Posting of Scheme Document and Trading Update

On 15 May 2007, Hanson and HeidelbergCement announced that they had reached agreement on the terms of the Scheme, the entire issued and to be issued share capital of Hanson at a price of 1100 pence in cash for each share.

It is intended that the Acquisition will be implemented by way of a Court approved procedure ("Scheme") under section 425 of the Companies Act 1985 (the "Act"). Hanson now announces that it has prepared, containing, inter alia, the terms of the Scheme, an explanatory statement (in compliance with the requirements of the Act), a timetable of principal events, and details of the action to be taken by Hanson, all Hanson Shareholders, ADS Holders and CDI Holders.

As described in the Scheme Document, the Scheme will require the approval of Hanson Shareholders at a special resolution at an Extraordinary General Meeting of Hanson. The Court Meeting and the EGM will both be held at The Royal Aeronautical Society, 4 Hamilton Place, Mayfair, London W1J 7BQ on Tuesday 23 July 2007 at 11:15 a.m. respectively. The Scheme will also require the subsequent sanction of the Court and the approval of the Court by the Court. Further details as to the approvals required and the persons entitled to vote are set out in the Scheme Document. Subject to approval at the relevant meetings and the satisfaction and waiver of the requirements of the Scheme Document, the Scheme is expected to become effective on or around August 24, 2007.

Trading update

Trading for the first half of 2007 remains in line with Hanson's expectations, as set out in the Annual General Meeting of the Company on April 24, 2007, with challenging conditions in North America broadly offset by improvements in other divisions.

In North America, aggregates selling prices have remained robust. However, the residential market, with a prolonged winter season, will result in a challenging first half compared to an unusually strong first half in 2006.

In the UK, both divisions have performed well compared to the first half of 2006, supported by strong demand and disciplined cost control.

Elsewhere, Hanson's operations in Australia, Asia and Continental Europe have enjoyed a good first half.

At this stage, the Company expects continued weakness in the US residential market and adverse conditions in North America for the second half of the year, with trading in divisions elsewhere remaining robust.

Notes to editors

Hanson is one of the world's largest suppliers of heavy building materials to the construction industry, with a turnover of £4.1bn. The Company's products fall into two categories: "aggregates" (crushed rock, sand and gravel and cement related products) and "building products" (concrete pipes, pre-cast products, concrete blocks and bricks). Hanson employ approximately 26,000 people, operating primarily in North America and Continental Europe, with operations in Asia Pacific and Continental Europe.

Any capitalised term used but not defined in this announcement has the same meaning as is given to it in the Company's annual report.
