EXPLANATORY NOTE

This Amendment No. 1 on Form 10-QSB/A hereby amends Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations and Item 3. Controls and Procedures of Defense Industry International Inc.'s Quarterly Report on Form 10-QSB for the quarterly period ended June 30, 2005, which was filed on August 15, 2005. This Amendment No. 1 is being filed for the purpose of providing additional details to our disclosures in the original report pursuant to comments we received from the Staff of the U.S. Securities and Exchange Commission in connection with its review of our Form 10-KSB for the year ended December 31, 2004 and our Forms 10-QSB for the quarterly periods ended March 31, 2005 and June 30, 2005. This Amendment No. 1 is not intended to revise other information presented in our Quarterly Report on Form 10-QSB for the quarterly period ended June 30, 2005 as originally filed and all such other information in the original filing, which remains unchanged.

This Amendment No. 1 on Form 10-QSB/A does not reflect events occurring after the filing of the original Form 10-QSB and does not modify or update the disclosure therein in any way other than as required to reflect the amendments discussed above, except with respect to disclosure relating to our evacuation of the Erez Industrial Zone. As a result, this Amendment No. 1 to the Quarterly Report on Form 10-QSB continues to speak as of August 15, 2005, except with respect to discussion relating to our evacuation of the Erez Industrial Zone.

For the convenience of the reader the entire document is being refiled.

FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2005 AND 2004

NOTE 1 BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

(A) Basis of Presentation

The accompanying condensed consolidated financial statements are presented in United States dollars under accounting principles generally accepted in the United States of America.

(B) Principles of Consolidation

The condensed consolidated financial statements include the accounts of Defense Industries International, Inc. and its wholly owned subsidiaries, Export Erez, USA, Inc., Export Erez, Ltd., Mayotex, Ltd., Dragonwear Trading Ltd. and its 76% owned subsidiary Achidatex Nazareth Elite for all periods presented and Owen Mills (see Note 2) since its acquisition on February 28, 2005 (collectively, the Company). The minority interest represents the minority shareholders' proportionate share of Achidatex.

All intercompany accounts and transactions have been eliminated in consolidation.

(C) Use of Estimates

The preparation of condensed consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclose the nature of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from those estimates.

(D) Per Share Data

Basic net income per common share is computed based on the weighted average number of common shares outstanding during the period. Diluted net income per common share is computed based on the weighted average number of common shares and common stock equivalents outstanding during the period. There were no common stock equivalents outstanding during the periods presented. Accordingly, a reconciliation between basic and diluted earnings per share is not presented.

(E) Interim Consolidated Financial Statements

The condensed consolidated financial statements as of and for the six months ended June 30, 2005 and 2004 are unaudited. In the opinion of management, such condensed consolidated financial statements include all adjustments (consisting only of normal recurring accruals) necessary for the fair presentation of the consolidated financial position and the consolidated results of operations. The consolidated results of operations for the three and six months ended June 30, 2005 and 2004 are not necessarily indicative of the results to be expected for the full year. The consolidated balance sheet information as of December 31, 2004 was derived from the audited consolidated financial statements included in the Company's annual report Form 10-KSB. The interim condensed consolidated financial statements should be read in conjunction with that report.

(F) Recent Accounting Pronouncements

In December 2004, the FASB issued SFAS No. 123 (R), Share-Based Payment. SFAS No. 123 (R) revises SFAS No. 123, Accounting for Stock-Based Compensation and supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees. SFAS No. 123 (R) focuses primarily on the accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123 (R) requires companies to recognize in the statement of operations the cost of employee services received in exchange for awards of equity instruments based on the grant-date fair value of those awards (with limited exceptions). SFAS No. 123 (R) is effective as of the first interim or annual reporting period that begins after June 15, 2005 for non-small business issuers and after December 15, 2005 for small business issuers. The Company is currently evaluating the provisions of SFAS No. 123 (R) and has not yet determined the impact, if any, that SFAS No. 123 (R) will have on its financial statement presentation or disclosures.

In May 2005, the FASB issued FASB Statement No. 154, Accounting Changes and Error Corrections: a replacement of APB Opinion No. 20 (APB 20) and FASB Statement No. 3 (SFAS No. 154) which requires companies to apply voluntary changes in accounting principles retrospectively whenever it is practicable. The retrospective application requirement replaces APB 20's requirement to recognize most voluntary changes in accounting principle by including the cumulative effect of the change in net income during the period the change occurs. Retrospective application will be the required transition method for new accounting pronouncements in the event that a newly-issued pronouncement does not specify transition guidance. SFAS No. 154 is effective for accounting changes made in fiscal years beginning after December 15, 2005.

(G) Goodwill and Other Intangible Assets

In accordance with Statement of Financial Accounting Standards (SFAS No. 141), the Company allocates the purchase price of its acquisitions to the tangible assets, liabilities and intangible assets acquired based on their estimated fair values. The excess purchase price over those fair values is recorded as goodwill. The fair value assigned to intangible assets acquired is either based on valuations prepared by independent third party appraisal firms using estimates and assumptions provided by management or negotiated at arms-length between the Company and the seller of the acquired assets. In accordance with SFAS No. 142, goodwill and purchased intangibles with indefinite lives are not amortized, but will be reviewed periodically for impairment. Purchased intangibles with finite lives will be amortized on a straight-line basis over their respective useful lives.

NOTE 2 BUSINESS COMBINATION

Effective February 28, 2005, the Company acquired all of the outstanding shares of Rizzo Inc. (doing business as Owen Mills Company), a Los Angeles-based manufacturing and service company specializing in military and industrial sewing of marine and ballistic fabric products. Under the terms of the agreement, the Company purchased all of the outstanding stock of Owen Mills Company in consideration for a \$200,000 note payable and shares of the Company's common stock having a value of \$200,000, based on the average closing price per share of the Company's common stock for the ten trading days preceding the issuance of such shares. The Company shall pay the \$400,000 of consideration as follows: (i) \$3,333.33 each month commencing on March 31, 2005 and thereafter on the last business day of each successive month until the Company has paid the former shareholder of Owen Mills Company a total of \$200,000; the present value of the payments is \$172,401 (ii) \$40,000 in the form of shares of common stock of the Company payable within fifteen (15) business days from the date of the Agreement; and (iii) \$40,000 in the form of the Company's common stock paid to the former shareholder of Owen Mills Company on each of the last business days of February 2006, February 2007, February 2008, and of February 2009. The Company acquired assets totaling \$576,190 (consisting of cash of \$20,415, accounts receivable, net of \$232,224, inventories of \$179,306, property, plant and equipment, net of \$140,380, and other current assets of \$3,865) and assumed liabilities of \$284,689 (consisting of accounts payable of \$30,973, other current liabilities of \$160,046, and long-term debt of \$93,670), which resulted in the recording of \$80,900 in goodwill.

The acquisition of Owen Mills Company was accounted for as a purchase under SFAS No. 141, Business Combinations. Accordingly, the operating results of Owen Mills Company have been included in the consolidated statements of income after the acquisition date of February 28, 2005. On April 27, 2005 the Company issued 36,463 common shares having a fair value of \$40,000 to the former shareholder of Owen Mills Company according to the business combination agreement signed on February 28, 2005.

The following table reflects the unaudited pro forma combined results of operations for the three and six months ended June 30, 2005 and 2004, assuming the acquisition had occurred at the beginning of 2004.

NOTE 4 SEGMENT INFORMATION AND CONCENTRATIONS

The Company has two strategic business units: the civilian market and the military market. The military market is further broken down between local and export sales in order to better analyze trends in sales and profit margins. The Company does not allocate assets between segments because several assets are used in more than one segment and any allocation would be impractical.

The Company owns facilities, leases other facilities and maintains equipment and inventory within this area. In 2005, the Company moved its light cut and sew operation from the Erez Industrial Zone to Sderot as well as some of its webbing

equipment to Nazareth. The evacuation of the Company's remaining operations from Erez Industrial Zone is scheduled to begin on August 15, 2005 and is expected to be completed in about one month. The Israeli Government's decision to evacuate the Gaza Strip was supported by certain resolutions, as well as the Evacuation Law that was adopted by the Israeli Parliament, to compensate the Israeli Gaza Strip settlers as well as business and property owners in the Gaza Strip and in the Erez Industrial Zone, however, the amount of the compensation has not been finalized.

The Company believes that it will be reimbursed by the State of Israel for all costs related to the evacuation of its facilities in the Erez Industrial Zone. These costs include moving expenses, asset abandonment costs and various impairments. Therefore, no accrual for evacuation costs has been recorded as a liability of the Company as of June 30, 2005.

(B) Securities Purchase Agreement:

On June 15, 2005, the Company executed a Securities Purchase Agreement (the Agreement) with a group of investors for a \$1.1 million private placement of its common stock. Pursuant to the Agreement, the Company agreed to issue 1,833,334 shares of its common stock to the investors at a price of \$0.60 per share. The Company also agreed to issue the investors 365,000 warrants to purchase its common stock at an exercise price of \$0.94 share, exercisable until June 30, 2007, and 182,500 warrants at an exercise price of \$2.40 per share, exercisable until June 30, 2010. The Agreement also provided for the issuance by the Company to the investors of up to an additional 1,368,191 shares of its common stock if, one year after the closing, there has been a decrease in the Company's share price of \$0.60 per share.

In addition, the Company agreed to issue 82,133 shares of its common stock, as well as 60,000 warrants at an exercise price of \$0.94 (exercisable until June 30, 2007) and 20,000 warrants at an exercise price of \$2.40 per share (exercisable until June 30, 2010) as a finder's fee for services provided in connection with the transaction.

As part of the Agreement, the Company agreed to file a registration statement with the U.S. Securities and Exchange Commission to register for resale the shares issued in the private placement as well as the shares underlying the warrants, no later than 180 days after the closing. If the registration statement is not declared effective by this date, the Agreement provides for the return of all funds to the investors along with annual interest of 5% on the \$1.1 million (see Note 6).

As of June 30, 2005, all cash, shares and warrants involved in the private placement transaction remained in escrow and had not been disbursed to the various parties. The Company had incurred approximately \$100,000 in professional fees related to the transaction, which are non-refundable and are shown as deferred private placement costs in the condensed consolidated balance sheet at June 30, 2005.

(C) Operating Lease Agreements:

The Company's executive offices, are located in 8 Brisel Street, Industrial Zone, Sderot. The Company's manufacturing, production and distribution facilities are scattered over several locations in Israel as follows:

Nazareth Industrial Area: the production activities of the Company's subsidiary, Achidatex are located in a 6,000 square meter building in Nazareth Industrial Area which is owned by affiliated party. The annual rental expense for this facility is \$180,000. The lease expires in December 2008. The rent for 2005 will be allocated equally between those two subsidiaries.

Petah-Tikva: Achidatex leases approximately 300 square meters for its executive offices in Petah-Tikva at annual rental expense of \$21,600. The lease expires in December 2005.

Erez Industrial Area: The Company leases 2,000 square meter space in Erez Industrial Area, for its sewing operations and for its storage, in a building that belongs to Mr. Joseph Postbinder, its Chief Executive Officer and Chairmen of its board of directors. This lease was extended in 2005, and the annual rental expense for this building in 2005 is \$68,400. The lease expires on December 31, 2005. Export Erez leases an additional 400 square meters, in the same building, from a non affiliated party, at an annual rental expense of \$19,200. That lease also expires on December 31, 2005.

Industrial Area of Ashdod: Mayotex leases a 230 square meter space in the Industrial Area of Ashdod for its car armor installations. The annual rental expense for this space is \$12,000. The lease expires on December 31, 2005.

Industrial Area of Sderot: as of January 2, 2005, Mayotex leases an approximately 1,250 square meter space in the Industrial Area of Sderot primarily for its cut and sew operations. The lease expires on December 31, 2005 and is renewable for an additional one year term. The annual rental expense for this space will be \$43,884 in 2005.

Van Nuys, California: as of September 1, 2003, Owen Mills leases an approximately 9,000 square feet space in Van Nuys, California for its operations. The lease expires on August 31, 2008. The annual rental expense for this space is \$54,000.

NOTE 6 SUBSEQUENT EVENTS

On August 10, 2005 the Company filed a registration statement with the U.S. Securities and Exchange Commission to register for resale the shares issued in the private placement (see Note 5 (B)).

Due to the contingency relating to the Agreement, the Company has not recorded the receipt of the cash or the issuance of common stock or warrants in the accompanying condensed consolidated financial statements.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

This information should be read in conjunction with the condensed consolidated financial statements and notes included in Item 1 of Part I of this Quarterly Report and the audited consolidated financial statements and notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations for the year ended December 31, 2004 contained in our 2004 Annual Report on Form 10-KSB. The discussion and analysis which follows may contain trend analysis and other forward-looking statements within the meaning of Section 21E of the Securities Exchange Act of 1934 which reflect our current views with respect to future events and financial results. These include statements regarding our earnings, projected growth and forecasts, and similar matters that are not historical facts.

We remind shareholders that forward-looking statements are merely predictions and therefore are inherently subject to uncertainties and other factors that could cause the future results to differ materially from those described in the forward-looking statements

Critical Accounting Policies

We have identified the following policies as critical to the understanding of our condensed consolidated financial statements. The preparation of our consolidated financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the condensed consolidated financial statements and the reported amounts of sales and expenses during the reporting periods. Our condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States.

Revenues and Revenue Recognition. Revenues from sales of products are recognized upon shipment to customers. We provide a warranty on goods ranging from three to four years. Our policy is to consider the establishment of a reserve for warranty expenses. Based upon historical experience of no warranty claims, we have not established a reserve at June 30, 2005 and June 30, 2004. If we change any of our assumptions with regard to our recognition of revenues, or if there is a change with respect to warranties expenses our financial position and results of operations may change materially.

Foreign Currency Translation And Transactions. The functional currency of Export Erez, Ltd., Mayotex Ltd., and Achidatex Nazareth Elite is the New Israeli Shekel, or NIS. The functional currency of Dragonwear Trading Ltd. is the Cyprus Pound, or CYP. The financial statements of Dragonwear are translated into NIS. The financial statements for all of these entities are then translated into US dollars from NIS at period-end exchange rates as to assets and liabilities and average exchange rates as to revenues and expenses. Capital accounts are translated at their historical exchange rates when the capital transactions occurred. Foreign currency transaction gains or losses from transactions denominated in currencies other than NIS are recognized in net income in the period the gain or loss occurs. Any change in exchange rates may have a material impact on our financial position and results of operations.

14

Accounts Receivable. Accounts receivable consist primarily of receivables from customers and institutions. We record a provision for doubtful accounts, when appropriate, to allow for any amounts which may be unrecoverable based upon an analysis of our prior collection experience, customer creditworthiness, and current economic trends.

Inventories. Inventories are valued at the lower of cost or market value using the first-in first-out method. The cost includes expenses of freight-in transportation. The specific identification method is used for finished goods since all orders are custom orders for customers. Inventories write-offs and write-down provisions are provided to cover risks arising from slow-moving items or technological obsolescence. Any change in our assumptions with respect to the need to write-off write-down the value of our inventories may have material affect on our financial position or results of operations.

Property Plant and Equipment. Fixed assets are stated at cost less accumulated depreciation. Depreciation is computed using the straight-line method over the estimated useful lives of three to twenty-five years. These long-lived assets are generally evaluated on an individual basis in making a determination as to whether such assets are impaired. Periodically, we review our long-lived assets for impairment based on estimated future non-discounted cash flows attributed to the assets. In the event such cash flows are not expected to be sufficient to recover the recorded value of the assets, the assets are written down to their estimated fair values. The use of different assumptions with respect to the expected cash flows from our assets and other economic variables, primarily the discount rate, may lead to different conclusions regarding the recoverability of our assets carrying values and to the potential need to record an impairment loss for our long lived assets.

Overview

We are a manufacturer and global provider of personal military and civilian protective equipment and supplies. Our products are used by military, law enforcement, border patrol enforcement, and other special security forces, corporations, non-governmental organizations and individuals throughout the world.

Our main products include body armor, bomb disposal suits, bullet proof vests and jackets, ballistic wall coverings, bullet proof ceramic and polyethylene panels, V.I.P. car armoring and lightweight armor kits for vehicles, personal military equipment, dry storage systems, liquid logistic products, tents and other camping and travel gear.

From time to time we have provided bulletproof vests developed by us to laboratories in the United States for testing, and following the tests, the products were deemed to have met the American National Institute of Justice (NIJ) standards. The American NIJ standards are the accepted standards worldwide for bulletproof vests and compliance with these standards has enabled us to enter into the North American market as well as other new markets for our bulletproof vests. Similarly, we have submitted our ballistic ceramic plates for testing by German laboratories and following the tests, the products were deemed to have met the German qualification standard. Obtaining this standard has enabled us to enter the German and other European markets for these products.

15

Our strategy is to capitalize on our significant research and development capabilities and the strength of our brand identity and achieve greater economies of scale. Due to ever-present international tensions we believe that the demand for our products will continue to grow. We expect to address this growth by offering a comprehensive array of high quality branded security products to meet the needs of our customers

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10QSB/A

around the world. We intend to enhance our leadership position in the industry through additional strategic acquisitions and by creating a broad portfolio of products and services to satisfy all of our customers' increasingly complex security products needs. The following elements define our growth strategy.

Capitalize on Exposure to Military Problems. We believe that the events of September 11, 2001, the subsequent War on Terrorism, the continuing conflict in Iraq, the increasing likelihood of military conflicts abroad, and recent events where lives have been saved due to the performance of armor systems, are all likely to result in additional interest in our products.

Expand Distribution, Networks and Product Offerings. We expect to continue to leverage our distribution network by expanding our range of branded law enforcement equipment through the acquisition of niche defensive security products manufacturers and by investing in the development of new and enhanced products which complement our existing offerings. We believe that a broader product line will strengthen our relationships with distributors and enhance our brand appeal with military, law enforcement and other end users.

Pursue Strategic Acquisitions. In addition to our recent acquisition of Owen Mills Company, or Owen Mills, we intend to continue to selectively pursue strategic acquisitions that complement and/or expand our product offerings, provide access to new geographic markets, and provide additional distribution channels and new customer relations.

Material Trends

Local Military Market. The Israeli Military defense budget has been subject to reductions since the second half of 2003. As a result, the demand for our products declined in the second half of 2003 and stabilized at a lower level in 2004 and in the first six months of 2005. In 2004 and in the first six months of 2005 sales to the Israeli Ministry of Defense were \$2,094,590 and \$1,717,138, accounting for 17.4% and 22.6% of our sales.

In late summer 2005, Israel evacuated the Gaza strip. The evacuation process resulted in large expenses and caused a reduction in the funds that were initially budgeted for the procurement of new products. Additionally, as a result of the government decisions and the evacuation, the Israeli Defense Forces will slightly reduce its size and equipment will be stored for long periods in environments that will promote battlefield readiness and the capability of quick deployment. In light of these trends, we expect our local military business to remain stable at the existing relatively low levels in 2005, and to grow in 2006 as a result of an increase in the demand for our dry storage systems products.

16

Export Military Market. Our customers in this market are military and law enforcement organizations, mostly in South America, North America and Europe. Their budgets are fluctuating and as a result we cannot identify definite trends in these markets. In 2004 and in the first six months of 2005, we had sales of \$2,792,702 and \$291,942 in South America sales of \$4,036,584 and \$1,234,631 in North America and sales of \$776,305 and \$3,023,659 in Europe.

Since 2003, we have increased our export efforts and sales as a consequence of the worldwide environment resulting from the events of September 11, 2001, the subsequent War on Terrorism and the continuing conflict in Iraq. We are continuing our efforts to strengthen our position in our existing export markets in the U.S., South America, Asia and Europe, and to extend our presence to new export markets in South America and Europe. We believe that those markets are growing and that any future success in such markets is mainly dependant on our ability to be competitive in our pricing and the quality of our products.

As a result of the above, we expect instability in that our export military business will be under pressure in the next year, and that we will experience growth in the next two to three years.

Local Civilian Market. Our product range to the civilian market is diversified. In 2004 our local market business grew, due to the improvement of the economic situation in Israel. We expect modest increase in this market in 2005 and in the future.

Gross Profit Margins. Our pricing policy, although slightly different from one product to the other, is based on our existing overall gross margin. We do not expect a material change in our gross profit margins in the foreseeable future.

Backlog. We had approximately \$3.7 million of unfilled customer orders at June 30, 2005, out of which approximately \$2.5 million was attributable to orders from military customers in South America and Asia, approximately \$300,000 was attributable to the local civilian market, approximately \$100,000 was attributable to the U.S. civilian market and approximately \$800,000 was attributable to the Israeli Military of

Defense.

Operations in the Erez Industrial Zone

During 2004, the Israeli Government decided to evacuate the Erez Industrial Zone in the Gaza Strip where part of our operations were located. We evacuated our remaining operations from the Erez Industrial Zone in August 2005. The Israeli Government's decision to evacuate the Gaza Strip was supported by certain resolutions as well as the Evacuation Law that was adopted by the Israeli Parliament to compensate the Israeli Gaza Strip settlers as well as business and property owners in the Gaza Strip and in the Erez Industrial Zone, however, the amount of the compensation has not been finalized.

We owned facilities, leased other facilities and maintained equipment and inventory within this area. During the last half of 2004, we prepared for the eventual evacuation by merging existing production facilities. We moved one of our light cut and sew operations from the Erez Industrial Zone to Sderot and some of our webbing equipment to Nazareth. Due to our belief that we will be reimbursed for all the costs related to the evacuation of the Erez Industrial Zone, no impairment or accrued liabilities have been recorded at June 30, 2005.

17

Due to our belief that we will be reimbursed for all the costs related to the evacuation of the Erez Industrial Zone, no impairment or accrued liabilities have been recorded at June 30, 2005.

Three Months Ended June 30, 2005 Compared with Three Months Ended June 30, 2004

Results of Operations

Net Revenues and Gross Profit Margin. Net revenues for the three months ended June 30, 2005 increased to \$3,907,691 from \$2,826,725 in the same period in 2004, an increase of 38.2%. The increase is primarily attributable to the increase of sales to local markets, including sales of our subsidiary Owen Mills to the U.S. civilian market.

The following table sets forth the breakdown of sales by segment for the three months ended June 30, 2005 and 2004.

	Three Months Ended June 30,	
	2005	2004
Sales to the local civilian market	\$ 699,770	\$ 282,108
Sales to the local military market	1,135,671	688,147
Export military sales	2,072,250	1,856,470
Total	\$ 3,907,691	\$ 2,826,725

The following table sets forth, for the three months ended June 30, 2005, the revenues and net income of each of our subsidiaries as a percentage of our total revenues and net income.

	For the three months ended June 30, 2005		
	Achidatex	Export Erez	Owen Mills
Revenues	45.0%	50.2%	4.8%
Net Income	56.6%	33.4%	**

** Owen Mills recorded a loss of \$30,994.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10QSB/A

The dominance of export sales is expected to continue into the remainder of 2005. This expectation is based, among other things, on the fact that we have broadened our export customers base. While we believe that the trend of growth in the local civilian market (which includes sales in the amount of \$279,089 in the U.S. by Owen Mills, our U.S. subsidiary) is a stable one, it is hard to predict the trends of the local military market.

We anticipate that our revenues for the remainder of 2005 will exceed our revenues in the same period in 2004.

18

Gross profit for the three months ended June 30, 2005 was \$1,174,470 compared to \$854,527 for the same period in 2004. This increase in gross profit is principally attributable to growth in sales. Our gross profit margin for the three months ended June 30, 2005 was 30.1% compared to 30.2% for the same period in 2004. We believe that the third quarter of 2005 will be characterized by an increased demand worldwide for raw materials, that may result in significant extensions in the regular delivery schedules and an increase in raw material prices which will likely affect our cost of production and our gross profit margin.

Selling Expenses. Selling expenses for the three months ended June 30, 2005 decreased to \$234,729 from \$270,437 for the same period in 2004. The decrease in our selling expenses was attributable to lower commission paid to sales agents. We do not anticipate any material change in our selling expenses in the third quarter of 2005.

General and Administrative Expenses. General and administrative expenses for three months ended June 30, 2005 increased to \$560,951 from \$376,892 for the same period in 2004. This increase is mainly a result of the growth in professional fees and additional expenses due to the acquisition of Owen Mills. We do not anticipate any material change in our general and administrative expenses in the third quarter of 2005.

Income Tax (Expense). Our income tax expense for the three months ended June 30, 2005 was \$133,015 as compared to \$89,363 for the comparable period in 2004, reflecting the growth in our profits. Our effective tax rate was 35.1 % in the 2005 period, compared to 43.1% in the 2004 period, as a result of the reduction of tax rates by the Israeli Government.

Financial (Expenses) Income, Net. We had financial income, net of \$8,732 for the three months ended June 30, 2005 as compared to financial expense, net of \$38,313 for the same period in 2004. This income is mainly attributed to a decrease in the interest rates and profits from foreign currency deposits, mainly due to a devaluation of the Israeli currency devaluation compared to the dollar, in 2005.

Other Income (Expense), Net. We had other expense, net for the three months ended June 30, 2005 of \$15,514 as compared to other income, net of \$31,709 for the same period in 2004. The other expense, net is primarily attributable to a loss from sales of marketable securities in the amount of \$12,341 as compared to a profit from sales of marketable securities in the amount of \$31,709 in the same period in 2004.

Other Comprehensive Income (Loss). We recorded other comprehensive losses for the three months ended June 30, 2005 of \$193,283 as compared to other comprehensive income of \$29,588 for the same period in 2004. This loss is principally attributable to the approximately 4.9% devaluation of the NIS against the dollar, while in the same period in 2004 the NIS appreciated against the U.S. dollar by approximately 0.68%.

Minority Interest. Minority interest in the profits and losses of one of our consolidated subsidiaries represents the minority shareholders share of the profits or losses in such majority owned subsidiary. For the three months ended June 30, 2005, we recognized and recorded minority share in our profit of \$33,880 compared \$28,121 for the same period in 2004.

19

Six Months Ended June 30, 2005 Compared with Six Months Ended June 30, 2004

Results of Operations

Net Revenues and Gross Profit Margin. Net revenues for six months ended June 30, 2005 increased to \$7,592,171 from \$6,572,804 in the same period in 2004, an increase of 15.5%. The increase is primarily attributable to the increase of sales to the U.S. local markets by our Owen Mills subsidiary.

On February 28, 2005, we acquired all of the outstanding shares of Owen Mills, a company that specializes in military and industrial sewing of marine and ballistic fabric products. For the first six months of 2005, Owen Mills had revenues of \$361,203.

Edgar Filing: DEFENSE INDUSTRIES INTERNATIONAL INC - Form 10QSB/A

The following table sets forth the breakdown of sales by segment for the six months ended June 30, 2005 and 2004.

	Six Months Ended June 30,	
	2005	2004
Sales to the local civilian market	\$ 1,158,790	\$ 539,195
Sales to the local military market	1,717,138	1,130,164
Export military sales	4,716,243	4,903,445
Total	\$ 7,592,171	\$ 6,572,804

The following table sets forth, for the six months ended June 30, 2005, the revenues and net income of each of our subsidiaries as a percentage of our total revenues and net income.

	For the six months ended June 30, 2005		
	Achidatex	Export Erez	Owen Mills
Revenues	45.0%	50.2%	4.8%
Net Income	56.6%	33.4%	**

** Owen Mills recorded a loss of \$30,994

Gross profit for the six months ended June 30, 2005 was \$1,829,567 compared to \$1,820,766 for the same period in 2004. This decrease in gross profit is principally attributable to the decrease in gross profit in the first quarter of 2005 due to a higher percentage of transactions which were characterized by lower profit margins, and the temporary lower operating efficiency in the first quarter of 2005 resulting from the partial relocation of certain manufacturing lines from Erez Industrial Zone to Sderot.

Gross profit margin for the six months ended June 30, 2005 was 24.1% compared to 27.7% for the same period in 2004. Owen Mills gross profit margin for the six months ended June 30, 2005 was 18%.

20

Selling Expenses. Selling expenses for the six months ended June 30, 2005 decreased 3.2% to \$378,810 from \$391,356 for the same the same period in 2004. The decrease in our selling expenses was attributable to lower commission paid to sales agents.

General and Administrative Expenses. General and administrative expenses for the six months ended June 30, 2005 increased to \$958,047 from \$683,589 for the same period in 2004. This increase is mainly a result of the growth in professional fees and additional expenses due to the acquisition of Owen Mills.

Income Tax Expense. Our income tax expense for the six months ended June 30, 2005 was \$182,029 as compared to a tax expense of \$283,701 for the comparable period in 2004, reflecting the decrease in income before tax and the reduction in tax rates in Israel from 35% to 34%. Our effective tax rate was 36.9 % in the 2005 period, compared to 38.0% in the 2004 period, as a result of the reduction of tax rates by the Israeli Government.

Financial Expenses. We had financial expenses, net of \$35,437 for the six months ended June 30, 2005 as compared to \$62,795 for the same period in 2004. This decrease is attributed mainly to a decrease in interest rates and profits from foreign currency deposits, mainly due to the Israeli currency devaluation in 2005.

Other Income, Net. We had other income, net for the six months ended June 30, 2005 of \$64,712 as compared to other income, net of \$58,907 for the same period in 2004. The increase is attributable to a gain from the sale of fixed assets in the 2005 period, that was offset by a

decrease in profits from our marketable securities.

Other Comprehensive Income (Loss). We had other comprehensive loss, for the six months ended June 30, 2005 of \$234,567 as compared to other comprehensive loss of \$88,893 for the same period in 2004. This loss is principally attributable to the approximately 6.2% devaluation of the NIS against the dollar, while in the same period in 2004 the NIS appreciated against the dollar by approximately 2.7%.

Minority Interest. Minority interest in the profits and losses of one of our consolidated subsidiaries represents the minority shareholders share of the profits or losses in such majority owned subsidiary. For the six months ended June 30, 2005, we recognized and recorded minority share in our profit of \$51,605 compared \$25,898 for the same period in 2004.

Liquidity and Capital Resources

As of June 30, 2005, we had \$743,480 in cash and cash equivalents, \$790,451 in marketable securities and working capital of \$4,089,525 as compared to \$505,013 in cash and cash equivalents, \$808,102 in marketable securities and \$4,344,566 in working capital at December 31, 2004.

Net cash provided from operating activities was \$89,811 for the six months ended June 30, 2005 as compared to \$243,183 provided from operating activities for the same period in 2004. This was primarily attributable to net income of \$288,351, a \$267,568 decrease in inventory, a decrease in other current assets of \$206,487, depreciation of \$170,944 and an increase in minority interest of \$51,605. During the six months ended June 30, 2005, cash used in operating activities was used mainly to support an increase of accounts receivable of \$740,157, deferred private placement costs of \$100,000, an increase in deferred taxes of \$21,661 and unrealized gain on marketable securities of \$46,940.

21

Our revenues for the six months ended June 30, 2005, increased by approximately \$1 million compared to the same period in 2004, resulting in an increase in our accounts receivable that was partially offset by a decrease in inventory and in other current assets. In the first half of 2005 we invested \$384,393 in fixed assets (mainly in new molding equipment) and entered into \$709,211 of short and long term loans.

Net cash used in investing activities was \$330,125 for the six months ended June 30, 2005 as compared to \$96,291 in the six months ended June 30, 2004. During the six months ended June 30, 2005, \$366,621 (net of sales of fixed assets) was used to purchase fixed assets, while \$16,081 (net of purchases of marketable securities) was provided from sales of our marketable securities, and \$20,415 was obtained in connection with our acquisition of Owen Mills.

Net cash provided from financing activities was \$709,211 for the six months ended June 30, 2005 as compared to \$19,809 used in the six months ended June 30, 2004. During the six months ended June 30, 2005, we increased our short-term debt by \$913,108 and we repaid \$203,897 (net of proceeds from new long term debt) of long term debt.

All of our large contracts are supported by letters of credit. As a result, we believe that we have limited exposure to doubtful accounts receivables. We have historically achieved net profits on an annual basis, but our quarterly profits are not consistent on a quarter to quarter basis. Nevertheless, we have striven to balance our accounts payable and account receivable. Subject to an unexpected growth in inventories as a result of a future growth in sales or a significant change in raw material prices, we intend to use our cash flow from operations for the acquisition of companies or equipment.

During 2005, we decided to reduce our projected spending for research and development. We anticipate that our research and development expenses for the remainder of 2005 and for 2006 will reflect annualized spending of approximately \$70,000 per year.

On June 15, 2005, we executed a securities purchase agreement, with a group of investors for a \$1.1 million private placement of our common stock. Pursuant to such agreement, we issued 1,833,334 shares of our common stock to the investors at a price of \$0.60 per share. As of August 12, 2005, all cash, shares and warrants involved in the private placement transaction remained in escrow and had not been disbursed to the various parties. The escrow agent will transfer to us the amount of \$1.1 million and to the investors 1,915,467 shares of our common stock as well as warrants to purchase 627,500 shares of common stock within three days form the receipt of a notice confirming the effectiveness of this registration statement prior to December 12, 2005. In such event, the remaining 1,368,191 shares of common stock will remain in escrow for the purpose of price protection, as defined in Section (g) of the securities purchase agreement. If the escrow agent has not received such notice prior to December 12, 2005 then, on the seventh business day thereafter the \$1.1 million will be returned to the investors and the shares, the warrants and any interest yield with regards to the \$1.1 million held by the escrow agent will be transferred to us. Notwithstanding the above, in the event that the registration statement will not be declared effective by December 12, 2005, the investors will be able to elect to receive the Shares and Warrants, and in such event we will receive the \$1.1 million and any interest yield with regard to the \$1.1 million. In addition, during until December 12, 2005, we may draw up to \$550,000 from the escrowed funds for the purpose of purchasing fixed assets, in the sole discretion of our board of directors. In such event as a condition to the delivery of the funds, we have agreed to pledge all of the assets purchased with such

funds to the investors. In the event that the \$1.1 million, is returned to the investors, then within seven business days from December 12, 2005 we will return all the funds that have been drawn from escrow account to the investors.

We believe that we have sufficient working capital and borrowing capability to sustain our current level of operations for the next twelve months.

Recent Accounting Pronouncements

In December 2004, the FASB issued SFAS No. 123 (R), *Share-Based Payment*. SFAS No. 123 (R) revises SFAS No. 123, *Accounting for Stock-Based Compensation* and supersedes APB Opinion No. 25, *Accounting for Stock Issued to Employees*. SFAS No. 123 (R) focuses primarily on the accounting for transactions in which an entity obtains employee services in share-based payment transactions. SFAS No. 123 (R) requires companies to recognize in the statement of operations the cost of employee services received in exchange for awards of equity instruments based on the grant-date fair value of those awards (with limited exceptions). SFAS No. 123 (R) is effective as of the first interim or annual reporting period that begins after June 15, 2005 for non-small business issuers and after December 15, 2005 for small business issuers. We are currently evaluating the provisions of SFAS No. 123 (R) and has not yet determined the impact, if any, that SFAS No. 123 (R) will have on our financial statement presentation or disclosures.

In May 2005, the FASB issued FASB Statement No. 154, *Accounting Changes and Error Corrections: a replacement of APB Opinion No. 20 (APB 20) and FASB Statement No. 3 (SFAS No. 154)* which requires companies to apply voluntary changes in accounting principles retrospectively whenever it is practicable. The retrospective application requirement replaces APB 20's requirement to recognize most voluntary changes in accounting principle by including the cumulative effect of the change in net income during the period the change occurs. Retrospective application will be the required transition method for new accounting pronouncements in the event that a newly-issued pronouncement does not specify transition guidance. SFAS No. 154 is effective for accounting changes made in fiscal years beginning after December 15, 2005.

Foreign Currency Exchange Risk

We develop products in Israel and sell them in South America, Asia and several European countries. As a result, our financial results could be affected by factors such as changes in foreign currency exchange rates or weak economic conditions in foreign markets.

Our foreign currency exposure with respect to our sales is mitigated, and we expect it will continue to be mitigated, through salaries, materials and support operations, in which part of these costs are denominated in NIS.

During 2005, the NIS devalued approximately 6.2% against the dollar. Among the factors contributing to the devaluation were the increase in the interest rate for dollars investments compared to interest rate for NIS investments. The inflation in Israel was approximately 0.5% for the six month ended June 2005 compared to an annual deflation of 1.2% in 2004.

Since most of our sales are quoted in dollars, and a portion of our expenses are incurred in NIS, our results may be adversely affected by a change in the rate of inflation in Israel or if such change in the rate of inflation is not offset, or is offset on a lagging basis, by a corresponding devaluation of the NIS against the dollar and other foreign currencies. We will also be adversely affected if the dollar depreciates against the Euro, the currency used for many of our purchases of raw material.

We did not enter into any foreign exchange contracts in 2004 or the first six months of 2005.

Cautionary Statement Regarding Forward-Looking Information and Risk Factors

This report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Words such as anticipate, expect, intend, plan, believe, seek, outlook and estimate as well as similar words and phrases signify forward-looking statements. Our forward-looking statements are not guarantees of future results and conditions and important factors, risks and uncertainties may cause our actual results to differ materially from those expressed in our forward-looking statements. These uncertainties and other factors include, but are not limited to, the following and other risk factors contained in our Annual Report on Form 10-KSB:

Our significant international operations subject us to financial and regulatory risks.

Currency exchange rate fluctuations in the world markets in which we conduct business could have a material adverse effect on our business, results of operations and financial condition.

Sales of our products are subject to governmental procurement procedures and practices; termination, reduction or modification of contracts with our customers, and especially with the government of Israel, or a substantial decrease in our customers' budgets may adversely affect on us.

The loss of one or more of our key customers would result in a loss of a significant amount of our revenues.

Our markets are highly competitive. Inability to compete effectively will adversely affect us.

Limited sources for some of our raw materials may significantly curtail our manufacturing operations.

Our resources may be insufficient to manage the demands imposed by any future growth.

Item 3. Controls and Procedures

Our management, including our chief executive officer and chief financial officer, evaluated the effectiveness of our disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the end of the period covered by this quarterly report on Form 10-QSB. Based upon that evaluation, our chief executive officer and chief financial officer have concluded that, as of such date, our disclosure controls and procedures were effective to ensure that information required to be disclosed by our company in reports that we file or submit under the U.S.

Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information was made known to them by others within the company, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Controls Over Financial Reporting

In connection with the evaluation of the Company's internal controls as of the end of the period covered by this quarterly report, our chief executive officer and chief financial officer have determined that there were no changes to our internal controls over financial reporting that have materially affected, or are reasonably likely to materially effect, the Company's internal controls over financial reporting.

All internal control systems, no matter how well designed, have inherent limitations. Therefore, even those systems determined to be effective may not prevent or detect misstatements and can provide only reasonable assurance with respect to financial statement preparation and presentation. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

PART II OTHER INFORMATION

DEFENSE INDUSTRIES INTERNATIONAL, INC. AND SUBSIDIARIES

Item 1. Legal Proceedings

We are not a party to any pending or to the best of our knowledge, any threatening legal proceedings. None of our directors, officers or affiliates, or owner of record of more than five percent (5%) of our shares, or any affiliate of any such director, officer or security holder is a party adverse to us or has a material interest adverse to us in reference to a pending litigation.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

On June 15, 2005, we executed a Securities Purchase Agreement, (the Agreement), with a group of investors for a \$1.1 million private placement of our common stock. Pursuant to the Agreement, we agreed to issue 1,833,334 shares of our common stock to the investors at a price of \$0.60 per share. We also agreed to issue the investors a right to purchase up to an aggregate of 365,000 additional shares of common stock at \$0.94 per share issuable upon the exercise of warrants which exercisable until June 30, 2007 and a right to purchase up to an aggregate of 182,500 additional shares of common stock at \$2.40 per share issuable upon the exercise of warrants which exercisable until June 30, 2010. In addition, pursuant to the Agreement, under certain circumstances, the investors will have the right to receive up to an additional 1,368,191 shares of common stock if on June 16, 2006 there has been a decrease in the share price of our common stock below \$0.60 per share. In consideration for their services in connection with this private placement, we agreed to issue 82,133 shares of Common Stock, a right to purchase up to an aggregate of 60,000 additional shares of common stock at \$0.94 per share issuable upon the exercise of warrants which exercisable until June 30, 2007 and a right to purchase up to an aggregate of 20,000 additional shares of common stock at \$2.40 per share issuable upon the exercise of warrants which exercisable until June 30, 2010. The issuance of shares will be made pursuant to an exemption from registration under section 4(2) of the Securities Act of 1933, and Rule 506 of Regulation D under the 1933 Act.

As part of the Agreement, we agreed to file a registration statement with the U.S. Securities and Exchange Commission to register for resale the shares to be issued in the private placement as well as the shares underlying the warrants, no later than 180 days after the closing. If the registration statement is not declared effective by this date, the Agreement provides for the return of all funds to the investors along with annual interest of 5% on the \$1.1 million. As of August 12, 2005, all cash, shares and warrants involved in the private placement transaction remained in escrow and had not been disbursed to the various parties.
