Prospectus Supplement No. 2

to Prospectus dated December 20, 2004

PRICESMART, INC.

17,924,840 Rights to Purchase Shares of Common Stock

Up to 16,052,668 Shares of Common Stock Offered Pursuant to the Rights Offering

We are supplementing the prospectus dated December 20, 2004, covering 17,924,840 transferable subscription rights to purchase shares of our common stock issued pursuant to our rights offering as described in the prospectus and the issuance of up to 16,052,668 shares of our common stock upon the exercise of such rights. This prospectus supplement includes our Quarterly Report on Form 10-Q for the quarterly period ended February 28, 2005, which was filed with the Securities and Exchange Commission on April 14, 2005.

This prospectus supplement supplements information contained in the prospectus dated December 20, 2004. This prospectus supplement should be read in conjunction with the prospectus dated December 20, 2004, which is to be delivered with this prospectus supplement. This prospectus supplement is qualified by reference to the prospectus, except to the extent that the information in this prospectus supplement updates or supersedes the information contained in the prospectus dated December 20, 2004, including any supplements and amendments thereto.

This prospectus supplement is not complete without, and may not be delivered or utilized except in connection with, the prospectus dated December 20, 2004, including any amendment or supplement thereto.

INVESTING IN OUR SHARES OF COMMON STOCK INVOLVES A HIGH DEGREE OF RISK. SEE RISK FACTORS BEGINNING ON PAGE 7 OF THE PROSPECTUS DATED DECEMBER 20, 2004, AND ALSO SEE FACTORS THAT MAY AFFECT FUTURE PERFORMANCE BEGINNING ON PAGE 22 OF THIS PROSPECTUS SUPPLEMENT FOR A DISCUSSION OF CERTAIN FACTORS THAT YOU SHOULD CONSIDER IN CONNECTION WITH AN INVESTMENT IN OUR SECURITIES.

Neither the Securities and Exchange Commission nor any state securities commission has approved or disapproved any of these securities or determined if this prospectus supplement is truthful or complete. Any representation to the contrary is a criminal offense.

The date of this Prospectus Supplement is April 14, 2005.

Table of Contents**PART I FINANCIAL INFORMATION****ITEM 1. FINANCIAL STATEMENTS**

The Company's unaudited consolidated balance sheet as of February 28, 2005, the consolidated balance sheet as of August 31, 2004, the unaudited consolidated statements of operations for the three and six month periods ended February 28, 2005 and February 29, 2004, the unaudited consolidated statements of cash flows for the six month periods ended February 28, 2005 and February 29, 2004, and the unaudited consolidated statements of stockholders' equity for the six month period ended February 28, 2005 are included elsewhere herein. Also included within are notes to the unaudited consolidated financial statements.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

This Form 10-Q contains forward-looking statements concerning PriceSmart's anticipated future revenues and earnings, adequacy of future cash flow and related matters. These forward-looking statements include, but are not limited to, statements or phrases such as believe, will, expect, anticipate, estimate, intend, plan, and would and like expressions, and the negative thereof. Forward-looking statements are not guarantees of performance. These statements are subject to risks and uncertainties that could cause actual results to differ materially from the statements, including foreign exchange risks, political or economic instability of host countries, and competition as well as those risks described in the Company's SEC reports, including the risk factors referenced in this Form 10-Q. See Part II Item 5 Factors That May Affect Future Performance.

The following discussion and analysis compares the results of operations for the three and six month periods ended February 28, 2005 (fiscal 2005) and February 29, 2004 (fiscal 2004), and should be read in conjunction with the consolidated financial statements and the accompanying notes included within.

PriceSmart's business consists primarily of international membership shopping warehouse clubs similar to, but smaller in size than, warehouse clubs in the United States. The number of warehouse clubs in operation as of February 28, 2005 and February 29, 2004, the Company's ownership percentages and basis of presentation for financial reporting purposes by each country or territory are as follows:

Country/Territory	Number of Warehouse Clubs	Number of Warehouse Clubs	Ownership	Basis of Presentation
	in Operation (as of February 28, 2005)	in Operation (as of February 29, 2004)		
Panama	4	4	100%	Consolidated
Costa Rica	3	3	100%	Consolidated
Dominican Republic	2	2	100%	Consolidated
Guatemala	2	2	66%	Consolidated
Philippines	4	3	52%	Consolidated
El Salvador	2	2	100%	Consolidated
Honduras	2	2	100%	Consolidated

Table of Contents

During fiscal 2004, the Company opened a new U.S.-style membership shopping warehouse club in the Philippines and closed its warehouse club in Guam. No consolidated warehouse clubs were opened or closed during the first six months of fiscal 2005. As a result, there were 26 consolidated warehouse clubs in operation, operating in twelve countries and one U.S. territory as of February 28, 2005, compared to 25 consolidated warehouse clubs in operation, operating in twelve countries and one U.S. territory at the end of the second quarter of fiscal 2004. During the first quarter of fiscal 2005 the Company announced that it had entered into an agreement to acquire land in San Jose, Costa Rica for a planned fourth location in that market, which the Company plans to open in the second half of calendar year 2005. The average life of the 26 warehouse clubs in operation as of February 28, 2005 was 50 months. The average life of the 25 warehouse clubs in operation as of February 29, 2004 was 44 months.

On February 11, 2005, it was announced that the Company and Grupo Gigante S.A. had decided to close the warehouse club operations of PSMT Mexico, S.A. de C.V. This closure was completed February 28, 2005. PSMT Mexico, S.A. de C.V. is a 50/50 joint venture of PriceSmart and Grupo Gigante S.A. de C.V. and operated three membership warehouse clubs in Mexico. The joint venture will continue to have real estate assets and is evaluating various business strategies associated with those assets, including leasing, selling or further commercial development of the sites.

In addition to the warehouse clubs operated directly by the Company or through joint ventures, there was one warehouse club in operation in Saipan, Micronesia licensed to and operated by local business people, through which the Company earns a licensee fee. During the second quarter of fiscal 2005, the Company terminated the license agreement with its China licensee, under which the China licensee operated 11 warehouse clubs. The Company has not recorded any licensing revenue under the license agreement in fiscal 2005.

COMPARISON OF THE THREE MONTHS ENDED FEBRUARY 28, 2005 AND FEBRUARY 29, 2004

Net warehouse sales increased 10.5% to \$178.5 million in the second quarter of fiscal 2005 from \$161.5 million in the second quarter of fiscal 2004. Warehouse sales grew in all of the regions in which the Company operates as a result of improved merchandise quantity and selection as compared to last year's second quarter. The sales increase over the prior year was primarily reflected in an increase in the average sale per transaction. The Company considers this a positive outcome resulting from the Company's efforts to offer higher quality brand name merchandise to its members. The Company experienced 19% sales growth from the prior year in its Caribbean market, which was helped by strengthening currency and an improved economic environment in the Dominican Republic, 7% growth in Central America and 14% growth in the Philippine market as a result of having four clubs in operation compared to three in the second quarter of fiscal 2004.

Comparable warehouse sales for warehouse clubs that were open at least 12 full months grew 10.1% for the thirteen week period ending March 6, 2005 compared to the same period a year earlier. The Company reports comparable warehouse sales on a same week basis with 13 weeks in each quarter beginning on a Monday and ending on a Sunday. The periods are established at the beginning of the fiscal year to provide as close a match as possible to the calendar month that is used for financial reporting purposes. This approach equalizes the number of weekend days and week days in each period for improved sales comparison as the Company experiences higher warehouse sales on the weekends. Further, each of the warehouse clubs that were used had been open for at least 12 months from the beginning of the measurement period and were in operation for the full period under review.

The Company's warehouse gross profit margins (defined as net warehouse sales less associated cost of goods sold divided by net warehouse sales) decreased to 13.7% in the second quarter of fiscal 2005 from 14.0% in the second quarter of fiscal 2004. This reduction includes a \$1.0 million charge to cost of goods sold taken by the Company related to additional import duties on merchandise for fiscal years 2001, 2002 and 2003, which negatively impacted margins in the period by 58 basis points. Currency movements in both the current and prior periods had only small positive effects on warehouse gross profit margins of 10 and 20 basis points, respectively. For a further definition of the expenses included in cost of goods sold, please refer to Note 2 - Summary of Significant Accounting Policies.

Table of Contents

Export sales represent U.S. merchandise exported to the Company's licensee warehouse operating in Saipan and direct sales to third parties through the Company's distribution centers, which include sales to PriceSmart Mexico, an unconsolidated affiliate (see Note 9-Related Party Transactions in the Notes to Consolidated Financial Statements included within). Export sales in the second quarter of fiscal 2005 were \$138,000 compared to \$304,000 in the second quarter of fiscal 2004. The change between periods reflects a continued reduction in the direct export sales business the Company does with non-affiliated third parties or unconsolidated affiliates.

Membership fees, which are recognized into income ratably over the one-year life of the membership and reported as membership income, increased to \$2.5 million in the second quarter of fiscal 2005 compared to \$2.2 million in the second quarter of fiscal 2004. The Company has been putting an increased emphasis on membership. Membership renewal rates average approximately 83% for the Company's warehouse clubs and total accounts have increased 3.0% during the second quarter of fiscal 2005. The average membership fee is approximately \$24.00.

Other income consists of commission revenue, rental income, advertising revenue, construction revenue, vendor promotions, and fees earned from licensees. Other income, excluding license fees, increased to \$1.6 million in the second quarter of fiscal 2005 compared to \$1.3 million in the second quarter of fiscal 2004. The increase is due to a \$400,000 refund of an accumulated marketing fund related to the Company's co-branded credit card. Other income excluding license fees decreased primarily due to a decrease in construction management revenues. The Company recorded no license fees in the second quarter of fiscal 2005 compared to \$386,000 in the second quarter of fiscal 2004 as a result of the previously announced termination of the technology and trademark licensing agreements with the Company's China licensee.

Warehouse club operating expenses increased to \$21.2 million in the second quarter of fiscal 2005 from \$20.4 million in the second quarter of fiscal 2004, but decreased as a percent of net warehouse sales to 11.9% from 12.6%. Warehouse operating expense increases resulted from various factors including one additional warehouse club in operation and higher payroll and utility costs. As a percent of net warehouse sales, the Company experienced reductions most notably in depreciation expense and other operating costs that are not variable with sales, such as rent expense.

General and administrative expenses were \$6.3 million, or 3.5% of net warehouse sales, in the second quarter of fiscal 2005 compared to \$5.9 million, or 3.6% of net warehouse sales, in the second quarter of fiscal 2004. The Company incurred \$1.1 million in costs with outside consultants in the analysis and documentation of processes related to compliance with Section 404 of the Sarbanes-Oxley Act. The Company has determined that, as a result of the announcement made by the SEC on March 2, 2005, it will have an additional year to comply with Section 404. However, the Company has decided to proceed with and complete the documentation and remediation phases of the project and begin testing as a core part of its overall internal controls effort. This effort will require additional incremental costs in the third quarter, although at a significantly reduced level from that experienced in the second quarter. The current quarter also includes a \$700,000 charge related to the tentative settlement of the consolidated securities litigation announced on March 3, 2005 and includes that portion of the tentative settlement not covered by insurance as well as related legal fees. The Company also incurred \$200,000 in litigation costs related to disputes with the minority stockholders of its Guatemala and Philippines subsidiaries in the second quarter of fiscal 2005. The expenses in the second quarter of fiscal 2004 included approximately \$780,000 in costs for outside professional services attributable to legal proceedings arising from the Company's restatement of financial results for fiscal year 2002 and the first three quarters of fiscal year 2003 and for severance related to the restructuring of its headquarters operations, including the closure of substantially all of its Miami-based buying operations and consolidating those activities with the buying team in San Diego.

Pre-opening expenses were \$2,000 in the second quarter of fiscal 2005, which represent expenses incurred before a warehouse club is in operation, in the current period. The Company expects to incur additional pre-opening costs associated with the planned fourth location in San Jose, Costa Rica. In the second quarter of fiscal 2004 the Company incurred \$156,000 of pre-opening expenses related to the Aseana site in the Philippines, which subsequently opened in June 2004.

Table of Contents

The Company incurred \$211,000 in operating costs to maintain four closed warehouse club locations while it seeks tenants or alternative uses for those facilities. Closure costs in the second quarter of fiscal year 2004 were \$1.5 million, \$1.2 million of which was associated with the closure of the Guam warehouse on December 24, 2003.

Operating income for the second quarter of fiscal 2005 was \$803,000 compared to a loss of \$1.5 million in the second quarter of fiscal 2004.

Interest income primarily reflects earnings on cash and cash equivalent balances and restricted cash deposits securing long-term debt. Interest income was \$696,000 in the second quarter of fiscal 2005 compared to \$632,000 in the second quarter of fiscal 2004. The increase in interest income is due to the combination of higher cash and cash equivalent balances and higher interest rates.

Interest expense primarily reflects borrowings by the Company's majority or wholly-owned foreign subsidiaries to finance the capital requirements of the initial construction of the warehouse clubs, local currency loans secured by U.S. dollar deposits and on-going working capital requirements. Interest expense decreased to \$2.2 million in the second quarter of fiscal 2005 from \$2.7 million in the second quarter of fiscal 2004. The decrease is a result of a reduced level of debt held by the Company, partially offset by higher interest rates.

The Company recorded an income tax provision of \$316,000 for the second quarter of fiscal year 2005, compared to \$241,000 for the same period in the prior year. The current period provision represents the net effect of income tax expense in certain subsidiaries that are generating taxable income and income tax credits for those subsidiaries generating losses. Income tax audits recognized are only when the recoverability of those credits are deemed to be more likely than not. Due to the current interplay of income and losses within the different group companies, the Company does not believe that the resulting effective tax rate is an adequate measurement tool at this time.

Equity of unconsolidated affiliate represents the Company's 50% share of losses from its Mexico joint venture. On February 11, 2005, the Company, along with its joint venture shareholders Grupo Gigante S.A. de C.V., announced that it was closing the warehouse operations of PSMT Mexico, S.A. de C.V. effective February 28, 2005. At that time the Company indicated that it believed that the closure would not result in a significant loss for PriceSmart, Inc. While this is still the Company's view with respect to the total carrying value of that investment, PSMT Mexico did incur larger than estimated operating losses in the month of February associated with the liquidation of merchandise, the refund of membership fees, the severance of employees and the settlement of contractual obligations. Under the equity method of accounting, through which the Company reflects its proportionate share of income or loss of the unconsolidated joint venture's results from operations, the Company's proportionate share of the loss in PriceSmart Mexico for the current quarter was \$2.0 million, as compared to \$377,000 in the prior year period.

Minority interest relates to the allocation of joint venture income or loss to the minority stockholders. In the second quarter of fiscal 2004, the Company's joint venture subsidiaries collectively recorded an operating loss, resulting in a \$497,000 allocation of that loss to the minority stockholders' interests. In the second quarter of 2005, the Company's joint venture subsidiaries collectively recorded net income, resulting in an allocation of \$114,000 of income to the minority stockholders' interests in those joint ventures. It should be noted that in fiscal 2005 the Philippines joint venture is no longer included in the minority interest allocation as the minority stockholders' interests in that joint venture have been reduced to zero as a result of the prior accumulated losses.

No preferred stock dividends accrued in the second quarter of fiscal 2005 as all classes of preferred stock and their accrued dividends were converted to common stock during the first quarter of fiscal 2005. Accrued dividends on preferred stock in the second quarter of fiscal year 2004 were \$840,000.

Table of Contents

COMPARISON OF THE SIX MONTHS ENDED FEBRUARY 28, 2005 AND FEBRUARY 29, 2004

Net warehouse sales grew 8.6% to \$331.5 million in the first half of fiscal 2005 from \$305.2 million in the first half of fiscal 2004. Improved merchandise quantity and selection in the Company's warehouse clubs was the primary contributor to the growth in sales.

Comparable warehouse sales for warehouse clubs that were open at least 12 full months grew 8.6% for the twenty-six week period ending March 6, 2005 compared to the same period a year earlier. The Company reports comparable warehouse sales on a same week basis with 13 weeks in each quarter beginning on a Monday and ending on a Sunday. The periods are established at the beginning of the fiscal year to provide as close a match as possible to the calendar month which is used for financial reporting purposes. This approach equalizes the number of weekend days and week days in each period for improved sales comparison as the Company experiences higher warehouse sales on the weekends. Further, the warehouse clubs that are used have been open for at least 12 months from the beginning of the measurement period and were in operation for the full period under review.

The Company's warehouse gross profit margins (defined as net warehouse sales less associated cost of goods sold divided by net warehouse sales) in the first half of fiscal 2005 increased to 14.5% from 13.3% in the first half of fiscal 2004. The improvement in gross profit margins of 1.2% resulted from improvements in merchandising and operating efforts of the Company, as well as beneficial currency movements in certain countries (primarily the Dominican Republic). These factors were partially offset by a \$1.0 million charge to cost of goods sold related to additional import duties on merchandise for fiscal years 2001, 2002, and 2003. In the prior year, warehouse gross profit margins were impacted negatively by reduced margins in Guam as merchandise was marked down in advance of the December closing, as well as reduced margins (primarily in the first quarter of fiscal year 2004) in order to dispose of slower moving inventory. For a further definition of the expenses included in cost of goods sold, please refer to Note 2 - Summary of Significant Accounting Policies.

Export sales were \$371,000 in the first half of fiscal 2005 compared to \$809,000 in the first half of fiscal 2004. The decrease reflects a reduction in the direct export sales business the Company does with non-affiliated third parties and unconsolidated affiliates.

Membership fees, which are recognized into income ratably over the one-year life of the membership and reported as membership income, were \$4.9 million in the first half of fiscal 2005 compared to \$4.3 million during the same period of fiscal 2004 primarily reflecting higher average membership fees.

Other income consists of commission revenue, rental income, advertising revenues, construction revenue, vendor promotions, and fees earned from licensees. Other income, excluding license fees, increased to \$2.7 million in the first half of fiscal 2005 compared to \$2.5 million in the first half of fiscal 2004. The increase is due to a \$400,000 refund of an accumulated marketing fund related to the Company's co-branded credit card in the current period. Other income, excluding license fees, decreased primarily due to a decrease in construction management revenues. The Company recorded no license fees in the first half of fiscal 2005 compared to \$727,000 in the first half of fiscal 2004 as a result of the previously announced termination of the technology and trademark licensing agreements with the Company's China licensee.

Warehouse operating expenses increased to \$40.9 million in the first half of fiscal 2005 from \$40.6 million in the same period in fiscal 2004. As a percent of net warehouse sales, however, warehouse operating expenses decreased to 12.4% of net warehouse sales in fiscal 2005 from 13.3% of net warehouse sales in fiscal 2004. Improvements as a percent of net warehouse sales were attributable to improvements in labor productivity and the effect of higher sales on generally fixed costs such as building rent and depreciation.

Edgar Filing: PRICESMART INC - Form 424B3

General and administrative expenses were \$11.4 million, or 3.4% of net warehouse sales, in the first half of fiscal 2005 compared to \$11.0 million, or 3.6% of net warehouse sales, in the first half of fiscal 2004. In the first

Table of Contents

half of fiscal 2005, the Company has incurred approximately \$1.2 million for outside consultants in the analysis and documentation of processes related to compliance with the Sarbanes-Oxley Act and \$700,000 in settlement costs related to securities litigation. The Company also recorded \$200,000 in litigation costs related to the Guatemala and Philippines disputes in the first half of fiscal 2005. By comparison, the first half of fiscal year 2004 included severance costs of approximately \$700,000 relating to the departure of certain members of senior management and the closure of substantially all of the Company's Miami-based buying operations and the consolidation of those activities with the buying team in San Diego, and approximately \$450,000 of expense was incurred for outside professional services attributable to legal proceedings arising from the Company's restatement of financial results for fiscal year 2002 and the first three quarters of fiscal year 2003.

Pre-opening expenses, which represent expenses incurred before a warehouse club is in operation, were \$2,000 in the first six months of fiscal 2005. The Company expects to incur more pre-opening costs associated with the planned fourth location in San Jose, Costa Rica. In the first half of fiscal 2004, the Company incurred \$166,000 of pre-opening expenses related to the Aseana site in the Philippines, which subsequently opened in June 2004.

Closure costs for the first half of fiscal 2005 were \$578,000 for the operating costs to maintain the four closed warehouse club locations while the Company seeks tenants or alternative uses for those facilities. In the first half of fiscal year 2004, closure costs were \$1.7 million, \$1.2 million of which was associated with the closure of the Guam location in December 2003.

Operating income for the first half of fiscal year 2005 was \$2.6 million compared to an operating loss of \$5.3 million in the same period last year.

Interest income reflects earnings on cash and cash equivalents and restricted cash deposits securing long term debt. Interest income was \$1.3 million for both the first half of fiscal 2005 and the first half of fiscal 2004.

Interest expense reflects the borrowings of the Company's majority and wholly-owned subsidiaries used to finance the capital requirements of the initial construction of the warehouse clubs, local currency loans secured by U.S. deposits and on-going working capital requirements. Interest expense in the first half of fiscal 2005 was \$5.1 million, compared to \$5.6 million in the first half of fiscal 2004. The decrease is a result of a reduced level of debt held by the Company, partially offset by higher interest rates.

The Company recorded income tax provisions of \$1.0 million and \$189,000 for the six-month periods ended February 28, 2005 and February 29, 2004, respectively. The current period provision represents the net effect of income tax expense in certain subsidiaries that are generating taxable income and income tax credits for those subsidiaries generating losses. Income tax audits are recognized only when the recoverability of the credits are deemed to be more likely than not. Due to the current interplay of income and losses within the different group companies, the Company does not believe that the resulting effective tax rate is an adequate measurement tool at this time.

Equity of unconsolidated affiliate represents the Company's 50% share of losses from its Mexico joint venture. On February 11, 2005, the Company, along with its joint venture partner Grupo Gigante S.A. de C.V, announced that it was closing the warehouse operations of PSMT Mexico, S.A. de C.V. effective February 28, 2005. At that time the Company indicated that it believed that the closure would not result in a significant loss for PriceSmart, Inc. While this is still the Company's position with respect to the total carrying value of that investment, PSMT Mexico did incur large operating losses in the month of February associated with the liquidation of merchandise, the refund of membership fees, the severance of employees and the settlement of contractual obligations. Under the equity method of accounting, through which the Company reflects its proportionate share of income or loss of the unconsolidated joint venture's results from operations, the Company's proportionate share of the loss in PriceSmart Mexico for the first half of fiscal year 2005 was \$2.4 million, as compared to \$781,000 in the prior year period.

Table of Contents

Minority interest relates to the allocation of the joint venture income or loss to the minority stockholders. In the first six months of fiscal 2004, those joint ventures collectively recorded an operating loss resulting in a \$1.0 million allocation of that loss to the minority shareholders interests. In the first six months of fiscal 2005, the Company's joint ventures collectively recorded net income, resulting in an allocation of \$166,000 to the minority stockholders interests in those joint ventures. It should be noted that in fiscal 2005 the Philippines joint venture is no longer included in the minority interest allocation as the minority stockholders interest in that joint venture have been reduced to zero as a result of the prior accumulated losses.

Preferred dividends decreased to \$648,000 in the first half of fiscal 2005, compared to \$1.7 million the same period in the prior year, due to the conversion of all classes of preferred stock to common stock in the first quarter of fiscal 2005.

LIQUIDITY AND CAPITAL RESOURCES

Financial Position and Cash Flow

The Company's primary capital requirements are for the operating working capital needs of the Company, particularly those associated with the acquisition of an adequate level of U.S. and locally sourced merchandise for the Company's warehouse clubs.

The Company significantly improved its working capital position (defined as current assets less current liabilities) in the second quarter of fiscal 2005, and as of February 28, 2005, had a working capital surplus of \$38.3 million, compared to working capital deficits of \$4.3 million as of November 30, 2004 and \$15.5 million as of August 31, 2004. The \$42.6 million improvement since November 2004 was largely a result of the sale of 6,827,542 shares of the Company's common stock for aggregate proceeds of \$47.8 million pursuant to the exercise of subscription rights during the \$7 exercise period of the Company's previously announced rights offering. The \$7 subscription period ended on January 24, 2005. The \$8 subscription period extends until December 21, 2005. The Company used a portion of the additional capital to reduce short-term borrowings by \$11.7 million, including the \$3.0 million repayment of a short-term loan from a related party associated with the initial acquisition of land in San Jose, Costa Rica. For the first six months of the fiscal year, the Company's working capital position improved by \$53.8 million, attributable to the \$47.8 million in common stock sales and also the conversion of approximately \$20 million in short-term related party borrowings to common stock as part of the Financial Program (see Note 6- Financial Program in the Notes to Consolidated Financial Statements included herein).

Net cash flows provided by operating activities were \$7.1 million and \$8.8 million in the first six months of fiscal 2005 and 2004, respectively. During the first half of fiscal 2005, the Company increased merchandise inventories by \$7.3 million. During the same period in fiscal 2004, the merchandise inventories decreased \$12.8 million.

Net cash used in investing activities was \$5.9 million and \$2.5 million in the first six months of fiscal 2005 and 2004, respectively. The increase in the use of cash of approximately \$3.4 million resulted primarily from the acquisition of land and the initial building costs associated with the planned new warehouse club location in San Jose, Costa Rica.

Financing activities contributed \$23.7 million in the first half of fiscal 2005 compared to approximately \$149,000 in the first six months of fiscal 2004. A number of transactions related to the previously announced Financial Program during the first half of fiscal year 2005 accounted for the increase in the periods presented. The Company received \$47.8 million from the sale of 6,827,542 shares of the Company's common stock

Edgar Filing: PRICESMART INC - Form 424B3

pursuant to the exercise of subscription rights during the \$7 exercise period of the Company's previously announced rights offering. The \$7 subscription period ended on January 24, 2005. The \$8 subscription period extends until December 21, 2005. In the first six months of fiscal 2005, the Company reduced long-term debt by

Table of Contents

\$47.9 million; \$26.4 million was through conversion to common stock and \$21.5 million was through either net principal repayments or the complete retirement of the debt. In addition, short-term debt was reduced by \$8.2 million during the period.

Financing Activities

The Company concluded significant phases of its previously announced Financial Program during the first half of the fiscal year (See Note 6-Financial Program in the Notes to Consolidated Financial Statements included herein).

In the first fiscal quarter of 2005, the Company converted \$22 million of its Series B Cumulative Convertible Redeemable Preferred Stock into shares of common stock, valued for such purposes at \$10 per share. The Company also converted a \$25 million bridge loan plus accrued interest, the \$5 million real estate advance for the subsequently cancelled sale of the Santiago, Dominican Republic land and building plus accrued interest and \$14.9 million of purchase order financing plus accrued interest from, each extended to the Company by The Price Group, LLC, to common stock, valued for such purposes at \$8 per share. The Price Group, LLC is affiliated with Robert E. Price, Interim Chief Executive Officer, Chairman of the Board of Directors and a significant stockholder of the Company and Sol Price, a significant stockholder of the Company and father of Robert E. Price. Directors Robert E. Price, Murray L. Galinson, Jack McGrory and former director James F. Cahill are co-managers of The Price Group, LLC and collectively own a significant interest in that entity. In addition, as part of a separate transaction, the Company converted \$20 million of its Series A Cumulative Convertible Redeemable Preferred Stock plus accrued dividends to common stock valued for such purpose at \$10 per share.

In addition, the Company purchased a \$10.2 million long-term note of its Philippine subsidiary from the International Finance Corporation (IFC) and paid-off the outstanding balance of a \$3.8 million long-term note to the Overseas Private Investment Corporation (OPIC). The Company simultaneously obtained the release of \$6.8 million in restricted cash being held as partial collateral for those loans as part of the Financial Program.

In the second quarter of fiscal 2005, the Company received \$47.8 million as a result of the sale of 6,827,542 shares of the Company's common stock pursuant to the exercise of subscription rights during the \$7 exercise period of the Company's previously announced rights offering. The \$7 subscription period ended on January 24, 2005. The \$8 subscription period extends until December 21, 2005. The rights offering is part of the Financial Program.

On November 5, 2004, the Company entered into a short-term loan agreement for \$3.0 million for a period of 90 days at a rate of 5% with The Price Group, LLC. This short-term loan was repaid on January 10, 2005.

Short-Term Borrowings and Long-Term Debt

As of February 28, 2005, the Company, together with its majority or wholly-owned subsidiaries, had \$5.2 million outstanding in short-term borrowings, which are secured by certain assets of the Company and its subsidiaries and are guaranteed by the Company up to its respective ownership percentage. Each of the facilities expires during the year and is typically renewed. As of February 28, 2005, the Company had approximately \$11.0 million available on these facilities.

Edgar Filing: PRICESMART INC - Form 424B3

Additionally, the Company has a bank credit agreement for up to \$7.0 million, which can be used as a line of credit or to issue letters of credit. As of February 28, 2005, letters of credit and lines of credit totaling \$4.6 million were outstanding under this facility, leaving availability under this facility of \$2.4 million.

As of February 28, 2005, the Company, together with its majority or wholly-owned subsidiaries, had \$75.8 million outstanding in long-term borrowings. The Company's long-term debt is collateralized by certain land, building, fixtures, equipment and shares of each subsidiary to which the debt relates and guaranteed by the

Table of Contents

Company up to its respective ownership percentage, except for approximately \$24.9 million as of February 28, 2005, which is secured by collateral deposits included in restricted cash on the balance sheet and letters of credit. Certain obligations under leasing arrangements are collateralized by the underlying asset being leased.

Under the terms of debt agreements to which the Company and/or one or more of its wholly-owned or majority-owned subsidiaries are parties, the Company must comply with specified financial maintenance covenants, which include among others, current ratio, debt service, interest coverage and leverage ratios. As of February 28, 2005, the Company was in compliance with all of these covenants, except for the following: (i) debt service ratio for a \$11.3 million note (with an outstanding balance of \$1.9 million at February 28, 2005), which the Company repaid in full on March 23, 2005; (ii) interest cost/EBIT (earnings before interest and taxes) ratio for a \$6.0 million note (with an outstanding balance of \$3.8 million at February 28, 2005), for which the Company has requested and received a written waiver of its noncompliance through the quarter ending May 31, 2005; and (iii) debt to equity ratio for a \$7.0 million note (with an outstanding balance of \$3.7 million at February 28, 2005), for which the Company has requested and received a written waiver of its noncompliance through the quarter ending August 31, 2005. Additionally, the Company has debt agreements, with an aggregate principal amount outstanding as of February 28, 2005 of \$26.5 million that, among other things, allow the lender to accelerate the indebtedness upon a default by the Company under other indebtedness and prohibit the Company from incurring additional indebtedness unless the Company is in compliance with specified financial ratios. As of February 28, 2005, the Company did not satisfy these ratios. As a result, the Company is prohibited from incurring additional indebtedness and would need to obtain a waiver from the lender as a condition to incurring additional indebtedness. If the Company is unsuccessful in obtaining the necessary waivers or fails to comply with these financial covenants in future periods, the lenders may elect to accelerate the indebtedness described above and foreclose on the collateral pledged to secure the indebtedness. The Company believes that, primarily as a result of the Financial Program, it has sufficient financial resources to pay-down the two above obligations that were not repaid which had maintenance covenant noncompliance as of February 28, 2005, even though the Company has obtained waivers for each of them. Accordingly, the two obligations for which the Company has received waivers are reflected in the accompanying balance sheet under the original contractual maturities and \$340,000 of the obligation the Company repaid on March 23, 2005, which was not already classified as current, was reclassified as current.

Contractual Obligations

As of February 28, 2005, the Company's commitments to make future payments under long-term contractual obligations were as follows (amounts in thousands):

	Payments Due by Period				
	Total	Less than 1 Year	1 to 3 Years	4 to 5 Years	After 5 Years
Contractual obligations					
Long-term debt(1)	\$ 75,765	\$ 15,871	\$ 20,735	\$ 20,387	\$ 18,772
Operating leases	131,484	9,757	18,613	17,482	85,632
Total	\$ 207,249	\$ 25,628	\$ 39,348	\$ 37,869	\$ 104,404

- (1) Amounts shown are for the principal portion of the long-term debt payment only. Future interest obligations will vary with changes in future LIBOR rates, making an accurate projection of future interest payments difficult.

Critical Accounting Estimates

Edgar Filing: PRICESMART INC - Form 424B3

The preparation of the Company's financial statements requires that management make estimates and judgments that affect the financial position and results of operations. Management continues to review its accounting policies and evaluate its estimates, including those related to merchandise inventory and impairment of long-lived assets. The Company bases its estimates on historical experience and on other assumptions that management believes to be reasonable under the present circumstances.

Table of Contents

Merchandise Inventories: Merchandise inventories, which include merchandise for resale, are valued at the lower of cost (average cost) or market. The Company provides for estimated inventory losses and obsolescence between physical inventory counts on the basis of a percentage of sales. The provision is adjusted periodically to reflect the trend of actual physical inventory count results, which occur primarily in the second and fourth fiscal quarters. In addition, the Company may be required to take markdowns below the carrying cost of certain inventory to expedite the sale of such merchandise.

Impairment of Long-lived Assets: The Company periodically evaluates its long-lived assets for indicators of impairment. Management's judgments are based on market and operational conditions at the time of the evaluation. Future events could cause management to conclude that impairment factors exist, requiring an adjustment of these assets to their then-current fair market value. Future circumstances may result in the Company's actual future closing costs or the amount recognized upon the sale of the property differing substantially from the estimates.

Allowance for Bad Debt: Credit is extended to a portion of the Company's members as part of the Company's wholesale business and to third-party wholesalers for direct sales. The Company maintains an allowance for doubtful accounts based on assessments as to the collectibility of specific customer accounts, the aging of accounts receivable, and general economic conditions. Additionally, the Company formerly utilized the importation and exportation businesses of one of the minority interest shareholders in the Company's Philippines subsidiary for the movement of merchandise inventories both to and from the Asian regions. As of February 28, 2005, the Company had a total of approximately \$645,000 in net receivables due from the minority interest shareholder's importation and exportation businesses, which is included in accounts receivable on the consolidated financial statements. If the credit worthiness of a specific customer or the minority interest shareholder deteriorates, the Company's estimates could change and it could have a material impact on the Company's reported results.

Stock-Based Compensation: As of February 28, 2005, the Company had four stock-based employee compensation plans. Beginning September 1, 2002, the Company adopted the fair value based method of recording stock options contained in Statement of Financial Accounting Standards No. 123, Accounting for Stock-Based Compensation, which is considered the preferable accounting method for stock-based employee compensation. Beginning September 1, 2002, all future employee stock option grants will be expensed over the stock option vesting period based on the fair value at the date the options are granted. Historically, and through August 31, 2002, the Company had applied Accounting Principles Board Opinion No. 25 and related interpretations in accounting for its stock option plans.

Deferred Taxes: A valuation allowance is recorded to reduce deferred tax assets to the amount that is more likely than not to be realized. As of February 28, 2005, the Company evaluated its deferred tax assets and liabilities and determined that, in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes, a valuation allowance is necessary for certain foreign deferred tax asset balances, primarily because of the existence of significant negative objective evidence, such as the fact that certain countries are in a cumulative loss position for the past three years.

The Company has a federal and state tax net operating loss carry-forward at August 31, 2004 of approximately \$40.5 million and \$6.7 million, respectively. In calculating the tax provision, and assessing the likelihood that the Company will be able to utilize the deferred tax assets, the Company considered and weighed all of the evidence, both positive and negative, and both objective and subjective. The Company factored in the inherent risk of forecasting revenue and expenses over an extended period of time and considered the potential risks associated with its business. Because of the Company's history of U.S. income and based on projections of future taxable income in the U.S., the Company was able to determine that there was sufficient positive evidence to support the conclusion that it was more likely than not that the Company would be able to realize the U.S. deferred tax assets by generating taxable income during the carry-forward period. However, if the Company does not achieve its projections of future taxable income in the U.S., the Company could be required to take a charge

Table of Contents

to earnings related to the recoverability of these deferred tax assets. Due to their shorter recovery period, the Company has maintained valuation allowances on U.S. foreign tax credits and capital loss carryforwards.

As a result of significant losses in many of the Company's foreign subsidiaries at February 28, 2005, the Company has concluded that full valuation allowances are necessary in all but two of its subsidiaries. The Company has factored in the inherent risk of forecasting revenue and expenses over an extended period of time and also considered the potential risks associated with its business. There was insufficient positive evidence to overcome the existence of the negative objective evidence of cumulative losses. As a result, management concluded that it was more likely than not that the deferred tax assets would not be realized in these subsidiaries.

Basis of Presentation: The consolidated financial statements include the assets, liabilities and results of operations of the Company's majority and wholly-owned subsidiaries that are more than 50% owned and controlled. All significant intercompany balances and transactions have been eliminated in consolidation. The Company's 50% owned Mexico joint venture is accounted for under the equity method of accounting.

Accounting Pronouncements

During December 2004, the Financial Accounting Standards Board (FASB) issued Statement No. 123R, Share-Based Payment (SFAS 123R), which requires companies to measure and recognize compensation expense for all stock-based payments at fair value. Stock-based payments include stock option grants. The Company grants options to purchase common stock to some of its employees and directors under various plans at prices equal to the market value of the stock on the dates the options were granted. SFAS 123R is effective for all interim or annual periods beginning after June 15, 2005. Early adoption is encouraged and retroactive application of the provisions of FAS 123R to the beginning of the fiscal year that includes the effective date is permitted, but not required. The Company has not yet adopted this pronouncement and is currently evaluating the expected impact that the adoption of SFAS 123R will have on its consolidated financial position, results of operations and cash flows.

In December 2004, the FASB issued Staff Position No. SFAS 109-2, Accounting and Disclosure Guidance for the Foreign Earnings Repatriation Provision within the American Jobs Creation Act of 2004 (SFAS 109-2). The American Jobs Creation Act of 2004 introduces a special one-time dividends-received deduction on the repatriation of certain foreign earnings to a U.S. taxpayer, provided certain criteria are met. SFAS 109-2 provides accounting and disclosure guidance for the repatriation provision, and was effective immediately upon issuance. The Company has not yet adopted this pronouncement and is currently evaluating the expected impact that the adoption of SFAS 109-2 will have on its consolidated financial position, results of operations and cash flows.

In November 2004, the FASB issued SFAS No. 151, Inventory Costs- An Amendment of ARB No. 43, Chapter 4 (SFAS 151). SFAS 151 clarifies that abnormal amounts of idle facility expense, freight, handling costs and spoilage should be expensed as incurred and not included in overhead. Further, SFAS 151 requires that allocation of fixed and production facilities overheads to conversion costs should be based on normal capacity of the production facilities. The provisions in this statement are effective for inventory costs incurred during fiscal periods beginning after June 15, 2005. The Company has not yet adopted this pronouncement and is currently evaluating the expected impact that the adoption of SFAS 151 will have on its consolidated financial position, results of operations and cash flows.

In November 2004, the FASB issued SFAS No. 153, Exchanges of Non-monetary Assets- An Amendment of APB No. 29 (SFAS 153). The provisions of this statement are effective for non-monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. This statement eliminates the exception to fair value for exchanges of similar productive assets and replaces it with a general exception for exchange transactions that do not have commercial substance- that is, transactions that are not expected to result in significant changes in the cash flows of

Edgar Filing: PRICESMART INC - Form 424B3

the reporting entity. The Company has not yet adopted this pronouncement and is currently evaluating the expected impact that the adoption of SFAS 153 will have on its consolidated financial position, results of operations and cash flows.

Table of Contents**ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK**

The Company, through its majority or wholly-owned subsidiaries, conducts foreign operations in Latin America, the Caribbean and Asia, and as such is subject to both economic and political instabilities that cause volatility in foreign currency exchange rates or weak economic conditions. As of February 28, 2005, the Company had a total of 26 consolidated warehouse clubs operating in 12 foreign countries and one U.S. territory (excluding the three closed warehouse clubs owned in Mexico through its 50/50 joint venture). Nineteen of the 26 warehouse clubs operate under currencies other than the U.S. dollar. For the six months ended February 28, 2005 and February 29, 2004, approximately 79% and 77%, respectively, of the Company's net warehouse sales were in foreign currencies. The Company may enter into additional foreign countries in the future or open additional locations in existing countries, which may involve similar economic and political risks as well as challenges that are different from those currently encountered by the Company. Foreign currencies in most of the countries where the Company operates have historically devalued against the U. S. dollar and are expected to continue to devalue. For example, the Dominican Republic experienced a currency devaluation of approximately 81% during fiscal 2003 and approximately 13% during fiscal 2004. There can be no assurance that the Company will not experience any other material adverse effects on the Company's business, financial condition, operating results, cash flow or liquidity from currency devaluations in other countries as a result of the economic and political risks of conducting an international merchandising business.

Foreign exchange transaction gains/(losses), which are included as a part of the costs of goods sold in the consolidated statement of operations, were approximately \$1.2 million and \$(190,000) for the six month periods ended February 28, 2005 and February 29, 2004, respectively. Translation adjustment gains/(losses) from the Company's share of non-U.S. denominated majority or wholly-owned subsidiaries and investment in affiliate, resulting from the translation of the assets and liabilities of the subsidiaries into U. S. dollars were \$1.9 million and \$(4.3) million for the six months and year ended February 28, 2005 and August 31, 2004, respectively. Foreign exchange gains/(losses) were positively impacted by \$755,000 relating to the Dominican Republic during the first six months of fiscal 2005. The Dominican Republic experienced a favorable currency revaluation of approximately 40% between the quarter ended February 29, 2004 and the quarter ended February 28, 2005.

The following is a listing of each country or territory where the Company currently operates and their respective currencies, as of February 28, 2005:

Country/Territory	Number of Warehouse Clubs in Operation	Anticipated Warehouse Club Openings in 2005	Currency
Panama	4		U.S. Dollar
Costa Rica	3	1	Costa Rican Colon
Philippines	4		Philippine Peso
Mexico*			Mexican Peso
Dominican Republic	2		Dominican Republic Peso
Guatemala	2		Guatemalan Quetzal
El Salvador	2		U.S. Dollar
Honduras	2		Honduran Lempira
Trinidad	2		Trinidad Dollar
Aruba	1		Aruba Florin
Barbados	1		Barbados Dollar
Guam			U.S. Dollar
U.S. Virgin Islands	1		U.S. Dollar
Jamaica	1		Jamaican Dollar
Nicaragua	1		Nicaragua Cordoba Oro
Totals	26	1	

* Warehouse clubs are operated through a 50/50 joint venture, which is accounted for under the equity method.

Table of Contents

The Company is exposed to changes in interest rates on various debt facilities. A hypothetical 100 basis point adverse change in interest rates along the entire interest rate yield curve could adversely affect the Company's pre-tax loss (excluding any minority interest impact) by approximately \$530,000 on an annualized basis.

Philippines Sales Trends and Projected Losses

The Company's Philippines operations, consisting of four warehouse clubs in Metro Manila (along with one former and currently unoccupied warehouse club), are performing well below management's expectation, with sales growth below plan, resulting in operating losses and negative cash flow over the past year (including the most recent fiscal quarter). The Company believes that two primary reasons for these results are: (i) the business has not been adequately capitalized; and (ii) the distribution of U.S. merchandise to the Philippines has not been maintained at a sufficiently consistent level. The Company continues to believe that the Philippines could be a viable market for PriceSmart and continues its efforts to improve the business. There is no guarantee, however, that the Company will be successful in these efforts. Operating losses and negative cash flow could continue for the foreseeable future, and therefore the Company will be considering alternatives which may be available with respect to this business.

Public Company Compliance Costs and Considerations

The Company incurs certain costs associated with being a publicly traded company. The Company has determined that, as a result of the announcement made by the SEC on March 2, 2005, it will have an additional year to comply with Section 404 of the Sarbanes-Oxley Act. As a result of such determination, beginning with fiscal year 2006, the direct and indirect costs associated with Sarbanes-Oxley Section 404 compliance will add significantly to the Company's costs associated with being a publicly traded company. The expenses associated with implementing the additional processes and procedures necessary for Section 404 compliance have cost approximately \$1.2 million, on a year-to-date basis. The cost of initial implementation and on-going compliance is particularly high for the Company due to the multiple geographic areas in which it operates (12 countries and one U.S. territory). Moreover, Section 404 compliance will inevitably result in a diversion of management time and attention from other duties.

Over the past several months, the Company has been monitoring the cost of operating as a public company to determine whether in its judgment the direct and indirect costs outweigh the benefits to the Company and its stockholders. The Company understands that several other companies are evaluating similar questions. As a result, on February 25, 2005, the Company announced that its management, board of directors and significant stockholders are beginning to explore possible transactions that would result in the Company's ceasing to be subject to SEC reporting requirements. These possible transactions include, among others, a reverse stock split in which stockholders who do not hold a minimum number of shares of the Company's common stock would have their shares converted into cash or a tender offer by the Company or significant stockholders for shares of the Company's common stock. Other alternatives that the Company could consider and evaluate would include a sale or merger of the business; or selling significant parts of the business and taking the remainder private.

Although the Company has not reached any conclusions about whether the costs of being a publicly traded SEC reporting company outweigh the benefits, the Company is evaluating alternatives to remaining an SEC reporting company. Any such transaction would be designed to result in the Company having less than 300 stockholders of record as of the end of a fiscal year or otherwise making it eligible to cease making SEC filings, such as Annual Reports on Form 10-K and Quarterly Reports on Form 10-Q. Depending on the form of transaction selected, if any, the Company or any entity formed by significant stockholders might not seek to acquire or otherwise cash out all existing shares held by unaffiliated stockholders but rather just that portion that would be necessary for the Company to terminate its SEC reporting requirements. In analyzing transaction alternatives, the Company's management, board of directors and significant stockholders will take into account the Company's ongoing rights offering and its impact on such alternatives. The implementation of any such transaction also would result in the delisting of the Company's common stock from the Nasdaq National Market.

Table of Contents

While the Company has engaged in discussions with minority partners in some locations as to sales of those locations, the Company has not engaged in any substantive discussions regarding these alternatives with any affiliated or unaffiliated third parties nor has the Company retained investment bankers, appraisers or other advisors. The Company does not know whether if it were to engage in any exploration of alternatives that it would be able to find any potential acquirer that would be willing to buy the Company at a price that the Company's board of directors and stockholders would find acceptable. Consequently, while the Company believes it may become appropriate to consider the possibility of such a transaction, it is not in a position to evaluate the likelihood that any such proposal will be made or, even if a proposal were to be made, whether a transaction would be consummated. Any such proposal would depend on a number of factors at a future time, including the Company's business and prospects, its operating and financial performance in the interim and the market price for its securities.

ITEM 4. CONTROLS AND PROCEDURES

The Company maintains disclosure controls and procedures that are designed to ensure that information required to be disclosed in its reports pursuant to the Securities Exchange Act of 1934, as amended, is recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to the Company's management, including its Interim Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. In designing and evaluating the disclosure controls and procedures, management recognized that any controls and procedures, no matter how well designed and operated, can provide only reasonable assurance of achieving the desired control objectives, and management necessarily was required to apply its judgment in evaluating the cost-benefit relationship of possible controls and procedures.

As required by SEC Rule 13a-15(b), the Company carried out an evaluation, under the supervision and with the participation of its management, including the Interim Chief Executive Officer and the Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as of the end of the quarter covered by this report. Based on the foregoing, its Interim Chief Executive Officer and Chief Financial Officer determined that disclosure controls and procedures were effective at a reasonable assurance level.

There has been no change in internal controls over financial reporting during the most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, internal controls over financial reporting. The Company has incurred approximately \$1.2 million in costs associated with the documentation of processes necessary to comply with Section 404 of the Sarbanes-Oxley Act. Management believes that the completion of the documentation and testing will have a positive effect on the controls over financial reporting.

Table of Contents

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

From time to time, the Company and its subsidiaries are subject to legal proceedings and claims in the ordinary course of business, including those identified below. The Company evaluates such matters on a case by case basis, and vigorously contests any such legal proceedings or claims which the Company believes are without merit.

On November 17, 2003, the first in a series of seven federal securities fraud class action lawsuits were filed in the United States District Court for the Southern District of California against the Company and certain of its former and present officers and directors, now consolidated as *In re PriceSmart, Inc. Securities Litigation*, Lead Case No. 03cv02260L (LSP). Six of the complaints asserted claims against (1) the Company, (2) its former President and Chief Executive Officer Gilbert Partida, and (3) its former Chief Financial Officer Allan C. Youngberg. On behalf of a proposed class of persons who purchased the Company's common stock between December 20, 2001 and November 7, 2003, plaintiffs asserted claims under Section 10(b) and Section 20(a) of the Securities Exchange Act of 1934, and SEC Rule 10b-5 promulgated thereunder, based on the allegation that defendants made material misstatements and omissions in connection with the financial statements that were the subject of a financial restatement. Plaintiffs seek damages on behalf of the proposed class.

The seventh federal securities fraud complaint, *Performance Capital L.P. v. PriceSmart, Inc.*, Case No. 03cv02561 JAH (S.D. Cal), was filed by investors who purchased the Company's Series A Preferred Stock in January 2002, as well as on behalf of a class of common stock purchasers, and added a breach of fiduciary duty claim against every then-current member of the Company's current Board of Directors, as well as a claims under Section 12(a)(2) and Section 15 of the Securities Act of 1933 relating to plaintiffs' purchase of Series A Preferred Stock. The Company refers to this litigation as the Performance Capital lawsuit. Plaintiffs sought damages on behalf of the proposed class as well as rescission of their contracts with the Company regarding the Series A Preferred Stock.

All of the federal securities actions were consolidated before The Honorable John Houston in an order dated September 9, 2004, which also appointed a lead plaintiff on behalf of the proposed class of common stock purchasers. The lead plaintiff filed a consolidated complaint on November 29, 2004, with an expanded proposed class period of November 1, 2001 to December 16, 2003.

Defendants and the plaintiffs who brought the Performance Capital lawsuit entered into a Stipulation of Settlement dated September 3, 2004, which was preliminarily approved by Judge Houston on September 30, 2004. On September 30, 2004, Judge Houston also approved a stipulation appointing the plaintiffs in the Performance Capital lawsuit as lead plaintiff for a proposed sub-class made up of certain purchasers and holders of the Company's Series A Preferred Stock, which the Company refers to as the Series A Preferred Sub-Class. On November 8, 2004, following notice to members of the Series A Preferred Sub-Class, the settlement was approved and judgment was entered. Pursuant to the settlement, the Performance Capital lawsuit has been dismissed and the Court has entered an order releasing claims that were or could have been brought by the Series A Preferred Sub-Class arising out of or relating to the purchase or ownership of the Company's Series A Preferred Stock. As a term of the settlement, members of the Series A Preferred Sub-Class were offered the opportunity to exchange their Series A Preferred Stock for shares of the Company's common stock at a conversion price of \$10.00 per share, and all members of the Series A Preferred Sub-Class accepted this offer. The Company paid attorney's fees and costs to counsel for the Performance Capital plaintiffs in the amount of \$325,000, which was covered by the Company's insurance carrier.

Defendants and the parties to the remaining class action lawsuits entered into a Memorandum of Understanding dated March 2, 2005 which sets forth the terms of a settlement of all claims, subject to confirmatory discovery and final court approval. Under the tentative settlement, in

Edgar Filing: PRICESMART INC - Form 424B3

exchange for a full release of all claims, plaintiffs would receive \$2,350,000, of which the Company's directors and officers insurance carrier

Table of Contents

would pay 80% and the Company would pay 20%, subject to discussions between the Company and the insurance carrier on the issue of whether the Company has already reached the \$1 million retention of its insurance policy.

The United States Securities and Exchange Commission (SEC) issued a formal order of private investigation on January 8, 2004 to investigate the circumstances surrounding the Company's restatement. The SEC has issued subpoenas to the Company for the production of documents and has taken testimony, pursuant to subpoena, from several of the Company's present and former employees.

The indemnification provisions contained in the Company's amended and restated certificate of incorporation and indemnification agreements between the Company and its current and former directors and officers require the Company to indemnify its current and former directors and officers who are named as defendants against the allegations contained in these suits unless the Company determines that indemnification is unavailable because the applicable current or former director or officer failed to meet the applicable standard of conduct set forth in those documents. While the Company has directors and officers liability insurance (subject to a \$1.0 million retention and a 20% co-pay provision), the Company has been informed that the Company's insurance carriers are reserving all of their rights and defenses under the policy (including the right to deny coverage) and it is otherwise uncertain whether the insurance will be sufficient to cover all damages that it may be required to pay. Further, regardless of coverage and the ultimate outcome of these suits, litigation of this type is expensive and may require that the Company devote substantial resources and management attention to defend these proceedings. Moreover, the mere presence of these lawsuits may materially harm the Company's business and reputation. The Company has and may continue to incur substantial legal and other professional service costs in connection with the stockholder lawsuits and responding to the inquiries of the SEC. The amount of any future costs in this respect cannot be determined at this time.

In July 2003, the Company's 34% minority interest shareholder in the Company's Guatemalan subsidiary (PriceSmart (Guatemala) S.A.) contended, among other things, that both the Company and the minority interest shareholder are currently entitled to receive a 15% annual return upon respective capital investments in the Guatemalan subsidiary. The Company has reviewed the claim and other pertinent information in relationship to the Guatemalan joint venture agreement, as amended, and does not concur with the minority shareholder's conclusion. The Guatemalan minority shareholder continues to assert a right to receive a 15% annual return on its capital investment. In addition, the minority shareholder has advised the Company that it believes that PriceSmart (Guatemala), S.A. has been inappropriately charged by the Company with regard to various fees, expenses and certain related matters. The Company responded that it disagrees with virtually all of these additional assertions, and the minority shareholder advised that it may commission an audit with regard to such matters. On December 13, 2004, the Company filed a Demand for Arbitration against the Guatemala minority shareholder under the UNCITRAL Rules as administered by the American Arbitration Association. By that Demand, the Company seeks a declaratory judgment that it has properly charged fees and expenses and that neither the Company nor the minority shareholder is entitled to receive a 15% annual return on capital investment. The Demand also requests a declaratory judgment with respect to certain matters relating to the operation and governance of PriceSmart (Guatemala), S.A. In February 2005, the minority shareholder filed various actions in Guatemalan courts including: 1) three separate actions on purported promissory notes totaling nearly \$2 million which do not appear on the Company's financial records; 2) an Intervenor action seeking court appointment of a third-party receiver to approve payment of accounts payable by PriceSmart (Guatemala) S.A.; 3) an action to remove the General Manager of PriceSmart (Guatemala) S.A. from her post; and 4) various criminal actions against the Company's appointed Directors of PriceSmart (Guatemala) S.A. for allegedly conducting an illegal board meeting. Although neither the Company nor PriceSmart (Guatemala) S.A. had been given advance notice of these legal actions nor of the accompanying request for a receivership, the Guatemalan courts ordered a limited receivership of PriceSmart (Guatemala) S.A. The court-appointed receiver for PriceSmart (Guatemala) S.A., who is an employee of the minority shareholder, has required PriceSmart (Guatemala) S.A. to deposit all daily receipts of cash of approximately \$80,000 per day into a strictly receiver-controlled bank account. Meanwhile, the Company continues to deliver US-sourced merchandise to the Guatemala warehouses for which the receiver is not making full payment. The amount due as of March 31, 2005

Table of Contents

is approximately \$3.4 million. On March 16, 2005, the Company successfully reversed within a few hours the minority shareholder's attempt to terminate PriceSmart (Guatemala) S.A.'s General Manager and expel certain employees from PriceSmart (Guatemala) S.A.'s office in Guatemala City. The minority shareholder may nonetheless undertake additional efforts to replace PriceSmart (Guatemala) S.A.'s General Manager with its own designee. If the minority shareholder were successful, its designee for General Manager would then be in position to admit debts purportedly owed by PriceSmart (Guatemala) S.A. to the minority shareholder under the notes, which were recently executed by a principal of the minority shareholder without the knowledge of PriceSmart (Guatemala) S.A. management or authorization of its Board of Directors. The Company vehemently disputes the minority shareholder's claims. Although Guatemalan law does not permit an expeditious judicial review of these court proceedings, the Company is vigorously opposing all such claims as well as the receivership, and has filed civil as well as criminal actions against the minority shareholder and its principal.

In addition, the Company's two minority shareholders in the Philippines (which together comprise a 48% ownership interest in the Company's Philippine operations (PSMT Philippines, Inc.)) have taken the position that an impasse of the Board of Directors of PSMT Philippines, Inc. has been reached. These minority shareholders have therefore sought to invoke the buy-sell provisions of the parties' Shareholders' Agreement (pursuant to which one shareholder may offer to purchase the interest of the other shareholders (at an appraised value) at which point the offeree shareholder may make a counter offer and the process continues until an offer is accepted). The Company contends, among other things, that pursuant to the terms of the Shareholders' Agreement no impasse has been reached (and hence the buy-sell provisions do not become applicable). On December 23, 2004, the Company filed in the San Diego Superior Court a complaint against William Go (a principal of one of the minority shareholders) and two companies affiliated with William Go, seeking to recover principal and interest due and owing to the Company of at least \$781,000, as well as an accounting with regard to sums paid by the Company to William Go and the affiliated companies, and related relief. Additionally, on December 29, 2004, William Go and the E-Class Corporation (which owns 38% of PSMT Philippines, Inc.) filed with the Trial Court in Pasig City, Manila, a complaint against those directors of PSMT Philippines, Inc. who are appointees of the Company. The complaint filed by Go and E-Class contends that the Company inappropriately transferred funds of PSMT Philippines, Inc. to the Company or otherwise inappropriately charged expenses to PSMT Philippines, Inc. The Go/E-Class complaint seeks an accounting and damages, as well as a temporary restraining order and/or preliminary injunction, and the appointment of receiver/management committee. On January 4, 2005 and on January 17, 2005, the court denied requests by Go and E-Class for a temporary restraining order. The hearing on Go's and E-Class' application for a preliminary injunction, which commenced on January 6, 2005, has concluded and the parties are now preparing written submissions to the court regarding matters referenced during the hearing. In addition, Go/E-Class have filed a criminal complaint against those directors of PSMT Philippines, Inc. who are the Company's appointees. The Company intends to vigorously defend these actions through defendants and believe that the claims are without merit.

The Company has established a net litigation reserve of \$700,000 relating to the pending settlement of the securities class action litigation and related expenses. The Company does not expect to incur losses in connection with this litigation in excess of recorded amounts.

In the case of the Guatemala and Philippines matters, the ultimate outcome is less certain. The Company has reviewed the relevant documents and does not believe that an adverse result is likely. However, in light of the uncertainty inherent in arbitration and litigation particularly in foreign jurisdictions it is possible that the outcome of these proceedings will have a material adverse effect on the Company's business, financial condition, operating results, cash flow or liquidity. The Company is unable at this time to estimate possible loss or range of loss associated with the Guatemala and Philippines matters. Further, regardless of the ultimate outcome of these suits, litigation of this type is expensive and may require the Company to devote substantial resources and management attention to these proceedings.

From time to time, the Company is involved in legal proceedings, claims and litigation arising in the ordinary course of business, the outcome of which, in the opinion of management, would not have a material adverse effect on the Company.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

Recent Sales of Unregistered Securities

On January 26, 2005, the Company entered into a Warrant Purchase Agreement with the IFC and issued to the IFC a Common Stock Purchase Warrant giving the IFC the right to purchase 400,000 shares of the Company's common stock at a price of \$7 per share. The IFC Warrant was automatically exercised with respect to 200,000 of such shares upon execution. Payment of the exercise price was made by a pro rata reduction of the principal amounts outstanding under (i) that certain C Loan Agreement, dated as of January 26, 2001, among the Company, PSMT Caribe, PSMT Trinidad and the IFC, and (ii) the A Loan (as defined in that certain Loan Agreement, dated January 26, 2001, among the Company, PSMT Caribe, PSMT Trinidad and the IFC), on a dollar-for-dollar basis. The IFC Warrant and the shares of common stock issued to the IFC upon automatic exercise of the IFC Warrant were issued in a private placement pursuant to Rule 506 under the Securities Act of 1933, as amended. The IFC has represented to the Company that it is an accredited investor and that the IFC Warrant and the shares of the Company's common stock received by it upon exercise of the IFC Warrant were acquired for its own account and not with a view to any distribution thereof to the public.

There were no other sales of unregistered securities during the quarter ended February 28, 2005, except as reported on Current Reports on Form 8-K filed during the quarter.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES

Under the terms of debt agreements to which the Company and/or one or more of its wholly-owned or majority-owned subsidiaries are parties, the Company must comply with specified financial maintenance covenants, which include among others, current ratio, debt service, interest coverage and leverage ratios. As of February 28, 2005, the Company was in compliance with all of these covenants, except for the following: (i) debt service ratio for a \$11.3 million note (with an outstanding balance of \$1.9 million at February 28, 2005), which the Company repaid in full on March 23, 2005; (ii) interest cost/EBIT (earnings before interest and taxes) ratio for a \$6.0 million note (with an outstanding balance of \$3.8 million at February 28, 2005), for which the Company has requested and received a written waiver of its noncompliance through the quarter ending May 31, 2005; and (iii) debt to equity ratio for a \$7.0 million note (with an outstanding balance of \$3.7 million at February 28, 2005), for which the Company has requested and received a written waiver of its noncompliance through the quarter ending August 31, 2005. Additionally, the Company has debt agreements, with an aggregate principal amount outstanding as of February 28, 2005 of \$26.5 million that, among other things, allow the lender to accelerate the indebtedness upon a default by the Company under other indebtedness and prohibit the Company from incurring additional indebtedness unless the Company is in compliance with specified financial ratios. As of February 28, 2005, the Company did not satisfy these ratios. As a result, the Company is prohibited from incurring additional indebtedness and would need to obtain a waiver from the lender as a condition to incurring additional indebtedness. If the Company is unsuccessful in obtaining the necessary waivers or fails to comply with these financial covenants in future periods, the lenders may elect to accelerate the indebtedness described above and foreclose on the collateral pledged to secure the indebtedness. The Company believes that, primarily as a result of the Financial Program, it has sufficient financial resources to pay-down the two above obligations that were not repaid which had maintenance covenant noncompliance as of February 28, 2005, even though the Company has obtained waivers for each of them. Accordingly, the two obligations for which the Company has received waivers are reflected in the accompanying balance sheet under the original contractual maturities and \$340,000 of the obligation the Company repaid on March 23, 2005 which was not already classified as current, was reclassified as current.

Table of Contents**ITEM 4. SUBMISSION OF MATTERS TO A VOTE OF SECURITY HOLDERS**

The Company's Annual Meeting of Stockholders was held on February 25, 2005 at the Company's headquarters in San Diego, California. Stockholders of record at the close of business on December 31, 2004 were entitled to notice of and to vote in person or by proxy at the Annual Meeting. As of the record date there were 17,525,607 shares outstanding and entitled to vote. The only matter presented for vote was the election of directors. Votes for and votes against or withheld are set forth below:

	<u>Votes For</u>	<u>Votes Against or Withheld</u>
James F. Cahill	14,248,956	152,238
Murray L. Galinson	14,248,931	152,263
Katherine L. Hensley	14,376,564	24,630
Leon C. Janks	14,376,589	24,605

ITEM 5. OTHER INFORMATION

Employment Agreements

On February 16, 2005, the Company and William J. Naylon, the Company's Executive Vice President and Chief Operating Officer, amended Mr. Naylon's employment agreement to extend his term with the Company to January 31, 2006, and increase his base annual salary to \$231,750.

On February 10, 2005, the Company and Robert M. Gans, the Company's Executive Vice President, General Counsel and Secretary, amended Mr. Gans' employment agreement to increase his base annual salary to \$250,000.

Issuance of Unregistered Equity Securities

On January 26, 2005, the Company entered into a Warrant Purchase Agreement with the IFC and issued to the IFC a Common Stock Purchase Warrant giving the IFC the right to purchase 400,000 shares of the Company's common stock at a price of \$7 per share. The IFC Warrant was automatically exercised with respect to 200,000 of such shares upon execution. Payment of the exercise price was made by a pro rata reduction of the principal amounts outstanding under (i) that certain C Loan Agreement, dated as of January 26, 2001, among the Company, PSMT Caribe, PSMT Trinidad and the IFC, and (ii) the A Loan (as defined in that certain Loan Agreement, dated January 26, 2001, among the Company, PSMT Caribe, PSMT Trinidad and the IFC), on a dollar-for-dollar basis. The IFC Warrant and the shares of common stock issued to the IFC upon automatic exercise of the IFC Warrant were issued in a private placement pursuant to Rule 506 under the Securities Act of 1933, as amended. The IFC has represented to the Company that it is an accredited investor and that the IFC Warrant and the shares of the Company's common stock received by it upon exercise of the IFC Warrant were acquired for its own account and not with a view to any distribution thereof to the public.

Factors That May Affect Future Performance

The Company had a substantial net loss in fiscal 2004, a net loss in the first six months of 2005, and may continue to incur losses in future periods. The Company incurred net losses attributable to common stockholders of approximately \$32.1 million in fiscal 2003, including asset impairment and closing cost charges, of approximately \$11.7 million, approximately \$33.3 million in fiscal 2004, including \$9.8 million of asset impairment and closing charges and approximately \$5.7 million in the first six months of fiscal 2005. The Company is seeking ways to improve sales, margins, expense controls and inventory management in an effort to return to profitability. The Company is also seeking to reduce its carrying costs by seeking alternative uses for, disposing of, or leasing buildings and fixtures from its closed warehouse clubs. However, if these efforts fail to adequately reduce costs, or if the Company's sales are less than it projects, the Company may continue to incur losses in future periods.

If the Company fails to comply with the covenants governing its indebtedness, the lenders may elect to accelerate the Company's indebtedness and foreclose on the collateral pledged to secure the indebtedness. Under the terms of debt agreements to which the Company and/or one or more of its wholly-owned or majority-owned subsidiaries are parties, the Company must comply with specified financial maintenance covenants, which include among others, current ratio, debt service, interest coverage and leverage ratios. As of February 28, 2005, the Company was in compliance with all of these covenants, except for the following: (i) debt service ratio for a \$11.3 million note (with an outstanding balance of \$1.9 million at February 28, 2005), which the Company repaid in full on March 23, 2005; (ii) interest cost/EBIT (earnings before

Edgar Filing: PRICESMART INC - Form 424B3

interest and taxes) ratio for a \$6.0 million note (with an outstanding balance of \$3.8 million at February 28, 2005), for which the Company has requested and received a written waiver of its noncompliance through the quarter ending May 31, 2005; and (iii) debt to equity ratio for a \$7.0 million note (with an outstanding balance of \$3.7 million at February 28, 2005), for which the Company has requested and received a written waiver of its noncompliance

Table of Contents

through the quarter ending August 31, 2005. The Company also has \$26.5 million of indebtedness outstanding that, upon a default by the Company under other indebtedness, allows the lender to accelerate the indebtedness and prohibits the Company from incurring additional indebtedness.

If the Company fails to comply with the covenants governing its indebtedness, the lenders may elect to accelerate the Company's indebtedness and foreclose on the collateral pledged to secure the indebtedness. In addition, if the Company fails to comply with the covenants governing its indebtedness, the Company may need additional financing in order to service or extinguish the indebtedness. Some of the Company's vendors also extend trade credit to the Company and allow payment for products upon delivery. If these vendors extend less credit to the Company or require pre-payment for products, the Company's cash requirements and financing needs may increase further. The Company may not be able to obtain financing or refinancing on terms that are acceptable to the Company, or at all.

The Company's financial performance is dependent on international operations, which exposes it to various risks. The Company's international operations account for nearly all of the Company's total sales. The Company's financial performance is subject to risks inherent in operating and expanding the Company's international membership business, which include: (i) changes in and interpretation of tariff and tax laws and regulations, as well as inconsistent enforcement of laws and regulations, (ii) the imposition of foreign and domestic governmental controls, (iii) trade restrictions, (iv) greater difficulty and costs associated with international sales and the administration of an international merchandising business, (v) thefts and other crimes, (vi) limitations on U.S. company ownership in foreign countries, (vii) product registration, permitting and regulatory compliance, (viii) volatility in foreign currency exchange rates, (ix) the financial and other capabilities of the Company's joint venturers and licensees, and (x) general political as well as economic and business conditions.

Any failure by the Company to manage its widely dispersed operations could adversely affect the Company's business. The Company began an aggressive growth strategy in April 1999, opening 20 new warehouse clubs over a two and a half year period. As of February 28, 2005, the Company had in operation 26 consolidated warehouse clubs in 12 countries and one U.S. territory (four each in Panama and the Philippines; three in Costa Rica; two each in the Dominican Republic, Guatemala, El Salvador, Honduras and Trinidad; and one each in Aruba, Barbados, Jamaica, Nicaragua and the United States Virgin Islands). The Company opened one new warehouse club in Aseana City, Metropolitan Manila, Philippines in early June 2004.

The success of the Company's business will depend to a significant degree on the Company's ability to (i) efficiently operate warehouse clubs on a profitable basis and (ii) maintain positive comparable warehouse club sales growth in the applicable markets. In addition, the Company will need to continually evaluate the adequacy of the Company's existing personnel, systems and procedures, including warehouse management and financial and inventory control. Moreover, the Company will be required to continually analyze the sufficiency of the Company's inventory distribution channels and systems and may require additional facilities in order to support the Company's operations. The Company may not adequately anticipate all the changing demands that will be imposed on these systems. An inability or failure to retain effective warehouse personnel or to update the Company's internal systems or procedures as required could have a material adverse effect on the Company's business, financial condition and results of operations.

Although the Company has taken and continues to take steps to improve significantly its internal controls, there may be material weaknesses or significant deficiencies that the Company has not yet identified. Subsequent to the completion of its audit of, and the issuance of an unqualified report on the Company's financial statements for the year ended August 31, 2003, Ernst & Young LLP issued the Company a management letter identifying deficiencies that existed in the design or operation of the Company's internal controls that it considered to be material weaknesses in the effectiveness of the Company's internal controls pursuant to standards established by the American Institute of Certified Public Accountants. The deficiencies reported by Ernst & Young LLP indicated that the Company's internal controls relating to revenue recognition

Table of Contents

did not function properly to prevent the recordation of net warehouse sales that failed to satisfy the requirements of SEC Staff Accounting Bulletin No. 101, Revenue Recognition in Financial Statements, and the Company's internal controls failed to identify that the Philippines and Guam subsidiaries failed to perform internal control functions to reconcile their accounting records to supporting detail on a timely basis. These material control weaknesses were identified during fiscal 2003 by the Company and brought to the attention of Ernst & Young LLP and the Audit Committee of the Company's Board of Directors.

The Company has taken steps to strengthen control processes in order to identify and rectify past accounting errors and to prevent the situations that resulted in the need to restate prior period financial statements from recurring. These measures may not completely eliminate the material weaknesses in the Company's internal controls identified by the Company and by Ernst & Young LLP, and the Company may have additional material weaknesses or significant deficiencies in its internal controls that neither Ernst & Young LLP nor the Company's management has yet identified. If any such material weakness were to exist, the Company may not be able to prevent or detect a material misstatement of its annual or interim consolidated financial statements. Further, despite its efforts to improve its internal control structure, the Company may not be entirely successful in remedying internal control deficiencies that were previously identified. Any failure to timely remediate control gaps discovered in the implementation of Section 404 of the Sarbanes-Oxley Act of 2002 or otherwise could harm the Company's operating results and cause investors to lose confidence in the Company's reported financial information, which could have a material adverse effect on the Company's stock price.

The Company is currently defending litigation relating to its financial restatement. Following the announcement of the restatement of its financial results for fiscal year 2002 and the first three quarters of fiscal 2003 in November 2003, the Company received notice of six class action lawsuits filed in the United States District Court, Southern District of California against it and certain of its former directors and officers purportedly brought on behalf of certain current and former holders of the Company's common stock, and a seventh class action lawsuit filed against it and certain of its former directors and officers purportedly on behalf of certain holders of the Company's Series A Preferred Stock and a class of common stock purchasers. These suits generally allege that the Company issued false and misleading statements during fiscal years 2002 and 2003 in violation of federal securities laws. All of the federal securities actions were consolidated by an order dated September 9, 2004, which also appointed a lead plaintiff on behalf of the proposed class of common stock purchasers.

On September 3, 2004, the Company entered into a Stipulation of Settlement with respect to the action brought on behalf of a purported sub-class of plaintiffs comprised of unaffiliated purchasers of the Company's Series A Preferred Stock. On November 8, 2004 the settlement was approved. Pursuant to the settlement, this action has been dismissed and the Court has entered an order releasing claims that were or could have been brought by the sub-class, arising out of or relating to the purchase or ownership of the Company's Series A Preferred Stock. Defendants and the parties to the remaining class action lawsuits entered into a Memorandum of Understanding dated March 2, 2005 which sets forth the terms of a settlement of all claims, subject to confirmatory discovery and final court approval. Under the tentative settlement, in exchange for a full release of all claims, plaintiffs would receive \$2,350,000, of which the Company's directors and officers insurance carrier would pay 80% and the Company would pay 20%, subject to discussions between the Company and the insurance carrier on the issue of whether the Company has already reached the \$1 million retention of its insurance policy. The settlement is subject to court approval and there can be no assurance that the settlement will receive such approval. If the settlement is not approved and the Company is ultimately adjudged to have violated federal securities laws, the Company may incur substantial losses as a result of an award of damages to plaintiffs, which could impair the Company's liquidity and have a material adverse effect on its business, results of operations and financial condition.

The SEC issued a formal order of private investigation on January 8, 2004 to investigate the circumstances surrounding the Company's restatement. The SEC has issued subpoenas to the Company for the production of documents and has taken testimony, pursuant to subpoena, from several of the Company's present and former employees.

Table of Contents

While the Company has directors and officers liability insurance (subject to a \$1.0 million retention and a 20% co-pay provision), the Company has been informed that the Company's insurance carriers are reserving all of their rights and defenses under the policy (including the right to deny coverage) and it is otherwise uncertain whether the insurance will be sufficient to cover all damages that it may be required to pay. Moreover, the mere presence of these lawsuits may materially harm the Company's business and reputation. The Company has and may continue to incur substantial legal and other professional service costs in connection with the stockholder lawsuits and responding to the inquiries of the SEC. The amount of any future costs in this respect cannot be determined at this time.

The Company faces significant competition. The Company's international merchandising businesses compete with exporters, wholesalers, other membership merchandisers, local retailers and trading companies in various international markets. Some of the Company's competitors may have greater resources, buying power and name recognition. There can be no assurance that additional competitors will not decide to enter the markets in which the Company operates or that the Company's existing competitors will not compete more effectively against the Company. The Company may be required to implement price reductions in order to remain competitive should any of the Company's competitors reduce prices in any of the Company's markets. Moreover, the Company's ability to operate profitably in new markets, particularly small markets, may be adversely affected by the existence or entry of competing warehouse clubs or discount retailers.

The Company faces difficulties in the shipment of and inherent risks in the importation of merchandise to its warehouse clubs. The Company's warehouse clubs import approximately 45% of the merchandise that they sell, which originate from varying countries and are transported over great distances, typically over water, which results in: (i) substantial lead times needed between the procurement and delivery of product, thus complicating merchandising and inventory control methods, as well as expense controls, (ii) the possible loss of product due to theft or potential damage to, or destruction of, ships or containers delivering goods, (iii) product markdowns as a result of it being cost prohibitive to return merchandise upon importation, (iv) product registration, tariffs, customs and shipping regulation issues in the locations the Company ships to and from, and (v) substantial ocean freight and duty costs. Moreover, each country in which the Company operates has different governmental rules and regulations regarding the importation of foreign products. Changes to the rules and regulations governing the importation of merchandise may result in additional delays or barriers in the Company's deliveries of products to its warehouse clubs or product it selects to import. For example, several of the countries in which the Company's warehouse clubs are located have imposed restrictions on the importation of some U.S. beef products because of concerns about Bovine Spongiform Encephalopathy (BSE), commonly referred to as mad cow disease. As a result of these restrictions, the sales of U.S. beef products may be impaired for the duration of these restrictions and may continue following the lifting of these restrictions because of perceptions about the safety of U.S. beef among people living in these countries. In addition, only a limited number of transportation companies service the Company's regions. The inability or failure of one or more key transportation companies to provide transportation services to the Company, any collusion among the transportation companies regarding shipping prices or terms, changes in the regulations that govern shipping tariffs or the importation of products, or any other disruption in the Company's ability to transport the Company's merchandise could have a material adverse effect on the Company's business, financial condition and results of operations.

The success of the Company's business requires effective assistance from local business people. As a result, existing disputes with minority interest shareholders or other disputes with local business people upon whom the Company depends could adversely affect the Company's business. Several of the risks associated with the Company's international merchandising business may be within the control (in whole or in part) of local business people with whom it has established formal and informal strategic relationships or may be affected by the acts or omissions of these local business people. In some cases, these local business people previously held minority interests in joint venture arrangements and now hold shares of the Company's common stock. No assurances can be provided that these local business people will effectively help the Company in their respective markets. The failure of these local business people to assist the Company in their local markets could harm the Company's business, financial condition and results of operations.

Table of Contents

In July 2003, the Company's 34% minority interest shareholder in the Company's Guatemalan subsidiary (PriceSmart (Guatemala) S.A.) contended, among other things, that both the Company and the minority interest shareholder are currently entitled to receive a 15% annual return upon respective capital investments in the Guatemalan subsidiary. The Company has reviewed the claim and other pertinent information in relationship to the Guatemalan joint venture agreement, as amended, and does not concur with the minority shareholder's conclusion. The Guatemalan minority shareholder continues to assert a right to receive a 15% annual return on its capital investment. In addition, the minority shareholder has advised the Company that it believes that PriceSmart (Guatemala), S.A. has been inappropriately charged by the Company with regard to various fees, expenses and certain related matters. The Company responded that it disagrees with virtually all of these additional assertions, and the minority shareholder advised that it may commission an audit with regard to such matters. On December 13, 2004, the Company filed a Demand for Arbitration against the Guatemala minority shareholder under the UNCITRAL Rules as administered by the American Arbitration Association. By that Demand, the Company seeks a declaratory judgment that it has properly charged fees and expenses and that neither the Company nor the minority shareholder is entitled to receive a 15% annual return on capital investment. The Demand also requests a declaratory judgment with respect to certain matters relating to the operation and governance of PriceSmart (Guatemala), S.A. In February 2005 the minority shareholder filed various actions in Guatemalan courts including: 1) three separate actions on purported promissory notes totaling nearly \$2 million which do not appear on the Company's financial records; 2) an Intervenor action seeking court appointment of a third-party receiver to approve payment of accounts payable by PriceSmart (Guatemala) S.A.; 3) an action to remove the General Manager of PriceSmart (Guatemala) S.A. from her post; and 4) various criminal actions against the Company's appointed Directors of PriceSmart (Guatemala) S.A. for allegedly conducting an illegal board meeting. Although neither the Company nor PriceSmart (Guatemala) S.A. had been given advance notice of these legal actions nor of the accompanying request for a receivership, the Guatemalan courts ordered a limited receivership of PriceSmart (Guatemala) S.A. The court-appointed receiver for PriceSmart (Guatemala) S.A., who is an employee of the minority shareholder, has required PriceSmart (Guatemala) S.A. to deposit all daily receipts of cash of approximately \$80,000 per day into a strictly receiver-controlled bank account. Meanwhile, the Company continues to deliver US-sourced merchandise to the Guatemala warehouses for which the receiver is not making full payment. The amount due as of March 31, 2005 is approximately \$3.4 million. On March 16, 2005, the Company successfully reversed within a few hours the minority shareholder's attempt to terminate PriceSmart (Guatemala) S.A.'s General Manager and expel certain employees from PriceSmart (Guatemala) S.A.'s office in Guatemala City. The minority shareholder may nonetheless undertake additional efforts to replace PriceSmart (Guatemala) S.A.'s General Manager with its own designee. If the minority shareholder were successful, its designee for General Manager would then be in position to admit debts purportedly owed by PriceSmart (Guatemala) S.A. to the minority shareholder under the notes, which were recently executed by a principal of the minority shareholder without the knowledge of PriceSmart (Guatemala) S.A. management or authorization of its Board of Directors. The Company vehemently disputes the minority shareholder's claims. Although Guatemalan law does not permit an expeditious judicial review of these court proceedings, the Company is vigorously opposing all such claims as well as the receivership, and has filed civil as well as criminal actions against the minority shareholder and its principal.

In addition, the Company's two minority shareholders in the Philippines (which together comprise a 48% ownership interest in the Company's Philippine operations (PSMT Philippines, Inc.)) have taken the position that an impasse of the Board of Directors of PSMT Philippines, Inc. has been reached. These minority shareholders have therefore sought to invoke the buy-sell provisions of the parties' Shareholders' Agreement (pursuant to which one shareholder may offer to purchase the interest of the other shareholders (at an appraised value) at which point the offeree shareholder may make a counter offer and the process continues until an offer is accepted). The Company contends, among other things, that pursuant to the terms of the Shareholders' Agreement no impasse has been reached (and hence the buy-sell provisions do not become applicable). On December 23, 2004, the Company filed in the San Diego Superior Court a complaint against William Go (a principal of one of the minority shareholders) and two companies affiliated with William Go, seeking to recover principal and interest due and owing to the Company of at least \$781,000, as well as an accounting with regard to sums paid by the Company to William Go and the affiliated companies, and related relief. Additionally, on

Table of Contents

December 29, 2004, William Go and the E-Class Corporation (which owns 38% of PSMT Philippines, Inc.) filed with the Trial Court in Pasig City, Manila, a complaint against those directors of PSMT Philippines, Inc. who are appointees of the Company. The complaint filed by Go and E-Class contends that the Company inappropriately transferred funds of PSMT Philippines, Inc. to the Company or otherwise inappropriately charged expenses to PSMT Philippines, Inc. The Go/E-Class complaint seeks an accounting and damages, as well as a temporary restraining order and/or preliminary injunction, and the appointment of receiver/management committee. On January 4, 2005 and on January 17, 2005, the court denied requests by Go and E-Class for a temporary restraining order. The hearing on Go's and E-Class' application for a preliminary injunction, which commenced on January 6, 2005, has concluded and the parties are now preparing written submissions to the court regarding matters referenced during the hearing. In addition, Go/E-Class have filed a criminal complaint against those directors of PSMT Philippines, Inc. who are the Company's appointees. The Company intends to vigorously defend these actions through defendants and believe that the claims are without merit.

Also, the Company has agreements with Banco Promerica and its affiliates (collectively Promerica) by which the Company and Promerica have issued co-branded credit cards, used primarily in its Latin American segment, that reduce the costs to the Company of credit card processing fees associated with the use of these cards in its warehouse clubs. Edgar Zurcher, who is a director of the Company, is also Chairman of the Board of Banca Promerica (Costa Rica) and is also a director of Banco Promerica (El Salvador). If, for any reason, the Company were unable to continue to offer the co-branded credit card and if the Company was unable to promptly enter into a similar program with another credit card service provider, the result would be an increase in the Company's costs and potentially a negative effect on sales.

The Company is exposed to weather and other risks associated with international operations. The Company's operations are subject to the volatile weather conditions and natural disasters such as earthquakes, typhoons and hurricanes, which are encountered in the regions in which the Company's warehouse clubs are located and which could result in significant damage to, or destruction of, or temporary closure of the Company's warehouse clubs. For example, during September 2004, while no damage was sustained from the multiple hurricanes in the Caribbean, a total of eight days of sales were lost due to selected warehouse club closures resulting from heavy rains, local flooding and government advisories to stay off the roads. Losses from business interruption may not be adequately compensated by insurance and could have a material adverse effect on the Company's business, financial condition and results of operations.

Declines in the economies of the countries in which the Company operates its warehouse clubs would harm its business. The success of the Company's operations depends to a significant extent on a number of factors that affect discretionary consumer spending, including employment rates, business conditions, consumer spending patterns and customer preferences and other economic factors in each of the Company's foreign markets. Adverse changes in these factors, and the resulting adverse impact on discretionary consumer spending, would affect the Company's growth, sales and profitability. In addition, a significant decline in these economies may lead to increased governmental ownership or regulation of the economy, higher interest rates, increased barriers to entry such as higher tariffs and taxes, and reduced demand for goods manufactured in the United States. Any general instability in the national or regional economies of the foreign countries, in which the Company currently operates, could have a material adverse effect on the Company's business, financial condition and results of operations.

A few of the Company's stockholders have control over the Company's voting stock, which will make it difficult to complete some corporate transactions without their support and may prevent a change in control. As of March 31, 2005, Robert E. Price, who is the Company's Chairman of the Board and Interim Chief Executive Officer, and Sol Price, a significant stockholder of the Company and father of Robert E. Price, together with their affiliates, comprise a group that may be deemed to beneficially own 53.3% of the Company's common stock. Because the group may be deemed to beneficially own, in the aggregate, more than 50.0% of the Company's common stock, PriceSmart is a controlled company within the meaning of Nasdaq Marketplace Rule 4350(c)(5). As a result of their beneficial ownership, these stockholders have the ability to control the

Table of Contents

outcome of all matters submitted to the Company's stockholders for approval, including the election of directors. In addition, this ownership could discourage the acquisition of the Company's common stock by potential investors and could have an anti-takeover effect, possibly depressing the trading price of the Company's common stock.

The loss of key personnel could harm the Company's business. The Company depends to a large extent on the performance of its senior management team and other key employees, such as U.S. ex-patriots in certain locations where the Company operates, for strategic business direction. The loss of the services of any members of the Company's senior management or other key employees could have a material adverse effect on the Company's business, financial condition and results of operations.

The Company is subject to volatility in foreign currency exchange. The Company, primarily through majority or wholly-owned subsidiaries, conducts operations primarily in Latin America, the Caribbean and Asia, and as such is subject to both economic and political instabilities that cause volatility in foreign currency exchange rates or weak economic conditions. As of February 28, 2004, the Company had a total of 26 consolidated warehouse clubs operating in 12 foreign countries and one U.S. territory, 19 of which operate under currencies other than the U.S. dollar. For the second quarter of fiscal 2005, approximately 79% of the Company's net warehouse sales were in foreign currencies. Also, as of February 28, 2005, the Company had three closed warehouse clubs in Mexico, through a 50/50 joint venture accounted for under the equity method of accounting, which operate under the Mexican Peso. The Company may enter into additional foreign countries in the future or open additional locations in existing countries, which may increase the percentage of net warehouse sales denominated in foreign currencies.

Foreign currencies in most of the countries where the Company operates have historically devalued against the U.S. dollar and are expected to continue to devalue. For example, the Dominican Republic experienced a net currency devaluation of 81% between the end of Fiscal 2002 and the end of fiscal 2003 and 13% (significantly higher at certain points of the year) between the end of fiscal 2003 and the end of fiscal 2004. Foreign exchange transaction losses, including repatriation of funds, which are included as part of the costs of goods sold in the consolidated statement of operations, for fiscal 2004, 2003 and 2002 were approximately \$579,000, \$605,000 and \$1.2 million, respectively.

The Company faces the risk of exposure to product liability claims, a product recall and adverse publicity. The Company markets and distributes products, including meat, dairy and other food products, from third-party suppliers, which exposes the Company to the risk of product liability claims, a product recall and adverse publicity. For example, the Company may inadvertently redistribute food products that are contaminated, which may result in illness, injury or death if the contaminants are not eliminated by processing at the foodservice or consumer level. The Company generally seeks contractual indemnification and insurance coverage from its suppliers. However, if the Company does not have adequate insurance or contractual indemnification available, product liability claims relating to products that are contaminated or otherwise harmful could have a material adverse effect on the Company's ability to successfully market its products and on the Company's business, financial condition and results of operations. In addition, even if a product liability claim is not successful or is not fully pursued, the negative publicity surrounding a product recall or any assertion that the Company's products caused illness or injury could have a material adverse effect on the Company's reputation with existing and potential customers and on the Company's business, financial condition and results of operations.

Potential future impairments under SFAS 144 could adversely affect our future results of operations and financial position. In accordance with SFAS 144, Accounting for the Impairment or Disposal of Long-Lived Assets, the Company assesses its long-lived assets for impairment annually or whenever events or changes in circumstances indicate that the carrying amount of the asset may not be recoverable. An impairment loss would be measured and recognized if the sum of the expected future discounted cash flows is less than the carrying amount of the asset. If the carrying amount of the asset were determined to be impaired, an impairment loss to write-down the carrying value of the asset to fair value by using quoted market prices when available, would be

Table of Contents

required. When a quoted market price is not available, an estimated fair value would be determined through other valuation techniques. The Company has used projected cash flows discounted to reflect the expected commercial, competitive and other factors related to its long-lived assets, and comparisons to similar asset sales and valuations by others, to estimate the fair value of its intangible assets. These future tests may result in a determination that these assets have been impaired. If at any time the Company determines that an impairment has occurred, it will be required to reflect the impaired value as a charge, resulting in a reduction in earnings in the quarter such impairment is identified and a corresponding reduction in our net asset value. A material reduction in earnings resulting from such a charge could cause the Company to fail to be profitable in the period in which the charge is taken or otherwise to fail to meet the expectations of investors and securities analysts, which could cause the price of the Company's stock to decline. For example, the Company was required to take an impairment charge pursuant to SFAS 144 of \$3.1 million related to the write down of the Company's interest in its Mexico joint venture in the fourth quarter of fiscal 2004 and a charge of \$4.5 million related to the write down of the Company's interest in its Guam and U.S. Virgin Islands subsidiaries in the fourth quarter of fiscal 2003.

The adoption of the Financial Accounting Standards Board Statement of Financial Accounting Standard No. 142, Goodwill and Other Intangible Assets could adversely affect the Company's future results of operations and financial position. In June 2001, the Financial Accounting Standards Board issued Statement of Financial Accounting Standard No. 142, Goodwill and Other Intangible Assets, which was adopted by the Company, effective September 1, 2001. Under the rules, goodwill and intangible assets deemed to have indefinite lives are not amortized but instead are subject to annual impairment tests in accordance with the Statement. As of August 31, 2002, the Company had goodwill of approximately \$23.1 million, net of accumulated amortization. The Company performed its impairment test on goodwill as of August 31, 2004 and August 31, 2003, and no impairment losses were recorded. In the future, the Company will test for impairment at least annually. Such tests may result in a determination that these assets have been impaired. If at any time the Company determines that an impairment has occurred, the Company will be required to reflect the impaired value as a part of operating income, resulting in a reduction in earnings in the period such impairment is identified and a corresponding reduction in the Company's net asset value. A material reduction in earnings resulting from such a charge could cause the Company to fail to be profitable or increase the amount of its net loss in the period in which the charge is taken or otherwise to fail to meet the expectations of investors and securities analysts, which could cause the price of the Company's stock to decline.

The Company faces increased costs and compliance risks associated with compliance with Section 404 of the Sarbanes-Oxley Act of 2002. Like many smaller public companies, the Company faces a significant impact from required compliance with Section 404 of the Sarbanes-Oxley Act of 2002. Section 404 requires management of public companies to evaluate, and the independent auditors to attest to the effectiveness of internal control over financial reporting and the evaluation performed by management. The Securities and Exchange Commission has adopted rules implementing Section 404 for public companies as well as disclosure requirements. The Public Company Accounting Oversight Board, or PCAOB, has adopted documentation and attestation standards that the independent auditors must follow in conducting its attestation under Section 404. The Company is currently preparing for, and incurring significant expenses related to compliance with Section 404. The Company incurred expenses of approximately \$1.2 million for the first six months of fiscal 2005 associated with such preparation. However, the Company and its advisors may not have adequately projected the cost or duration of implementation or planned sufficient personnel for the project, and more costs and time could be incurred than currently anticipated. Moreover, there can be no assurance that the Company will be able to effectively meet all of the requirements of Section 404 as currently known to the Company in the currently mandated timeframe. Any failure to effectively implement new or improved internal controls, or to resolve difficulties encountered in their implementation, could harm the Company's operating results, cause it to fail to meet reporting obligations, result in management's being required to give a qualified assessment of the Company's internal controls over financial reporting or the Company's independent auditors providing an adverse opinion regarding management's assessment. Any such result could cause investors to lose confidence in the Company's reported financial information, which could have a material adverse effect on the Company's stock price.

PRICESMART, INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

February 28, 2005

NOTE 1 COMPANY OVERVIEW AND BASIS OF PRESENTATION

PriceSmart, Inc.'s (PriceSmart or the Company) business consists primarily of international membership shopping warehouse clubs similar to, but smaller in size than, warehouse clubs in the United States. As of February 28, 2005, the Company had 26 consolidated warehouse clubs in operation in 12 countries and one U.S. territory (four each in Panama and the Philippines, three in Costa Rica, two each in Dominican Republic, El Salvador, Guatemala, Honduras and Trinidad and one each in Aruba, Barbados, Jamaica, Nicaragua and the United States Virgin Islands), of which the Company owns at least a majority interest. The Company also closed three warehouse clubs in Mexico as part of a 50/50 joint venture with Grupo Gigante, S.A. de C.V. There was one warehouse club in operation in Saipan, Micronesia licensed to and operated by local business people as of February 28, 2005. The Company principally operates in four segments based on geographic area.

Basis of Presentation The consolidated financial statements have been prepared on a going concern basis. The Company has an accumulated deficit of \$63.6 million and a working capital surplus of \$38.3 million as of February 28, 2005. For the six months ended February 28, 2005, the Company had a net loss attributable to common stockholders of \$5.7 million and generated cash in operating activities of \$7.1 million. At February 28, 2005, the Company was not in compliance with certain maintenance covenants related to certain long-term debt arrangements. The Company has obtained all necessary waivers for covenant violations as of August 31, 2004, and two waivers as of February 28, 2005. The Company's ability to fund its operations and service debt during fiscal 2005 has been improved following the implementation of the Financial Program, as described in Note 6 Financial Program. Management believes that its existing working capital, together with the Financial Program, is sufficient to fund its operations through at least August 31, 2005.

Table of Contents**NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

Principles of Consolidation The consolidated interim financial statements of the Company included herein include the assets, liabilities and results of operations of the Company's majority and wholly-owned subsidiaries as listed below. All significant intercompany accounts and transactions have been eliminated in consolidation. The consolidated interim financial statements have been prepared by the Company without audit, pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"), and reflect all adjustments (consisting of normal recurring adjustments) that are, in the opinion of management, necessary to fairly present the financial position, results of operations, and cash flows for the interim periods presented. Certain information and footnote disclosures normally included in consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States have been condensed or omitted pursuant to such SEC rules and regulations. Management believes that the disclosures made are adequate to make the information presented not misleading. The results for interim periods are not necessarily indicative of the results for the full year. The interim financial statements should be read in conjunction with the consolidated financial statements and related notes included in the Company's Form 10-K for the year ended August 31, 2004.

Ventures Services, Inc.	100.0%	Consolidated

Use of Estimates The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Cash and Cash Equivalents Cash and cash equivalents represent cash and short-term investments with maturities of three months or less when purchased.

Restricted Cash Short-term restricted cash primarily represents time deposits that are pledged as collateral for the Company's revolving line of credit and long-term restricted cash represents time deposits that are pledged as collateral for the Company's long-term debt.

Merchandise Inventories Merchandise inventories, which include merchandise for resale, are valued at the lower of cost (average cost) or market. The Company provides for estimated inventory losses and obsolescence between physical inventory counts on the basis of a percentage of sales. The provision is adjusted periodically to reflect the trend of actual physical inventory count results, which occur primarily in the second and fourth fiscal quarters. In addition, the Company may be required to take markdowns below the carrying cost of certain inventory to expedite the sale of such merchandise.

Table of Contents

Allowance for Bad Debt Credit is extended to a portion of members as part of the Company's wholesale business and to third-party wholesalers for direct sales. The Company maintains an allowance for doubtful accounts based on assessments as to the collectibility of specific customer accounts, the aging of accounts receivable, and general economic conditions. As of February 28, 2005, the Company had a total of approximately \$645,000 in net receivables due from a minority interest shareholder's importation and exportation businesses, which is included in accounts receivable on the consolidated financial statements. The Company previously utilized the importation and exportation businesses of one of its minority shareholders in the Philippines for the movement of merchandise inventories both to and from the Asian regions to its warehouse clubs operating in Asia. If the credit worthiness of a specific customer or the minority interest shareholder deteriorates, the Company's estimates could change and it could have a material impact on the Company's reported results.

Property and Equipment Property and equipment are stated at cost. Depreciation is computed on a straight-line basis over the estimated useful lives of the assets. The useful life of fixtures and equipment ranges from 3 to 15 years and that of buildings from 10 to 25 years. Leasehold improvements are amortized over the shorter of the life of the improvement or the expected term of the lease. In some locations, leasehold improvements are amortized over a period longer than the initial lease term as management believes it is reasonably assured that the renewal option in the underlying lease will be exercised.

Impairment of Long-Lived Assets The Company periodically evaluates its long-lived assets for indicators of impairment. Management's judgments are based on market and operational conditions at the time of the evaluation. Future events could cause management to conclude that impairment factors exist, requiring an adjustment of these assets to their then-current fair market value. Future circumstances may result in the amount recognized upon the disposal of the property to differ substantially from the estimates.

Revenue Recognition The Company recognizes sales revenue when title passes to the customer. Membership fee income represents annual membership fees paid by the Company's warehouse members, which are recognized over the 12-month term of the membership. The historical membership fee refunds have been minimal and, accordingly, no reserve has been established for membership refunds for the periods presented.

Cost of Goods Sold The Company includes the cost of merchandise, food service and bakery raw materials, and one hour photo supplies in cost of goods sold. Also included are the distribution and handling costs (either internal or external) for supplying that merchandise, raw materials, and supplies to the warehouse clubs including inbound freight, duties, drayage, fees and insurance.

Selling, General and Administration Warehouse operations include the operating costs of the Company's warehouse clubs including all payroll and related costs, utilities, consumable supplies, repair and maintenance, rent expense, building and equipment depreciation, and bank and credit card processing fees. Also included are the payroll and related costs for the Company's regional management centers.

General and Administrative costs include the payroll and related operating costs for the Company's corporate operations located in California and Florida.

Pre-Opening Costs The Company expenses pre-opening costs (the costs of start-up activities, including organization costs) as incurred.

Closure Costs The Company records the costs of closing warehouse clubs as follows: severance costs are accrued when a termination and benefit plan is communicated to the employees; lease obligations are accrued at the cease use date by calculating the net present value of the minimum lease payments net of the fair market value of rental income that could be received for these properties from third parties; all other

Edgar Filing: PRICESMART INC - Form 424B3

costs are expensed as incurred. During fiscal year 2004, the Company closed one warehouse club and three during fiscal year 2003.

Foreign Currency Translation In accordance with Statement of Financial Accounting Standards No. 52 Foreign Currency Translation, the assets and liabilities of the Company's foreign operations are primarily

Table of Contents

translated to U.S. dollars using the exchange rates at the balance sheet date and revenues and expenses are translated at average rates prevailing during the period. Related translation adjustments are recorded as a component of accumulated comprehensive loss.

Stock-Based Compensation As of February 28, 2005, the Company had four stock-based employee compensation plans. Prior to September 1, 2002, the Company accounted for those plans under the recognition and measurement provisions of Accounting Principles Board Opinion No. 25, Accounting for Stock Issued to Employees, and related interpretations. Effective September 1, 2002, the Company adopted the fair value recognition provisions of SFAS No. 123 (SFAS 123), Accounting for Stock-Based Compensation, using the prospective method with guidance from SFAS No. 148, Accounting for Stock-Based Compensation Transition and Disclosure, to all employee awards granted, modified, or settled after September 1, 2002. Awards under the Company's plans typically vest over five years and expire in six years. The cost related to stock-based employee compensation included in the determination of net income for the six months ended February 28, 2005 and February 29, 2004 is less than that which would have been recognized if the fair value based method had been applied to all awards since the original effective date of SFAS 123.

The following table illustrates the effect on net loss and loss per share if the fair value based method had been applied to all outstanding and unvested awards each period (in thousands, except per share data):

	<u>Three Months Ended</u>		<u>Six Months Ended</u>	
	<u>February 28, 2005</u>	<u>February 29, 2004</u>	<u>February 28, 2005</u>	<u>February 29, 2004</u>
Net loss attributable to common stockholders, as reported	\$ (3,188)	\$ (4,503)	\$ (5,712)	\$ (11,484)
Add: Stock-based employee compensation expense included in reported net loss, net of related tax effects	310	165	545	299
Deduct: Total stock-based employee compensation expense determined under fair value based method for all awards, net of related tax effects	(688)	(668)	(1,301)	(1,305)
Pro forma net loss	\$ (3,566)	\$ (5,006)	\$ (6,468)	\$ (12,490)
Loss per share:				
Basic-as reported	\$ (0.16)	\$ (0.61)	\$ (0.38)	\$ (1.59)
Basic-pro forma	\$ (0.18)	\$ (0.68)	\$ (0.43)	\$ (1.73)
Diluted-as reported	\$ (0.16)	\$ (0.61)	\$ (0.38)	\$ (1.59)
Diluted-pro forma	\$ (0.18)	\$ (0.68)	\$ (0.43)	\$ (1.73)

Accounting Pronouncements During December 2004, the Financial Accounting Standards Board (FASB) issued Statement No. 123R, Share-Based Payment (SFAS 123R), which requires companies to measure and recognize compensation expense for all stock-based payments at fair value. Stock-based payments include stock option grants. The Company grants options to purchase common stock to some of its employees and directors under various plans at prices equal to the market value of the stock on the dates the options were granted. SFAS 123R is effective for all interim or annual periods beginning after June 15, 2005. Early adoption is encouraged and retroactive application of the provisions of FAS 123R to the beginning of the fiscal year that includes the effective date is permitted, but not required. The Company has not yet adopted this pronouncement and is currently evaluating the expected impact that the adoption of SFAS 123R will have on its consolidated financial position, results of operations and cash flows.

In December 2004, the FASB issued Staff Position No. SFAS 109-2, Accounting and Disclosure Guidance for the Foreign Earnings Repatriation Provision within the American Jobs Creation Act of 2004 (SFAS 109-2). The American Jobs Creation Act of 2004 introduces a special one-time dividends-received deduction on the repatriation of certain foreign earnings to a U.S. taxpayer, provided certain criteria are met. SFAS 109-2 provides accounting and disclosure guidance for the repatriation provision, and was effective immediately upon issuance. The Company has not

yet adopted this pronouncement and is currently evaluating the expected impact

Table of Contents

that the adoption of SFAS 109-2 will have on its consolidated financial position, results of operations and cash flows.

In November 2004, the FASB issued SFAS No. 151, *Inventory Costs- An Amendment of ARB No. 43, Chapter 4* (SFAS 151). SFAS 151 clarifies that abnormal amounts of idle facility expense, freight, handling costs and spoilage should be expensed as incurred and not included in overhead. Further, SFAS 151 requires that allocation of fixed and production facilities overheads to conversion costs should be based on normal capacity of the production facilities. The provisions in this statement are effective for inventory costs incurred during fiscal periods beginning after June 15, 2005. The Company has not yet adopted this pronouncement and is currently evaluating the expected impact that the adoption of SFAS 151 will have on its consolidated financial position, results of operations and cash flows.

In November 2004, the FASB issued SFAS No. 153, *Exchanges of Non-monetary Assets- An Amendment of APB No. 29* (SFAS 153). The provisions of this statement are effective for non-monetary asset exchanges occurring in fiscal periods beginning after June 15, 2005. This statement eliminates the exception to fair value for exchanges of similar productive assets and replaces it with a general exception for exchange transactions that do not have commercial substance- that is, transactions that are not expected to result in significant changes in the cash flows of the reporting entity. The Company has not yet adopted this pronouncement and is currently evaluating the expected impact that the adoption of SFAS 153 will have on its consolidated financial position, results of operations and cash flows.

Reclassifications Certain amounts in the prior period consolidated financial statements have been reclassified to conform to current period presentation.

NOTE 3 PROPERTY AND EQUIPMENT

Property and equipment consist of the following (in thousands):

	February 28, 2005	August 31, 2004
Land	\$ 37,065	\$ 34,068
Building and improvements	126,842	125,621
Fixtures and equipment	70,456	67,003
Construction in progress	1,340	241
	235,703	226,933
Less: accumulated depreciation	(59,006)	(53,513)
Property and equipment, net	\$ 176,697	\$ 173,420

Building and improvements includes gross capitalized interest costs of \$1.6 million as of February 28, 2005 and August 31, 2004.

Table of Contents**NOTE 4 LOSS PER SHARE**

Basic loss per share is computed based on the weighted average common shares outstanding in the period. Diluted loss per share is computed based on the weighted average common shares outstanding in the period and the effect of dilutive securities (options, preferred stock, warrants and rights) except where the inclusion is antidilutive (in thousands, except per share data):

	Three Months Ended		Six Months Ended	
	February 28, 2005	February 29, 2004	February 28, 2005	February 29, 2004
Loss attributable to common stockholders	\$ (3,188)	\$ (4,503)	\$ (5,712)	\$ (11,484)
Determination of shares:				
Average common shares outstanding	20,014	7,362	15,136	7,220
Assumed conversion of:				
Stock options(1)				
Preferred stock(1)				
Warrants(1)				
Rights(1)				
Diluted average common shares outstanding	20,014	7,362	15,136	7,220
Net loss attributable to common stockholders:				
Basic loss per share	\$ (0.16)	\$ (0.61)	\$ (0.38)	\$ (1.59)
Diluted loss per share	\$ (0.16)	\$ (0.61)	\$ (0.38)	\$ (1.59)

- (1) Because the Company incurred losses for the three and six months ended February 28, 2005 and February 29, 2004, the effect of dilutive securities totaling 87,045 and 93,068 equivalent shares for the three and six months ended February 28, 2005, respectively, and 732 and 7,526 equivalent shares for the three and six months ended February 29, 2004, respectively, have been excluded from the net loss per share computations as their impact would be antidilutive.

NOTE 5 CLOSURE COSTS

During fiscal 2003 and 2004, the Company closed four warehouse clubs, one each in Dominican Republic, Philippines, Guatemala and Guam and its Commerce, California distribution center. The decision to close these warehouse clubs resulted from the determination that the locations were not conducive to the successful operation of a PriceSmart warehouse club.

A reconciliation of the movements in the changes and related liabilities derived from the closed warehouse clubs as of February 28, 2005 is as follows (in thousands):

Edgar Filing: PRICESMART INC - Form 424B3

	<u>Liability as of August 31, 2004</u>	<u>Charged to Expense</u>	<u>Non-cash Amounts</u>	<u>Cash paid</u>	<u>Liability as of February 28, 2005</u>
Lease obligations	\$ 5,226	154		(721)	\$ 4,659
Other associated costs	94	424	(58)	(372)	88
Total	\$ 5,320	578	(58)	(1,093)	\$ 4,747

Table of Contents

NOTE 6 FINANCIAL PROGRAM

On September 3, 2004, the Company announced a plan to implement a series of transactions (the Financial Program) that are intended to increase PriceSmart's earnings (or decrease its losses) by substantially reducing the Company's interest expenses and preferred dividend obligations. Additionally, the capital that has been and is expected to be received through the Financial Program is expected to help improve the Company's liquidity, which is expected to result in more attractive terms from vendors. The Financial Program was approved by the stockholders on October 29, 2004. The elements of the Financial Program and the status of each element are as follows:

A private placement of an aggregate of 3,164,726 shares of the Company's common stock, at a price of \$8 per share, to The Price Group, LLC, a California limited liability company (the Price Group), to be funded through the conversion of a \$25.0 million bridge loan, together with accrued and unpaid interest, extended to the Company by the Price Group in August 2004. The private placement was completed on October 29, 2004, resulting in the issuance of 3,164,726 shares of the Company's common stock.

The issuance of an aggregate of 2,200,000 shares of Common Stock to the Sol and Helen Price Trust, the Price Family Charitable Fund, the Robert and Allison Price Charitable Remainder Trust, the Robert and Allison Price Trust 1/10/75 (collectively, the Price Trusts) and the Price Group (collectively, with the Price Trusts, the Series B Holders) in exchange for all of the outstanding shares of the Company's 8% Series B Cumulative Convertible Redeemable Preferred Stock. This exchange was completed on October 29, 2004, resulting in the issuance of 2,200,000 shares of the Company's common stock.

The issuance of an aggregate of 2,597,200 shares of Common Stock, valued for such purpose at a price of \$8 per share, to the Price Group in exchange for up to \$20.0 million of current obligations, plus accrued and unpaid interest, owed by the Company to the Price Group. This exchange was completed on October 29, 2004, resulting in the issuance of 2,597,200 shares of the Company's common stock.

The issuance of up to 16,052,668 shares of Common Stock in connection with a rights offering pursuant to rights to be distributed to the holders of outstanding shares of Common Stock, and the issuance of up to 3,125,000 shares of Common Stock, at a price of \$8 per share, to the Price Group to ensure that the above-mentioned rights offering generates at least \$25.0 million in proceeds. The \$7 rights offering subscription period began on December 21, 2004 and ended on January 24, 2005. A total of 6,827,542 shares of common stock were sold during this period. The total proceeds were \$47.8 million. The \$8 rights offering period began on January 25, 2005 and continues until December 21, 2005. No \$8 rights have yet been exercised.

The issuance of up to 2,223,104 shares of Common Stock to exchange Common Stock, valued for such purpose at a price of \$10 per share, to the holders of all of the shares of the Company's 8% Series A Cumulative Convertible Redeemable Preferred Stock, in exchange for all of the outstanding shares of the Series A Preferred Stock at its initial stated value of \$20.0 million plus all accrued and unpaid dividends. This was completed on November 23, 2004, resulting in the issuance of 2,223,104 shares of common stock.

An amendment to the Amended and Restated Certificate of Incorporation of the Company to increase the number of authorized shares of Common Stock from 20,000,000 to 45,000,000 shares, which was approved by the Company's stockholders on October 29, 2004.

Also on October 29, 2004, The Price Group LLC, other Price-related entities and the San Diego Foundation in connection with the private placement, current obligation exchange and Series B Preferred Stock exchange described above, filed with the Securities and Exchange

Edgar Filing: PRICESMART INC - Form 424B3

Commission an amended Schedule 13D disclosing that their group beneficially owns greater than 50% of the Company's outstanding shares of common stock. As a result, the Company is a controlled company within the meaning of Nasdaq Marketplace Rule 4350(c)(5). Depending upon the extent to which the rights offering is subscribed by the Company's stockholders, the Company may continue to be a controlled company following the completion of the rights offering.

Table of Contents

In connection with the Financial Program described above, the Company and certain of its subsidiaries entered into the following agreements in the first fiscal quarter of 2005 with the International Finance Corporation (the "IFC"): (i) to grant the IFC a warrant to purchase 400,000 shares of the Company's common stock at a price of \$7 per share; (ii) the Company purchased a \$10.2 million loan extended to PriceSmart Philippines, Inc.; (iii) the Company obtained a waiver of certain IFC loan covenants regarding incurring additional debt, in order to borrow the \$25.0 million in the bridge loan mentioned above; (iv) \$5.2 million of restricted cash pledged as collateral to certain loans was released; (v) all pre-payment penalties were waived for all outstanding loans from the IFC; (vi) the net carrying costs was reduced on one loan, by eliminating the IFC's right to a percentage of the Company's earnings, before interest, taxes, depreciation and amortization. Additionally, in connection with the agreements with the IFC, the Price Group (a related party to the Company) granted a put option giving the right to the IFC to sell 300,000 shares of Common Stock to the Price Group at a price of \$12 per share between November 30, 2005 and November 30, 2006. All of the above elements were completed during the Company's first quarter of fiscal 2005 with the exception of item (i), which was agreed to in principal although no warrants were pending a final written agreement related to the put option between the IFC and the Price Group. The agreements were finalized in the second quarter of fiscal 2005, and the warrant was exercised with respect to 200,000 shares of the Company's common stock on January 26, 2005. Pursuant to the terms of the warrant, the exercise price was paid by reducing the principal amount of two of the loans extended to the Company by the IFC. As a result, long-term debt was reduced by \$1.4 million.

NOTE 7 COMMITMENTS AND CONTINGENCIES

From time to time, the Company and its subsidiaries are subject to legal proceedings and claims in the ordinary course of business, including those identified below. The Company evaluates such matters on a case by case basis, and vigorously contests any such legal proceedings or claims which the Company believes are without merit.

On November 17, 2003, the first in a series of seven federal securities fraud class action lawsuits were filed in the United States District Court for the Southern District of California against the Company and certain of its former and present officers and directors, now consolidated as *In re PriceSmart, Inc. Securities Litigation*, Lead Case No. 03cv02260L (LSP). Six of the complaints asserted claims against (1) the Company, (2) the former President and Chief Executive Officer Gilbert Partida, and (3) the former Chief Financial Officer Allan C. Youngberg. On behalf of a proposed class of persons who purchased the Company's common stock between December 20, 2001 and November 7, 2003, plaintiffs asserted claims under Section 10(b) and Section 20(a) of the Securities Exchange Act of 1934, and SEC Rule 10b-5 promulgated thereunder, based on the allegation that defendants made material misstatements and omissions in connection with the financial statements that were the subject of a financial restatement. Plaintiffs seek damages on behalf of the proposed class.

The seventh federal securities fraud complaint, *Performance Capital L.P. v. PriceSmart, Inc.*, Case No. 03cv02561 JAH (S.D. Cal), was filed by investors who purchased the Company's Series A Preferred Stock in January 2002, as well as on behalf of a class of common stock purchasers, and added a breach of fiduciary duty claim against every then-current member of the Company's current Board of Directors, as well as a claims under Section 12(a)(2) and Section 15 of the Securities Act of 1933 relating to plaintiffs' purchase of Series A Preferred Stock. The Company refers to this litigation as the Performance Capital lawsuit. Plaintiffs sought damages on behalf of the proposed class as well as rescission of their contracts with the Company regarding the Series A Preferred Stock.

All of the federal securities actions were consolidated before The Honorable John Houston in an order dated September 9, 2004, which also appointed a lead plaintiff on behalf of the proposed class of common stock purchasers. The lead plaintiff filed a consolidated complaint on November 29, 2004, with an expanded proposed class period of November 1, 2001 to December 16, 2003.

Defendants and the plaintiffs who brought the Performance Capital lawsuit entered into a Stipulation of Settlement dated September 3, 2004, which was preliminarily approved by Judge Houston on September 30,

Table of Contents

2004. On September 30, 2004, Judge Houston also approved a stipulation appointing the plaintiffs in the Performance Capital lawsuit as lead plaintiff for a proposed sub-class made up of certain purchasers and holders of the Company's Series A Preferred Stock, which the Company refers to as the Series A Preferred Sub-Class. On November 8, 2004, following notice to members of the Series A Preferred Sub-Class, the settlement was approved and judgment was entered. Pursuant to the settlement, the Performance Capital lawsuit has been dismissed and the Court has entered an order releasing claims that were or could have been brought by the Series A Preferred Sub-Class arising out of or relating to the purchase or ownership of the Company's Series A Preferred Stock. As a term of the settlement, members of the Series A Preferred Sub-Class were offered the opportunity to exchange their Series A Preferred Stock for shares of the Company's common stock at a conversion price of \$10.00 per share, and all members of the Series A Preferred Sub-Class accepted this offer. The Company paid attorney's fees and costs to counsel for the Performance Capital plaintiffs in the amount of \$325,000, which was covered by the Company's insurance carrier.

Defendants and the parties to the remaining class action lawsuits entered into a Memorandum of Understanding dated March 2, 2005 which sets forth the terms of a settlement of all claims subject to confirmatory discovery and final court approval. Under the tentative settlement, in exchange for a full release of all claims, plaintiffs would receive \$2,350,000, of which the Company's directors and officers insurance carrier would pay 80% and the Company would pay 20%, subject to discussions between the Company and the insurance carrier on the issue of whether the Company has already reached the \$1 million retention of its insurance policy.

The United States Securities and Exchange Commission (SEC) issued a formal order of private investigation on January 8, 2004 to investigate the circumstances surrounding the Company's restatement. The SEC has issued subpoenas to the Company for the production of documents and has taken testimony, pursuant to subpoena, from several of the Company's present and former employees.

The indemnification provisions contained in the Company's amended and restated certificate of incorporation and indemnification agreements between the Company and its current and former directors and officers require the Company to indemnify its current and former directors and officers who are named as defendants against the allegations contained in these suits unless the Company determines that indemnification is unavailable because the applicable current or former director or officer failed to meet the applicable standard of conduct set forth in those documents. While the Company has directors and officers liability insurance (subject to a \$1.0 million retention and a 20% co-pay provision), the Company has been informed that the Company's insurance carriers are reserving all of their rights and defenses under the policy (including the right to deny coverage) and it is otherwise uncertain whether the insurance will be sufficient to cover all damages that it may be required to pay. Further, regardless of coverage and the ultimate outcome of these suits, litigation of this type is expensive and may require that the Company devote substantial resources and management attention to defend these proceedings. Moreover, the mere presence of these lawsuits may materially harm the Company's business and reputation. The Company has and may continue to incur substantial legal and other professional service costs in connection with the stockholder lawsuits and responding to the inquiries of the SEC. The amount of any future costs in this respect cannot be determined at this time.

In July 2003, the Company's 34% minority interest shareholder in the Company's Guatemalan subsidiary (PriceSmart (Guatemala) S.A.) contended, among other things, that both the Company and the minority interest shareholder are currently entitled to receive a 15% annual return upon respective capital investments in the Guatemalan subsidiary. The Company has reviewed the claim and other pertinent information in relationship to the Guatemalan joint venture agreement, as amended, and does not concur with the minority shareholder's conclusion. The Guatemalan minority shareholder continues to assert a right to receive a 15% annual return on its capital investment. In addition, the minority shareholder has advised the Company that it believes that PriceSmart (Guatemala), S.A. has been inappropriately charged by the Company with regard to various fees, expenses and certain related matters. The Company responded that it disagrees with virtually all of these additional assertions, and the minority shareholder advised that it may commission an audit with regard to such

Table of Contents

matters. On December 13, 2004, the Company filed a Demand for Arbitration against the Guatemala minority shareholder under the UNCITRAL Rules as administered by the American Arbitration Association. By that Demand, the Company seeks a declaratory judgment that it has properly charged fees and expenses and that neither the Company nor the minority shareholder is entitled to receive a 15% annual return on capital investment. The Demand also requests a declaratory judgment with respect to certain matters relating to the operation and governance of PriceSmart (Guatemala), S.A. In February 2005 the minority shareholder filed various actions in Guatemalan courts including: 1) three separate actions on purported promissory notes totaling nearly \$2 million which do not appear on the Company's financial records; 2) an Intervenor action seeking court appointment of a third-party receiver to approve payment of accounts payable by PriceSmart (Guatemala) S.A.; 3) an action to remove the General Manager of PriceSmart (Guatemala) S.A. from her post; and 4) various criminal actions against the Company's appointed Directors of PriceSmart (Guatemala) S.A. for allegedly conducting an illegal board meeting. Although neither the Company nor PriceSmart (Guatemala) S.A. had been given advance notice of these legal actions nor of the accompanying request for a receivership, the Guatemalan courts ordered a limited receivership of PriceSmart (Guatemala) S.A. The court-appointed receiver for PriceSmart (Guatemala) S.A., who is an employee of the minority shareholder, has required PriceSmart (Guatemala) S.A. to deposit all daily receipts of cash of approximately \$80,000 per day into a strictly receiver-controlled bank account. Meanwhile, the Company continues to deliver US-sourced merchandise to the Guatemala warehouses for which the receiver is not making full payment. The amount due as of March 31, 2005 is approximately \$3.4 million. On March 16, 2005, the Company successfully reversed within a few hours the minority shareholder's attempt to terminate PriceSmart (Guatemala) S.A.'s General Manager and expel certain employees from PriceSmart (Guatemala) S.A.'s office in Guatemala City. The minority shareholder may nonetheless undertake additional efforts to replace PriceSmart (Guatemala) S.A.'s General Manager with its own designee. If that the minority shareholder were successful, its designee for General Manager would then be in position to admit debts purportedly owed by PriceSmart (Guatemala) S.A. to the minority shareholder under the notes, which were recently executed by a principal of the minority shareholder without the knowledge of PriceSmart (Guatemala) S.A. management or authorization of its Board of Directors. The Company vehemently disputes the minority shareholder's claims. Although Guatemalan law does not permit an expeditious judicial review of these court proceedings, the Company is vigorously opposing all such claims as well as the receivership, and has filed civil as well as criminal actions against the minority shareholder and its principal.

In addition, the Company's two minority shareholders in the Philippines (which together comprise a 48% ownership interest in the Company's Philippine operations (PSMT Philippines, Inc.)) have taken the position that an impasse of the Board of Directors of PSMT Philippines, Inc. has been reached. These minority shareholders have therefore sought to invoke the buy-sell provisions of the parties' Shareholders' Agreement (pursuant to which one shareholder may offer to purchase the interest of the other shareholders (at an appraised value) at which point the offeree shareholder may make a counter offer and the process continues until an offer is accepted). The Company contends, among other things, that pursuant to the terms of the Shareholders' Agreement no impasse has been reached (and hence the buy-sell provisions do not become applicable). On December 23, 2004, the Company filed in the San Diego Superior Court a complaint against William Go (a principal of one of the minority shareholders) and two companies affiliated with William Go, seeking to recover principal and interest due and owing to the Company of at least \$781,000, as well as an accounting with regard to sums paid by the Company to William Go and the affiliated companies, and related relief. Additionally, on December 29, 2004, William Go and the E-Class Corporation (which owns 38% of PSMT Philippines, Inc.) filed with the Trial Court in Pasig City, Manila, a complaint against those directors of PSMT Philippines, Inc. who are appointees of the Company. The complaint filed by Go and E-Class contends that the Company inappropriately transferred funds of PSMT Philippines, Inc. to the Company or otherwise inappropriately charged expenses to PSMT Philippines, Inc. The Go/E-Class complaint seeks an accounting and damages, as well as a temporary restraining order and/or preliminary injunction, and the appointment of receiver/management committee. On January 4, 2005 and on January 17, 2005, the court denied requests by Go and E-Class for a temporary restraining order. The hearing on Go's and E-Class' application for a preliminary injunction, which commenced on January 6, 2005, has concluded and the parties are now preparing written submissions to the court regarding matters referenced during the hearing. In addition, Go/E-Class have filed a criminal complaint against those

Table of Contents

directors of PSMT Philippines, Inc. who are the Company's appointees. The Company intends to vigorously defend these actions through defendants and believe that the claims are without merit.

The Company has established a net litigation reserve of \$700,000 relating to the pending settlement of the securities class action litigation and related expenses. The Company does not expect to incur losses in connection with this litigation in excess of recorded amounts.

In the case of the Guatemala and Philippines matters, the ultimate outcome is less certain. The Company has reviewed the relevant documents and does not believe that an adverse result is likely. However, in light of the uncertainty inherent in arbitration and litigation particularly in foreign jurisdictions it is possible that the outcome of these proceedings will have a material adverse effect on the Company's business, financial condition, operating results, cash flow or liquidity. The Company is unable at this time to estimate possible loss or range of loss associated with the Guatemala and Philippines matters. Further, regardless of the ultimate outcome of these suits, litigation of this type is expensive and may require the Company to devote substantial resources and management attention to these proceedings.

From time to time, the Company is involved in legal proceedings, claims and litigation arising in the ordinary course of business, the outcome of which, in the opinion of management, would not have a material adverse effect on the Company.

NOTE 8 SHORT-TERM BORROWINGS AND LONG-TERM DEBT

As of February 28, 2005 and August 31, 2004, the Company, together with its majority or wholly-owned subsidiaries, had \$5.2 million and \$13.4 million, respectively, outstanding in short-term borrowings, at weighted-average interest rates of 9.2% and 8.9%, respectively, which are secured by certain assets of the Company and its subsidiaries and are guaranteed by the Company up to its respective ownership percentage. Each of the facilities expires during the year and is typically renewed. As of February 28, 2005 and August 31, 2004, the Company had approximately \$11.0 million and \$6.3 million available on these facilities, respectively.

Additionally, the Company has a bank credit agreement for up to \$7.0 million, which can be used as a line of credit or to issue letters of credit. As of February 28, 2005, letters of credit and lines of credit totaling \$4.6 million were outstanding under this facility, leaving availability under this facility of \$2.4 million.

As of February 28, 2005 and August 31, 2004, the Company, together with its majority or wholly-owned subsidiaries, had \$75.8 million and \$123.6 million, respectively, outstanding in long-term borrowings. The Company's long-term debt is collateralized by certain land, building, fixtures, equipment and shares of each respective subsidiary and guaranteed by the Company up to its respective ownership percentage, except for approximately \$24.9 million and \$28.4 million, respectively, as of February 28, 2005 and August 31, 2004, which is secured by collateral deposits included in restricted cash on the balance sheet and letters of credit. The carrying amount of the assets collateralized was \$71.0 million and \$105.2 million as of February 28, 2005 and August 31, 2004, respectively. Certain obligations under leasing arrangements are collateralized by the underlying asset being leased.

Under the terms of debt agreements to which the Company and/or one or more of its wholly-owned or majority-owned subsidiaries are parties, the Company must comply with specified financial maintenance covenants, which include among others, current ratio, debt service, interest coverage and leverage ratios. As of February 28, 2005, the Company was in compliance with all of these covenants, except for the following: (i) debt service ratio for a \$11.3 million note (with an outstanding balance of \$1.9 million at February 28, 2005), which the Company repaid in full

Edgar Filing: PRICESMART INC - Form 424B3

on March 23, 2005; (ii) interest cost/EBIT (earnings before interest and taxes) ratio for a \$6.0 million note (with an outstanding balance of \$3.8 million at February 28, 2005), for which the Company has requested and received a written waiver of its noncompliance through the quarter ending May 31, 2005; and (iii) debt to equity ratio for a \$7.0 million note (with an outstanding balance of \$3.7 million at

Table of Contents

February 28, 2005), for which the Company has requested and received a written waiver of its noncompliance through the quarter ending August 31, 2005. Additionally, the Company has debt agreements, with an aggregate principal amount outstanding as of February 28, 2005 of \$26.5 million that, among other things, allow the lender to accelerate the indebtedness upon a default by the Company under other indebtedness and prohibit the Company from incurring additional indebtedness unless the Company is in compliance with specified financial ratios. As of February 28, 2005, the Company did not satisfy these ratios. As a result, the Company is prohibited from incurring additional indebtedness and would need to obtain a waiver from the lender as a condition to incurring additional indebtedness. If the Company is unsuccessful in obtaining the necessary waivers or fails to comply with these financial covenants in future periods, the lenders may elect to accelerate the indebtedness described above and foreclose on the collateral pledged to secure the indebtedness. The Company believes that, primarily as a result of the Financial Program, it has sufficient financial resources to pay-down the two above obligations that were not repaid which had maintenance covenant noncompliance as of February 28, 2005, even though the Company has obtained waivers for each of them. Accordingly, the two obligations for which the Company has received waivers are reflected in the accompanying balance sheet under the original contractual maturities and \$340,000 of the obligation the Company repaid on March 23, 2005, which was not already classified as current, was reclassified to that designation.

NOTE 9 RELATED-PARTY TRANSACTIONS

Relationships with the Price Family: As of February 28, 2005 Sol Price beneficially owns approximately 41.0% of the outstanding Common Stock. Sol Price is the father of Robert E. Price, the Chairman of the Board and Interim Chief Executive Officer of the Company. Robert E. Price beneficially owns approximately 46.1% of the outstanding Common Stock, including shares that may be deemed to be beneficially owned by Sol Price. Sol Price and Robert E. Price together beneficially own approximately 53.3% of the outstanding Common Stock.

Series A and Series B Preferred Stock. In January 2002, entities affiliated with Sol Price, Robert E. Price, James F. Cahill, Murray L. Galinson and Jack McGrory, purchased an aggregate of 1,650 shares of the Company's Series A Preferred Stock for an aggregate purchase price of \$1,650,000. In July 2003, entities affiliated with Sol Price, Robert E. Price, James F. Cahill, Murray L. Galinson and Jack McGrory, purchased an aggregate of 22,000 shares of the Company's Series B Preferred Stock for an aggregate purchase price of \$22,000,000. In connection with the Financial Program that was approved by the stockholders on October 29, 2004, the 1,650 shares of Series A Preferred Stock were exchanged for 183,405 shares of the Company's common stock, and 22,000 shares of the Series B Preferred Stock were exchanged for 2,200,000 shares of common stock.

Relationships with the Price Group: In February 2004, the Company entered into an agreement with the Price Group which provided the Company with up to \$10.0 million of purchase order financing. Directors Robert E. Price, Murray L. Galinson, Jack McGrory and former director James F. Cahill are managers of the Price Group and collectively own more than 80% of that entity. The agreement allowed the Price Group to place a lien on merchandise inventories in the United States as security for such financing. Interest accrued at a rate of 1% per month. In July 2004, this agreement was amended to increase the funds available from the Price Group by \$5.0 million (to a total of \$15.0 million) for purchase order financing. This additional funding was secured by the Company's pledge of shares of its wholly-owned Panamanian subsidiary, PriceSmart Real Estate Panama, S.A. On October 29, 2004 amounts owed under this agreement were converted into 1,948,227 shares of Common Stock as part of the Financial Program that was approved by the stockholders on October 29, 2004.

In May 2004, the Company entered into another agreement with the Price Group to sell the real estate and improvements owned by the Company in Santiago, Dominican Republic. The purchase price was to be the fair market value of the property and improvements as determined by an independent appraiser. Under the terms of the agreement the Price Group made an initial payment of \$5.0 million, with the balance to be paid upon closing, and if the closing did not occur for any reason, the initial payment was to be returned to the Price Group, plus accrued interest at the rate of 8% per annum. The agreement was subject to several contingencies, including the

Table of Contents

right of each party to terminate the agreement after receipt of the final appraisal report, and the approval by the Board of the final terms of the agreement. This Agreement was to terminate on August 31, 2004, however, on August 30, 2004, this agreement was extended for an additional 90 days, until November 30, 2004. On October 29, 2004 amounts owed under this agreement were converted into 648,973 shares of Common Stock as part of the Financial Program that was approved by the stockholders on October 29, 2004.

In August 2004, the Company entered into a \$25.0 million bridge loan with The Price Group, LLC. This loan accrued interest at 8% per annum. On October 29, 2004 amounts owed under this agreement were converted into 3,164,726 shares of Common Stock as part of the Financial Program that was approved by the stockholders on October 29, 2004.

On November 5, 2004, the Company entered into a short-term loan agreement for \$3.0 million for a period of 90 days at a rate of 5% with The Price Group. This short-term loan was repaid in full on January 10, 2005.

Relationship with Price Legacy Corp: Sol Price had beneficial ownership through the Price Group and various family and charitable trusts of approximately 28.0% of the common stock (the Price Legacy Common Stock) of Price Legacy, formerly known as Price Enterprises, Inc. (PEI). Robert E. Price beneficially owned approximately 25.5% of the Price Legacy Common Stock, including shares that may have been deemed to be beneficially owned by Sol Price, and served as the Chairman of the Board of PEI until November 1999. Collectively, Sol Price, Robert E. Price and parties affiliated with them, including The Price Group, beneficially owned an aggregate of approximately 37.6% of the Price Legacy Common Stock. James F. Cahill, Murray L. Galinson and Jack McGrory, current and former directors of the Company, beneficially owned approximately 16.4%, 16.1% and 15.9%, respectively, of the Price Legacy Common Stock, including shares that may have been deemed to be beneficially owned by Sol Price and Robert E. Price. In addition, each was a director of Price Legacy and Jack McGrory served as Chairman, President and Chief Executive Officer of Price Legacy. On December 21, 2004, Price Legacy was acquired by PL Realty, LLC and the above mentioned persons' ownership in Price Legacy or the surviving entity ceased.

On March 26, 2004, the Company moved into its new headquarters located in San Diego, CA. Prior to this move, the Company leased office space from Price Legacy to house its headquarters. In April 2004, the Company received \$500,000 from its then landlord, Price Legacy, as an incentive to terminate early the lease of its headquarters. For the six months ended February 28, 2005 and February 29, 2004, the Company paid Price Legacy \$0 and \$173,000 in rent, respectively.

Use of Private Plane: From time to time members of the Company's management used a private plane owned in part by PFD Ivanhoe, Inc. (PFD Ivanhoe) to travel to business meetings in Central America and the Caribbean. The Price Group owns 100% of the stock of PFD Ivanhoe, and Sol Price and James F. Cahill are officers of PFD Ivanhoe. The Price Group's members include Sol Price, Robert E. Price, James F. Cahill, Murray Galinson and Jack McGrory. Prior to March 2003, when the Company used the plane, it reimbursed PFD Ivanhoe for a portion of a fixed management fee and additional expenses PFD Ivanhoe incurred based on the number of hours flown, and also reimbursed PFD Ivanhoe for direct charges associated with use of the plane, including landing fees, international fees and catering. Since March 2003, the Company reimburses PFD Ivanhoe based on the amounts the passengers would have paid if they had flown a commercial airline if one or more of the passengers is a Director of the Price Group (including Robert E. Price). If the passengers are solely PriceSmart, Inc. personnel, then the Company reimburses PFD Ivanhoe for a portion of the fixed management fee and additional expenses PFD Ivanhoe incurred as a result of the hours flown including direct charges associated with the use of the plane, landing fees, catering, and international fees. The Company paid approximately \$71,000 and \$40,000 for the six months ended February 28, 2005 and February 29, 2004, respectively, to cover these costs.

Put Option Agreement: On December 15, 2003, the Company entered into an agreement with the Sol and Helen Price Trust, a trust affiliated with Sol Price, giving the Company the right to sell all or a portion of specified real property to the Trust at any time on or prior to August 31, 2004 at a price equal to the Company's

Table of Contents

net book value for the respective properties and upon other commercially reasonable terms. The specified real property covers both the land and building at nine warehouse club locations. As of August 31, 2004, the net book value of this real property was approximately \$54.9 million with approximately \$29.9 million of encumbrances (including \$5.1 million received as an advance payment for one of these properties). Under the terms of the agreement, the Company would have the option, but not the obligation, to lease back one or more warehouse club buildings at an annual lease rate equal to 9% of the selling price for the building and upon other commercially reasonable terms. On August 30, 2004, this agreement was extended for an additional 90 days. As a result of the Financial Program, the Company did not exercise its rights under this agreement or extend it further.

Promissory Notes: In August 1998, Brud E. Drachman, Thomas D. Martin and Edward Oats purchased 1,894, 10,000 and 1,180 shares of common stock, respectively, pursuant to the stock purchase feature of the 1998 Equity Participation Plan. These officers delivered to the Company promissory notes in the amounts of \$19,357, \$108,500 and \$12,803, respectively. In August 1998, the Gans Blackmar Stevens Profit Sharing Plan FBO Robert M. Gans purchased 8,750 shares of common stock pursuant to the stock purchase feature of the 1998 Plan and delivered to the Company a promissory note in the amount of \$94,937.50. In August 1998, William J. Naylon purchased 7,500 shares of common stock pursuant to the stock purchase feature of the 1998 Equity Participation Plan and delivered to the Company a promissory note in the amount of \$81,375. In April 2000, John Hildebrandt purchased 3,738 shares of common stock pursuant to the stock purchase feature of the 1998 Equity Participation Plan and delivered to the Company a promissory note in the amount of \$149,987. The promissory notes delivered by Messrs. Drachman, Martin, Naylon and Oats, and the Gans Blackmar Stevens Profit Sharing Plan initially were non-recourse notes, bore interest at a rate of 6% per annum and had terms of six years. These notes were amended in June 1999 to become recourse notes, bearing interest at a rate of 5.85%. Mr. Hildebrandt's note is also a recourse note, bearing interest at a rate of 5.85%, with a term of six years. In August 2004, upon the expiration of term of their respective promissory notes, Messrs. Drachman, Martin, Naylon, Oats and the Gans Blackmar Stevens Profit Sharing Plan FBO Robert M. Gans paid all remaining principal and interest due under the notes by delivering an aggregate of 22,195 shares of common stock valued at \$7.56 per share (the closing price of the common stock on August 6, 2004) and paid an aggregate of \$149,177 in cash. Messrs. Drachman, Martin, Naylon, Oats and Gans received cash bonuses in August 2004, the after-tax proceeds of which were equivalent to the cash portion of the repayments described above. The initial principal amount on Mr. Hildebrandt's promissory note remains outstanding, and is immediately due and payable upon the termination of Mr. Hildebrandt's employment for any reason.

Relationships with Edgar Zurcher: Edgar Zurcher has been a director of the Company since November 2000. Mr. Zurcher is a partner in a law firm that the Company utilizes in legal matters and incurred legal expenses of approximately \$50,000 during the first six months of fiscal 2005. Mr. Zurcher is also a director of a company that owns 40% of Payless ShoeSource Holdings, Ltd., which rents retail space from the Company. The Company has recorded approximately \$387,000 in rental income for this space during the first six months of fiscal 2005. Mr. Zurcher is also a director of Banco Promerica, from which the Company has recorded approximately \$209,000 of rental income for the first six months of fiscal 2005 for space leased to it by the Company. The Company received approximately \$374,000 in incentive fees on a co-branded credit card the Company has with Banco Promerica in the first six months of fiscal year 2005. In February 2005, the Company received a refund of approximately \$400,000 for an accumulated marketing fund related to the co-branded credit card with Banco Promerica. Mr. Zurcher is also Chairman of the Board of Banca Promerica (Costa Rica), which lent \$900,000 as part of a \$5.9 million syndicated loan to the Company in fiscal 2000, and repaid in October 2004. During fiscal 2001, the Company entered into a \$1.9 million short-term credit facility with Banco Promerica (El Salvador), of which none is outstanding as of February 28, 2005.

Relationships with Grupo Gigante, S.A. and Angel Losada M.: Gigante beneficially owns approximately 6.9% of the outstanding Common Stock. In January 2002, the Company entered into a 50/50 joint venture with Gigante to construct and operate warehouse stores in Mexico. In addition, Angel Losada M., one of the directors of the Company, is currently Chairman of the Board of Directors and Executive President of Gigante. Mr. Losada also owns 13.5% of the common stock of Gigante, and together with members of his family, owns an aggregate

Table of Contents

of 69.4% of the common stock of Gigante. In fiscal 2004, Gigante purchased an aggregate of approximately \$123,000 of products from PriceSmart Mexico, the 50/50 joint venture subsidiary in Mexico. During the third quarter of fiscal 2002, the Company's Mexico joint venture began negotiations to lease certain property from Gigante in Mexico City, upon which the joint venture may construct and operate a membership warehouse club. In October 2002, the joint venture entered into a memorandum of intent for the allocation of construction expenses in connection with the proposed lease. In February 2005, the Company and Grupo Gigante S.A. announced the closure of the three warehouse clubs operated by PriceSmart Mexico effective February 28, 2005.

In January 2002, Gigante purchased 15,000 shares of the Company's Series A Preferred Stock for an aggregate purchase price of \$15,000,000 pursuant to a Series A Preferred Stock and Warrant Purchase Agreement entered into on January 15, 2002 between the Company and Gigante. Gigante also received a warrant to purchase 200,000 shares of the Company's common stock at an exercise price of \$37.50 per share, subject to customary anti-dilution adjustments. The warrant expired one year from the date of issuance. On November 23, 2004, the Company issued an aggregate of 1,667,333 shares of its common stock to Gigante in exchange for all of the outstanding shares of the Company's Series A Preferred Stock held by Gigante as part of the Financial Program.

Relationship with PriceSmart Mexico: The Company sold inventory to PriceSmart Mexico and charged it for salaries and other administrative services. Such transactions are in the ordinary course of business, at negotiated prices comparable to those of transactions with other customers. For the first six months of fiscal year 2005, export sales to PriceSmart Mexico were approximately \$214,000 and are included in total export sales of \$371,000, on the consolidated statements of operations. Under equity accounting, for export sales to PriceSmart Mexico, the Company's investment in unconsolidated affiliate has been reduced by the Company's portion of the unrealized profit from these sales. Salaries and other administrative services charged to PriceSmart Mexico for the first six months of the fiscal year 2005 were approximately \$26,000.

Relationships with PSC, S.A.: PSC, S.A. beneficially owns approximately 3.1% of the Company's common stock. In addition, Mr. Zurcher is a director and 9.1% stockholder of PSC, S.A. In August 2002, the Company entered into a joint venture agreement with PSC, S.A. to form a new subsidiary to construct and operate a warehouse club in Nicaragua. The Company owns a 51% interest and PSC, S.A. owns the outstanding 49% interest in the subsidiary. In connection with the joint venture, in September 2002, PSC, S.A. purchased 79,313 shares of Common Stock from the Company at a price of \$33.50 per share, which is equivalent to the Company's capital investment in the joint venture.

Relationship with Philippines minority interest shareholder: The Company formerly utilized the importation and exportation businesses of one of its minority shareholder in the Philippines for the movement of merchandise inventories both to and from the Asian regions to its warehouse clubs operating in Asia. As of February 28, 2005, the Company had a total of approximately \$645,000 in net receivables due from the minority interest shareholder's importation and exportation businesses, which is included in accounts receivable on the consolidated financial statements.

The Company believes that each of the related party transactions described above were on terms that the Company could have been obtained from unaffiliated third parties.

Table of Contents**NOTE 10 SEGMENT REPORTING**

The Company is principally engaged in international membership shopping warehouses operating primarily in Latin America, the Caribbean and Asia as of February 28, 2005 (see Note 1). The Company operates in four segments based on geographic area and measures performance based on operating income. Segment amounts are presented after converting to U.S. dollars and consolidating eliminations. Certain revenues and operating costs included in the United States segment have not been allocated, as it is impractical to do so. The Mexico joint venture is not segmented for the periods presented and is included in the United States segment. The Company's reportable segments are based on management responsibility.

	United States Operations	Latin American Operations	Caribbean Operations	Asian Operations	Total
Six Months Ended February 28, 2005
