Business Report

For the Period

From: April 1, 2003

To: March 31, 2004

1. OUTLINE OF BUSINESS**(1) Review of Operations**

During fiscal 2004, ended March 31, 2004, economic conditions surrounding Honda Motor Co., Ltd., were on a gradual trend toward recovery. The U.S. economy displayed signs of upward momentum, and economic growth was sustained in most Asian countries throughout the second half of the term. The EU economies, however, remained generally slow, while in Japan, despite lackluster consumer spending, both exports and capital investment were up.

Against this backdrop, Honda strove to strengthen its corporate structure so as to respond quickly and accurately to the diverse needs of its customers. With respect to R&D, the Company worked to accelerate the development of safety and environmental technologies as well as enhance its product offerings with new values. On the production side, Honda implemented further reforms to its production systems while working to expand the capacity of its Asian and other overseas production facilities and also commenced component production at newly established facilities. In its sales activities, in addition to strengthening its sales force, the Company strove to augment its product lineup, including product supply that transcends national boundaries. Although Honda achieved growth in automobile exports and other sales, net sales for the period were held to ¥3,319.7 billion, hovering at approximately the same level as that for the previous fiscal year, primarily as a result of an easing off of automobile sales in Japan. Export sales totaled ¥2,175.6 billion, corresponding to 65.5% of net sales. Although the depreciation of the U.S. dollar threatened to suppress revenue, ordinary profit increased ¥68.5 billion, to ¥311.2 billion, on the strength of effective cost-cutting measures and improved non-operating income as well as the positive effects of the change to accounting standards for royalty revenue. Net income climbed ¥56.4 billion, to ¥226.4 billion.

Sales of each business segment were as follows:

Segment	Amount Yen (millions)	Changes from	Percentage of
---------	--------------------------	--------------	---------------

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

			the previous	total (%)
			fiscal year (%)	
	Japan			
Motorcycles	Export	72,625	8.9	12.6
		344,990	6.8	
	Total	417,616	7.1	
	Japan			
Automobiles	Export	1,048,253	10.7	83.6
		1,727,610	9.3	
	Total	2,775,864	0.8	
	Japan			
Power Products	Export	23,286	1.1	3.8
		103,026	8.6	
	Total	126,312	7.2	
	Japan			
Total	Export	1,144,165	10.4	100.0
		2,175,628	6.3	
	Total	3,319,793	0.1	

Note: The amounts described above disregard and round off amounts of less than ¥1 million.

Table of Contents

Motorcycles Honda continued to apply cutting-edge technologies to augment its lineup of environment-friendly products while at the same time working to enhance its sales force aimed at meeting the diversifying needs of its customers. The Company introduced the **XR250 Motard** on road/off road dual-purpose sports bike, featuring powerful and dynamic design, and the **CBR600 RR** super sports bike, which incorporates all of the advanced technologies and styling of Honda's racing machines. We also commenced imports from China of the **Spacy 100** and **Dio** scooters. Honda also launched the **Smart Dio Z4**, the world's first 50cc scooter to be equipped with the Honda Programmed Fuel Injection System (PGM-FI), with which it provides cleaner emissions and superb fuel efficiency. Domestic sales dipped 6.1%, to 403,000 units, as a result of an easing off of scooter sales, while exports slipped 5.9%, to 730,000 units, due to such factors as a softening of sales elsewhere in Asia.

Automobiles Honda endeavored to create new value to meet its customers' needs and augment its attractive product lineup while working to enhance product safety and environmental soundness. Among its accomplishments during the term, the Company put its new collision safety body into practical application and expanded its range of vehicles that are certified under Japan's Ministry of Land, Infrastructure and Transport's 2005 75% emissions reduction standard. Regarding new products introduced during the term, Honda commenced imports from the United States of the **Element**, a new concept SUV, and also incorporated the world's first Collision Mitigating Brake System and the superbly environment-friendly new i-VTEC engine into the new **Inspire**. We also brought to market the new **Life**, which features high safety levels and environment-friendliness with practical and stylish design, as well as the new **Odyssey**, which delivers a roomy interior and sporty mobility through the use of our newly developed low-floor platform. Furthermore, in July 2003 Honda became the first company to lease fuel-celled powered vehicles for private corporations when it commenced lease sales of its **FCX** fuel-cell car. Despite a dip in sales of the **Fit**, the **Odyssey** and the **Life** both sold well domestically during the term. However, domestic sales volume dropped 16.8%, to 725,000 units. In exports, although sales to Europe increased, sales to North America eased off and export sales volume slackened 1.4%, to 479,000 units.

Power Products Honda strove to meet the diversifying needs of its customers and contribute to their livelihood by creating new value and augmenting its lineup of environment-friendly products. In new products, the Company introduced the **BF135** and **BF150** four-stroke outboard engines, which, thanks to its advanced technologies, are both powerful and environment-friendly, as well as the **HSS1170i** hybrid snowblower. We also launched the **GX35** four-stroke, general-purpose engine, which is highly environment-friendly and can be operated in a variety of positions, and also the **UMK435** mower, which is powered by the GX35. Domestic sales slid 1.3%, to 467,000 units, due to such factors as a decline in sales of pumps and snowblowers, although sales of general-purpose engines, generators, and other products increased. In exports, although sales of lawn mowers and other products slackened, sales of general-purpose engines, generators, and other products expanded, and export sales climbed 14.7%, to 4,674,000 units.

Capital expenditures during the fiscal year under review totaled ¥85.0 billion, an 8.8% increase from the previous fiscal year.

<u>Breakdown</u>	<u>Amount Yen (millions)</u>	<u>Changes from the previous fiscal year (%)</u>
Motorcycle-related production facilities	2,700	9.7
Automobile-related production facilities	31,587	1.1
Power product-related production facilities	997	10.8
Other investments	49,765	14.2
Total	85,050	8.8

Note: The amounts described above disregard and round off amounts of less than ¥1 million.

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

Capital expenditures for production facilities were made to expand, rationalize, and renew production facilities. Other investments consist primarily of the expansion of sales and R&D facilities as well as the takeover of property from subsidiaries.

Financing

There was no stock or bond issuance during the fiscal year ended March 31, 2004.

Table of Contents

(2) Preparing for the Future

The economy of the United States is showing a recovery, while consumer spending for the latter half of fiscal 2005 may be expected to slow down. On the other hand, Asian and other regions are expected to remain stable. However, the management environment is still experiencing difficult conditions due to global political and economic uncertainties and currency movements. Competition in the Japanese market is expected to intensify amid continuing weak domestic consumer spending.

Under such circumstances, Honda will strengthen its corporate structure quickly and flexibly to meet the requirements of its customers and society as well as changes in the business environment. Furthermore, we will endeavor to continue to raise the quality of our products and make further progress in safety and environment-friendliness.

Honda recognizes that the further enhancing of the following specific areas is essential to its success:

R&D

Production efficiency

Sales efficiency

Product quality

Safety technologies

The environment

R&D

Along with efforts to develop more effective safety and environmental technologies, Honda will create and swiftly introduce new value-added products that meet specific needs in various regional markets.

Honda will also continue efforts in the research of future technologies, including the advancement of a bipedal humanoid robot and a business jet.

Production Efficiency

Honda will establish efficient and flexible production systems and expand production capacity with aims to increase its capability of supplying high quality products that meet market needs. In addition to the ongoing expansion of these systems, Honda also intends to expand on a global scale the supply network of its competitive products and component parts.

Sales Efficiency

Honda will expand its product lines and upgrade its sales structure. Through the innovative use of IT, Honda will also promote its efforts in customer communications.

To give its customers further satisfaction, Honda will continue to make efforts to offer high quality service promptly throughout the world.

Product Quality

Responding to increasing consumer demand, Honda will upgrade its quality control through enhancing coordination among its development, purchasing, production, sales, and service departments.

Safety Technologies

Honda will develop the technologies for reducing aggressivity, as well as the technologies for accident prediction and prevention and for reduction of passenger and pedestrian injuries. Honda intends to enhance its contribution to traffic safety in motorized societies, including Asian countries. Honda also intends to remain active in a variety of traffic safety programs, including advanced driving and motorcycling training programs provided by local dealerships.

The Environment

Honda will step up the introduction of clean, fuel-efficient engine technologies and recyclability throughout its product lines. Honda will also advance alternative fuel technologies, including fuel cells. In addition, Honda will continue its efforts to minimize environmental impact, as measured by Life Cycle Assessment*, in all of its business fields, including logistics and sales. In its production activities, Honda promotes environmental preservation issues under its Green Factory concept.

*Life Cycle Assessment

A comprehensive system for quantifying the environmental impact of Honda's products throughout their life cycles, from material procurement and energy consumption to waste disposal.

Honda will continue to evolve in each of these areas, focusing on activities aligned with these three directions: Value creation, Globalization and Commitment for the future to reach its goal of becoming a company that society wants to exist.

As always, we look forward to your continued support.

Table of Contents**2. CORPORATE DATA (as of March 31, 2004)****(1) Principal Lines of Business**

The Company principally carries out the production and sale of transportation machinery and equipment, motors, agricultural machinery and appliances as well as other machinery and equipment. The Company also engages in business related to the above. Products are categorized into the following segments and principal products of each segment are as follows:

<u>Segment</u>	<u>Principal products</u>	
Motorcycles	Motorized Bicycles	(Today, Super Cub, Dio, Smart Dio)
	Mid-size Motorcycles	(Fusion, Forza, XR250, FTR)
	Large-size Motorcycles	(CB400, CB1300, CBR600, Shadow)
	ATVs	(Fourtrax series*)
	Personal Water Crafts	(Aquatrax*)
	Compact Cars	(Legend, NSX, Inspire, Accord, Odyssey, CR-V, S2000, Lagreat, Integra, MDX, Element, Step WGN)
Automobiles	Sub-compact Cars	(Civic, Partner, HR-V, Insight, Stream, Fit, Mobilio, Mobilio Spike, Fit Aria)
	Minivehicles	(Acty, Life, Vamos, That s)
Power products	General-Purpose Engines (GX120), Generators (EU9i), Power Tillers (Komame), Snow Throwers (Snowla), Trimmers (UMK425), Water Pumps (WB20XT), Lawn Mowers (HRG465), Outboard Engines (BF2), Electric Wheelchairs (MonPal), Power Carriers (Rikimaru), Tractors (Mighty)	

Note: * denotes a product not sold domestically in Japan.

(2) Principal Business Offices and Factories

<u>Name</u>	<u>Location</u>
Head Office	Minato-ku, Tokyo
Suzuka Factory	Suzuka City

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

Saitama Factory	Sayama City
Hamamatsu Factory	Hamamatsu City
Kumamoto Factory	Ohzu-machi, Kumamoto Prefecture
Mohka Plant of Tochigi Factory	Mohka City
Takanezawa Plant of Tochigi Factory	Takanezawa-cho, Tochigi Prefecture

(3) Common Stock

(a) Total number of shares authorized to be issued by the Company	3,600,000,000 shares
(b) Total number of shares issued	974,414,215 shares
(c) Number of stockholders	59,564

(4) Acquisition, Disposal and Retention of Treasury Stock

(a) Stock retained at the previous fiscal year-end Common stock: 12,797,465 shares
(b) Stock acquired Shares acquired pursuant to Article 210 of the Commercial Code of Japan Common stock: 20,787,400 shares Total purchase price: ¥95,277 million Acquisition of stock less than one transaction unit Common stock: 9,022 shares Total acquisition price: ¥41 million

Table of Contents

(c) Stock disposal

Disposal due to merger of subsidiary

Common stock: 94,200 shares

Total disposal value: ¥413 million

The disposed shares are shares that were issued to shareholders (with the exception of the Company) of Honda

Sogo Tatemono Co., Ltd., instead of new shares upon its merger into the parent company.

Disposal due to subscription request for additional shares required to form one transaction unit

Common stock: 1,423 shares

Total disposal value: ¥6 million

(d) Stock retained at fiscal year-end

Common stock: 33,498,264 shares

Note: Following accounts settlement from April 1 to 15, 2004, the following acquisition of the Company's stock was implemented.

Shares acquired pursuant to Article 210 of the Commercial Code of Japan

Common stock: 1,760,900 shares

Total acquisition price: ¥8,338 million

(5) Employees

<u>Item</u>	<u>Total</u>
Number of employees	27,187
(Compared with the previous fiscal year)	611
Average age	43.5
Average length of service (years)	22.5

Note: The above refers to full-time employees.**(6) Principal Consolidation**

Table of Contents

2) Development and Financial Results of the Company and Its Subsidiaries and Affiliates

Development

1. PT. Honda Precision Parts Manufacturing increased its capital by US\$48 million (406,080 million Indonesian rupiahs), thus becoming a principal subsidiary of Honda Motor Co., Ltd.
2. To better respond to the growing demand and increasingly diverse needs of the Chinese market, in July 2003, Honda, together with Dongfeng Motor Corp., established Dongfeng Honda Automobile (Wuhan) Co., Ltd., a joint venture to manufacture and sell finished automobiles. This new joint venture was created by Honda acquiring a 50% stake in existing finished automobile manufacturer and sales company Wuhan Grand Motor Co., Ltd., and changing that company's name.

Dongfeng Honda Automobile (Wuhan) Co., Ltd., also increased its capital by US\$30 million during the term, US\$15 million of which was undertaken by Honda. Honda maintains a 50% stake in the joint venture.

3. On July 1, 2003, through the simplified merger procedure based on the regulations set forth in Article 413-3 of the Commercial Code of Japan, 70%-owned subsidiary Honda Sogo Tatemono Co., Ltd., was merged into the Company.

Financial Results

The number of consolidated subsidiaries is 317, including the 29 principal subsidiaries referred to previously, and the number of companies that are accounted for by the equity method is 124. The consolidated financial results are as follows:

Item		Fiscal year		Changes from the previous fiscal year (%)
		80th From Apr. 1, 2003 to Mar. 31, 2004	79th From Apr. 1, 2002 to Mar. 31, 2003	
Net sales and other operating revenue	Yen (millions)	8,162,600	7,971,499	2.4
Net income	Yen (millions)	464,338	426,662	8.8
Basic net income per common share	Yen	486.91	439.43	10.8
Total assets	Yen (millions)	8,328,768	7,681,291	8.4
Net assets	Yen (millions)	2,874,400	2,629,720	9.3
Net assets per share	Yen	3,054.90	2,734.69	11.7

Notes: 1. The Company prepares its consolidated financial statements in conformity with accounting principles generally accepted in the United States since the Company has issued American Depositary Receipts, etc.

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

2. Basic net income per common share is calculated using the average number of shares outstanding during the fiscal year.
3. Net assets per share is computed based on the number of shares outstanding at the end of the fiscal year.

(7) Financial Results and Property for the Last Four Years

		Fiscal year			
		77th	78th	79th	80th

Total assets	Yen (millions)	1,765,814	1,937,805	2,061,331	2,276,766
Net assets	Yen (millions)	1,236,686	1,342,648	1,421,254	1,541,100
Net assets per share	Yen	1,269.16	1,377.92	1,477.49	1,637.87

- Notes:**
1. The amounts in millions of yen described above disregard and round off amounts of less than ¥1 million.
 2. The increase in ordinary profit for the 78th term compared with the 77th term was due to the influence of currency exchange rates as well as the Company's cost reduction efforts. The increase in net income for the 78th term compared with the 77th term was due to the increase in ordinary profit as well as improvements to extraordinary income.

7. Moxley & Co. is an official holder of stock of JPMorgan Chase Bank, which is a depository institution for American Depository Receipts (ADRs) and European Depository Receipts (EDRs).
8. The Company holds 33,498 thousand shares of treasury stock.

Table of Contents

3. SIGNIFICANT EVENT OF THE COMPANY WHICH OCCURRED SUBSEQUENT TO YEAR-END

As stipulated in the Japanese Welfare Pension Insurance Law, the Honda Employees Pension Fund (Confederated Welfare Pension Funds) (the Fund), of which the Company is one of the members, obtained an approval from the Minister of Health, Labor and Welfare for exemption from the obligation for benefits related to future employee service in respect of the substitutional portion on April 1, 2004.

The Company applies Practical Guidelines on Accounting Standards for Retirement Benefits (Interim Report) (The Japanese Institute of Certified Public Accountants Accounting System Committee Report No. 13, September 2, 2003), and will recognize a gain or loss resulting from the difference between the retirement benefit obligation of the substitutional portion and the related government-specified portion of the plan assets of the Fund at the date that the Company is granted an approval (the approval) for separation of the substitutional portion of the benefit obligation related to past services.

The amount of gain or loss to be recognized at the date of the approval is uncertain since market value of the plan assets that the Fund holds is uncertain, and the allocation of the minimum reserve for benefit obligation by each member company of the Fund is undeterminable.

Table of Contents

Significant Accounting Policies

1. Securities
 - (a) Investments in subsidiaries and affiliates are stated at cost, which is determined by the moving-average method.
 - (b) Marketable securities classified as other securities are stated at fair value based on market prices at fiscal year-end and similar. Any changes in unrealized holding gains or loss, net of applicable income taxes, are included directly in stockholders' equity, and cost of securities sold is determined by the moving-average method.
 - (c) Non-marketable securities classified as other securities are stated at cost, which is determined by the moving-average method.
2. Inventories are stated at the lower of the last purchase cost or market.
3. Derivative financial instruments are stated at fair value.
4. Depreciation of tangible fixed assets is computed by using the declining-balance method.
5. Amortization of intangible assets is computed by using the straight-line method.
6. The allowance for doubtful accounts is provided for possible bad debt at an amount determined based on the historical experience of bad debt for normal receivables; in addition, an estimate of uncollectible amounts is made by reference to specific doubtful receivables from customers which are experiencing financial difficulties.
7. An accrued product warranty has been provided as a total of the following:
 - (a) An estimate of warranty costs to be incurred during the remaining warranty periods based on historical warranty claim experiences and an estimate of the probabilities of future warranty cost.
 - (b) An estimate of future warranty claims mainly associated with reportings to regulatory authorities.
8. Accrued employees' bonuses are provided for payments of bonuses to employees based on the amount of the estimated employees' bonus payments, which is attributable to the fiscal year.
9. As stipulated in Article 43 of the Commercial Code Enforcement Regulation, accrued directors' bonuses are provided for the payment of bonuses to directors and corporate auditors based on the amount of the estimated directors' bonus payments.
10. Accrued employees' retirement benefits are provided for payments of retirement benefits at an estimated amount incurred during the fiscal year calculated based on the retirement benefit obligation and the fair value of the pension plan assets at year-end.

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

The net retirement benefit obligation at transition is amortized by the straight-line method over 15 years.

Prior service costs are amortized by the straight-line method over the average remaining years of service of the employees.

Actuarial gains or losses are amortized in the years following the year in which gains or losses are recognized by the straight-line method over the average remaining years of service of the employees.

11. As stipulated in Article 43 of the Commercial Code Enforcement Regulation, accrued directors' retirement benefits are provided for the payment of retirement benefits to directors and corporate auditors based on the amount payable at the fiscal year-end in accordance with bylaws of the Company.
12. Finance lease transactions, except for those under which the ownership of leased assets is transferred to the lessee, are accounted for as operating leases.
13. Transactions subject to consumption taxes are recorded at amounts exclusive of consumption taxes. A consumption tax refund receivable is included in Others of current assets.

Table of Contents

Changes to Accounting Policies

1. Effective the year ended March 31, 2004, the financial statements are prepared based on the Commercial Code Enforcement Regulation, which was amended by the Ministerial Ordinance to Amend Part of the Commercial Code Enforcement Regulation (Ministry of Justice, Ordinance No. 68, September 22, 2003).
2. Prior to the year ended March 31, 2003, royalty income for the Company's industrial property right etc., and know-how had been recognized when receipts became due. Effective April 1, 2003, the Company changed the method of recognizing royalty income to recognize such income at the end of the royalty calculation period in accordance with each contract.

This change was made because the new method results in a better recognition of income in each period, given the increased significance of royalty income to the Company's operations since royalty income increased for the year ended March 31, 2004, mainly due to the expansion of production capacity in the North America region, and the Company expects royalty income will continue to increase due to expanding overseas production.

The effect of this change for the year ended March 31, 2004 is an increase in Sales, Gross profit, Operating income, Ordinary income, and Income before income taxes of ¥28,551 million.

Additional Information

Practical Treatment of Accounting for Directors' Bonuses (Accounting Standards Board of Japan, Report of Practical Issues, No. 13, March 9, 2004) was adopted from the year ended March 31, 2004. The effect of this change is immaterial to the statement of income.

Independent Auditors Report

To the Board of Directors
of Honda Motor Co., Ltd.

April 22, 2004

Shin Nihon & Co.
Representative and Engagement
Partner (C.P.A.)
Yoshinobu Shimizu (Seal)
Representative Engagement
Partner (C.P.A.)
Masahiko Sano (Seal)
Engagement Partner (C.P.A.)
Toshihiro Yasada (Seal)

In accordance with Article 2, Paragraph 1 of The Law for Special Exceptions to the Commercial Code Concerning Audits, etc., of *Kabushiki Kaisha*, we have audited the balance sheet, the statement of income, the accounting matters stated in the business report, the proposal for appropriation of retained earnings and the accounting matters stated in the supplementary schedules of Honda Motor Co., Ltd. (the Company) for the 80th fiscal year from April 1, 2003 to March 31, 2004. The accounting matters which we have audited in the business report and the supplementary schedules were derived from the accounting books and records of the Company. The above balance sheet, statement of income, business report, proposal for appropriation of retained earnings and supplementary schedules (the legal documents) are the responsibility of the Company's management. Our responsibility is to independently express an opinion on the legal documents based on our audit.

We conducted our audit in accordance with auditing standards, procedures and practices generally accepted and applied in Japan. Those standards, procedures and practices require that we obtain reasonable assurance about whether the legal documents are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the legal documents, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall legal document presentation. We believe that our audit provides a reasonable basis for our opinion. Our audit included the procedures applied to the accounts of the Company's subsidiaries as considered necessary.

As a result of our audit, it is our opinion that:

- (1) the balance sheet and the statement of income present properly the Company's financial position and the results of its operations in accordance with the related regulations and the Articles of Incorporation,

As noted in Changes to Accounting Policies, the Company changed the method of recognizing royalty income for the Company's industrial property right etc., and know-how to recognize such income at the end of the royalty calculation period in accordance with each contract. Previously, royalty income had been recognized when receipts became due. The change, with which we concur, was made because the new method results in a better recognition of income in each period given the increased significance of royalty income to the Company's operations since royalty income increased for the year ended March 31, 2004, mainly due to the expansion of production capacity in the North America region, and the Company expects royalty income will continue to increase due to expanding overseas production.

- (2) the accounting matters stated in the business report present properly the Company's affairs in accordance with the related regulations and the Articles of Incorporation,

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

- (3) the proposal of appropriation of retained earnings is presented in accordance with the related regulations and the Articles of Incorporation, and
- (4) there is nothing to point out as to the accounting matters stated in the supplementary schedules in accordance with the provisions of the Commercial Code.

The subsequent event regarding the transfer to the Japanese Government of the substitutional portion of employees' pension fund liabilities noted in Significant Event of the Company Which Occurred Subsequent to Year-End of the business report may have a significant effect to the Company's financial position and the result of its operations in future years.

We have no interest in the Company which should be disclosed in compliance with the provisions of the Certified Public.

Corporate Auditors Report

Mr. Takeo Fukui April 26, 2004
President and Representative Director of
Honda Motor Co., Ltd. Board of Corporate Auditors

 Honda Motor Co., Ltd.
Corporate Auditor (Full-time) Kunihiro Chujo (Seal)
Corporate Auditor (Full-time) Koji Miyajima (Seal)
Corporate Auditor Koukei Higuchi (Seal)
Corporate Auditor Kuniyasu Yamada (Seal)

This Board of Corporate Auditors, having received reports from and consulted with each of the Corporate Auditors on the methods and results of their audits concerning the performance by the Directors of their duties during the 80th fiscal year, from April 1, 2003 through March 31, 2004, have prepared this audit report and hereby report as follows:

1. Summary of the Corporate Auditors Auditing Methods:

In accordance with the auditing policies and apportionment of work specified by the Board of Corporate Auditors, each Corporate Auditor, in addition to attending meetings of the Board of Directors and other important meetings, has listened to the reports on business from the Directors and the like, has examined documents and so on containing important decisions, has investigated the conditions of business and assets at the head office and other important places of business, has requested the Company's subsidiaries to report on their operations, has visited significant subsidiaries where necessary and has investigated their conditions of business and assets. In addition, the Corporate Auditors have received reports and explanations from the statutory accountants and have examined the accounting documents and detailed statements auxiliary thereto.

In addition to the above methods, where necessary the Corporate Auditors have obtained reports from the Directors and others and have examined in detail the circumstances in connection with competitive dealings by Directors, reciprocally profitable dealings between Directors and the Company, the furnishing of a benefit or profit by the Company gratuitously, out-of-the-ordinary dealings between the Company and subsidiaries or stockholders and the acquisition and disposition by the Company of its own shares.

2. Results of Audit:

- (1) The auditing methods and results of the statutory accountants, Shin Nihon & Co., are recognized as being proper.
- (2) The business report is recognized as being in accordance with laws and regulations and the Articles of Incorporation and as properly indicating the conditions of the Company.

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

- (3) Reviewing the item on the agenda concerning the appropriation of retained earnings in light of the conditions of the Company's assets and other circumstances, there are no matters that ought to be pointed out.
- (4) As the auxiliary detailed statements correctly indicate the matters that should be recorded therein, there are no matters that ought to be pointed out.
- (5) With respect to the performance of their duties by the Directors, no improper acts or material facts that violated laws and regulations or the Articles of Incorporation are recognized.

Further, no breach of his duty by a Director was recognized in connection with competitive dealings by Directors, reciprocally profitable dealings between Directors and the Company, the furnishing of benefits or profits by the Company gratuitously, out-of-the-ordinary dealings between the Company and subsidiaries or shareholders, acquisition and disposition by the Company of its own shares and so on.

- (6) As a result of our investigation of the Company's subsidiaries, there are no matters that ought to be pointed out in respect of performance of their duties by the Directors.

Note: Corporate Auditors Koukei Higuchi and Kuniyasu Yamada are outside statutory auditors as provided in Article 18, Paragraph 1, of the Law for Special Exceptions to the Commercial Code Concerning Audits, etc., of *Kabushiki Kaisha*.

CONCERNING EXERCISE OF VOTING RIGHT

1. Total number of voting rights held by stockholders:

9,330,848 votes

2. Reference matters with respect to the proposals:

FIRST ITEM: Approval of Proposal for Appropriation of Retained Earnings for the 80th Fiscal Year

The Company proposes to make an appropriation of retained earnings, as referred to in the Attached Document 4 (page 22) of Notice of Convocation, in order to strengthen its financial condition and take into consideration its future business development, etc.

The year-end dividend for the fiscal year under review is proposed to be ¥23 per share.

SECOND ITEM: Partial Amendments to the Articles of Incorporation

(1) Reasons for Amendments:

- 1) The Law for Partial Amendments to the Commercial Code and to the Law for Special Exceptions to the Commercial Code Concerning Audit and So On of *Kabushiki Kaisha* (Law No. 132, 2003) was enforced, so that the purchase by a company of its own shares with a resolution of the board of directors has come to be admitted if it is provided for in the Articles of Incorporation. Accordingly, the provision for purchase by the Company of its own shares with a resolution of the board of directors will be newly established as Article 6 in order to enable the Company to carry out its maneuverable capital policy.
- 2) Pursuant to the above-mentioned establishment, Article 6 through Article 34 of the existing Articles of Incorporation will be renumbered as Article 7 through Article 35 by moving down each of the 29 Articles.

Table of Contents

(2) Contents of Amendments:

Portions of the existing Articles of Incorporation will be amended as follows:

(The underlines indicate the portions to be amended.)

<u>Existing Articles of Incorporation</u>	<u>Proposed Amendments</u>
<p>Chapter II. Shares [Newly established]</p> <p>Article <u>6</u>. through Article <u>34</u>.</p> <p>(description of the applicable provisions omitted)</p>	<p>Chapter II. Shares <u>(Purchase by Company of its own shares with resolution of the Board of Directors)</u> <u>Article 6. The Company may purchase its own shares with a resolution of the Board of Directors in accordance with the provision of Article 211-3, Paragraph 1, Item 2 of the Commercial Code.</u></p> <p>Article <u>7</u>. through Article <u>35</u>. (same as at present)</p>

Table of Contents**THIRD ITEM: Election of Thirty-Six (36) Directors**

- 2: Mr. Fumihiko Saito satisfies the required conditions for the Outside Corporate Auditors provided for in Article 18, Paragraph 1, of the Law for Special Exceptions to the Commercial Code Concerning Audit, etc., of *Kabushiki Kaisha*.

Table of Contents

FIFTH ITEM: Revision of Amount of Remuneration Payable to Directors

With regard to the amount of remuneration payable to the Directors, it was determined at the 79th ordinary general meeting of shareholders held on June 24, 2003 that such amount of remuneration be seventy-nine million yen (¥79,000,000) or less per month, and the amount so determined has remained unchanged up to this date. In this regard, it is proposed that the amount of remuneration to the Directors will be revised to seventy-seven million yen (¥77,000,000) or less per month so pursuant to the concept that the total amount of remuneration and bonus is to be more closely connected with the financial results by raising the standard of bonus to the Directors, while by lowering the standard of remuneration to the Directors. Further, it would be arranged, as was in the past, that the amount of remuneration to the Directors will not include any amount of salary payable to employee-directors for their services as employees.

At present, the number of the Directors is thirty-six (36). If the matters under the THIRD ITEM on the Agenda are decided as proposed, the number of the Directors will be thirty-six (36).

In the meantime, with regard to the Corporate Auditors, a change will be also made so that the total amount of remuneration and bonus is to be more closely connected with the financial results by raising the standard of bonus to the Corporate Auditors, while by lowering the standard of remuneration to the Corporate Auditors in accordance with the decision through consultation of the Corporate Auditors. In order to prepare for the coming reinforcement of the Corporate Auditor system, however, no revision would be made as to the amount of remuneration to the Corporate Auditors, and thirteen million yen (¥13,000,000) or less per month determined at the 72nd ordinary general meeting of shareholders held on June 27, 1996 will remain unchanged.

SIXTH ITEM: Payment of Bonus to Directors and Corporate Auditors for the 80th Fiscal Year

The Company would, taking into consideration the profit for the current fiscal year, the amount of bonus paid to the Directors and the Corporate Auditors under the past appropriation of retained earnings and other various circumstances, pay the bonus in the total amount of 606 million yen (¥606,000,000) to the 36 Directors as of the end of the current fiscal year and the bonus in the total amount of 44 million yen (¥44,000,000) to the four Corporate Auditors as of the end of the current fiscal year in order to reward those Directors and Corporate Auditors for their services for the current fiscal year. The amount of bonus payable to each of the Directors and the Corporate Auditors would be left to the determination by the Board of Directors with regard to Directors' bonus and to the consultation by the Corporate Auditors with regard to Corporate Auditors' bonus.

Table of Contents**SEVENTH ITEM: Presentation of Retirement Allowance to Retiring Directors and Corporate Auditors for Their Respective Services**

It is proposed that monetary rewards be given to Directors Mr. Yoshihide Munekuni, Mr. Hiroshi Okubo, Mr. Masahiro Yoshimura and Mr. Seiichi Moriguchi, and Corporate Auditor Mr. Kunihiro Chujo, who are to resign from office at the close of this meeting, for the meritorious services that they have rendered to the Company, pursuant to the past practice of the Company and in accordance with the Company's bylaws on the retirement allowance of Directors and Corporate Auditors. It is proposed that decisions on the amount of money, time and method of payment of such monetary rewards be entrusted to the Board of Directors as to the retiring Directors and to the Corporate Auditors as to the retiring Corporate Auditors. Resumes of the above-mentioned persons are given below.

Name	Resume
Yoshihide Munekuni	Director of the Company in May 1984 Managing Director of the Company in May 1987 Senior Managing Director of the Company in June 1989 Executive Vice President and Director of the Company in June 1990 Chairman and Director in June 1997

Particular

Matters reported:

Report on the Business Report, Balance Sheet and Statement of Income for the 80th Fiscal year (April 1, 2003 - March 31, 2004). The contents of these documents were reported.

Matters resolved:

Proposal 1: Approval of Proposal for Appropriation of Retained Earnings for the 80th Fiscal Year.

The proposal was approved in its original form, and a year-end dividend for the fiscal year under review shall be ¥23 per share.

Proposal 2: Partial Amendments to the Articles of Incorporation

The proposal was approved in its original form, and the contents of the amendments are as follows:

<u>Prior to Change</u>	<u>Post-Change</u>
<p>Chapter II. Shares [Newly established]</p> <p>Article <u>6</u>, through Article <u>34</u>.</p> <p>(description of the applicable provisions omitted)</p>	<p>Chapter II. Shares <u>(Purchase by Company of its own shares with resolution of the Board of Directors)</u></p> <p><u>Article 6. The Company may purchase its own shares with a resolution of the Board of Directors in accordance with the provision of Article 211-3, Paragraph 1, Item 2 of the Commercial Code.</u></p> <p>Article <u>7</u>, through Article <u>35</u>, (same as at present)</p>

Table of Contents

Proposal 3: Election of thirty six (36) Directors

The proposal was approved in its original form, and 32 directors, Mr. Takeo Fukui, Mr. Koichi Amemiya, Mr. Michiyoshi Hagino, Mr. Minoru Harada, Mr. Motoatsu Shiraishi, Mr. Satoshi Aoki, Mr. Atsuyoshi Hyogo, Mr. Satoshi Dobashi, Mr. Satoshi Toshida, Mr. Koki Hirashima, Mr. Koichi Kondo, Mr. Yasuo Ikenoya, Mr. Toru Onda, Mr. Akira Takano, Mr. Takanobu Ito, Mr. Satoru Kishi, Mr. Hiroyuki Yoshino, Mr. Mikio Yoshimi, Mr. Masaaki Kato, Mr. Shigeru Takagi, Mr. Hiroshi Kuroda, Mr. Akio Hamada, Mr. Teruo Kowashi, Mr. Tetsuo Iwamura, Mr. Takashi Yamamoto, Mr. Masaru Takabayashi, Mr. Tatsuhiro Oyama, Mr. Suguru Kanazawa, Mr. Manabu Nishimae, Mr. Fumihiko Ike, Mr. Masaya Yamashita and Mr. Hiroshi Kobayashi were all re-elected and they have assumed their posts. In addition, Mr. Kazuo Sagawa, Mr. Kazuto Iiyama, Mr. Hiroshi Oshima and Mr. Sho Minekawa were all newly elected and they have assumed their posts.

Proposal 4: Election of Three (3) Corporate Auditors

The proposal was approved in its original form, and a Corporate Auditor, Mr. Koji Miyajima was re-elected and he has assumed his posts and Mr. Hiroshi Okubo and Mr. Fumihiko Saito were both newly elected and they have assumed their posts.

Proposal 5: Revision of Amount of Remuneration Payable to Directors

It was approved, in its original form, that the amount of remuneration to the Directors was revised to seventy-seven million yen (¥77,000,000) or less per month and that it would be arranged, as was in the past, that the amount of remuneration to the Directors does not include any amount of salary payable to employee-directors for their services as employees.

Proposal 6: Payment of Bonus to Directors and Corporate Auditors for the 80th Fiscal Year

It was approved, in its original form, that the total amount of bonus to be paid to the 36 Directors as of March 31, 2004 shall be six hundreds and six million yen (¥606,000,000) and the total amount of bonus to be paid to the four Corporate Auditors as of March 31, 2004 shall be forty-four million yen (¥44,000,000) and that the amount of bonus payable to each of the Directors will be determined by the Board of Directors and the amount of bonus payable to each of the Corporate Auditors will be determined by the consultation among the Corporate Auditors.

Table of Contents

Proposal 7: Presentation of Retirement Allowance to Retiring Directors and Corporate Auditors for Their Respective Services.

It was approved, in its original form, that monetary rewards be given to the Directors, Mr. Yoshihide Munekuni, Mr. Hiroshi Okubo, Mr. Masahiro Yoshimura and Mr. Seiichi Moriguchi, and Corporate Auditor Mr. Kunihiro Chujo who are to resign from office at the close of this meeting, for the meritorious services that they have rendered to the Company, pursuant to the past practice of the Company and in accordance with the Company's bylaws on the retirement allowance of Directors and Corporate Auditors and that decisions on the amount of money, time and method of payment of such monetary rewards be entrusted to the Board of Directors as to the retiring Directors and to the Corporate Auditors as to the retiring Corporate Auditors.

Honda Releases the PS250 A New Kind of City Bike

June 16, 2004 Honda Motor Co., Ltd. today announced the release of the 250cc bike PS250, which fuses the open feel of a motorcycle with the comfort of a scooter, representing Honda's new concept in urban bikes. The PS250 will go on sale in Japan from June 30th.

Designed around a rough n tough image, the practical, multipurpose PS250 offers a rugged simplicity and a special focus on functionality. The fifth model to be produced by Honda's N Project* team, following the 50cc Ape, Zoomer, Bite and Solo, the PS250 marks the N Project's entry into the 250cc compact motorcycle market.

Styled for the tastes of a younger generation that values individuality, the PS250 features an exposed design that shows off its unique wide-pipe frame, which surrounds the body to create the laid-back look of an American custom bike. Like a scooter, it sports a gearless V-Matic transmission for smooth, stepless acceleration, and Honda's Hydraulic Combined Braking System, which appropriately distributes braking force between the front and rear wheels, resulting in balanced, stable application of braking force. The motorcycle-like styling and scooter-like ease-of-handling combine to provide superior performance.

* Stands for New Project. The N Project is dedicated to creating stylish, attractive products that will appeal to youthful people. The N Project released its first model, the Ape, in February 2001; its second model, the Zoomer, in June 2001; its third model, the Bite, in January 2002; and its fourth model, the Solo, in March 2003.

PS250

Annual sales target (Japan):	4,000 units
Manufacturer's suggested retail price:	502,950 yen
(Price excluding consumption tax:)	479,000 yen

Note: Prices are for reference only and do not include insurance, taxes other than consumption tax, registration fees, etc.

Publicity information relevant to the PS250 is available at the following URL:

<http://www.honda.co.jp/PR/>

(This site is intended exclusively for the use of journalists.)

Table of Contents

The low, flat tandem seat makes it easy for the rear passenger to get on and off, and improves communication between the driver and passenger by putting their heads at the same level. The distinctive folding rear seat also lifts to become a large backrest for the driver, revealing a flat area with substantial carrying capacity.

Anti-theft systems include a main switch shutter and prewiring for the immobilizer alarm systems which are available as dealer options.

The PS250 comes in three color combinations: Parrot Yellow with Matte Axis Gray Metallic; Camouflage Green with Black; and Twilight Gray with Matte Axis Gray Metallic.

= Key Features =

Styled for rider individuality

The simple handlebars, square design of the lights, and simple, easy-to-read instrument panel all integrate with the solid look of the distinctive, wide-pipe frame to create fresh, individualized style.

The folding seat is a styling element that adds to the pleasure of riding tandem and the functionality of the bike.

Freely adjustable folding seat

The seat slides 90 mm to 10 different positions forward and backward, providing maximum riding comfort for riders of all sizes. Riders can adjust the seat while straddling the bike by inserting the ignition key into a keyhole below the seat front and then operating the seat slide lever.

The low seat height allows passengers get on and off the bike easily. It also positions the passenger at the same height as the driver, facilitating communication and enhancing the enjoyment of riding together.

A lever on the right side of the folding seat raises the seat to form a large backrest for the rider, who is then able to lean back and rest his or her feet on the floorboard for a more comfortable ride.

Superior cargo carrying capacity

Folding the passenger seat up to the backrest position reveals a large, flat cargo area. Designed for maximum carrying capacity, the bike is also outfitted with a grab rail and baggage hooks, making it possible to carry relatively large items. A mini cargo area above the front headlight can tote smaller items, while a convenient locking utility box to the lower right of the passenger seat also stores small items securely.

Water-cooled, four-stroke, 250cc engine

The water-cooled, four-stroke, OHC 250cc single-cylinder engine and wide ratio V-Matic continuously variable transmission work in concert to provide easy acceleration at all speeds and spirited city driving.

Table of Contents

Reliable front and rear-linked braking system

The PS250 is equipped with Honda's Hydraulic Combined Braking System, which delivers optimal braking force to the front and rear wheels when the rider simply operates the more frequently used left (rear) brake lever. This proprietary Honda system provides superior bike stability and braking efficiency. The bike also features a parking brake lever on the front right side that locks and releases the rear wheel brake with ease, effectively holding the bike in position when waiting at traffic lights, stopping on a hill, or parking.

Theft and tamper prevention

The anti-theft system features a key cylinder that provides centralized control of the main switch and handle lock. The key cylinder is also equipped with a tamper-resistant protective shutter. Extra security is achieved through prewiring for the optional motion-activated alarm kit, manufactured by Honda Access Co., Ltd. (sold separately), or the Honda Access-made immobilizer alarm kit that sounds an alarm and cuts off the ignition system (sold separately).

Honda Releases the Dio Cesta
a 50cc Scooter with Superior Carrying Capacity

June 18, 2004 Honda Motor Co., Ltd. today announced the release of the Dio Cesta, an all-new 50cc scooter. Designed as a fun and convenient way to commute and get around town, the Dio Cesta features a large, fully-integrated front basket for a smart, stylish appearance and superior carrying capacity. The Dio Cesta will be manufactured by Sundiro Honda Motorcycle Co., Ltd. in China and released for sale in Japan on July 2.

The 4-stroke, air-cooled engine, featured in the recent Dio model, offers low noise and excellent fuel economy. Fully integrated with the scooter body, the large front basket provides greatly increased carrying capacity and has a rolling shutter to deter theft and hold items securely. The headlight is positioned below the basket so as to remain clear of items at all times, while the handle cover position lamp improves rider visibility and serve as a convenient light source at night. The seat is just 690 millimeters high ideal for female riders, and the steering column is also designed for lightness and ease of handling.

The Dio Cesta comes in three exciting colors: Pearl Procyon Black, Pearl Quench Yellow, and Sirius Blue Metallic. The seat is a stylish two-tone Black with Brown, and the accents, such as the floor, are a delicate and appealing Brown.

Dio Cesta

Annual sales target (Japan):	12,000 units
Manufacturer's suggested retail price:	135,450 yen
(Price excluding consumption tax:)	129,000 yen

Note: Prices are for reference only and do not include insurance, taxes other than consumption tax, registration fees, etc.

Table of Contents

= Key Features =

Superior storage and carrying capacity

Made of a light, sturdy plastic resistant to denting or deformation, the front basket is fully integrated with the scooter body for a smart, stylish look. A generous 24 liters in volume, the basket is ideal for shopping and other daily uses, while the rolling shutter holds items securely and deters theft. The 22-liter under-seat storage compartment accommodates a standard full-face helmet,¹ and the front inner box can hold a 1.5-liter drink bottle or a similarly large item.

Lower seat and lighter steering column

The shape, thickness, and low 690 millimeter height of the seat are designed to provide maximum comfort and an optimum position for the feet during driving. Also, the special position and shape of the steering column reduce by half ² the force required for operation, making for exceptionally light and easy handling.

Reliable front and rear-linked braking system

The Dio Cesta is equipped with Honda's Hydraulic Combined Braking System, which delivers optimal braking force to the front and rear wheels when the rider simply operates the more frequently used left (rear) brake lever. This proprietary Honda system provides superior bike stability and braking efficiency.

Theft and tamper prevention

The anti-theft system features a key cylinder that provides centralized control of the main switch and handle lock. The key cylinder is also equipped with a tamper-resistant protective shutter. Extra security is achieved through prewiring for the optional motion-activated alarm kit, manufactured by Honda Access Co., Ltd. (sold separately), or the Honda Access-made immobilizer alarm kit that sounds an alarm and cuts off the ignition system (sold separately). A U-lock holder on the rear carrier stores the lock when it is not in use.

¹ May not accommodate non-standard helmets.

² Honda in-house measurement.

Honda Environmental Annual Report 2004 Published

June 21, 2004 Honda Motor Co., Ltd. today issued its Honda Environmental Annual Report 2004, outlining the Company's domestic Japanese environmental performance for fiscal 2003 (ending March 31, 2004) and its objectives for fiscal 2004 (ending March 31, 2005).

Published annually since 1998, this seventh edition of the report is intended to serve both as an annual report on the objective and progress of environmental activities based on the Honda Environment Statement, and as an environmental communications tool for collecting critical feedback and comments from a large number of people who are engaged in Honda corporate activities.

The principle achievements announced in the report for fiscal 2003 (April 2003-March 2004) are as follows:

Product development

Of the nine in-house target objectives that Honda aimed to achieve by 2005 in the products domain, Honda has newly attained the following:

Automobiles

Objective: To reduce the total hydrocarbon and NOx exhaust emissions of newly released automobiles by approximately 75%, compared with 1995.

Progress: Total hydrocarbon and NOx exhaust emissions for newly released automobiles has been reduced by approximately 83.7%.

Motorcycles

Objective: To improve the average fuel economy of motorcycles by approximately 30%, compared with 1995.

Progress: Motorcycle fuel efficiency has been improved by approximately 33.7%.

The Company has also continued to achieve its objectives in the following three categories:

Automobiles

Objective: To improve the average fuel economy of automobiles by approximately 25%, compared with 1995.

Progress: Automobile fuel efficiency has been improved by approximately 35%.

Motorcycles

Objective: To reduce the total hydrocarbon exhaust emissions of motorcycles to approximately 1/3 (approx.33%) of 1995 levels.

Progress: Motorcycle hydrocarbon emissions have been reduced to approximately 31% of 1995 levels exceeding objective.

Power Products

Objective: To reduce the average hydrocarbon and NOx exhaust emissions of power products by approximately 30%, compared with 1995.

Progress: Average hydrocarbon and NOx exhaust emissions for power products has been reduced by approximately 36%.

Table of Contents

Production

Honda has continued to meet the following energy saving objective.

Objective: To achieve the in-house target of a 30% reduction in the energy consumption rate by 2010, compared with 1990.

Progress: As of the end of fiscal 2003, the Company had reduced its energy consumption rate by 18.9%.

Other Principal Areas

Environmental protection costs: 140.8 billion yen (including R&D costs of 133.8 billion yen).

All models now conform to the Japanese government exhaust emissions standards for 2005. In addition, 12 types of six models received certification as Low Emissions Vehicles (LEV), which means that their exhaust emissions is 75 % below the permissible level. (As of March 31, 2004)

40 types of 18 models have achieved a fuel efficiency level that exceeds the 2010 fuel efficiency standards by 5% (As of March 31, 2004)

The Japanese language version of the report will be available for viewing in HTML format on June 22, 2004 at the following URL:
<http://www.honda.co.jp/environmental-report/2004/>

The English language version of the report is scheduled for completion in the first half of September, and will be published both as a pamphlet and in electronic form, which will be able to be viewed via a link from the above-indicated site.

Honda Begins Sales of New 50cc Scooter in China

Tianjin, June 24, 2004 Sundiro Honda Motorcycle Co., Ltd., Honda's motorcycle production and sales joint venture in China, has begun sales of the 50cc scooter, Ziyou Today, in the Chinese market (known as Today in Japan).

Ziyou Today achieves excellent environmental performance, adopting the EURO1 emission standard required in China and offering high fuel efficiency. In addition, Ziyou Today offers enhanced features, including an anti-theft system. This high quality and highly reliable scooter is being launched to offer new value for customers in China. The price for the standard model is RMB (yuan) 5,780 (approximately ¥75,000 yen), with an annual sales target of 50,000 units.

Ziyou Today is the Chinese version of Today, first introduced to Japan in August 2002. Sundiro Honda has been manufacturing and exporting Today to nine countries around the world, including Japan, Australia, New Zealand, and Mexico. In Japan, Today has been well-received with total sales of more than 200,000 units from its introduction in August 2002 through May 2004.

The Chinese motorcycle market is estimated at 12 million units in 2004, with 50cc scooters estimated to account for 1 million of that total.

Honda launched the new 125cc Cub model, Xin Gainian, earlier this month. In addition, a new 125cc scooter, the first model to be designed and developed by Honda's local R&D facility in Shanghai, will be introduced later this fall.

Ziyou Today

< About Ziyou Today >

Overseas Production and Exports On the Rise in May

Tokyo, June 25, 2004 Honda Motor Co., Ltd. today announced production, domestic sales and export results for the month of May, 2004.

Domestic auto production increased 3.2% over the first five months of the year compared to the same period a year ago, despite a slight decline in the month of May. With production in Asia increasing more than 36% in May compared to the same month last year, total overseas production increased slightly from last year.

Cumulative domestic sales remained relatively unchanged for the first five months compared to the same period a year ago, despite a 3.2% decline in May, from the previous year. Sales of mini-vehicles remained strong and marked the eighth consecutive month of increased sales dating back to October 2003. Life was Honda's best-selling car in May with sales of 10,882 units, a 48.5% increase from last year. Demand for Fit, Odyssey and Mobilio remained strong with sales of 9,642 unit, 5,944 units, 5,425 units, respectively. Sales of the all-new Elysion, introduced in the middle of the month, totaled 3,204 units.

Total exports increased 8.7% in May, compared to the same month a year ago due to an increase in exports to Europe and Asia as well as Oceania and the Middle East. Cumulative exports for the first five months of the year increased 4.4% compared to the same period last year.

Orders Received for Newly Introduced Fit

Tokyo, June 25, 2004 Honda Motor Co., Ltd. today announced details concerning the number of orders it has received for its newly introduced Fit automobile, which underwent a minor model change and was unveiled on June 10th.

In the roughly two-week period since the model went on sale on June 11th, accumulated orders placed by customers totaled approximately 13,000 units. This pace far surpasses projected monthly sales of 12,000 units.

During the current minor model change, changes were made to both the interior and exterior, top-of-the-class fuel economy was achieved, and additional types were introduced including a model equipped with advanced systems such as a smart key and a fully automatic air conditioner as well as a sporty type. In addition, a 5-speed manual transmission version is now available on certain types. As a result of these modifications, the Fit is now being purchased by an even wider range of customers.

Grade breakdown by percentage

1.3A	51%
1.3W	20%
1.5W	13%
1.5S	6%
Other	10%

* The percentage of 1.5 liter models among total Fit orders is 25%

* The percentage of 5-speed manual transmissions (installed on FWD 1.5W and 1.5S models) is 6% of total Fit orders.

Color breakdown by percentage

Storm Silver Metallic	18%
Premium White Pearl	14%

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

Satin Silver Metallic	12%
Sirius Blue Metallic	9%
Premium Yellow Pearl	4%
Rose Orange Metallic	3%
Other (6 colors)	40%

Main factory equipped optional equipment by percentage

F package	80%
(Door mirror blinker (LED) / retractable remote control body-color door mirror / micro antenna / privacy glass (rear door / rear quarter / tailgate))	
Fully automatic air conditioner	38%

Honda Accord Hybrid: Honda's Best-Selling Vehicle Goes Hybrid

Accord Hybrid Set to debut later this year with V-6 performance and four-cylinder Fuel Economy

TORRANCE, CA, June 28 2004 American Honda released the first images of its 2005 Accord V6 Hybrid, a gas-electric hybrid version of Honda's best-selling car, scheduled to go on-sale at Honda dealerships nationwide later this year. Utilizing a next-generation hybrid powertrain, the Accord V6 Hybrid will deliver power and performance above the current 240-horsepower Accord V6 with the fuel economy of a compact-class, four-cylinder Civic sedan.

Accord V6 Hybrid
(computer enhanced image)

Putting hybrid technology into our most popular model is a further indication of Honda's commitment to hybrid technology and our confidence that consumers are ready for more hybrid models," said Tom Elliot, executive vice president of American Honda Motor Co., Inc. The Accord hybrid delivers both increased performance and higher fuel economy. It takes hybrid technology into all new territory.

With class-leading performance and fuel efficiency provided by a highly advanced and super-efficient hybrid V6 powertrain, the Accord Hybrid will produce in excess of 240 horsepower with near-peak torque available across the engine's full operating range for exhilarating performance with superb acceleration, passing power and cruising comfort.

Honda's innovative new Variable Cylinder Management (VCM) technology further enhances the efficiency of the Accord Hybrid by deactivating three of the engine's six cylinders during cruising and deceleration with no impact to vehicle performance or passenger comfort.

Honda's advanced and super-efficient Integrated Motor Assist (IMA) hybrid system utilizes a high-output electric motor/generator to provide for more efficient engine operation by capturing electrical energy during braking or deceleration and using that energy to help power the vehicle. In addition, the system features the ability to shut off the engine during vehicle stops for further efficiency gains. The resulting savings in fuel consumption, along with VCM cylinder deactivation, provides for fuel economy comparable to a compact-class Civic sedan powered by a four-cylinder engine.

The Accord Hybrid's exterior has a number of exclusive features including a unique front grille design, new taillight appearance and special hybrid badging, along with a rear trunk lid spoiler and exclusive alloy wheel design for improved aerodynamics.

Edgar Filing: HONDA MOTOR CO LTD - Form 6-K

Honda introduced the Insight, America's first hybrid vehicle and still the fuel economy leader, in December 1999. Honda then took hybrid technology into the mainstream with the introduction of the Civic Hybrid in March 2002. Sales of the Insight and Civic Hybrid accounted for more than half of all U.S. hybrid sales in 2003, according to R.L. Polk vehicle registration data. Civic Hybrid set consecutive sales records in March, April and May with year-to-date sales up nearly 20 percent versus last year through the end of May.

**Reassessment of Transfer Pricing of Transactions Between
Honda and Honda's Motorcycle Operation in Brazil**

Tokyo, June 29, 2004 Honda Motor Co., Ltd. announced today that it has received notification from the Tokyo Regional Taxation Bureau, of a reassessment of the profits Honda earned from its transactions with Moto Honda da Amazonia, Ltda., its local subsidiary in Brazil, for the 6-year period of 1997-2002. The Taxation Bureau claims that distribution of the profits between Honda Motor Co., Ltd. and Moto Honda da Amazonia, Ltda. was too low on the Japan side. Income was reassessed at an additional 25.4 billion yen resulting in Honda incurring an additional tax of approximately 13.0 billion yen. Honda has voiced its objection to this reassessment and from the standpoint of preventing double taxation, plans to file a formal request for bilateral consultations between the two countries based on the Tax Convention.

Honda established Moto Honda da Amazonia, Ltda. in 1975. Local production began in 1976. Situated in Manaus, Amazonas, a designated industrial development region, Moto Honda da Amazonia, Ltda. has increased its local content ratio to approximately 90%, in line with the Brazilian government's strategy of having main production processes take place locally. Improvements in quality and productivity have led to the realization of substantial cost reductions. Further, in the area of sales, Brazil's unique installment sales system has been utilized and expanded into the largest scale operation of its kind in the nation resulting in the establishment of a strong sales network. Through such local efforts to expand its business, Moto Honda da Amazonia has been able to weather major fluctuations in the economy, proactively reinvest profits locally and rapidly increase sales by over 10-fold in a period of 10 years.

In the fiscal year which ended December 31, 2003, Moto Honda da Amazonia, Ltda. produced approximately 820,000 units and achieved domestic sales of roughly 730,000 units. Approximately 90,000 units were exported to 68 countries in North America, Europe and Oceania as well as Central and South America. Exports of finished motorcycles from Honda Motor Co., Ltd. to Brazil totaled roughly 300 units during the same period.

Table of Contents

In their business activities, Moto Honda da Amazonia, Ltda. and Honda Motor Co., Ltd. have determined the business terms relating to the transactions between them based upon applicable laws and regulations in Brazil and have paid appropriate taxes in Japan and Brazil on profits earned from these business activities in accordance with the tax laws of both countries.

Over a period of many years, Honda has made dedicated efforts to grow its local operation in Brazil and the Taxation Bureau's allegation that the bulk of profits earned there must be allocated to Japan is totally unacceptable. Honda is confident that its assertion will be fully respected during the course of relevant proceedings and that this case will be resolved in a manner acceptable to Honda.
