"The results for the fourth quarter of 2004 signify an important achievement for Eltek," said Arie Reichart, President and Chief Executive Officer of Eltek. "First, we reached profitability, and second, this is a second consecutive quarter with top and bottom line improvements. We have displayed substantial operating leverage, expanded our gross and operating margins, and further diversified our customer base." Mr. Reichart continued, "We credit our profitability and continued revenue growth to a relentless focus on executing our strategy of shifting the Company's product mix towards higher margin flex-rigid boards which require high end technology along with increasing our international operations."

Mr. Reichart concluded, "We enter 2005 as a profitable company. We have built an encouraging foundation for our next phase of growth and profitability, and intend to continue to leverage on our leading position in the flex-rigid boards industry. "

"Our 2004 growth benefited from the increase in contribution of flex - rigid printed circuits boards pursuant to long - term projects. International sourced revenues in 2004 accounted for 46% of our revenue, compared to 33% in 2003. Purchase orders pursuant to long term projects tend to be supplied on a weekly basis over some period of time, contributing to our production efficiency as well as to our overall corporate productivity.
