Explanation of Responses:

* If the form is filed by more than one reporting person, *see* Instruction 4(b)(v).

** Intentional misstatements or omissions of facts constitute Federal Criminal Violations. *See* 18 U.S.C. 1001 and 15 U.S.C. 78ff(a).

(1) On February 10, 2017, the reporting person reported the grant of certain market restricted stock units (the "MRSUs"). The MRSUs have a service-based vesting component as well as a Total Shareholder Return Multiplier. On February 9, 2018, pursuant to the terms of the service-based vesting component of the MRSUs, the first tranche of such award vested. Based upon the Total Shareholder Return Multiplier, the reporting person received 252 additional shares of the Company's restricted stock, such shares representing the amount vested in excess of the target amount of MRSUs initially reported on Form 4 in February 2017.

(2) Includes 15 shares acquired through dividend reinvestment.

(3) These shares were withheld upon the vesting of MRSUs to pay tax witholding obligations.

Note: File three copies of this Form, one of which must be manually signed. If space is insufficient, *see* Instruction 6 for procedure.

Potential persons who are to respond to the collection of information contained in this form are not required to respond unless the form displays a currently valid OMB number. lign=right width="2%"> Cash paid during the period for interest$15,000 $- $15,000 **Non – cash investing and financing activities:** Beneficial conversion feature$- $- $224,528 Financing costs associated with warrants$- $- $252,305 Common stock issued to satisfy common stock payable$- $- $1,000,000 Cancellation of subscriptions receivable$382,500 $- $382,500 Stock issued for mineral property$- $2,295,000 $2,607,500

American Lithium Minerals, Inc.
(An Exploration Stage Company)
Notes to Annual Financial Statements
(Expressed in U.S. Dollars)
30 June 2011
(Unaudited)

1. Nature of Operations

American Lithium Minerals, Inc. (the "Company") was originally organized as Nugget Resources Inc. under the laws of the State of Nevada on March 10, 2005. The Company has been investigating prospective lithium opportunities. On March 2, 2009, the Company changed its name to American Lithium Minerals, Inc. to better reflect the direction of the Company. The Company is an exploration stage enterprise, as defined in FASB ASC 915-10 *"Development Stage Entities"*. The Company is devoting all of its present efforts to securing and establishing a new business and its planned principal operations have not commenced. Accordingly, no revenue has been derived during the exploration period.

On May 7, 2010, the Company was registered under the Extra-Provincial Corporations Act in Ontario, Canada.

Going Concern

The Company's financial statements as at June 30, 2011 have been prepared on a going concern basis, which contemplates the realization of assets and the settlement of liabilities and commitments in the normal course of business. The Company has a net loss for the periods ended June 30, 2011 and 2010 of $5,430,606 and $10,512,200 respectively, and has working capital deficit of $2,770,144 and $255,493 at June 30, 2011 and September 30, 2010, respectively.

Management cannot provide assurance that the Company will ultimately achieve profitable operations or become cash flow positive, or raise additional debt and/or equity capital. Management intends to raise additional funding in the form of equity financing from the sale of common stock and/or obtain short-term loans from the directors of the Company. However, if the Company is unable to raise additional capital in the near future, due to the Company's liquidity problems, management expects that the Company will need to curtail operations, liquidate assets, seek additional capital on less favourable terms and/or pursue other remedial measures. These financial statements do not include any adjustments related to the recoverability and classification of assets or the amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

At June 30, 2011, the Company was not engaged in a business and had suffered losses from exploration stage activities to date. Although management is currently attempting to implement its business plan, and is seeking additional sources of equity or debt financing, there is no assurance these activities will be successful. Accordingly, the Company must rely on its president to perform essential functions with minimal compensation until a business operation can be commenced. These factors raise substantial doubt about the ability of the Company to continue as a going concern.

American Lithium Minerals, Inc.
(An Exploration Stage Company)
Notes to Annual Financial Statements
(Expressed in U.S. Dollars)
30 June 2011
(Unaudited)

1. Nature of Operations (cont'd)

Unaudited Financial Statements

The accompanying unaudited financial statements have been prepared in accordance with generally accepted accounting principles for financial information and with the instructions to Form 10-Q. They do not include all information and footnotes required by United States generally accepted accounting principles for complete financial statements. However, except as disclosed herein, there have been no material changes in the information disclosed in the notes to the financial statements for the year ended September 30, 2010, included in the Company's Annual Report on Form 10-K filed with the Securities and Exchange Commission. The unaudited financial statements should be read in conjunction with those financial statements included in the Form 10-K. In the opinion of Management, all adjustments considered necessary for a fair presentation, consisting solely of normal recurring adjustments, have been made. Operating results for the nine months ended June 30, 2011, are not necessarily indicative of the results that may be expected for the year ending September 30, 2011.

2. Significant Accounting Policies

The following is a summary of significant accounting policies used in the preparation of these financial statements.

Basis of presentation

The financial statements of the Company have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to exploration stage enterprises, and are expressed in U.S. dollars. The Company's fiscal year end is September 30.

Cash and cash equivalents

Cash and cash equivalents include highly liquid investments with original maturities of three months or less.

Mineral property costs

The Company has been in the exploration stage since its formation on March 10, 2005 and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition and exploration of mining properties. Mineral property exploration costs are charged to operations as incurred. The Company capitalizes costs for acquiring mineral properties and expenses costs to maintain mineral rights and leases as incurred. When it has been determined that a mineral property can be economically developed as a result of establishing proven and probable reserves, the costs incurred to develop such property, are capitalized. Such costs will be depleted using the units-of-production method over the estimated life of the probable reserve.

Although the Company has taken steps to verify title to mineral properties in which it has an interest, according to the usual industry standards for the stage of exploration of such properties, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

American Lithium Minerals, Inc.
(An Exploration Stage Company)
Notes to Annual Financial Statements
(Expressed in U.S. Dollars)
30 June 2011
(Unaudited)

2. Significant Accounting Policies (continued)

Financial instruments

The carrying value of cash, accounts payable and accrued liabilities, and due to related parties approximates their fair value because of the short maturity of these instruments. The Company's operations are in Canada and virtually all of its assets and liabilities are giving rise to significant exposure to market risks from changes in foreign currency rates. The Company's financial risk is the risk that arises from fluctuations in foreign exchange rates and the degree of volatility of these rates. Currently, the Company does not use derivative instruments to reduce its exposure to foreign currency risk.

Environmental expenditures

The operations of the Company have been, and may in the future, be affected from time to time, in varying degrees, by changes in environmental regulations, including those for future reclamation and site restoration costs. Both the likelihood of new regulations and their overall effect upon the Company vary greatly and are not predictable. The Company's policy is to meet or, if possible, surpass standards set by relevant legislation, by application of technically proven and economically feasible measures.

Asset retirement obligations

The Company has adopted the provisions of FASB ASC 410-20 "Asset Retirement and Environmental Obligations," which requires the fair value of a liability for an asset retirement obligation to be recognized in the period in which it is incurred if a reasonable estimate of fair value can be made. The associated asset retirement costs are capitalized as part of the carrying amount of the related oil and gas properties. As of June 30, 2011, the Company has not recorded AROs associated with legal obligations to retire any of the Company's mineral properties as the settlement dates are not presently determinable.

Fixed Assets

The Company's fixed assets consists of computer and office equipment and furniture which is valued at cost and depreciated using the straight-line method over a period of three years.

Income taxes

Deferred income taxes are reported for timing differences between items of income or expense reported in the financial statements and those reported for income tax purposes in accordance with FASB ASC 740-10, which requires the use of the asset/liability method of accounting for income taxes. Deferred income taxes and tax benefits are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and for tax loss and credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The Company provides for deferred taxes for the estimated future tax effects attributable to temporary differences and carry-forwards when realization is more likely than not.

American Lithium Minerals, Inc.
(An Exploration Stage Company)
Notes to Annual Financial Statements
(Expressed in U.S. Dollars)
30 June 2011
(Unaudited)

2. Significant Accounting Policies (continued)

Basic and diluted net loss per share

The Company computes net loss per share in accordance with FASB ASC 260, which requires presentation of both basic and diluted earnings per share (“EPS”) on the face of the income statement. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all potentially dilutive common shares outstanding during the period. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all potentially dilutive shares if their effect is anti-dilutive and is not presented in the accompanying financial statements.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

Concentrations of credit risk

The Company’s financial instruments that are exposed to concentrations of credit risk primarily consist of its cash. The Company places its cash and cash equivalents with financial institutions of high credit worthiness. At times, its cash and cash equivalents with a particular financial institution may exceed any applicable government insurance limits. The Company’s management also routinely assesses the financial strength and credit worthiness of any parties to which it extends funds and as such, it believes that any associated credit risk exposures are limited.

Stock based compensation

The Company records stock based compensation in accordance with the guidance in ASC Topic 718, which requires the Company to recognize expense related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. The Company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

American Lithium Minerals, Inc.
(An Exploration Stage Company)
Notes to Annual Financial Statements
(Expressed in U.S. Dollars)
30 June 2011
(Unaudited)

2. Significant Accounting Policies (continued)

The Company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with FASB ASC 718-10 and the conclusions reached in FASB ASC 505-10. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by FASB ASC 505-10.

Risks and uncertainties

The Company operates in the resource exploration industry that is subject to significant risks and uncertainties, including financial, operational, technological, and other risks associated with operating a resource exploration business, including the potential risk of business failure.

Website Development Costs

Costs incurred in developing and maintaining a website are charged to expense when incurred for the planning, content population, and administration or maintenance of the website. All development costs for the application, infrastructure, and graphics development are capitalized and subsequently reported at the lower of unamortized cost or net realizable value. Capitalized costs are amortized using the straight-line basis over a five year estimated economic life of the product.

Foreign Currency Translation

The financial statements are presented in United States dollars. In accordance with FASB ASC 830-10, “Foreign Currency Matters”, foreign denominated monetary assets and liabilities are translated to their United States dollar equivalents using foreign exchange rates which prevailed at the balance sheet date. Revenue and expenses are translated at average rates of exchange during the period. Related translation adjustments are reported as a separate component of stockholders’ equity, whereas gains or losses resulting from foreign currency transactions are included in results of operations. To June 30, 2011, the Company has not recorded any translation adjustments into stockholders’ equity.

Long-lived assets

The Company accounts for its long-lived assets in accordance with FASB ASC 360-10, “Property, Plant and Equipment” which requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the historical cost carrying value of an asset may no longer be appropriate. The Company assesses recoverability of the carrying value of an asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset’s carrying value and fair value or disposal value.

American Lithium Minerals, Inc.
(An Exploration Stage Company)
Notes to Annual Financial Statements
(Expressed in U.S. Dollars)
30 June 2011
(Unaudited)

3. Reclassification

Certain reclassifications have been made in the prior year's financial statements to conform to the presentation used in fiscal year 2011. More specifically, a due from related party, previously classified as a current asset, was reclassified as a contra account to Stockholders' equity. Additionally, Cash proceeds received on property deposit and purchase of mineral claims and exploration, previously reported on a net basis, are reported separately on the statement of cash flows.

These reclassifications did not affect the reported net loss for prior year.

4. Fixed Assets

The Company's fixed assets consist of the following:

	30 June 2011	30 September 2010
Computer	$ 4,878	$ 4,878
Office furniture	13,774	13,774
	18,652	18,652
Less - accumulated depreciation	(4,906)	(1,620)
Net fixed assets	$ 13,746	$ 17,032

Depreciation of $3,286 and $626 is included in general and administrative expenses in the statement of operations for the periods ended June 30, 2011 and June 30, 2010, respectively.

5. Website

	30 June 2011	30 September 2010
Website	$ 11,813	$ 11,813
Less - accumulated amortization	(2,757)	(985)
Net website	$ 9,056	$ 10,828

Amortization expense of $1,772 and $394 is included in general and administrative expenses in the statement of operations for the periods ended June 30, 2011 and June 30, 2010, respectively.

6. Mineral Properties

Pursuant to a mineral property purchase agreement dated August 17, 2005, the Company acquired a 100% undivided right, title and interest in a 524.728 hectare mineral claim, located in the Similkameen Mining Division of British Columbia, Canada for a cash payment of $4,000 (paid). During the year ended September 30, 2006, the Company paid

$5,000 for exploration work on the property. The Company was unable to keep the mineral claim in good standing due to lack of funding and has lost its interest in the mineral claim.

American Lithium Minerals, Inc.
(An Exploration Stage Company)
Notes to Annual Financial Statements
(Expressed in U.S. Dollars)
30 June 2011
(Unaudited)

6. Mineral Properties (continued)

Pursuant to a mineral property purchase agreement dated June 15, 2009, the Company acquired an option to acquire a 100% interest in 88 unpatented mining claims in Esmeralda County, Nevada, U.S.A, subject to a 3% Net Value Royalty. Consideration for the property is as follows:

Cash payments of:

- $5,000 upon the execution of a letter of intent on April 29, 2009, (paid);
- $56,000 upon execution of the agreement (paid);
- $18,000 upon presentation of a receipt for payment of the filing and claim maintenance fees;
- $35,000 on or before June 15, 2010; (see below)
- $50,000 on or before June 15, 2011;
- $100,000 on or before June 15, 2012;
- $100,000 on or before June 15, 2013.

Shares to be issued:

- 250,000 common shares on execution of the agreement; (issued, valued at $120,000 using the market price of $0.48 per share)
- 250,000 common shares on or before June 15, 2010; and (see below)
- 250,000 common shares on or before June 15, 2011.

The Company has the right to purchase up to two percent (2%) of the Net Value Royalty, in whole percentage points, for $1,000,000 for each 1%.

Should the Company, its assignees or a joint venture partner: (i) deliver to the board of directors or applicable other management a feasibility study recommending mining of lithium carbonate or other lithium compound from the property and such board authorizes implementation of a mining plan, or (ii) sells, options, assigns, disposes or otherwise alienates all or a portion of its interest in the property, the Company will pay the vendor an additional $500,000 in cash or shares.

The Company has a commitment to incur $2,000,000 in exploration expenditures within five years of the agreement as follows:

- $100,000 during the first year;
- $200,000 during the second year;
- $500,000 during the third year;
- $1,200,000 during the fourth year.

The Company was in negotiations with the vendor regarding the property agreement and has since terminated their discussions to move forward on the property. The Company expensed $295,609 as mineral property impairment during the year ended September 30, 2010 related to the costs being capitalized on the property.

American Lithium Minerals, Inc.
(An Exploration Stage Company)
Notes to Annual Financial Statements
(Expressed in U.S. Dollars)
30 June 2011
(Unaudited)

6. Mineral Properties (continued)

Pursuant to a letter of intent dated August 30, 2009, the Company acquired an option to acquire a 100% interest in 50 mining claims in Esmeralda County, Nevada, U.S.A, subject to a 3% Net Value Royalty. The Company had the right to negotiate and enter into a definitive purchase agreement on or before January 1, 2010 which encompasses the terms of the letter of intent. The Company has a verbal agreement to continue to negotiate a definitive agreement. As per the terms of the letter of intent the consideration for the property is as follows:

Cash payments of:

- $20,000 upon the execution of a letter of intent on August 30, 2009, (paid);
- $32,500 upon execution of the purchase agreement;
- $50,000 on or before the first year anniversary;
- $100,000 on or before the second year anniversary;
- $100,000 on or before the third year anniversary;
- $100,000 on or before the fourth year anniversary.

Shares to be issued:

- 250,000 common shares on execution of the letter of intent; (issued valued at $120,000 using the market price of $0.48 per share)
- 250,000 common shares on or before first year anniversary;
- 250,000 common shares on or before second year anniversary; and
- 250,000 common shares on or before third year anniversary.

The Company has the right to purchase up to two percent (2%) of the Net Value Royalty, in whole percentage points, for $1,000,000.

The Company has a commitment to incur $1,300,000 in exploration expenditures within four years of the agreement as follows:

- $100,000 during the first year;
- $200,000 during the second year;
- $500,000 during the third year;
- $500,000 during the fourth year.

The Company discontinued negotiations to enter into a definitive agreement on this property and has expensed $217,687 as mineral property impairment during the year ended September 30, 2010 related to the costs being capitalized on this property.

On January 5, 2010, the Company entered into an agreement to acquire a 100% interest in mineral claims located in Nevada, USA. Consideration includes a cash payment of $50,000 (paid) and the issuance of 500,000 shares (issuance valued at $425,000 using market price of $0.85 per share). In the event that the share price of the Company closes at less than $1.00, six to twelve months after

30 June 2011
(Unaudited)

6. Mineral Properties (continued)

the closing date of the Agreement, the Company shall issue on a one-time basis, an additional 200,000 shares. On July 6, 2010, the price per share of the Company's common stock closed at a price per share less than $1.00. On August 12, 2010, the Company issued 200,000 shares of common stock as required under the agreement (valued at $146,000 using market price of $0.73 per share). A 2% NRR is payable to the vendor with the provision that the Company can buyback the NRR for $2 million.

On January 11, 2010, the Company entered into an agreement to acquire a 100% interest in mineral claims located in Nevada, USA. Consideration includes a cash payment of $40,000 (paid) and the issuance of 500,000 shares (issuance valued at $550,000 using the market price of $1.10 per share). A 2% NRR is payable to the vendor with a provision that the Company can purchase 1% back for $1 million.

On January 11, 2010, the Company entered into an agreement to acquire a 100% interest in mineral claims located in Nevada and Utah, USA. Consideration includes a cash payment of $40,000 (paid) and the issuance of 1,200,000 shares (issuance valued at $1,320,000 using the market price of $1.10 per share). A 2% NRR is payable to the vendor with a provision that the Company can purchase 1% back for $1 million.

On June 10, 2010, the Company entered into an property option agreement with Japan Oil, Gas and Metals National Corporation ("JOGMEC") whereby JOGMEC can earn a 40% interest in certain mineral claims located in Nevada, USA owned by the Company. Terms of the agreement include staged work commitments totaling $4,000,000 over three years. JOGMEC also has the option to terminate the agreement with 30 days notice after expending $600,000. As of June 30, 2011 JOGMEC has advanced the Company $1,805,587 for work commitments. The $1,805,587 advance has been recorded as a deposit liability on property option.

xxiii. On May 11, 2011 the Company issued 1,800,000 common shares with a fair value of $0.36 for a total value of $648,000, being the balance of shares payable under the amended terms of the consulting agreement.

On March 2, 2009, the Board of Directors authorized a 4:1 forward stock split. The number of shares issued in accordance with the private offerings as listed above, include the effects of this split.

Stock Options

On August 20, 2009, the Board of Directors of the Company ratified, approved and adopted a Stock Option Plan for the Company in the amount of 4,000,000 shares with an exercisable period up to 10 years. In the event an optionee ceases to be employed by or to provide services to the Company for reasons other than cause, any Stock Option that is vested and held by such optionee may be exercisable within up to ninety calendar days after the effective date that his position ceases. No Stock Option granted under the Stock Option Plan is transferable. Any Stock Option held by an optionee at the time of his death may be exercised by his estate within one year of his death or such longer period as the Board of Directors may determine. On December 3, 2009, the Company filed a Form S-8 to register these shares.

On August 20, 2009, the Company granted a total of 50,000 fully vested stock options to a consultant of the Company at $0.60 per share expiring August 20, 2014.

On September 1, 2009, the Company granted a total of 500,000 stock options to a consultant of the Company at $0.85 per share expiring August 31, 2010. The options vest in increments of 125,000 options per quarter for the duration of the term. On January 8, 2010, the option agreement was amended to 100% vesting of the options.

On October 6, 2009, the Company granted a total of 50,000 fully vested stock options to a consultant of the Company at $0.85 per share expiring October 6, 2014.

On October 8, 2009, the Company granted a total of 750,000 stock options to a consultant of the Company at $0.85 per share expiring October 8, 2014. 250,000 options vest immediately, 250,000 on February 4, 2010, and 250,000 on May 4, 2010. On January 8, 2010, the option agreements were amended to 100% vesting of the options.

On November 4, 2009, the Company granted a total of 750,000 stock options to a consultant of the Company at $0.85 per share expiring November 8, 2014. 250,000 options vest immediately, 250,000 on February 4, 2010 and 250,000 on May 4, 2010. On January 8, 2010, the option agreements were amended to 100% vesting of the options.

On December 29, 2009, the Company granted a total of 500,000 fully vested stock options to a consultant of the

Company at $0.85 per share expiring December 29, 2014.

Stock Options

On March 4, 2010, the Company granted a total of 1,325,000 fully vested stock options to a director and a consultant of the Company at $0.85 per share expiring March 4, 2015.

On March 8, 2010, the Board of Directors of the Company ratified, approved and adopted a Stock Option Plan for the Company in the amount of 5,000,000 shares with an exercisable period up to 10 years. In the event an optionee ceases to be employed by or to provide services to the Company for reasons other than cause, any Stock Option that is vested and held by such optionee may be exercisable within up to ninety calendar days after the effective date that his position ceases. No Stock Option granted under the Stock Option Plan is transferable. Any Stock Option held by an optionee at the time of his death may be exercised by his estate within one year of his death or such longer period as the Board of Directors may determine. On July 20, 2010, the Company filed a Form S-8 to register these shares.

On April 1, 2010, the Company granted 1,075,000 fully vested stock options to directors and consultants of the Company at $0.85 per share expiring April 1, 2015.

On April 23, 2010, the Company granted 1,300,000 fully vested stock options to directors and consultants of the Company at $1.00 per share expiring April 23, 2015.

On May 17, 2010, the Company granted 3,100,000 fully vested stock options to directors and consultants of the Company at $0.925 per share expiring May 17, 2015.

On March 22, 2011, the Board of Directors of the Company ratified and approved an amendment of the terms of the 2009 and 2010 Stock Option Plans (the "Plans") for the Company. In the event an optionee ceases to be employed by or to provide services to the Company for reasons other than cause, any Stock Option that is vested and held by such optionee may be exercised until the earlier of five years following the termination of the optionee's employment or services or until the expiration date of the applicable option. The Company also cancelled all the outstanding stock options issued under the Plan and granted a total of 8,875,000 incentive stock options to directors and consultants of the Company at $0.30 expiring March 22, 2021. Directors and consultants who held options under earlier Plans were granted a total of 7,025,000 options with the modified terms. On March 23, 2011, the Company filed a Form S-8 to register these shares.

On May 5, 2011, pursuant to settlement agreements, the Company has accrued stock payable of a total of 100,000 common shares with a fair value of $0.33 to a consultant in consideration of investor relations and publicity services conducted during the year. The contract for publicity services commenced in May 2010 for a total consideration of $33,000 for a one year term.

On May 5, 2011, pursuant to settlement agreements, the Company has accrued stock payable of a total of 100,000 common shares with a fair value of $0.39 to a consultant in consideration of investor relations and publicity services conducted during the year. The contract for publicity services commenced in May 2010 for a total consideration of $39,000 for a one year term.

7. Capital Stock (continued)

During the nine months ended June 30, 2011 and the year ended September 30, 2010, a total of 8,875,000 and 8,800,000 options were granted respectively. During the nine months ended June 30, 2011, the Company cancelled all stock options previously outstanding and issued 1,850,000 options valued at $547,415 and 7,025,000 modified options had an estimated incremental fair value resulting from the modification of these options of $581,178. A total of $1,128,593 has been recognized as stock based consulting expenses for the nine months ended June 30, 2011 and $9,066,704 for September 30, 2010 which was charged to operations. The fair value of each option granted is estimated at the respective grant date using the Black-Scholes Option Model. The following assumptions were used in estimating the fair value:

	June 30, 2011	September 30, 2010
Expected volatility	152%	83.59% - 153.41%
Expected life	10 years	1 to 5 years
Risk-free interest rate	3.34	0.41 – 2.62
Dividend yield	-	-

At June 30, 2011, the following stock options were outstanding:

Number of Shares	Exercise Price	Expiry Date
8,875,000	$0.30	March 22,2021
8,875,000		

The Company’s stock option activity is presented below:

	Number of Stock Options	Weighted Average Exercise Price	Weighted Average Contractual Life
Balance, September 30, 2009	550,000	$0.83	1.28

Exercised	(50,000)	$0.64	-
Expired	(500,000)	$0.85	-
Exercised	(450,000)	$0.85	-
Cancelled	(1,000,000)		
Granted	8,850,000	$0.90	4.06
Balance, September 30, 2010	7,400,000	$0.91	4.54
Cancelled	(7,400,000)	$0.91	
Granted	8,875,000	$0.30	
Balance, June 30, 2011	8,875,000	$0.30	9.75
Exercisable at June 30, 2011	8,875,000

7. Capital Stock (continued)

Stock based compensation on options vested and exercisable during the periods ended June 30, 2011 and 2010 is $1,128,593 and $9,066,704, respectively.

At June 30, 2011, the following share purchase warrants were outstanding:

Number of Warrants	Exercise Price	Expiry Date
1,250,000	$0.50	July 14, 2011
2,788,761	$0.27	September 2, 2011
1,111,110	$1.50	October 6, 2011
1,851,851	$0.27	April 6, 2012
6,990,740		

The Company's share purchase warrants activity for the year ended September 30, 2010 and nine months ended June 30, 2011 is summarized as follows:

	Number of Warrants	Weighted average exercise Price per share	Weighted average remaining In contractual life (in years)
Balance, September 30, 2009	1,250,000	$0.50	1.79
Issued	2,499,999	$0.96	0.96
Balance, September 30, 2010	3,749,999	$0.97	0.90
Issued	3,240,741	$0.27	0.58
Balance, June 30, 2011	6,990,740	$0.51	0.63

All warrants are exercisable as at June 30, 2011.

8. Related Party Transactions

During the year ended September 30, 2009, a former director of the Company advanced $32,000 to the Company. During the year ended September 30, 2009, the debt was forgiven and $32,000 has been allocated to additional paid-in capital.

As of June 30, 2011 and September 30, 2010, a total of $2,913 and $8,123, respectively was advanced to a company owned by a former senior officer for rent, office, and administrative expenses.

As of June 30, 2011 and September 30, 2010, advances totalling $69,877 and $69,877, respectively was payable to a former director of the Company. The amount is unsecured, non interest bearing and is due on demand.

(Unaudited)

8. Related Party Transactions (continued)

During the nine months ended June 30, 2011 and 2010 and from inception (March 10, 2005) to June 30, 2011, management fees of $nil, $6,000 and $18,000, respectively, were payable to a former director of the Company.

During the nine months ended June 30, 2011 and 2010 and from inception (March 10, 2005) to June 30, 2011, consulting fees totalling $1,059,250 and $366,344 and $1,463,998 have been paid to senior officers of the Company.

During the periods ended June 30, 2011 and 2010 and from inception (March 10, 2005) to June 30, 2011, management fees totalling $135,000 and $126,325 and $375,000 have been paid to senior officers of the Company.

On March 24, 2011, the Company entered into consulting agreements with senior officers and a consultant whereby the Company would issue a total of 6,000,000 shares at a fair value of $0.29 per share in consideration for services. The shares were issued on March 28, 2011 and were subsequently cancelled on April 6, 2011. The agreements were re-negotiated on May 11, 2011 and a total of 4,425,000 shares were issued in consideration for services.

During the year ending September 30, 2010, the Company advanced $25,000 to a senior officer. This amount is repayable upon demand. This advance is in contravention of SOX 402 and the Company has since implemented strict internal controls to avoid a future occurrence. The Company has also advanced $56,500 to a senior officer for expenses. The Company has recorded the aggregate of the amounts totalling $81,501 as a reduction of stockholders' equity.

9. Office Lease

On April 1, 2010, the Company entered into a premises sublease for a three year period expiring June 30, 2013, at a basic rent of $8,832 CDN (approximately $8,500 US) effective July 31, 2010. Future minimum lease payments over the next five years are as follows:

Year	Lease $
2011	$102,000
2012	$102,000
2013	$76,500
2014	-
2015	-

Total	$280,500

As of June 30, 2011 and 2010, total rent expense was $94,173 and $63,854, respectively.

(Unaudited)

10. Convertible Note Payable

On September 2, 2010, the Company issued a promissory convertible note in the amount of $750,000 to an unrelated third party in an arm's length transaction secured by the Company's mineral claims in Nevada and a Security Agreement (8K filed September 8, 2010). The note is due August 31, 2015 and accrues interest at 4% per annum payable every six months. Should the Company default on the interest payment, the interest rate increases to 12% per annum and the note is payable on demand. The Company is currently in default of certain covenants related to the promissory convertible note due to the advances to a senior officer of $81,501 which is in contravention of SOX 402. As a result, the Company has classified the promissory convertible note as a current liability and has accrued interest payable on the note at 12% per annum. The Company has disclosed the default to the holder of the note and is requesting a waiver of the specific event of default. The Company can provide no assurance such waiver will be granted. At the investor's option, the note principal and accrued interest can be converted to shares of the Company at a fixed price of $0.54.

A total of 1,388,889 warrants exercisable at $0.54, expiring September 2, 2011 were issued. The Company has determined the fair value of the warrants issued as $252,305 using the Black Scholes valuation model. The fair value of the warrants has been accreted and is being amortized over the life of the warrants (1 year). As at June 30, 2011, $145,162 has been amortized and expensed as interest.

The Company has determined the value associated with the conversion feature in connection with the convertible note payable. The Company has determined the note, with a face value of $750,000, to have a beneficial conversion feature of $224,528. The beneficial conversion feature has been accreted and is being amortized over the life of the note (5 years). As at June 30, 2011, $25,836 had been amortized and expensed as interest. The beneficial conversion feature is valued under the intrinsic value method.

On April 6, 2011, the Company issued a promissory convertible note in the amount of $500,000 to an unrelated third party in an arm's length transaction secured by the Company's mineral claims in Nevada and a Security Agreement (8K filed April 7, 2011). The note is due August 31, 2015 and accrues interest at 4% per annum payable every six months. Should the Company default on the interest payment, the interest rate increases to 12% per annum and the note is payable on demand. At the investor's option, the note principal and accrued interest can be converted to shares of the Company at a fixed price of $0.27.

On April 6, 2011 the Company entered into an investment agreement and amended and restated security agreement (together the "Investment Agreements") with one investor pursuant to which it received initial funding of $350,000 with an additional $150,000 having been agreed to follow upon the satisfaction of certain conditions including the following:

- the Company’s receipt of new equity financing or new convertible debt financing from a third party(ies) in the aggregate amount of at least US $100,000; and

(Unaudited)

10. Convertible Note Payable (continued)

- the Company’s completion and filing of a NI 43-101 compliant technical report with the TSX Venture Exchange by July 31, 2011.

Pursuant to the Investment Agreements the Company issued to the investor a secured convertible grid promissory note (the “2011 Note”), which is convertible into approximately 1,851,851 common shares, and 1,851,851 warrants with each warrant exercisable until April 6, 2012 to purchase one common share at a price of $0.27 per share. The 2011 Note bears interest at the rate of 4% per annum, payable every six months from the date of closing. The interest rate will increase to 12% per annum if the Company’s fails to make scheduled interest payments. The principal amount of the investment is payable on August 31, 2015.

The Company has determined the fair value of the 1,851,851 warrants issued as $115,342 using the Black Scholes valuation model. The fair value of the warrants has been accreted and is being amortized over the life of the warrants (1 year). As at June 30, 2011, $26,787 has been amortized and expensed as interest.

The Company has determined the value associated with the conversion feature in connection with the convertible note payable. The Company has determined the note, with a face value of $350,000, to have a beneficial conversion feature of $102,379. The beneficial conversion feature has been accreted and is being amortized over the life of the note (5 years). As at June 30, 2011, $5,412 had been amortized and expensed as interest. The beneficial conversion feature is valued under the intrinsic value method.

Also pursuant to the Investment Agreements the Company amended the terms of a secured convertible grid promissory note (the “2010 Note”) and warrant certificate issued in respect of a $750,000 investment in the Company made by the same investor in 2010. The amendment to the 2010 Note decreases the per share conversion price applicable to the $750,000 investment from $0.54 to $0.27 per share, so that the Company will be required to issue approximately 2,777,778 rather than 1,388,888 common shares upon conversion of the 2010 Note. The amendment to the warrant certificate decreases the exercise price of the 1,388,889 share purchase warrants issued in consideration of the $750,000 investment from $0.54 per share to $0.27 per share. The warrants expire on September 2, 2011. The principal amount of the 2010 Note continues to bear interest at 4% and remains payable on August 31, 2015. The interest rate on the 2010 Note will also increase to 12% per annum if the Company fails to make the scheduled biannual interest payments. The note is currently in default of certain covenants related to the promissory note and as a result interest is being accrued at 12%.

The change in the 2010 Note affected the terms of the embedded conversion option and as such is subject to ASC 470-50. ASC 470-50 requires that should the difference between the fair value of the embedded conversion immediately before and after the modification exceed 10% of the carrying value of the original instrument, the instrument is considered to be extinguished and all unamortized discount to be expensed.

F-23

American Lithium Minerals, Inc.

(An Exploration Stage Company)

Notes to Annual Financial Statements

(Expressed in U.S. Dollars)

30 June 2011

(Unaudited)

The Company calculated the fair value of conversion option of the 2010 Note on April 5, 2011, the day before the modifications, and on April 6, 2011, the date of the amended agreement, in order to determine whether the 2010 Note should be extinguished. The Company determined that the carrying value of the 2010 Note was $444,167 and that a change of greater than $44,417 would require that the 2010 Note be extinguished and that the amended note (the "2011 Note") be recorded. The Company calculated the change in the beneficial conversion feature between the 2010 Note and 2011 Note to be $57,416 and determined that that 2010 Note should be extinguished and that all the remaining discount be expensed. A charge of $305,985 has been recorded as interest charges to extinguish the 2010 Note.

The Company has recognized a beneficial conversion feature of $54,381 and fair value of the warrants as $36,593 for the 2011 Note.

11. Subsequent Events

On July14, 2011, a total of 1,250,000 warrants to purchase common shares at $0.50 expired unexercised.

On August 19, 2011 the Company entered into a letter of agreement (the "Investment Agreement") with BG Capital Group Ltd. pursuant to which the Company agreed to issue to Look Back Investments, Inc., the designee of BG Capital, a secured convertible debenture in consideration of minimum aggregate debt financing of $500,000. BG Capital or any designee of BG Capital may invest up to 4 additional installments of $500,000 ($2,000,000 in the aggregate) at its discretion before August 17, 2016 on the same terms and conditions as the initial installment. The debenture bears interest at 11% per annum with unpaid principal and accumulated interest due and payable by August 17, 2016. All or any portion of the debenture and accumulated interest shall be repayable at any time prior to maturity without penalty and shall be secured by a first charge against the Company's Borate Hills property, subject to the existing rights of the Company's joint venture partner in the property. In addition, all or a portion of the debenture shall be convertible into common shares of the Company at a conversion price equal to 50% of the average closing price of the Company's common stock during the five trading days following any notice of conversion.

BG Capital shall be entitled to receive a $50,000 work fee upon delivery of each $500,000 financing installment. The Company also agreed to appoint the designee of BG Capital Group, Mr. Craig Thomas, as a director on our board of directors upon closing of the $500,000 installment.

To date, the Company has received initial funding of $286,000 in respect of the Investment Agreement with an additional $136,000 to follow upon closing and issuance of the debenture.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

FORWARD-LOOKING STATEMENTS

This quarterly report contains forward-looking statements. These statements relate to future events or our future financial performance. In some cases, you can identify forward-looking statements by terminology such as “may”, “should”, “expects”, plans”, “anticipates”, “believes”, “estimates”, “predicts”, “potential” or “continue” or the negative of these other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our or our industry’s actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable law, including the securities laws of the United States, we do not intend to update any of the forward-looking statements to conform these statements to actual results.

Our unaudited financial statements are stated in United States Dollars (US$) and are prepared in accordance with United States Generally Accepted Accounting Principles. The following discussion should be read in conjunction with our financial statements and the related notes that appear elsewhere in this quarterly report. The following discussion contains forward-looking statements that reflect our plans, estimates and beliefs. Our actual results could differ materially from those discussed in the forward-looking statements. Factors that could cause or contribute to such differences include, but are not limited to, those discussed below and elsewhere in this quarterly report.

Our financial statements are stated in United States Dollars (US$) and are prepared in accordance with United States Generally Accepted Accounting Principles.

In this quarterly report, unless otherwise specified, all dollar amounts are expressed in United States dollars and all references to “common shares” refer to the common shares in our capital stock.

As used in this current report and unless otherwise indicated, the terms “we”, “us”, “our" and “our company” mean American Lithium Minerals, Inc., unless otherwise indicated.

General Overview

Our company was incorporated in the State of Nevada on March 10, 2005, under the name Nugget Resources Inc. On March 2, 2009 we changed our name to American Lithium Minerals, Inc. and effected a 1 for 4 forward stock split of our common stock. Our authorized capital is 75,000,000 shares of common stock having a $0.001 par value.

Description of Business

We commenced operations as an exploration stage company. In August 2005 we acquired an interest in a 524,728 hectare mineral claim, known as the Raven property, located approximately 17 kilometers northeast of Princeton, in south central British Columbia. However, we were unable to maintain the mineral claim in good standing due to lack of funding and our interest in it expired.

Pursuant to a mineral property purchase agreement dated June 15, 2009 with GeoXplor Corp, a private arm’s length Nevada company, we acquired an option to acquire a 100% interest in 88 unpatented mining claims in Esmeralda County, Nevada. The acquisition of the Esmeralda property was subject to a 3% royalty in respect of the sale or disposition of lithium carbonate or other lithium compounds and obligated us to incur $2,000,000 in exploration expenditures over 5 years. As partial consideration for the property we made payments totaling $61,000, and issued

250,000 common shares at a market price of $0.48 per share. We subsequently abandoned the option, electing not to pay the balance of the consideration payable, being $303,000 and 500,000 common shares. We expensed $295,609 as mineral property impairment during fiscal 2010 related to the costs being capitalized on the property.

4

Pursuant to a letter of intent dated August 30, 2009, we acquired an option to acquire a 100% interest in 50 mineral claims in Esmeralda County, Nevada, subject to a 3% Net Value Royalty. As consideration for the property we agreed to pay an aggregate of $402,500, to issue 1,000,000 common shares, and to incur 2,000,000 in exploration expenditures over five years. Having made cash payments of $20,000 and issued 250,000 common shares at a market price of $0.48 per share, we discontinued negotiations to enter into a definitive agreement and expensed $217,687 as mineral property impairment during fiscal 2010 related to the costs being capitalized on this property.

On January 5, 2010, we entered into an agreement with Gold Summit Corporation to acquire a 100% interest in five grassroots exploration brine project mineral claims located in Nevada, USA. Consideration paid included a cash payment of $50,000 and the issuance of 500,000 shares. In the event that our share price closed at less than $1.00, 6 to 12 months after the closing date of the agreement, we agreed to issue on a one-time basis, an additional 200,000 common shares. On July 6, 2010, the price per share of our common stock closed at a price per share of less than $1.00. On August 12, 2010, we issued 200,000 shares of common stock as required under this agreement (valued at $146,000 using market price of $0.73 per share). A 2% net revenue royalty (“NRR”) is payable to the vendor with the provision that we may buy back the NRR for $2 million.

On January 11, 2010, we entered into a property acquisition agreement with Robert Craig, Barbra Anne Craig and Elizabeth Dickman to acquire a 100% interest in mineral claims located in Nevada, USA. Consideration paid included a cash payment of $40,000 and the issuance of 500,000 shares. A 2% NRR is payable to the vendor with a provision that we can purchase 1% back for $1 million.

On January 11, 2010, we entered into a property acquisition agreement with Nevada Alaska Mining Co., Robert Craig, Barbra Anne Craig and Elizabeth Dickman to acquire a 100% interest in mineral claims located in Nevada and Utah. Consideration paid included a cash payment of $40,000 and the issuance of 1,200,000 shares. A 2% NRR is payable to the vendor with a provision that we may purchase 1% back for $1 million.

On June 10, 2010, we entered into a property option agreement with Japan Oil, Gas and Metals National Corporation whereby Japan Oil may earn a 40% participating interest in our Borate Hills mineral claims located in Nevada. Terms of the agreement include staged work commitments totaling $4,000,000 over three years. Japan Oil also has the option to terminate the agreement with 30 days notice after incurring expenditures of $600,000. As of June 30, 2011 Japan Oil has advanced $1,805,587 to us in respect of work commitments under the option agreement. The $1,805,587 advance has been recorded as a deposit liability on property option.

On March 23, 2011, we completed certain amendments to our 2010 and 2009 Stock Option Plans and to outstanding stock options issued under those plans. The Stock Option Plans were amended to allow the exercise of options issued under such plan at any time within five (5) years following the termination of the optionee's employment or other relationship with our company, but, in no event later than the expiration date of the option. The option plans previously provided for a maximum exercise period of three (3) years in such circumstances. All previously granted and unexercised Stock Options under the plans were concurrently cancelled and reissued at an exercise price representative of the current market value of our common stock at the time of reissuance

On March 24, 2011, we entered into consulting agreements with our chief executive officer, Hugh Aird, Judith Baker, and Steven Cook, regarding their respective management consulting services rendered to our company from March 31, 2010 to March 31, 2011. In consideration of the services, on March 28, 2011, we approved the issuance of 2,000,000 restricted common shares in our capital stock to each Mr. Aird, Ms. Baker, and Mr. Cook. The closing price of our common stock at the close of trading on the OTC Bulletin Board on March 24, 2011 was $0.29.

On April 7, 2011, we cancelled an aggregate of 6,000,000 shares of our common stock previously issued pursuant to the above described consulting agreements with our chief executive officer and chairman, Hugh Aird, Judith Baker, and Steven Cook. 600,000 shares were concurrently reissued to each of the three consultants (1,800,000 reissued in the aggregate).

On May 5, 2011 we entered into amended consulting agreements with our chief executive officer, Hugh Aird, Judith Baker, and Steven Cook. The amendment agreements reduce the compensation payable to each of the consultants

5

---

pursuant to their respective consulting agreements with us. The compensation payable to each of the consultants was reduced from 2,000,000 to 1,475,000 shares each of our common stock. On May 5, 2011 we authorized the issuance of 875,000 common shares to each of the consultants, representing the balance of the compensation payable to them under the amended consulting agreements.

Also on May 5, 2011, we issued 100,000 common shares each to two consultants in consideration of certain investor relations and publicity services provided during 2011. 100,000 common shares were issued to one U.S. person (as that term is defined in Regulation S of the Securities Act of 1933) relying on the exemptions from registration provided by Section 4(2) of the Securities Act of 1933 and upon Rule 506 of Regulation D of the Securities Act of 1933, and 100,000 common shares were issued to one non-US persons (as that term is defined in Regulation S of the Securities Act of 1933) in offshore transactions relying on Regulation S and/or Section 4(2) of the Securities Act of 1933.

On April 7, 2011 we entered into an investment agreement and amended and restated security agreement (together the “Investment Agreements”) with one non-US investor pursuant to which we received initial funding of $350,000 with an additional $150,000 having been agreed to follow upon the satisfaction of certain conditions including the following:

- our receipt of new equity financing or new convertible debt financing from a third party(ies) in the aggregate amount of at least US $100,000; and
- our completion and filing of a NI 43-101 compliant technical report with the TSX Venture Exchange by July 31, 2011.

Pursuant to the Investment Agreements we issued to the investor a secured convertible grid promissory note (the “2011 Note”), which is convertible into approximately 1,851,851 shares of our common stock, and 1,851,851 warrants with each warrant exercisable until April 6, 2012 to purchase one share of our common stock at a price of $0.27 per share. The 2011 Note bears interest at the rate of 4% per annum, payable every six months from the date of closing. The interest rate will increase to 12% per annum if we fail to make scheduled interest payments. The principal amount of the investment is payable on August 31, 2015.

Also pursuant to the Investment Agreements we amended the terms of a secured convertible grid promissory note (the “2010 Note”) and warrant certificate issued in respect of a $750,000 investment in our company made by the same investor in 2010. The amendment to the 2010 Note decreases the per share conversion price applicable to the $750,000 investment from $0.54 to $0.27 per share, so that we will be required to issue approximately 2,777,778 rather than 1,388,888 common shares upon conversion of the 2010 Note. The amendment to the warrant certificate decreases the exercise price of the 1,388,889 share purchase warrants issued in consideration of the $750,000 investment from $0.54 per share to $0.27 per common share. The warrants expire on September 2, 2011. The principal amount of the 2010 Note continues to bear interest at 4% and remains payable on August 31, 2015. The interest rate on the 2010 Note will also increase to 12% per annum if we fail to make the scheduled biannual interest payments.

As security for the performance of our obligations under the 2010 Note and the 2011 Note, we also granted the investor a first priority security interest and lien in substantially all of our personal property and certain of our mineral property interests.

The issuances of the promissory notes and warrants described above were conducted pursuant to Regulation S promulgated pursuant to the Securities Act of 1933, as amended (the “Securities Act”), to one “non-US person” as defined in Regulation S and otherwise complied with all of the requirements of Regulation S, the Securities Act, and any other applicable U.S. or foreign securities laws.

We did not complete and file a NI 43-101 compliant technical report with the TSX Venture Exchange by June 30, 2011 and, accordingly, we are no longer eligible to receive the balance of funding in the amount of $150,000 pursuant to the terms of the April 7, 2011 investment agreement.

6

Plan of Operation

Our plan of operation for the next twelve months is to carry out exploration work on our recently acquired properties located in Nevada and to continue to review other potential acquisitions in the resource and non-resource sectors.

We anticipate spending approximately $900,000 on administrative fees, including fees we will incur in complying with reporting obligations.

As of June 30, 2011, we had a working capital deficiency of $2,770,144 compared to a working capital deficiency of $255,493 as at September 30, 2010.

We currently do not have sufficient funds on hand to cover our anticipated expenses for the next 12 months. We anticipate that additional funding will be required in the future in the form of equity financing from the sale of our common stock or from director loans. However, we do not have any arrangements in place for any future equity financing.

Results of Operations for Three Month Periods Ended June 30, 2011 and 2010 and for the Nine Month Periods Ended June 30, 2011 and 2010.

We did not earn any revenues during the three and nine month periods ended June 30, 2011 or June 30, 2010.

7

Weighted average number of common shares basic	**56,527,407**	**54,350,924**	**54,588,534**	**52,525,181**

We incurred total operating expenses of $137,615 during the three months ended June 30, 2011 compared to $5,566,805 during the three months ended June 30, 2010, consisting of general and administrative expenses, legal and accounting fees, consulting fees, management fees, promotion and shareholder relations, stock based compensation and mineral property expenditures. We incurred total operating expenses of $4,807,846 during the nine months ended June 30, 2011 compared to $10,514,731 for the same period in 2010. From inception (March 10, 2005) to June 30, 2011 we incurred total operating expenses of $16,059,084.

Mineral Property Expenditures

Mineral property expenditures for the three months and nine months ended June 30, 2011 were $161,398 and $1,389,021, respectively. We did not incur any mineral property expenditures during the same periods in 2010. From inception (March 10, 2005) to June 30, 2011 we incurred total mineral property expenditures of $1,408,021.

Mineral Property Impairment

Mineral property impairment was $0 during the three and nine months ended June 30, 2011 and $513,296 during the same period in 2010. From inception (March 10, 2005) to June 30, 2011 we incurred total mineral property impairment expense of $513,296.

Consulting Fees – Related Party

Consulting fees for related parties increased $731,368 for the three month period ended June 30, 2011 to $948,422 from $217,054 for same period in 2010. Consulting fees for related parties increased by $722,906 for the nine month period ended June 30, 2011 to $1,059,250 from $336,344 for same period in 2010. From inception (March 10, 2005) to June 30, 2011 we incurred total consulting fees for related parties of $1,463,998.

Consulting Fees – Stock Compensation

Consulting fees for stock compensation decrease from $4,602,916 for the three month period ended June 30, 2010 to ($1,740,000) during the three month period ended June 30, 2011. Consulting fees for stock compensation decreased by $7,938,112 for the nine month period ended June 30, 2011 to $1,128,592 from $9,066,704 during the same period in 2010. The decrease in stock compensation to consultants resulted primarily from the cancellation of 6,000,000 common shares issued on March 24, 2011, 2,000,000 to three consultants, Judith Baker, Stephen Cook and Hugh Aird. These shares had been issued in error without regard to the remaining authorized capital of the Company which was instead required for capital raising purposes. From inception (March 10, 2005) to June 30, 2011 we incurred total consulting fees for stock compensation of $10,260,956.

Consulting Fees

Consulting fees increased by $553,330 for the three month period ended June 30, 2011 to $568,330 from $15,000 for the same period in 2010. Consulting fees increased by $544,215 for the nine month period ended June 30, 2011 to $619,843 from $75,628 for the same period in 2010. From inception (March 10, 2005) to June 30, 2011 we incurred total consulting fees of $710,471.

General and Administrative

General and administrative expenses relating to operations decreased by $19,861 for the three month period ended June 30, 2011 to $68,560 from $88,436 for the three month period ended June 30, 2010. For the nine months ended June 30, 2011, general and administrative expenses relating to operations increased by $39,097 to $253,770 from $214,673 for same period in 2010. From inception (March 10, 2005) to June 30, 2011 we incurred total general and administrative expenses of $650,302.

8

Legal and Accounting

Legal and accounting expenses increased $13,167 for the three month period ended June 30, 2011 to $31,575 from $18,408 for the three month period ended June 30, 2010. For the nine month period ended June 30, 2011, legal and accounting increased by $20,715 to $77,106 from $56,391 for the same period in 2010. The increase in legal fees was primarily due to expenses incurred in relation to our financing activities. From inception (March 10, 2005) to June 30, 2011 we incurred total legal and accounting fees of $327,916.

Management Fees

Management fees decreased $25,325 for the three month period ended June 30, 2011 to $45,000 from $70,325 for the three month period ended June 30, 2010. Management fees increased $8,675 for the nine month period ended June 30, 2011 to $135,000 from $126,325 for the same period in 2010. From inception (March 10, 2005) to June 30, 2011 we incurred total management fees of $375,000.

Promotion and Shareholder Relations

Promotion and shareholder relations increased $12,960 for the three month period ended June 30, 2011 to $54,330 from $41,370 for the three month period ended June 30, 2010. Promotion and shareholder relations increased $19,894 for the nine month period ended June 30, 2011 to $145,264 from $125,370 for the same period in 2010. From inception (March 10, 2005) to June 30, 2011 we incurred total promotion and shareholder relations expenses of $341,524.

Rent Expenses-related party

Rent expenses were $0 for the nine month periods ended March 31, 2011 and March 31, 2010. From inception (March 10, 2005) to June 30, 2011 we incurred rent expense of $7,600.

Net Loss

During the three months and nine months ended June 30, 2011, we incurred a net loss of $589,677 and $5,430,606, respectively, which resulted in an accumulated deficit of $16,701,080 as at June 30, 2011.

We have not attained profitable operations and are dependent upon obtaining financing to pursue exploration activities. For these reasons our auditors believe that there is substantial doubt that we will be able to continue as a going concern.

Liquidity and Financial Condition

At June 30, 2011, we had total assets of $2,953,173 compared to $3,352,856 as at September 30, 2010. We had total liabilities recorded at $2,847,983 as of June 30, 2011, compared to $709,733 as at September 30, 2010.

We had cash and cash equivalents of $11,077 as of June 30, 2011, compared to cash and cash equivalents of $425,794 at September 30, 2010.

Working Capital

	At June 30, 2011	At September 30, 2010
Current assets	$ 77,839	$ 454,240
Current liabilities	2,847,983	709,733
Working capital (deficit)	$ (2,770,144)	$ (255,493)

Cash Flows

	Nine Month Period Ended June 30, 2011	June 30, 2010
Cash flows provided by (used in) operating activities	$ (2,336,410)	$ (931,331)
Cash flows provided by (used in) investing activities	1,531,547	$ (313,030)
Cash flows provided by (used in) financing activities	390,146	$ 36,000
Net (decrease) increase in cash during period	$ (414,717)	$ (1,208,361)

Operating Activities

Net cash used in operating activities was $2,336,410 for the nine month period ended June 30, 2011 compared with cash used in operating activities of $931,331 in the same period in 2010.

Investing Activities

Net cash provided by investing activities was $1,531,547 for the nine month period ended June 30, 2011 compared to net cash used in investing activities of $313,030 in the same period in 2010.

Financing Activities

Net cash provided by financing activities was $390,146 for the nine month period ended June 30, 2011 compared to $36,000 provided by financing activities during the same period in 2010.

We expect to run at a loss for at least the next twelve months. We have no agreements for additional financing and cannot provide any assurance that additional funding will be available to finance our operations on acceptable terms in order to enable us to complete our plan of operations. There are no assurances that we will be able to achieve further sales of our common stock or any other form of additional financing. If we are unable to achieve the financing necessary to continue our plan of operations, then we will not be able to continue our exploration of our mineral claims and our venture will fail.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to our stockholders.

Explanation of Responses:

Contractual Obligations

None.

Critical Accounting Policies

The discussion and analysis of our financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with the accounting principles generally accepted in the United States of America. Preparing financial statements requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, revenue, and expenses. These estimates and assumptions are affected by management's application of accounting policies. We believe that understanding the basis and nature of the estimates and assumptions involved with the following aspects of our financial statements is critical to an understanding of our financial statements.

Basis of Presentation

The financial statements of our company have been prepared in accordance with accounting principles generally accepted in the United States of America applicable to exploration stage enterprises, and are expressed in U.S. dollars. Our company's fiscal year end is September 30.

Mineral Property Costs

Our company has been in the exploration stage since its formation on March 10, 2005 and has not yet realized any revenues from its planned operations. It is primarily engaged in the acquisition and exploration of mining properties. Mineral property exploration costs are charged to operations as incurred. Our company capitalizes costs for acquiring mineral properties and expenses costs to maintain mineral rights and leases as incurred. When it has been determined that a mineral property can be economically developed as a result of establishing proven and probable reserves, the costs incurred to develop such property, are capitalized. Such costs will be depleted using the units-of-production method over the estimated life of the probable reserve.

Although our company has taken steps to verify title to mineral properties in which it has an interest, according to the usual industry standards for the stage of exploration of such properties, these procedures do not guarantee our company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

Financial Instruments

The carrying value of cash, accounts payable and accrued liabilities, and due to related parties approximates their fair value because of the short maturity of these instruments. Our company's operations are in Canada and virtually all of its assets and liabilities are giving rise to significant exposure to market risks from changes in foreign currency rates. Our company's financial risk is the risk that arises from fluctuations in foreign exchange rates and the degree of volatility of these rates. Currently, our company does not use derivative instruments to reduce its exposure to foreign currency risk.

Environmental Expenditures

The operations of our company have been, and may in the future, be affected from time to time, in varying degrees, by changes in environmental regulations, including those for future reclamation and site restoration costs. Both the likelihood of new regulations and their overall effect upon our company vary greatly and are not predictable. Our company's policy is to meet or, if possible, surpass standards set by relevant legislation, by application of technically proven and economically feasible measures.

11

Income Taxes

Deferred income taxes are reported for timing differences between items of income or expense reported in the financial statements and those reported for income tax purposes in accordance with FASB ASC 740-10, which requires the use of the asset/liability method of accounting for income taxes. Deferred income taxes and tax benefits are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases, and for tax loss and credit carry-forwards. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Our company provides for deferred taxes for the estimated future tax effects attributable to temporary differences and carry-forwards when realization is more likely than not.

Basic and Diluted Net Loss Per Share

Our company computes net loss per share in accordance with FASB ASC 260, which requires presentation of both basic and diluted earnings per share (“EPS”) on the face of the income statement. Basic EPS is computed by dividing net loss available to common shareholders (numerator) by the weighted average number of shares outstanding (denominator) during the period. Diluted EPS gives effect to all potentially dilutive common shares outstanding during the period. In computing diluted EPS, the average stock price for the period is used in determining the number of shares assumed to be purchased from the exercise of stock options or warrants. Diluted EPS excludes all potentially dilutive shares if their effect is anti-dilutive and is not presented in the accompanying financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from these estimates.

Stock Based Compensation

Our company records stock based compensation in accordance with the guidance in ASC Topic 718, which requires our company to recognize expense related to the fair value of its employee stock option awards. This eliminates accounting for share-based compensation transactions using the intrinsic value and requires instead that such transactions be accounted for using a fair-value-based method. Our company recognizes the cost of all share-based awards on a graded vesting basis over the vesting period of the award.

Our company accounts for equity instruments issued in exchange for the receipt of goods or services from other than employees in accordance with FASB ASC 718-10 and the conclusions reached in FASB ASC 505-10. Costs are measured at the estimated fair market value of the consideration received or the estimated fair value of the equity instruments issued, whichever is more reliably measurable. The value of equity instruments issued for consideration other than employee services is determined on the earliest of a performance commitment or completion of performance by the provider of goods or services as defined by FASB ASC 505-10.

Risks and Uncertainties

Our company operates in the resource exploration industry that is subject to significant risks and uncertainties, including financial, operational, technological, and other risks associated with operating a resource exploration business, including the potential risk of business failure.

12

Website Development Costs

Costs incurred in developing and maintaining a website are charged to expense when incurred for the planning, content population, and administration or maintenance of the website. All development costs for the application, infrastructure, and graphics development are capitalized and subsequently reported at the lower of unamortized cost or net realizable value. Capitalized costs are amortized using the straight-line basis over a five year estimated economic life of the product.

Long-Lived Assets

Our company accounts for its long-lived assets in accordance with FASB ASC 360-10, “Property, Plant and Equipment” which requires that long-lived assets be reviewed for impairment whenever events or changes in circumstances indicate that the historical cost carrying value of an asset may no longer be appropriate. Our company assesses recoverability of the carrying value of an asset by estimating the future net cash flows expected to result from the asset, including eventual disposition. If the future net cash flows are less than the carrying value of the asset, an impairment loss is recorded equal to the difference between the asset’s carrying value and fair value or disposal value.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

As a “smaller reporting company”, we are not required to provide the information required by this Item.

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the *Securities Exchange Act of 1934*, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer (our principal executive officer, principal financial officer and principle accounting officer) to allow for timely decisions regarding required disclosure.

As of the end of our quarter covered by this report, we carried out an evaluation, under the supervision and with the participation of our chief executive officer and chief financial officer (our principal executive officer, principal financial officer and principle accounting officer), of the effectiveness of the design and operation of our disclosure controls and procedures. Based on the foregoing, our chief executive officer and chief financial officer (our principal executive officer, principal financial officer and principle accounting officer) concluded that our disclosure controls and procedures were not effective as of the end of the period covered by this quarterly report.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal controls over financial reporting that occurred during our quarter ended June 30, 2011 that have materially or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II- OTHER INFORMATION

Item 1. Legal Proceedings

We know of no material, existing or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, executive officers or affiliates, or any registered or beneficial stockholder, is an adverse party or has a material interest adverse to our interest.

Item 1A. Risk Factors

As a "smaller reporting company", we are not required to provide the information required by this Item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

On September 2, 2010, we issued a promissory convertible note in the amount of $750,000 to an unrelated third party in an arm's length transaction secured by our mineral claims in Nevada and a Security Agreement (8K filed September 8, 2010). The note is due August 31, 2015 and accrues interest at 4% per annum payable every six months. Should we default on the interest payment, the interest rate increases to 12% per annum and the note is payable on demand. We are currently in default of certain covenants related to the promissory convertible note due to the advances to a senior officer of $81,501 which is in contravention of SOX 402. As a result, we have classified the promissory convertible note as a current liability and have accrued interest payable on the note at 12% per annum. We have disclosed the default to the holder of the note and are requesting a waiver of the specific event of default. We can provide no assurance such waiver will be granted. At the investor's option, the note principal and accrued interest can be converted to shares of common stock at a fixed price of $0.54.

Item 4. [Removed and Reserved]

Item 5. Other Information

None.

Item 6. Exhibits

Exhibit Number	Description
(3)	**(i) Articles of Incorporation (ii) By-laws**
3.1	Articles of Incorporation (incorporated by reference to our Registration Statement on Form SB-2 filed on March 23, 2006).
3.2	By-laws (incorporated by reference to our Registration Statement on Form SB-2 filed on March 23, 2006).
3.3	Certificate of Amendment (incorporated by reference to our Current Report on Form 8-K filed on August 10, 2009).
(10)	**Material Contracts**
10.1	Purchase Agreement dated June 15, 2009 between our company and GeoXplor Corp. (incorporated by reference to our Current Report on Form 8-K filed on June 18, 2009).
10.2	2009 Stock Option Plan dated August 20, 2009 (incorporated by reference to our Current Report on Form 8-K filed on August 26, 2009).
10.3	Stock Option Agreement dated November 4, 2009 between our company and Hugh Aird (incorporated by reference to our Current Report on Form 8-K filed on November 16, 2009).
10.4	Prospective Properties Acquisition Agreement dated January 5, 2010 between our company and Gold Summit Corporation (incorporated by reference to our Current Report on Form 8-K filed on January 14, 2010).
