non-management directors as a group, or with any individual director by sending written communications to Hyster-Yale Materials Handling, Inc., 5875 Landerbrook Drive, Suite 300, Cleveland, Ohio 44124-4069, Attention: Secretary. Complaints regarding accounting, internal accounting controls or auditing matters will be forwarded directly to the Chairman of the Audit Review Committee. All other communications will be provided to the individual director(s) or group of directors to whom they are addressed. Copies of all communications will be provided to all other directors; provided, however, that any such communications that are considered to be improper for submission to the intended recipients will not be provided to the directors. Examples of communications that would be considered improper for submission include, without limitation, customer complaints, solicitations, communications that do not relate, directly or indirectly, to our or our principal operating subsidiary's business or communications that relate to improper or irrelevant topics.

Report of the Audit Review Committee

The Audit Review Committee has reviewed and discussed with our management and Ernst & Young LLP, our independent registered public accounting firm, our audited consolidated financial statements contained in our Annual Report to Stockholders for the year ended December 31, 2015. The Audit Review Committee has also discussed with our independent registered public accounting firm the matters required to be discussed by the Statement on Auditing Standards No. 16, "Communications with Audit Committees," as adopted by the Public Company Accounting

Oversight Board.

6

Table of Contents

The Audit Review Committee has received and reviewed the written disclosures and the independence letter from Ernst & Young LLP required by applicable requirements of the Public Company Accounting Oversight Board regarding Ernst & Young LLP's communications with the Audit Review Committee concerning independence, and has discussed with Ernst & Young LLP its independence.

Based on the review and discussions referred to above, the Audit Review Committee recommended to the Board of Directors (and the Board of Directors subsequently approved the recommendation) that the audited consolidated financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015, filed with the SEC.

They are also permitted to elect to receive all or part of the remainder of the retainer and all fees in the form of shares of Class A Common (the "Voluntary Shares"). Amounts in this column reflect the aggregate grant date fair market value of the Mandatory Shares and Voluntary Shares that were granted to directors under the Non-Employee Directors' Plan, determined pursuant to the Financial Accounting Standards Board Accounting Standards Codification Topic 718, which we refer to as FASB ASC Topic 718. Description of Material Factors Relating to the Director Compensation Table

Each non-employee director is entitled to receive the following annual compensation for service on our Board of Directors and on HYG's Board of Directors:

- a retainer of \$150,000 (at least \$94,000 of which is required to be paid in the form of shares of Class A Common, as described below);
- attendance fees of \$1,000 per day for each meeting attended (including telephonic meetings) of our Board of Directors or HYG's board of directors (limited to \$1,000 per day);
- attendance fees of \$1,000 for all meetings attended (including telephonic meetings) of a committee of our Board of Directors on which the director served;
- a retainer of \$7,000 for each committee of our Board of Directors on which the director served (other than the Executive Committee);
- an additional retainer of \$10,000 for each committee of our Board of Directors on which the director served as chairman (other than the Audit Review Committee); and
- an additional retainer of \$15,000 for the chairman of the Audit Review Committee of our Board of Directors.

The retainers are paid quarterly in arrears and the meeting fees are paid following each meeting. Each director is also reimbursed for expenses incurred as a result of attendance at meetings. We also occasionally make a private aircraft available to directors for attendance at meetings of our Board of Directors and HYG's Board of Directors.

Table of Contents

Under the Non-Employee Directors' Plan, each director who was not an officer of the Company or one of our subsidiaries receives \$94,000 of the \$150,000 retainer in whole shares of Class A Common. Any fractional shares are paid in cash. The actual number of shares of Class A Common issued to a director is determined by the following formula:

the dollar value of the portion of the \$94,000 retainer that was earned by the director each quarter divided by

the average closing price of shares of Class A Common on the NYSE for each week during such quarter.

These shares are fully vested on the date of grant, and the director is entitled to all rights of a stockholder, including the right to vote and receive dividends. However, the shares cannot be assigned, pledged or otherwise transferred by the director other than:

by will or the laws of descent and distribution;

pursuant to a qualifying domestic relations order; or

to a trust for the benefit of the director or his spouse, children or grandchildren.

These restrictions lapse on the earliest to occur of:

ten years after the last day of the calendar quarter for which such shares were earned;

the director's death or permanent disability;

five years from the date of the director's retirement;

the date that a director is both retired from our Board of Directors and has reached age 70; or

at such other time as determined by the Board of Directors in its sole discretion.

In addition, each director may elect under the Non-Employee Directors' Plan to receive shares of Class A Common in lieu of cash for up to 100% of the balance of their retainers and meeting attendance fees. The number of shares issued is determined under the same formula stated above. However, these Voluntary Shares are not subject to the foregoing transfer restrictions.

Each director also receives (i) Company-paid life insurance in the amount of \$50,000; (ii) Company-paid accidental death and dismemberment insurance for the director and spouse; (iii) personal excess liability insurance in the amount of \$10 million for the director and immediate family members who reside with the director (other than Messrs. Butler and LaBarre and General Jumper) and (iv) up to \$4,000 per year in matching charitable contributions.

Director Compensation Program for 2016

The Compensation Committee periodically evaluates and recommends changes to our compensation program for directors. In 2015, the Compensation Committee used The Hay Group consulting firm to evaluate and provide recommendations regarding our director compensation program. Our Board of Directors adopted certain recommendations and made changes effective January 1, 2016.

The revised director compensation program is structured in a similar manner to the 2015 program. However, the retainers paid to each non-employee director for service on our Board of Directors were increased effective January 1, 2016, from \$150,000 (\$94,000 of which is paid in the form of shares of Class A Common) to \$158,000 (\$102,000 of which will be paid in the form of shares of Class A Common).

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Exchange Act requires our officers and directors, and persons who own more than ten percent of a registered class of our equity securities, to file reports of ownership and changes in ownership of such securities with the SEC and the NYSE. Officers, directors and greater than ten percent beneficial owners are required by applicable regulations to furnish us with copies of all Section 16(a) forms they file.

Based upon the review of the copies of Section 16(a) forms received by us, and upon written representations from reporting persons concerning the necessity of filing a Form 5 Annual Statement of Changes in Beneficial Ownership, we believe that, during 2015, all filing requirements applicable for reporting persons were met, except as follows: Due to an administrative error, Mr. Gregory Breier filed a late Form 4 related to a conversion of certain of his Class B shares to Class A shares.

Advisory Vote to Approve the Company's Named Executive Officer Compensation (Proposal 2)

As required by the Dodd-Frank Wall Street Reform and Consumer Protection Act, referred to as the Dodd-Frank Act, and Section 14A of the Exchange Act, we are asking you to cast an advisory (non-binding) vote on the Company's Named Executive Officer compensation.

Why You Should Approve our Named Executive Officer Compensation

The guiding principle of the compensation program for senior management employees, including Named Executive Officers, is the maintenance of a strong link between an employee's compensation, individual performance and the performance of the Company as a whole and/or the business unit for which the employee has responsibility. The primary objectives of our compensation program are:

- to attract, retain and motivate talented management;
- to reward management with competitive total compensation for achievement of specific corporate and individual goals; and
- to make management long-term stakeholders in the Company.

We encourage stockholders to read the Executive Compensation section of this Proxy Statement, including the Compensation Discussion and Analysis and compensation tables, for a more detailed discussion of our compensation programs and policies. We believe our compensation programs and policies are appropriate and effective in implementing our compensation philosophy and in achieving our goals, and that they are aligned with stockholder interests.

We believe that stockholders should consider the following in determining whether to approve this proposal.

Compensation Program is Highly Aligned with Stockholder Value

We seek to achieve the foregoing policies and objectives through a mix of base salaries and incentive plans. Base salaries are set at levels appropriate to allow the incentive plans to serve as significant motivating factors. The Compensation Committee carefully reviews each of these components in relation to our performance. Incentive-based compensation plans are designed to provide significant rewards for achieving or surpassing annual operating and financial performance objectives, as well as to align the compensation interests of the senior management employees, including the Named Executive Officers, with our long-term interests.

Strong Pay-for-Performance Orientation

The short-term and long-term incentive compensation for our employees is substantially performance-based. Performance targets under our short-term incentive compensation plan are measured against our annual operating plan (AOP), while performance targets under our long-term incentive compensation plans are based on a longer term five-year financial forecast. Although the design of our compensation program offers opportunities for employees to earn truly superior compensation for outstanding results, it also includes significantly reduced compensation for results that do not meet or exceed the previously established performance targets for the year. In years when we have weaker financial results, payouts under the incentive compensation plans will generally be lower. In years when we have stronger financial results, payouts under the incentive compensation plans will generally be greater. In general, all performance targets are set at a scale that encourages performance improvement without requiring outstanding results that would encourage conduct inconsistent with building long term value. The chosen performance metrics and measurement periods are well-aligned with our business strategy and objectives for long-term value creation for our stockholders.

Compensation Program Has Appropriate Long-Term Orientation

Our compensation programs and policies have a long-term focus.

The purpose of our long-term incentive compensation plans is to enable senior management employees to accumulate capital through future managerial performance, which the Compensation Committee believes contributes to the future success of our businesses. Our long-term incentive compensation plans generally require long-term commitment on the part of our senior management employees, and cash withdrawals or stock sales are generally not permitted for a number of years. Rather, the awarded amount is effectively invested in the Company for an extended period to strengthen the tie between stockholders' and the Named Executive Officers' long-term interests.

Therefore, stockholders are asked to cast a non-binding, advisory vote to address the following resolution that will be submitted for a stockholder vote at the meeting:

"RESOLVED, that the compensation paid to the Named Executive Officers, as disclosed pursuant to the compensation disclosure rules of the SEC, including the Compensation Discussion and Analysis, the compensation tables and narrative discussion, is hereby APPROVED."

Table of Contents

Stockholder Vote. In accordance with our Bylaws, the affirmative vote of the holders of a majority of the voting power of our stock that are present in person or represented by proxy and that is actually voted is required to approve this proposal. You may vote "FOR" or "AGAINST" the resolution or abstain from voting on the resolution. The result of the say-on-pay vote will not be binding on us or the Board. The final decision on the Company's executive compensation and benefits remains with the Board and the Compensation Committee. However, we and the Board value the views of our stockholders. The Board and the Compensation Committee will review the results of the vote and take them into consideration in addressing future compensation policies and decisions.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE PROPOSAL TO APPROVE THE COMPANY'S NAMED EXECUTIVE OFFICER COMPENSATION DISCLOSED PURSUANT TO THE COMPENSATION DISCLOSURE RULES OF THE SEC, INCLUDING THE COMPENSATION DISCUSSION AND ANALYSIS, THE COMPENSATION TABLES AND NARRATIVE DISCUSSION.

Confirmation of Appointment of Ernst & Young, LLP, the Independent Registered Public Accounting Firm of the Company, for the Current Fiscal Year (Proposal 3)

Ernst & Young, LLP has been selected by the Audit Review Committee as the principal independent registered public accounting firm for the current fiscal year for us and certain of our subsidiaries. The appointment of Ernst & Young LLP as our independent registered public accounting firm is not required to be submitted to a vote of our stockholders for confirmation. However, our Board of Directors believes that obtaining stockholder confirmation is a sound governance practice.

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE "FOR" THE CONFIRMATION OF THE APPOINTMENT OF ERNST & YOUNG LLP AS THE INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM OF THE COMPANY FOR 2016.

It is expected that representatives of Ernst & Young LLP will attend the Annual Meeting, with the opportunity to make a statement if they so desire, and, if a representative is in attendance, the representative will be available to answer appropriate questions.

If our stockholders fail to vote on an advisory basis in favor of the confirmation of the appointment of Ernst & Young LLP, the Audit Review Committee will take such actions as it deems necessary as a result of such stockholder vote. Even if the appointment of Ernst & Young, LLP is confirmed, the Audit Review Committee may select a different independent registered public accounting firm at any time during the fiscal year 2016 if it determines that such a change would be in the best interests of the Company and its stockholders.

Audit Fees

2015 and 2014 - Ernst & Young LLP billed or will bill us in the aggregate \$3.2 and \$3.0 million, respectively, for professional services rendered by Ernst & Young LLP in each of 2015 and 2014 for the audit of our annual consolidated financial statements for the fiscal years ended December 31, 2015 and 2014 and the review of the interim consolidated financial statements included in our Quarterly Reports on Form 10-Q filed during the fiscal years ended December 31, 2015 and 2014, as well as for services provided in connection with statutory audits and regulatory filings with the SEC.

Audit-Related Fees

2015 and 2014 - Ernst & Young LLP billed us in the aggregate less than \$0.1 million each year for assurance and related services rendered by Ernst & Young LLP in each of 2015 and 2014, primarily related to services for audits of certain employee benefit plans.

Tax Fees

2015 and 2014 - Ernst & Young LLP billed us less than \$0.1 million in the aggregate in 2015 for professional tax services rendered. Ernst & Young LLP did not provide services and has not billed us for professional tax services rendered in 2014.

All Other Fees

2015 and 2014 - Ernst & Young LLP did not provide services and has not billed us fees for services provided by Ernst & Young LLP, other than the services reported under "Audit Fees," "Audit-Related Fees" and "Tax Fees" during the fiscal years ended December 31, 2015 and 2014.

Except as set forth above and approved by the Audit Review Committee pursuant to our pre-approval policies and procedures, no assurance or related services, tax compliance, tax advice or tax planning services were performed by the principal independent registered public accounting firm for us during the last two fiscal years.

Table of Contents

Pre-Approval Policies and Procedures

Under our pre-approval policies and procedures, only audit, audit-related services and limited tax services may be performed by our principal independent registered public accounting firm. All audit, audit-related, tax and other accounting services to be performed for us must be pre-approved by our Audit Review Committee. In furtherance of this policy, for 2015, the Audit Review Committee authorized us to engage Ernst & Young LLP for specific audit and audit-related services up to specified fee levels. The Audit Review Committee has delegated to the Chairman of the Audit Review Committee together with one other Audit Review Committee member the authority to approve services other than audit, review or attest services, which approvals are reported to the Audit Review Committee at its next meeting. We provide a summary of approvals and commitments at each general meeting of the Audit Review Committee.

The Audit Review Committee has considered whether the providing of the non-audit services to us by Ernst & Young LLP is compatible with maintaining its independence. In addition, as a result of the recommendation of the Audit Review Committee, we have adopted policies limiting the services provided by our independent registered public accounting firm that are not audit or audit-related services.

PART THREE - EXECUTIVE COMPENSATION INFORMATION

Summary of Our Executive Compensation Program

The material elements of our 2015 compensation objectives and policies as they relate to the Named Executive Officers listed in the Summary Compensation Table on page 32, referred to as the NEOs, are described below. This discussion and analysis should be read in conjunction with all accompanying tables, footnotes and text in the Proxy Statement.

Our executive compensation program strongly ties the compensation of our NEOs to our short-term and long-term business objectives and to stockholder interests. Key elements of compensation include base salary, annual incentive compensation, long-term incentive compensation and defined contribution retirement benefits.

At our 2013 annual meeting of stockholders, the Company received strong support for our compensation program with 99% of the votes cast approving our advisory vote on named executive officer compensation. The Compensation Committee believes that this overwhelming support reinforces the philosophy and objectives of our executive compensation program.

We pay for performance. We align our executive compensation with corporate performance on both a short-term and long-term basis. In 2015, 80% of Mr. A. Rankin's 2015 target compensation and, as a group, approximately 60% of the other NEOs' target compensation was incentive-based and "at risk" based on Company performance.

In addition, the long-term awards for the U.S. NEOs are paid in the form of restricted shares of Class A Common which, as described in more detail beginning on page 24, are generally subject to transfer restrictions for a period of 10 years. The value of these restricted stock awards continues to be at risk based on future Company performance and continues to align the interests of these NEOs with those of our stockholders.

Other key features of our executive compensation program include:

What We Do

Equity compensation awards generally must be held for 10 years - Equity awards cannot be pledged, hedged or transferred during this time.

We provide limited change in control protections under our incentive and nonqualified deferred compensation plans that (i) accelerate the time of payment of previously vested incentive benefits and non-qualified retirement benefits and (ii) provide for pro-rata target incentive payments for the year of the change in control.

We provide a modest level of perquisites, the majority of which are paid in cash, that are determined based on market reasonableness.

We use an independent compensation consultant.

What We Do Not Do

We do not provide our U.S. NEOs with employment or individual change in control agreements.

We do not provide any tax gross-ups except for certain relocation expenses and under one non-qualified retirement plan that was frozen in 2007.

We do not provide our NEOs with any minimum or guaranteed bonuses.

We set our target compensation at the 50th percentile of our chosen benchmark and deliver compensation above or below this level based on performance.

We do not take into account our long-term awards when determining our defined contribution retirement benefits.

We do not have any active defined benefit plans and only gave our NEOs credit for time worked under our frozen pension plans.

Compensation Committee Interlocks and Insider Participation

None of our executive officers serve or have served on the compensation committee of any entity that has one or more of its executive officers serving as a member of our Compensation Committee.

Compensation Consultants

The Compensation Committee receives assistance and advice from The Hay Group, an internationally-recognized compensation consulting firm. The Hay Group is engaged by and reports to the Compensation Committee and also provides advice and discusses compensation issues directly with management. Effective December 1, 2015, The Hay Group was acquired by Korn Ferry, a publicly-traded global people and organizational advisory firm.

Korn Ferry Hay Group (the "Hay Group") makes recommendations regarding substantially all aspects of compensation for our directors and senior management employees, including the NEOs. For 2015, the Hay Group was engaged to make recommendations regarding:

- Director compensation levels;
- Hay point levels, salary midpoints and incentive targets for all new senior management positions and/or changes to current senior management positions;
- 2015 salary midpoints, incentive compensation targets (calculated as a percentage of salary midpoint) and target total compensation for all senior management positions; and
- 2015 salary midpoints and/or range movement for all other employee positions.

All Hay point recommendations are determined through the consistent application of the Hay point methodology, which is a proprietary method that takes into account the know-how, problem solving and accountability requirements

of the position. A representative of the Hay Group attended one of the Compensation Committee meetings in 2015 and, during that meeting, consulted with the Compensation Committee in executive session without management present.

15

Table of Contents

The Hay Group also provided limited talent management services (e.g., candidate assessments, executive coaching) to the Company in 2015. However, the Compensation Committee has considered and assessed all relevant factors, including but not limited to those set forth in Rule 10C-1(b)(4)(i) through (vi) of the Exchange Act, that could give rise to a potential conflict of interest with respect to the Hay Group. Based on this review, we are not aware of any conflict of interest that has been raised by the work performed by the Hay Group.

Hay Group's All Industrial Survey - Salary Midpoint

As a starting point for setting target total compensation, the Compensation Committee directed the Hay Group to use the Hay Group's proprietary survey of a broad group of domestic industrial organizations ranging in size from under \$150 million to over \$5 billion in annual revenues (the "All Industrial survey"). For 2015, participants in the All Industrial survey included 338 parent organizations and 440 independent operating units, which satisfied the Hay Group's quality assurance controls and represented almost all segments of industry, including manufacturing.

The Compensation Committee chose this particular survey as its benchmark for the following reasons:

- It provides relevant information regarding the compensation paid to employees, including senior management employees, with similar skill sets used in our industry and represents the talent pool from which we recruit.
- The use of a broad-based survey reduces volatility and lessens the impact of cyclical upswings or downturns in any one industry that could otherwise skew the survey results in any particular year.
- It provides a competitive framework for recruiting employees from outside of our industry.

Using its proprietary Hay point methodology, the Hay Group compares positions of similar scope and complexity with the data contained in the All Industrial survey. The Hay Group then derives a median salary level for each Hay point level targeted at the 50th percentile of the All Industrial survey (the "salary midpoint"). The Compensation Committee sets the salary midpoint for each of the NEOs (other than Mr. A. Rankin - refer to note (3) of the target total compensation table on page 17) at 100% of the salary midpoint recommended by the Hay Group. The Compensation Committee believes that the use of salary midpoints ensures that our compensation program provides sufficient compensation to attract and retain talented executives and maintain internal pay equity, without overcompensating our employees. Because salary midpoints are based on each Hay point level, all of the employees at a particular Hay point level generally have the same salary midpoint, with some geographic differences. The salary midpoint provided by the Hay Group is then used to calculate the total target compensation of all senior management employees, including the NEOs.

Compensation Policies, Objectives and Methodology - Total Target Compensation

The guiding principle of our compensation program is the maintenance of a strong link between an employee's compensation, individual performance and the performance of the Company or the subsidiary or business unit for which the employee has responsibility. The primary objectives of our compensation program are to:

- attract, retain and motivate talented management;
- reward management with competitive total compensation for achievement of specific corporate and individual goals;
- make management long-term stakeholders in the Company;
- ensure that management's interests are closely aligned with those of our Company's stockholders; and
- maintain consistency in compensation among all of the Company's direct and indirect subsidiaries.

The Compensation Committee establishes comprehensively defined "target total compensation" for each senior management employee following rigorous evaluation standards to ensure internal equity. In this process, the Compensation Committee reviews "tally sheets" for the NEOs and other senior management employees that list each employee's title, Hay points and the following information for the current year, as well as that being proposed for the subsequent year:

- salary midpoint, as determined by the Hay Group from the All Industrial survey;
- for U.S. employees, cash in lieu of perquisites (if applicable);

In November 2014, the Compensation Committee reviewed the tally sheets for each of our NEOs to decide whether it should make changes to the 2015 compensation program. The Compensation Committee determined that the overall program continued to be consistent with our compensation objectives and did not make any material changes for 2015.

The design of our compensation program provides employees with the opportunity to earn superior compensation for outstanding results. Base salaries are set at levels appropriate to allow our incentive plans to serve as significant motivating factors. Because our program provides significantly reduced compensation for results that do not meet or exceed the established performance targets for the year, it encourages NEOs to earn incentive pay greater than 100% of target over time by delivering outstanding managerial performance.

The Compensation Committee views the various components of compensation as related but distinct. For example, the Compensation Committee uses the information provided from the All Industrial survey to determine the salary midpoint. It then generally sets actual base salaries between 80% and 120% of that salary midpoint (up to 130% for Mr. A. Rankin). The Compensation Committee also obtains the total target incentive compensation amounts from the All Industrial survey but determines the mix of short-term and long-term incentives in its discretion, based on its decision regarding how best to motivate our employees.

The following table sets forth target total compensation for the NEOs, as recommended by the Hay Group and approved by the Compensation Committee for 2015:

| Named Executive Officer | (A) Salary Midpoint \$(%) | (B) Cash in Lieu of Perquisites \$(%)(1) | (C) Short-Term Plan Target \$(%) | (D) Long-Term Plan Target \$(%) | (A)+(B)+(C)+(D) Target Total Compensation (\$) | |

| Ralf A. Mock (4) | \$425,659 46% | N/A | N/A | \$212,830 23% | \$281,750 31% | \$920,239 |

In addition to providing perquisites to a limited number of employees in unique circumstances, U.S. senior management employees are paid a fixed dollar amount of cash in lieu of perquisites. The applicable dollar amounts provided to the NEOs in 2015 were approved by the Compensation Committee based on an updated analysis performed by the Hay Group in 2014 and will remain in effect through 2017. Based on this analysis, the Compensation Committee set a defined perquisite allowance for each senior management employee, based on Hay point levels. These amounts are paid in cash ratably throughout the year. This approach satisfies our objective of providing competitive total compensation to our NEOs while recognizing that perquisites are largely just another form of compensation. Non-U.S. executives do not receive a cash allowance in lieu of perquisites. Rather, as is customary in the locations of our non-U.S. executives, certain non-U.S. executives receive a car allowance. Mr. Mock's car allowance for 2015 was \$20,411.

The amounts include a 15% increase from the Hay-recommended long-term plan target awards that the Compensation Committee applies each year to account for the immediately taxable nature of the awards issued under the Hyster-Yale Materials Handling, Inc. Long-Term Equity Incentive Plan (the "Equity Long-Term Plan"). See "Long-Term Incentive Compensation" beginning on page 24.

(3) In addition to serving as Chairman, President and CEO of the Company, Mr. A. Rankin also served in 2015 as the Chairman, President and CEO of NACCO, our former parent company. The Company was spun-off from NACCO in September 2012 (the "Spin-Off"). From September 2012 through December 2014, the Compensation Committee benchmarked Mr. A. Rankin's compensation against that of the Hay-recommended aggregate compensation targets

for a hypothetical CEO of a "composite NACCO/Hyster-Yale" company. The Compensation Committee determined that the post-Spin-Off transition period should end on December 31, 2014. As a result, the Compensation Committee directed the Hay Group to use the 50th percentile of the Hay All Industrial survey to reevaluate the position of a stand-alone Chairman, President and CEO of the Company effective January 1, 2015. While the Compensation Committee agreed that the Hay-recommended amounts were appropriate for the position of a stand-alone Chairman, President and CEO of the Company, it decided that it was also appropriate to reduce these amounts to reflect the fact that Mr. A. Rankin would continue to provide services to both the Company and NACCO in 2015. After considering several alternative reduction methods, in order to provide for compensation reflective of the value of Mr. A. Rankin's services to us, the Compensation Committee decided to apply a 25% reduction factor to the Hay-recommended salary midpoint for 2015. As a result, the Compensation Committee set Mr. A. Rankin's target total compensation for 2015 as follows:

Table of Contents

| 2015 Mr. A. Rankin Target Compensation | (A) Salary Midpoint | (B) Cash in Lieu of Perquisites | (C) Short-Term Plan Target (100%) | (D) Equity Long-Term Plan Target (285%) + 15% increase | (A) + (B) + (C) + (D) Target Total Compensation |

Mr. Mock's employment with HY-UK terminated effective April 15, 2015. His annualized salary midpoint, NACCO Materials Handling Group, Inc. Annual Incentive Compensation Plan (the "Short-Term Plan") and NACCO Materials Handling Group, Inc. Long-Term Plan (the "Cash Long-Term Plan") target amounts are shown (4) above. Throughout this Proxy Statement, Mr. Mock's compensation for 2015 has been converted from British pounds to U.S. dollars using a conversion rate of 1.5317 U.S. dollars to 1 British pound, which is the average of the daily closing rates during 2015 as published by Thomson Reuters. The conversion was not required for Mr. Mock's Cash Long-Term Plan target amount, however, since that target amount is calculated in U.S. dollars.

Target total compensation is supplemented by health and welfare benefits and retirement benefits, which consist of both (i) qualified defined contribution plans and (ii) U.S. nonqualified deferred compensation arrangements (the "Excess Plans"). In addition, the Compensation Committee may award discretionary cash and equity bonuses to employees, including the NEOs, although it rarely does so and did not do so for the NEOs in 2015.

Base Salary

The Compensation Committee fixes an annual base salary intended to be competitive in the marketplace to recruit and retain talented employees. Base salary is intended to provide employees with a set amount of money during the year with the expectation that they will perform their responsibilities to the best of their ability and in our best interests. For 2015, the Compensation Committee determined the base salary for the NEOs by taking into account their individual performance for 2014 and the relationship of their 2014 base salary to the new 2015 salary midpoint for their Hay point level. The Compensation Committee also took into account other relevant information, including: general inflation, salary trends and economic forecasts provided by the Hay Group; general budget considerations and business forecasts provided by management; and any extraordinary personal accomplishments or corporate events that occurred during 2014.

The potential for larger salary increases exists for employees with lower base salaries relative to their salary midpoint and/or superior performance. The potential for smaller increases or even no increase exists for those employees with higher base salaries relative to their salary midpoint and/or who have performed less effectively during the performance period.

The following table sets forth the salary information for each NEO for 2015:

| Named Executive Officer | Salary Midpoint Determined by the Hay Group (\$) | Base Salary For 2015 and as a Percentage of Salary Midpoint (\$)(%) | Change Compared to 2014 Base Salary (%) |
|---------------------------|--|---|---|
| Alfred M. Rankin, Jr. (1) | \$742,650 | \$811,150 109% | 3.5% |
| Kenneth C. Schilling | \$379,000 | \$360,282 95% | 5.0% |
| Colin Wilson | \$728,500 | \$600,000 82% | 7.1% |
| Charles F. Pascarelli (2) | \$444,600 | \$420,030 94% | 12.5% |
| Rajiv K. Prasad | \$444,600 | \$422,226 95% | 9.6% |

Ralf A. Mock (3) \$425,659 \$130,320 N/A N/A

(1) The Compensation Committee reduced Mr. A. Rankin's salary midpoint by 25% from the Hay-recommended amount for a stand-alone CEO of the Company in 2015.

(2) Mr. Pascarelli's salary midpoint and base salary were increased effective January 1, 2015 when he became Senior Vice President, President, Americas of HYG.

Table of Contents

(3) Mr. Mock's employment with HY-UK terminated effective April 15, 2015. The base salary shown above and in the Summary Compensation Table is the amount actually received by Mr. Mock during the first 3-1/2 months of 2015. Incentive Compensation

One of the principles of our compensation program is that senior management employees, including the NEOs, are compensated based on the performance of the business unit for which they are responsible. As a result, for 2015: the incentive compensation of Messrs. A. Rankin, Schilling, Wilson and Prasad were based on the performance of the Company as a whole;

• Mr. Pascarelli's 2015 incentive compensation was based on the performance of the Company's Americas division; and
• Mr. Mock's incentive compensation was based on the performance of the Company's EMEA division.

In 2015, (i) all of the NEOs participated in the Short-Term Plan, (ii) Messrs. A. Rankin, Schilling, Wilson, Pascarelli and Prasad participated in the Equity Long-Term Plan, and (iii) Mr. Mock participated in the Cash Long-Term Plan.

Overview. Our incentive compensation plans are designed to align the compensation interests of the senior management employees with our short-term and long-term interests. A significant portion of the NEOs' compensation is linked directly to the attainment of specific financial and operating targets. The Compensation Committee believes that a material percentage of the NEOs' compensation should be contingent on the performance of the Company and/or the business unit for which they are responsible. As illustrated on the target total compensation table on page 17, 80% of Mr. A. Rankin's 2015 target compensation was variable or "at risk" and tied to Company performance and, as a group, approximately 60% of the other NEOs' target compensation was tied to Company performance. For 2015, the sum of each of the NEO's incentive compensation targets exceeded the sum of his fixed payments (base salary plus perquisite allowance).

The performance criteria and target performance levels for the incentive plans are established annually by the Compensation Committee and are based upon management's recommendations as to our performance objectives for the year. Three types of performance targets are used in the incentive compensation plans:

• **Targets Based on Annual Operating Plan.** Certain performance targets are based on forecasts contained in the 2015 annual operating plan. With respect to these targets, there is an expectation that these performance targets will be met during the year. If they are not, the participants will not receive all or a portion of the award that is based on these performance criteria.

• **Targets Based on Long-Term Goals.** Other performance targets are not based on the 2015 annual operating plan. Rather, they are based on long-term goals established by the Compensation Committee. Because these targets are not based on the annual operating plan, it is possible in any given year that the level of expected performance may be above or below the specified performance target for that year. Certain operating profit percent targets are examples of targets that are based on long-term goals (see "Long-Term Incentive Compensation" beginning on page 24).

• **Operating Profit Percent Over-Ride.** The Compensation Committee approved an operating profit percent over-ride feature to each of the Incentive Plans (as defined below) for 2015. This feature provides for a reduction in payouts under the plans from the amounts otherwise determined under the pre-established performance targets unless a separate operating profit percent target is achieved, thus providing participants with additional motivation to deliver outstanding performance.

Each NEO is eligible to receive a short-term incentive award and a long-term incentive award based on a target incentive amount that is equal to a percentage of salary midpoint. However, the final payout may be higher or lower than the targeted amount.

Design of Incentive Program: Use of ROTCE to Determine Maximum Awards and Underlying Performance Metrics.

Internal Revenue Code ("Code") Section 162(m), provides that we may not deduct compensation of more than \$1 million that is paid to the NEOs (other than Mr. Schilling) unless that compensation is "qualified performance-based compensation." Among other requirements, the performance-based exception to Code Section 162(m) requires that deductible compensation be paid under a plan that has been approved by our stockholders. Stockholder approval was previously obtained for the following incentive compensation plans that provide benefits to the NEOs, which we collectively refer to as the Incentive Plans:

• The Short-Term Plan;

• The Equity Long-Term Plan; and

¶The Cash Long-Term Plan.

Mr. Mock was the only non-U.S. NEO, and therefore the only NEO who participated in the Cash Long-Term Plan, during 2015. Messrs. Wilson, Mock and Prasad were participants in the Cash Long-Term Plan in prior years and have

outstanding awards under the Cash Long-Term Plan. Refer to note (8) of the "Nonqualified Deferred Compensation" table on page 38 and "Description of Nonqualified Deferred Compensation Plans" on page 38 for additional information regarding the Cash Long-Term Plan.

For 2015, the Compensation Committee adopted pre-established, objective Return on Total Capital Employed ("ROTCE") performance targets under each of the Incentive Plans that were designed to meet the requirements of qualified performance-based compensation under Code Section 162(m) and preserve full income tax deductibility for the 2015 performance period. For each Incentive Plan, we established a formula for calculating awards that is based on a comparison of the Company's actual performance against these pre-established ROTCE targets. The Compensation Committee believes that use of ROTCE performance objectives align the executives' interests with those of our stockholders.

A threshold ROTCE target of 1% must be met in order for any payment to be made under a particular Incentive Plan. Once the threshold target is met, each Incentive Plan permits award payouts based on actual ROTCE results, with 100% of each participant's target award payable at 2% ROTCE and the maximum permitted award for each participant (defined as a percentage of the participant's target award) payable at 8% ROTCE. For 2015, the Company's final ROTCE results were above the maximum performance target of 8% ROTCE, permitting award payouts of up to 150% of each participant's target award under the Short-Term Plan and Cash Long-Term Plan and 200% of each participant's target award under the Equity Long-Term Plan, while still preserving full income tax deductibility under Code Section 162(m).

In order to determine the final incentive compensation payments for each participant under the Incentive Plans, the Compensation Committee compared actual results against certain underlying financial and operating performance measures and exercised "negative discretion," as permitted under Code Section 162(m). These underlying financial and operating performance measures are listed in the incentive compensation tables beginning on page 23 and reflect the achievement of specified business goals for 2015. See "Deductibility of Executive Compensation" on page 30 for additional information about our philosophy on structuring our incentive compensation plans for tax purposes.

In 2015, ROTCE targets were also used to determine final payouts for participants under the Short-Term Plan based on the pre-established formula (see "Short-Term Incentive Compensation" beginning on page 22). As a result, ROTCE serves as both a metric for tax deductibility to establish maximum potential incentive amounts and as a metric for underlying performance to determine final incentive compensation payout amounts.

ROTCE is calculated for both of these purposes as follows:

Earnings Before Interest After-Tax after adjustments

divided by

Total Capital Employed after adjustments

Earnings Before Interest After-Tax is equal to the sum of interest expense, net of interest income, less 38% for taxes, plus net income from continuing operations attributable to stockholders, which we refer to as net income. Total Capital Employed is equal to (i) the sum of the average debt and average stockholders' equity less (ii) average consolidated cash. Average debt, stockholders' equity and consolidated cash are calculated by taking the sum of the balance at the beginning of the year and the balance at the end of each of the next twelve months divided by thirteen.

Consolidated ROTCE is calculated from the financial statements using average debt, average stockholders' equity and average cash based on the sum of the balance at the beginning of the year and the balance at the end of each quarter divided by five, which is then adjusted for any non-recurring or special items.

Table of Contents

The same ROTCE targets were used under all three Incentive Plans for 2015. The following table contains the calculation of the Company's consolidated ROTCE for purposes of determining the threshold, target and maximum awards under the Incentive Plans for 2015:

| | | |
|--|---------|---|
| 2015 Net income | \$74.7 | |
| Plus: 2015 Interest expense, net | 3.2 | |
| Less: Income taxes on 2015 interest expense, net at 38% | (1.2 |) |
| Earnings Before Interest After-Tax | \$76.7 | |
| 2015 Average stockholders' equity (12/31/2014 and each of 2015's quarter ends) | \$449.7 | |
| 2015 Average debt (12/31/2014 and each of 2015's quarter ends) | 44.1 | |
| Less: 2015 Average cash (12/31/2014 and each of 2015's quarter ends) | (114.3 |) |
| Total Capital Employed | \$379.5 | |
| ROTCE (Before Adjustments) | 20.2 | % |
| Plus: Adjustments to Earnings Before Interest After-Tax | \$24.3 | |
| Plus: Adjustments to Total Capital Employed | \$9.2 | |
| Adjusted Consolidated ROTCE | 26.0 | % |

Adjustments to the ROTCE calculation under the Incentive Plans are non-recurring or special items that are established by the Compensation Committee at the time the ROTCE targets are set. During 2015, the anticipated and actual results of Nuvera Fuel Cells, LLC ("Nuvera") were excluded from the ROTCE target and Adjusted Consolidated ROTCE. In addition, for 2015, the ROTCE adjustments generally related to the after-tax impact of the following costs or expenses only if they were in excess of the amounts included in the 2015 annual operating plan:

- non-cash pension settlement accounting charges;
- valuation allowances provided against deferred tax assets;
- environmental expenses;
- restructuring expenses; and
- expenses related to tax law changes.

The Compensation Committee determined that these items were incurred in connection with improving our operations and, as a result, these items should not adversely affect incentive compensation payments, as the actions or events were beneficial to us or were generally not within the employees' control.

Calculation and Payment Overview. Awards under the Incentive Plans are determined as follows:

Target awards for each executive are equal to a specified percentage of the executive's 2015 salary midpoint, based on the number of Hay points assigned to the position and the appropriate level of short-term and long-term incentive compensation targets recommended by the Hay Group and adopted by the Compensation Committee at that level. The Compensation Committee then increases the target amounts under the Equity Long-Term Plan by 15% to account for the immediately taxable nature of the awards.

• The plans have a one-year performance period.

• Final awards are determined after year-end by comparing actual performance to the pre-established performance targets that were set by the Compensation Committee.

• The Compensation Committee, in its discretion, may decrease or eliminate awards.

For participants other than the NEOs, the Compensation Committee, in its discretion, may also increase awards and may approve the payment of awards where performance would otherwise not meet the minimum criteria set for payment of awards, although it rarely does so.

Short-Term Plan awards are paid annually in cash. Equity Long-Term Plan awards are paid annually in a combination of cash and restricted shares of Class A Common. Cash Long-Term Plan awards are paid in cash on the third anniversary of the grant date of the award.

• All awards are immediately vested when granted.

• Refer to "Employment and Severance Agreements" on page 29 for a description of the impact of a change in control on Incentive Plan awards.

Incentive Compensation Tables. When reviewing the incentive compensation tables beginning below, the following factors should be considered:

Selection of Performance Factors and Targets. The Compensation Committee considered the factors described under "Incentive Compensation - Overview" beginning on page 19 and adopted performance criteria and target performance levels to determine the 2015 incentive compensation awards. In calculating the various performance targets and results, adjustments were made for various items incurred in connection with improving our operations, similar to the adjustments listed for the ROTCE calculation above.

Achievement Percentages. The achievement percentages are based on the formulas contained in performance guidelines adopted by the Compensation Committee. The formulas do not provide for straight-line interpolation from the performance target to the maximum payment target.

Market Share Performance Factors. These tables do not disclose our market share targets or results due to the competitively sensitive nature of that information. The market share targets under the Short-Term Plan were based on our expected 2015 annual operating plan results, while the market share targets under the Equity Long-Term Plan were based on a combination of the Company's current market position and long-term strategic objectives. The Compensation Committee believed that, with strong management performance, it was reasonably possible for the Company to meet all market share targets in 2015.

Operating Profit Percent Over-Ride. The Compensation Committee approved the addition of an operating profit percent over-ride feature to each of the Incentive Plans for 2015. This feature provides for a reduction in payouts under the plans from the amounts otherwise determined under the pre-established performance targets unless a separate operating profit percent target of 4.0% is achieved, thus providing participants with additional motivation to deliver outstanding performance.

Nuvera Integration and Project Development Goals. For 2015, the Short-Term Plan awards for certain of the U.S. NEOs were based in part on performance criteria pertaining to the integration of Nuvera following its acquisition by HYG in December 2014. The integration and project development goals are highly specific, task-oriented goals. Among other things, they identify specific future projects, customers and contracts. The Compensation Committee believed that, with strong management performance, it was reasonably possible for the Company to meet all Nuvera integration and project development targets in 2015.

Short-Term Incentive Compensation

For 2015, the Short-Term Plan was designed to provide target short-term incentive compensation to the NEOs of between 50% and 100% of salary midpoint, depending on the NEO's position. The table below shows the short-term target awards approved by the Compensation Committee under the Short-Term Plan for each NEO for 2015:

| Named Executive Officer | (A) 2015 Salary Midpoint (\$) | (B) Short-Term Plan Target as a % of Salary Midpoint (%) | (C) = (A) x (B) Short-Term Plan Target (\$) | (D) 2015 Short-Term Plan Payout (%) (1) | (E) = (C) x (D) Short-Term Plan Payout (\$) | (F) = (E)/(A) Short-Term Plan Payout as a % of Salary Midpoint |
|------------------------------|---|---|---|--|---|---|
| Alfred M. Rankin, Jr. | \$742,650 | 100.0% | \$742,650 | 70.2% | \$520,969 | 70.2% |
| Kenneth C. Schilling | \$379,000 | 50.0% | \$189,500 | 71.1% | \$134,735 | 35.6% |
| Colin Wilson | \$728,500 | 80.0% | \$582,800 | 70.2% | \$408,834 | 56.1% |
| Charles F. Pascarelli (2) | \$444,600 | 55.0% | \$244,530 | 76.6% | \$187,310 | 42.1% |
| Rajiv K. Prasad | \$444,600 | 55.0% | \$244,530 | 66.4% | \$162,246 | 36.5% |
| Ralf A. Mock (3) | \$425,659 | 50.0% | \$212,830 | N/A | N/A | N/A |

Refer to the tables below for detailed calculations of the 2015 payout percentages for the Short-Term Plan. Note (1) that 5% of the 2015 Short-Term Plan payouts for Messrs. A. Rankin and Wilson, and 25% of the Short-Term Plan payout for Mr. Prasad, was based on Nuvera integration and project development goals.

(2) Mr. Pascarelli's 2015 Short-Term Plan payout was based on the performance of the Company's Americas division.

(3)

Mr. Mock's employment with HY-UK terminated effective April 15, 2015. His Short-Term Plan target for 2015 was set at 50% of his salary midpoint. Under the terms of the Short-Term Plan, Mr. Mock was not entitled to receive a final award for the period of time that he worked during 2015 because he was not employed on the last day of 2015.

The following tables show the performance criteria established by the Compensation Committee for 2015 under the Short-Term Plan to determine final incentive compensation payments for the NEOs.

Long-Term Incentive Compensation

The purpose of our Long-Term Incentive Plans is to enable senior management employees to accumulate capital through future managerial performance, which the Compensation Committee believes contributes to the future success of our business. Our Long-Term Incentive Plans require long-term commitment on the part of our senior management employees, and cash withdrawals or stock sales are generally not permitted for a number of years. Rather, the awarded amount is effectively invested in the Company for an extended period to strengthen the tie between stockholders' and the NEOs' long-term interests.

Those individual NEOs who have a greater impact on our long-term strategy receive a higher percentage of their compensation as long-term compensation. The Compensation Committee does not consider a NEO's long-term incentive awards for prior periods when determining the value of a long-term incentive award for the current period because it considers those prior awards to represent compensation for past services.

In 2015, all senior executives in the U.S., including all of the U.S. NEOs, participated in our Equity Long-Term Plan. With respect to the participants in the Equity Long-Term Plan, any gains the executives realize in the long run depend on what management does to drive the financial performance of the Company and increase the stock price. This is because the restricted shares of Class A Common that are awarded under the Equity Long-Term Plan generally may

not be transferred for ten years following the last day of the award year. During the holding period, the ultimate value of the shares is subject to change based on the value of the shares of stock. The value of the award is enhanced as the value of the stock increases or is reduced as the value of the stock decreases. Thus, the awards provide the executives with an incentive over the ten-year period to increase the value of the Company, which is expected to be reflected in the increased value of the stock awarded. The

Table of Contents

Compensation Committee believes that this encourages our executives to maintain a long-term focus on our profitability, which is also in the Company's best interests.

As a result of the annual grants under the Equity Long-Term Plan and the corresponding transfer restrictions, the number of shares of Class A Common that an executive holds generally increases each year. Consequently, our executives will continue to have or accumulate exposure to long-term Company performance notwithstanding any short-term changes in the price of shares of Class A Common. This increased exposure strongly aligns the long-term interests of the NEOs with those of other stockholders.

For 2015, approximately 65% of the Equity Long-Term Plan awards of the NEOs was distributed in shares of restricted stock, with the remaining 35% being distributed in cash to initially approximate the income tax withholding obligations for the stock. In addition, at the time the stock awards were issued, an NEO may surrender a portion of his shares to the Company to pay for additional tax withholding obligations associated with the award. The actual number of shares of stock issued to a participant is determined by taking the dollar value of the stock component of the award and dividing it by a formula share price. For this purpose, the formula share price is calculated as the lesser of: the average closing price of our Class A Common stock on the NYSE at the end of each week during the 2014 calendar year (or such other previous calendar year as determined by the Compensation Committee no later than the 90th day of the performance period); or the average closing price of our Class A Common stock on the NYSE at the end of each week during the 2015 performance period.

Participants have all of the rights of a stockholder, including the right to vote, upon receipt of the shares. The participants also have the right to receive dividends that are declared and paid after they receive the award shares. The full amount of the award, including the fair market value of the award shares on the date of grant, is fully taxable to the participant. The award shares that are issued are subject to transfer restrictions that generally lapse on the earliest to occur of:

- ten years after the last day of the performance period;
- the participant's death or permanent disability; or
- five years (or earlier with the approval of the Compensation Committee) from the date of retirement.

The Compensation Committee has the right to release the restrictions at an earlier date, but rarely does so for circumstances other than: (i) the purchase of a principal residence for the participant, (ii) payment of medical expenses for the participant, his spouse or his dependents, or (iii) payment of expenses for the education of the participant, his spouse or his dependents within the next 18 months.

Mr. Mock participated in the Cash Long-Term Plan in 2015. Refer to "Description of Nonqualified Deferred Compensation Plans" on page 38 for additional information on the Cash Long-Term Plan.

Table of Contents

For 2015, the Long-Term Incentive Plans were designed to provide target long-term incentive compensation to the NEOs of between 70% and 285% depending on the NEO's position. The table below shows the long-term target awards and payouts under the Long-Term Incentive Plans approved by the Compensation Committee for each NEO for 2015:

| Named Executive Officer and Long-Term Incentive Plan | (A) Salary Midpoint (\$) | (B) Long-Term Plan Target as a Percentage of Salary Midpoint (%) (1) | (C)=(A) x (B) Long-Term Plan Target (\$)(2)(3) | 2015 Long-Term Plan Payout (%) | (D) (E) = (C) x (D) Cash-Denominated Long-Term Plan Payout (\$)(3)(4) | (F)=(E)/(A) Cash-Denominated Long-Term Plan Payout as a Percentage of Salary Midpoint (%) | (G) Fair Market Value of Long-Term Plan Payout (\$)(3)(4) |

| Ralf A. Mock - Cash Long-Term Plan | \$402,500 | 70.0% | \$281,750 | N/A | N/A | N/A | N/A |

The target percentages for participants in the Equity Long-Term Plan include a 15% increase from the

(1) Hay-recommended long-term plan target awards that the Compensation Committee applies each year to account for the immediately taxable nature of the equity awards.

(2) Target awards under the Cash Long-Term Plan for non-U.S. employees are based on the Hay-recommended percentage of the U.S. salary midpoint for their salary grades, not on the local midpoint, and are denominated in U.S. dollars rather than local currency. Therefore, Mr. Mock's long-term target award was based on 70% of \$402,500 (his U.S. salary midpoint) rather than 70% of \$425,659 (his EMEA salary midpoint for 2015 converted

to U.S. dollars).

Awards under the Equity Long-Term Plan are initially denominated in dollars. The amounts shown in columns (C) and (E) reflect the 2015 dollar-denominated target and actual awards. This is the amount that is used by the Compensation Committee when analyzing the total compensation of the NEOs. The dollar-denominated awards are then paid to the participants in a combination of cash (approximately 35%) and restricted stock (approximately 65%). The number of shares of stock issued was determined using the formula share price described above. The amount shown in column (G) is the sum of (i) the cash distributed and (ii) the grant date fair value of the stock that

(3) was initially issued for the 2015 long-term awards. This amount is computed in accordance with FASB ASC Topic 718 and is the same as the amount that is disclosed in the Summary Compensation Table on page 32. The shares were valued on the date on which the Equity Long-Term Plan awards were approved by the Compensation Committee. The difference in the amounts disclosed in columns (E) and (G) is due to the fact that the number of shares issued was calculated using the formula share price of \$65.27 while the grant date fair value was calculated using \$53.385, which is the average of the high and low share price on the day the shares were granted.

Awards under the Cash Long-Term Plan are calculated and paid in dollars. There is no difference between the amount of the cash-denominated awards and the fair market value of the awards under the Cash Long-Term Plan.

(4) Mr. Mock terminated employment with HY-UK effective April 15, 2015. Under the terms of the Cash Long-Term Plan, Mr. Mock was not entitled to receive a final award for the period of time that he worked during 2015 because he was not employed on the last day of 2015.

(5) Mr. Pascarelli's 2015 Equity Long-Term Plan payout was based on the performance of the Company's Americas division.

Adjusted Operating Profit Percent. These tables do not disclose our adjusted operating profit percent target or results due to the competitively sensitive nature of that information. The operating profit percent targets used under the Long-Term Incentive Plans reflect long-term corporate objectives. The Compensation Committee believed that, with strong management performance, it was reasonably possible for the Company to meet all operating profit percent targets in 2015.

The Company also maintains the Hyster-Yale Materials Handling, Inc. Supplemental Long-Term Equity Incentive Plan, referred to as the Supplemental Equity Plan, which gives the Compensation Committee the flexibility to provide discretionary additional equity compensation. To date, the Compensation Committee has not granted any awards under the Supplemental Equity Plan.

Other Compensation of Named Executive Officers

Discretionary Cash Bonuses. The Compensation Committee has the authority to grant, and has from time to time granted, discretionary cash bonuses to our employees, including the NEOs, in addition to the Incentive Plan compensation described above. The Compensation Committee uses discretionary cash bonuses to reward substantial achievement or superior service to the Company and/or its subsidiaries, particularly when such achievement or service is not reflected in the performance criteria established under our Incentive Plans. No discretionary cash bonuses were awarded to the NEOs for 2015 performance.

Retirement Plans. The material terms of our retirement plans are described in the narratives following the Pension Benefits Table and the Nonqualified Deferred Compensation Table.

Defined Benefit Pension Plans. The NEOs do not currently accrue any defined benefit pension benefits. Mr. Wilson is entitled to receive payments from a frozen pension plan as indicated in the Pension Benefits Table on page 38.

Defined Contribution Plans. We provide the NEOs and most other full-time employees with defined contribution retirement benefits. Employer contributions are calculated under formulas that are designed to provide employees with competitive retirement income. The Compensation Committee believes that the target level of retirement benefits

gives us the ability to attract and retain talented management employees at the senior executive level and below. In general, the NEOs and other executive officers receive the same retirement benefits as all other similarly-situated employees. However, (i) certain retirement benefits that are provided to Messrs. A. Rankin and Wilson exceed the benefits that

27

Table of Contents

are provided to other employees and (ii) the benefits that are provided to the NEOs and other executive officers in the U.S. are provided under a combination of tax-favored and Excess Plans, while the benefits that are provided to other employees are provided generally only under tax-favored plans. The Excess Plans provide the U.S. employees with the retirement benefits that would have been provided under the tax-favored plans, but that cannot be provided due to various Internal Revenue Service regulations, limits and non-discrimination requirements.

Our defined contribution plans contain the following three types of benefits:

- employee deferrals;
- matching (or substitute matching) employer contributions; and
- profit sharing benefits.

The "compensation" that is taken into account under these plans generally includes base salary and Short-Term Plan payments, but excludes most other forms of compensation, including long-term incentive compensation and other discretionary payments.

Under the U.S. plans, eligible employees other than Mr. A. Rankin may elect to defer up to 25% of compensation. Mr. A. Rankin no longer defers any compensation under the defined contribution plans. Under the U.K. plan, Mr. Mock was permitted to defer up to 100% of compensation.

Under the matching portion of the plans for 2015, the NEOs received employer matching contributions in accordance with the following formulas:

- Mr. A. Rankin: an automatic 3% employer contribution;
- Messrs. Schilling, Wilson, Pascarelli and Prasad: a 3% match on the first 7% of contributions to the U.S. plans; and
- Mr. Mock: a 6% match on the first 6% of contributions to the U.K. plan.

Under the profit sharing portion of the plans, eligible employees receive a profit sharing contribution equal to a specified percentage of compensation that varies depending on the employee's age, compensation and our operating profit percent performance for the year. If the Company performs well, the amount of the profit sharing contribution increases. The range of profit sharing contributions for the NEOs in 2015 was:

- Messrs. A. Rankin and Wilson: between 4.50% and 14.90% of compensation;
- Messrs. Schilling and Pascarelli: between 3.80% and 12.25% of compensation;
- Mr. Prasad: between 3.20% and 10.05% of compensation; and
- Mr. Mock: 1.16% of compensation.

Messrs. A. Rankin, Schilling, Wilson, Prasad and Mock are all 100% vested in their retirement benefits, while Mr. Pascarelli is 60% vested in his retirement benefits. Benefits under the tax-favored plans are payable at any time following a termination of employment. Participants have the right to invest their account balances among various investment options that are offered by the plans' trustees. Participants can elect various forms of payment including lump sum distributions and installments.

Under the Excess Plans:

participants' account balances, other than excess profit sharing benefits, are credited with earnings during the year based on the rate of return of the Vanguard RST fixed income fund, which is one of the investment funds under the U.S. qualified defined contribution plan with a 14% maximum per year;

no interest is credited on excess profit sharing benefits;

the amounts credited under the Excess Plans each year are paid prior to March 15th of the following year to avoid regulatory complexities and eliminate the risk of non-payment to the executives based on the unfunded nature of the Excess Plans; and

the amounts credited under the Excess Plans each year are increased by 15% to reflect the immediately taxable nature of the payments. The 15% increase applies to all benefits other than interest and the portion of the employee deferrals that are in excess of the amount needed to obtain a full employer matching contribution.

Mr. Wilson maintains an account under the HYG Unfunded Benefit Plan (the "Frozen Unfunded Plan") that was frozen effective December 31, 2007. His frozen account is subject to the following rules:

Table of Contents

The frozen account is credited with interest each year. For 2015, interest on Mr. Wilson's account is credited at the rate of 2% during the year. Certain sub-accounts are credited with additional interest credits after year-end based on a formula that takes into account the final payout percentage under the Cash Long-Term Plan for the year, with a maximum of 14%.

The amount of the annual interest credits, increased by 15% to reflect the immediately taxable nature of the payments, is paid prior to March 15th of the following year.

The frozen account (including unpaid interest for the year of payment, if any) will be paid at the earlier of termination of employment (subject to a six-month delay if required under Section 409A of the Internal Revenue Code) or a change in control.

Upon payment of the frozen account, a determination will be made whether the highest incremental state and federal personal income tax rates in the year of payment exceed the rates that were in effect in 2008 when all other participants received their payments from the Frozen Unfunded Plan. In the event the rates have increased, an additional tax gross-up payment will be paid to Mr. Wilson. The Compensation Committee determined that we, and not the executive, should bear the risk of a tax increase after 2008 because Mr. Wilson would have received payment of his frozen account in 2008 were it not for the adverse cash flow and income tax impact on us. No other tax gross-ups (such as gross-ups for excise or other taxes) will be paid.

Other Benefits. All salaried U.S. employees, including the NEOs, participate in a variety of health and welfare benefit plans that are designed to enable us to attract and retain our workforce in a competitive marketplace.

Perquisites and Other Personal Benefits. Although we provide limited perquisites and other personal benefits to certain executives (mostly outside the U.S.), including Mr. Mock's car allowance, we do not believe these perquisites and other personal benefits constitute a material component of the executive officer's compensation package. See note (5) to the Summary Compensation Table on page 32.

Employment and Severance Agreements. Consistent with our general severance arrangement, upon an NEO's termination of employment with us for any reason, the NEO is entitled to:

• amounts or benefits earned or accrued during their term of employment, including earned but unpaid salary and accrued but unused vacation pay; and

• benefits that are provided in accordance with the terms of the retirement plans, the Incentive Plans, the Excess Plans and the Frozen Unfunded Plan at termination of employment that are further described in this Proxy Statement.

Upon termination of employment in certain circumstances and in accordance with the terms of a broad-based severance plan that applies to all U.S. salaried employees, the U.S. NEOs are also entitled to severance pay and continuation of certain health benefits for a stated period of time based on length of service.

For 2015, the only senior executive in the United States with a pre-arranged severance agreement was Mr. Pascarelli, who was hired in February 2013. Under his agreement, Mr. Pascarelli was entitled to receive severance benefits equal to the sum of a portion of his base salary and target short and long-term incentive targets if he was involuntarily terminated for reasons other than cause within two years of his date of hire. This special severance arrangement was approved by the Compensation Committee and expired in March 2015.

The terms and conditions of the employment of our executives outside the United States are generally defined in written agreements that cannot be revised without the consent of both the employer and the executive. Mr. Mock's agreement specified a minimum salary and car allowance. It also required participation in the Short-Term and Cash Long-Term Plans, but did not guarantee the amount of any incentive payments. Mr. Mock's agreement contained a 12-month notice provision, which is in excess of the general three-month statutory notice maximum in the U.K. Under this provision, a termination of Mock's employment without notice, would require us to pay Mr. Mock an amount equal to the sum of 12 months' base pay plus his annual car allowance. Any additional compensation or benefits would be the subject of negotiation.

In April 2015, HY-UK and Mr. Mock entered into the Separation Agreement which provided that Mr. Mock's employment with HY-UK would terminate effective April 15, 2015. More information concerning the terms of the Separation Agreement and the amounts payable thereunder is provided under "Potential Payments Upon Termination/Change in Control" beginning on page 35.

Limited Change in Control Benefits. In order to advance the compensation objective of attracting, retaining and motivating qualified management, the Compensation Committee believes that it is appropriate to provide limited change in control protections to the NEOs and other employees. The accrued account balances under the Cash Long-Term Plan, the Excess Plans and the Frozen Unfunded Plan will automatically be paid in the form of a lump sum payment in the event of a

Table of Contents

change in control of the Company or the participant's employer. A pro-rata target award under the current year's Incentive Plans will also be paid in the event of a change in control. The Compensation Committee believes that: The change in control payment triggers are appropriate due to the unfunded nature of the benefits provided under these plans;

- The skills, experience and services of our key management employees are a strong factor in our success and that the occurrence of a change in control transaction would create uncertainty for these employees; and Some key management employees would consider terminating employment in order to trigger the payment of their unfunded benefits if an immediate payment is not made when a change in control occurs.

Our change in control payment triggers are designed to encourage key management employees to remain employed during and after a change in control.

The change in control payment trigger under the Excess Plans and the Frozen Unfunded Plan does not increase the amount of the benefits payable under those plans. Participants will only receive their accrued account balance (including interest) as of the date of the change in control. However, the change in control provisions under our Incentive Plans, in addition to providing for the immediate payment of the account balance (plus interest) under the Cash Long-Term Plan as of the date of the change in control (if any), also provide for the payment of a pro-rated award target for the year of the change in control.

Importantly, these change in control provisions are not employment agreements and do not guarantee employment for any of the executives for any period of time. In addition, none of the payments under any plan will be "grossed up" for any excise taxes imposed on the executives as a result of the receipt of payments upon a change in control.

For a further discussion of the potential payments that may be made to the NEOs in connection with a change in control, see "Potential Payments Upon Termination/Change in Control" beginning on page 35.

Tax and Accounting Implications

Deductibility of Executive Compensation. As part of its role, the Compensation Committee reviews and considers the deductibility of executive compensation under Code Section 162(m), which provides that, subject to certain exceptions, we may not deduct compensation of more than \$1 million that is paid to the U.S. NEOs (other than Mr. Schilling). For 2015, each of our Incentive Plans was designed so that, together with steps taken by the Compensation Committee in the administration of the Incentive Plans, payouts on most awards should not count towards the \$1 million cap that Code Section 162(m) imposes for purposes of federal income tax deductibility.

While the Compensation Committee intends generally for payments under the Incentive Plans to meet the criteria for federal income tax deductibility under Code Section 162(m), such deductibility is not guaranteed and is only one factor among a number of factors considered in determining appropriate levels or modes of compensation. We maintain the flexibility to compensate executive officers based upon an overall determination of what the Compensation Committee believes is in the best interests of the Company and its stockholders, even if all or a portion of the compensation is determined not to be deductible under applicable law.

Accounting for Stock-Based Compensation. We account for stock-based payments in accordance with the requirements of FASB ASC Topic 718. Based on FASB ASC Topic 718, the grant date of the awards under the Equity Long-Term Plan for this purpose is the date on which the award shares are issued, which occurs in the year following the year in which the shares are earned. See Note 5 of the Company's audited consolidated financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 for more information regarding accounting treatment of our equity awards.

Other Policies and Considerations

Assessment of Risks in our Compensation Program. As part of its oversight, the Compensation Committee considers the impact of the Company's compensation program on the Company's risk profile. The Committee directed management to annually undertake a detailed risk assessment of our compensation programs. Each year, management, with the assistance of outside legal counsel, reviews our pay practices and incentive programs to identify any potential risks to the Company. Our pay philosophy provides an effective balance of base salary and incentive compensation; short and long-term performance measures; financial and non-financial performance measures and allows for the use of Compensation Committee discretion. Further, the Company has policies to mitigate compensation-related risk including lengthy holding periods for long-term awards; stated payment caps; insider-trading prohibitions and

independent Compensation Committee oversight. The Compensation Committee agreed with the findings of management's assessment for 2015 that (1) our compensation programs are effectively designed to help mitigate conduct that is inconsistent with building long-term value of the Company and (2) the

30

Table of Contents

risks arising from the Company's compensation policies and practices are not reasonably likely to have a material adverse effect on the Company.

Stock Ownership Guidelines. While the Company encourages the executive officers to own shares of Class A Common, it does not have any formal policy requiring the executive officers to own any specified amount of Class A Common. However, the shares of Class A Common granted under the Equity Long-Term Plan generally must be held for a period of ten years which can result in the executive officers being required to hold a significant accumulation of Class A Common during their careers.

Role of Executive Officers in Compensation Decisions. Our management, in particular the CEO of the Company and the CEO of HYG, reviews our goals and objectives relevant to the compensation of our executive officers. The CEO of HYG annually reviews the performance of each executive officer (other than the CEO of HYG whose performance is reviewed by the CEO of the Company, and the CEO of the Company, whose performance is reviewed by the Compensation Committee) and makes recommendations based on these reviews, including with respect to salary adjustments and incentive compensation award amounts, to the Compensation Committee. In addition to the CEO recommendations, the Compensation Committee considers recommendations made by the Hay Group, our independent outside compensation consultant, which bases its recommendations upon an analysis of similar positions at a broad range of domestic industries, as well as an understanding of our policies and objectives, as described above. The Compensation Committee can exercise its discretion in modifying any recommended adjustments or awards to executive officers. After considering these recommendations, the Compensation Committee determines the base salary and incentive compensation levels for the executive officers, including each NEO, and any additional discretionary payments.

Executive Compensation Program for 2016 and Impact of "Say on Pay" Stockholder Vote

When setting executive compensation for 2016, the Compensation Committee took into account the results of the stockholder advisory vote on executive compensation that occurred at our 2013 annual meeting of stockholders. Stockholders who cast votes nearly unanimously (99%) approved the compensation of our named executive officers described in our 2013 proxy statement. Our executive compensation program for 2016 will generally be, and our executive compensation program for 2014 and 2015 has generally been, structured in a manner similar to our 2013 program.

Principal changes for 2016 include (1) modifications to salary midpoints and base salaries in view of internal considerations as well as marketplace practice as reflected in analyses, general industry survey data and the recommendations of the Hay Group based on an updated All Industrial survey and (2) changes to targets for the Incentive Plans based on management recommendations as to the performance objectives of the particular business unit for 2016 or to better incentivize certain groups of participants.

The following additional changes have been made to our compensation program for 2016:

• The base salary threshold for participation in the Excess Plan was raised from \$125,000 to \$150,000 beginning January 1, 2016.

• The Nuvera employees began participating in the Company's benefit plans and programs, including our current Incentive Plans (based on their salary midpoints, as provided by the Hay Group).

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with the Company's management. Based on these reviews and discussions, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and in the Company's Annual Report on Form 10-K for the year ended December 31, 2015 filed with the SEC.

(2) Amounts in this column reflect the grant date fair value of shares of stock that were granted and initially issued under the Equity Long-Term Plan. The amount shown is the grant date fair market value as determined in accordance with FASB ASC Topic 718. These amounts are also reflected in the Summary Compensation Table on page 32.

(3) Awards under the Short-Term Plan are based on a one-year performance period that consists solely of the 2015 calendar year. The awards are paid out, in cash, as soon as practicable after they are calculated and approved by the Compensation Committee. Therefore, there is no post-2015 payout opportunity under this plan. The amounts disclosed in this table for the NEOs are the target and maximum awards that were established by the Compensation Committee in early 2015. The amount the NEOs actually received, after the final payout was calculated based on our actual performance compared to the pre-established performance goals, is disclosed in the Summary Compensation Table.

(4) These amounts reflect the awards issued under the Equity Long-Term Plan for 2015 performance. Awards are based on a one-year performance period that consists solely of the 2015 calendar year. The awards are paid out, partially in stock and partially in cash, as soon as practicable after they are calculated and approved by the Compensation Committee. Therefore, there is no post-2015 payout opportunity under the plan. The amounts disclosed in this table are the dollar values of the target and maximum awards that were established by the Compensation Committee in early 2015. These targets include the 15% increase to account for the immediately taxable nature of these equity awards. The cash portion of the award, representing 35% of the total award, is listed under column (A) of this table. The remaining 65% of the award, reflecting the stock portion of the award, is listed under column (B) of this table. The amount the executives actually received, after the final payout was calculated based on our actual performance compared to the pre-established performance goals, is disclosed in the Summary Compensation Table.

(5) This amount reflects the dollar value of the target award for Mr. Mock for the 2015 performance period under the Cash Long-Term Plan.

Description of Material Factors Relating to the Summary Compensation Table and Grants of Plan-Based Awards Table

The compensation of the NEOs consists of the following components: base salary (which includes the perquisite allowance for U.S. executives), short-term cash incentives and long-term equity and non-equity incentives. All of the NEOs also receive various retirement benefits. Each of these components is described in detail in the "Compensation Discussion and Analysis" which begins on page 15. Additional details of certain components are provided below.

Equity Compensation

In 2015, U.S. salaried employees in salary grades 26 and above, including the U.S. NEOs, participated in the Equity Long-Term Plan. All employees are also eligible to receive discretionary equity awards under the Supplemental Equity Plan. All awards are based on one-year performance periods and are immediately vested and paid when approved by the Compensation Committee. Therefore, no equity awards remain outstanding for the year ended December 31, 2015.

Awards under the Equity Long-Term Plan are paid partially in cash and partially in the form of fully vested shares of restricted stock. While the stock is fully vested at the time of grant, it is subject to transfer restrictions generally for a period of ten years from the date of grant. Refer to "Long-Term Incentive Compensation" beginning on page 24 and note (4) of the "Grants of Plan-Based Awards" table beginning on page 33 for additional information regarding our equity awards. The following table reflects the stock awards issued under the Equity Long-Term Plan for 2015 performance. No stock awards have been issued under the Supplemental Equity Plan.

Potential Payments Upon Termination/Change in Control

As discussed in "Employment and Severance Agreements " on page 29, Mr. Mock's employment with HY-UK terminated on April 15, 2015. Mr. Mock received severance benefits provided by his employment agreement and his Separation Agreement. These benefits generally consisted of:

In accordance with the terms of his employment agreement, \$459,491 in cash as compensation in lieu of a notice period, representing Mr. Mock's base pay for 12 months (which was \$446,814), plus his annual car allowance (which was \$20,411), less his excess holiday pay (which was \$7,734);

- \$161,467 in cash in lieu of expected payments under the Company's Short-Term and Cash Long-Term Plans;
- a contribution to the U.K. defined contribution plan of \$61,141, representing 12 months of employer contributions;
- \$279,989 in cash as negotiated separation pay; and
- continued Company funding of private healthcare and life insurance through April 14, 2016.

Mr. Mock executed a release in favor of the Company.

The following change in control provisions are contained in the Incentive Plans, Excess Plans and Frozen Unfunded Plan:

the account balances as of the date of the change in control in the Cash Long-Term Plan, the Excess Plans and the Frozen Unfunded Plan will automatically be paid in the form of a lump sum payment in the event of a change in control of the Company or the participant's employer; and

the change in control provisions under our Incentive Plans, in addition to providing for the immediate payment of the account balance (plus interest) as of the date of the change in control, also provide for the payment of a pro-rated target award for the year of the change in control.

A "change in control" for purposes of these plans generally consists of any of the following provided that the event otherwise qualifies as a change in control under the regulations issued under Section 409A of the Code:

(1) An acquisition of more than 50% of the voting securities of the Company or the voting securities of the subsidiary (for those employees of that particular subsidiary) other than acquisitions directly from the Company or the subsidiary, as applicable, involving:

•any employee benefit plan;

•the Company;

•the applicable subsidiary or one of its affiliates; or

•the parties to the stockholders' agreement discussed under "Amount and Nature of Beneficial Ownership - Class B Common Stock" on page 43;

(2) The members of the Company's current Board of Directors (and their approved successors) ceasing to constitute a majority of the Company's Board of Directors or, if applicable, the board of directors of a successor of the Company;

(3) For those plans that cover the employees of a subsidiary, the consummation of a reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the subsidiary and its affiliates, excluding a business combination pursuant to which the individuals and entities who beneficially owned, directly or indirectly, more than 50% of the combined voting power of the applicable entity immediately prior to such business combination continue to hold at least 50% of the voting securities of the successor;

(4) For all plans, the consummation of a reorganization, merger or consolidation or sale or other disposition of all or substantially all of the assets of the Company or the acquisition of assets of another corporation, or other transaction involving the Company excluding, however, a business combination pursuant to which both of the following apply:

Table of Contents

the individuals and entities who beneficially owned, directly or indirectly, more than 50% of the combined voting power of the Company immediately prior to such business combination continue to hold at least 50% of the voting securities of the successor; and

at the time of the execution of the initial agreement, or of the action of the Board of Directors of the Company providing for such business combination, at least a majority of the members of the Board of Directors of the Company were incumbent directors.

For purposes of calculating the amount of any potential payments to the NEOs under the table provided below, we have assumed that a change in control occurred on December 31, 2015. We believe that the remaining assumptions listed below, which are necessary to produce these estimates, are reasonable individually and in the aggregate.

However, there can be no assurance that a change in control would produce the same or similar results as those described if it occurs on any other date or if any assumption is not correct in fact.

This column reflects the award targets for the NEOs under the Incentive Plans for 2015. Under the change in control provisions of the plans, they would have been entitled to receive their award targets for 2015 if a change in control had occurred on December 31, 2015. Awards under the Equity Long-Term Plan are denominated in dollars (1) and the amounts shown in the above table reflect the dollar-denominated 2015 target awards (including the 15% increase to reflect the immediately taxable nature of the award). As described in note (4) to the Grants of Plan-Based Awards Table, the NEOs would receive approximately 35% of the value of the award in cash, and the remainder in shares of restricted stock.

This column reflects the December 31, 2015 account balances of Messrs. Wilson and Prasad (for awards issued under the Cash Long-Term Plan for years prior to 2013) and Mr. Mock (for awards issued under the Cash Long-Term Plan for years prior to 2015). Under the change in control provisions of this plan, these NEOs would have been entitled to receive the acceleration of the payment of their entire account balances under the plan if a (2) change in control had occurred on December 31, 2015. The amounts shown for Messrs. Wilson and Prasad were earned for services performed in years prior to 2013 and were 100% vested prior to December 31, 2013. The amount shown for Mr. Mock was earned for services performed in years prior to 2015 and was 100% vested prior to December 31, 2015. No additional amounts are paid due to a change in control. There are no accrued balances under the Equity Long-Term Plan.

This column reflects the account balances of the NEOs as of December 31, 2015 under the Excess Plans and the Frozen Unfunded Plan (for Mr. Wilson). Under the change in control provisions of those plans, the NEOs would have been entitled to receive payment of their entire account balances if a change in control had occurred on (3) December 31, 2015. No additional amounts are paid due to a change in control. The majority of the amount shown for Mr. Wilson is 100% vested and was earned for services performed in years prior to 2015. Only a small portion of his account balance represents benefits earned for services performed in 2015. Each of these plans are discussed in more detail under "Nonqualified Deferred Compensation Benefits" below.

Because Mr. Mock terminated employment with the Company effective April 15, 2015, he would not have been entitled to any potential change in control payments under the Company's Incentive Plans if a change in control had (4) occurred on December 31, 2015, other than the acceleration of the payment of his account balances under the Cash Long-Term Plan that were earned for services performed in years prior to 2015 and were 100% vested prior to December 31, 2015.

The following table sets forth information concerning benefits earned by, and paid to, the NEOs under our nonqualified defined contribution and deferred compensation plans as of December 31, 2015.

(1) These amounts, which were otherwise payable in 2015 but were deferred at the election of the executives, are included in the Summary Compensation Table.

(2) All employer contributions and the above-market earnings portion of the amounts shown in the "Aggregate Earnings" column are included in the Summary Compensation Table.

(3) The NEOs each receive payment of the amounts earned under the Excess Plans for each calendar year (including interest) no later than March 15th of the following year. Because the payments for 2014 were made in 2015, they are reflected as a distribution in 2015. Because the payments for 2015 were made in 2016, they are reflected in the NEO's aggregate balance as of December 31, 2015 and are not reflected as a distribution in 2015.

(4) \$336,421 of Mr. A. Rankin's account balance, \$93,156 of Mr. Schilling's account balance, \$247,419 of Mr. Wilson's account balance, \$97,653 of Mr. Prasad's account balance and \$100,507 of Mr. Pascarelli's account balance is reported in the 2015 Summary Compensation Table. Because the entire account balance under the Excess Plans is paid out each year, none of their current account balance was previously reported in prior Summary Compensation Tables.

(5) No additional contributions (other than interest credits) were made to the Frozen Unfunded Plan. No contributions were made to the Cash Long-Term Plan for Messrs. Wilson, Prasad or Mock for 2015.

(6) The interest that is accrued under the Frozen Unfunded Plan each calendar year is paid no later than March 15th of the following year. Because the interest that was credited to Mr. Wilson's account for 2014 was paid in 2015, it is reflected as a distribution for 2015.

Description of Nonqualified Deferred Compensation Plans

Refer to "Retirement Plans" on page 27 for a detailed discussion of the terms of our nonqualified deferred compensation plans. The following is a summary of special rules that apply under each plan that are not otherwise described therein.

Table of Contents

Executive Excess Plan: In addition to the substitute matching and profit sharing benefits previously described, Mr. A. Rankin also annually receives a benefit of \$37,710 credited to his account under the Executive Excess Plan.

Frozen Unfunded Plan: From January 1, 2000 through May 31, 2000, Mr. Wilson was not eligible to participate in our tax-favored defined contribution plan. Instead, he deferred a portion of his salary and bonus under the Frozen Unfunded Plan. When he became a participant in the U.S. qualified defined contribution plan, these additional deferrals ceased.

Cash Long-Term Plan: The awards granted under the Cash Long-Term Plan are subject to the following rules:

The awards are immediately vested as of the grant date of the award (which is the January 1st following the end of the performance period).

Once granted, awards are not subject to any forfeiture or risk of forfeiture.

Awards approved by the Compensation Committee for a calendar year are credited to separate sub-accounts established for each participant for each award year. During 2015, the sub-accounts were credited with 2% interest during the year. If a participant remained actively employed through 2015, additional interest was credited based on the chart that converted the payout factor under the Cash Long-Term Plan to a specified interest rate, with a maximum of 14% maximum per year.

Each sub-account is paid at the earliest of death, disability, retirement, change in control or on the third anniversary of the grant date of the award.

Description of Pension Plans

Messrs. A. Rankin, Schilling, Prasad, Pascarelli and Mock do not participate in any of our pension plans. Mr. Wilson is entitled to receive frozen pension benefits that are 100% vested.

The amounts shown above were determined as of December 31, 2015, which is the measurement date for pension benefits that is used in our financial statements. In determining the present value of the pension benefits under the UK Plan, a discount rate of 3.70% and an assumed retirement age of 65 with no pre-retirement decrement was used. The following additional material assumptions were used in the calculations:

For the UK Plan, the SAPS series mortality table, year of use 2015, with a 1.25 multiplier and an annual cost-of-living adjustment of 2.0% (in-payment and in-deferment).

Mr. Wilson was a participant in the UK Plan for periods prior to May 31, 1995. His pension benefits in the UK Plan are generally computed under the following formula: 1/45th of "final average pay" multiplied by years of credited service

Table of Contents

before June 30, 2004 plus 1/60th of "final average pay" multiplied by years of credited service after June 30, 2004. For computing pension benefits under the UK Plan, "final average pay" is based on the highest annual average of pay in any period of three consecutive years in the ten years immediately preceding May 31, 1995 for Mr. Wilson. For purposes of the UK Plan, "pay" is generally a participant's annual salary excluding bonuses, commissions, overtime payments and shift allowances less a U.K. based national insurance contributions deduction. Mr. Wilson is eligible for unreduced early retirement benefits under the UK Plan. Pension payments are paid in the form of a monthly annuity with survivorship protection.
